CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN THE AMERICAN AND FOREIGN MARKETS.

VOL. IV. TORONTO, ONT., JANUARY 4, 1899 No. 50.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac smilie of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps . . . .

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—12 x 12-30 feet White Pine Timber. THOS. MYLES' SONS, Hamilton, Ont.

FOR SALE.

CORPORATIONS OR OTHERS WANTING Cedar Dimension Timber, Paving Blocks or Cedar Poles, will find it to their advantage to write us for quotations MOHR & RYAN, Killaloe Station, Ont.

FOR SALE.

ROCK ELM SQUARE TIMBER, ABOUT 8,000 cubic feet. Will deliver in G.T.R yard near Owen Sound. Also Rock Elm or Cedar Piling, any length. To be taken out this winter. Write J. E. MURPHY, Hepworth Station, Ont.

BASSWOOD WANTED.

FOR IMMEDIATE SHIPMENT, AIR DRIED, 1", 1¼" and 2" thick plump, square edge, rough, 12' long, 10% 10' long. The 2" Bass could be round edges, random widths and lengths. "WHOLESALE LUMBER," Box 862, Bangor, Maine.

WANTED.

ROCK MAPLE BLOCKS FOR MANGLE ROLlers, car lots, sizes 26 in. x 6½ in, 22 in. x 6½ in., 26 in. x 5¾ in., and 22 in. x 5¾ in., first quality. State lowest prices loaded on cars, railway station; immediate delivery; state quantity.
Box 222, CANADA LUMBERMAN.

ENGINE FOR SALE.

ONE HEAVY DUTY HIGH SPEED ARMINGton & Sims pattern Automatic Cut-off Engine, cylinder 19 in. diameter, stroke 30 in., 6 in. steam connection. This engine is capable of 200 horse power at 120 revolutions per minute; it is in good working order, and has been replaced by a heavier engine of greater capacity. For further particulars apply at once to the GUTTA PERCHA & RUBBER MANUFACTURING Co. of Toronto, Limited, 61-63 Front street west, Toronto.

FOR SALE

YOUNG'S POINT MILLS—IN THE VILLAGE of Young's Point, namely, saw mill, shingle mill and planing factory, all run by water power and in good order; about 5 acres land adjoining mill property, upon which are situate four dwelling houses, one blacksmith shop, stables, etc.; saw mill has large circular saw, edger, butting saw, and power supplied by two 44-in. Giant wheels; shingle mill, one Perkins machine, two jointers and blocking saws, run by a 44-in. Giant wheel; planing factory, one large planer and matcher, one four-sided moulder, one splitting Saw, all iron; power supplied by two 40-in Leffel wheels; this property has a most desirable location, being situate on the Otonabee River, on the route of the Trent Valley Canal, and five miles from the Village of Lakefield. For further particulars and terms of sale apply to CORNELIUS YOUNG, Young's Point, or to DANIEL O'CONNELL, Solicitor, Peterborough.

INFORMATION WANTED.

The publishers of the CANADA LUMBERMAN have forwarded to lumber manufacturers throughout the Dominion a circular requesting certain information regarding the trade of the year 1898, the data being required for the annual review to appear in our February number. Persons receiving these circulars will confer a favor by returning same, with the required particulars, to this office without delay. Readers are respectfully asked to assist us as far as possible by placing at our disposal their views regarding the trade of the year.

CURRENT TRADE CONDITIONS.

ONTARIO.

Although the lumber demand is quiet at present, as might be expected, the prospects are by no means discouraging, and lumbermen generally are preparing for increased business in 1899. Stocks are below the average, and the building and manufacturing industries are in a prosperous condition, giving hope of a steadily growing consumption of lumber. Encouraged by these conditions, manufacturers are operating in the woods on a scale equal to or larger than last winter, and are paying greater attention to the getting of stock suitable for the local market. An advance in the price of certain grades of pine is expected before the spring. Mild weather is interfering with logging operations in some localities. Dealers continue to receive orders for hardwood lumber which cannot be filled, owing to inability to find the stock. Basswood has been completely sold out, and there is no quantity of the other hardwoods to be found. The scarcity has induced some manufacturers to operate their mills during the winter, but the quantity cut will not go far in supplying the demand.

QUEBEC AND NEW BRUNSWICK.

Very little has transpired within the past week affecting the lumber trade of Quebec. No stock of any account is moving, and buyers have not as yet entered the market vigorously. A transaction of some importance is the purchase by Messrs. J. Burstall & Company of the rafts of pine timber of the St. Anthony Lumber Company now wintering at Cap Rouge, Quebec, the purchase price of which is said to be nearly $150,000. The conditions of 1899 are yet uncertain, though prospects seem favorable. In New Brunswick and Nova Scotia the outlook has improved, but not to the extent as to induce manufacturers to increase their operations in the woods. The stock of deals wintering at St. John is twenty-three million feet less than last year, which, with the decreased production of this winter, will no doubt strengthen the market. We understand that British buyers have shown their hand, but shippers are believed to be holding for more favorable prices, a stand which is warranted to some extent by the improved prospects in South America, the West Indies and the United States. It is much to be hoped that the overproduction of last year will not again be repeated, and it would seem that manufacturers and shippers alike are now alive to this fact. A larger profit on a smaller output is more desirable than the reverse.

UNITED STATES.

Not for many years has the lumber market of the United States closed with the same degree of strength. Nearly every class of lumber is regarded as good property, and there is not the slightest fear that present prices will not be maintained throughout the winter. Stocks of pine at the leading manufacturing centres are much smaller than at the close of 1897, while retailers and consumers have only a moderate supply, and will likely continue to buy to a more or less extent during the winter months, more particularly as low rail rates prevail. The urgent demand for box lumber continues, northern No. 4 boards being entirely cleaned up, and heavy sales of No. 3 having been made in order to supplement the lack of No. 4. It is encouraging to note that in the east the tendency is towards advanced prices. Our Buffalo correspondent points to the improved demand for pine, as well as for other woods, and forecasts a general shortage in many grades before the spring. This, we think, reflects the conditions prevailing at other wholesale points in the Eastern States. The year closed with broken stocks and a desire on the part of wholesalers to increase their holdings.

The shortage in the supply of box lumber has resulted in basswood being substituted to some extent by box manfacturers, and as a result there is very little basswood to be found in the country. It is said that box manufacturers have paid $9.50 per thousand for cull basswood at Minneapolis. Hardwoods generally are firm and scarce. In the north there has been a brisk demand for birch, to be used in furniture manufacture, and prices have advanced $2 per thousand. Maple, ash, and rock and soft elm are much inquired for by Buffalo dealers, who are paying $16 to $18 for thick 1st and 2nd soft elm, $28 to $32 for same quality white ash, and $17 to $19 for maple. Hemlock is held firmly, but the demand is backward. The spruce market is much in the same condition, although manufacturers are making a strong effort to maintain higher prices.

FOREIGN.

Australia is suffering from intense heat aud drought, and disastrous bush fires are threatening. In many parts of New South Wales rivers have dried up; business has been interfered with and work suspended. There is practically no demand for lumber. Reports from Great Britain tell of holiday quietude, although the market is firm, and buying is expected to commence very soon. Prices of Canadian woods are improving.

STOCKS AND PRICES.

It is stated that Albert Pack, of Alpena, Mich., is negotiating for mills and extensive timber lands in Chippewa county, Michigan.

The Menominee and Marinette mills, in Michigan, manufactured in 1898 408,200,000 feet of lumber, exclusive of lath and shingles.

Several of the Ottawa lumbermen are commencing to get out a considerable quantity of cedar each year, taken off the limits where the pine has already been removed.

J. W. Munro, of Pembroke, Ont., is lumbering quite extensively at Lake Wahnapitae, Ont., having 125 men and 25 teams in the woods. About 9,000,000 feet of logs have already been cut.

The Indians on the Cope, Croker and Saugeen reserves, in North Bruce, Ont., have passed a resolution asking that the islands of Georgian Bay be put up at

auction, the proceeds to be applied to a trust fund. Some of the land involved contains large quantities of pine timber.

It is stated that the Ontario Lumber Co. will start their mill at French River, Ont., as soon as logs can be obtained in the spring. The company have four large camps in the woods this winter.

A movement is said to be on foot for the consolidation of the spruce saw mills in the New England States, and further to induce a number of the mills in New York state to enter the proposed combination.

Mr. E. F. Stephenson, Dominion crown timber agent, Winnipeg, has received a return of the quantity of lumber imported into Manitoba from the United States during 1898. The amount was over 30,000,000 feet.

Pelton & Reid, of Cheboygan, Mich., have contracted with Munro & Gordon, of Pembroke, Ont., for 15,000,000 feet of logs, which are being put in on Lake Wahnapitae, and will come down French river to Georgian Bay, whence they will be towed across to Cheboygan. These logs are from Indian lands, which are not affected by the Ontario prohibitory law.

Four timber berths were sold at the Crown lands office, Fredericton, N. B., last week, at the upset price of $8 per mile. They were as follows: 2-mile berth on Four Mile brook branch of the Gulquac river, to R. A. Estey; 2½-mile berth and 9-mile berth on Crystal brook, to Samuel Adams; 2½-mile berth on Nepisiquit mill stream, to Sumner & Co., of Bathurst.

Indications point to a heavy input of northern pine logs this winter and a full running of the mills next season. In some localities, particularly the western Lake Superior and upper Michigan sections, logging conditions thus far have not been favorable, but there is sufficient time to get out a full stock of logs. In lower Michigan logging conditions are pronounced ideal, and a good average crop will be secured.

A report comes from Skagway that lumber is greatly needed. There is no building lumber there, and construction work on a half dozen buildings has been stopped in consequence. The dealers in the north had stocks at the beginning of winter which they considered ample. They did not anticipate that building would continue during cold weather. According to reports, there has been little falling off in construction work, and all the lumber that can be sent north will be used.

The Rat Portage Lumber Company, of Rat Portage, Ont., are greatly increasing their operations in the woods this winter. Their cut will probably be in the neighborhood of 50,000,000 feet. Graham, Horne & Co., late of Fort William, are logging 8,000,000 feet of pine for them on the American or Minnesota side of the Rainy river. This limit was purchased by the Rat Portage Lumber Company last summer from Congressmen Eddy, of St. Paul. Graham, Horne & Co. have an equipment of 100 men and 17 teams, the logs being banked on the ice on the Rainy river, over 3,000,000 now being skidded.

Mr. Long, who operates with Mr. Hughes, of the Beaver mills, Brandon, is logging about 2,500,000 feet some 100 miles up the Big Fork river, in Minnesota. These operators had their entire drive of 2,000,000 feet hung up in the Big Fork river last summer. They expect that if the logs get down safely in the spring, they will have a busy season next summer. The lumbermen in the Rainy River district expect that the new Ontario & Rainy River Railway will make available large tracts of timber on Rainy Lake. McKenzie & Mann's surveying party is now camped near Mine Centre, Ont., and are engaged in surveying the line both ways.

The lumber yard of the Sheppard & Morse Lumber Company, together with their dry-house and shaving shed, at Burlington, Vt., were totally destroyed by fire on the 24th inst.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is a continuation of the good feeling in the lumber trade, all on account of the stir in the east that has followed the earlier stir in the west. For a long time, practically all the season, the west and south were demanding and paying a good advance over last year for the entire range of lumber, but the east held back so persistently that it was no use to ask more here, for if it had been done the stock would have been left on our hands. It is quite a different story now. The east has found that if it is to get lumber to sell again, it must pay the price, and it appears to have come to the conclusion that it is a good thing to have lumber on hand again. For a long time very small stocks have been held east. Whenever anything was wanted, it was bought hastily and ordered in as soon as it could be delivered. In this way the trade was kept up. There was no faith in the immediate future of the trade, and lumber on hand was held to be poor property. It turned out to be true for so long that not a few members of the trade despaired of ever seeing a better price on their holdings here, though they were obliged to pay more for all they bought.

Some of the eastern lumbermen who held the cut of southern mills were astonished to find that they could sell much of it westward to better advantage than they could east, and they knew that so long as this state of things lasted there was no use in trying to mass up stock at home. They have overdone their caution, though, for there is to-day very little that can be called better property than lumber. Practically all sorts and grades are higher than they were through the summer, and if the scarcity and lack of needed grades continues, the spring will see a still further advance. It is true that the east, including this market, is still afraid to stand out for the prices that should be asked, but there is a big change here already.

We hear that there is more asked at mill centres than can be obtained in Buffalo, freight differences taken into account. It was reported that Memphis was asking $40 for four-inch ash, and even buyers say that it will be paid, but we are not yet getting a corresponding price. It is a fact, though, that anyone who has stuff of this sort, suitable for the agricultural and other machinery shops, can ask about what he likes. There is a scarcity of ash, elm and basswood, and in a less degree of poplar and maple, that is little short of alarming. Some cautious dealers are saying that such reports ought not to be allowed to get into the trade journals, for the saw-mill man watches them much more closely than the dealers and consumers do, and he will take too much advantage of the situation. Well, if that is the reason for the difference in the ability to grasp the situation, there is no reason for complaint. If the average eastern dealer leaves his lumber paper unopened, or distrusts what he finds in it, let him be frank once in a while and confess that there are those who know how to use it to a purpose.

There is about as great a shortage in pine as in hardwoods, for the grades are so badly broken that there will be nothing left of the scant ones by spring, and it now looks as though only cutting-up grades would be left anyhow, for both uppers and box are very hard to find. Tonawanda appears to be worse off than Buffalo, for almost every day there is a call from there for something of which there is none too much here.

The lakes did not close till very late, and lumber and shingles came in with the very last, something that usually does not happen. Strange enough, there was no damage to the lumber fleet at the last, in spite of the many losses to the grain fleet.

It is said that the barge Fassett, of the Holland & Emery Company, which failed to get down on the November trip, and had to be unloaded while ashore on Lake Huron, will no doubt be released in the spring. On the next trip from Byng Inlet the same tow was caught in the ice and will not deliver its lumber till spring, unless it is shipped down by rail. This is about the whole of the lumber losses for the season with which this port had to do.

The Holland yard, as well as the neighboring one of C. M. Betts & Co., and the now abandoned one of the Arthur Hill Co., was flooded a few days ago by the overflowing of the canal, caused by leaving the Black Rock lock open. Many low piles were upset, the plank roads carried off, and much damage done by the mud and rubbish that was carried over the yards. The state will have to pay for the damage, no doubt.

Speaking of the canal, it should be noted that the canal enlargement association, composed of the boating interests mainly, has about perfected a bill providing for the carrying on of the work of canal improvement, beginning with the enlargement of the locks, as should have been done at the outset. Buffalo shipped 28,182,000 feet of lumber by canal during the past season and received 2,341,000 feet. Tonawanda shipped 184,710,000 feet. The receipts by lake were 183,932,000 feet in Buffalo and 479,066,000 feet in the two Tonawandas. Both are considerably less than in 1897, partly on account of the cutting off of Canadian lumber by the tariff, and partly on account of the waking up to the need of stock after the lake freights had gone up.

The firm of F. J. Underhill & Company is in straits on account of a land deal, and has but $2,000 to pay an indebtedness of $6,000. The creditors are lumber dealers, who will accept the offer rather than allow the firm to go into bankruptcy and pay nothing.

The Buffalo Lumber Exchange will take a general stock list this month. There will be less than usual, as hardwood is very short, and there is no extra in pine to make it up.

J. C.

STOCKS AT LAKE SUPERIOR POINTS.

The shortage of bulk stocks of pine at mill points on Lake Superior is one of the favorable features of the lumber trade of the United States. According to the Northwestern Lumberman, there is about 56,000,000 feet on the docks at Ashland, Bayfield and Washburn, of which 16,500,000 feet is sold, and approximately 40,000,000 feet unsold. This is a much smaller amount than was supposed to be on the Chequamegan bay docks, but the figures are claimed to be authentic.

The Duluth-Superior stocks show a decided shortage as compared with those of last year. The total amount of stocks on docks December 1 was 120,000,000 feet, of which amount 73,000,000 feet was for sale. On December 1 last year there was 125,000,000 feet on the docks, 109,000,000 feet of which was for sale. The amount of lumber manufactured by the Duluth-Superior mills during the sawing season of 1898 was 324,000,000 feet, while in 1897 the same mills cut only 290,000,000 feet. The total amount shipped during the year ending December 1, 1898, was 333,000,000 feet, as compared with shipments amounting to 283,000,000 feet for the same period in 1897. Since December 1 there has been sold at Duluth and Superior between 5,000,000 and 6,000,000 feet, thus reducing the total of unsold stock to less than 58,000,000 feet. Norway is the only stock at the Duluth-Superior mills that shows an increase as compared with last year, and that increase is the insignificant one of 3,000,000 feet. The stock of No. 3 and No. 4 boards this year amounts to only a trifle over 15,000,000 feet, as compared with a total of over 26,000,000 feet a year ago. This comprises all thicknesses from one to two inch. The supply of No. 2 and better is a trifle under 40,000,000 feet, as compared with 63,000,000 feet on December 1 last year. All details given above refer to unsold stock.

Owing to the fact that a much lower rate of freight is in effect by rail from Lake Superior points than was the case a year ago, it is believed that a largely increased amount of stock will be sent forward by rail this winter, so that every indication points to a practical cleaning up of dock stocks at Lake Superior points before any of the cut of next season is ready for market.

SHIPPING MATTERS.

The ship Coringa and bark Louisa are loading lumber at Yarmouth, N. S., for the River Platte.

Owing to the change to be made in freight rates on pulp wood by the Canadian railway companies, the Niagara Falls paper mills are said to be perfecting plans whereby all this class of freight will be handled by other roads. The plan is to have the wood taken across Lake Ontario to Charlotte or some other advantageous lake port, and then shipped by rail, either over the New York Central or the Rome, Watertown, and Ogdensburg Railways, to Niagara Falls.

R. Douglas and W. V. Bluemanchal have registered proprietors of the Rigaud Milling Co., lumber merchants, Montreal.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts. per 100 lbs. Ottawa to Buffalo, 12 cents per 100 lbs.; Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts. per 100 lbs., lightered 19 cts. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.: Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2 20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively; Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct, Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior, Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, for track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including lighterage within the free litherage limits of New York harbor, are 2 cents per 100 lbs additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deschenes Mills, 5c.; Carleton Junction, 6c; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C P.R. also make the following rates on seasoned pine lumber to West St. John, N B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 13 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber or consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN THE AMERICAN AND FOREIGN MARKETS.

VOL. IV. TORONTO, ONT., JANUARY 11, 1899 No. 51.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac smilie of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—12 x 12-30 f-et White Pine Timber. THOS. MYLES' SONS, Hamilton, Ont.

WANTED.

ORDERS FOR HEMLOCK LUMBER AND Timber. Logs in stock from ten to thirty feet. Load at Wiarton. Address PICKARD & ROWAN, Mar P.O., Ont.

FOR SALE.

CORPORATIONS OR OTHERS WANTING Cedar Dimension Timber, Pavi g Blocks or Cedar Poles, will find it to their advantage to write us for quotations MOHR & RYAN, Killaloe Station, Ont.

FOR SALE.

ROCK ELM SQUARE TIMBER, ABOUT 8,000 cubic feet. Will deliver in G.T.R. yard near Owen Sound. Also Rock Elm or Cedar Piling, any length. To be taken out this winter. Write J. E. MURPHY, Hepworth Station, Ont.

ENGINE FOR SALE.

ONE HEAVY DUTY HIGH SPEED ARMINGton & Sims pattern Automatic Cut-off Engine, cylinder 19 in. diameter, stroke 30 in., 6 in. steam connection. This engine is capable of 200 horse power at 120 revolutions per minute; it is in good working order, and has been replaced by a heavier engine of greater capacity. For further particulars apply at once to the GUTTA PERCHA & RUBBER MANUFACTURING CO. of Toronto, Limited, 61-63 Front street west, Toronto.

FOR SALE

YOUNG'S POINT MILLS—IN THE VILLAGE of Young's Point, namely, saw mill, shingle mill and planing factory, all run by water power and in good order; about 5 acres land adjoining mill property, upon which are situate four dwelling houses, one blacksmith shop, stables, etc.; saw mill has large circular saw, edger, butting saw, and power supplied by two 44-in. Giant wheels; shingle mill, one Perkins machine, two jointers and blocking saws, run by a 44-in. Giant wheel; planing factory, one large planer and matcher, one four-sided moulder, one splitting Saw, all iron; power supplied by two 40-in Leffel wheels; this property has a most desirable location, being situate on the Otonabee River, on the route of the Trent Valley Canal, and five miles from the Village of Lakefield. For further particulars and terms of sale apply to CORNELIUS YOUNG, Young's Point, or to DANIEL O'CONNELL, Solicitor, Peterborough.

BIRCH FLOORING WANTED.

An inquiry has been received from a wholesale house in Montreal for inch birch flooring, kiln dried. Our correspondent requires from eight to ten cars of this stock. Persons in a position to supply same are asked to communicate with this office.

INQUIRY FOR MAPLE BLOCKS FOR EXPORT.

The publishers of the CANADA LUMBERMAN are in receipt of a letter from a subscriber in Liverpool, England, who desires to arrange for the shipment from Canada of a large quantity of maple blocks for flooring purposes. These blocks must be 9 inches long, 3 inches wide, and 1⅜ inches deep, and put up in bundles of 24 pieces. Mill men who manufacture stock of this character, or who are in a position to do so, are requested to send particulars to this office, when they will be furnished with the name and address of our correspondent.

CURRENT TRADE CONDITIONS.

ONTARIO.

The feature of the lumber trade of the past week has been the number of enquiries for stock of all kinds. Manufacturers and dealers alike agree that the outlook for spring business is exceptionally bright, and unless unforseen obstacles arise, there is likely to be an advance in lumber prices generally, but particularly in low grade pine. Stocks at the mills are lower than they have been for years, and in no grades is there a surplus. The scarcity of hardwoods has perhaps resulted in a greater consumption of hemlock; in any case, the market for that lumber seems to be widening, and the mill men have succeeded in disposing of stocks which had been accumulating for years. Shingles, both pine and cedar, are scarce. The supply of the latter is scarcely equal to the demand, which is almost entirely of a local character. Hardwoods remain firm, although we would caution manufacturers against a probable overproduction. With a favorable winter, there is certain to be taken out a large quantity of logs, and unless discretion is used, prices are likely to be affected.

QUEBEC AND NEW BRUNSWICK.

There is a quietness in lumber circles in Quebec that is not easily understood. For some reason, contracting for stock for spring delivery is backward, and manufacturers, some of whom are carrying heavier stocks than last winter, are not entirely satisfied with the outlook. But now that the holiday season has passed, we believe more life will be exhibited. The condition of the trade in New Brunswick during 1898 is shown by the deal shipments from St. John, which were 183,413,918 feet, as against 244,169,459 feet in the previous year. Within the last two months, however, the outlook has brightened. Many of the manufacturers are carrying over less stock than usual, and are also operating very moderately in the woods. This has produced a hope that prices for all classes of lumber, including deals and shingles, will improve in the spring. In Nova Scotia a light production of logs was contemplated, and this has been further reduced by unfavorable weather for logging operations.

UNITED STATES.

Reports from the lumber markets in the United States are devoted largely to reviewing the trade of 1898, which was, on the whole, a satisfactory year. The east revived late in the season to an unexpected extent, and buyers entered the market with a great eagerness to secure stock. Wholesale dealers found that their stocks were likely to become inadequate and sought to replenish them but the prices asked at northern manufacturing points were considered beyond their reach. Later they were compelled to buy to some extent, meeting the situation by advancing wholesale prices. At many of the wholesale distributing cities stocks are badly broken. While at Buffalo and Tonawanda the great scarcity pertains to box lumber, yet of other grades of pine the supply is not ample. The demand from the east is such as to produce the hope that the spring requirement will be unusually large. Cousumers have light stocks, and retailers are by no means oversupplied. Every class of hardwoods is still enquired for, and there is no likelihood of the shortage being relieved for some weeks at least. At Buffalo there are no stocks of basswood and elm, and ash, birch and maple are sold as soon as they pass into the hands of the wholesalers. Spruce seems to be gaining ground steadily at Boston.

FOREIGN.

The condition of the timber market in Great Britain at the close of the year was satisfactory. The demand has continued active, and there is a strong hope that the spring trade will open up briskly. Some contracts have been entered into for Canadian deals and timber for spring delivery, although buying has not been as active as in some previous years. On the east coast of England, where a considerable quantity of spruce was placed in 1898, there appears to be an inclination to wait, to ascertain the turn which prices of Baltic whitewood will take. At present whitewood is selling at £5 15s per standard, and spruce at an average of £6 15s. Should these prices rule for spring goods, some believe that whitewood will be given the preference, but there is a possibility that Baltic whitewood will be advanced in the near future, to the advantage of spruce. There is a good demand for red pine of good quality, and if carefully manufactured, it is certain to compete successfully with Baltic redwood. In pine deals the most urgent demand seems to be for 11-inch stock of first quality, which is in light supply at Glasgow and some other importing centres. Hardwoods are not in heavy stock, and the demand is fair. Oak is quoted at 2s 8d to 2s 10d per cubic foot for 65 to 75 feet average, and ash is steady at 19d to 22d for 13 to 15 inch average.

STOCKS AND PRICES.

The log production on the Nashwaak river, in New Brunswick, this winter will be about 30,000,000 feet.

The superintending engineer of the Welland Canal desires tenders by January 17th for the annual supply of timber.

Messrs. Cockburn & Co., of Sturgeon Falls, Ont., are cutting 4,000,000 feet of logs this winter, to be sawn next summer.

During the year 1898 there were exported from St. John, N. B., forest products to the value of $2,987,756, against $3,938,379 for the year 1897.

Messrs. E. D. Davidson & Sons, Limited, of Bridgewater, N. S., expect to cut during the coming season 10,000,000 feet of pine and spruce lumber.

The shipments of lumber from Nova Scotia ports to trans-Atlantic countries in 1898 totalled 148,239,840 feet, a decrease of about 40,000,000 feet as compared with the previous year.

Messrs. J. T. Crawford, James Hunter and A. G. Seaman, of Wiarton, Ont., are now operating on the property recently purchased from the Barrow Bay Lumber Company, of Barrow Bay, Ont.

A Bangor, Maine, lumber dealer states that he expects the market will open next spring with a brisk demand, at prices higher than those that prevailed at the close of navigation. Random spruce was then selling at from $13 to $15.

Messrs. D. & J. Hadden, of Foxmead, Ont., have been given a contract to take out and manufacture 1,000,000 feet of pine for W. J. Lovering, of Coldwater, Ont. Messrs. Hadden have also sold 200,000 feet of soft elm, to be sawn next summer.

Two timber berths, for which tenders were recently invited, were disposed of by the Ontario government a few days ago. Six square miles in Hanmer township, northwest of Sudbury, were sold to J. R. Booth, of Ottawa, for $15,000, and a damaged berth, northeast of Pogomasing, on the C. P. R., to Alexander Barnet, of Renfrew, for $33,575.

At Fredericton, N. B., four timber berths were sold last week as follows: 2½ miles at mouth of East Branch of Rockway river, to P. Momeault, at $8 per mile; 2 miles on Mill Creek branch of Petitcodiac river, to Albert Wood, at same price; two miles on northern side of Cocaigne river, to Lockhart Lougher, at $9 per mile; 4½ miles at head of north fork of north branch Charlo river, to James Reid, at $156.

Messrs. Goodwin & Co., of Birmingham, England, desire to receive quotations from Canadian manufacturers for 200 gross broom handles, 50 in. long, 1⅛-in. thick, delivered at Cardiff, South Wales. A white handle, free from knots and imperfections, is required. United States Consul Halstead writes from Birmingham that there has been a large sale of American broom handles. He states that more could have been disposed of if the ends had been "turned in," the favorite style for broom handles in England.

KINDLY REPLY.

A number of lumber manufacturers, particularly in Ontario, have not as yet responded to our request for information regarding the trade of the year 1898. The data, to be of service, should be received immediately, and we ask the favor of a reply.

RED PINE IN GREAT BRITAIN.

Concerning red pine, the Timber Trades Journal says: The efforts to bring Canadian red pine into competition with Baltic redwood do not appear to meet with much success. The want of classification and the limitation as to lengths are the chief drawbacks. We drew the attention of our Quebec friends to this subject at the beginning of the season, when several consignments of unsorted quality were shipped to London and had to be realized at the public sales. There is no reason, now that Baltic deals are getting scarcer every year, why the red pine deals from Quebec or neighboring ports should not supply the want felt here of a really sound, cheap, house building, 3 x 9 and 11-inch deal.

The Birmingham correspondent of same paper says: In Birmingham an increasing quantity of Quebec red pine deals has been sold. They were sent over last year and again this, and there is something to be said in their favor. At the price of about £10 in Birmingham they took the place of Russian and Swedish deals, and were sold freely. What a pity it is that they are not classified. They are rough, have large knots, but are fairly sound. As joists, where they can be used whole, they take the place of more costly deals, but why do the shippers not classify them as mixed and thirds, and sell them accordingly? Till this is done there must be some disappointment experienced when they are offered for sale by merchants.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Co. say of the Barbados lumber market:

White Pine.—The arrivals have been the Lewaniki, from St. John, N. B., with 73 M shipping and 128 M 2nd quality, which was placed at $22.25 and $16.25 respectively, and the Victoria from Clyde river, with 47 M shipping and 29 M ft. hemlock, which was sold for St. Vincent at $22.25 and $15 respectively. Demand has slackened off considerably, and dealers anticipate some decline in prices. In spruce, above vessel had a small lot of 6 M shippers and 27 M 2nd quality, which was sold at $18.03 and $13.67 respectively; and the Utility had a small quantity small and narrow 2nd quality, which we sold at $13. Stocks are quite moderate, and unless receipts are free, or the price of 2nd quality white pine declines considerably, fair rates should rule.

Shingles.—The New Dominion arrived from Pasbebiac, Que., to our address, on 15th ultimo, with 680 M long Gaspe cedar, 590 M of which we placed at $5.06, deck load and inboard; no allowance for retied; the balance 90 M being of a little better quality, and brighter, being all inboard, and also being a small quantity, brought $4.40. The Duart Castle brought 190 M, which were placed at same rate, and she also had some cedar laying for importers' account. The only other arrival of this latter description has been by the Lewanika, with about 400 M. previously contracted for at $2, but considerably more are expected in fulfillment of contracts. Shooks.—No arrivals have taken place, but we have placed a small cargo of Portland, N.R., oak for January shipment at $1.22.

LOGGING PROSPECTS AND PRICES.

Of logging prospects and prices of lumber in the United aStates the American Lumberman says:

It is a fortunate thing for the lumber trade, and indicative of the strong position occupied by white pine, that prospects of a heavy log input during this winter cause no apprehensions as to the strength of the lumber market during the year. In this phase of the case there probably has been no parallel to the present situation, for in other years when prospects were as bright as now the log crop and the lumber product were both much larger than now. The white pine industry has come to the point where the product will permanently be smaller than the normal demand. If white pine were to be had there is no apparent reason why the requirement for 1899 should not be as large as for 1892, but there is not the supply there was then and cannot be; consequently the product should all be marketed at firm prices. * * * There is no question about the activity in logging circles. Every jobber who can raise the money to pay for supplies is at work, and every manufacturing concern that does its own logging is crowding things to the utmost. But with all that can be done the crop will fall far short of the banner years of the white pine industry—is almost certain to lack 2,000,000,000 feet of the record. Moreover, logging is being conducted at a somewhat higher cost than in a number of previous years. Early in the season, before the mills closed down and the laborers were entirely out of the harvest fields, the preliminary woods work was done at an extremely high price; but wages have come down recently, until they are only a moderate percentage in advance of those which usually prevail. But, on the other hand, supplies are higher than they have been for years. The advance in bacon and the like adds a perceptible amount to the cost of logs, while there is a generally higher range of prices on logging equipment.

These things mean that new logs will cost more at the mills in 1899 than for a number of years past, and will necessitate a higher average range of lumber values. This should sustain the market even in lack of other strengthening influences, but such influences are not lacking Every prospect is favorable for a large, steady, and even insistent demand, which, failing to be satisfied with light stocks of lumber, will absorb the new crop practically as fast as it shall be produced and ready for shipment.

GLASGOW TRADE CONDITIONS.

In reviewing the timber trade of Glasgow for the year 1898, Messrs. Calder, Henderson & Livingston, in their annual circular, say:

The year just closed has witnessed continued activity in the timber trade. It opened with heavy stocks on hand, and prices were inclined to weaken, but they firmed up in the early summer, and have continued firm until now, with the exception of a short time about the month of August, when the imports were exceptionally heavy. There has been an excellent demand, and the amount of stock that has gone into consumption is very satisfactory. It seems impossible now to have a year go past without some interruption to business, and the branch to suffer this year has been that dealing with furniture woods. Here the demand has been much restricted through a strike of the cabinet-makers, which has been going on for about nine months and still continues. One of the outstanding features of interest during the year was the large import of American spruce battens, which got a footing owing to the high price of Baltic whitewood, and these, having turned out very satisfactorily to importers, are likely in the future to be strong competitors with the latter, provided the price be right. The rapidly increasing demand for boards in place of log timber, especially in white pine and Canary whitewood, is such as ought to command the attention of shippers. What is required in the former is an increase in the average width, for which a corresponding increase in value would be recognized.

The shipping industry has had an exceptional period of activity, and the amount of work on hand is such as to ensure a prosperous condition of things throughout the coming year. During the closing months of 1898, shipbuilders have been large purchasers of teak, mahogany, pitch pine, and long average waney board pine, and the stock of the latter carried over by merchants is comparatively small; considerable sales, however, have already been made for shipment during the coming spring by Quebec shippers.

BUSINESS NOTES.

John Coops & Sons, lumber dealers, Brooklyn, N.S., have dissolved partnership.

The lumbering firm of Joseph Martin & Sons, at Harrison River, B. C., has been dissolved.

The Sutherland-Innes Company, of Chatham, Ont., have leased a sawmill property at Exeter, Ont., and intend manufacturing staves, heading and lumber there.

Mr. Charles Neck has retired from the firm of Churchill & Sim, wood agents, London, Eng. The business will be continued by the remaining partners under the former name.

The creditors of Joseph Matthew, lumber dealer and general merchant, Sprucedale, Ont., have accepted on offer of 80 cents on the dollar. The liabilities amount to $7,000.

The Bay State Lumber Company has been incorporated at Boston, Mass., with a capital stock of $10,000. The W. H. Sawyer Lumber Company has been incorporated at Worcester, in same state, with a capital stock of $50,000.

At Chicago there is much interest manifest in northern hardwoods. Several good sales of basswood and birch were made during the holidays. Birch has a strong and urgent call, and all the dry lumber of that kind that can be scraped up in northern Wisconsin and Michigan can readily be sold. The furniture manufacturers are calling for birch as never before, and all that can be turned out during the winter can be sold at prices better than ever before were realized. Firsts and seconds by the carload are selling at $23 to $24 a thousand, and common at about $16. Such prices are $2 to $3 a thousand higher than a few months ago. All northern hardwoods are selling well, and prices at the mills are held so high that dealers in this city hesitate to pay them. But they may find that he who hesitates is lost. Should the factory demand this year hold up to the record of the last half of 1898, lumber will have to be had at almost any price. Substitutes will be sought, mixing of grades will be resorted to, and all the devices of local consumers will be employed for the purpose of keeping down prices; bnt a steady and large consumption will force them up a degree in spite of all attempts to hold them down.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 25c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.; Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2.20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively: Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct., Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior, Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, fof track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills, 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including lighterage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deschenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C.P.R. also make the following rates on seasoned pine lumber to West St. John, N B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber or consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADIAN EXPORTERS AND WHOLESALERS

Keenan Brothers
OWEN SOUND, ONT.

WANT
Rock Elm and Black Ash Dimension Stock.
Advise amount you would be able to supply if price is right.

HARDWOOD LUMBER
Winter-Sawed Stock is the Best. We commence for the season on January 2nd, and make a Specialty of White Maple, Quarter Sawed Maple Mangle Rollers (Turned or Octagonal), Elm, Beech and Basswood Lumber, Etc. No correspondence neglected.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN THE AMERICAN AND FOREIGN MARKETS.

VOL. IV. TORONTO, ONT., JANUARY 18, 1899 No. 52.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—12 x 12-30 feet White Pine Timber. THE S. MYLES' SONS, Hamilton, Ont.

FOR SALE.

TWO CARS TWO-INCH DRY PINE, LOG RUN. REID BROS., Hepworth Station, Ont.

WANTED.

ORDERS FOR HEMLOCK LUMBER AND Timber. Logs in stock from ten to thirty feet. Load at Wiarton. Address PICKARD & KOWAN, Mar P.O., Ont.

FOR SALE.

CORPORATIONS OR OTHERS WANTING Cedar Dimension Timber, Paving Blocks or Cedar Poles, will find it to their advantage to write us for quotations MOORE & RYAN, Killaloe Station, Ont.

FOR SALE OR EXCHANGE.

FOR SALE OR EXCHANGE: A 12 x 14 ENGINE: 50 ft. of 22 in. Stack; a Mortise Wheel and Pinion, 5½ in face, teeth 80 and 22; a 50 in. Barber Water Wheel. All in good working order. Will take Stave and Heading Machinery, or Hemlock Lumber. GEO F. WEBBER, Creemore, Ont.

WANTED.

SOFT ELM, ROCK ELM, BLACK ASH, BIRCH, Basswood, Red Oak, and Soft Maple Lumber, 1 to 3 in. thick, and dry, for prompt shipment. I will contract for any of it is lumber to be cut to order for spring and summer delivery. Inspection at shipping point. Terms cash. E. C. BRADFORD, 71 Buhl Block, Detroit, Mich.

ENGINE FOR SALE.

ONE HEAVY DUTY HIGH SPEED ARMINGton & Sims pattern Automatic Cut-off Engine, cylinder 10 in. diameter, stroke 30 in. 6 in. steam connection. This engine is capable of 200 horse power at 120 revolutions per minute; it is in good working order, and has been replaced by a heavier engine of greater capacity. For further particulars apply at once to the GUTTA PERCHA & RUBBER MANUFACTURING Co. of Toronto, Limited, 61-63 Front street west, Toronto.

FOR SALE

YOUNG'S POINT MILLS—IN THE VILLAGE of Young's Point, namely, saw mill, shingle mill and planing factory, all run by water power and in good order; about 5 acres land adjoining mill property, upon which are situate four dwelling houses, one blacksmith shop, stables, etc.; saw mill has large circular saw, edger, butting saw, and power supplied by two 44-in. Giant wheels; shingle mill, one Perkins machine, two jointers and blocking saws, run by a 44-in. Giant wheel; planing factory, one large planer and matcher, one four-sided moulder, one splitting Saw, all iron; power supplied by two 40-in Leffel wheels; this property has a most desirable location, being situate on the Otonabee River, on the route of the Trent Valley Canal, and five miles from the Village of Lakefield. For further particulars and terms of sale apply to CORNELIUS YOUNG, Young's Point, or to DANIEL O'CONNELL, Solicitor, Peterborough.

CURRENT TRADE CONDITIONS.

ONTARIO.

While the quantity of lumber which has changed hands since the first of the year has not been large, the number of inquiries received has produced a strong feeling of hope among the trade. Present indications point to a large demand for hemlock for repairing barns and other cheap buildings; the general building outlook is good; stocks at the mills and in retail yards are light; prices show a tendency to advance. These conditions are regarded as favorable to the manufacturer. Not for many years has pine lumber held a stronger position than it does to-day, and this notwithstanding the duty on United States shipments. There is a marked degree of strength surrounding the shingle market, and the advance of last fall has been maintained. At Toronto XXX pine shingles, 16 inch, are selling at $2.25, although an effort is being made to obtain an advance of five cents on this price. The average price paid at the mill is about $1.90.

Somewhat peculiar circumstances surround the hardwood industry. The competition in buying logs is very keen in certain sections, particularly in western Ontario, and exorbitant prices are being paid by some manufacturers. Instances have occurred where, in the desire to secure a large stock of logs, buyers have not exercised that judgment which is essential to the management of every successful business. Just what the result of this will be depends entirely upon the course of the hardwood market. If, from any cause, prices during 1899 should weaken, these mill men who have paid excessive prices for logs will certainly do business on a very small margin of profit, if not at an actual loss. Should present prices be maintained throughout the season, they may be able to show a balance on the right side. The season thus far has been against a heavy production of hardwood logs. A number of operators have logs on the skids waiting for sufficient snow for hauling, and unless the balance of the winter should be particularly favorable, the contemplated input will not be reached in many cases.

MANITOBA AND BRITISH COLUMBIA.

Wholesale dealers and manufacturers in Manitoba and the Northwest are experiencing the usual winter quietude. Apart from a few small orders for sorting-up purposes, no business is doing. The market, however, is firm, as there is every indication of a continuance in 1899 of the prosperous conditions which prevailed last season. In anticipation of this, every effort is being put forth this winter to secure a large crop of logs. In British Columbia trade is quiet, but there, as in Manitoba, the outlook is favorable. For building purposes the lumber requirement promises to be large; the box trade shows signs of reviving, and the foreign demand is increasing. It is expected that China will furnish a greater outlet in the future for British Columbia timber, and that an increased quantity will be placed in the British market, provided the cost of transportation can be reduced.

UNITED STATES.

More lumber has changed hands during the first two weeks of January than in any similar period for several years past. A heavy movement by rail from the mills indicates broken assortments in wholesale and retail yards, and there is a tendency to further advance prices. Since the close of navigation, low grade stock at the head of the lakes has been marked up 50 cents per thousand. At Buffalo, Tonawanda, Pittsburg and other eastern points stocks of pine are expected to fall short of the demand. This is realized by buyers, who have endeavored to augment their supplies. The eastern spruce trade seems to be gaining strength also. The manufacturers at Boston and vicinity, at a meeting held last week, agreed upon another advance, which places 10 inch frames at $15, and 10 to 12 inch at $16. The chief interest at present centres around the hardwood trade. There has been no abatement in the consumption and consequent demand, and consumers are finding it difficult to obtain a sufficient supply to meet their requirements until the new cut is available.

FOREIGN.

Circulars to hand review at some length the timber trade of Great Britain for the year 1898. There were imported into the United Kingdom during the year wood goods to the value of £20,594,494, against £22,978,842 in 1897. Although the consumption was large and the import less than in the previous year, the stock of Canadian timber of many classes is yet quite heavy. Particulars of the Glasgow market are given in another column. At London the importation of pine deals from the St. Lawrence was 2,331,000 pieces, and of spruce deals 3,866,000 pieces. These figures are considerably less than those for the previous year. In New Brunswick and Nova Scotia spruce, the falling off is even more noticeable, being 699,000 pieces in 1898, and 1,037,000 pieces in 1897. Of timber, elm, ash, oak and red pine show a considerable increase. Elm timber has advanced, 2s 4d being paid for 50 cubic feet average. Large white ash timber is wanted, but smaller stock is plentiful. Red pine deals have been much enquired for and prices were firm throughout the year. Spruce prices continue to improve, and we understand that contracts are being entered into for spring delivery at a considerable advance over late quotations. At Manchester 2½ inch by 7 inch spruce battens are wanted by builders and wagon manufacturers. Some inquiries have been made at Glasgow for spruce deals for spring delivery, and the Caledonian Railway Company are in the market for their annual supply of wagon oak planks, which amounts to over 100,000 cubic feet. Generally, the market is considered firm.

A number of inquiries have been received by British timber merchants for battens and boards for export to Spain. Now that this market is improving, it should be possible for Canadian exporters to secure a portion of the trade. The Australian market is quiet, but it is believed that more activity will be shown in the near future.

STOCKS AND PRICES.

The Alma Lumber Company, of Alma, N. B., are shipping deals to St. John this winter.

Donald Fraser & Sons, of Fredericton, N.B., have just received a large order for box shooks from Glasgow, Scotland.

Robert Moore has a gang of 300 men at work in the woods near Loch Lomond, N.B., getting out logs for the Mispec pulp mill at St. John.

The Department of Interior, Ottawa, desires tenders by February 20th for a permit to cut timber on Berth No. 834, in the district of Alberta, N.W.T.

John L. Peck, of Hillsboro, N. B., has purchased the McRae property at Memel. Mr. Peck expects to get out over 600,000 feet of logs this winter.

R. McLean, of Kaslo, B.C., has lately returned from a trip up the Kootenay river. While absent he contracted for 2,000,000 feet of logs for the Kootenay Lake saw mill.

The Snider Lumber Company, of Gravenhurst, Ont., are taking out this winter, for next season's sawing, 4,500,000 feet of hemlock, 500,000 feet of pine, and 500,000 feet of hardwood.

An Orillia exchange states that the Arthur Hill Company, of Saginaw, Mich., have purchased the timber limits of Doolittle & Caswell, of Orillia, the consideration being in the neighborhood of $100,000.

It is expected that the present season will be one of the best the lumbermen of Maine have experienced in several years. The cut on the Kennebec waters will be about 125,000,000 feet, an increase over that of 1897 of 24,000,000 feet.

Messrs. A. McPherson & Company, of Longford Mills, Ont., have on hand about 1,300,000 feet of lumber at Ravensworth, and 1,700,000 feet at Longford Mills. The stock of shingles at these two points is 723 M and 2,000 M respectively.

The High Commissioner at London, Eng., has received a communication from a London paper agent who desires to open up correspondence with Canadian paper and pulp mills. He has also received an inquiry from Dresden for the names and addresses of exporters of wood pulp.

At a recent auction sale held by Foy, Morgan & Co., London, England, Canadian goods sold as follows: Spruce, ex Carham, from Quebec, 13-16 feet, 3 x 9 inch, 4th quality, £6 15s.; 12 feet, 3 x 9 inch, £6 10s. Pine, ex Hazelmoor, from Quebec, 16 feet, 3 x 11 inch, 1st bright white, £18 10s.

From Bangor, Maine, comes the report that 140,000,000 feet of logs will be cut on the Penobscot waters this winter. This, with the 30,000,000 to 40,000,000 feet being wintered over for early spring sawing, will give a stock sufficient for all demands. It is anticipated that there will be a considerable demand from Porto Rica and Cuba for second growth pine, known as shippers, as well as for spruce.

Concerning the Liverpool market, our contemporary, Timber, says: In harmony with the general expectation, the sheet issued on the 31st December shows that the consumption during December has been very good, being considerably more in most lines than the corresponding month in last year, the two exceptions being birch and spruce deals. In Quebec square and waney board pine the consumption has been 65,000 feet, against 55,000 feet last year, leaving the stock at 225,000 feet, a much lighter stock than at the same period of last year and 1896. In Canadian and United States oak the consumption has been 156,000 feet, against additions to stock of 130,000 feet, thus reducing the stock by 26,000 feet during the month. In spruce deals the consumption has been 3,850 stds., as compared with the arrivals of 1,750 stds., and the stock is 14,950 stds., against 20,958 stds. last year. In pine deals the consumption has been about the same as in the corresponding month last year, but the import has been several hundred standards in excess of last year, and the stock is heavy.

BUSINESS NOTES.

The assets of W. I. Storey, lumber and planing mill, Ottawa, were advertised to be sold on the 16th instant.

Jane and John Playfair have registered proprietors of the business of J. Playfair & Son, lumber merchants, Baldur, Man.

Owing to the death of the late Robert Thomson, the firm of Robert Thomson & Co., Windsor, Ont., has been dissolved. The remaining partner, Mr. William J. Pulling, has acquired the assets and good will, and will continue the business under the name of Wm. J. Pulling & Company.

THE AUSTRALIAN LUMBER MARKET.

Messrs Fraser & Company, of Melbourne, Australia, in their monthly report of the 15th ultimo, say:

The demand has been fairly steady within the past few weeks, and business has been more or less arranged in mostly every class of timber which is shipped to this market, none of which is in short supply with the exception of good Baltic red deals, and which have been further dealt in "to arrive" at satisfactory prices from a cargo now fully due. Last valuations for other kinds have been about maintained, though latterly a slight downward tendency in prices has occurred in the descriptions more generally consumed, but as the trade are holders of fair stocks bought out of previous shipments, there is no desire at the moment to enter largely into further supplies even at lower rates. Therefore it has been necessary to place meanwhile into the storage yards some proportion of the cargoes which have arrived during the past four weeks. At the close of the year, buyer's operations are not as a rule of an extensive character, but at the opening of a new year considerable improvement in the demand is generally shown, and as there is every prospect of a busy season in all our productions during the next few months, country inquiries will probably be on the increase, and a material change for the better both in respect to the volume of business and values generally may be anticipated.

SPRUCE AND BALTIC WHITE DEALS.—Imports: 2,368,979 superficial feet. Arrivals: Gratia, from St. John; Bayard, from Quebec; Himalaya, from San Francisco. Buyers are almost fully stocked for the present, and efforts made to effect sales from the above shipments have not yet been successful. We quote 2 5/8d. to 2 3/4d. per foot of 9 x 3 as full market value. With supplies "to arrive," stocks will be found ample to meet all wants for some time to come.

OREGON PINE.—Imports: 2,569,961 feet super. Arrivals: Veritas and Gladys, from Chemainus, B. C.; Carrier Dove, from Puget Sound. The above-named shipments per Veritas and Carrier Dove have gone into the yards of the importers; but the cargo per Gladys is being offered to the trade upon the basis of £5 10s. per 1000 feet for an average assortment of sizes, without, however, leading to operations being concluded. The bulk of the shipment is therefore being stored until such time as buyer's stocks are reduced to a limit as will enable them to entertain further purchases. After the New Year business in Oregon is likely to be more active.

TIMBER TRADE OF THE CLYDE.

The yearly timber circular of Messrs. Edmiston & Mitchell, Glasgow, Scotland, reviews the timber trade of the Clyde at some length. It shows that during 1898 the total import was 312,000 loads, a decrease of 25,000 loads as compared with the previous year, while the consumption increased in 1898 by 57,000 loads. The circular says:

The import of white pine logs is again considerably reduced, and every year the trade is tending more and more towards the use of sawn lumber, which has been largely imported, cut to all thicknesses. Oak, elm, ash and red pine are all somewhat in excess of recent years' importation. In spruce the import has been extremely large, and has exceeded that of 1897 (which was a record year) by about 5,000 standards. This is largely owing to this commodity taking the place of Baltic white pine. Notwithstanding this, however, values have been well maintained throughout the year.

WANEY BOARDWOOD.—1st class—During the early part of the year the inquiry was very languid, but with the arrival of the fresh timber a considerable demand sprung up, and some large transactions took place. We are not able, however, to report any advance in price, and sellers, being eager to move their stocks while there was some chance, have been content with very small margins of profit. Nineteen-inch wood has been sold at 2s. 6½d. to 2s. 7½d., and 20-in. at 1d. more. The consumption has exceeded the imports by 1,900 loads, and 30 per cent. of the stock is held by consumers. 2nd class—A large percentage of the remaining stock comes under this category, and the market will take a long time yet to recover from the overdose which it got three years ago.

RED PINE.—The year began with no stock on hand, and owing to our railway companies being unable to secure their requirements in this timber, they have been using substitutes, with the result that sales have been somewhat disappointing, and there are still 460 loads available. The value of 48 to 50 cubic feet average wood is 2s. Several shipments of sawn logs brought from 12d. to 16d.

OAK.—The import has exceeded that of the last two years by over 1,000 loads. The demand, however, has been fair, and although the stock carried forward to next year amounts to 2,900 loads, half of this is held by consumers. Timber to average 75 cubic feet per log has been sold at 3s. Really good wood is not too plentiful, but, on the other hand, all the large buyers are well stocked.

ELM.—Throughout the year there has been a steady demand for good timber, and, despite an increased import, prices have advanced, and as high as 2s. 4d. has been paid for 50 cubic feet average. A large portion of the stock carried to next year is of inferior quality.

BIRCH.—The import for the year from Montreal and Quebec amounts to about 700 loads, and from the Lower Ports 850 loads. Prices for Canadian logs have continued very firm throughout the year at from 1s. 3d. for 14-in. up to 1s. 10d. for 18-in., but Lower Port logs have been difficult to move at anything over a penny an inch. The stock of Canadian birch in first hands is small, but there is a considerable quantity of Pictou wood on hand, which unfortunately includes a large proportion of inferior logs, making it difficult of disposal unless at low prices. A fair business has been done in planks, prices for which have ranged from £6 to £8 per standard.

ASH.—The import amounts to about 1,400 loads, and consisted principally of small logs averaging about 14-in. On the whole, prices have been fairly steady at from 1s. 6d. for small wood up to 1s. 10d. for 16-in., but the consumption has been much interfered with by the strike in the furniture trade. Large white ash logs are wanted, but the stock of small stuff is quite ample for probable requirements.

QUEBEC DEALS.—The import of all kinds from Montreal and Quebec has been about 30,000 standards, being about 2,000 standards over last year, and the consumption has been correspondingly good. Prices, however, have not been favorable to the shipper, a drop having taken place early in the year, which has not been recovered since. They are, however, firmer at the moment than in midsummer, and the prospects being good, they should improve a little before the advent of new supplies. Current values have been as under: 1st pine, broads, £22 to £24; 11-inch, £20 10s. to £22; non-dimensions, £15 10s. to £18 10s.; ends, £15 to £18; strips, £12 10s. to £15. Second pine.—Regulars, £16 to £18; non-dimensions, £10 to £13. Third pine.—Broads, £10 to £11; 11-in., £9 10s. to £10; narrows, £7 to £8; strips and ends, £6 15s. to £7 10s. Fourth pine deals have been sold as low as £6 3s. 9d. per standard for 11-inch and £5 15s. for narrows, but sales lately have been made at £7 and £6 per standard respectively. Red pine deals have been scarce throughout the year, and parcels arriving have met with a ready market at fair prices, 9 and 11-in. realising £9 to £10 10s., and narrower sizes from £8 to £9 per standard. Pine sidings and boards have been done at £16 to £19 for 1st quality of good breadths, and £12 10s. to £14 for narrows; 3rd quality have been sold at £7 10s. to £9 per standard, according to specification.

LOWER PORT PINE AND SPRUCE DEALS.—Imports of Lower Port pine and spruce are about 20 per cent. over those of last year, being about 22,000 standards spruce and about 5,000 standards pine. Prices have been fairly steady all year, pine ranging from £5 10s. to £6 5s. for narrows and £6 5s. to £7 for 11-inch; and spruce, £6 to £6 7s. 6d. for 7-inch, £6 5s. to £6 15s. for 8-inch, and £6 15s. to £7 5s. for 9 and 11-inch.

William Archer, carpenter and lumber dealer, of Toronto, is announced to have assigned to George Day. A meeting of creditors is called for January 23rd.

The dissolution is announced of the firm of S. Gillies & Son, who operated saw and planing mills at Ailsa Craig and London, Ont., and Davison, Mich. S. Gillies continues at Ailsa Craig and Davison, and D. H. Gillies at London.

J. A. Rice, lumber dealer, Foxwarren, Man., has sold out.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 25c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.: Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2.20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively; Beeton, Allandale, Orillia, etc., $2 20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct., Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior, Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, fof track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills, 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including litherage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deschenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C.P.R. also make the following rates on seasoned pine lumber to West St. John, N B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber or consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN THE AMERICAN AND FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JANUARY 25, 1899 No. 1.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—12 x 12-30 feet White Pine Timber. THOS. MYLES' SONS, Hamilton, Ont.

FOR SALE.

TWO CARS ONE-INCH DRY PINE, LOG Run. REID BROS., Hepworth Station, Ont.

WANTED.

ORDERS FOR HEMLOCK LUMBER AND Timber. Logs in stock from ten to thirty feet. Load at Wiarton. Address PICKARD & ROWAN, Mar P.O., Ont.

FOR SALE.

CORPORATIONS OR OTHERS WANTING Cedar Dimension Timber, Paving Blocks or Cedar Poles, will find it to their advantage to write us for quotations MOHR & RYAN, Killaloe Station, Ont.

FOR SALE OR EXCHANGE.

FOR SALE OR EXCHANGE: A 12 x 14 Engine; 50 ft. of 22 in. Stack; a Mortise Wheel and Pinion, 5½ in. face, teeth 80 and 22; a 50 in. Barber Water Wheel. All in good working order. Will take Stave and Heading Machinery, or Hemlock Lumber. GEO F. WEBTER, Creemore, Ont.

WE WANT HARDWOOD LUMBER, MILL cuts. Must be able to ship by water. Correspondence solicited. V. H. SWEINHART & CO., 94 E. Washington St, Chicago.

ENGINE FOR SALE.

ONE HEAVY DUTY HIGH SPEED ARMINGton & Sims pattern Automatic Cut-off Engine, cylinder 19 in. diameter, stroke 30 in., 6 in. steam connection. This engine is capable of 200 horse power at 120 revolutions per minute; it is in good working order, and has been replaced by a heavier engine of greater capacity. For further particulars apply at once to the GUTTA PERCHA & RUBBER MANUFACTURING CO. of Toronto, Limited, 61-63 Front street west, Toronto.

We have received an enquiry for the address of manufacturers of wooden butter plates. Persons in this line of trade will oblige by communicating with the publishers of this journal.

FOR SALE

YOUNG'S POINT MILLS—IN THE VILLAGE of Young's Point, namely, saw mill, shingle mill and planing factory, all run by water power and in good order; about 5 acres land adjoining mill property, upon which are situate four dwelling houses, one blacksmith shop, stables, etc.; saw mill has large circular saw, edger, butting saw, and power supplied by two 44-in. Giant wheels; shingle mill, one Perkins machine, two jointers and blocking saws, run by a 44-in. Giant wheel; planing factory, one large planer and matcher, one four-sided moulder, one splitting Saw, all iron; power supplied by two 40-in Leffel wheels; this property has a most desirable location, being situate on the Otonabee River, on the route of the Trent Valley Canal, and five miles from the Village of Lakefield. For further particulars and terms of sale apply to CORNELIUS YOUNG, Young's Point, or to DANIEL O'CONNELL, Solicitor, Peterborough.

CURRENT TRADE CONDITIONS.

ONTARIO.

The present open winter is causing operators in hardwood timber some anxiety. In western Ontario there is not sufficient snow for hauling purposes, and unless winter weather, accompanied by snow, should set in immediately and continue steadily for a couple of months, the production of logs will be curtailed. Should this prove to be the case, it will have the result of reducing the lumber supply, and therefore of maintaining the strength of the market. With a favorable logging season this winter, the crop of hardwood logs would doubtless have been large, but nature seems likely to prevent the consummation of this probability. In regard to prospective business the outlook is very hopeful. Manufacturers report numerous inquiries for both green and dry stock. Consumers show a disposition to secure themselves by contracting in advance of requirements, apparently having little hope that prices will be any lower. There is a good demand for hemlock, which seems likely to advance before spring. A fair movement of pine lumber, for local consumption, is reported. Some of the lower grades have stiffened in price, owing to the stock being scarce.

QUEBEC AND NEW BRUNSWICK.

Lumber manufacturers in Quebec and New Brunswick are looking forward to the season of 1899 as likely to be more prosperous than that of last year. The market has been strengthened by the position taken by the operators, who are refusing to contract except at prices which give a fair margin of profit. The quantity of stock available for shipment is by no means large, while the input of logs will be, as previously stated, very much reduced. In many districts the winter has so far been unfavorable for logging, owing to the continued mild weather. As to actual transactions, it is announced that several mill cuts have been sold. For spruce deals, delivered at St. John, $10.50 has been paid and $11 asked, and at other ports $9.50 is the price reported. This is a considerable advance upon last year's quotations, and it would seem as if the day had passed for selling spruce deals at the actual cost of production.

UNITED STATES.

If the reports received from certain distributing centres of the United States reflect the general conditions of the country, the position of the lumber trade at the present time is unusually strong. Even in the absence of much demand for lumber for building purposes, the trade of the past week has been of considerable volume. Wholesale dealers and consumers have been looking about for stocks, and manifest a willingness to contract for large supplies to be delivered during the year. Were prices not held so firmly at the mills, more buying would certainly result, the tendency being to wait until the season is further advanced in the hope that greater inducements to the buyer will be offered. From indications, however, prices will not weaken before the early summer at least, and some contend that the present quotations will rule throughout the year. Reports from New York, Boston, Philadelphia and other eastern points indicate low stocks of hardwood lumber, an urgent inquiry, and advancing prices. For basswood and birch the demand is fully 25 per cent. greater than it has been for several years. In the south log hauling has been interfered with by excessive rains, and the production of lumber will be somewhat curtailed. In the east the red cedar shingle market is decidedly firm, and it has been possible to obtain higher prices.

FOREIGN.

In foreign countries the buying season has opened with the usual degree of activity. In Great Britain there has been considerable business done in wood goods from Norway and Sweden, and prices are, on the whole, firm. Some sales of Canadian pine and spruce have been made, and it is now generally believed that the opening prices will be fully as high as those of one year ago. Spruce delas have improved of late, and numerous inquiries are in the market. Concerning the situation as to wood goods, the Timber Trades Journal says: "That the large consumption here is fully appreciated by the foreign shippers is evidenced by the elevation of free-on-board prices, for which they have some justification in the eagerness of buyers to secure stocks in the face of a largely increased production. We are more favorable to an advance than a fall in prices, as a declining market would be almost a calamity at the present time. On the other hand, it is not our desire to encourage hopes of profits that may never come. All we can say now is that the trade is full of life and energy, and certain people who have large stakes at issue will do their utmost to keep prices from wavering." France and Belgium have purchased battens and deals quite extensively, and the market there is strong.

STOCKS AND PRICES.

McCall & Mason, of St. Williams, Ont., expect to take out this winter about 600,000 feet of logs.

It is reported that J. D. Shier, of Bracebridge, Ont., has purchased a large limit adjoining the township of Livingstone.

There is unusual activity in logging in Emmet county, Mich. Elm timber, which in former seasons sold at $6 per M., is now selling at $8.

The Standard Oil Company is reported to have made a considerable purchase of lumber from W. C. Edwards & Company, of New Edinburgh, Ont. The transaction is said to represent over $30,000.

There will be cut this winter for the McLean Estate mill, at Chipman, N.B., about 4,000,000 feet of logs. A. E. Alexander, of Campbellton, will take out in the neighborhood of 7,000,000 feet.

The manufacturers of packing boxes in the New York district have formed a combination for the purpose of advancing prices. These manufacturers are among the largest users of white pine box shooks.

"Hardwood dry stock in everything except maple, says the American Lumberman, is very scarce at Grand Rapids, Mich. There has been the marked advance of $5 per M. in white ash and quarter sawed oak since last July, $1. to $2. in elm, and 50 cents to $1 in basswood."

Figures are to hand showing the extent of the importation of wood goods into Great Britain during the year 1898. There were imported in that year hewn wood and timber to the value of £4,900,618; sawn, dressed and planed timber, £15,047,810; staves, £646,075, and mahogany, £691,314.

John Edgington, of Edgington, Ont., writes that the stock of both lumber and shingles in that vicinity is pretty well cleaned out. During the season about 1,500,000 shingles were sold. There is considerable work going on in the woods in the neighborhood, and prospects are considered good for spring business.

The American Lumberman states that the mills at Cheboygan, Mich., will have a full stock of logs for the coming season. Pelton & Reed have cleared about 15,000,000 feet in the Georgian Bay district, cut from Indian reserve lands. McArthur

Bros. are lumbering on the Beaverstone river, where they expect to take out 8,000,000 feet.

M. N. Conlin, of St. Joseph, Ont., is getting out 1,000,000 feet of logs.

Some fifty shanty teams were last week sent from Ottawa to Gilmour & Company's limits at Canoe Lake. The present season has been favorable for hauling logs, there being plenty of snow in the woods.

For the last quarter of the year 1898 the New Brunswick lumber shipped from St. John to the United States was valued at $53,784.89 while the quantity of Maine lumber sawn by St. John mills and shipped to the United States was valued at $156,670.38. In the last quarter of 1897 New Brunswick lumber represented $83,688.01, and the Maine product $179,568.72.

At a meeting of manufacturers of spruce lumber held at Boston, Mass., on January 3rd, it was agreed to adhere to the following prices: Frames, 9 inches and under, $15; 10 and 12-inch dimension, $16; 10-inch random lengths, $15; 2 x 3, 2 x 4 and 3 x 4 random lengths, $13; 2 x 5, 2x6 and 2 x 7 random lengths, $13.50; all other random lengths, 9 inches and under, $14.50; 1⅝-inch laths, $2.15; 1½-inch laths, $2; 6-inch and up merchantable boards, 10 feet and up, p.i.s., $12.50; 5-inch and up, out boards, p.i.s., $10; bundled furring, p.i.s., $12.50; planing one side, 50c.; planing two sides, $1; planing 3 or 4 sides, $1.50; planing one side and grooved, $1; planing one or two sides and matched, $1; splines, $1. These prices are based on Boston rate of freight terms (one per cent. discount for cash on net in fifteen days from date of invoice) or not to exceed sixty days.

EASTERN PRICE SITUATION.

It is a gratifying fact that not only has the volume of the eastern trade revived somewhat in fact and more in promise, but that prices, which for a long time were weak, have been put on what may be assumed to be a profitable basis, and give promise of a still further advance in the near future as the spring trade shall open up. This betterment in values, says the American Lumberman, is felt all through the eastern territory from Delaware and Pennsylvania to Maine.

In New England proper, and especially in the northern part of it, where genuine winter is pretty sure to prevail for three months to come, there is not much current demand, though there is a larger requirement than for several years past at this season. But there is a buoyant tone to the market and a general anticipation of a good business year, which is encouraging. Particularly is this the case in the manufacturing towns outside of Boston. The textile industries are expected to be in a prosperous condition, which will warrant considerable expansion of town and village building. It is too early in the year to expect very marked indications as to what is to be expected later on, but already around New York there is a considerable amount of building under way. In a great many of the suburban towns, and particularly along the seashore, a heavy amount of construction is being done to be ready by May 1. The industrial activity which is most noticeable in the iron districts is the prominent feature in many portions of Pennsylvania and New York, so that altogether the eastern trade seems well justified in its anticipation of a heavy requirement for the year and in believing that the recent advances in price are to be maintained and others instituted.

Every variety of wood is sharing in the improvement. Spruce is up a dollar or two in New England and New York, with some dimension showing a greater advance. Hemlock, which, strange as it may seem, has been selling in the east at lower prices than west of the Alleghanies, has also advanced, while the record as to white, yellow and North Carolina pine is well known. It seems, therefore, that lumbermen may count safely upon not only a firm market such as has been experienced in the last few months, but on still further price advances, which will put the industry on a profitable basis.

CANADIAN TIMBER IN LIVERPOOL.

Messrs. Smith & Tyrer, wood agents, Glasgow, Scotland, in their annual wood circular, refer to Canadian woods as follows:

SPRUCE DEALS.—The heavy stock and low prices which existed at the commencement of the year, in the regular markets, has given place to a gradually improved position, the stock now being 15,156 standards, against 20,053 standards at the end of 1897, in this market, while in other markets the position is still better. Prices have improved fully 10p per standard. The extensive shipments to the east coast and continent, thus opening up new markets, while they helped greatly to maintain values, were looked upon very doubtfully; but the quality and manufacture has proved much more satisfactory than was anticipated, and this outlet will be a permanent one. One excellent result is that it has shown the producers that this wood is capable of better things than has been displayed in the past, and they are beginning to take more pride and care in their productions. We hail this tendency with very much satisfaction, because we advocate strongly the principle that each production should be known for its individual merits, and not classified with all shipments from the same port. The output of logs during the winter is expected to show a certain reduction as against that of last winter, and, so far, in many districts the season has not been a satisfactory one for logging purposes. The stocks at the shipping ports are smaller than last year, and not excessive. An improved demand is expected from the United States and West Indies, and, perhaps, also from the South American ports.

OTHER CANADIAN WOODS.—White Pine Deals, &c., have been imported largely, and the stock is 19,602 standards, against 17,729 standards in 1897. Inferior qualities have been difficult to place, and low figures have at times been accepted. Canadian timber has gone well into consumption, and the stocks are moderate. Red Pine Deals have been imported more largely than during several years past, but a good consumption is maintained, and opening prices show an improvement upon those of last year. Birch has been difficult to place, and planks have changed hands in some instances at extremely low prices, which have necessarily left a considerable loss to the shippers.

The prices current at Liverpool on the 1st. of January were as follows:

		s.	d.	s.	d.
Quebec white pine timber:					
Square	per cu. ft.	1	2	to 2	4
Waney	"	2	0	2	10

SALE OF CANADIAN PINE AND SPRUCE.

Messrs. Churchill & Sim, London, England, held an auction sale of wood goods on January 11th and 12th, at which the following prices were realized for Canadian pine and spruce:

PINE.—Ex Brazilian, from Montreal—6-11 ft., 1 x 3, £5 10s; 9 ft. 3 x 11-20, first quality pine, £19 10s; 9 ft., 3 x 7-10 in., £16 10s; 9 ft., 3 x 4-6, £14 15s; 6-8 ft., 3 x 11-20, £18; 6-8 ft., 3 x 7-10, £13 15s; 6-8 ft., 3 x 7-10, £13 15s; 6-8 ft., 3 x 7-10, £13 15s; 6-8 ft., 3 x 6 and 3 x 5, £13 5s; 6-8 ft., 3 x 4, £12. Ex Chatfield, from Quebec—11 ft., 3 x 11,3rd quality pine, £8 5s. and £8 15s; 11 ft., 3 x 11, £8 10s; 9-10 ft., 3 x 11-21, £8 10s. Ex Belgium King, from Quebec—12-13 ft., 3 x 10 in., 3rd quality pine, £7 15s; 13 ft., 3 x 9, £7 10s; 12 ft., 3 x 9, £7 15s; 13 ft., 3 x 8, and 12 ft., 3 x 8, £7; 13 ft., 3 x 7, £6 15s; 12 ft., 3 x 7, £7 and £7 5s. Ex Monarch, from Quebec—13 ft., 3 x 9-10 in., 4th quality pine, £6 10s; 12-13 ft., 3 x 8, £6; 12-13 ft., 3 x 7, £6; 11 ft., 3 x 9-10, £6 5s; 10 ft., 3 x 9, £6 5s; 10-11 ft., 3 x 7-8, £6. Ex Greylands, from Quebec—12-16 ft., 3 x 6 in. dry 3rd quality pine, £7 5s; 12-16 ft., 3 x 5, £6 15s. Ex Ormiston, from Quebec—16 ft., 3 x 12-21 in. 2nd quality pine, £13 5s and £13 15s; 13-15 ft., 3 x 12-28, £13 15s; 14 ft., 3 x 12-27, £14 5s; 10-16 ft., 3 x 8-23, £14. Ex Unique, from Quebec—12-14 ft., 3 x 11, first quality pine, £22; 15 ft., 3 x 11, £21; 16 ft., 3 x 11, £21. Ex Devona, from Quebec—12-16 ft., 2 x 10-30 inch, first quality pine, £19 5s; 14-16 ft., 2 x 8, £19 5s; 14-16 ft., 2 x 8, £17 5s; 14-16 ft., 2 x 8-32, £19; 14-16 ft., 2 x 7-8, £17 5s. Ex Darby, from Miramichi, N.B.(J. B. Snowball's shipment)—12-13 ft., 3 x 11 in. 3rd quality pine, £6 5s; 14-15 ft., 3 x 11, £6 5s; 10-11 ft., 3 x 11, £6 10s; 12-13 ft., 3 x 9, £5 10s; 6-8 ft., 3 x 11-17 in., 2nd and 3rd quality pine, £5 10s; 3-5 ft., 3 x 11-16, £5 15s; 6-8 ft., 3 x 9, £5 5s; 3-5 ft., 3 x 9-10, £4 15s; 6-8 ft., 3 x 7-8 in., £4 10s; 6-8 ft., 3 x 7, £4 15s; 3-5 ft, 3 x 7-8, £4 5s. Ex Krim, from Quebec—12-18 ft.,1 x 7 first clear, £11 5s; 13-18 ft., 1 x 6, £10 10s; 12-18 ft., 1 x 6, £10 10s; 12-18 ft., 1 x 5 and 1 x 4, £10 5s; 6-11 ft., 1 x 4-10, £7 5s.

SPRUCE.—Ex Chatfield, from Quebec—13ft., 3 x 9 in., first quality spruce, £8 15s; 11 ft., 3 x 9, and 9-10 ft., 3 x 9, £8; 7-9 ft., 3 x 7-9, £7 10s. Ex Cameo, from Quebec—12 ft., 3 x 9 in., first quality spruce, £9; 12-17 ft., 3 x 9-10, £9 5s; 9-11 ft., 3 x 9-16, £9 15s; 12-16 ft., 3 x 8, £8 10s; 9-11 ft., 3 x 6-8, £8 10s; 12-16 ft., 3 x 6-7 in., £7 10s. Ex Kerriemoor, from Quebec—11 ft., 3 x 9 in., 2nd quality spruce, £7; 10-11 ft., 3 x 9, £7 5s. Ex Monarch, from Quebec—13-14 ft., 3 x 6 in. 3rd quality spruce, £6; 10-11 ft., 2 x 5-6 in., £5 15s. Ex Castlemoor, from Quebec—10-13 ft., 3 x 9-16 in. 2nd quality spruce, £7. Ex Ormiston, from Quebec—12-16 ft., 3 x 9, unassorted, £7 5s; 13 ft., 3 x 9, £7; 9-11 ft., 3 x 9, £6 15s; 10-16 ft., 3 x 8, £6 10s; 9-16 ft., 3 x 7, £6 10s; 9-16 ft., 3 x 6, £6; 9-13 ft., 3 x 4-5, £5 15s; 10-13 ft., 3 x 3-11, £6 5s; 5-8 ft., 3 x 5-14, £5 15s; 10-16 ft., 3-7-10, 4th quality, £6 5s; 6-13 ft., 2 x 7-10, £6 15s; 7-13 ft., 2 x 4-6, £6 5s. Ex Darby, from Miramichi, (J. B. Snowball's shipment)—12-14 ft., 3 x 11, mixed quality, £7 5s; 12-14 ft., 3 x 9, £7, and £6 15s; 9-11 ft., 3 x 8-11, £6 10s; 10-24 ft., 2 x 8, £7; 9-24 ft., 2½ x 6½, £6 5s; 10-22 ft., 2 x 7, £7; 10-23 ft., 2 x 6, £6 and £5 15s; 10-22 ft., 2 x 4, £6 10s. Ex Hazelmoor, from Quebec—12 ft., 3 x 9 in. 3rd quality spruce, £7 5s. Ex Krim, from Quebec—9-11 ft., 3 x 9 in., 2nd quality spruce, £7 5s.; 11-16 ft., 3 x 9-17 in., unassorted, £7; 11-15 ft., 3 x 7-8, £6 15s.; 9-14 ft., 2½ x 4-7, £5; 9 ft., 2 x 7-10, £5; 9 ft., 2 x 4-6, £5 15s.; 6-8 ft., 2½ x 4-6, £5; 6-8 ft., 2 x 7-11, £5 10s. Ex-Unique, from Quebec—12-16 ft., 3 x 9 in., 1st quality spruce, £9; 10-11 ft., 3 x 9-11 in., £8 5s.; 10-14 ft., 3 x 8 in., £7 10s.; 10-16 ft., 3 x 6-7 in., £7 5s.; 9-12 ft., 3x7-11 in., 2nd quality, £6 10s.; 9-12 ft., 3 x 9-11 in. 4th quality, £6 15s.; 6-12 ft., 3 x 7-8 in., £6 10s. Ex-Fernmoor, from Quebec—10-13 ft., 3 x 9-12 in., 3rd quality, £6; 10-13 ft., 3 x 7-8 in., £6 10s.; 12-14 ft., 3 x 6 in., £6 5s.; 14-16 ft., 3 x 5 in., £5 5s.; 10-11 ft., 3 x 5-6 in., £6. Spruce palings, 4 and 4½ x ¾ x 3, ex-Darby, from Miramichi, sold at 5s. 6d. to 5s. 9d.

SHIPPING MATTERS.

Coastwise freights have weakened slightly of late. It is reported that the rate on lumber from St. John, N.B., to New York has dropped from $3.50 to $3.

Free operations in sale tonnage are held in check by the reserve offerings of vessels. From Montreal comes the report that orders are in the market for the various trades and shippers in most instances are prepared to meet current rates, but the supply of vessels is limited and business is restricted in consequence.

BUSINESS NOTES.

The firm of Joseph Martin & Sons, lumbermen, Harriston, B.C., has been dissolved.

A portion of the assets of W. I. Storey, lumber dealer, Ottawa, were sold last week.

The Sheppard Lumber Company, of Orillia, Ont., has obtained charter of incorporation.

Callim & McDonough, lumber dealers, Russell, Man., are announced to have assigned to Charles Burley.

The sash and door factory of Phaneuf & Dore, at Outremont, Que., was destroyed by fire last week. The building and a greater part of the machinery are a complete loss.

LUMBERMAN'S INSPECTION BOOK.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 25c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.; Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2 20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively. Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct, Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler. Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior. Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, fof track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including litherage within the free litherage limits of New York harbor, are 2 cents per 100 lbs additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deschenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C P.R. also make the following rates on seasoned pine lumber to West St. John, N B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber or consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN THE AMERICAN AND FOREIGN MARKETS.

VOL. V. TORONTO, ONT., FEBUARY 1, 1899 No. 2.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WE WANT HARDWOOD LUMBER, MILL cuts. Must be able to ship by water. Correspondence solicited. V. H. SWEINHART & Co., 94 E. Washington St., Chicago.

WANTED.

ORDERS FOR HEMLOCK LUMBER AND Timber. Logs in stock from ten to thirty feet. Load at Wiarton. Address PICKARD & ROWAN, Mar P.O., Ont.

WANTED.

WHOLESALE LUMBER DEALERS AND Manufacturers who have lots of 50 to 200 M Lumber and Shingles for sale, should write me. Address, JOHN B. DOE, Buffalo, N.Y.

BAND SAW MILL FOR SALE AT FORT William; capacity of Mill, 40,000 feet in ten hours; also Planing Mill. Property includes 500 feet frontage on Kaministiquia River, suitable for an elevator. For particulars apply to C. C. ABBOTT Assignee, Estate Graham, Horne & Co., Fort William Ont.

FOR SALE OR EXCHANGE.

FOR SALE OR EXCHANGE: A 12 x 14 ENgine; 50 ft. of 22 in. Stack; a Mortise Wheel and Pinion, 5½ in. face, teeth 80 and 22; a 50 in. Barber Water Wheel. All in good working order. Will take Stave and Heading Machinery, or Hemlock Lumber.
GEO F. WEBTER, Creemore, Ont.

WANTED.

SOFT ELM, ROCK ELM, BLACK ASH, BIRCH, Basswood, Red Oak, and Soft Maple Lumber, 1 to 3 in. thick and dry for prompt shipment. I will contract for any of this lumber to be cut to order for spring and summer delivery. Inspection at shipping point. Terms cash. E. C. BRADFORD, 71 Buhl Block, Detroit, Mich.

FOR SALE.

THE UNDERSIGNED HAS ON HAND TWO and one-half million feet of Spruce Logs, lengths 10, 12, 14, 16 18, 20, 22, 24 and 26 feet and is prepared to manufacture same in any form desired having for this purpose a stationary saw mill equipped with gang edger, planer and shingle machine, with a capacity of 50,000 feet per day. A purchaser is desired who would contract for the entire cut of mill. Correspondence solicited. JAMES RITCHEY, Makinak (L. M. C. Co. Railway), Manitoba.

FOR SALE.

FOUR HUNDRED ACRES TIMBER BIRCH and Hemlock; Saw Mill, capacity 30 M. per day; two Boilers 100 h.p.; Engine 85 h.p.; three Block Carriage; one 60-inch. and one 55-inch Saw; Jack, with long chain, double edger, trimmer, slash chain; 2 small cut-offs; 2 Rip Saws rigged for chair bottoms. All in good running order. 200,000 ft. of Birch Logs in stock. A paying business; good reasons for selling. Address, Box 111, CANADA LUMBERMAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The last week of January witnessed more activity in the lumber business than the preceding weeks of the month. Some quite large sales of pine were made, particularly in the Ottawa valley, where it is said manufacturers have contracted for a considerable proportion of the coming season's production. In anticipation of a good year, wholesale dealers and exporters are buying liberally, and this fact may induce manufacturers to increase their operations in the woods beyond what was originally intended. Within the past fortnight several gangs of men have been sent to the logging districts. The conditions on the Georgian Bay are somewhat similar. Although in southern Ontario there has been a lack of snow for logging, in the Muskoka and northern districts this difficulty has not been met with.

It is yet too early to estimate the extent of building operations in 1899, but the amouut of work already arranged for produces a strong hope of a busy season. There will probably be more building in country districts than last year, when it was of considerable volume.

QUEBEC AND NEW BRUNSWICK.

Manufacturers of spruce lumber are holding quotations reasonably high, and consequently shippers have not contracted very heavily. The low prices at which stock was purchased last year are being used by buyers to secure better terms for the coming season's stock; but manufacturers seem to have resolved to make a fair margin of profit or cease business. The highest price yet paid at St. John for spruce lumber for spring delivery is $9.75, which is about $1.50 higher than the average price last year. In shipping circles there is not much doing; the rate on lumber to New York, from St. John, is lower, being $3.

MANITOBA AND BRITISH COLUMBIA.

The lumbermen of Manitoba are preparing for the annual convention which takes place next week, and at which the attendance promises to be unusually large. There is some movement of lumber at the present time, although it cannot be said that spring trade has yet commenced. As building prospects are particularly bright, retailers will no doubt increase their stocks materially in the near future. In British Columbia the lumber trade is without any special feature, although the era of low prices is probably at an end, owing largely to the scarcity of logs. The foreign trade is quite brisk, and several vessels are loading.

UNITED STATES.

The past week has been one of conventions, and consequently lumbermen have not devoted the usual attention to the getting of business. Transactions have been on a moderate scale, and have been confined largely to immediate requirements. Prospects, however, are of an encouraging character, and unless all signs should fail, there will be a brisk lumber trade in 1899. Eastern wholesale dealers report numerous inquiries for quantities of different grades for spring delivery, which would seem to indicate that consumers anticipate higher prices in the near future. There is an excessive demand for box lumber, which is in short supply and likely to further advance. Manufacturers generally are firm in their asking prices, and wholesale dealers are not inclined to contract for stock at the quotations given them. These remarks apply particularly to white pine. Hemlock lumber has made an all-round advance of 50 cents per thousand feet.

Hardwood stocks continue to be bought up close to the saw. In Michigan soft and rock elm are bringing prices from $4 to $6 higher than those which ruled two years ago. Even beech, which has been considered an unsaleable lumber, finds a ready market.

It is claimed that at northern mill points there is a pronounced shortage of lath, and sellers are asking $1.65 per thousand for white pine. Shingles are demanding some attention, and show no weakening in price.

FOREIGN.

British timber importers are contracting for goods for spring delivery only in a moderate way, as they believe that shippers' asking prices are higher than the conditions warrant. It must be remembered, however, that stocks in the British market are lighter than those of one year ago, while the production of Canadian lumber is likely to be curtailed during the coming season. There is also the fact that prices of spruce, red pine, and several classes of timber are strengthening. At London 3 x 11 and 3 x 9 3rd spruce are selling privately at £7 7s 6d per standard, although similar goods can be purchased at auction at 5s below these figures. Last year spruce found its way into new fields, and consumers are said to be willing to again contract for a supply. Looking at all the conditions surrounding the spruce market, there would seem to be reason to expect advanced prices and a good season in 1899.

The conditions of the lumber trade in France are about normal. It is expected that there will be a large consumption of wood during 1899, and that red pine will be maintained at higher prices. White pine joists, timber joists and hardwood also show signs of strengthening.

STOCKS AND PRICES.

Thomas Myles' Sons, Hamilton, Ont., want 150 pieces 12 x 12, 30 feet, sound white pine timber.

J. E. Harroun & Son, of Watertown, N.Y., want good white pine mill culls, 1¼ inch, resawed for large boxes.

R. & T. Ritchie, of Aylmer, Que., have contracted to supply the Metropolitan Electric Company, of Ottawa, with poles.

The Metropolitan Railway Company, of Toronto, are taking tenders for the supply of 65,000 cedar ties, 1,000 cedar telegraph poles and 300 cedar trolley poles.

During the season of 1898 Messrs. E. I. White & Son, of Sand River, N.S., shipped to American ports 78 cargoes of piles and spars, aggregating about 55,000 pieces.

The Exploits Lumber Company, of Botwoodville, Nfld., will cut 10,000,000 feet of white pine lumber next summer, 5,000,000 feet of logs being now in the river. The manager of this company is George A. Fowler.

George Upham, of Fredericton, N.B., returned recently from the lumber camps on the Tobique river. He estimates the cut on that river this winter at 18,000,000 feet, a decrease of 7,000,000 feet as compared with last winter. Mr. Upham has contracted for all of Senator Baird's logs, about 1,500,000 feet.

At the annual meeting of the shareholders of the Rat Portage Lumber Company, it was stated by the manager that the company had over 600 men cutting logs in the woods. Some 50,000,000 feet will be taken out, which, with the stock now on hand, will give a good supply for next season's sawing.

The annual report of the Board of Trade of Montreal gives the following statement of forest products exported from that port during the year 1898: Ashes, pot and pearl, $35,321; logs, pine, $150; logs, all other, $836; lumber, $5,574,114; timber, square, $126,599; other articles,

The lumber production at Saginaw and Bay City, Mich., in the season of 1896 $26,723; total, $5,763,743.

was 304,000,000 feet. This is the smallest output on the river since 1866, when it amounted to 309,000,000 feet. There were rafted to Michigan from the Georgian Bay district 238,843,624 feet, nearly all of which went to the Saginaw river.

C. Desmairais, of Hull, has secured from the Bell Telephone Company a contract to furnish 2,000 cedar poles.

The Bradley-Myles Lumber Company, of Hamilton, Ont., have received an order to supply the British Admiralty with 100 car-loads of oak dimension timber, for use in the ironclads. The stock will be delivered at Liverpool early in the spring.

The Rat Portage Lumber Company have purchased the stock of lumber of the estate of Graham Horne & Company, of Fort William. This company have arranged with Graham, Horne & Co. to carry on the business in Fort William, which will be conducted under the same management as it has been for the past twenty-one years.

Henry Hibson, of the firm of Hibson, Briggs & Cooper, lumber merchants, Saginaw, Mich., is making a tour of the Ottawa valley for the purpose of buying a quantity of lumber. He states that Canadian white ash and basswood are in great demand by the lumber dealers of Michigan, chiefly for making furniture and inside finishing.

Seven timber berths were sold at the Crown Lands' office, Fredericton, N. B., last week, as follows: 3½ square mile block on White's brook, Restigouche county, to Wm. Currie, at $151 per mile; 2½ mile berth on Nash's creek, Restigouche, to Nathanial McNair, at $18 per mile; 5½ mile brook on Nictor lake, to T. B. Winslow, at $1.10 per mile; two 9 mile and one 4½ mile berth on White's creek, Restigouche, to Wm. Richards, at upset price; 2 mile berth on Ten Mile creek, St. John county, to J. E. Moore, at upset price.

Alliston Cushing, of St. John, N.B., returned recently from California, where he has been interested in quartz mines. It will be remembered that Mr. Cushing had the contract last year to furnish 8,000,000 feet of logs to Jerneagan & Fisher for the Electrolytic Marine Salts Company, at North Lubec. He had landed more than half of that quantity when the bubble broke, leaving him in a fair way to lose about $20,000 by the transaction. He, however, purchased all the logs and lumber in the plant No. 2, then partly constructed, and now has a sawmill at work converting the logs into lumber.

In Northwestern Ontario the winter has been very favorable for bush work, and a good deal of work is going on. The North Shore Timber Company, of which Jas. Whalen is manager, is getting out about 25,000 cords of pulp wood at Nepigon; Vigars & Co. are taking out a good stock of logs for their Port Arthur mill; Alger, Smith & Co., who are operating extensively on limits 2 and 3, Pigeon river, are through their cutting, and hauling is progressing satisfactorily; while a large quantity of timber and ties is being taken out along the line of the new Ontario & Rainy River railway for use in the construction of that road. Graham, Horne & Co. are also getting out a large quantity of cedar culvert timber for the C.P.R. Work is plenty, and demand and wages for men are both good.

OUTLOOK FOR CANADIAN TIMBER.

Reviewing the lumber market, the Timber Trades Journal, of London, Eng., says:—The quantity of timber and deals which continues to be taken into consumption is somewhat surprising, considering that we are supposed to be in the middle of the most inclement month of the year. Last January similar weather conditions prevailed, and the deliveries of the first two weeks of the respective years very nearly tally, with a slight advantage to the present one, but only in goods taken from ship's side. In nearly all the districts which receive their supplies grom the docks and yards of the metropolis, building operations are on the same extended scale that has marked the course of the previous year. It is something new to find spruce prices improving coincident with a declining market for Baltic whitewood. The shippers are lamenting over the difficulty of getting the prices of Swedish and other north of Europe productions back to their former high standpoint, but they have no sympathisers on this side. The forests of Canada can supply all that our markets here require, and colonial shippers have only to adjust the lengths of the spruce cut to suit the demand to take a much larger share of the whitewood trade from their north of Europe competitors. The major portions of the arguments used in favor of the merits of Baltic white, are founded on old fashioned prejudices, and it is plain from the stiffening of spruce prices that those who substituted spruce last year, on account of its cheapness, are ready to try the experiment again. Spruce is a most durable wood under many conditions, and now that it is being shipped in batten dimensions, if supplied in 6 to 26 feet lengths, would answer all the purposes of trade.

We have alluded before to the Canadian red pine, of which there is plenty to be had in the forests abroad. This is another building wood that seems to be unappreciated amongst the trade here, but only requires some alteration in the specification to bring it more under notice. 4, 3, 9 and 11 inch widths in good sound wood are scarce here, and likely to remain so, the tendency of the Baltic trade being toward the smaller dimensions.

The pine market is quiet, and the business done is not satisfactory as far as prices go. In wholesale lines the top price for best bright seasoned regulars is £26, but we hear that the Quebec firms are expecting to get an advance on last year s figures for the winter cut leading stocks. There does not appear to be nearly as much life now in this particular branch of the wood trade as formerly existed—at least in the London market. The enormous quantity of imported ready-made stuff, in the shape of doors and mouldings, in addition to the extension of the planed deals from the Swedish mills, may have had some exercising influence on the consumption of Canadian pine. At any rate, the prices now obtainable here, considering the high free-on-board cost and freight, are not sufficiently remunerative to encourage large importations in the legitimate way, and we fear all but the primest kinds of their class will be sent to market for shipper's account.

THE BARBADOS MARKET.

Of the Barbados lumber market Messrs. Claremonte, Man & Co., in their report, say:

Since last advices, we note ten arrivals with white pine and spruce, and dealers are fairly well supplied. Last sales were—white pine, $21.26 for first, and $15.26 for second quality; spruce, $16.75 for first and $11.75 for second quality. Pitch pine—we note the arrival of four ordered cargoes for dealers' account, contracted for at $23 and $24. The demand for Gaspe cedar shingles continues good, last sales at $5.06 @ $5.41. Last sales of spruce laying, $2.35; cedar laying, $2.76½; cypress $8.50 and $6.50 for 6-inch, 'hearts' and 'saps' ex Cora. Aarrivals: Brigt Boston Marine, from Tusket Wedge, 31 M feet white pine boards, $22.07; 10 M do plank $20.07; 41 M feet small boards $19.37; 11 M second quality do. $15.60; 6 M small second quality do. $14.07; 6 M feet spruce boards $17.60; 6 M small do. $13; 7 M scantling $19 07. Schr. Juanita, from Liverpool, N.S., 66 M ft. white pine boards $21.06; 6 M planed do. $20.01; 14 M second quality do. $15.01; 44 M second quality spruce $12.01. Brigt. Resultado, from Liverpool, N. S., 60 M white pine $21.06; 5 M second quality do. $15.07; 95 M feet spruce $17.07; 13 M feet hemlock scantling $12; 47 M spruce laying shingles $2.48. Schr. Syanara, from St. John, N. B., with 40 feet white pine $21.26; 32 M second quality do. $15.26; 75 M small do. $13.40; 3 M spruce $17.00; 20 M second quality do. $11.40; 10 M do. plank and scantling $15.00; 500 M shingles on dealers' account. Schr. B. B. Hardwick, from Clemont's port, N. S., with 11 M feet white pine $21.26; 13 M second quality do. $15.26; 137 M spruce $16.60; 3 M second quality do. $11.60; 2 M do. scantling $15.00. Schr. F. A. Rice, from Weymouth, N.S., with 49 M feet white pine $21.36; 18 M second quality do. $15.26; 71 M feet spruce $16.75 for first and $11.75 for second quality. Schr. Wapiti, from Yarmouth, 18 M feet spruce, 264 M shingles; shingles sold at $2.35. Schr. John A. McKie, from Windsor, N. S., 153 M feet white pine, 80 M second quality. Schr. Moss Glen, from Bridgewater, N. S., 73 M feet white pine, 41 M second quality, 15 M feet spruce scantling. Schr. A. S. Snare, from St. John, N. B., 97 M feet white pine, 54 M second quality.

Lee & Lentz have engaged in the lumber business at Tonawanda, N. Y.

WHITE PINE STOCKS.

Statistics were published in a recent issue of the American Lumberman showing the production of lumber in 1898 and the stock on hand at the close of the year. Commenting thereon, this journal says:

While the product of the year was 78,000,000 feet less than that of the previous year, the stock on hand at the close of the season showed a much greater decrease than this, for the total stock reported from all the white pine and hemlock mills in Michigan, Wisconsin and Minnesota, along the Mississippi river and on Lake Erie, was but 3,494,739,000 feet, against 3,815,558,000 feet at the close of 1897; a decrease of 321,000,000 feet. Thus the stock on hand has been decreasing in much more rapid ratio than the product, testifying to the substantial character of the year's business and its improvement over 1897, good as the latter part of that year was.

But the figures on mill stocks do not tell the whole story. The stock on hand at wholesale points must be taken into consideration and in regard to that branch of the subject complete statistics are lacking. From some of the markets there are available and reliable reports. At Chicago there was quite a heave decrease in stock considering the volume carried—a little less than 10 per cent. Most other markets of importance show similar figures with a decrease in some of them even greater than in Chicago. But the wholesale markets alone are not sufficient to gain an accurate view of the general situation. The stocks on hand in retail yards and in the hands of heavy consumers must be considered.

The general impression is that stocks in the hands of retailers are lighter than ordinarily at this season. While there was some retailers who last fall bought quite heavily, particularly early in the fall, or in the late summer before the September advance in prices, most of the stock was pretty well exhausted by the end of the year and it is believed that the amount available for the winter's trade is light.

DUTY ON SPRUCE LUMBER.

A cablegram has been received by the Department of Trade and Commerce at Ottawa from Commercial Agent Rennie, at Buenos Ayres, stating that on representations of the Dominion Government the duty upon spruce lumber had been reduced by the Government of Argentina by $2.40 per thousand. Large quantities of spruce lumber are annually shipped from Canada to the Argentine Republic, the Maritime Provinces and British Columbia being the principal exporters. In September last the duty was increased by 10 per cent., but as a result of Mr. Rennie's good work the duty is now less than it was six months ago.

BUSINESS NOTES.

The Burrill Lumber Company, of Forestdale, Que., has obtained a charter of incorporation.

The Sheppard Lumber Company, of Orillia, Ont., has been incorporated, with a capital stock of $85,000.

The Johnston-Ford Lumber Company, of Ahmic Harbor, Ont., is reported to have assigned to J. C. Ford.

SHIPPING MATTERS.

The schooner Arthur N. Gibson has been chatered to load lumber at Apalachicola for Halifax at $7.00.

Chartering is somewhat quiet, and a weakness in the market has developed. Two vessels have been chartered for first open water from Montreal to London, at 43s. 9d. From the St. John district tonnage is offering at 43s. 9d., but charterers are diffident in offering more than 42s 6d.

The planing mill of Matthew's Bros. & Company, on Dundas street, Toronto, was destroyed by fire on Thursday last. Some lumber was also burned.

LUMBERMAN'S INSPECTION BOOK.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 20c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.; Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2.20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively; Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct., Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior. Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, fof track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills, 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including litherage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deshcenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C.P.R. also make the following rates on seasoned pine lumber to West St. John, N.B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N.B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber for consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN THE AMERICAN AND FOREIGN MARKETS.

VOL. V. TORONTO, ONT., FEBUARY 8, 1899 No. 3.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber producrs at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED —One second-hand Boss Shingle Machine, in good repair; also 40 to 50 feet turned 3-inch Shafting, with good heavy Bearings. GODERICH LUMBER CO., Wiarton, Ont.

WANTED—MILL CULLS.

GOOD WHITE PINE MILL CULLS, 1¼-INCH, resawed for large boxes. Can take a large quantity in single car lots. Prompt cash payments. J. E. HARROUN & SON, Watertown, N.Y.

WANTED.

WHOLESALE LUMBER DEALERS AND Manufacturers who have lots of 50 to 200 M Lumber and Shingles for sale, should write me. Address, JOHN B. DOE, Buffalo, N.Y.

BAND SAW MILL FOR SALE AT FORT William; capacity of Mill, 40,000 feet in ten hours; also Planing Mill. Property includes 500 feet frontage on Kaministiquia River, suitable for an elevator. For particulars apply to C. C. ABBOTT Assignee, Estate Graham, Horne & Co., Fort William Ont.

FOR SALE OR EXCHANGE.

FOR SALE OR EXCHANGE: A 12 x 14 ENgine; 50 ft. of 22 in. Stack; a Mortise Wheel and Pinion, 5½ in. face, teeth 80 and 22; a 50 in. Barber Water Wheel. All in good working order. Will take Stave and Heading Machinery, or Hemlock Lumber. GEO. F. WEBTER, Creemore, Ont.

WANTED.

SOFT ELM, ROCK ELM, BLACK ASH, BIRCH, Basswood, Red Oak, and Soft Maple Lumber, 1 to 3 in. thick and dry for prompt shipment. I will contract for any of this lumber to be cut to order for spring and summer delivery. Inspection at shipping point. Terms cash. E. C. BRADFORD, 71 Buhl Block, Detroit, Mich.

FOR SALE.

THE UNDERSIGNED HAS ON HAND TWO and one-half million feet of Spruce Logs, lengths 10, 12, 14, 16 18, 20, 22, 24 and 26 feet, and is prepared to manufacture same in any form desired having for this purpose a stationary saw mill equipped with gang edger, planer and shingle machine, with a capacity of 30,000 feet per day. A purchaser is desired who would contract for the entire cut of mill. Correspondenee solicited. JAMES RITCHEY, Makinak (L. M. C. Co. Railway), Manitoba.

WE WANT HARDWOOD LUMBER, MILL cuts. Must be able to ship by water. Correspondence solicited. V. H. SWEINHART & Co., 94 E. Washington St, Chicago.

FOR SALE.

FOUR HUNDRED ACRES TIMBER BIRCH and Hemlock; Saw Mill, capacity 30 M. per day; two Boilers 100 h.p.; Engine 85 h.p.; three Block Carriage; one 60-inch, and one 55-inch Saw; Jack, with long chain, double edger, trimmer, slash chain; 2 small cut-offs; 2 Rip Saws rigged for chair bottoms. All in good running order. 100,000 ft. of Birch Logs in stock. A paying business; good reasons for selling. Address, Box 111, CANADA LUMBERMAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

In all branches of the lumber trade business is quite as brisk as could reasonably be expected at this season of the year, when the spring movement cannot be said to have commenced. As to prospective trade, pine and hardwood manufacturers agree that the outlook is brighter than it has been for a number of years. Stocks of pine lumber are light, prices advancing, and enquiries numerous. Again this year there is likely to be a large local consumption of the lower grades of lumber, one of the conditions of vital importance to manufacturers. There would be a larger volume of trade in hardwoods if dry stock could be obtained. Consumers are showing a disposition to contract in advance of requirements, apparently fearing a scarcity of hardwood lumber owing to unfavorable weather for getting out logs.

QUEBEC AND NEW BRUNSWICK.

As a result of the improvement in the Eastern States, lumbermen in Quebec and New Brunswick are more hopeful of a satisfactory year's business. The American lumbermen with mills at St. John, as well as those in the Eastern States, are finding the home market much better, and consequently will pay less attention to export trade. These conditions are favorable to the Canadian producers of spruce. Logging in the Maritime provinces has been retarded on account of insufficient snow, and along the St. John river and in sections of Nova Scotia work was discontinued by a few operators. A recent snow-fall, however, has improved conditions somewhat. On the St. John river the production of logs will be less than last year by perhaps 25 per cent. In view of the light production, it is likely that all the lumber manufactured in 1899 will find a market at a reasonable price. Freight rates during the year are likely to be easier on account of the increase in tonnage.

UNITED STATES.

From the leading wholesale centres in the United States there comes the report of a satisfactory volume of trade and an unusual number of inquiries. Stocks have become greatly reduced, and dealers are looking round to replenish their supplies. This can only be done by paying the increased prices which are now asked by manufacturers. In order to meet this condition, it will be necessary to advance the price of lumber to consumers, and this is a step that will certainly be taken. On the Duluth docks there are only 15,000,000 feet of unsold lumber, against 125,000,000 feet one year ago. Practically all the No. 3 and No. 4 and mill culls have been sold, and contracts are being entered into for lumber to be cut next season. There has been no falling off in the demand for box lumber, and the eastern trade is buying up stocks wherever they can be found. A steady improvement has characterized the spruce market of late. While quotations are yet unchanged, it is thought that they cannot long remain at the present basis. The scarcity of hardwood lumber is making it extremely difficult to fill orders, dry stocks being nearly exhausted. Thick white ash has been bought up by the manufacturers of agricultural implements, and is advancing in price.

FOREIGN.

While the lumber market in Great Britain is regarded as showing no signs of weakness, it cannot be said that buying is being carried on vigorously. Canadian shippers have visited the principal markets, but just what business has been done has not yet transpired. The shippers are asking firm prices, which it is thought has had the effect of making buyers less willing to close than they were last year. A noticeable feature of the market is the good demand for spruce, and we would not be surprised if a substantial advance in the price of this lumber was made in the near future. It is competing favorably with Baltic whitewood for many purposes, particularly in deal and batten sizes, but is not generally liked for flooring. At West Hartlepool first and second pine deals are in light supply, but there is a fair stock of third pine. Shippers of red pine are asking high prices, but as yet very little stock has been contracted for. The present asking prices are about equal to those for the Swedish production, and it is frequently a question by consumers as to which will be given the preference.

The French and German markets are said to be improving, and better prices are being obtained. Spruce is growing in popularity in France, and it is expected that a considerable quantity will be placed on that market this year.

STOCKS AND PRICES.

The city council of Winnipeg, Man., invites tenders up to February 15th for the supply of from 1,000 to 2,000 cords of cedar paving wood.

S. A. Marks has made an estimate of the pulp wood on the Mississauga and Blind rivers, in Algoma. He figures that there are 8,000 cords.

The ship Coringa sailed from Yarmouth, N.S., last week for Buenos Ayres, with 1,101,000 feet of lumber, the largest cargo that ever cleared from that port.

Taylor & Hill, of Dartmouth, N.S., have about 60 men employed in the woods getting out logs. They will operate a portable mill during the coming season.

Geo. Sutherland, of Welland, Ont., is in the market for 500,000 feet of elm and basswood, 300,000 feet of white oak, 100,000 feet of red oak, and 100,000 feet of pine, to be delivered on bank of canal feeder, Chippawa creek, and Niagara river.

W. J. Bryce, Toronto, wants 2,100 pieces of flated timber, either elm, hemlock, tamarac or cedar, to square ten inches at small end, sixteen feet long; also two hundred thousand feet, ten by ten, sawn, twelve to twenty-two feet.

A report from Minneapolis states that dry elm staves are very scarce. Dealers are asking $7 per thousand, and but few purchases can be made at a less figure. There is but little movement in heading, although the market is strong at from 4¼ to 4⅜ cents. Dry elm hoops are scarce, and range in price from $6.50 to $6.60.

The following timber berths were sold at the Crown Lands office, Fredericton, N. B., last week: 3-mile berth at Young's brook, branch of McCallum's brook, to Alex. Gibson, at $270 per mile; 3-mile berth at east branch of Christopher's brook, and 4½-mile berth on Gordan's brook, branch of the Popelogan, to Wm. Currie, of Eel River, at upset price of $8 per mile; 3 square miles, west of Bay du Vin river, to the Maritime Sulphite Co., at $8.50 per mile.

A timber berth on an Indian reservation in the Georgian Bay district is reported to have been purchased by the Saginaw Lumber & Salt Company, the deal representing an investment of about $70,000. Some 10,000,000 feet of logs are being put in this winter. Pelton & Reid, of Cheboygan, have also purchased 15,000,000 feet of Indian logs in the Georgian Bay district, which are being put in this winter, and will be rafted to Cheboygan next season. The Central Lumber Company, of Saginaw, is lumbering on Blind river, Ont. The St. Anthony Lumber Company is putting in about 45,000,000 feet of logs at Whitney, and the Arthur Hill Company 20,000,000 feet at Midland. There was a quantity of Canadian logs cut by Ameri-

can lumbermen last winter, which were hung up, and these do not come under the prohibitory act which went into effect on April last.

At Saginaw, Mich., all kinds of lumber are said to be short of the requirements. Mill culls sell at $8, box lumber at $10 and 11, Norway at $9 and $10, and log run at $13 to $18.

The most active demand for lumber in the Northern States pertains to birch, which the furniture manufacturers are using in place of quarter sawed oak. The call for birch has become so great that the supply of dry lumber is nearly exhausted. Prices of firsts and seconds range from $22 to $25 a thousand. The demand for common and cull basswood is in excess of the supply, and the market in respect to maple is rapidly gaining in strength.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is something like the usual winter quietness in the sale of pine lumber, though the price is strong and likely to remain so, on account of the activity in the east. Eastern dealers have lost money by not laying in a stock sooner, and now that the more wide-awake seaboard dealers are alive to the situation, and are trying to buy on contract, our dealers refuse to sell on time. It is felt by all that there is more money in lumber than in long-time sales. This conclusion is the more plain from the fact that one or two dealers have been caught in that way and are being held up as a terrible example.

The rush is in hardwood. If there is a yard anywhere that has a lot of thick white ash in it, the fact has not been made known to the manufacturers of agricultural machinery. They have all been through this market and taken at sight everything in that line that they could possibly use. There was never such a demand for this class of machinery. The Johnston Harvester Works at Satavia have a force of 600 men, which is 50 more than it ever had before, and are working overtime at that. The same report comes from the Osborne Works at Auburn. The Wagner car shops in Buffalo have lately put in electric lights, so that a night gang can be set to work.

The shortage of cars has never been more marked than now. All car and locomotive works are on full time, and shippers are complaining all along the line that they cannot get cars enough to do their business. There is no prospect of anything but a rush of all sorts of business the coming season. Buffalo will profit doubly from this time on, as the Pan-American exposition is regarded by all as a certainty. Over a million dollars was subscribed for it in a week, and the amount is now past the $1,300,000 mark, when the million was all the promoters set out to raise. It is believed that another million can be raised by popular subscription, so that nothing will have to be raised by bonds. We are astonished at ourselves.

The Buffalo Lumber Exchange met on the 4th inst., and voted in favor of reducing the tariff on all rough lumber to $1. It had previously voted in favor of a partial reduction, but no distinction was made this time. The meeting was held at the request of some western lumbermen, presumably from Michigan, who have undergone a change of heart of late. The meeting was not largely attended, but the secretary had received proxies enough to make it certain that more than three-fourths of the members are in favor of the reduction. I am not informed of the exact move made in Washington in the interest of a lower tariff, but it seems that some influence is being exerted on the members of Congress to modify the lumber duty. Of course, the south and the northwest will fight against it. The meeting of the Lumber Exchange gave out some statistics of the past year's business, of which the following extract is made: Lake receipts, 185,752,000 feet; rail receipts, 427,002,000 feet; total, 613,754,000 feet; shipped to customers without bringing here, 287,698,000 feet; grand total of year's business, on the estimate that stocks are at least not larger than they were last winter, 900,631,000 feet; on hand, Jan. 1, 163,352,000 feet; shipped by canal, 28,182,000 feet; by rail, 533,587,500 feet; total, 561,769,500 feet. This is a large amount of business, but it is not what the coming season will develop if the stock can be obtained.

Quite a good many changes have taken place within the past few days. The Niagara Lumber Company is to move to Cairo, Ill., in the spring. Palen & Burns, who were the controlling owners in it, have sold out to the other members E. C. Bradley, with whom is associated C. H. Foote, of Cleveland. Palen & Burns will remain actively in the hardwood lumber business, but will not open a yard here. They report an increased number of sales since the change was made.

The H. M. Loud's Sons Lumber Company will in May move from the Ohio Basin to lower Black Rock, having rented the yard of the Arthur Hill Company, which was driven out by the $2 duty. The Loud company is now for the first time classed as a hardwood concern.

Rung Bros., lumber and furniture, with two large stores in the city, have gone into the hands of a receiver, though on account of a personal disagreement rather than any financial difficulty. A hasty inventory finds the firm's assets much more than its liabilities. As a forced sale of the effects has been ordered, it is feared that the assets will undergo a big shrinkage in process of liquidation.

The hardwood firm of Pittman & James, with timber land and mills in Mississippi and principal office here, is in process of dissolution, H. S. Janes having bought out his partner, M. N. Pittman. He has not yet decided just what name he will operate under in future. It is probable that Mr. Pittman will still be connected with the business, while his son, Harry Pittman, has been engaged as foreman of the mills. Mr. Janes returns south again in a few days.

The firm of Mead & Stewart has separated, C. C. Mead having sold out to Isaac Stewart.

John McLeod, of the R. Laidlaw Company, was in New York last week, along with some of the Tifft Farm dealers, looking into a lumber failure in which all are interested. It is not known yet what the outcome will be.

Lumber carriers are saying that they expect a better season than the last was, and they are not trying to hold up rates by combining. The association did not better matters very much last season, and it created a large amount of disturbance.

BUFFALO, Feb. 6th, 1899. J. C.

CANADIAN LUMBER IN THE BRITISH MARKKET.

At an auction sale held by Churchill & Sim, London, England, on January 25th, Canadian goods realized the following prices:

PINE.—Ex Unique, from Quebec—12 ft., 3 x 11 3rd bright white pine, £8 5s; 12 ft., 3 x 10-11 in., £8 5s. Ex Cervona, from Montreal—16 ft., 2 x 4-7 bright white pine, £5 5s; 14-15 ft., 2 x 3-7, £5 5s; 12 ft., 2 x 4-7, £5 10s; 12 ft., 2 x 2-7, £5 15s; 12-16 ft., 1½ x 10-18, £5 15s; 12-16 ft., 1½ x 9, £5 15s; 12-16 ft., 1½ x 6, £5 10s; 12-16 ft., 1½ x 4-5, £5. Ex Hallgerda, from Miramichi (J. B. Snowball's shipment)—10-15 ft., 3 x 11 in. third white pine, £6 5s; 12-13 ft., 3 x 9, £5 10s; 14-15 ft., 3 x 9, £5 15s; 9 ft., 3 x 11 second and third quality, £6 10s; 9 ft., 3 x 9, £5 10s; 9 ft., 3 x 7, £5 10s; 9 ft., 2 x 10-17, £5; 9 ft., 3 x 7-8, £4 15s; 9 ft., 3 x 7, £4 15s; 4-8 ft., 3 x 12-17, £3 15s; 3-8 ft., 3 x 11, £4 10s; 3-8 ft., 3 x 7-9, £4 15s; 6-22 ft., 1 x 7, £5 10s; 10-21 ft., 1 x 6, £6 5s. Ex Monte Videan, from Quebec—11 ft., 3 x 11 in. first quality pine, £20 10s; 10 ft., 3 x 11, £20 5s; 9 ft., 3 x 11, £19; 13 ft., 3 x 7-10, £18 5s; 12 ft., 3 x 7-10, £18 10s: 14-16 ft., 3 x 6, £13 15s; 12-16 ft., 3 x 4-5, £14 5s; 9 ft., 3 x 9-10, £16 15s; 9 ft., 3 x 7-8, £14 15s; 9 ft., 3 x 4-6, £13 5s; 6-8 ft., 3 x 12-21, £17 10s; 6-8 ft., 3 x 11, £18; 6-8 ft., 3 x 6, £12 5s; 6-8 ft., 3 x 7-8, £13; 6-8 ft., 3 x 9-10, £13 15s.

SPRUCE.—Ex Elektra, from Quebec—12-14 ft., 3 x 6 in., second quality, £6 10s; 12 ft., 3 x 6, £6 10s; 12-14 ft., 3 x 5, £6; 6-11 ft., 3 x 5-9, £6 5s. Ex Hallgera, from Miramichi, N. B.—10-15 ft., 3 x 11 in., first, second and third quality, £7 5s; 12-14 ft., 3 x 9, £7; 10-21 ft., 2 x 8, £6 15s; 10-14 ft., 2 x 8, £6 15s; 12-14 ft., 2½ x 7, £6 15s; 15-23 ft., 2½ x 7, £6 15s; 7-11 ft., 2½ x 7, £6 10s; 10-23 ft., 2 x 7, £7; 8-23 ft, 2 x 7, £7; 12-14 ft., 2⅝ x 6½, £6 5s; 12-24 ft., 2½ x 6, £6; 8-21 ft., 2 x 6, £6 5s; 9-21 ft., 2 x 5, £6; 6-23 ft., 1 x 7, £6 10s; 9-21 ft., 1 x 6, £6 5s. Ex Yola, from Quebec—12 ft., 3 x 8 in., third quality, £6 10s; 12 ft, 3 x 8, £6 5s; 12-16 ft., 3 x 7-8, £6 5s. Ex Arona, from Quebec—9-14 ft., 3 x 9, first quality spruce, £7 10s: 9-14 ft., 3 x 7-8, £7 10s. and £7 15s; 10-14 ft., 3 x 6, £7 10s; 9-14 ft., 3 x 5, £7 10s; 10-14 ft., 3 x 8 in., second quality, £6 10s; 9-14 ft., 3 x 7, £6 15s; 10-14 ft., 3 x 6, £6 10s; 10-14 ft., 2 x 5, £6 5s. Ex Livonian, from Quebec—12 ft., 3 x 10 in., fourth quality, £6 10s; 10-11 ft., 3 x 12-17, £6 5s; 10-11 ft., 3 x 10, £6 5s. Ex Cervona, from Quebec—12-13 ft., 3 x 8 in., unassorted, £6 10s; 12-13 ft., 3 x 7, £6 10s; 13 ft., 3 x 11, £5 18s; 9-13 ft., 3 x 11-16, £5 15s; 4-8 ft., 3 x 11, £6; 4-8 ft., 3 x 4-8, £5 15s. Ex Ormiston, from Quebec—13 ft., 3 x 9, first, second and third quality, £7 and £7 5s.

George B. Hughes has opened out in the lumber business at Tuelon, Man.

DECISION OF THE UNITED STATES TREASURY DEPARTMENT.

The United States Treasury Department has replied in the negative to the following question submitted by Senator Eugene Hale, of Maine, one of the representatives of the lumber interests of the state of Washington.

"Can American lumber, manufactured in the province of New Brunswick by a corporation organized under the laws of Maine and whose stockholders are American citizens residing in New Brunswick, be reshipped to the United States free of duty; and how, if at all, will it affect the matter if some of the stock is held by persons who are not American citizens or by persons who, although American citizens, are not residents of New Brunswick?"

There was some doubt about the law contained in section 20 of the Dingley tariff act, which says:

"The produce of the forests of the state of Maine upon the St. John river and its tributaries, owned by American citizens and sawed or hewed in the province of New Brunswick by American citizens, the same being otherwise manufactured in whole or in part, which is now admitted into the ports of the United States free of duty, shall continue to be so admitted, under such regulations as the secretary of the treasury shall from time to time prescribe."

Following its decision of 1886, when the free entry of lumber was sought by the Clark Brothers Lumber Company, the treasury department answers Senator Hale's question in the negative. The department says: "Maine lumber manufactured in the province of New Brunswick by a corporation of citizens of the United States cannot be reshipped to the United States free of duty under section 20, act of July 24th, 1897, as a corporation is not, and cannot be a citizen of the United States, to whom such privilege is confined."

BUSINESS NOTES.

Francis and Joseph Roy have registered proprietors of the sawmills of Roy & Frere at St. Jude, Que.

The stock of Mantha, Lefebvre & Laperriere, sash and door manufacturers, Montreal, was sold last week at 65 cents on the dollar.

George W. Stevens, formerly manager of the Arthur Hill Lumber Co., at Buffalo, has established himself in the lumber business at Saginaw, Michigan. He has already purchased a considerable quantity of hardwood lumber at various points.

The Burrill Lumber Company, of Forestdale, Que., has been incorporated, with a capital stock of $30,000. The members are: William Mitchell, of Drummondville; David Mitchell, of Forestdale; Vivian Burrill, of Forestdale; Charles Burriil, of Shawenegan, and Joseph Patrick, of Montreal.

Samuel A. Skead, lumber exporter, Produce Exchange Building, New York, is announced to be financially embarrassed. Two judgments have been filed against him, one of $8,666 in favor of Noyes & Sawyer, of Buffalo, and the other of $1,666 in favor of the Swan-Donogh Lumber Co., of Tonawanda. Several Buffalo and Tonawanda concerns are said to be interested.

SHIPPING MATTERS.

Chartering of lumber vessels is rather backward. Owners are holding out for the new form of charter, which the timber merchants refuse to accept. 43s 9d has deen paid for two vessels from the St. Lawrence to London; 1,300 standards have been fixed, from Quebec to Glasgow, at 42s 6d, deals and battens, 10 per cent. boards. Two vessels have been chartered from Miramichi, N.B., to west coast England, at 45s, and another vessel of 1,200 standards at St. John, N. B., for east coast Ireland, at 42s 6d. There is a good delivery for tonnage from all the N.S. and N.B. ports at from 42s 6d to 43s 9d for regular sizes.

FIRES.

The lumber yards of J. C. Raynor and Morgan Fulton, and the box factory of F. C. Austin, in Chicago, were totally consumed by fire on the 30th ult. The stock of lumber in the yards was valued at $300,000.

The extensive factory of the North American Bent Chair Company at Owen Sound, Ont., was completely destroyed by fire on January 31st. The loss on building and plant is placed at $125,000, only a small portion of which is covered by insurance.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 20c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.: Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the distr t freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2.20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively; Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct., Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior. Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, fof track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills, 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including litherage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deshcenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C.P.R. also make the following rates on seasoned pine lumber to West St. John, N B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber or consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., FEBRUARY 15, 1899 No. 4.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac smilie of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—Will pay cash for Ash, Elm and other Hardwoods. Address—M. E. BEARSE, 621 Exchange Building, Boston, Mass.

WE WANT HARDWOOD LUMBER, MILL cuts Must be able to ship by water. Correspondence solicited. V. H. SWEINHART & Co., 94 E. Washington St., Chicago.

WANTED—One second-hand Boss Shingle Machine, in good repair; also 40 to 50 feet turned 3-inch Shafting, with good heavy Bearings. GODERICH LUMBER CO., Wiarton, Ont.

WANTED—MILL CULLS.

GOOD WHITE PINE MILL CULLS, 1¼-INCH, resawed for large boxes. Can take a large quantity in single car lots. Prompt cash payments. J. E. HARROUN & SON, Watertown, N.Y.

WANTED.

SOFT ELM, ROCK ELM, BLACK ASH BIRCH, Basswood, Red Oak, and Soft Maple Lumber, 1 to 3 in. thick and dry for prompt shipment. I will contract for any of this lumber to be cut to order for spring and summer delivery. Inspection at shipping point. Terms cash. E. C. BRADFORD, 71 Buhl Block, Detroit, Mich.

FOR SALE.

MESSRS. DOBIE & CO. and DAVID GORDON, of Thessalon, are taking out 1,500,000 feet of Hardwood Lumber, and are open for offers.

BAND SAW MILL FOR SALE AT FORT William; capacity of Mill, 40,000 feet in ten hours; also Planing Mill Property includes 500 feet frontage on Kaministiquia River, suitable for an elevator. For particulars apply to C. C. ABBOTT Assignee, Estate Graham, Horne & Co. Fort William Ont.

THE UNDERSIGNED HAS ON HAND TWO and one-half million feet of Spruce Logs, lengths 10, 12, 14, 16 18, 20, 22, 24 and 26 feet and is prepared to manufacture same in any form desired having for this purpose a stationary saw mill equipped with gang edger, planer and shingle machine, with a capacity of 70,000 feet per day. A purchaser is desired who would contract for the entire cut of mill. Correspondence solicited. JAMES RITCHEY, Makinak (L. M. C. Co. Railway), Manitoba.

FOR SALE.

FOUR HUNDRED ACRES TIMBER BIRCH and Hemlock; Saw Mill, capacity 30 M. per day; two Boilers 100 h.p.; Engine 85 h.p.; three Block Carriage; one 60-inch and one 55-inch Saw; Jack, with long chain, double edger, trimmer, slash chain; 2 small cut-offs; 2 Rip Saws rigged for chair bottoms. All in good running order. 700,000 ft. of Birch Logs in stock. A paying business; good reasons for selling. Address, BOX 111, CANADA LUMBERMAN, Toronto.

FIRES.

Dunn's saw mill at Sault Ste. Marie, Ont., has been burned. The dry kiln and lumber in the yard were saved. The loss is estimated at $4,000.

The saw mill at Pine River, owned by T. A. Burrows, M.P.P., of Winnipeg, was destroyed by fire a few days ago. The plant was a valuable one.

Charles Hershey & Co. have engaged in the commission lumber business in New York.

Marshall N. Smith, planing mill operator, Buffalo, has filed a petition in bankruptcy. Liabilities, $34,715.87; assets, $30,068.84.

CURRENT TRADE CONDITIONS.

ONTARIO.

The severe weather of the past week has prevented an expansion of the lumber trade which might otherwise have occurred. Only lumber for immediate requirements has been moved, but this has been sufficient to represent a fair volume of trade. That a good spring business is anticipated by retail dealers is shown by the number of enquiries for stock for early delivery. This is evidence also that retailers are carrying very light stocks, and fear that these will not be sufficient to supply the demand. A feature of the year, judging from present indications, will be the large number of farm buildings erected. From all parts of the province comes the report that farmers are preparing for the building of dwellings, barns and other outbuildings, and that there is a liberal demand for the common and coarse grades of lumber. In the cities and towns considerable building is also being arranged for. Lumber of all kinds is showing more strength. The lower grades of pine are advancing in price, and hardwoods are particularly firm. Buyers are more numerous than for several years past at this season.

MANITOBA AND BRITISH COLUMBIA.

Many of the lumbermen of Manitoba have, within the past week, taken part in the "bonspeil" at Winnipeg, and have not given the usual attention to business. The annual meeting of the Western Retail Lumbermen's Association was held on the 8th inst., at which some important questions affecting the trade were discussed. It was decided to take no action looking to the adoption of a telegraphic code and to the formation of a mutual lumber insurance association. The honorary members, who comprise the largest firms manufacturing for this market, pointed out that about 30,000,000 feet of lumber was brought in last year from the United States by the retailers of the province. This was looked upon as an injustice to the honorary members of the association.

The mills in British Columbia are busy with orders, and look forward to the season of 1899 as likely to witness a marked improvemont both in demand and prices. It is reported that an order for 160,000,000 feet has been placed with a provincial mill for timber for Chinese railways and naval posts occupied by Russia. The company are said to have been given six years in which to complete the contract.

UNITED STATES.

Indications point to an unusually active demand for lumber in the United States as soon as the weather shall permit of building operations and other outside work being proceeded with. Such industries as are not affected by weather conditions are operating to their full capacity, and are consuming no small quantity of pine and hardwood lumber. Stocks in all quarters are lower than for several years past, and consequently there are numerous enquiries in the market. Eastern wholesale dealers have purchased to some extent at northern manufacturing points, notwithstanding the high prices asked by holders. The seller is now in a position to dictate to the buyer, a condition which is in strong contrast with that which prevailed one year ago. Not only in pine and hardwood is the improvement noticed, but spruce, hemlock and cedar are also showing more strength. Reports from the hardwood trade are a reiteration of what has been said in previous issues. Demand is in excess of supply, and buyers are willing to contract for almost any kind of stock.

FOREIGN.

So far as can be learned, importers of Canadian lumber have not as yet met with much success in disposing of stock in the British market. For some reason, contracting has not been entered into as early as usual, although there is no reason to expect that the average quantity will not be marketed there. The consuming industries are in a prosperous condition, and stocks are gradually becoming reduced. There is a good demand for elm and ash timber, and prices are firm. Birch is improving, and the stock is light. Since the first of the year pine deals have shown more strength, and particularly first quality.

The Barbados market is heavily stocked with both spruce and pine, resulting in a weakening of prices. Supplies in the Australian market are also ample, and until the present stock is reduced, there will be little demand.

BUSINESS NOTES.

Victor Langis has established a sash and door factory at St. Luce Station, Que.

Wm. L. Lawson, a lumber dealer of Philadelphia, is reported to have assigned.

A sash, door and planing factory at Ahmic Harbor, Ont., is offered for sale by the assignee, Geo. H. Clarke, of Orillia, Ont.

The balance of the assets of the estate of W. I. Storey, planing mill, Ottawa, have been sold.

STOCKS AND PRICES.

The Department of Public Works of Ontario desires tenders by noon of the 17th inst., for the supply of a considerable quantity of white pine and hemlock timber.

Donald Fraser & Son, of Fredericton, N.B., are reported to have purchased the timber prperty of the late James Millet at Temiscouata, Que. The property contains some 700 acres.

The January price list issued by the British Columbia lumber manufacturers shows an advance of one dollar on four inch grained fir flooring. Three inch fir flooring and ceiling has been dropped from the published list.

A number of Ontario lumbermen, including George McCormack, M. P., Angus McLeod, and W. J. Sheppard, have gone to British Columbia. It is said that they have entered into a contract for taking out timber for the C. P. R.

Mr. Joseph Tate reports that in the township of Anson, where A. McPherson & Co., of Longford Mills, Ont., are operating, the snow is very deep. Notwithstanding, it is expected that some forty thousand pieces will be on the ice in a few days. The camp will probably break up early in March.

Pelton & Reid, of Cheboygan, Mich., have closed a deal with Munro & Gordon, of Pembroke, Ont., for the purchase of 15,000,000 feet of pine logs which are being put in this winter on Lake Wahnapitae. These logs are being taken from Indian lands. Pelton & Reid are also getting out 10,000,000 ft. of logs in the upper penisula of Michigan.

Mr. W. C. Herbert, of the Manhattan Car and Carriage Manufacturing Company, of New York, has been making a tour of Ontario for the purpose of purchasing hardwood lumber. He states that the scarcity of cars of all classes is very great throughout the United States, and that the large manufacturers are crowded with orders for rolling stock.

The lumber production of the State of Michigan in 1898 was 2,158,343,122 feet, about 200,000,000 less than the output in 1897. At the close of the manufacturing season, there was abaut 100,000,000 feet less in manufacturers' hands than at the close of 1897. Last year the shingle production was 1,683.205,500, or about 400,000,000 more than was manufactured in the previous year.

A feature of the pine trade of the northern States is the scarcity of lath at all markets. The condition of the lath market is becoming so noticeable that northern wholesalers are getting out new lists, advancing the price of lath from ten to twenty-five cents a thousand, and it is expected that the selling price will shortly reach $1.75 for No. 1 white pine and $1.25 for No. 2, on a Minneapolis basis.

The Paepcke-Leicht Lumber Company, of Chicago, recently purchased 12.000,000 feet of lumber from the Kirby:Carpenter Co., of Menominee, Mich., and about 3,000,000 feet from Duluth and other points in the Lake Superior district. The Edward Hines Lumber Company, of same city, have purchased the cut of the mill of the Garth Lumber Company, at Garth, upper Michigan, amounting to 28,000,000 feet.

An exchange gives the following estimate of the quantity of logs to be rafted from the French river in the spring: Georgian Bay Lumber Co., Waubaushene, 21,000,000 feet; Victoria Harbor Lumber Co., Victoria Harbor, 2,000,000 feet; Tanner Bros., Waubaushene, 5,000,000 feet; C. Beck Mfg. Co., Penetanguishene, 4,000,000 feet; Chew Bros., Midland, 4,000,000 feet; Holland & Emery Co., 20,000,000 feet; Hardy Lumber Co., 5,000,000 ft.; Fisher & Turner, 7,000,000 feet; Munro & Gordon, 12,000,000 feet. This makes a total of 119,000,000 feet.

During the month of January there were shipped from the port of St. John, N. B., the following quantities of lumber: To Great Britain and Ireland, 3,238,212 feet of deals, etc.; to the United States, 3,313,636 feet of long lumber and 6,810,000 lath; to Buenos Ayres, 2,074,342 feet of boards and 2,018,000 shingles; to the Spanish Islands of Peneriffe, 278,848 feet of long lumber, 40,000 lath, 18,750 pickets, and 225,950 slats; to Bermuda, 45,000 feet of long lumber and some lath, shingles, box shooks and spars; to Canary Islands, 316,036 feet of long lumber, 218,500 lath and 29,975 pickets.

THE GLASGOW MARKET.

Messrs. Allison, Cousland & Co., in their monthly report, review the Glasgow market as follows:

The amount of business transacted during February has been moderate. As shippers are asking advanced prices, values are steady and inclined to stiffer, but the larger buyers being well stocked, it may be some time before there is any improvement. Several shippers of Quebec and Lower Port goods are here at present, but as yet no great business is reported. All consumers of timber are well employed, so there is good reason to expect that shippers ideas may be realized.

WHITE PINE.—Waney.—Prime wood, 19 to 20 inch average, is quoted at 2s 5d to 2s 8d per cubic foot. 2nd class wood 15d to 2s per cubic foot. Square.—The demand has been very light. 1st class wood 35 to 40 feet average is quoted at 2s 3d to 2s 6d per eubic foot G.F A. 18d to 20d per cubic foot.

RED PINE.—There is no business to report, and prices remain unchanged at former figures, 14½d to 15½d for 35 ft. average.

ELM.—The demand has fallen off lately, but sellers are still very firm in their ideas of price; 1st class 45 to 50 ft. is quoted at 2s 2d to 2s 3d per c. ft.; 2nd class, 22d to 23d per c. ft.

OAK.—The stock on hand is heavy, and little or no business has been transacted. Quotations.—1st class is quoted at 2s 6d to 3s; 2nd class, 22d to 2s 2d per c. ft.

ASH.—The demand continues good, and prices are firm; 15 to 16 inch is quoted at 21d to 23d per c. ft.

BIRCH.—The stock in first hands is very limited and the prices are firm, 16 inch averrge being quoted at 19d to 21d per c.-ft.

DEALS, BATTENS, AND BOARDS.—There has been a moderate demand, and a fair amount of business has been done. Prices on the whole are inclined to be stiffer.

PINE.—Firsts are firmer in price for really prime deals. Broads are quoted at £23.7s. 6d. to £24 15s. Undersized, £17 3s. 9d. to £19 5s. per St. Pet. std. Seconds.—There has been a moderate demand, especially for narrow deals, which are now low in stock. Broad are quoted at £16 10s. to £19 5s. Undersized, £13 1s. 3d. to £13 15s per St. Pet. std. Thirds.—Regulars are firm in price, and undersized, although not much asked for, have stiffened considerably. Quotations.—Regulars, 11 in. and up, £9 12s. 6d. to £10 13s. 1d. Undersized, £7 18s. 1d. to £8 11s. 10d. per St. Pet. std. Fourths.—With the exception of a slight improvement in 11 inch prices are very low. Regulars are quoted at £6 17s. 6d. to £7 4s. 4d. Undersized at £5 16s. 10d. to £6 10s. 7d. per St. Pet. std.

RED PINE.—There has been a very good demand, and prices have been firm at £8 5s. to £10 13s. 1d., according to specifications.

SPRUCE.—A moderate business has been done, the demand being principally for 9 in. Quotations.—£6 3s. 9d. to £7 11s 3d. for Thirds and £5 10s. to £6 10s. 7d. for Fourths.

N. B. BIRCH.—In logs no business is reported. Planks are in good demand and should improve. Planks are quoted at 10½ to 11½d per c. ft.

N. B. DEALS, BATTENS AND BOARDS.—A moderate business has been done, but prices have been verylow, especially for wide deals, which are very hard to dispose of. Quotations.—£6 3s. 9d. to £7 11s. 3d. per St. Pet. std.

N. B. SPRUCE.—A very moderate business has been done at fair prices. Quotations.—£6 3s. 9d. to £7 11s. 3d. per St. Pet. std. for 2ud quality average.

BARBADOS MARKET REPORT.

Of the Barbados lumber market Messrs. S. P. Musson, Son & Company:

Arrivals have been as follows: Schr. Frances A. Rice, from Weymouth, N.S., 49m. shipping, 18 m. 2nd quality w. pine, 71 m. spruce; schr. Moss Glen from Bridgewater, N.S., 73 m. ft. shipping, 41 m. 2nd quality w. pine, 15 m. spruce scantling; schr. John A. McKie from Windsor, N.S, to selves, 152 m. shipping, 80 m. 2nd quality w. pine—lost part of deck load; schr. Alfaretta S. Snare from St. John, N.B., 97 m. ft. shipping, 70 m. small, 54 m. 2nd quality w. pine; schr. Athlete from Windsor, N.S., 143 m. shipping, 62 m. 2nd quality w. pine, 21 m. spruce scantling; schr. Mercedese from Belliveau Cove, 120 m. shippers, 24 m. plank, 7 m. 2nd quality spruce; schr. Walter Sumner from Tusket Wedge, N.S., 34 m. merchantable, 25 m. small, 19 m. 2nd quality w. pine, 12 m. spruce boards, 10 m. plank, and 150 m. laying spruce shingles; schr. Opal from Yarmouth, N.S., 25 m. spruce, 9 m. w. pine, 14 m. hemlock, 128 m. laying cedar shingles.

The cargoes of the Synara and B. B. Hardwick, mentioned in our last, were sold, former at $21.10 shipping, $14.60 2nd quality, and $13.40 small white pine; $11.40 2nd quality spruce, $15 scantling 2 x 3; latter at $21.26 shipping, $15.26 2nd w. pine; $16.60 shipping spruce. For the Frances A. Rice's cargo we were able to obtain same rates, viz: $21.26 shipping, $15.26 2nd quality w. pine; $16.60 shipping spruce. The market was well stocked with these previous receipts, and the arrival of over half a million w. pine by the Moss Glen, McKie, and Snare, had a most depressing effect. The first named, being a small cargo, was sold at $20.50 shipping, $13.50 2nd quality, cargo to be delivered at Speightstown and Bridgetown. The Snare's and the McKie's cargoes were placed at $20.10 shipping, $13.10 2nd quality, and $15.10 small, deliverable at Bridgetown. The Athlete we despatched to Demerara under valuation of $20 merchantable, $13 2nd quality, bond. All these arrivals have depressed dealers, who now anticipate a sharp break in the prices, not only for w. pine, but for spruce as well, and it was difficult to induce them to make any offer for the Mercedese's cargo, which, however, we succeeded in placing at $16 for shipping, and $14 for plank. The Walter Summer's cargo has been sold at $18.75 shipping, $12.50 2nd quality w. pine, $16 spruce boards, $12.50 plank; and we learn that the Opal has gone to St. Vincent.

Shingles—Long Gaspe—The S. S. Taymouth Castle brought 196 m., which have been sold at $5.53. In laying cedar the 500 m. by the Syanara were in part fulfillment of contract at $2. The Taymouth Castle has 500 m., which were also contracted for; and the Opal has 128 m., which have gone on in vessel; other lots are expected. In spruce laying the Wapiti, from Yarmouth, brought 264 m., of which we placed 200 m. at $2.35; the Walter Summer had 150 m., which were sold at $1.90. We have done nothing so far with the Cypress, ex Knowlton, and Sawyer, mentioned in our last.

AUSTRALIAN CONDITIONS.

The monthly timber report of Fraser & Co., Melbourne, Australia, reviews that market as follows:

Operations during the past four weeks have been very important, due in a measure to the intervention of the holidays, and partly owing to the fact of the trade holding off from buying to any extent until after business has become more settled in the new year. With the exception of flooring, lining, and weather-boards, there are practically no alterations in values to advise in other descriptions of timber, but in the lines just named quotations have been given for shipments shortly "to arrive" upon a reduced basis, though, for the reason already mentioned, but few sales have been arranged. Since the resumption of business after the holidays, a shipment of this class of timber just in port has changed hands in a line at prices not transpired, and it is the intention of the importers of the cargo per Fernanda, also lately arrived, to test the market to-morrow by submitting this shipment to public auction, along with other kinds of timber importations now upon the market.

It is probable that an increased consumption will be shown during the current year, and later on values of the lines chiefly in demand are more than likely to improve, but at present, owing to near supplies appearing to be sufficient to meet requirements, we hardly anticipate any early change for the better, even though cost and freight prices at ports of shipment for many imyortant kinds have but recently advanced.

SPRUCE AND BALTIC WHITE DEALS.—Imports: 1,175,308 feet super. Arrival: Invermay, from St. John. Recent supplies have been in poor enquiry, as the principal buyers of these lines are well stocked. Values are weak, and are nominally 2½d. to 2⅝d. per foot of 9 x 3.

OREGON PINE.—Imports: 1,539,238 feet super. Arrivals: J. C. Potter, from Tacoma; Novelty from Astoria. Lumber stocks have been dealt in to a slight extent only, but we understand that a portion of the Novelty shipment just arrived has been placed at about the market rate of £5 10s. per 1,000 feet super. for an average specification. The J. C. Potters' cargo has gone into the pard of the importers, no business being concluded while at the wharf.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 20c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.; Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the distr t freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2.20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively: Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct., Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior, Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, fof track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including lighterage within the free litherage limits of New York harbor, are 2 cents per 100 lbs additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deshcenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C P.R. also make the following rates on seasoned pine lumber to West St. John, N B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber or consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., FEBRUARY 22, 1899 No. 5.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac smilie of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

THE UNDERSIGNED HAS ON HAND TWO and one-half million feet of Spruce Logs, lengths 10, 12, 14, 16 18, 20, 22, 24 and 26 feet, and is prepared to manufacture same in any form desired, having for this purpose a stationary saw mill equipped with gang edger, planer and shingle machine, with a capacity of 0,000 feet per day. A purchaser is desired who would contract for the entire cut of mill. Correspondenee solicited. JAMES RITCHEY, Makinak (L. M. C. Co. Railway), Manitoba.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G., 29,280 acres, more or less, New Westminster District.

Lot 50 G., 6,720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p. each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site; also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B. C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six; nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to—

"THE SECRETARY,
"Maclaren Ross Lumber Co.; Limited,
"110 Wellington St., Ottawa, Ont."

Ottawa, Ont.; 15th February, 1899.

WANTED.—Dry Butternut, or Sycamore, 2-inch Plank. JAMES WARNOCK & Co., Galt, Ont.

WANTED.—Dry Soft Elm, Basswood and Ash, for cash. JAS. MORRISON, 552 Yonge St., Toronto.

WANTED—Will pay cash for Ash, Elm and other Hardwoods. Address—M. E. BEARSE, 621 Exchange Building, Boston, Mass.

FOR SALE.

MESSRS. DOBIE & CO. and DAVID GORDON, of Thessalon, are taking out 1,500,000 feet of Hardwood Lumber, and are open for offers.

WANTED.

TO CORRESPOND WITH PARTIES HAVING Lumber, Logs, and Standing Pine for sale, tributary to Georgian Bay. A. P. EBERT, Pembroke, Ont.

FOR SALE.

FOUR HUNDRED ACRES TIMBER, BIRCH and Hemlock; Saw Mill, capacity 30 M. per day; two Boilers, 110 h.p.; Engine, 85 h.p.; three Block Carriage; one 60-inch and one 55-inch, Saw; Jack, with long chain, double edger, trimmer, slash chain; 2 small cut-offs; 2 Rip Saws rigged for chair bottoms. All in good running order. 300,000 ft. of Birch Logs in stock. A paying business; good reasons for selling. Address, BOX 111, CANADA LUMBERMAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Enquiries received during the past week give rise to the hope that the spring trade will open up earlier than usual, and consequently retailers are stocking up with some liberality. In the Ottawa valley considerable lumber has changed hands of late, and on some grades prices have been advanced. United States buyers have made considerable purchases of box lumber, and at prices from one to two dollars higher than those which ruled one year ago. A singular feature of the market is the scarcity of mill culls. These have been practically cleaned out in the Georgian Bay district, and it is said that as high as $8 per thousand has been offered. The steady demand throughout the winter has reduced stocks to a low point, and not for many years has white pine occupied as strong a position as it does to-day.

The demand for hardwood lumber is unceasing, and the mills are constantly refusing orders owing to inability to supply the stock.

QUEBEC AND NEW BRUNSWICK.

Beyond the shipment of shingles to the United States, the movement of eastern timber products has shown no expansion. Some stock has gone forward from St. John by the regular liners to the British market, but the quantity has been less than in the corresponding period last year. It is learned that comparatively few contracts have as yet been placed for maritime province spruce deals. Manufacturers and shippers are holding out for prices considerabiy higher than those of last year, while buyers are reluctant in acceding to their demands. The Quebec shippers of spruce have been more fortunate than their eastern friends, and are reported to have succeeded in selling an average quantity of stock at a slight advance over last year's figures. Freights for sailing vessels are about the same as last year, but steamers are holding out for stiffer rates. That they will be able to secure such is very doubtful.

MANITOBA AND BRITISH COLUMBIA.

The spring movement of lumber has commenced in a moderate degree, and dealers report an increased number of enquiries. The volume of building operation in Winnipeg and in towns in Manitoba and the Territories promises to be large, while considerable railway work will be carried out. Prices of lumber are rather uncertain, and it is probable that a new price list will be issued by the manufacturers. The British Columbia mills are busy, and the outlook is good.

UNITED STATES.

Holders of stock in the United States continue to advance prices, and for certain lines of goods there seems to be no limit. In some quarters buying has been deterred owing to the fear of a reaction after the mills shall commence to manufacture. At the present time all kinds of lumber are firm. At Chicago there is a pronounced shortage of No. 3 boards, No. 3 strips, and piece stuff; at Bradford, Pa., No. 1 pine is in short supply, and at Philadelphia there is a decided shortage of 4/4 and 1½-inch cutting up lumber.

In the east the demand for shingles has been large, and the market is short of 16-inch white pine. It is thought that the supply of all kinds of shingles will be exhausted before the opening of lake navigation. Hardwood lumber continues to be sought after, and it is probable that some factories may be compelled to shut down for lack of raw material. In the south logging has been difficult, while in the north the season has been fairly favorable and the output of lumber will be a full average.

FOREIGN.

It is rather surprising that British importers have not contracted more extensively for Canadian goods. Much less stock has been placed than at a corresponding period one year ago, and some of the largest buyers are still standing aloof. One reason given for this situation is that large quantities of lumber have been disposed of at auction, a course to which many of the most reliable dealers take exception. Concerning this policy the Timber Trades Journal says: "The shippers sell as much as they can to the merchants here in the first instance, and afterwards bring forward cargoes in the market, which inevitably find their way

into the auction room for realization at prices detrimental to the interests of those who have previously bought largely on f.o.b. or c.i.f. terms. Such a condition of things must find its level, and the present stagnation of first-open-water business can be traced to this cause. It seems a pity that the Canadian firms do not combine with the object of regulating their business on similar methods to those of the North of Europe shippers." At Liverpool the market is also dull, but some of the other ports are buying spruce quite liberally. A fair amount of business is being done in Ireland, and at prices slightly higher than those of last year. Red pine deals are especially firm, being in low stock and advancing in price.

France and Germany are buying only moderately. The South American demand shows some life, but the West India market is overburdened with stock, and prices are depreciating.

STOCKS AND PRICES.

D. K. Bugisch, of Antwerp, Belgium, desires to correspond with Canadian lumber exporters.

W. J. Barrett, of Thessalon, Ont., will probably get out this winter 5,000 cords of pulp wood.

S. H. White, of Sussex, N.B., is taking out a quantity of hardwood timber for export to England.

William White, reeve of Tweed, Ont., wants tenders for the supply of pine plank and cedar scantling.

R. J. Abbott, a contractor of Boston, Mass., was in Annapolis, N. S., last week with a view of purchasing lumber.

Red cedar shingle manufacturers in the Western States have advanced prices. Clears are now selling at about $2.50 delivered on a 60 cent rate.

D. M. Rennie, Canadian Commercial Agent in Agentina, writes that the lumber business has not been large, but stocks are light and the outlook for 1899 is excellent.

F. R. Gilchrist & Co., of Cleveland, Ohio, have made a large shipment of maple flooring to Peru, and have received an order for the same kind of material to go to Belfast, Ireland.

At Saginaw, Mich., there is a general belief that prices will advance. Log run lumber is selling at $13 to $18, box lumber at $10 to $50, Norway at $9 and $10, and mill culls at $7 and $8.

The Temiscouata timber property purchased by Donald Fraser & Sons, of Fredericton, N.B., and referred to in last issue, contains 700 square miles. The price paid was $90,000.

The corporation of Welland, Ont., invites tenders up to February 27th for a supply of white oak and white pine timber. Address, C. H. Reilly, chairman Road and Bridge Committee.

It is reported that Boston capitalists have undertaken the formation of a large lumber company to consolidate all the mills on the Machias river, and to purchase seueral townships which embrace valuable timber limits.

D. L. White, jr., and James Playfair & Co., of Midland, Ont, are reported to have purchased twenty million feet of logs put in this winter by the Arthur Hill Co., of Saginaw. This stock will be manufactured at Midland, some of it for export.

A. McPherson & Co., of Longford Mills, Ont., have just finished hauling their cut of logs in Anson township. They have taken out 40,000 pieces. They state that the great depth of snow is making hauling very expensive. At their Ravensworth mill, in Bethune township, they have a stock of two and one-quarter million feet. They also have in stock over two million of No. 1 and 2 16-inch pine and cedar shingles.

Speaking of the lumber trade, Mr. E. C. Whitney, manager of the St. Anthony Lumber Company, remarked that this has been an excellent season for getting out logs in the Ottawa valley. The St. Anthony Company, whose limits are principally on the Madawaska, are taking out about the usual quantity of logs. The Booth Company are taking down to Ottawa daily a train load of about forty-five cars of pine and spruce logs, averaging from twelve to twenty feet long and about eighteen inches in diameter.

At the Crown Lands office, Fredericton, N.B., the following timber berths were sold last week:—Head of Popelogan stream, Upsalquinch river, 4½ miles, to James Reid, at upset price of $8 per mile; hardwood settlement, Bay du Vin, 2 miles, to Edward Sinclair, at $8.50 per mile; east branch, Christopher's brook, 2½ miles, to A. Alexander at upset price; headwaters of Tattagouche river, 9 miles, to Sumner & Co., at upset price; Tattagouche river, above Third lake, 5 miles, to Sumner & Co., at upset pries; Gaspereau river, at mouth of Demon's brook, 4½ miles, to Geo. F. Baird, at upset price; Gaspereau river, above Meadow brook, 2 miles, to Geo. F. Baird, at upset price; west branch Rockway river, 2 miles, to Milton Dayton, at upset price; head of east branch Christopher's brook, 9 miles, to A. Alexander, at $8.10 per mile.

Concerning an auction sale held by Churchill & Sims, London, Eng., on the 8th inst., the Timber Trades Journal says: Spruce went tolerably, and all we can say is, that if the whitewood market has an improving tendency, as some wish to make out, there are no signs of it in the auction realizations; 2nd Quebec regulars selling at £7 10s., and unsorted 5s. less, must be a losing game. The few lots of white pine went indifferently, and it seems pretty plain that the market for Canadian pine has no life in it, and only at sacrificial prices is the present stock realisable. 3rd Quebec have been hanging in the auction sales at £8 15s. for some time past, and though some explanation is afforded for the depreciation on the score of quality, the damage to better kinds by these low sale values can be easily understood. The red pine boards, ex "Nordcap," were well competed for and prices fairly good.

BASSWOOD BOARDS WANTED.

A British importing firm write the CANADA LUMBERMAN as follows:

"We would be glad to know if any Canadian manufacturers can supply the following specification of basswood boards, to be cut from winter-sawed, perfectly white basswood:—Lengths, 12½", 13½", 14", 15", 16", 16½", and any width from 3" and up, to be sound and perfectly white, and free from knots. Sufficient number of each length, to make a board four feet wide, these to be jointed on edge and glued together, thus:—

FOUR FEET LONG.

Lengths of all these to be four feet long, and to hold up ⅞" thick after being planed or sanded. Boards to be cased with 1" lumber, about 100 pieces in a case, and delivered free on rail, giving price per 1,000 feet superficial for these goods, and allowing a 60 cent rate per 100 lbs. from invoice, for freight. Two carloads a month required.

We are also buyers of broom handles in large quantities, 50" x 1⅛".

"It is a great pity that we cannot give Canada this business instead of the United States."

The name and address of the firm may be obtained upon application to this office.

FIRES.

A saw mill at Morbely, B.C., has been burned.

The wood-working factory of Joseph Saunders, at Sunderland, Ont., was destroyed by fire on the 14th instant.

It is reported that a saw mill at Cranbrook, B.C., in which James Mundie, of Winnipeg, is interested, has been destroyed by fire. The mill had a capacity of 30,000 feet per day.

THE BRITISH MARKET.

The lumber market at Liverpool, Eng., is thus reviewed by Messrs. Farnworth & Jardine in their circular dated February 1st:

The arrivals from British North America during January have been 3,320 tons register, against 3,864 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1897, 1898, and 1899 has been 15,132, 21,739 and 15,477 tons respectively. The business during the past month has been quiet; the arrivals have been fairly moderate, but the deliveries have been small. Stocks are ample, and there is little change in values to report.

PINE TIMBER.—Of waney the deliveries have been fair, and the stock is now reduced to a moderate compass; prices are firm. For square there is little enquiry; the stock is ample. Red pine is in very limited request, and the stock is sufficient. Oak:—The demand continues very dull; prices are difficult to maintain, and the stock is large. Elm:—The stock is small, and it is firmly held at advanced prices. Ash:—The import consists of round wood from the United States; there is only a limited demand; the stock is moderate and values unchanged. Pine deals remain in a very unsatisfactory position, the deliveries have been disappointing, prices rule low and the stock is far too heavy. Red pine deals are in strong demand, and the prices for next season are much higher; the stock is light.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The arrivals, amounting to 1,800 standards, have been by steamers from St. John and Halifax; the deliveries have been unsatisfactory. Stocks are too heavy, but there is little change in value to report. Pine deals are in very dull demand and difficult to sell; the stock is sufficient.

BIRCH.—Of logs there has been no import; there is a fair demand, and stocks are not excessive. Planks continue to arrive in moderate quantities, but prices are lower and the stock is ample.

Current quotations are as follows:

		s. d.	s. d.
Quebec white pine timber:			
Square	per cu. ft.	1 3 tu	2 4

Boards, spruce, &c	"	5 10	6 0

Of the London demand, Messrs. Churchill & Sim say: Pine deals have again been freely sold during the month with varying fortunes, dependent largely upon the quality of the particular parcel, but on the whole, perhaps, at some shade of reduction on the levels of last autumn. Spruce has been rather disappointing, for it has sold very freely in response to quite an eager demand. The stock is considerably reduced, comparing now very favourably with that of last year, and yet for wholesale quantities prices have been if anything rather lower than they were before the turn of the year. Birch, elm, and ash are in rather better retail demand; there is no change to record in oak; white pine timber has been sold very cheaply during the month.

Mead & Stewart, lumber dealers, Buffalo, have dissolved partnership.

The Merryman Lumber Company, of North Tonawanda, N. Y., has been incorporated, with a capital of $25,000.

Joseph Jacob, lumber merchant, of St. Henri, Que., is reported to have assigned, with liabilities of $45,000 and assets about same amount.

SHIPPING MATTERS.

There are still very few transactions to record in Canadian freights, says the Timber Trades Journal. The tendency is for easier freights from the timber shipping ports all round. The following transactions have taken place:—Quebec to Glasgow, 42s. 6d. f.o.w. 1,300 standards. Quebec to w.c. Great Britain, range 43s. 9d. f.o.w. 1,200 standards. Montreal to Liverpool, Fleetwood, Barrow, or Clyde at 42s. 6d. Liners are booking from Montreal to Liverpool at 37s. 6d.; London, 38s. 9d. and 40s.; Glasgow, 40s.; Manchester, 41s. 3d., bds. 2s. 6d. extra.

A competent band saw filer desiring engagement may learn of a position by corresponding with the publishers of this journal.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 20c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.: Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2.20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively; Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct., Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior, Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, fof track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills, 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including litherage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deshcenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C.P.R. also make the following rates on seasoned pine lumber to West St. John, N.B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber for consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MARCH 1, 1899 No. 6.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

THE UNDERSIGNED HAS ON HAND TWO and one-half million feet of Spruce Logs, lengths 10, 12, 14, 16 8, 20, 22, 24 and 26 feet and is prepared to manufacture same in any form desired having for this purpose a stationary saw mill equipped with gang edger, planer and shingle machine, with a capacity of 0,000 feet per day. A purchaser is desired who would contract for the entire cut of mill. Correspondence solicited. JAMES RITCHEY, Makinak (L. M. C. Co. Railway), Manitoba.

WANTED.—Dry Butternut, or Sycamore 2-inch Plank. JAMES WARNOCK & Co., Galt, Ont.

WANTED.—Dry Soft Elm, Basswood and Ash, for cash. JAS. MORRISON, 552 Yonge St., Toronto.

WANTED.— ¼ Hard Maple—white, plain and quarter-cut. JAMES MORRISON, 552 Yonge St., Toronto.

WANTED—Will pay cash for Ash, Elm and other Hardwoods Address—M. E. BEARSE, 621 Exchange Building, Boston, Mass

FOR SALE.

MESSRS. DOBIE & CO. and DAVID GORDON, of Thessalon, are taking out 1,500,000 feet of Hardwood Lumber, and are open for offers.

WANTED.

TO CORRESPOND WITH PARTIES HAVING Lumber Logs, and Standing Pine for sale, tributary to Georgian Bay. A. P. EBERT, Pembroke Ont.

WANTED.

ABOUT five hundred yards of second-hand, light Iron Rails, for tram track. PICKARD & ROWAN, Owen Sound.

WANTED.—One first-class band saw fitter and millwright; a good foreman to take charge of mill; also a shipper Apply to THE GODERICH LUMBER CO, Wiarton, Ont.

WANTED.—Lumber Truck Wheels, for use on tramway. State diameter, thickness of rim, depth of flange, bore of axle, and net cash price per pound. H. CARGILL & SON, Cargill, Ont.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G2., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p each, and fitted throughout with special machinery for working up British Columbia, timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site, also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six, nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to—

"THE SECRETARY,
" Maclaren Ross Lumber Co., Limited,
" 110 Wellington St., Ottawa, Ont."

Ottawa, Ont., 15th February, 1899.

BUSINESS NOTES.

Creditors of J. M. Rutier, Brome Corner, Que., have been notified to file claims.

The Cumberland Coal & Lumber Co., of Albany, N. Y., has been incorporated, with a capital of $200,000.

Callin & McDonagh, lumber dealers, Russell, Man., have dissolved partnership, A. B. Callin continuing.

Frame & Verge, of Boston, Mass., have filed a bankruptcy petition. The firm assigned in May, 1898, with liabilities of $48,430 and assets of $5,849.

Raemer Wigle has withdrawn from the Blind River Lumber Company, of Blind River, Ont. The business will be continued by the remaining partners.

CURRENT TRADE CONDITIONS.

ONTARIO.

The time has arrived when the spring movement of lumber should commence, when contemplated construction work should cause dealers to stock up in anticipation of the season's requirements. Retail stocks were drawn upon to some extent during the winter, and are by no means heavy, rendering replenishment a necessity. At the mills the quantity of unsold lumber is less than it has been for several years. These conditions account, in part, for the volume of the trade of the past week, which was of a most satisfactory character. In the pine trade the chief transactions have been in low grade and common stock, of which the supply is rapidly becoming depleted, and before the new cut is available there will be little upon the market The demand for mill culls is almost unprecedented, and manufacturers who held this class of stock for higher prices are now reaping the benefit. Considerable stock has changed hands in the Ottawa valley for shipment to the United States, and there, as in the west, the outlook is hopeful. Much interest pertains to red pine, the British demand for which has become so pronounced. Severel manufacturers have disposed of their 1899 cut, and it is learned that one manufacturer at least has sold his production for the season of 1900. This fact forcibly illustrates the strength of the market. It seems almost incredible that in such a short space of time Canadian red pine should become so popular in the British market.

Any reference to the hardwood trade must be almost a repetition of what has already been said. The market is strengthening, demand expanding, and stock becoming scarcer. Numerous orders are being refused for black ash and soft elm, the supply of which, it may be said, is exhausted, while of the other hardwoods it is difficult to find any considerable stock. Mill men have grasped the situation, and those having any dry lumber are not backward in asking fancy prices. Birch is in greater supply than the other woods. Early in the year a word of warning was sounded to manufacturers that prices might weaken in the spring, in view of the supposed heavy production of logs. Conditions have been changed somewhat by an unfavorable logging season, and it is not believed that the crop of logs secured has been more than an average one, while the winter season seems now to be at an end. With the prospects for a good trade, prices are not likely to depreciate to any extent.

QUEBEC AND NEW BRUNSWICK.

As the logging season draws to a close, it becomes more evident that the production of spruce logs will be limited. In Quebec the cut will be an average one, bnt in New Brunswick and Nova Scotia operations have been much curtailed. Compared with last year spruce deals are considerably higher. Manufacturers are looking forward to a better demand, and resuse to contract excepting at prices from one to two dollars in advance of those of last year. The cedar shingle market is firm, there being a steady trade with the Eastern States, where this class of shingle is growing in favor.

MANITOBA AND BRITISH COLUMBIA.

Bright building prospects in Manitoba and the North-West Territories have caused lumbermen to look forward to the season of 1899 as likely to be quite as prosperous as that of the previous year. Already there is a considerable movement of lumber, and plans are under way for several important buildings to be erected in the city of Winnipeg. Although the price list has not yet been re-arranged, it is thought that very few lines will be offered at lower figures than those which ruled last year.

In British Columbia the demand for lumber is unusually brisk, chiefly on account of the activity in building operations. Foreign trade is also of considerable volume, and lumbermen are much encouraged at the outlook.

UNITED STATES.

It can truly be said that the lumber trade of the United States is in a flourishing condition. While the spring movement has not yet commenced, the heavy purchases made during the past week show that wholesale dealers anticipate an active demand. Chicago dealers have closed for several mill cuts in the Duluth-Superior district, and have paid advanced prices for the stock. Eastern dealers, who showed a disposition to wait in the hope that prices would weaken, are now convinced that this will not be the case, and are stocking up quite liberally. The greatest scarcity pertains to low grade boards suitable for box-making. This grade of white pine is almost exhausted, and substitutes are being purchased in some instances.

Spruce is improving. In New York 13-foot stock is very scarce; there is practically none at the mills, and the

stock on hand in Albany is the lowest in years.

Prices of hardwood lumber have a tendency to further advance. Black and white ash and soft elm are much enquired for, and orders have been refused owing to inability to find the stock. In Wisconsin and Michigan logging conditions have been somewhat unfavorable, and as a result the output of basswood, elm, birch, maple and ash will not likely be as great as was expected earlier in the winter. The weather in the south has also been unfavorable, and a restricted imput is expected. These conditions cannot but result in strengthening the hardwood market.

FOREIGN.

The movement in Great Britain towards contracting for the season's supply of lumber is still backward. One reason for this is that shippers are asking higher prices, which buyers refuse to pay until convinced of the absolute necessity of doing so. The market for white pine is steady, and stocks sold at recent sales have realized average prices. There is a brisk demand for red pine, which has practically passed out of first hands. Spruce is likewise enquired for freely, some sales having been made recently at prices which show a considerable advance.

In France and Germany the trade of this year has not exhibited much life. For some reason buyers have not entered the market with the usual vigor. The South American market is improving.

STOCKS AND PRICES.

The Spanish River Lumber Company has decided to operate its mill at Spanish River the coming season.

Chicago dealers have purchased most of the No. 4 boards on Lake Superior, paying therefor from $6.50 to $7.00 per thousand.

At a recent sale of Hodson, Mabbs & Co., London, Eng., 240 loads of first-class oak sold at 88s. to 97s., averaging 92s. 6d. per load.

The J. B. Armstrong Manufacturing Company, of Guelph, Ont., want a quantity of basswood, ⅝ inch, ¾ inch and 1 inch culls.

Perley, Lowe & Co., of Chicago, have closed for the purchase of the Peshtigo Lumber Company's mills at Peshtigo, Wis., amounting to 30,000,000 feet.

The city of Brantford, Ont., wants tenders by March 20th for the annual supply of lumber, cedar posts and oak planks. Particulars may be obtained from the city clerk.

J. B. Kemp, of Pembroke, Ont., is in the market for 3,000 cords of green spruce, also for 15,000 railway ties, delivered on the line of the C.P.R. between Carleton Junction and Moore's Lake.

The Skillings, Whitney & Barnes Lumber Co., of Ogdensburg, N.Y., have just been given an order for 180,000 feet of one-half inch pine lumber, to be shipped to Porto Rico, to be used in making sugar boxes.

The Emporium Lumber Co., of Buffalo, is reported to have purchased from F. H. & C. W. Goodyear and the Pennsylvania Canning Company, all of the hardwood on 7,000 acres of land in Cameron and Potter counties, Pennsylvania.

The city council of Winnipeg, Man., has accepted the tender of T. D. Robinson & Co. for the supply of from 1,000 to 2,000 cords of cedar blocks, at the price of $11.98 per cord. Other tenderers were: J. G. Hargrave, $12.14; Kelley Bros., $12.47.

Mr. William Margach, crown timber agent at Rat Portage, Ont., reports that logging operations are being carried on extensively in that vicinity this winter. The quantity of ties, piles, telegraph poles and cedar posts cut during the season will be greatly in excess of any previous year.

In the Duluth-Superior district there is only about 20,000,000 feet of last year's production of lumber yet unsold, while is is estimated that over 90,000,000 feet of the 1899 cut has been contracted for at prices from $1 to $1.50 higher than quotations of one year ago.

Messrs. Denny, Mott, & Dickson, of London, Eng., says regarding Canadian timber: "Waney pine and oak have been little enquired for, but there has been a fair enquiry for elm. Prices remain firm, as there is little anxiety as to the moving off of the present moderate stocks before new supplies can come to hand."

O. E. Konkle, of Hamilton Ont., will shortly commence to get out oak in the vicinity of Farmers and Morehead, Kentucky, having been given a contract to furnish oak for a number of British war vessels. The American Lumberman is authority for the statement that he intends to purchase 2,000 acres of oak lands, and that 5,000,000 feet will be required for his purpose.

Referring to the probable log supply of the Michigan mills for the coming season, the American Lumberman says: "The Siginaw Lumber and Salt Company has 15,000,000 feet of logs now in Saginaw river, and will get 10,000,000 feet more from Canada this year, the latter being cut on Indian lands. The mills of Pitts & Co., McEwan Bros. & Co., William Peter, F. E. Bradley, and one or two others on the river, chiefly depend upon Canada for stock. Eddy Bros. & Co., are operating in Canada, but also in Michigan, and will have a partial stock for their mills. The Central Lumber Company depends upon Canada for a portion of its stock, and it will be a hardship if the 10,000,000 ft. being put in on the Blind River are not allowed to come over. Pelton & Reid, of Cheboygan, have 15,000,000 feet of logs cut on Indian lands, which will be allowed to come over. It is also to be remembered that a considerable quantity of Canada logs cut last winter were hung up by the sudden disappearance of snow, and these logs have mostly been purchased by Michigan mills."

THE MAINE LOG PRODUCTION.

A dispatch from Bingham, Maine, relating to the log input, says: The exceptionally fine season for lumbering, the fair outlook for an advance of prices for manufactured lumber and the improvements made by the Kennebec Log Driving Co. along the Kennebec river, have tended to cause each of the lumbering firms to increase their expected cut, so that the year 1899 will see the largest cut of timber ever made and rafted in the Kennebec waters, it being nearly one-third larger than the estimate given by the Associated Press at the beginning of the season. There is every reason to believe that manufactured lumber will be $2 per thousand more this year. Improvements along the Kennebec are such that driving will be practically easy compared with former years. A conservative estimate of the cut to date is as follows: In the Skowhegan section, 28,000,000; the cut in the Dead river regions, Berlin Mills, 9,000,000; Clark Bros., 1,000,000; Elias Thomas, 500,000; Elias Thompson & Co. on Bay Brook, 250,000; on the Carry, 100,000; Lawrence Newhall & Co. on the North Branch, 6,000,000; Lawrence Newhall & Co. on Moose river, 8,000,000; Elias Thomas on South Branch, 1,500,000; on Supton Brook, 2,000,000; Viles and Thomas on Black Brook, 1,000,000; Viles & Co. on Carry Pond, 500,000; Lawrence Bros. and Hollingsworth and Whitney Co. on the Spencer, 6,000,000.

SALE OF CANADIAN LUMBER.

At an auction sale held by Foy, Morgan & Co., London, Eng., on February 16th, the following prices were realized for Canadian goods:

SPRUCE—Ex Souverain, from Dalhousie, N. B.—12 x 17 ft., 2 x 6 in., unassorted, £6; 12 x 16 ft., 2 x 6, £6; 9 x 11 ft., 2 x 6, £5 17s 6d; 5 x 8 ft., 2 x 6, £4 17s 6d; 9 x 18 ft., 2 x 5, £5 2s 6d. Ex Iona, from Quebec—13 ft., 3 x 9 in. 2nd quality, £17 15s. Ex Madura, from Saguenay, Que.—12 x 13 ft., 3 x 8 in., 1st quality, £7 10s; 9 x 16 ft., 3 x 8, £6 15s; 6 x 18 ft, 3 x 7, £6 17s 6d; 13 x 16 ft., 3 x 8, 3rd quality, £6 15s; 12 x 13 ft., 3 x 8, £6 10s; 16 x 18 ft., 3 x 7, £6 10s; 14 x 15 ft., 3 x 7, £6 10s; 12 x 13 ft., 3 x 7, £6 10s; 9 x 11 ft., 3 x 7 and 8 in., £5. Ex Madeline, from Quebec—13 x 14 ft., 3 x 11 3rd quality, £7 10s; 12 ft., 3 x 11 £7 5.

BRITISH COLUMBIA PINE.—Ex Khorasan, from Vancouver—8 x 15 ft., 3 x 3, 1s 3d per cubic ft.

CORRECTION.

A typographical error occurred last week in the advertisement of the Ross-McLaren Lumber Company on the first page. Block 2 should have read "Lot 423 G 2; 9,280 acres, more or less," instead of 29,280 acres.

LUMBERMAN'S INSPECTION BOOK.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

Martin Bros. & Co., have registered partnership in Montreal as box manufacturers.

Arthur Ellison, saw mill, owner, Port Hanley, Ont., is reported to have assigned to A. J. Clark.

Buffalo and Tonawanda lumber merchants are said to be interested in the failure of Samuel A. Skead, of New York.

H. Shaver's saw mill at Shaverton, near Tilbuy, Ont., was destroyed by fire on Sunday last. The loss is $5,000 and the insurance $3,000.

The assignment is announced of Joseph Jacob, contractor, of St. Henri, Que., the liabilities being $45,870. The Montreal Lumber Company is a creditor to the amount of $1,500.

The schooner H. B. Homan has been chartered to load lumber at St. John, N. B., for Grenada, at $5. The schooner Mercedes will load lumber and spars at Belliveau's Cove, N. S. for Barbados.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 20c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Har-

bor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.: Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the distr t freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2.20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively; Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct., Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ott wa, Hull, Aylmer and Dechenes Mills, also Arnprior. Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line, expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, fof track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills, 15c. per 100 lbs.; from Carleton Jun tion, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including lith erage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deshcenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C.P.R. also make the following rates on seasoned pine lumber to West St. John, N B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber or consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MARCH 8, 1899 No. 7.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.—Dry Butternut, or Sycamore 2-inch Plank. JAMES WARNOCK & Co., Galt, Ont.

WANTED.—1¼ Hard Maple—white, plain and quarter-cut. JAMES MORRISON, 552 Yonge St., Toronto.

WANTED—Will pay cash for Ash, Elm and other Hardwoods. Address—M. E. BEARSE, 621 Exchange Building, Boston, Mass

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G2., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill locate upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 156 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site, also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B C. Property.."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six, nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to—

"THE SECRETARY,
" Maclaren Ross Lumber Co., Limited,
" 110 Wellington St., Ottawa, Ont."

Ottawa, Ont, 15th February, 1899.

The Wentworth Lumber Company has engaged in business at Hamilton, Ont.

Cunningham, Moore & Co., lumber dealers, Boston, Mass., are reported to have dissolved partnership.

A manufacturing firm in Toronto desires to purchase a small quantity of second growth ash. Mill men having same for sale are asked to send particulars to this office.

It is reported that the Bronsons & Weston Lumber Company, of Ottawa, will continue in business, notwithstanding that no logs were taken out this winter.

A saw mill at Hawkshaw, York county, N. B., owned by F. P. Thompson and R. A. Estey, was destroyed by fire last week. The insurance is given as $4,000.

CURRENT TRADE CONDITIONS.

ONTARIO.

In no branch of commerce is the business improvement more noticeable than in the lumber trade. Manufacturers of agricultural implements, furniture, house finishing and other wood-working lines are operating their factories to their full capacity, and have orders on hand which will carry them well into the summer season, to say nothing of new business. The lumber required for the execution of these orders will be considerable, and as little is held in stock, purchasing for requirements must follow. That lumber will be scarce seems to be admitted even by buyers, who are showing some willingness to contract for the cut of the coming season. While hardwoods are eagerly sought for at the advanced prices, there is also a satisfactory movement of pine, and this will be greatly increased as building operations become more active. Toronto architects are preparing plans for many buildings, and at outside points the season is opening up favorably.

QUEBEC AND NEW BRUNSWICK.

Shippers of spruce have not purchased with much liberality, having been unable to contract with British importers at satisfactory prices. The situation is somewhat peculiar, and there is a possibility that buying will be deferred until late in the spring. It is thought that then the prices which manufacturers now ask will be paid, and that all the stock manufactured will be marketed. The trade have some hope of placing a greater quantity in the United States market on account of the improvement in prices in the east. There is also a bright prospect of increased trade with the West India Islands, and recently a number of inquiries have been received. Attention is directed to the changes in the Quebec price list. Square and Ottawa waney pine are marked slightly higher.

UNITED STATES.

The only weakness in the lumber market pertains to spruce, which does not improve in due relation to the favorable conditions surrounding the trade. In every other branch of the industry, conditions are particularly favorable. The demand for white pine lumber is almost unprecedented, and this notwithstanding the fact that little lumber is as yet going into consumption on account of building operations. Owing to the inability of Michigan manufacturers to obtain Canadian logs this season, the lumber production of that state will be greatly curtailed, and consuming industries will no doubt purchase some of their supply at least in the Duluth-Superior district. Already 135,000,000 feet of the 1899 cut of the Duluth mills has been contracted for, and at prices from one to two dollars per thousand higher than those of last year. The supply of box grades, such as No. 3 and No. 4 common, and mill culls, is nearly exhausted, and box-makers will be compelled to purchase the higher grades of pine or substitute some other lumber for their purpose. Cull lumber is now selling at the mills as high as $8. The eastern trade is buying heavily in carload lots, the scarcity of stock making it impossible to wait until the opening of navigation to replenish their supply.

Adverse weather conditions have restricted the production of hardwood logs in Wisconsin and Michigan, and in view of the unparalleled demand for lumber, it is a question just to what point prices will be advanced. Basswood is selling at $20 per thousand for firsts and seconds, and $15 to $16 for common. Hard maple is not in as good demand as most other hardwoods. Contracts for soft elm have been closed at an advance of $4 on prices of last year, while ash occupies much the same position. It is believed that the production during the coming season will be unequal to the demand, and that hardwood lumber of all kinds will find ready sale.

FOREIGN.

In the British market considerable hesitation still marks the progress of business, and stocks usually purchased early in the spring are still unsold. Importers have been unable to obtain from Canadian shippers quotations which they consider would justify them in contracting, more particularly as it has so far been impossible to effect sales in the home market at prices appreciably higher than those of last year. They reason that there is to be an ample stock, and that nothing can be lost by waiting until the season is further advanced. That this course will cause shippers to weaken in their demands is very doubtful. The production in Canada this season of both pine and spruce is likely to be less than last year, and should be marketed without any difficulty. It is learned that the Government contract for Quebec goods has been secured by McArthur Bros. & Company, of Toronto, through Foy, Morgan & Company, of London.

The British consumption of wood goods continues active, and spot prices are firm. At London late auction sales have been practically free of third quality 3 x 9 spruce, and in consequence the price has risen to £7 12s. 6d. per standard, at which figure several lines have changed hands.

NEW BRUNSWICK CEDAR SHINGLES.

The cedar shingle market is in a peculiar condition. All shingles cut in New Brunswick in 1898 are disposed of, and everything now being offered is the product of winter mills, and necessarily small in volume. At the same time, present consumption is light, probably just about equal to offerings. There is a considerable divergence of opinion among dealers as to future prices, some figuring that after the small winter mills close down and during the intermission before summer mills start, prices will stiffen materially; others that the anxiety of manufacturers to secure orders will result in still lower prices later. The retail trade are, as a whole, lightly stocked. It appears to us that future prices are in the hands of the manufacturers; that no more shingles are manufactured annually than are needed for actual consumption, and that the manufacturers can either get

a fair price or give away all profit. It much depends upon themselves, as the trade seem compelled to have the goods. Present quotations for car delivery are on basis of extras, $2.70 to $2.80, clears, $2.35 to $2.50, on Boston freight rates.

STOCKS AND PRICES.

One million feet of elm lumber was sold at Marinette, Wis., last week at $16 per thousand.

Wm. Ramsay is cutting 200,000 feet of lumber at Eight Mile brook, near Annapolis, N.S.

The Toronto Grain Cleaner Manufacturing Company, of Toronto, want a quantity of basswood and elm lumber.

The Ross-MacLaren saw mill on the Fraser river near New Westminster, B.C., is being repaired, and will probably resume operations at an early date.

A. Cushing & Co. have been negotiating for the purchase of the Miller & Woodman mill and lumber at St. John, N.B., but as yet no agreement has been reached.

A St. John lumberman estimates the winter's cut of logs on the Upper St. John river, in New Brunswick, at about 120,000,000 feet, or practically the same as last year.

At the Russell House, Ottawa, on June 1st, there will be offered for sale timber berths Nos. 149, 150, 151 and 152, on the river Coulogne, province of Quebec, and containing about 150 square miles. These limits are the property of Thomas Mackie.

The log cut in Maine this season has been estimated at 400,000,000 feet. On Penobscot waters 100,000,000 feet will be cut; on the Androscoggin and tributaries, 200,000,000 feet, and on Kennebec waters, 75,000,000 feet. Only about two per cent. will be pine and cedar, and the balance spruce.

The Rat Portage Lumber Company, of Rat Portage, Ont., is reported to have purchased from Robert Thompson & Co., of Hamilton, a timber limit on Whitefish Bay, Lake of the Woods district. The limit comprises 23,000 acres, and is estimated to contain 50,000,000 feet of standing pine.

Prices of low grade boards and strips on Lake Superior have advanced from $2 to $3 per M during the past six months. Last season mill culls started at $4 per thousand at Lake Superior and at $5 to $5.50 at Lake Michigan points; now mill culls are held firmly at Duluth-Superior at $7 on dock, while at Menominee, Mich., $8 is the price.

The Exploits Lumber Company, of Botwoodville, Nfld., have 400 men at work in the woods. A late report stated that 7,000,000 feet of timber had been cut and hauled to the Exploits river bank. Sawing at the mill will be commenced shortly, and Mr. Fowler, the manager, estimates that from ten to twelve million feet of lumber will be cut during the coming summer. One million feet of lumber cut last year is now waiting shipment to England.

The Tonawanda correspondent of the New York Lumber Trade Journal has the following to say regarding market conditions: "The box shook manufacturers seem to be having all they can do, as the Dodge & Bliss Company are running their mill anywhere from 13 to 16 hours per day, as is also Mr. F. I. Alliger, and, as the quantity of box lumber is rather scarce in this market, they have to use better grades, and this they can afford to do, owing to the prices they are securing for their stock. The Dodge & Bliss Company use a great amount of Canada lumber in their business, and some of the other firms are falling in line with them; among them are Messrs. Mackenzie & Evans. Mr. Alliger is also about to commence using stock from across the border, and, owing to the scarcity of stock in the west, a good many other dealers will have to secure a good portion of their stock from over there."

Concerning the Albany, N.Y., market, Messrs. D. L. White & Co., who deal extensively in pine, say: We are able to report a marked improvement in the outlook for 1899. The evidences are unmistakable of increased activity and better prices for all kinds of lumber. It has been in the common grades that the recovery has been more marked, with an advance of $1 to $2 per M. But return of prosperous times will result in an increase in the consumption of the better grades, and higher prices may be looked for. The foreign complications now existing, once totally brought to an end, and a complete recovery from late disastrous years having set in, and confidence restored, the next few years cannot fail to be as prosperous as ever known. The impetus in that direction already and increase in all branches of trade are borne out by the statistics published since the new year. Our production of lumber alone will represent a healthy and profitable business.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is a very strong feeling in all departments of the lumber trade, unless it be in the sash and blind manufacture, which is still suffering from the terrible over-production that has made it so nearly impossible to make any money for so long. Even this is doing somewhat better, and the mills are more than usually busy, but it is still hard to obtain the prices for finished work that must be had before there is any great profit in it.

The great scarcity in all sorts of hardwood has continued all winter, and will stick to the trade right along so far as can be seen now. The need is great of a new lead in the business in order to help out the sorts that give no hope of ever becoming plenty again. White ash is probably in most demand, considering the slackness from which it at one time suffered. This is largely on account of the practical giving out of such woods as black ash and elm. The agricultural machinery factories are in great need of thick ash and will pay almost any price for what they want.

There has been a great disappointment in the supply of southern woods, especially oak and poplar, both of which remain in sharp demand. The Memphis district and beyond, which has formerly been so well supplied with oak and ash, failed us almost entirely last year. There was first yellow fever enough to shut off work, and then it rained till the forests were under water.

Cypress and southern pine are not in great demand, as they do not appear to come in as a substitute for woods that are scarce. For a time it was thought that cypress would become a general substitute for white pine, but the expectation was realized only in a moderate way. Southern pine is, for the most part, a competitor of maple for the manufacture of flooring; otherwise it is mostly considered too coarse and gummy for general use.

The demand for basswood is active. Along with elm it is sought by coopers as well as lumbermen, and both say that they are unable to find anywhere an adequate supply of either. There is some effort to obtain them from Canada, but that section does not seem to be any better provided with them than we are at home. The same may be said of oak.

White pine is not so plenty as it was formerly, the highest and lowest grades being especially scarce. Some of the yards have practically no uppers or box or mill culls left, though there is generally plenty of the other grades. There is a much more active buying of pine by our dealers now than there has been during the winter for a considerable time. They do not find the supply as good on the lakes as they used to, and it is reported that Chicago is again a strong buyer. Last winter our dealers were still quite indifferent to the demands of the pine producers, for they were still with a large stock on hand and with grades unbroken at the close of winter. It is different now, the east is actively buying; the West India trade must be looked after, and there is a more general disposition to stock up eastward than there was during the period of depression, which may be said to be entirely over.

With all these conditions, it will still have to be said that there is not the general advance in prices that one would look for. The improvement is still more in the stage of greater demand than in any other direction. There is in all sorts of lumber a strong upward tendency, yet with the added incentive for holding for good figures caused by the crying scarcity, the prices are not very high yet. An advance within the past month in hemlock is the most decisive change in the trade, for it means a call to come for other woods to cover the hemlock with. Dealers say that hemlock will probably advance still further before long.

The recent advance has been a dollar in pine uppers, No. 3 cuts and No. 1 barn. In hardwoods there is an advance of one or two dollars in white and black ash and birch, with no weakness anywhere developing.

The certainty of the holding of the Pan-American Exposition next year is already stimulating building, and there is much preparation for a general increase of building, both of houses that require lumber for the most part, and hotels and other brick structures. Buffalo cannot fail to reap a big harvest in this special activity, which will run through the entire business of the city and vicinity. The money to ensure a success is now in sight, and this week the organization will be completed and the site selected.

The lumbermen of this section went to Boston last week in quite large numbers to attend the annual meeting of the National Wholesale Association, and come back very enthusiastic over the success of the gathering, especially on account of the excellent understanding that was obtained with the retailers, who were represented by a number of organizations and acted in perfect harmony with the wholesalers, which has not been the case formerly.

The numerous changes reported last month among the Buffalo lumber firms appear to be over for a time, and the work in sight is the gathering of hardwood stock, to be followed soon by the same activity in pine. Lake freights are opening early, $2 having already been paid on pine from Duluth to Lake Erie.

The Holland & Emery Company is preparing to open its Byng Inlet saw mills just as soon as the weather will permit, and to cut out a large amount of lumber The hope, if there was any, of a reduction of the tariff is gone, and the cut will have to be sold in Canada for the most part.

Tonawanda will do the usual heavy business this year, and is reported as already buying actively, sticking mostly to pine as usual.

BUFFALO, March 4th, 1899. J. C.

LUMBER SHIPMENTS FROM MONTREAL.

Our attention has been called to an error in the statement published in the CANADA LUMBERMAN for February showing the exports of lumber from Montreal for the season of 1898, by which the shipments of some of the firms were misrepresented. We therefore publish below the official figures:

To U.K. and Continental Ports:	Feet.
Dobell, Beckett & Co.	76,9 4,116
W. & J. Sharples	62,482,502
Watson & Todd	44,819,842
R. Cox & Co	39,627, 40
McArthur Bros. & Co.	35,595,538
J. Burstall & Co.	30,802 581
Charlemagne & Lac Ouareau Lumber Co.	1 ,494 000
E. H. Lemay	5, 22,000
Cookshire Milling Co.	3,675 312
Grand Trunk Railway, various shippers	2,678 730
Frank Ross	1,83 ,500
Canadian Pacific Railway	1,635, 17
Beaver Line	55 ,675
H. & A. Allan, various shippers	881,085
McLean, Kennedy & Co.	8 5,515
Imperial Lumber Co	535,592
Elder Dempster & Co., various shippers	47 ,097
H. R. Goodday & Co.	352,440
Robert Reford & Co., various shippers	3 9,952
McLaurin Bros.	299,970
G. E. Jacques & Co	249,396
Montreal Lumber Co.	24 , 76
D. Cream & Co.	148,600
Gillies Bros. & Co.	105,930
J. K. Ward	70,550
Intercolonial Railway	15,840
Furness Withy & Co.	11 880
D. Torrance & Co.	5,940
E. M Benson	3 060
Sundry shipments by railway companies	258,000
Total	323 435, 66
Export Lumber Co. to River Plate, etc.	11,444 776
Anderson, Mackenzie & Co. to West Indies.	549,148
Total	335,4 9 190
Export to U.K. ports in 1898	3 3,435, 66
" " " 1897	320,802,713
Total increase for 1898 U.K.	2,632,533

CANADIAN DEALS IN THE BRITISH MARKET.

At an auction sale held by Churchill & Sims, London, Eng., on February 22nd, Canadian spruce and pine realized the following prices:

SPRUCE.—Ex North Flint, from Quebec—12 ft. 3 x 8 in., 2nd quality spruce, £7; 10-12 ft. 3 x 7-8, £6. Ex Emma, from Quebec—12-15 ft. 1¼ x 8, unassorted, £6; 12-14 ft. 1¼ x 7, £6 and £6 5s; 10-15 ft. 1¼ x 7, £6; 10-14 ft. 1¼ x 6, £6; 10-16 ft. 1¼ x 5, £5 15s; 10-14 ft. 1¼ x 5, £5 10s. Ex Lady-Gladys, from Dalhousie, N.B.—16 ft. 3 x 8 in., 3rd quality spruce, £6 10s; 10-13 ft. 3 x 8, £6 10s; 15-16 ft. 3 x 7, £6 10s; 12-13 ft. 3 x 7, £6 10s; 9-13 ft. 3 x 7, £6. Ex Jarlsberg, from Rimouski, Que.—14-16 ft. 3 x 8 in., 2nd quality spruce, £6 15s; 9-11 ft. 3 x 8, £6 5s; 12-16 ft. 3 x 7, £6 15s; 9-11 ft. 3 x 7, £6 10s; 14-16 ft. 3 x 9, £7 10s; 9-11 ft. 3 x 9, £7. Ex Adelgunde, from Maria, Que.—14 ft. 3 x 9, 2nd quality spruce, £7 10s and £7; 11 ft. 3 x 9, £7. Ex Devona, from Quebec—10-16 ft. 1 x 4 in., 1st quality spruce, £6 6s; 10-13 ft. 1 x 4, £6 6s; 9-13 ft. 1 x 4, £6 9s.

PINE.—Ex Montivedian, from Quebec—13-14 ft. 3 x 11 in., 4th quality, £7 5s; 13 ft. 3 x 11, £7 5s; 12 ft. 3 x 11, £7 5s. Ex Fremona, from Quebec—16 ft. 3 x 11 in., 1st quality pine, £22 15s; 14 ft. 3 x 11, £23; 15 ft. 3 x 11, £22 15s; 13 ft. 3 x 11, £24 5s. Ex Monarch, from Quebec—9-11 ft. 3 x 11, 21 in.,

HARDWOOD LUMBER WANTED.

Mr. W. S. Fisher, of St. John, N. B., has received the following letter of enquiry from Messrs. Sharpe & Tylee, hardwood importers, Liverpool, Eng.

"We shall be glad to know if you can put us in communication with any reliable shipper of white ash, rock elm and rock maple in either log, cut to size, or planks and boards.

"We have for the past five or six years been importing from Ontario, but the districts there are getting about cleared and we are given to understand there are fair quantities of above named timbers in your province. We are large importers of: Ash logs, 12 to 16 feet, 13 in. and up dia. at small end; white ash; ash scantlings, from 14 feet x 4¼ x 3¼; rock elm logs, 10 to 16 feet, 11 in. dia. and up; rock elm planks, all widths, 1½ and 3 in. thick; rock elm pieces, 4, 6 and 5 in. long (or multiples) x 2½ x 1⅛; rock maple logs, 14 to 15 feet, nothing less than 24 in. dia. at small end.

"All these would have to be of prime quality, clear, sound and straight grained, and if you can put us in communication with good, reliable and safe shipper or shippers, we shall esteem it a great favor. We want at the present moment about 50 car loads of stuff."

SHIPPING MATTERS.

The bark Cambria, which sailed from Montreal for Buenos Ayres, encountered a severe storm, and had to jettison its deckload of lumber.

There has been a good inquiry for tonnage, but it has not resulted in many fixtures. Perhaps one reason for this is that underwriters are asking increased premiums this season. The following charters are reported: Two vessels, of 1,000 to 1,100 standards, Three Rivers to w.c. Great Britain, 43s. 9d.; 1,200 standards, Montreal to w.c. Great Britain, 43s. 9d.; 950 standards, Montreal or Three Rivers to West Hartlepool, 43s. 9d. f.o.w.; 750 standards, Montreal to Bristol Channel, 43s. 9d.; 1,350 standards, Miramichi, N.B., to United Kingdom, 42s. 6d., June-July sailing. Some large engagements have been made with the liners from Montreal to London at 40s., Liverpool 37s. 6d., Glasgow 40s., and Belfast 42s. 6d. Chartering from New Brunswick ports is fairly active, at 42s. 6d. to 43s. 9d., to U.K.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MARCH 15, 1899 No. 8.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

ABOUT five hundred yards of second-hand, light Iron Rails for tram track. PICKARD & ROWAN, Owen Sound.

WANTED.

TO CORRESPOND WITH PARTIES HAVING Lumber, Logs, and Standing Pine for sale, tributary to Georgian Bay. A. P. EBERT, Pembroke Ont.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G2., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site, also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon

All tenders to be marked "Tenders for Maclaren-Ross B C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six, nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to— "THE SECRETARY,
" Maclaren Ross Lumber Co., Limited,
" 110 Wellington St., Ottawa, Ont."

Ottawa, Ont.; 15th February, 1899.

PORTABLE STEAM SAW MILL (JOHN ABELL make) for sale; 25 h.p. Boiler and Engine, boiler in good condition, engine slightly broken; also House and Orchard in connection. Will be sold cheap. Apply to GEORGE A. FLEMING, Hockley, P.Q.

FOR SALE.

YUKON TIMBER BERTH—BETTER THAN a gold mine. One of the most valuable Timber Berths in the Yukon District, embracing an area of five square miles, is now in the market and offered for sale. Apply to "TIMBER BERTH," P.O. Box 303, Montreal.

CURRENT TRADE CONDITIONS.

ONTARIO.

That the lumber trade is improving is shown by reports from all sections of the province. There is a considerable movement of stock, and everyone is looking forward to a brisk spring business. Information from the Ottawa valley is to the effect that although the recent sales have not been very great, still there have been a large number of buyers looking for lumber. They do not seem, however, to have yet realized that prices have advanced all round, and for that reason are holding off. When they accustom themselves to the situation, they will no doubt enter the market with some liberality, and good-sized purchases may be looked for. It is a peculiar circumstance that pine mill culls should continue to strengthen, although they have now reached a figure which two years ago would have been regarded as entirely out of the question. This year both pine and hardwood mill men hope to be able to show a balance on the right side of the ledger. Prices are fair, demand good, and stocks light, while the log production has not been excessive.

UNITED STATES.

Extreme firmness characterizes the market for all kinds of lumber in the United States. There is scarcely a weak spot to be found, and indications point to a continuation of these conditions throughout the season. Dry pine stocks have practically become exhausted, and a large proportion of the coming season's cut has been contracted for by wholesale dealers. The requirement has been chiefly for factory purposes, and as building operations will commence almost immediately, the demand will no doubt be increased materially. Dealers in hardwoods are putting forth their greatest efforts to find dry stock. But of this there is little that has not passed out of first hands. Nor is it expected that the new cut will greatly relieve the market, as much of it has been contracted for and will go immediately into consumption. Excessive rains in the south and unfavorable weather in other sections rendered it impossible to put in a full stock of logs. This has given increased strength to the hardwood market.

FOREIGN.

Although the consumption of wood goods in Great Britain continues active, stocks have not become reduced to the extent that was anticipated. At London, for instance, on March 1st, there were on public docks 136,185 standards, against 127,049 standards one year ago. This increase is largely due to the heavy stock of Baltic battens, as pine deals are represented by about the same quantity as last year, while spruce deals and battens are nearly 5,000 standards less. It is no doubt owing to the heavy stocks held that buyers are not more disposed to contract for 1899 goods. Spruce prices are steadily strengthening, and some sales of St. Lawrence stocks have been made at a slight advance over last year's quotations. The business done has been almost entirely with importers in England and Scotland. New Brunswick spruce has not been contracted for to any extent, as shippers, asking prices have been regarded by importers as too high. An opinion seems to prevail that the production of spruce in the Maritime provinces will be much greater than is reported, but this is extremely improbable. Importers who contract at present prices will act wisely, as prices are more likely to advance than depreciate later in the year. There has been some improvement in pine deals, of which a fair quantity has been placed. Waney board pine is in good demand, as is also elm and ash timber.

The Australian market is suffering from the effects of over-importation. Stocks of almost every description of timber shipped to that market are in excess of demand, and until these become diminished prices are certain to be weak. The year, however, is likely to witness a large consumption.

NEW BRUNSWICK CEDAR SHINGLES.

The market for New Brunswick cedar shingles, on the whole, is a trifle firmer than it was one week ago. There is only a small quantity of shingles offering, and inquiries from the yards are much more numerous than they were. There is a tendency on the part of the better informed manufacturers to advance prices. Any reasonable advance ought to be solidly maintained, for the spring business is now opening, and stocks are light and must be replenished. Prices now ruling are, on basis of Boston delivery, as follows: Extras, $2.80 to $2.85; clears, $2.40 to $2.50.

STOCKS AND PRICES.

Thomas Boys, of Vankoughnet, has taken out 22,000 pieces of timber for Robert Thompson & Company.

The town of Welland, Ont., desires tenders by the 20th inst. for the annual supply of pine plank, oak plank and scantling.

The town of Brockville, Ont., wants tenders by 5 p.m. on the 16 th inst. for the supply of 100,000 feet of white pine plank and cedar sills.

Tanner Bros., of Sturgeon Bay, Ont., are taking out a large stock of logs this winter. About 5,000,000 feet have already been cut.

J. D. McArthur, of Winnipeg, Man., has purchased from H. B. Mitchell, of Selkirk, a small limit and saw mill at Dog Island, Lake Winnipeg.

T. O. Bolger, city engineer of Kingston, Ont., desires tenders by the 23rd inst. for the supply of 2 and 1½ inch plank, and 40,000 lineal feet of 5×4 inch cedar sleepers.

Tenders are invited by the city of Quebec up to 22nd inst. for the annual supply of deals and other lumber. Address, W. D. Baillairge, assistant city inspector.

McArthur Bros., of Cheboygan, Mich., have finished logging on the Georgian Bay for the season. They have taken out 4,000,000 feet, which will likely be manufactured in Canada.

Thackray & Davidson, of Ottawa, report a very successful season at their Quyon limits, having gotten out several thousand logs more than last year. They have just finished operations in the woods.

During the month of February last, there were imported into London from the St. Lawrence 5,000 pieces of pine deals and 73,000 pieces of spruce deals, against 6,000 and 4,000 pieces respectively in 1898. The only import from New Brunswick was 4,000 pieces of birch planks.

It is reported that Buchanan Bros., of Severn Bridge, Ont., have secured a contract from The Brennan Manufacturing Co., of Hamilton, for cutting and manufacturing into lumber and shingles the timber on a limit in the neighborhood of Whitney, on the Parry Sound Railway.

The Department of Public Works at Ottawa are about to undertake the construction of 113 miles of telegraph line in British Columbia, and invite tenders up to Monday, March 20th, for the supply of the necessary poles. These are to be 25 feet long and not less than 5 inches diameter at the top; if of cedar, to be barked above 5 feet from the butt.

It is estimated that the cut of logs on the head waters of the Miramichi river, in New Brunswick, will be somewhat lighter than last winter. Timothy Lynch and Michael Welsh have each cut about 3,000,000 feet. William Richards, who lumbers lower down on the Miramichi, has cut about the same quantity as last year, and has his logs ready for stream driving. The winter has been a favorable one for lumbering, there being plenty of frost and just about enough snow.

It may interest Canadian lumber manufacturers to learn the price at which yellow pine is to be supplied to the United States government for shipment to Cuba. The bill was for 4,000,000 feet. About four-fifths of the entire amount is to be delivered at Havana, and the balance at other Cuban ports. Included in the bill are about 400,000 feet of flooring, 1,100,000 feet of boxing, and the balance piece stuff, 2 x 3, 3 x 5, 4 x 4, 4 x 5, 4 x 6, etc. The contract was secured by the Lutcher & Moore Lumber Co., of Orange, Texas, the average price being $14.80 delivered.

Concerning the Bay City, Mich., market, Mr. L. C. Slade says: "My trade in January and February was double in volume that of the corresponding months last year. There is an extraordinary demand, and the advance in prices is well maintained. Uppers and selects and No. 3 common and mill culls are well cleaned up, but in the intermediate grades there is a fair supply. Box is not to be had on the river, and is held at $11.50 and $12. Mill culls are out of stock, except the small accumulations of the few mills in operation, and they are asking $9.50 for them." Mr. C. S. Bliss, who is cutting hardwood and hemlock, states that there is a big call for special bills, and his hardwood stock is all contracted for in advance at a much better price than last year. Hemlock piece stuff, No. 1, is selling at $9 and $9.50, and No. 2 at $7.50.

A slight error in the remarks of Messrs. D. L. White & Co., quoted in last issue, gave a rather ambiguous meaning to their review of the Albany market. The paragraph should have read as follows: "We are able to report a marked improvement in the outlook for 1899. The evidences are unmistakable of increased activity and better prices for all kinds of lumber. It has been in the common grades that the recovery has been more marked, with an advance of $1 to $2 per M. But return of prosperous times will result in an increase in the consumption of the better grades, and higher prices may be looked for. The foreign complications now existing, once totally brought to an end, and a complete recovery from late disastrous years having set in, and confidence restored, the next few years cannot fail to be as prosperous as ever known. The impetus in that direction already and increase in all branches of trade are borne out by the statistics published since the new year. Over-production of lumber alone will prevent a healthy and profitable business."

THE GLASGOW MARKET.

Of the Glasgow market Allison, Cousland & Company say:

WHITE PINE—WANEY.—There has been a moderate demand, and several fair lines are reported. First class wood, 19 to 20 inches average, is quoted at 2s 6d to 2s 8d; 2nd class, 15d to 2s per cubic foot. SQUARE.—The demand has been very light, and little business has been transacted, and prices remain at lower figures.

RED PINE.—Little or no business has been done, and prices are unaltered at 14½d to 15½d for 35 feet average.

ELM.—Sellers are very firm in their price, but there has not been so large demand as would be expected. Quotations, 1st class, 45 to 50 feet average, 2s 3d to 2s 4d; 2nd class 22d to 2s per cubic foot.

OAK.—There has been some inquiry, but little business has been reported. Prime wood is quoted at 2s 6d to 3s 2d; second class, 23d to 2s 3d per cubic foot.

ASH.—The demand keeps good and prices are stiffer. Quotations, 22d to 2s for 15 to 16-inch average.

BIRCH.—The stock is light, and prices are very firm at about 20d to 22d for 16-inch average.

DEALS, BATTENS AND BOARDS.—A fair amount of business has been transacted during the month, and any advances have been maintained.

PINE.—Firsts.—Broad and long undersized are firm in price, but short undersized are heavy in stock and difficult to place. Quotations, broad, £24 1s 3d to £24 15s; undersized £17 3s 9d to £19 5s per St. Pet. std. Seconds.—There has been little demand, and that principally for narrow deals. Quotations, broad, £16 10s to £19 5s.; undersized, £13 8s 1d to £13 15s per St. Pet. std. Thirds.—Regulars are firm in price, but undersized, the stock of which is very heavy, are low and weaker in price. Quotations, regulars, £9 12s 6d to £10 13s 1d; undersized, £7 4s 4d to £8 5s per St. Pet. std. Fourths.—Although the prices have improved, the demand has been very dull. Regulars are quoted at £6 17s 6d to £7 4s 4d; undersized, £9 3s 9d to £6 10s 7d per St. Pet. std.

SPRUCE.—A good business has been done at former prices. Quotations, £6 3s 9d to £7 11s 3d for thirds, and £5 10s to £6 10s 7d for fourths.

BUSINESS NOTES.

Taylor & Bateman, lumber dealers, Waldron, N. Y., are reported to have assigned, with liabilities of $40,000.

An application has been made for a receiver to be appointed to wind up the business of H. B. Mitchell, lumber dealer, Selkirk, Man.

Albert Hirsch, formerly a wholesale lumber dealer of New York city, has filed a petition in bankruptcy, with liabilities of $102,485 and practically no assets.

TRADE CONDITIONS IN LIVERPOOL.

From timber circulars to hand the following particulars of the Liverpool market are obtained:

WHITE PINE TIMBER.—There has been a good demand during the month for waney board pine, the deliveries amounting to 28,000 feet, but square wood is dull of sale. Stocks are now light, and prospects fair for next season's imports.

RED PINE.—The deliveries have been of a retail character, and stocks are sufficient for probable requirements.

OAK LOGS.—The consumption during February amounted to only 6,000 feet. Stocks are ample and 2nd quality wood is very difficult to sell. For prime wood values are steady.

ELM.—No change to report. Values are steady and stock slight.

BIRCH.—Logs are in good demand, stocks are now low and prices firm. The import of planks has been heavy, but the consumption has been good. Stocks, however, are excessive, and values show no improvement.

PINE DEALS, SIDINGS, ETC.—Deliveries have been fairly good, but stocks remain excessive, and there is no improvement in values to report.

N. B. AND N. S. SPRUCE DEALS.—The deliveries daring February have been satisfactory, and stocks are now comparatively light, especially in long lengths and wide deals. The import was 2,064 standards, in parcels, by steamer, and sales of these have been made at about £6 5s for St. John's. For next season's imports sellers are demanding higher prices.

QUEBEC SPRUCE DEALS.—Stocks are light and prices firm.

The following table shows the consumption and stock on February 28th for two years:

	CONSUMPTION. cub. ft.		STOCK. cub. ft.	
	1898.	1899.	1898.	1899.

Que. puncheon, 2nd qual., per mille	14 0	to 16 0

CORRECTION.

A typographical error in our issue of March 8th made it appear that the lumber shipments of the Charlemagne & Lac Oureau Lumber Company from Montreal last year were 1,494,000 feet, whereas their total exports were nearly 13,000,000 feet, a good showing for an individual manufacturing company.

N. N. Bentley's saw mill at Lower Five Islands, Colchester county, N. S., was destroyed by fire on March 2nd. The loss is estimated at $2,000.

SHIPPING MATTERS.

There is a good enquiry for tonnage from the St. Lawrence ports to the United Kingdom, but as yet few fixtures have taken place. Large engagements have been made by the regular liners from Montreal and Quebec, as follows; Montreal to London, upwards of 50,000, May, June and July, at 40s; Liverpool, 37s 6d to 40s; Quebec to Liverpool, 38s 9d to 41s 3d; Glasgow, 40s; Belfast, Cardiff and Avonmouth, 40s to 42s 6d.

The following fixtures are reported: Quebec to Carthagena, 800 standards f.o.w., 53s 9d; Dalhousie, N.B., to Barcelona, 800 standards, 52s 6d; to Cork, 750 standards, 45s; to Bristol Channel, 1200 standards, 45s 9d. Quebec to Greenock, timber, 65s; to Liverpool, large contract for timber at 65s to 67s 6d, f.o.w. and summer shipments. 1200 standards, Montreal or Quebec to east coast Great Britain, 43s 9d f.o.w. A boat, 600 standards, Shediac, N.B., to United Kingdom, 47s 6d, if Preston, 50s.

TEE BAABADOS MARKET.

The following particulars of the Barbados lumber market are found in S. P. Musson, Son & Co.'s monthly report :

LUMBER.—In our last we noted arrival of the 'Prohibition' and 'Comrade.' Former's cargo consisted of 35 M merchantable, 17 M 2nd quality and 12 M plank (white pine); 81 M spruce, 15 M hemlock boards, and 5 M hemlock plank ; it was sold for Trinidad at $15.50 round. Latter's consisted of 29 M merchantable w. pine, 39 M merchantable and 3 M 2nd quality spruce, and 30 M spruce shingles were sold at St. Vincent. Since these the 'B. R. Woodside,' from St. John, N. B., has arrived with 86 M merchantable and 70 M 2nd quality white pine, which were placed at $14 round ; and the 'Edward D,' from Bridgewater, brought 30 M merchantable, 113 M 2nd quality white pine, which was sold by wire for Trinidad at $13.25 net. The market is amply stocked with white pine, and a cessation of arrivals for some time is very necessary to enable stocks to be worked down. Spruce is in quite moderate stock. The 'Woodside' had 5 M merchantable and 40 M 2nd quality, which were sold at $14.60 and $10.60 respectively. Prices should go no lower unless receipts are free.

SHINGLES.—The 'Duart Castle' brought 415 M Long Gaspe and 6 inch cedar shingles, to others, and 226 m to selves ; former were placed at $5 05, and we sold ours at $5.13. We had also some 3, 4, 5 and 6 inch cedar shingles, 50 to the bundle, which we placed at $3.16, $4.17, $5.18 and $6 respectively. In laying cedar the 'B. R. Woodside' brought 2 million in fulfilment of contract, and the 'Duart Castle' 243 M, which were of very good quality, and bronght $2.13. We placed the 58 m spruce laying mentioned in our last, ex 'Jennie Lockwood,' at $2.25, and sold a small lot cedar laying to arrive at $2 07. In cypress the lot by 'M H Dudley' mentioned in our last, 6 x 22, and of very nice quality, were sold at $9.03 hearts and $6.50 saps.

REDUCTION IN LUMBER DUTY.

Mr. D. M. Rennie, Commercial Agent at Buenos Aires, sends the CANADA LUMBERMAN the following explanation of the reduction on lumber which has been made by the government there : "I cabled to Ottawa on 1st February that the government had conceded the reduction in valuation of unplaned spruce lumber, as petitioned for on 2nd June last. The duty will be, until Dec. 31, 1899, $6.00 per thousand feet, the reduction being $2.43.. The duty on white pine and pitch pine remains the same, viz., $8.42 per thousand feet. On December 31st, 1899, the special duty of 10 per cent. imposed in September last, for expense of war material and mobilization, will cease to be collected. This will mean a further reduction on spruce of $2.18 and on white and pitch pine of $3.05 per thousand. The duty on spruce will then be the same as in 1897."

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MARCH 22, 1899 No. 9.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

ABOUT five hundred yards of second-hand, light Iron Rails, for tram track. PICKARD & ROWAN, Owen Sound.

PORTABLE STEAM SAW MILL (JOHN ABELL make) for sale; 25 h.p. Boiler and Engine, boiler in good condition, engine slightly broken; also House and Orchard in connection. Will be sold cheap. Apply to GEORGE A. FLEMING, Hockley, P.Q.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G2., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1,042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p. each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site; also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B. C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six; nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to— "THE SECRETARY,
" Maclaren Ross Lumber Co., Limited,
" 110 Wellington St., Ottawa, Ont."

Ottawa, Ont.; 15th February, 1899.

FOR SALE.

LIGHTNING MATCHER, REVOLVING BED Surfacer, Re-saw, Band Saw and other Wood Tools—all in good working order. Address, "MACHINERY," P.O. Box 43, Kingston, Ont.

FOR SALE

Saw and Shingle Mill, Sash and Door Factory

With Dry Kiln complete, Machinery, Buildings, Out-Buildings, Dwelling Houses, etc., etc., located in the Kootenay District, British Columbia, with three thousand acres best timber limits within five miles of mill. Timber can be drawn to mill for ten cents a thousand. Satisfactory reasons for selling. Apply for particulars to, and correspondence solicited,

ROBERT F. SEGSWORTH, Barrister,
103 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Snow storms in all sections of the province have interfered with the movement of lumber during the past week. The trade, nevertheless, is in a prosperous condition, and numerous enquiries continue to be received for lumber of all grades. These enquiries are not confined to the home market, but come also from United States houses. There is a scarcity even of pine lumber, and some of the mills on the Georgian Bay have disposed of their entire dry stock. Since January 1st last prices of white pine have advanced $1.50 per thousand, and Norway bill stuff $1 per thousand. Some manufacturers have a small stock which they are holding for higher prices. The urgency of demand seems to pertain to common and low grade lumber, and particularly such stock as is adapted for box-making. There are but few shingles which have not passed out of first hands. Laths are also low in stock and firm in price.

Dealers are experiencing much difficulty in locating any quantity of dry hardwood lumber; in fact, orders are being refused owing to inability to purchase the stock. This condition will be relieved to some extent when the mills resume operations, although it is not expected that the supply will equal the demand for most kinds of hardwoods. There were taken out in Western Ontario during the past winter a large quantity of maple logs, and there is a possibility that as these are manufactured and the lumber placed upon the market, prices will weaken. Log-run maple is being held at $12 at the mill, a figure which we do not think will be maintained. In basswood, elm and ash there is no reason to expect any reduction in present prices, but on the other hand manufacturers should not expect to advance quotations unreasonably. The mill men are offering their production as log run and in some cases refuse to consider propositions for graded stock. It is learned that contracts have been entered into for mill cuts of the coming season at $15.

QUEBEC AND NEW BRUNSWICK.

Lumbermen in the province of Quebec are somewhat dissatisfied with the outlook for local trade. The season so far has been backward, and unless conditions improve, it will be difficult to advance prices, although present quotations leave a margin of profit altogether inadequate. The larger manufacturers cutting for export trade hope to sell their production at prices equal to those of last year. In New Brunswick trade prospects are improving, and the shipments to Great Britain, France, South America and the West Indies will likely consume the bulk of the season's production of export lumber. An average domestic trade is also looked for, as, in addition to the usual building operations, extensive harbor improvements at St. John are likely to be undertaken.

MANITOBA AND BRITISH COLUMBIA.

The spring trade in Manitoba and British Columbia has not yet commenced in full force, yet the lumber market is very strong. Prices are advancing, and dealers are stocking up in anticipation of a large demand this year. Steps have been taken by both the manufacturers and dealers which are likely to result in placing the trade on a better footing. The Rat Portage mills supplying the Manitoba market have made a 50 cent advance on No. 1 and No. 2 red pine, No. 3 finishing, 1¼, 1½ and 2 inch red pine selects, and No. 3 clear white pine. No. 1 and No. 2 white pine have made the substantial advance of $3.50, while laths are marked down five cents. The classification of boards has been changed so that ten to eighteen feet are now quoted at the same price all through. British Columbia siding, ceiling and flooring were recently advanced $1, which places flooring $2 higher than last fall. British Columbia red cedar shingles are quoted at $2.25 for No. 1, and $2 for No. 2, delivered in Winnipeg. Some Washington shingles are being offered in Manitoba at $2.10, but they are said to be of no better quality than British Columbia No. 2.

The retail dealers have taken similar action to that of the manufacturers, and have issued a new price list showing an

advance on various classes of lumber. They have also agreed to adhere closely to this list, and hope in this way to do a more profitable business. Last year cutting of prices was carried on to an unreasonable extent, and consequently few of the dealers made a fair margin of profit.

UNITED STATES.

In the northern and eastern states the season has been backward, causing a delay of the usual spring call for lumber. Notwithstanding this, wholesale dealers have entered the market with a marked degree of liberality, and some large stocks of lumber have been contracted for. Eastern dealers have purchased freely in Wisconsin and on the upper lakes, the advanced prices asked by manufacturers seeming to have no deterrent effect. In the pine trade the chief interest pertains to box lumber, and it is a question difficult of solution as to where the stock will be obtained to keep the factories in operation. Mill culls are selling at from $7 to $8, and holders show no anxiety to dispose of their stock even at these figures. Although during the past winter there was a heavy input of logs, it is unlikely that the production of box lumber will exceed the requirements before June or July, so that present prices will likely be maintained throughout the season. The spruce market has also a stronger tone, and short lumber is likely to witness a good spring demand. The call for shingles, lath and clapboards is likewise improving.

Under a strong demand, hardwood prices are still strengthening, but as many mills will shortly resume operations, it is thought that the limit has about been reached. Large stocks of birch, elm, ash, maple and basswood have been put under contract.

FOREIGN.

Advices from the British market tell of an active consumption of wood goods and a slight improvement in prices for delivery to consumers. At several of the ports the stock of spruce and pine is becoming reduced, and it is thought that importers will this month show a greater disposition to contract for new stock. When they realize that the production of lumber in Canada this year is likely to be slightly below the average in quantity, they will no doubt contract more freely for their requirements.

NEW BRUNSWICK CEDAR SHINGLES.

Prices of cedar shingles have again advanced, market quotations now being as follows, delivered strictly on Boston freight rates : Extras, $2.85 to $2.90; Clears, $2.45 to $2.50; Saps and 2nd Clears, $1.90 to $2. The indications now are much in favor of continued advances. The winter mills are practically cleaned out of all grades, and have already accepted enough orders to consume all that can be made before they are obliged to shut down ; in fact, a number of winter mill operators are oversold, and are scurrying around amongst themselves in an endeavor to replace some of their accepted orders at figures that will allow them to escape without loss, but they are finding a great deal of difficulty in so replacing such orders. It is yet about two months before the summer mills can start. Before that time, there must be a great dearth of shingles, and operators who can supply the goods will then be able to get their asking price without questions. It will be unwise to accept orders, this year for anything but immediate delivery.

STOCKS AND PRICES.

The High Commissioner in London, Eng., has received enquiries for addresses of Canadian shippers of wood pulp and walnut and birch logs.

At Alpena, Mich., sales of black ash are being made at $17 per thousand, elm at $10, and hemlock at $8 and $9. Mill culls are selling as high as $9.

J. D. McArthur's men have finished cutting logs on the Bird Tail Creek limits to the north of Birtle, Man., and are now preparing for the drive. The logs will be cut at the Birtle mill.

The Columbia River Lumber Co., of Golden, B.C., have had 2,000,000 ft. of logs taken out this winter at Blaeberry. These will be floated into the Columbia river by means of a chute.

It is announced that F. P. R. Graves, of Saginaw, Mich., has contracted for the shingle timber on 10,000 acres of land near Spanish river, Ont., and that he will build a shingle mill at that point.

Three timber berths on the Tattagouche river, in New Brunswick, aggregating 25 square miles, were sold at the crown lands office, Fredericton, N. B., last week, to Sunner & Co., at the upset price of $8 per mile.

W. W. Harris, a pulp wood contractor in the Sudbury district, states that during 1898 he handled over 100,000, cords of wood, principally poplar. The supply of wood in that district, he says, is practically inexhaustible.

J. A. Christie, of Brandon, Man., had about 150 men at work this winter in each of his logging camps at Shell River and on the McLaren-Shields limit which he recently purchased. The logs cut on these limits will be sawn at his mill at Brandon.

J. D. McArthur, who has purchased the lumbering business of H. B. Mitchell at Selkirk, Man., will operate the plant on an extensive scale this winter. The purchase includes the mill at Selkirk, extensive timber limits on Lake Winnipeg, lumber on hand, etc.

J. R. McConell, the well known lumberman of Marysville, N. B., has finished operations on the Aroostook river. The cut in that vicinity was about 2,500,00 feet. Mr. McConnell has disposed of all his lumber to the Ashland Lumber Co., at a very satisfactory figure.

The Department of Trade and Commerce at Ottawa has received a communication from Mr. W. Grey-Wilson, C.M.G., Governor of the Falkland Islands, asking for quotations for specified quantities of lumber, chiefly pitch pine and white pine. The quantity figures up to about 250,000 feet.

J. E. McCollum, who has been lumbering on a tributary of the Tobique river, in New Brunswick, estimates the production of logs on that river this winter at about 18,000,000 feet, as against 24,000,000 feet last year. Most of this is spruce, although R. K. Beveridge, W. Reed and L. Reed got out a quantity of red pine.

Inness, Homeon & Co. are cutting 1,000,000 feet of pulp wood for the Acadia Pulp Company, near Liverpool, N. S. G. A. Colp is getting out a million feet of pulp wood in the same neighborhood. D. C. Mulhall and J. A. Hunt are cutting a large quantity near Liverpool for themselves and for the Acadia Pulp Company.

The trade returns for the Dominion for the eight months ending February 28th last show an increase in the aggregate trade of the country of $11,640,441, as compared with the same period of last year. Produce of the forest was exported to the value of $20,292,289, as against $20,599,540 for the corresponding period one year ago.

The Nova Scotia government has just granted a lease for 30 years of timber limits in Victoria and Inverness counties, Cape Breton, N. S., to three American capitalists, Messrs. L. Sanborn and Robt. B. Blodgett, of Boston, and Daniel F. Emery, jr., of Portland, Me. The limits comprise nearly 1,000 square miles, and are leased for the purpose of converting the timber thereon into pulp and paper. The purchasers will form a company, to be known as The North American Paper and Pulp Co., Ltd.

SHIPPING MATTERS.

Below are given the current freight rates on lumber from British Columbia points : To Sydney, Aus., 41s. 3d. to 42s. 6d.; Melbourne or Adelaide, 50s. to 51s. 3d.; Port Pirie, 45s. to 47s. 6d.; Fremantle, 60s. to 62s. 6d.; Shanghai, 52s. 6d. to 53s. 9d.; Tientsin, 60s.; Valparaiso, f.o., 41s. 3d. to 42s. 6d.; South Africa, 62s. 6d. to 65s.; U. K. or Continent, 65s. The following vessels were chartered during February : Ship Irby, 1,480 tons, Burrard Inlet to Fremantle, 62s. 6d.; Ship Maifio, Burrard Inlet to Valparaiso, f.o., 45s.; Bark Orion, Chemainus to Calcutta, 60s.

LUMBER PRICES IN MANITOBA.

The Western Retail Lumbermen's Association of Manitoba and the Northwest have prepared a new price list for lumber, which shows a number of changes from the list issued one year ago. Generally, the prices are higher, although certain lines have been marked down, some of them as much as $5. As compared with the old list, the changes are as follows :

Dimension generally 50c higher, with some changes in classification ; cull plank, $1 higher ; No. 1 cull boards, $1 higher ; stock boards, $1,50 extra, instead of $1 extra as per old list ; No. 2 box boards, $1 lower ; red pine, 1st and 2nd siding, flooring and ceiling, $1 higher ; 4th siding, etc., $1 higher ; British Columbia No. 1 and 2 edge grain flooring, $3 higher ; No. 3 edge and No. 1 and 2 flat flooring, $1 higher ; No. 1 and 2 fir ceiling, 1 inch, $2 higher, No. 3, $1 higher ; No. 1 and 2 fir ceiling, ⅝-inch, $4 higher ; No. 1 and 2-6-inch, $2 higher ; No. 3, 6-inch, $1 higher ; cedar ceiling, ⅝-inch, $2 lower ; ½-inch, $2 lower ; spruce siding, flooring and ceiling, $1 higher ; shiplap, 6-inch pine, 50c higher ; ¼ to 2 inch white pine finishing, 1st and 2nd clear, $5 lower ; selects, $3 lower ; shops, $2 lower ; cedear finishing, $2 lower ; fir stepping, edge grain, No. 1, $3 higher ; No. 2, $2 higher ; No. 1 flat, $5 higher ; No. 2, $3.50 higher ; fir finishing up to 12 inches, 50c higher, over 12 inches, $1.50 higher ; 1-inch fir finishing, $1 higher ; 1st and 2nd white pine, No. 3 clear, $3 lower ; B selects, $3 lower ; clear cedar, $4 lower ; fir finishing up to 12 inches, 50c higher, over 12 inches, $1.50 higher ; pine lath, No. 1, 25c lower, No. 2, 10c lower.

THE PRICE LIST.

The prices apply to stock at Winnipeg yards, and are subject to a cash discount of 2 per cent. for small orders. For $1,000 orders or upward, a cash discount of 5 per cent. is allowed. The price list is as follows :

DIMENSIONS AND TIMBER.—No. 1, 2 x 4 to 2 x 12, 12, 14 and 16 ft, $19 ; 18 ft, $20 ; 20 ft, $21 ; 22 ft, $22 ; 24 ft, $23. 3 x 6 to 3 x 12, 4 x 4 to 4 x 8, 6 x 6 to 6 x 8, 12, 14 and 16 ft, $20.50 ; 18 ft, $21.50 ; 20 ft, $22.50 ; 22 ft, $23.50 ; 24 ft, $24.50. 8 x 8, 4 x 12 to 6 x 12, 8 x 10 to 12 x 12, 12, 14 and 16 ft, $22.50 ; 18 ft, $23.50 ; 20 ft, $24.50 ; 22 ft, $25.50 ; 24 ft, $26.50. 2 x 4, 10 ft, $21 ; 2 x 6, 10 ft, $19 ; 2 x 8 to 2 x 12, $20. No. 2 dimensions $2 less than No. 1. Dimensions, 26, 28 and 30 ft, $26 ; timber, 26, 28 and 30 ft, $28. $1 per M. advance on each inch over 12 inches in depth and width. Tamarac dimensions same price as pine. Spruce dimensions at $2 per M. less than pine. Cull plank, all widths, at $13 per M. B.C. fir dimensions up to 32 ft at $28 per M.; 33 to 40 ft, $30 ; 41 to 60 ft, $36. $1 per M. extra for each 2 inches over 12 inches in width or depth.

BOARDS.—1st common, red pine, $25 ; 2nd common, red and white pine, $18.50 ; 3rd common, red and white pine, $16.50 ; No. 1 cull, pine or spruce, $14 ; No. 2 cull, $9 ; spruce boards, $16.50. $1.50 per M. extra for stock boards, $2 per M. less for 6 to 8 ft and under. No. 1 box, 14-inch and up, $30 ; No. 2 box boards, 14-inch and up, $22 ; extra dressing, $2 per M.

SIDING, FLOORING AND CEILING.—2nd, 4, 5 and 6-inch white pine, $36 ; 3rd, 4, 5 and 6-inch white pine, $28 ; 1st and 2nd, 4, 5 and 6-inch red pine, $31 ; 3rd, 4, 5 and 6-inch red pine, $25; 4th, 4, 5 and 6-inch red and white, $21 ; cull siding, red and white, $16 ; B.C. No. 1 and No. 2 edge grain flooring, 3, 4 and 6-inch, $35; B.C. No. 3 flat and edged mixed, 4 and 6 inches, $26 ; B.C. No. 1 and 2 flat grain flooring, 3, 4 and 6 inches, $26 ; 1¼, 1½ and 2-inch, $1 per M. more than 1-inch ; B.C. No. 1 and 2 fir ceiling, 1-inch, $30; B.C. No. 3 fir ceiling, 1-inch, $26 ; B.C. No. 1 and 2 fir ceiling, ⅝-inch, $25 ; B.C. No. 3 fir ceiling, ⅝-inch, $21 ; B.C. No. 1 and 2 fir ceiling, 6-inch, $30 ; No. 3 fir siding, 6-inch, $26 ; B.C. spruce No. 1 siding, flooring and ceiling, $36 ; B.C. spruce No. 2 siding, flooring and ceiling, $30 ; B.C. cedar siding, No. 1, 10 to 16 ft, $39 ; B.C. cedar siding, No. 1, 6 to 9 ft, $34 ; B.C. cedar ceiling, No. 1, 10 to 16 ft, $42 ; B.C. cedar ceiling, No. 1, 6 to 9 ft, $35 ; B.C. cedar ceiling, No. 1, ⅝-inch, 10 to 16 ft, $33 ; B.C. cedar ceiling, No. 1, ½-inch, 10 to 16 ft, $30 ; 4, 5 and 6-inch native spruce, $21 ; cull spruce, $16 ; $2 per M. advance for dressing on both sides.

BEVEL SIDING.—No. 1 white pine, $26 ; No. 2 red and white, $23.

SHIPLAP.—Pine, 6-inch, $18.50 ; 8 and 10-inch, $20 ; spruce, 8 and 10-inch, $19 ; 6-inch, $18 ; pine and spruce cull shiplap, 8 and 10-inch, $17 ; do., 6-inch, $14.

Mouldings made from 1¼ stock add 25 per cent.; 1½, add 50 per cent. Hardwood mouldings or mouldings to detail at special prices. All shop work at special net prices.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchell, of Glasgow, Scotland, review the lumber market as follows:

Quebec shippers and others have been going their rounds, and this has occupied the attention of brokers and buyers. Considerable business has been done, both on c.i.f. and f.o.b. erms, in Quebec white pine, red pine, elm, ash, and spruce, while lower port spruce, although not bought so freely as last year, has nevertheless been largely dealt in. The reduction of Baltic whitewood prices has prevented any business in Canadian spruce with the east coast of Scotland.

Scotch shipbuilders launched 29,000 tons of shipping during February. This amount would have been considerably greater had it not been for the fact that it is next to impossible to get material out of the steel manufacturers' hands, so great is the pressure of work. The amount of fresh work booked is of the most meagre description. This is accounted for by the fact that prices have advanced so much that owners will not increase their fleets at the figures demanded.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MARCH 29, 1899 No. 10.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.—One first-class Band Saw Fitter and one first-class Band Saw Runner for new mill. Apply to J. H. DANSEREAU, Vercheres, Quebec.

PORTABLE STEAM SAW MILL (JOHN ABELL make) for sale; 25 h.p. Boiler and Engine, boiler in good condition, engine slightly broken; also House and Orchard in connection. Will be sold cheap. Apply to GEORGE A. FLEMING, Hockley, Ont.

FOR SALE.

LIGHTNING MATCHER REVOLVING BED Surfacer, Re-saw, Band Saw and other Wood Tools—all in good working order. Address, "MACHINERY," P.O. Box 43, Kingston, Ont.

TO MILL MEN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

PULP AGENCY WANTED

ENGLISH FIRM, WELL CONNECTED WITH the paper makers in Great Britain, wants Agency for

Mechanical and Chemical Pulps.

Established 30 years. Address, "PAPER," care Deacon's Advertising Offices, Leadenhall St., London, England.

FOR SALE

Saw and Shingle Mill, Sash and Door Factory

With Dry Kiln complete, Machinery, Buildings, Out-Buildings, Dwelling Houses, etc., etc., located in the Kootenay District, British Columbia, with three thousand acres best timber limits within five miles of mill. Timber can be drawn to mill for ten cents a thousand. Satisfactory reasons for selling. Apply for particulars to, and correspondence solicited,

ROBERT F. SEGSWORTH, Barrister,
103 Bay Street, Toronto.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G2., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site, also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six, nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to—

"THE SECRETARY,
" Maclaren Ross Lumber Co., Limited,
" 110 Wellington St., Ottawa, Ont."

Ottawa, Ont., 15th February, 1899.

CURRENT TRADE CONDITIONS.

ONTARIO.

The recent snowfalls have lengthened the logging season, and all timber cut will likely be gotten out of the woods. It is not yet known just how the past winter's production of pine logs will compare with that of last year, although the opinion has been expressed that in the Georgian Bay district it will be slightly heavier, and that in the Ottawa valley there will be a reduced output.

The backwardness of spring has affected the volume of lumber moving, although favorable reports continue to be received of the present and prospective demand. Several manufacturers in the Ottawa valley have disposed of their 1899 production, and the fact that probable buyers have of late been numerous leads to the opinion that other transactions will soon follow. Low grade and common stock seems to be in most demand, some of the mills having closed contracts for 75 per cent. of their cut at an advance of from 15 to 20 per cent. on last year's quotations. While the cheif interest pertains to the lower grades, there is also a fair demand for good lumber. Dry stock does not cut any figure in the market, the quantity in first hands being very small.

Manufacturers of hardwood lumber are adhering to their decision to sell their lumber as mill run. This is limiting the volume of business, as there is frequently a disparity between the value of log run stock as fixed by the dealer and that in the mind of the manufacturer. As an offset to the increased price of raw material the furniture and chair manufacturers have advanced prices of finished goods.

QUEBEC AND NEW BRUNSWICK.

Local trade in Quebec and New Brunswick has been rather backward, but an increased number of enquiries for lumber and shingles have been received from the Eastern States, and these are likely to be followed by orders. Buying for the British market is showing more life, and as the season advances and the actual extent of stocks becomes better known, a change of attitude will no doubt be shown. Some purchases of deals have been made at $9.50 per thousand f.o.b. Grindstone Island and St. John, N. B. This is an advance upon last year's quotations, but still too low to leave a fair margin of profit to the manufacturer. The general opinion is that prices will advance, especially if caution is exercised by both manufacturers and shippers.

MANITOBA AND BRITISH COLUMBIA.

Dealers in Manitoba and the Territories look forward to a good season's trade, as tenders are being taken in Winnipeg and the larger towns on many new buildings. While the demand for lumber for immediate delivery is not large, the enquiries received indicate that dealers realize the necessity of increasing their stocks at an early date. Country trade has continued later than usual, but this will soon be terminated by the approach of the seeding season. It is learned that three United States houses this year have representatives in Winnipeg, these being the Pine Tree Lumber Co., the Crookston & St. Hillaire Lumber Co., and the Brainerd Lumber Co. In British Columbia the lumber trade is experiencing an active local demand on account of increased building operations, and prices are a trifle firmer.

UNITED STATES.

The recent cold weather and accompanying snow falls greatly improved logging conditions in the Northern States, and it is probable that the input of both pine and hardwood logs will be nearly as heavy as was anticipated early in the season. In view of this, the movement of lumber from first hands has shown a falling off of late, as dealers believe that procucers' prices are too high, and are deferring purchases until after the opening of the sawing season. From present indications, it does not appear that prices are likely to weaken, as magnitude of demand and scarcity of supply are strong features of the market. All-round advances continue to be made on pine and hemlock at mill points, and it is learned that two-inch hemlock is held at $7.25 and $8.25 f.o.b. Manistee, Mich. Box lumber is practically out of the market, and other grades are being purchased to meet the requirements of the manufacturers. Lath is very firm, white pine having advanced to $2 in the Chicago market.

FOREIGN.

The transactions in Canadian wood goods in the British market have been more numerous of late. Building is active, and consumers are purchasing more liberally to meet their season's requirements. At London a considerable quantity of pine and spruce lumber has been disposed of at auction sales, which has had a tendency to depreciate values. Generally, however, prices are firmer. Third quality spruce is held at £7 10s, and in all probability another advance will be made before the arrival of spring shipments. The holders of spruce at Liverpool are asking higher prices, especially for favorite dimensions. A fair amount of business is being done on contracting for goods to arrive, and brokers are adopting a stronger attitude.

The receipts on the Barbadoes market have shown a falling off, and consequently prices have a tendency to strengthen. Elsewhere will be found current quotations.

NEW BRUNSWICK CEDAR SHINGLES.

In the New England states the weather of the past week has been exceptionally disagreeable, and building operations are at a standstill as a result. In spite of the lack of demand, cedar shingle values are said to be firmly maintained as a rule, and quotations are as follows, delivered on Boston freight rates: Extras, $2.85 to $2.90; clears, $2.45 to $2.50; saps and 2nd clears, $1.90 to $2.00. The season for building operations to commence with a rush is now near at hand, and it would seem that within a short time the usual spring demand for shingles will begin. It can safely be stated that when it does begin, prices on all grades will rapidly climb to such figures as are satisfactory to the manufacturers, and at which they are perfectly willing to dispose of their product, for the retailers are only lightly stocked and must have the goods. It is not believed that there is any variety of shingles made that can supplant the New Brunswick cedar in the New England market in any degree whatever until the latter has passed the basis of $3.25 for extras.

There is, then, a strong hope that the manufacturers will realize their full opportunity and avail themselves of it. For the last few years in shingles, as well as in all kinds of lumber, the buyer has uniformly been able to dictate the price. To-day the reverse is true, and the manufacturers have almost full control. The indications are that they realize the strength of their position, and intend to have for one year at least a fair margin on their product. In this, shingles only sympathize with all other varieties of lumber in the United States markets, and retail dealers now so thoroughly understand that all lines are advancing steadily that they much more willingly accept advances and place orders immediately for their needs, when in want, for fear of continued advances. The shingle manufacturers, therefore, to avail themselves fully of their opportunity, should read the trade papers thoroughly, and keep posted from week to week as to the exact state of the market.

When giving quotations, manufacturers should make them for immediate acceptance only, and should not allow commission wholesale houses to foist orders upon them at less than the figures they have quoted. When receiving orders more rapidly than they are producing the goods, they should advance prices and hold firmly to the advance. This year it is a manufacturers' market, and any reasonable advances all along the line are likely to be maintained.

One unfortunate feature of this particular line of business in years gone by, has been the fact that the average manufacturer of shingles has depended very largely for his knowledge of market prices upon wholesale commission houses, who were supposed to represent the manufacturer, truthfully tell him the position of the market, and give him current quotations, as well as sell his shingles. For these services such wholesale houses were supposed to derive as their remuneration a commission of 5 per cent. As a matter of fact these commission houses, being in the business from pecuniary motives, frequently report a lower price than actual current figures, with the object of thereby being themselves in a position to quote a little under their commission competitors, and secure more than their share of orders. In cases where they could easily secure full values and more than they had quoted as current figures, it was, and still is, an easy matter for the commission house to pocket the difference (between price obtained and price allowed the manufacturer as market value) to add to their commission. The only feasible way, therefore, for a manufacturer to protect his own interest (and nobody will protect it for him, certainly not his wholesale commission representatives), is to know for himself what his goods are worth, and then see that his wholesale friends pay for shingles accordingly, and that they are not left to sell goods for any price that suits themselves and is anywhere near market value, obliging the manufacturer to pocket the loss between what he actually received and what he should have received, and also at the same time breaking the market, and establishing a precedent for himself as well as others to follow in the future.

Another abuse of confidence on the part of the wholesale commission house toward the manufacturer, has been the sending of orders that call for a greater or less arbitrary freight rate over Boston rates, to a manufacturer at Boston prices, or only a very slight advance on Boston prices and not enough to cover the extra freight. All manufacturers should say to their representatives: "You are more familiar with arbitrary freight points and extra freight thereto than we can possibly be; we therefore quote you prices on Boston freight rates only, and any arbitrary points will be covered by our invoicing to you at our quotations at Boston points, and we will allow you to deduct only Boston rates." In this way the commission houses will be obliged to look out for themselves, and they are perfectly capable of doing it.

The outlook for the manufacturers this year is very bright, and if they will only take the full control of their sales into their own hands, we are sure they will be amply repaid therefore.

STOCKS AND PRICES.

At Saginaw, Mich., box lumber is selling at $11.50 to $12.50, mill culls at $8.50 to $9.50, and Norway bill stuff at $9.50 to $11.

J. & R. McLeod, of Black River, N.B., manufactured with a portable mill over one million feet of deals during the past winter.

A timber berth on the Restigouche river, in New Brunswick, was sold by the Crown Lands Department last week to F. B. Coleman, at $75 per mile.

It is probable that the saw mill of Wm. Peters at Parry Sound, Ont., will be operated the coming season, and that the mill in Bay City which was run last year will not resume operations.

It is estimated that about 10,000,000 feet of white birch spoolwood will be shipped from Bangor, Maine, this year to Great Britain. The greatest amount shipped in any previous year was 7,000,000 feet.

It is reported that the St. Anthony Lumber Co., of Whitney, Ont., have sold several million feet of lumber at an advance of $2 per thousand over the price obtained for the same grade of stock two months ago.

The mill of the Conger Lumber Co. at Parry Sound, Ont., will probably resume operations this season. It is said that the company are negotiating for a contract to cut 10,000,000 feet of lumber, and that they will also cut 3,000,000 feet of their own logs.

Very little lumber is in the hands of manufacturers at Manistee, Mich. As high as $12 has been paid for common inch, and lots of pine piece stuff have been sold at $11.25 to $11.50 for 18-foot and under. There are no lath to be had, and probably $1.75 would be paid for good white pine on dock.

American owners of Ontario limits are said to be making active preparations for cutting their logs in the province. According to report, Turner & Fisher, of Saginaw, Mich., have given a contract to Chew Bros., of Midland, Ont., to manufacture 15,000,000 feet of their cut of 24,000,000 feet, while James Playfair & Co., of same place, will manufacture the remainder.

Hardwood lumber is selling on the Chicago market at the following prices: Dry basswood, firsts and seconds, $22; common and better, $18; log run, $14; soft elm, common and better, $16; red birch, $40 to $50; white birch, firsts and seconds, $26 to $28 for inch and $28 to $35 for thick; common and better, $20; thick ash, $45. As to pine prices, it is thought that the opening price for piece stuff will be about $11. Low grade boards are very scarce, No. 3 being held at $10.50.

Messrs. Bennetts, Limited, held an auction sale of lumber at Manchester, Eng., on March 16th, the prices realized being about as follows: Spruce scantlings, £5 15s. per std.; spruce boards, 1 × 5 and 6, £6 10s.; birch planks, £6 12s. 6d. to £6 15s.; 2nd quality Petersburg red boards, £9 15s. to £10; 1st quality Petersburg red battens, 2½ × 7, £10; 1st quality log pine boards, ¾ in. to 2 in. thick, 1½d. per foot; 2nd quality log pine boards, various sizes, 1½d. to 2d. per foot; pitch pine boards, various sizes, 1½d. to 1¼d. per foot.

At an auction sale held by M'Dowall & Neilson, Greenock, Scotland, on March 9th, the business done was as follows: 40 logs 1st class waney boardwood, 860 feet per page, 2s. 2d. per cubic foot; 40 logs 1st class waney boardwood, 700 feet per page, 2s. ½d.; 20 logs 1st class waney boardwood, 1,320 feet, 2s. 5½d.; 20 logs 2nd class waney boardwood, 1,040 feet, 1s. 6½d.; 27 logs prime rock elm, 2s. to 2s. 3d.; 40 logs Mobile oak, 1s. 6½d.; 20 logs hickory, 1s. 3d.; 606 logs sawn pitch pine, 500 to 700 feet, 11d. to 11¼d.; 571 3rd pine narrow deals, 10½d.; 573 3rd pine ends, 11d.; 1,247 1st pine deals, 11 in., 2s. 4½d. to 2s. 5½d., and about 5,000 pine and spruce ends, etc., from 6¾d. to 8½d. per foot.

THE BARBADOS MARKET.

From the market report of Messrs. S. P. Musson, Son & Co. the following particulars of the Barbados market are obtained: Receipts of lumber have not been heavy of late, which has had a tendency to strengthen prices. The schooner Florence A arrived from Calais, Maine, early in March, with 25 M ft. spruce boards and 22 M ft. 3x4 spruce scantling, the former being sold at $11.31 and the latter at $12.03; indications point to an improvement in spruce. The sale recorded is of 53 M ft. white pine boards at $19.34 shipping and $12.56 second quality. One or two medium sized car loads of first and second quality white pine would be saleable at about these prices. A quantity of cedar laying shingles have been sold at $2.85. The schooner Eureka recently arrived from Halifax, with 78,000 cedar shingles, which were sold at $3.16. The schooner Stella E from Lunenburg, N. S., carried 30 M shipping and 50 M second quality white pine, sold at $19.11 and $13.25 respectively.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

In our weekly issue of March 1st reference was made to the failure of Joseph Jacobs, a contractor of Montreal, and it was stated that the Montreal Lumber Company was a creditor to the extent of $1,500. This company have drawn our attention to the fact that by giving prominence to their name when many other creditors were also interested an injustice was done them, which was far from the intention of the publishers of this journal.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, 5; Quebec, 10; Arnprior to Montreal, 7; Quebec, 12 cts.; Pembroke to Montreal, 8c.; Quebec, 13c. per 100 lbs.; Ottawa to Buffalo, 12 cents per 100 lbs. Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. Ottawa to New York, track delivery 15 cents per 100 lbs., lightered 17 cents per 100 lbs. Arnprior to New York, track delivery 17 cts.; lightered 19 cts. per 100 lbs. Pembroke to New York, track delivered 18c., lightered 20c. per 100 lbs. Parry Sound, track, 20 cents, lightered, 22 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 13c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents; export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N. B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N. S. and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; the minimum carload charged is 10 M ft., lumber not exceeding 3,000 lbs. to the M feet. Ottawa rates apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

Lumber freight rates for pine on the Grand Trunk Railway, according to the tariff issued 15th February, 1897, will be found below. General instructions in shipping by Grand Trunk are embodied in these words in the schedule: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination. For instance, the rates from Orillia to Guelph, Brampton, Weston or Toronto, would not be higher than the specific rates named from Gravenhurst to the same points. The rates from Cargill and Southampton to points east of Listowel and south and west of Stratford will be the same as from Kincardine, and the rates from Hanover or Hepworth would not be higher than from Wiarton to the same destination, but in no case are higher rates to be charged than as per mileage table published on page 15 of tariff.

Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Har-

bor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in group C, to Toronto, 6½c.; Bracebridge to Toronto 7c.; Utterson, Huntsville, Navor-Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Berriedale Sundridge and South River, to Toronto, 8c.: Trout Creek, Powassen and Callender to Toronto, 9c.; Nipissing Junction and North Bay, 10c. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto, 6½c. These rates are per 100 lbs. Rates from Toronto east to Belleville are 7½c. per 100 lbs.; to Deseronto, 9c.; to Brockville and Prescott, 10c.; to Montreal and Ottawa, 10c. The rates on hardwoods average about from 1c. per 100 lbs. higher than on pine and softwoods. For rates on railway ties, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the distr t freight agent.

On spruce and balsam (partly seasoned) for pulp manufacture, the rate from Longford, Wiarton, Penetang, Coldwater, Waubaushene, Victoria Harbor, Haliburton, Kinmount, etc., to Toronto, is $2.20 per cord; and to Merriton and Thorold, $2.60; Katrine, Callendar, North Bay, etc., to same points, $2.45 and $2.60 respectively; Beeton, Allandale, Orillia, etc., $2.20 and $2.60. On green spruce and balsam the rate is 25 per cent. higher.

CANADIAN PACIFIC RAILWAY.

The rates at present in effect on the Canadian Pacific Railway to Toronto and Hamilton are as follows: Pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct, Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12 cents per 100 lbs. The rates on hardwood are one cent per 100 lbs. higher than those on pine. From Ottawa, Hull, Aylmer and Dechenes Mills, also Arnprior. Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood. The rates are based on a minimum of 30,000 lbs. per car."

Summer rates to New York, via Albany and barge line expired on November 28th, owing to closing of navigation on the Hudson river, and the usual all rail rates became effective, as follows: To New York, for track delivery, and all points on the Hudson river, or the New York Central and West Shore railways, from Ottawa, Hull, Aylmer, Deschenes Mills, 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including litherage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

Summer rates to Montreal expired on November 15th, and the usual winter rates became effective as follows: From Ottawa, Hull, Aylmer and Deshcenes Mills, 5c.; Carleton Junction, 6c.; Arnprior and Braeside, 7c.; Renfrew, Eganville and Pembroke, 8c. The rate to Three Rivers is 4c. and to Quebec 5c. over the rate to Montreal. The minimum car load in all cases where rates are computed on a weight basis is 30,000 lbs.; when on a measurement basis 10,000 feet B. M.

The C.P.R. also make the following rates on seasoned pine lumber to West St. John, N B., for export: From Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, $3.75 per M feet; Carleton Junction, Braeside and Arnprior, $4.00 per M feet; Renfrew, Douglas, Eganville and Pembroke, $4.50 per M feet. On lumber for local consumption at St. John, N B., and common points the rate is 20 cents from Ottawa, Hull and Aylmer, and to Halifax 21 cents from same points. On seasoned pine lumber the rate from Ottawa to Oswego, N.Y., is $1.90 per M feet, and to Syracuse, N.Y., $2.20 per M feet; from Ottawa to Buffalo, 12 cents and to Detroit 14 cents per 100 lbs.; to Boston, Mass., and common points, 15 cents from Ottawa, Hull, Deschenes Mills and all points east thereof; 16 cents from Carleton Junction; 17 cents from Arnprior, Braeside and Renfrew, and 18 cents from Eganville and Pembroke, and proportionate rates from points further west on lumber for consumption in the United States. The export lumber rate is 13 cents from Ottawa and Hull, 14 cents from Deschenes Mills, Aylmer and Carleton Junction, and 15 cents from Arnprior and Braeside to Boston.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., APRIL 5, 1899 No. 11.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED FOR SHIPMENT IN MAY, 20,000 feet Rock Elm Plank, 1½ to 4½ inches thick, 30 to 40 feet long. THOS. MYLES' SONS, Hamilton, Ont.

PORTABLE STEAM SAW MILL (JOHN ABELL make) for sale; 25 h.p. Boiler and Engine, boiler in good condition, engine slightly broken; also House and Orchard in connection. Will be sold cheap. Apply to GEORGE A. FLEMING, Hockley, Ont.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 Gz., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site, also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six, nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to—

"THE SECRETARY,
"Maclaren Ross Lumber Co., Limited,
"110 Wellington St., Ottawa, Ont."

Ottawa, Ont.; 15th February, 1899.

WANTED.—One first-class Band Saw Fitter and one first-class Band Saw Runner for new mill. Apply to J. H. DANSEREAU, Vercheres, Quebec.

FOR SALE.

THE UNDERSIGNED HAS ON HAND A large quantity of Cedar, and is prepared to manufacture same in any form desired by purchaser. WM. A. PLAYFAIR, Playfair, Ont.

FOR SALE.

LIGHTNING MATCHER REVOLVING BED Surfacer, Re-saw, Band Saw and other Wood Tools—all in good working order. Address, "MACHINERY," P.O. Box 43, Kingston, Ont.

TO MILL MEN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

TIMBER LANDS FOR SALE.

OAK TIMBER LANDS FOR SALE—I HAVE for sale in Eastern Kentucky and West Virginia several tracts of Timber Land, principally White Oak; in all about 60,0 0 acres. Apply to C. STARRAT, Farmers, Rowen County, Kentucky.

FOR SALE

Saw and Shingle Mill, Sash and Door Factory

With Dry Kiln complete, Machinery, Buildings, Out-Buildings, Dwelling Houses, etc., etc., located in the Kootenay District, British Columbia, with three thousand acres best timber limits within five miles of mill. Timber can be drawn to mill for ten cents a thousand. Satisfactory reasons for selling. Apply for particulars to, and correspondence solicited,

ROBERT F. SEGSWORTH, Barrister,
103 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

"It is much more difficult to buy lumber than to sell it," was the reply of a Toronto wholesale dealer to an enquiry as to the condition of trade. These words well illustrate the strength of the market, and are applicable to all kinds of lumber, with the exception, perhaps, of a few grades of pine. The demand is steadily increasing, and there is a bouyancy in the trade which has not been experienced for several years. But for a backward spring, which has retarded outdoor operations in the northern sections, there would be even greater activity. In Toronto the building season is further advanced than in the other cities, and architects are busy superintending the erection of, and preparing plans for, projected structures. Indications point to a good local trade in lumber, and prices are stiffening. United States houses have done some buying during the past week. Owing to the improved demand and scarcity of stock in the Eastern States, they are turning their attention to this country for supplies, especially of box lumber. There is little change in the hardwood trade. Some of the mills have resumed operations and are shipping lumber close up to the saw.

QUEBEC AND NEW BRUNSWICK.

A number of vessels have been chartered to carry lumber from Montreal and Quebec to Great Britain, and the opening of navigation will witness about the usual activity. As will be seen by the quotations given elsewhere, reasonable rates are being given by the steamship companies. It is believed that more than an average quantity of tonnage will be offering this year. Shippers of spruce deals have not succeeded in placing as much stock as they might desire, but are holding firmly to quotations, and expect that British importers will be more willing to contract even at higher prices later in the season. In New Brunswick and Nova Scotia there was but a light production of logs during the past winter, and should any proportion of these be hung up, the cut of lumber will be scarcely equal to the demand. In view of this possibility, it would seem to be a wise policy to contract for requirements at present prices.

UNITED STATES.

The condition of the white pine trade of the United States is of the most encouraging nature. Never in the history of the business has so much stock been sold in the Duluth-Superior district for early shipment. The estimated season's cut of the mills in that vicinity is 370,000,000 feet, nearly two-thirds of which has already been contracted for. In the east white pine stocks are low. New York is reported to have a shortage of stock on hand of 150,000,000 feet or more, Buffalo has little lumber, Tonawanda stocks are broken, and the supplies at Albany are much below the average quantity. Under these circumstances, and as the new stock will not be in condition for use for about three months, the market is naturally very strong. It is also worthy of note that thus far the demand for lumber has come almost entirely from manufacturing industries; but now that lumber for building purposes will shortly represent an important factor, there will certainly be much scurrying around to locate stock to supply the wants of customers. The scarcity of box material has become more intense, and anything in the shape of low grade pine, basswood and poplar finds a ready market. The remarks as to the condition of the pine trade will in some degree apply to the spruce market. In New York spruce is particularly strong, and, encouraged by the improved business outlook, manufacturers and dealers

are asking higher prices. At Boston frames of 9 inch and under are held at $15, 10 and 12 inch at $16, and random about $13 to $15.

There has been no weakening of the hardwood market. In the northern districts the late favorable logging weather has permitted of a heavy input of logs, but this is offset by unsatisfactory conditions in the south, so that the production of hardwoods for the season is not likely to be unusually large. Some mill operators in the north are refusing to consider a lower price than $23 for log run oak at the mill, $14 to $16 for basswood, $14 for maple and $16 for soft elm. There is an unprecedented demand for basswood siding, and the supply seems inadequate.

FOREIGN.

There is little change to record in the position of the British market. Stocks are becoming reduced, and the tendency of the trade is towards greater activity. It is true, nevertheless, that importers have not disposed of as much stock as usual, buyers seemingly holding off in the hope of securing better terms. That these will be offered is extremely doubtful, as Baltic goods, the chief competitor of Canadian timber, are selling several shillings higher than last year. Spruce deals are in good demand at the leading ports, and recent shipments per regular liners from St. John and Halifax have been disposed of at good prizes for all sizes except 7×3, for which there is little demand. Pine prices are also held firmly, although the demand is not so active. Birch is steady, and at recent auction sales realized good prices.

NEW BRUNSWICK CEDAR SHINGLES.

An active demand for New Brunswick cedar shingles has not started as yet, owing to the continuance of cold and inclement weather. In spite of this there is a sufficient movement of shingles to keep stocks very low at producing points, and actual consumption is sufficient to prevent any increase of stocks in retail hands. The maintenance of full prices by the manufacturers shows the full strength of the market, and it can safely be stated that a period of warm weather and consequent increased demand will cause prices to advance rapidly. A few of the manufacturers who are financially able realize the tendency towards higher prices, and are holding their stock, figuring to get a considerable advance on present quotations inside of another month or six weeks. We believe this to be good judgment, for it will likely be two months before any considerable quantity of shingles will be available. Present quotations, on basis of Boston freight rate, are as follows: Extras, $2.80 to $2.90; clears, $2.45 to $2.50; clear whites and 2nd class, $1.85 to $1.90.

STOCKS AND PRICES.

R. P. Sorley, of Economy, N.S., has lately purchased a tract of timber land in that vicinity from A. Y. Corbett.

The city of Winnipeg, Man., is advertising for tenders for the supply of from 500,000 to 1,500,000 feet of lumber.

Shingles are in strong demand at Buffalo, and the stock on hand is rapidly being depleted. There is a scarcity of 16 in. clear butt.

Wm. Creswell, foreman for M. M. Boyd & Co., of Bobcaygeon, is making arrangements for driving all the logs on the Burnt river this season. M. M. Boyd & Co. will bring down about 3,000,000 feet.

Good logs are selling at Saginaw, Mich., at from $10 to $14. Manufacturers whose supply from Canada has been cut off are making every effort to secure a sufficient quantity of logs to keep their mills running this season.

Mr. Eames, superintendent of lumber camps for D. E. Sprague, of Winnipeg, states that the log cut of the past winter has been the best since he has been operating on Mud creek. The cut now banked amounts to 15,000 logs.

James Hunter, of Glasgow, Scotland, has secured the contract for the season's supply of Quebec spruce deals to the Singer Manufacturing Co. The contract for New Brunswick spruce deals for same firm has been secured by Robinson, Dunn & Co.

The W. & A. McArthur Co., of Cheboygan, Mich., have completed logging operations on the Georgian Bay, their cut being 9,500,000 feet. Of this, 5,500,000 feet, cut on Indian reserves, will be rafted to Cheboygan, while the remainder will be manufactured in Ontario.

On the Penobscot and Kennebec rivers, in Maine, the cut of logs during the past winter was about 250,000,000 feet, of which perhaps 50,000,000 feet will be for the supply of pulp mills. The cut on the Penobscot was about the same as last year, but on the Kennebec it was considerably larger.

John E. Moore, of St. John, N.B., has purchased from Irving R. Todd, of Milltown, the Todd property at Bonny river, Charlotte county, New Brunswick. The property consists of 84 square miles of timber lands, 4,000 acres of granted lands, a sawmill, store, boarding house, etc., and the price paid is given as $25,000. It is said that Mr. Moore will commence operations on the property at once.

At a recent sale held by Wm. Graham, Dublin, Ireland, the following prices were realized: Quebec spruce deals—12 ft., 3×11 in., £11 5s; 12 ft., 9×3 in., £11 12s 6d. St. John spruce deals—16-17 ft., 7×3 in., £11 5s; 13-14 ft., 9×3 and 11×3 in., £11 12s 6d. Quebec red pine deals—13-15 ft., 11×3 in., £15; 16 ft., 9×3 in., £16. Quebec white pine deals—First quality, 10-13 ft., 13×3 in., £35; second quality, 12-16 ft., 15×3 in., £31 5s; 12-16 ft., 18×3 in., £31 15s; 12-15 ft., 21×3 in., £31 15s.

A. F. & D. Mackay, of Liverpool, Eng., held an auction sale on March 22nd, when 1,371 birch logs, from St. John, N. B., were disposed of. The prices obtained were as follows: 28 in. and up, 24d per foot; 19-19½ in., 21d; 18½ in., 20d; 18 in., 19½d; 17½ in., 18½d; 17 in., 18¼d; 16½ in., 18½d; 16 in., 18d; 15½ in., 17½d; 15 in., 17d; 14½ in., 16¼d; 14 in., 15¼d. A parcel of birch timber, containing 66 logs, averaging about 15¾ in., from Halifax, N.S., was sold at 15¼d per foot, and another parcel averaging 15½ in. at 15¾d.

It is reported that the Hawkesbury Lumber Co., of Hawkesbury, Ont., have sold the bulk of their 1899 production to W. & J. Sharples, of Quebec, and that Watson & Todd have secured the cut of Messrs. Hurdman, of Ottawa, which last year went to Dobell, Beckett & Co. J. Burstall & Co. are said to have purchased a portion of J. R. Booth's deals, and H. T. Walcot a portion of Gilmour's. The cuts of the Hull Lumber Co. and Gilmour & Hughson were coutracted for some time ago. It is understood that prices obtained are slightly higher than those of last year.

MAPLE STRIPS WANTED.

Mr. F. B. Budgett, the New York representative of the importing firm of Budgett Bros., London, Eng., writes that they desire to purchase from two to twenty carloads regularly of maple strips, kiln or air dried, of good color, cut to 3x1 in., 3x1¼ in., and 3x1½ in., not dressed, lengths 2 to 10 ft., to be securely tied in bundles. Prices to be given f. o. b. mills, guaranteed weight to be named, and freight rate to Montreal and Boston for export. Communications should be addressed to Mr. F. B. Budgett, 100 Maiden Lane, New York.

G. G. Bryant's sash and door factory at Sherbrooke, Que., was destroyed by fire on March 28th. The loss on building and machinery is about $10,000.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is good evidence that the demand for lumber is not falling off, nor is the supply increasing. It is much of a race, especially on the part of the hardwood dealers, for the stock that consumers must have in order to keep business going. Even the pine sections are reporting that stock is not plenty, and it is no secret that a great part of the saw-mill interest of the west will not place any price on the cut until it is ready. They will book an order, they will tell you, and then if a price can be agreed on when the logs are sawed it is a sale—otherwise not. Of course, this means that there is not going to be any more low prices anywhere in lumber, unless they come from some dealer who is hard up or is not posted. Selling at a low price ought to be accepted as an evidence that the seller is somehow not "in it," and small attention should be paid to him.

A dealer in oak said to me yesterday that he was not able to get more than half as much stock as his orders called for. He is largely dependent on the south for oak, and like all others, as a rule, with southern connections and not much else, he finds that the oak sections south are still suffering from six months' yellow fever and ten months of high water in a year. Very little lumbering has been done there of late. It is always slow enough, but it was absolutely at a standstill most of last year, and has not recovered its normal condition yet.

The dealer is of the opinion that oak will need to advance in price much further than it yet has, and that when it gets to $60 for the best there will be a falling off in demand that will permit some accumulation of stock. There is no other way to meet the demand. It is at present prices just as much called for as ever. Somehow the dealers have not had the courage to put the price up as the demand warranted, and the result is that they have let all their surplus get away from them, when by holding it for more the price would have gone up till the demand no longer so far exceeded the supply.

There is not much trade in southern pine, on account of the scarcity of stock. This market has never bought this wood freely, and there is less prospect of an increase of the trade than ever. The difficulty in getting it is no less than formerly, and it is wanted for export from southern ports direct more than it was, so that there is no need of seeking northern markets for working off the surplus. In reality, none exists. The only big contract for southern pine that has come under my notice for a long time is for the State armory, though that is a heavy one. It went to Litchfield sometime ago.

The shortage of such hardwoods as elm, ash and basswood is quite as pronounced as ever. Coopers complain that they are entirely handicapped, as they are not able to pay the prices for elm and basswood that lumbermen will offer, and are confined to such stock as the lumber trade is not able to use. The very sharpest buyers of these woods are fairly discouraged over the outlook. They should have held some of the stock they were slashing when the prices were so low. It is a fact that the price of all such stock has not advanced nearly as rapidly as it should have done. Dealers were not willing, some of them were not able, to shut up their yards and wait till the price had been forced up to a level that would compare with their needs in regard to more stock. Some of them had tried it in former years, and found that they had taken the wrong cue, which meant a double loss. So an inspection of the price asked here does not indicate the real condition of things.

It is different in the saw mill districts, both west and south. No lumber goes out from there that is not bought at a sharp advance from last year, so that this market must make a further advance soon or sell at a loss. The east knows this, and will pay more if it has to. It is no longer willing to go without, as it seemed to be a short time ago. Our dealers are in the market for stock, and will buy more in Canada than they did if they can get it. But for the fact that all hardwoods are as scarce there as they are here, there would have been a brisk trade in everything but pine across the border right along.

The Buffalo Lumber Exchange, at its annual election in March, chose the following officers: President, George P. Sawyer; vice-president, M. E. Preisch; secretary and treasurer, Knowlton Mixer; executive board, J. B. Wall, Knowlton Mixer, George P. Sawyer, M. E. Preisch, C. W. Betts, E. D. Colie, M. S. Burns, James Fenton, F. W. Vetter, A. J. Elias, A. P. Strong. The Emporium Lumber Company was elected a member of the exchange.

Lumber freights by lake are stiff at $2 from Duluth, with prospect of enough for the fleet to do as soon as the lakes are open, which must be very late now. There is more ice in Lake

Erie than there was a month ago, and it has been heavy all this year.

A. J. Elias is active in politics, Buffalo creek improvements and Pan-American sites, not to mention lumber, in which he is of course a leading factor. He is urging the exposition people to locate on grounds not far from the yard of the firm on Buffalo creek, which is not a bad place. There are so far nineteen competing sites, however, all offered free.

Dealers in bill timber are wondering where they are going to get the material for building the exposition structures. A Buffalo dredging firm, wishing to get some oak for scows, sent a member to West Virginia, and he stayed at the mills till it was cut out. There was no other way of making sure of it on quick time.

Box makers are looking for a very busy season at better prices, especially since the Klaus mill at East Buffalo went into retirement in bankruptcy court. This concern failed a year ago, paid nothing, and kept running just the same.

Buffalo, April 2, 1899. J.C.

SHIPPING MATTERS.

The following charters are reported: Sch. Syarina, St. John, N.B., to Las Palmas, $7; bark Avenire C, St. John, N.B., to Cork, 45s; bark of 600 tons, Dalhousie, N.B., to w. c. Great Britain or e. c. Ireland, deals, 45s; bark of 400 tons, Pugwash, N.S., to Preston, deals, 45s 6d; brig. Resultado, 178 tons, Liverpool, N.S., to Berbice, lumber, private terms; ship Stalwart, 1,591 tons, Tusket Wedge, N.S., to Bnenos Ayres, lumber, $9.

The Timber Trades Journal reports that in Canadian freights a large volume of chartering has been done at slightly reduced rates. The following charters have been effected: Three boats of 1,000 to 1,100 standards, Montreal to Hull, 43s 9d and 42s 6d, deals, and a 900 standard boat at 45s, option half cargo of boards, with small quantity of timber at 65s; Montreal to Hartlepool, Glasgow and Bristol Channel, four vessels, 42s 9d; Montreal to Sharpness or Bristol, 1,000 standards, 43s 9d; Montreal to east coast, Great Britain, from 42s 6d to 43s 9d, according to port of discharge; Montreal and Quebec to Dundee, timber, 70s, deals, 46s 3d; Quebec to Liverpool or Greenoch, timber, 65s, deals, 42s 6d; Miramichi, N.B., to Glasgow, two vessels at 45s and one at 44s; St. John, N.B., to w. c. Great Britain, 1,500 standards, April sailing, 38s.

A saw mill at Clear View, Carleton County, N.B., operated by Wm. Adam and owned by G. Kitchen, of Fredericton, was burned last week.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., APRIL 12, 1899 No. 12.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

ABOUT TWO MILLION FEET OF PINE AND Hemlock logs. F. McGIBBON & SONS, Penetanguishene, Ont.

AUCTION SALE

OF

Timber Berths

In the Townships of Davis and Grant, District of Nipissing.

The License for the undermentioned TIMBER LIMITS will be offered for sale by public auction on

Wednesday, June 14th, '99, at 3 p.m.

in the Rotunda of the Board of Trade Building, Toronto, subject to the terms and conditions to be set forth at the time of sale. The vendors reserve the right to one bid:—

Lot 1.—Berth No. 3, Township of Davis, being lots 1 to 7, inclusive of concessions 4, 5 and 6. This berth has never been operated on, and is a virgin forest.

Lot 2.—Berths 1, 2, 3, 4, 5, Township of Grant. The timber on berths 1 and 2 has been partially damaged by fire and partly cut over.

For further particulars apply to Scott, Lees & Hobson, barristers, etc., Hamilton, or to Peter Ryan, Toronto.

WANTED FOR SHIPMENT IN MAY, 20,000 feet Rock Elm Plank, 1½ to 4½ inches thick, 30 to 40 feet long. THOS. MYLES' SONS, Hamilton, Ont.

PORTABLE STEAM SAW MILL (JOHN ABELL make) for sale; 25 h.p. Boiler and Engine, boiler in good condition, engine slightly broken; also House and Orchard in connection. Will be sold cheap. Apply to GEORGE A. FLEMING, Hockley, Ont.

TO MILL MEN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

LIGHTNING MATCHER REVOLVING BED Surfacer, Re-saw, Band Saw and other Wood Tools—all in good working order. Address, "MACHINERY," P.O. Box 43, Kingston, Ont.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G2., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site, also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six, nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to—

"THE SECRETARY,
"Maclaren Ross Lumber Co., Limited,
"110 Wellington St., Ottawa, Ont."

Ottawa, Ont; 15th February, 1899.

EXPERT BAND FILER OPEN FOR ENGAGEment May 1st; best references. Box 26, CANADA LUMBERMAN.

TIMBER LANDS FOR SALE.

OAK TIMBER LANDS FOR SALE—I HAVE for sale in Eastern Kentucky and West Virginia several tracts of Timber Land, principally White Oak; in all about 60,0 0 acres. Apply to C. STARRAT, Farmers, Rowen County, Kentucky.

FOR SALE

Saw and Shingle Mill, Sash and Door Factory

With Dry Kiln complete, Machinery, Buildings, Out-Buildings, Dwelling Houses, etc., etc., located in the Kootenay District, British Columbia, with three thousand acres best timber limits within five miles of mill. Timber can be drawn to mill for ten cents a thousand. Satisfactory reasons for selling. Apply for particulars to, and correspondence solicited,

ROBERT F. SEGSWORTH, Barrister,
103 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Spring-like weather has caused a movement of lumber from retail yards, and retailers in turn are giving attention to stocking up to meet the requirements of what is likely to be one of the most prosperous seasons in the history of the lumber trade of Ontario. The growth of industrial establishments during the past year or two, coupled with increased building operations, has created a demand for lumber for local consumption of no small volume, and placed manufacturers in a position less dependent on export trade. This increased home trade has called for just such lumber as was previously a drug upon the market, namely, the lower grades. Then, a shortage has developed this spring in the supply of box lumber in the United States, and considerable stock has been purchased in Canada for eastern markets, until the available supply at the mills here is greatly reduced. Prices have advanced, and the tendency is towards further hardening until dry lumber of this season's production is ready for shipment.

Dry hardwoods are simply not obtainable, owing to the scarcity of stock. Wholesale dealers have found it unprofitable to keep buyers on the road. In the few instances where stocks are located, the holders ask what is considered exorbitant prices, leaving the margin for the middleman a mere bagatelle. While every kind of hardwood lumber is constantly being inquired for, black ash seems to command the most attention. There is practically a famine in this wood, and implement manufacturers and others accustomed to using it are obliged to cast around for substitutes, which are not easily found. Elm and basswood prices are being maintained, but maple is, perhaps, a trifle weaker so far as the 1899 cut is concerned, as there was a heavy production of maple logs last winter.

QUEBEC AND NEW BRUNSWICK.

In the province of Quebec there was an average cut of logs during the past winter. There is an unusual quantity of snow in the woods, and some apprehension is felt as to spring driving. No logs are likely to be hung up, but there is danger of the booms, dams and piers being swept away by floods. In parts of New Brunswick, also, the snow is deep and the season backward. Some of the mills have commenced sawing for the season on logs held over from last year, but as the lumber market is not active, there is little incentive to make an early start. Manufacturers of spruce deals are holding out for prices considerably higher than those of last year, and these are being paid by buyers in some instances. This policy on the part of manufacturers is to be commended, and cannot but result, eventually, in improving their position.

UNITED STATES.

The lumber market of the United States has been strengthened by the backward season. The mills in the north will be late in resuming operations, and consequently it will take some time before the supply can more than meet the demand. Holders of stock are asking high prices, and consumers are realizing that these must be paid if they are to secure the lumber. In the east, while building operations have been retarded by the backward spring, the industrial establishments are consuming lumber rapidly, and in many grades shortages are constantly developing. Practically all the lower grades of white pine have passed into the control of consumers, and recourse is had to substitutes. The box trade continues to be the heaviest consumer of low grade soft lumber.

In the hardwood trade a marked feature of the situation is the shipment of green hardwoods from the mills. There is such a demand for many of the hardwoods that manufacturers and dealers alike are refusing orders. In Buffalo there is scarcely a car load of first and second dry black ash to be obtained, and elm, basswood and maple are in very light supply. Dealers also report an almost unprecedented demand for quartered oak.

The demand for shingles and lath is

very largely in keeping with that for lumber generally. At Saginaw, Mich., white pine shingles are bringing $2 and $3 in wholesale lots, and cedar shingles 25 cents less. There is practically a famine in the supply of lath. The quotation on No. 1 white pine, in Chicago, is $2.20, No. 1 mixed, $2, and No. 2 $1.85.

FOREIGN.

The position of the British market is somewhat peculiar. While the stock of timber and deals is steadily diminishing, owing to an active consumption, importers and dealers are buying only very cautiously. They apparently hope that Canadian shippers of spruce and pine will lower their asking prices, but this, as we have before remarked, is improbable. Shippers' prices are based, of course, upon the figure asked by manufacturers, who, wearied of doing business with no margin of profit, have decided to sell only at a price which will leave an average profit. Failing this, they will hold stock until such times as the market improves. Birch timber is selling in the British market at a fair price, and parcels per steamers from St. John have been readily disposed of.

Favorable reports come to hand from South America, and it would appear that a considerable quantity of Canadian lumber will be shipped to that market this year. The Barbados market is also improving.

NEW BRUNSWICK CEDAR SHINGLES.

Since our last report there has been no material change in the shingle situation. The weather is still backward, and as a consequence the demand is slow for this season of the year. If anything, there are less shingles at producing points than there were one week ago, and prices are being fully maintained. Inquiries are numerous, and as a result the manufacturers are not losing courage, but are gaining still more faith in higher prices. Ruling Boston quotations are as follows: Extras, $2.80 to $2.90; clears, $2.45 to $2.50; clear whites and 2nd clears, $1.85 to $1.90.

STOCKS AND PRICES.

The Gold Medal Furniture Manufacturing Co., of Toronto, want a quantity of dry 2-inch maple and beech.

It is reported that Parrsboro parties have bonded about seventy thousand of timber lands in Nova Scotia for pulp mill promoters.

At Pittsburg, Pa., lath prices have advanced during the past week. Pine lath is now selling at $2.50 per thousand, with seconds at $2.25.

At Alpena, Mich., sales of basswood mill culls have been made at $10, log run at $16, black ash at $17.50, elm at $15, and maple at $12.

It is said that the Dickson Co., of Peterboro', took out about 12,000,000 feet of logs during the past winter, and that the McDonald Company have banked 3,000,000 feet.

Alger, Smith & Co., of Detroit, Mich., have taken out about 14,000,000 feet of logs on the Pigeon River, in northern Minnesota. It is still uncertain where these logs will be sawed.

The immovable property of the Cascapedia Pulp & Lumber Co, was sold at Quebec last week. The purchasers were Carrier, Laine & Co., of Levis, and H. R. McLellan, of St. John, N.B.

The town council of Gananoque, Ont., has accepted the tender of the Rathbun Co. for the annual supply of lumber, at the price of $13.50 per M. feet delivered. The Pembroke Lumber Co. tendered at $12 at Pembroke, or $16 delivered at Gananoque.

Buchanan Bros. & Huff, of Thamesville, Ont., have purchased several car loads of maple logs at Onaway, Mich. These logs will be shipped by rail to St. John, N.B., and thence to England by water. Another lot of maple has also been purchased in the same vicinity for shipment to Europe.

Many of the mills at Marinette, Wis., have contracted for their 1899 production. Last week two cuts, amounting to nearly 50,000,000 feet, were sold to Chicago parties. J. M. Martin sold 600,000 feet of basswood to the H. M. Tyler Lumber Co., of Tonawanda, and Ira Carley sold his cut of 500,000 feet to English & Co., of New Haven, Conn.

An estimate has been made of the cut of logs during the past winter on the Tobique river, in New Brunswick. It appears that the cut has been in excess of last year, the figures being as follows: Hale, 4,000,000 feet; McCallum, 1,500,000; McNair, 2,500,000; Estey, 4,000,000; Baird, 3,000,000; Beveride, 3,000,000, and Upham, 1,500,000. The logs are all ready for the streams.

Mayor Bingham, of Ottawa, who is interested in lumbering operations, recently returned from a tour of inspection along the Gatineau river. Regarding to output of logs, he says: "It will not be great this spring; not nearly so large as last spring, and that was a very short season. The timber output I should say would be fully as much as 50 per cent. less than in 1898. Red and white cedar will be a very short crop. The cedar for telegraph poles will be 25 per cent, less than last year, while the railway ties will be 40 per cent. less."

The demand in Chicago for dry basswood is as pronounced as ever. First and second inch sells readily out of the yard at $23, while box boards bring $26 and 1 x 6 strips $22. The price for common basswood ranges from $17.50 to $18. In ash, soft elm and rock elm there is also a shortage of dry stock. At Michigan points like conditions exist. A report from Manistee states that black and white ash are both exhausted, birch is an unknown quantity, and rock elm and basswood have been cleaned out. There is a little soft elm for sale, the price being $18 for log run on dock.

At Saginaw, Mich., there is an extraordinary demand for coarse lumber. Canada log run is quoted at $14 to $18, and Michigan at $18 to $22. Box lumber is very scarce and brings from $12 to $13, while Norway is selling from $9.50 to $12. The Saginaw Lumber & Salt Co. three weeks ago sold 2,000,000 feet of Norway to be cut this season at an advance of $1.50 over last year's quotations, and the same concern has just closed a deal for another 2,000,000 feet at a substantial advance. At Lake Huron shore points $18 is asked for 18 feet Norway piece stuff. Mill culls are said to be selling at $9.50 and $10, and while the starting of the mills may cause a slight drop, it is probable that the price throughout the season will be far ahead of last year.

MICHIGAN LOGGING CONDITIONS.

A correspondent of the American Lumberman, of the conditions prevailing in the Saginaw valley, says:

Until within a day or two there has been from twelve to eighteen inches of snow on the ground, and last Thursday a train on the Mackinaw division of the Michigan Central was seven hours late in reaching the valley by reason of snow blockade north of Grayling. There is heavy snow up in that section at the present time, and considerable ice in the rivers and lake. During the last two weeks there has been fairly good sleighing and a large quantity of logs have been hauled. If Canada logs do not come over, which is as yet not definitely determined, there will of course be a shortage, but more Michigan logs will be cut on this river this year than was cut last season. Nearly if not quite 100,000,000 feet of Michigan logs will come to this river this season. The cut at Alpena last season was 83,500,000 feet, and it is believed that it will reach 65,000,000 feet the coming season. The writer is informed by trustworthy people that at Cheboygan the mills will all have a full stock, and some of them will run day and night. At Tawas, Prescott & Son will have a stock of about 14,000,000 feet, whereas last year their mill did not cut a board. The Tawas Bay Lumber Company cut only about 10,000,000 feet last year, and will have only a partial stock this season. Some small mills have been put in along the line of the northern extension of the Detroit & Mackinac, and these will be stocked. In the aggregate quite a quantity of logs cut on deeded and Indian reserve lands in Canada will come over if no other stock shall be obtained from that region. The weather has been favorable during the last two weeks for getting in logs and cedar.

CANADIAN TIMBER IN THE BRITISH MARKET.

At an auction sale held by Foy, Morgan & Co., London, Eng., on March 29th, Canadian goods realized the following prices:

SPRUCE.—Ex Castlemoor, from Quebec, 9-13 ft. 3 x 8 and 9 in., 3rd quality, £6 17s 6d; ex Stratford, from Bic, Que., 12 ft. 2 x 6 in. unassorted, £7 7s 6d; ex Hazelmour, from Quebec, 10-11 ft. 3 x 9-11 in. 3rd quality, £6.

PINE.—Ex Fernmoor, from Quebec, 10-13 ft. 2 x 8 in. unassorted, £8; 14-16 ft. 2 x 7 in., £8 5s; ex Britannia, from Quebec, 6 ft. 3 x 9 in. 1st quality white, £14 10s; 6 ft. 3 x 8 in., £13 10s; 6 ft. 3 x 7 in., £13 5s.

At a recent auction sale held by Singleton, Dunn & Co., Greenock, Scotland, the result was as follows: 52 logs prime waney boardwood, 1s 8¾d per cubic foot; 20 logs 1st class waney boardwood, 1s 9¾d and 1s 9d; 19 logs, 1s 8½d; 53 logs, 1s 7½d; 20 logs square board wood, 1s 3d; 20 logs prime Quebec oak, 2s 2½d; 20 logs Quebec oak, 1s 6½d; 3 logs 1st class Quebec red pine, 1s 8½d; 256 pieces 2nd quality Quebec pine ends, 8x11 x 3, 13½d; 261 pieces 6 x 11 x 3, 10½d; 1,650 pieces 3rd quality Quebec pine ends, 6-11 x 3, 9¾d; 300 pieces 12 x 9 x 3, 9¼d; 207 pieces 11-15 x 8 x 3, 8¾d; 469 pieces, 12-16 x 6 x 3, 8d; 463 pieces 6-11 x 8 x 3, 7⅞d; 394 pieces 13 x-11 x 3, 8d; 2,000 pieces 13 x 11 x 1, 7½d and 7¼d; 522 pieces 3rd quality spruce battens, 12-17 x 5-13 x 2, 9d; 1630 pieces, 12 x 6 x 2, 8½d: 625 pieces 4th quality spruce battens, 13-18 x 5-12 x 2, 7½d; 1,803 pieces 10-12 x 5-10 x 2, 7¼d; 1,301 pieces, 12 x 6 x 2, 7¼d.

THE BARBADOS MARKET.

From the semi-monthly report of Clairmonte, Man & Co., the following particulars of the Barbados market are obtained:

Since last report there have been three arrivals with white pine and spruce lumber, and dealers are fully supplied. Recent sales have been made at $19.77 for first quality white pine and $14.47 for second quality, $15.47 for first quality spruce, and $12.47 for second quality.

For Gaspe cedar shingles the demand continues good, late sales being made ex steamer at $5.25 to $5.41. Halifax cedar shingles have sold at $3.16, cedar laying at $2.07, spruce laying at $1.98 and cypress at $9.11 for 6 inch hearts and $6.50 for saps.

Sales of stock have been made as follows: Per schooner Eureka, from Halifax, N.S., 34 M. feet white pine lumber at $13.69, 18 M. spruce at $14.25, and 78 M. long cedar shingles at $3.16; per schooner Stella E., from Lunenburg, N. S., 30 M. white pine lumber at $19.11 and 50 M. second quality at $13.25; per schooner Taymouth Castle from St. John, N B., 65 M. long Gaspe cedar shingles at $5.41, 75 M. at $5.25, 6 inch at $6.50, 5 inch at $5.50, 4 inch at $4.50, and 3 inch at $3.50; per schooner Lizzie, from Weymouth, N. S., 19 M. white pine lumber at $19.77 for first and $14.47 for second quality, 28 M. spruce at $15.47 and $12.47, and 6 M. spruce laying shingles at $1.98.

HARDWOOD LUMBER PRICES.

A large furniture dealer has declared that prices of hardwood lumber have, within a year, advanced 75, and in some cases even 100 per cent. He explained that it was only the way of the trade. Hardwood did appear to be getting more difficult to obtain, and consequeutly there was a tendency to advance the price, but as a matter of fact, prices were not any, or very little, higher than they were seven or eight years ago. Every few years prices had gone up and down, and that wave-like motion had continued during the 25 years he had been in the business. With better times prices advanced, and when dull times came again the bottom fell out of trade, and prices slumped back.

BOX SHOOKS WANTED.

Messrs. Baker & James, 164 Corporation street, Birmingham, England, advise us that they are open to negotiate for regular supplies of Canadian box shooks and similar goods cut from spruce and pine. They will be pleased to hear from manufacturers or exportees who can ship by regular steamers to English ports, and who are prepared to undertake deliveries the year round. Canadian manufacturers desirous of extending their trade in this direction should communicate with the above firm.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, according to the summer schedule effective April 1st, are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, $1.00 per M feet, lath 20 cents per M pieces; Quebec, $2.00 per M feet, lath 40 cents per M pieces; Arnprior to Montreal, $1.50 per M feet, lath 30 cents per M pieces; Quebec, 12 cts.; Pembroke to Montreal, $1.75 per M ft., lath 35 cents per M pieces: Quebec, $2 75 per M ft., lath 55 cents per M pieces; Ottawa to New York, $2.50 per M ft., lath 50 cents per M pieces; Arnprior to New York, $3.00 per M ft., lath 60 cents per M pieces; Pembroke to New York, $3.25 per M ft., lath 65 cents per M pieces; Parry Sound, track, $3.50 per M ft., lath 70 cents per M pieces; Ottawa to Buffalo, 12 cents per 100 lbs.; Ottawa to Port Huron and Detroit, 14 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 11c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft.; lath 50,000 pieces, not exceeding 600 lbs. per M pieces. Ottawa rates apply on shipments from Rockland and Hawkesbury.

SHIPPING MATTERS.

The steamer Russ will load deals at St. John, N. B., for w. c. England, at 40s. The bark Enna has been chartered to carry lumber from St. John to Vera Cruz, at 60 francs.

The demand for sail tonnage for the River Plate continues unabated, but operations are limited by conservative ideas of shippers, who are offering for vessels of medium size $9 and $10 from New Brunswick and Nova Scotia to Buenos Ayres and Rosario.

BUSINESS NOTES.

The Katrine Lumber Co., of Katrine, Ont., has been dissolved.

Marsh & McLennan, of New York, have opened a wholesale yard at the foot of Hertle ave., Buffalo. They have in stock some 3,000,000 feet of white pine that was purchased in the west and in Canada.

Frank C. Dury, of the Cutler & Savidge Lumber Co., and M. A. Noble, formerly with the Mitchell & Rowland Lumber Co., have formed a partnership as wholesale lumber merchants, with offices in the Union Trust building, Detroit, Mich.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., APRIL 19, 1899 No. 13.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

EXPERT BAND FILER OPEN FOR ENGAGEment May 1st; best references. Box 26, CANADA LUMBERMAN.

WANTED.—Line of wooden articles on commission by two salesmen going through England and Germany, starting about May 3rd. Box 45, CANADA LUMBERMAN.

FOR SALE.—To be sold by Public Auction in front of Post Office, Campbellton, N.B., at 10 o'clock on April 27, 1899, Mill and Joinerwork Factory known as the Reid Mill, near Dalhousie. For information, address WM. GLOVER, Campbellton, N.B.

TIMBER LANDS FOR SALE.

OAK TIMBER LANDS FOR SALE—I HAVE for sale in Eastern Kentucky and West Virginia several tracts of Timber Land, principally White Oak; in all about 60,000 acres. Apply to C. STARRAT, Farmers, Rowen County, Kentucky.

AUCTION SALE OF Timber Berths

In the Townships of Davis and Grant, District of Nipissing.

The License for the undermentioned TIMBER LIMITS will be offered for sale by public auction on

Wednesday, June 14th, '99, at 3 p.m.

in the Rotunda of the Board of Trade Building, Toronto, subject to the terms and conditions to be set forth at the time of sale. The vendors reserve the right to one bid:—

Lot 1.—Berth No. 3, Township of Davis, being lots 1 to 7, inclusive of concessions 4, 5 and 6. This berth has never been operated on, and is a virgin forest.

Lot 2.—Berths 1, 2, 3, 4, 5, Township of Grant. The timber on berths 1 and 2 has been partially damaged by fire and partly cut over.

For further particulars apply to Scott, Lees & Hobson, barristers, etc., Hamilton, or to Peter Ryan, Toronto.

WANTED FOR SHIPMENT IN MAY, 20,000 feet Rock Elm Plank, 1½ to 4½ inches thick, 30 to 40 feet long. THOS MYLES' SONS, Hamilton, Ont.

Telephone Poles

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G2., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site, also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B. C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six, nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to— "THE SECRETARY,
" Maclaren Ross Lumber Co., Limited,
" 110 Wellington St., Ottawa, Ont."

Ottawa, Ont., 15th February, 1899.

WANTED.

A SECOND HAND SWING SHINGLE MAchine. Give particulars. D. H. SEAMAN, Woodford Ont.

FOREMAN WANTED.

A PRACTICAL, COMPETENT SAW AND Shingle Mill Foreman wanted. Address immediately. THE RATHBUN CO., Deseronto, Ont.

WANTED.

PRICE ON MAPLE, BEECH, BIRCH, ASH and Elm, 5/8, 1 and 2 inches. Also Basswood 5/8 and 1 inch, and pine 1 inch, all log run. Also on Spruce 1 inch, suitable for manufacturing boxes. Quote also on pine squares 9 x 2 x ⅞, 29 x 2¼ x 2¼, 9 x 2¾ x 2¾, 29 x 3¼ x 3¼. Quotations on cars at mill. Address, B. SOUTO & CO., 161 Front Street, New York.

BOX SHOOKS WANTED.

Messrs. Baker & James, 164 Corporation street, Birmingham, England, advise us that they are open to negotiate for regular supplies of Canadian box shooks and similar goods cut from spruce and pine. They will be pleased to hear from manufacturers or exportees who can ship by regular steamers to English ports, and who are prepared to undertake deliveries the year round. Canadian manufacturers desirous of extending their trade in this direction should communicate with the above firm.

CURRENT TRADE CONDITIONS.

ONTARIO.

In the pine districts of Ontario the lumbermen are preparing for the drives, although in some sections the snow is still deep. Owing to the backwardness of the season, the logs may not reach the mills until later than usual, but this will not materially affect sawing operations, as a number of the mills have a small stock of logs available which were carried over from last season. Indications point to a season of unusual activity. There has been a considerable quantity of lumber contracted for in advance, the revival in general trade assures a steady demand, and in addition to these favorable circumstances, contracts are being placed with mills on the Georgian Bay to cut logs for firms who formerly exported to Michigan. All the lumber produced is likely to find a market. It is also probable that present prices will, virtually, be maintained. Mill culls, the price of which is now out of proportion to the other grades, are almost certain to weaken. On the other hand, unless the demand should be checked by unexpected circumstances, we look for an advance in certain grades. Large purchases of box lumber are likely to be made by dealers in the Eastern States, owing to the scarcity of lumber in Michigan and the high prices asked there by holders of stock. There is no important change in the hardwood market. Some of the mills have resumed operations, and anticipate a good season.

QUEBEC AND NEW BRUNSWICK.

It is not expected that navigation on the St. Lawrence will open until about the 25th of April, which will be one week later than last year. There will then be a rush of lumber shipments, as the exports from the St. Lawrence will likely be equal in volume to that of last year, although as yet contracting for stock has not been entered into as liberally as usual. In all probability shippers will, within the next few weeks, show a greater disposition to buy, as the stock of spruce deals in the British market has become reduced, and prices have strengthened in consequence. There is a good demand for oak, birch and elm timber. In the Maritime provinces the cut of logs during the past winter was less than in the previous season by about one-quarter. Reliable estimates place the cut of the St. John river at one hundred million feet, sixty million of which is American lumber, to be cut at St. John mills and shipped to the United States. In the Miramichi district the cut last winter was an average one, but in Nova Scotia it was about one-third less than in the previous winter. It will thus be seen that the quantity of lumber to be marketed this season by New Brunswick and Nova Scotia manufacturers will not be large, and there should be no difficulty in disposing of it at the higher prices now asked. Ocean freights are about 42s 6d from New Brunswick ports to the leading markets of Great Britain. This is a few shillings higher than the average rate last year, but it is improbable that there will be any advance, owing to the number of steamers seeking freights.

MANITOBA AND BRITISH COLUMBIA.

The spring movement of lumber in Manitoba and the Northwest has commenced, and building operations are now in full swing. In Winnipeg a number of large buildings have been arranged for, and in towns and villages there is more than an average amount of building. Stocks of lumber held by retailers are small, and the mills will be started as early as possible to supply the requirements. The cut of logs in the woods has been greater than last season. In British Columbia manufacturers are experiencing a growing local demand, on account of increased building operations. Export trade is also extending, and within the past month an order was placed with one of the mills for a quantity of boxes for shipment to Australia.

UNITED STATES.

Firmness is still the predominant feature of the United States lumber market. Navigation from Lake Superior is likely to open later than usual, and this has given increased strength to the eastern market. It is believed that the present prices of white pine will be maintained throughout the season, and that some items may further advance. No. 2 boards are now commanding slightly higher figures, as this stock is being purchased freely as a substitute for the lower grades.

In Chicago piece stuff is still selling out of the yards at $12.50, and the cargo market is likely to open on a basis of $11.50 per thousand. At Philadelphia stocks of dry white pine lumber are scarce, and box lumber has advanced during the past week from $15.50 to $16. Increased strength in the white pine market has also developed at Boston, Baltimore and other points. Tonawanda dealers report numerous orders for box

and low grade stock, and their supplies have become diminished.

The scarcity of dry hardwood lumber is still the feature of the market. Buyers are anxious to contract for stock to be cut, but in some instances manufacturers refuse contracts of this character, believing that the limit of price has not yet been reached. At Tonawanda there is an increasing demand for basswood sidings, and in New York oak and ash hold strong positions.

FOREIGN.

Within the past week there has been a hardening of prices in the British market, owing to the fact that stocks have become reduced and that some classes of timber have practically passed out of first hands. The stock of spruce deals in the public docks at London on March 31st was 935,000 pieces, as compared with 1,220,000 pieces one year ago. Deals of third and fourth quality are quite firm, 3×9 thirds selling in small quantities at £8 per standard, while higher prices are probable before the first shipments arrive. Pine deals are in stock in about the same quantity as last year. The better quality are in good demand, at slightly higher figures, but in the lower grades there has been no improvement. The hardwood trade is showing more life. Birch timber and planks have sold freely, and the stock is small. A modern demand exists for elm and ash, while in waney and square pine the call has been chiefly for prime wood. Elsewhere are given detailed information of the Liverpool and Glasgow markets.

It is expected that South America will this year import more lumber than usual. The harvest has begun, and promises an abundant yield, which will result in improved commercial conditions. The Australian market is dull, prices for Oregon pine being about 5£ 10s per thousand feet.

NEW BRUNSWICK CEDAR SHINGLES.

The spring demand for shingles has at last struck in with full force, and the manufacturers who have the goods to furnish are in a very small minority. As a consequence, prices are soaring upwards, and there is no telling where they will stop. Some conservative operators express themselves as believing that quotations inside four or five weeks will touch a $3.25 to $3.50 basis for extras. The market to-day has a most decided bullish tendency, and the fact that very few shipments can be made before about June 1st adds materially to the strength of the situation. The fact is that the manufacturers are now in most absolute control, and it would appear that radical advances on present prices could be maintained without difficulty. Practically all of the wholesale trade are heavily oversold, and on promise of immediate shipments. They are struggling desperately to get their orders placed at some price or other for quick delivery, but are finding this virtually impossible, for the shingles in sufficient quantity are not to be had at any price. The bulk of the orders now being placed are taken on basis of Boston freight rates at: Extras, $2.90 to $3; clears, $2.50 to $2.60; 2nd clears and clear whites, $2 to $2.10. A considerable number of the best informed manufacturers are asking for June delivery $3.25 for extras and corresponding figures for other grades. This latter price is not too high to afford a fair margin to the makers, and if they all have the courage of their convictions will be secured before June 1st.

STOCKS AND PRICES.

Messrs. George & McGregor, of Killaloe Station, Ont., advertise for sale in this issue a large number of telephone poles, fence posts and railroad ties.

Carswell & McKay's saw mill at Calabogie, Ont., will not be operated this season, they having arranged to have their logs sawn at Cavanagh's mill.

H. C. Sharpe, of Houlton, N.B., has purchased from Fred. Moore his Meduxnekeag cut of logs, amounting to about 900,000 feet. The price paid was $6,000.

S. H. Black, of Orillia, Ont., has purchased fifty acres of timber land from the Tudhope Carriage Co., it being part of the estate of the late Geo. Wright, of Medonte, and timbered with maple, basswood, butternut and oak. Mr. Black has given a contract to Aaron Stewart to saw the logs, and has disposed of the maple to the Orillia Export Lumber Co., and of the basswood to the Tudhope Carriage Company.

The Royal City Mills, New Westminster, B.C., has received an order from Australia for a sample shipment of 10,000 boxes suitable for shipping canned goods to Europe.

The importations of Canadian lumber into London up to March 31st last were as follows: Quebec pine deals, 9,000 pieces; Quebec spruce deals, 73,000 pieces; New Brunswick spruce deals, 9,000 pieces; birch planks, 25,000 pieces.

The returns of exports from the district of Ottawa to the United States for the quarter ending March 31st last contain the following items: Lumber, $143,029.95; lumber (for export), $18.911.87; laths, $3,144.05; shingles, $3,079 68.

From Manistee, Mich., the sale is reported of 400,000 feet of log run soft elm at $18.50 on dock, 500,000 feet inch maple at $5.50, $10.50 and $15.50 on dock, and 500,000 feet of maple at $8, $13 and $18.50. Beech is being inquired for by chair makers.

A lumber manufacturer of Cumberland county states that there will be about 35,000,000 feet of lumber for shipment this season from West Bay, N.S., to trans-Atlantic ports. The cut throughout Cumberland county has been lighter than for some years past.

At Saginaw, Mich., box lumber is still scarce, and sells at $12 to $13. Canada log run brings $14 to $18 and Michigan $18 to $20. For Norway $9.50 to $12 is offered. Mill culls are selling at $9 to $10, but quotations are likely to weaken when the mills start operation.

Since the first of the year the export of lumber from St. John, N.B., to the United States has been about 20,000,000 feet of long lumber, 20,000,000 laths, 4,500,000 shingles and three cargoes of piling. Most of the sawn lumber was the product of Maine logs, cut in the American mills at St. John.

Chicago agricultural implement and waggon factories are paying $40 to $50 for first and second ash, and $32 to $35 for inch ash. Yard prices for selected red birch are $40 for inch and $45 to $55 for thick. Plain birch is selling at $27 to $30 for inch first and second, and $32 to $35 for thicker. Soft elm, common and better brings $20 for inch and $22 to $25 for thick; rock elm firsts and seconds, $28 to $30 for inch and $35 to $40 for thick, and common stock about $10 less. Basswood is in urgent demand, and sells at $22 to $23 for firsts and seconds inch, $24 to $26 for thick, $17 for inch common, and $18 for thick. Culls sell at $12.

A public sale of pine and spruce deals was held at Glasgow, Scotland, on 5th inst., by Messrs, McDowell & Neilson. 1st Quebec pine deals, broads, sold at 2s 3½d per cubic ft., and 8 in. to 11 in. at 2s 2½d. For 1st ends, 6 ft. to 9 ft., prices ranged from 2s to 2s 3½d, and a lot of 1½ in. pine planks brought 2s. In Quebec 2nd pine 15×9×3 in. got 1s 8d, and a lot of 7/10×3, 1s 5d, while 7×7/11×3 ends were sold at 1s 6d. In 3rds one lot of broads were sold at 1s 3d. and two lots of 4th quality broads at 10d and 10½d. The demand for spruce deals was quiet, a large portion offered being sizes not in demand, and some shipments were passed over without effecting a sale. 6½×2½ battens were disposed of at 11d per cubic ft.; 11×3 deals (Quebec) got 8½d. In Lower Port spruce several lots, mostly without reserve, sold at 10½d for 14×9×3; 7/11×3 at 9¼d, and 4/6×3 at 8d.

THE BRITISH MARKET.

Timber circulars to hand review the respective markets of Great Britain for the quarter ending March 31st. Of the Liverpool market Messrs. Duncan, Ewing & Co. say:

WHITE PINE TIMBER — The deliveries during March comprised only 10,000 feet of waney board wood, the stock of square pine remaining unchanged. Stocks are very moderate and values steady.

RED PINE has been in fair demand, the deliveries amounting to 5,000 feet, but the stock is still ample for probable requirements.

OAK LOGS—The demand has been of a retail character, and the market remains unchanged.

ELM—Stock is light, and this wood is in fair request at firm prices.

BIRCH—Logs: The import during March amounted to 71,000 cubic feet. The bulk of this import has gone into consumption. Some parcels were offered by auction and met a strong demand at increased values. Planks: The import has again been heavy, but the deliveries have been very satisfactory, and stocks are reduced by 24,000 feet, but are still excessive. Values continue low.

PINE DEALS, SIDINGS, &C.—The deliveries during March have been of a somewhat more extensive scale, but stocks are still too heavy in view of the near approach of the import season, and the market is not in a very satisfactory condition. Some 3rd quality deals were sold by auction during the month at £8 per standard.

N. B. and N. S. SPRUCE DEALS—The deliveries have again been satisfactory, and stocks are light. Parcels from St. John, N.B., have been sold at from £6 5/- to £6 7/6 c. i. f., and values for contract cargoes are firm. Halifax deals are selling at about £6 3/9 to £6 7/6, ex quay.

QUEBEC SPRUCE DEALS—Stock on hand is now only 890 standards, so that the new season's imports should come to a good market. Values are steady.

Wholesale prices at Liverpool are as follows:

	s d	s d
TIMBER—white pine, Quebec, per cu. ft.	1 3	to 2 4
Waney board, Quebec, per cu ft.	2 0	to 2 10
Waney board, St. Johns, 18 inches.	1 6	to 2 2
Quebec red pine, per cu. ft.	1 5	to 1 9
Quebec oak, 1st quality, per cu. ft.	2 9	to 3 0
Quebec elm, per cu. ft.	2 0	to 2 2
Quebec ash, per cu. ft.	1 6	to 1 10
Quebec whitewood, per cu. ft.	1 4	to 1 10
Quebec birch, per cu. ft.	1 3	to 1 9
St. John, N.B., birch, per cu ft	1 3	to 1 6
St. John, N.B., birch planks, per cu. ft.	0 9	to 0 10
SPARS.—Spruce, per cu. ft.	0 10	to 1 0

	£ s d	£ s
DEALS.—Que. pine, 1st qual., per std.	20 0	to 24 0
Quebec pine, 2nd quality, per std.	15 10	to 16 10
Quebec pine, 3rd quality, per std.	9 0	to 9 5

OAK STAVES—Quebec pipe, 1st quality, per mille	60	to 65
Quebec pipe, 2nd quality, per mille	35	to 45
Quebec puncheon, 1st qual., per mille	20	to 22 10
Quebec puncheon, 2nd qual., per mille	14 0	to 16 0

From Messrs. Calder, Henderson & Livingston we extract the following particulars of the Glasgow market:

In reviewing the quarter just closed, we have to report a continuance of the activity which prevailed at the close of 1898, a remark which is applicable to both the timber trade and allied trades. Speaking generally, the market has been maintained in a healthy condition, although in certain items of Canadian stock there has been a decided weakening of values. The exceptionally heavy stocks of lower grade pine deals carried over from 1898 have been difficult to deal with, and keen competition has prevailed in the endeavors to realize. This has to some extent been met by improving values in standard sizes of first quality. The all round amount of stock in both timber and deals that has gone into consumption has been very satisfactory.

WHITE PINE.—WANEY—The demand has practically been entirely for prime wood of long average for shipbuilding purposes, and it has been selling at from 2s 6d to 2s 9d per cubic foot. There is a moderate demand for short girthy wood, at from 2s 3d to 2s 6d, but 2nd class wood is entirely neglected. It is quoted at 15d to 20d per cubic foot. Very little business in square timber has been done. Ths stock is small and the demand not large.

RED PINE—There has been a fair consumption, chiefly of prime wood of large average, which sells at 2s. to 2s. 3d. per cubic foot.

ELM—There has been a good demand, and the prime wood in the market has practically now been all taken up at firm prices. The stock consists mostly of second class wood. Prime wood is quoted at 2s. 2d. to 2s. 5d. for 45 feet average.

OAK—There is very little movement to report in this staple. First class wood has been sold at about 2s. 8d. to 2s. 10d. for 70 cubic feet average, but several clearances have lately been made at much lower figures. Second class wood has been cleared out at 18d. to 19d. per cubic foot.

ASH—Prices are quoted steady at 19d. to 22d. for 13 to 15-inch average.

BIRCH—The import has been nominal and prices have advanced. They are firm at 18d. to 21d. for 16-inch average.

DEALS, BATTENS AND BOARDS—Considerable business has been done, and prices as a whole have been steady. Any weakening of

mporters and Manufacturers BOSTON, MASS

prices reported has generally been explained by the fact that the holders were clearing up stocks which they are anxious to close. In pine, first broad deals have been in more demand, and the prices firmer at £23 7s. 6d. to £24 15s. There is not much demand for 11-inch, and they have been cleared at £20 12s. 6d. to £22. Undersized have been sold freely at £17 3s. 9d. to £19 5s. A fair business has been done in good sidings, which for an 11-inch average have fetched £17 3s. 9d. to £18 11s. 3d. Strips 5 to 7-inch wide by 1¼-inch, 1½-inch and 2 inches are selling at £13 to £15 10s. In seconds the stock of broads is not large, but there has been little demand. They are quoted at £17 3s. 9d. to £19 5s., 11-inch at £15 2s. 6d. to £17 17s. 6d. Undersized deals are hard to move, and have been sold at £11 13s. 9d. to £13 15s. The demand for thirds has been good, regulars are steady at about £9 12s. 6d., but undersized are still weak at £6 17s. 6d. to £7 18s. 1d. per St. Pet. std. There are considerable stocks of fourths on hand that were bought at low figures in the later part of last year, and this has tended to keep values down. The demand has been moderate. Regulars are quoted at £6 17s 6d to £7 4s 4d, and undersized at £6 3s 9d to £6 10s 7d. Red pine is very much wanted, but there is practically no stock in hand.

SPRUCE—A fair business has been done in Quebec spruce, and prices are firm at £7 5s for 2nds, £6 17s 6d for 3rds, and £6 3s 9d to £6 10s for 4ths. Several shipments of New Brunswick spruce have come to hand by the winter steamers from St. John, and these have readily been taken up at full prices. The demand is good, and with the exception of 7 inch, prices realized were high. 9 inch deals are quoted at £7 11s 3d, with 7 inch, 8 inch, and 11 inch at approximate prices.

There has been a moderate import of birch from St. John by the winter steamers, and it has readily been taken up at full prices. The demand is good. Logs 14½ to 15 inches sell at 17d to 19d. There has also been a good enquiry for planks, and these have been sold at £7 4s 4d ex quay.

The Timber Trades Journal reports the following fixtures: Montreal or Three Rivers to e. c. port, 42s 6d, deals, option 40% boards, excess of 10% at 46s 3d; Quebec to West Hartlepool, deals 42s 6d, timber 65s; Montreal or Quebec to a small range U. K., deals, 42s 6d, timber, 65s; Quebec to Cadiz, 300 standards, 52s 6d; Quebec to Seville, 450 standards, 55s; Quebec to Cardiff, 1050 standards, 40s; Quebec to Avonmouth and Bristol, 1100 standards, 40s and 43s 9d respectively; Miramichi, N. B., to w. c. Great Britain, 950 standards, 43s 9d; several small sailers, from New Brunswick ports to w. c. England and e. c. Ireland, 43s 9d to 45s; West Bay, N. S., to Limerick, 950 standards, 42s 6d, June sailing.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., APRIL 26, 1899 No. 14.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

EXPERT BAND FILER OPEN FOR ENGAGEment May 1st; best references. Box 26, CANADA LUMBERMAN.

WANTED.—Line of wooden articles on commission by two salesmen going through England and Germany, starting about May 3rd. Box 45, CANADA LUMBERMAN.

PORTABLE STEAM SAW MILL (JOHN ABELL make) for sale; 25 h.p. Boiler and Engine, boiler in good condition, engine slightly broken; also House and Orchard in connection. Will be sold cheap. Apply to GEORGE A. FLEMING, Hockley, Ont.

TIMBER LANDS FOR SALE.

OAK TIMBER LANDS FOR SALE—I HAVE for sale in Eastern Kentucky and West Virginia several tracts of Timber Land, principally White Oak; in all about 60,000 acres. Apply to C. STARRAT, Farmers, Rowen County, Kentucky.

AUCTION SALE OF Timber Berths

In the Townships of Davis and Grant, District of Nipissing.

The License for the undermentioned TIMBER LIMITS will be offered for sale by public auction on

Wednesday, June 14th, '99, at 3 p.m.

in the Rotunda of the Board of Trade Building, Toronto, subject to the terms and conditions to be set forth at the time of sale. The vendors reserve the right to one bid:—

Lot 1.—Berth No. 3, Township of Davis, being lots 1 to 7, inclusive of concessions 4, 5 and 6. This berth has never been operated on, and is a virgin forest.

Lot 2.—Berths 1, 2, 3, 4, 5, Township of Grant. The timber on berths 1 and 2 has been partially damaged by fire and partly cut over.

For further particulars apply to Scott, Lees & Hobson, barristers, etc., Hamilton, or to Peter Ryan, Toronto.

WANTED FOR SHIPMENT IN MAY, 20,000 feet Rock Elm Plank, 1½ to 4½ inches thick, 30 to 40 feet long. THOS. MYLES' SONS, Hamilton, Ont.

IMPORTANT TO LUMBERMEN

FOR SALE BY TENDER.

Valuable Saw Mill and Timber Limits in British Columbia

56,542 ACRES, MORE OR LESS, VIRGIN forests of Oregon Pine, Cedar and Spruce Limits in British Columbia as follows:—

BLOCK 1.

Lot 51, 23,600 acres, more or less, Sayward District, Vancouver Island.

BLOCK 2.

Lot 439 G2., 9,280 acres, more or less, New Westminster District.

Lot 50 G., 6 720 acres, more or less, New Westminster, Chilliwack.

Lot 55, 15,900 acres, more or less, New Westminster, Chilliwack.

Lot 83, 1 042 acres, more or less, New Westminster, Chilliwack.

The above limits were selected years ago by competent cruisers at a time when every opportunity offered and was taken advantage of to secure the "pick" of timber lands, which have since become greatly enhanced in value.

BLOCK 3.

About 400 acres, more or less, of mill site and first-class farm lands, en bloc, situated on the north branch of the Fraser River about three miles east of New Westminster City. 200 acres, more or less, of this land is cleared, graded, drained and fenced in first-class manner, and been under cultivation a number of years.

The mill located upon this site is a frame mill, about 455 x 72 feet, with T across tail end of main building about 176 x 60 feet. The whole structure from foundation up is built in the most substantial manner—well timbered and braced with knees, metal roof, three (3) engines of 300 h.p each, and fitted throughout with special machinery for working up British Columbia timber of all dimensions, as well as for working up the refuse into lath, pickets, box shooks, etc.; also planers, matchers, etc.

One large refuse burner; one large stone boiler house, metal roof, containing ten large tubular boilers, pumps, etc. Good frame office, boarding house, cottages, horse stables, machine shops and blacksmith shop.

Ample booming ground, constructed in the most substantial and convenient manner.

The New Westminster branch of the C. P. Railway crosses this mill site; also has a switch graded to the mill and through the yard, giving this property first-class railway outlet, in addition to best facilities and ample water for loading large ocean-going vessels, giving the property unrestricted access to the markets of the world.

Sealed tenders for the above property, either en bloc or each parcel or block separately, will be received by the Secretary of the undersigned at their office, 110 Wellington Street, Ottawa, Ont., up to MAY 20TH, 1899, at twelve o'clock noon.

All tenders to be marked "Tenders for Maclaren-Ross B. C. Property."

Tenders to be opened by the President and Secretary at the above address.

Terms, 10% cash, 20% in thirty days, and balance in six, nine and twelve months, by secured notes at 5% per annum. The property to remain vested in the Company until notes are fully paid.

The highest or any tender not necessarily accepted.

All letters requesting further information to be addressed to— "THE SECRETARY,
" Maclaren Ross Lumber Co., Limited,
" 110 Wellington St., Ottawa, Ont."

Ottawa, Ont 15th February, 1899.

WANTED.

A SECOND HAND SWING SHINGLE MAchine. Give particulars. D. H. SEAMAN, Woodford, Ont.

WANTED.

A SECOND-HAND SHINGLE MACHINE, suitable for a small country shingle mill. Address, DOMINION PAPER COMPANY, Montreal.

FOREMAN WANTED.

A PRACTICAL, COMPETENT SAW AND Shingle Mill Foreman wanted. Address immediately. THE RATHBUN CO., Deseronto, Ont.

WANTED—WILL EVERY

Lumberman getting out Hardwood Lumber please write us describing what you have and where, with rates to Buffalo. We can handle it from any section of the country. TAYLOR & CRATE, Buffalo, N.Y.

WANTED.

PRICE ON MAPLE, BEECH, BIRCH, ASH and Elm, ⅝, 1 and 2 inches. Also Basswood ⅝ and 1 inch, and pine 1 inch, all log run. Also on Spruce 1 inch, suitable for manufacturing boxes. Quote also on pine squares 2.9 x 2 x 2, 2.9 x 2¼ x 2¼, 2.9 x 2¾ x 2¾, 2.9 x 3¼ x 3¼. Quotations on cars at mill. Address, B. SOUTO & Co., 161 Front Street, New York.

INQUIRY FOR BOX SHOOKS.

Messrs. Baker & James, 164 Corporation street, Birmingham, England, advise us that they are open to negotiate for regular supplies of Canadian box shooks and similar goods cut from spruce and pine. They will be pleased to hear from manufacturers or exportees who can ship by regular steamers to English ports, and who are prepared to undertake deliveries the year round. Canadian manufacturers desirous of extending their trade in this direction should communicate with the above firm.

CURRENT TRADE CONDITIONS.

ONTARIO.

Fine weather has given a stimulus to building operations throughout Ontario. Much work is in progress and lumber is being purchased freely. Manufacturers and dealers report a brisk demand, on local account, for hemlock and the grades of pine and hardwoods used in the cheaper class of buildings. In Toronto the building season thus far has been much better than last year, or in fact any season for several years past. Unfortunately, some differences exist between the contractors and the bricklayers, and unless a settlement is reached in a few days a strike may follow, the result of which will be to cause capitalists to defer the erection of proposed buildings. While much lumber is being used in building work, the consumption in other departments of industry is proportionately large. The furniture and implement factories and all wood consuming industries are working to their full capacity, converting raw material into the finished product. Lumber prices in all districts are strengthening, but scarcely in due relation to the demand. Hardwoods have reached a fair price, owing to the scarcity of dry stock, but some grades of pine are still low. These, however, are likely to advance, and the dealer will act wisely who stocks up liberally at present quotations. A large percentage of the hardwood cut of 1899 has already been contracted for, and more would be but for the high prices which some manufacturers are asking. That these will be realized is somewhat doubtful, as it would seem that the limit for this season has about been reached. The hardwood industry of the Ottawa valley is to be developed, and thus the volume of production will be increased. Contracts have already been placed by New York houses for considerable quantities of birch, elm and ash to be manufactured in that district.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber in Manitoba and the Territories is such that dealers are finding their stocks inadequate. For some grades, particularly those which enter most generally into building operations, higher prices are being obtained. There is a vast amount of building under way in Winnipeg, but unfortunately a scarcity of building material, chiefly stone and brick, has developed, and the erection of some large buildings may, as a result, be delayed until next year. In the face of these conditions favorable to the lumber trade, it is learned that some cutting of prices has been indulged in by one or two dealers. Efforts are being made to secure adherence to list prices, which is certainly much to be desired. Some speculation is indulged in as to the successful tenderer for the annual supply of lumber for civic work in Winnipeg. The tenderers are the Rat Portage Lumber Co., D. E. Sprague and Dick, Banning & Co., and it is believed that the tenders range from $17 to $17.75 per M. The lowest tender submitted last year was $14.75. This is an illustration of the advance in lumber which has taken place.

The mills in British Columbia are rushed with orders, and prices are considerably higher than they were twelve months ago. The price of logs has advanced almost in the same degree, so that manufacturers are making little more profit. There is a boom in building at Vancouver and New Westminster, and consequently a steady call for lumber. A number of vessels are loading for foreign countries.

FOREIGN.

Buyers in Great Britain are showing a greater disposition to contract for Canadian timber, and consequently prices are strengthening. The spruce market has so far improved that c. i. f. quotations are now considered very satisfactory, first quality Quebec being held at £10 10s, second quality at £7 2s 6d, and third quality at £6 15s. These prices are, of course, much in advance of those realized at the recent auction sales. For New Brunswick spruce quotations are from £6 7s 6d to £9 15s, the latter being obtainable only for very desirable stock. Nova Scotia spruce is firm at about 5s per standard below that of New Brunswick. The white pine market is also firm, and there is a good demand for broad firsts, particularly of long lengths, the quotation being about £25 per standard. Second quality sells at from £16 to £18, and third quality at from £9 to £10. In the timber trade elm and birch seem to lead. The former sells at 2s 4d to 2s 5d for 50 cubic feet average, and the latter at 1s 6d

to 1s 7d for 16 inch average. For ash, oak and red pine the demand is only moderate. This is also the case with square and waney pine timber, the stock of which at several ports is too large.

UNITED STATES.

The demand for lumber in the United States is steadily increasing, and manufacturers and dealers are looking forward to a season of great activity. Prices continue to strengthen. The scarcity of box lumber is still the feature of the market, and substitutes are being sought for. It is not anticipated that prices will weaken before midsummer at least, and even then it is unlikely that there will be any material decrease. Tonawanda and Buffalo dealers report numerous enquires for low grade stock. There has been an unusual run on No. 3 barn, which is selling at from $14 to $15. No. 2 barn is also much in demand, and the upper grades are scarce. Mill culls are selling in Michigan at from $9 to $10, and the quantity available is extremely limited. In New York there has been an advance of $1 per thousand on box lumber, and 10-inch 13 foot boards are likely to bring higher prices. Spruce lath has advanced 40 cents within the past ten days, being held at $2.40 per thousand.

The situation in hardwoods has been somewhat relieved by the new cut. Basswood is getting dry and some of it has gone forward from the mills. Maple is slightly weaker, as the cut of the past winter was probably the largest ever known.

NEW BRUNSWICK CEDAR SHINGLES.

The situation of the shingle market to-day is exactly what we predicted. There are practically no shingles in stock at producing points. On the other hand, the retail dealers are very short of stock, and the net result is a flurry of very large extent. Those few manufacturers who have held their shingles up to the present time are receiving to-day, delivered at Boston, the following prices: Extras, $3; clears, $2.50; second clears and saps, $2.

We believe that four times as many shingles as there are at producing points are sold for immediate shipment at these figures. It can be readily seen, therefore, that the market is entirely in the hands of the manufacturers. A great many of the latter are refusing to quote for shipment until after the summer mills start, say in June, believing that by such time shingles will be worth $3.25 or more. We are inclined to think this view of the situation is correct, and would advise all manufacturers to wait until they have shingles to offer, making no quotations whatever, for the reason that they are absolutely sure at such time of getting present prices, and certainly stand a strong chance of realizing considerable more.

STOCKS AND PRICES.

Thomas Barber, of Keldon, Ont., has engaged a portable mill to cut about 100,000 feet of soft elm lumber.

The total cut of logs in Minnesota last winter is estimated at 640,000,000 feet. This is said to be the largest on record.

The Ontario Lumber Company, of French River, Ont., recently shipped several car-loads of deals to Great Britain by United States ports.

Spruce logs have recently been selling at Bangor, Maine, at $12 to $13 per thousand, which is about $2 higher than the prices quoted at same time last year.

The city council of Guelph, Ont., have accepted the tenders of Robert Stewart for the supply of cedar lumber, at $11.50 per M, and of H. M. Clemens & Co. for tamarac, at $12.94.

W. R. Thompson has disposed of his stock of elm, basswood and maple at Belmore, Ont., containing in all about 200,000 feet, to the Union Furniture Company, of Wingham.

Chew Bros., of Midland, Ont., have purchased from H. H. Cook the Upper Islands, extending from Moose Deer Point to Parry Sound. There is considerable timber on the property.

The steady demand for shingles at Tonawanda has practically cleaned out that market. Prices have advanced, and are now from 15 to 20 cents a thousand higher than they were last fall. On 18 inch clear butts pine, quotations range from $2.50 to $2.65, and on 18 inch XXXX from $3.35 to $3.50 f.o.b. cars Tonawanda.

At Saginaw, Mich., dry lumber is practically cleaned up. Log run is quoted at $14 to $22, box at $12 to $13, Norway bill stuff at $9.50 and upward, and mill culls at $9 to $10. Shingles are quoted at $2 to $3 for white pine and 15 cents less for cedar.

A Boston dealer reports that cargoes of wide random spruce are held at $17.50 to $18.50, while a special bill of wide stuff sold at $20. Bangor and St. John lath are in good demand at $2.25 to $2.40, which is the strongest opening price quoted for many years.

Chicago dealers have sent out new lists advancing nearly all the items in low grade lumber from 50 cents to $1 per thousand. There is a shortage of common stock boards in 8 and 10 inch widths. The stock of 12 inch boards is in better shape. In No. 2 common boards an advance has been made of 50 cents a thousand on 8, 10 and 12 inch, 12, 14, 16 feet. On shingles an advance of 5 to 10 cents has been made on both pine and cedar. There is a famine in lath, present quotations being $2.25 to $2.30 for white pine and $1.90 to $2 for mixed.

On April 14th the following vessels were loading lumber at British Columbia ports: Ship Atlacar, at Vancouver, for South America; ship Alex. McNeal, at Victoria, for Adelaide, Australia; ship Orion, at Chemainus, for Calcutta; barque Undaunted, at Chemainus, for Cape Town, South Africa; ship British General, at Chemainus, for Adelaide, Australia; barque Sebastian Bach, at Chemainus, for Tientsin, China; barque Burnel, at New Westminster, for Chile; schooner Weatherwax, at New Westminster, for San Francisco. The ship Clan Galbraith, the schooner Hawaiian Isles, and the barque Star of France were also ready to load.

SALE OF CANADIAN WOOD GOODS.

Messrs Churchill & Sim, London, England held an auction sale of wood goods on April 12th, at which 3 x 9 third pine realized £7 10s, 3 x 8 £6 15s, and 3 x 7 £6 10s, while 3 x 8 first spruce made £7 15s. A line of two inch first spruce fell at £8 7s for seven inch, and £7 10s for four and five inch. A large parcel of oak sold at 92s 6d to 100s per load, and several lots of birch at 72s 6d to 77s 6d. Details follow:

SPRUCE.—Ex Unique, from Quebec—12-16 ft. 3 x 9 and 2 1-2 x 6, £7. Ex Progressist, from Quebec—13-14 ft. 3 x 8 first quality, £7 15s; 13 ft. and 12 ft. 3 x 8, £7 15s; 12-14 ft- 3 x 7, £7 15s. Ex Henri, from Saguenay, Que.—12-14 ft. 3 x 11 third quality, £7 10s; 9-11 ft. 3 x 11, £7 5s. Ex Cameo, from Quebec—12-13 ft. 2 x 8, £8 5s.; 12-13 ft. 2 x 7, £8 10s. and £8 5s.; 12-13 ft. 2 x 5 £7 10s.; 12-13 ft. 2 x 4, £7 10s.; 10-11 ft. 2 x 8, £7 15s.; 10-11 ft. 2 x 7, £8; 10-11 ft. 2 x 6, £7 15s and £7 10s; 10-11 ft. 2 x 4 and 5, £7 10s. BIRCH TIMBER.—Ex Hazelmoor, from Quebec—About 200 pieces, 18 inches and up, £3 12s 6d and £3 17s 6d per load.

BEECH SQUARES WANTED.

A Liverpool firm of timber importers and saw millers write to the CANADA LUMBERMAN as follows:

"It is possible that we might be able to use very large quantities of beech squares of the following sizes or multiples:

10 per cent	....	12½ x 2¼	square
25 "	....	12½ x 2⅛	"
25 "	....	9¼ x 1⅞	"
15 "	....	9¼ x 2⅛	"
5 "	....	9 x 1½	"
5 "	....	9 x 1⅝	"
5 "	....	12 x 1⅞	"
5 "	....	12 x 1 15/16	or 2 square
5 "	....	10¼ x 1⅞	square.

"These would have to enter into competition with English beech, and would necessarily have to be at a very low price, as birch planks are being largely shipped at a very low price. We have no doubt that beech could, if it grows plentiful enough, be cut and shipped at as low a price, or possibly lower. It would be necessary for these squares to be absolutely first quality in every respect, perfectly straight grained, free of knots and other defects, and it would also be necessary after the squares have been cut that they be immediately steamed in a boiler under pressure with live steam (a pressure of 10 to 20 lbs. to the square inch for some hours would be sufficient for this) to eject and kill the sap contained in the wood, and then before being shipped to be allowed to cool off and season a little. This is to prevent splitting upon the ends. The steaming need not necessarily be a costly process; it is done in our mill as soon as the wood comes from the saw, and it has most beneficial results."

Readers of THE LUMBERMAN wishing the address of this firm may obtain same by enclosing postage to this office.

SHIPPING MATTERS.

The Timber Trades Journal reports that very little chartering has taken place of late from Canadian ports, but that engagements have been made by liners to Liverpool from Montreal and Quebec at 35s per standard, June-July sailing. The following fixtures are recorded: Quebec to Bristol, steamer Ramleh, 42s 6d, June; West Bay, N. S., to w. c. England, 1100 standards, 35s; St. John, N. B., to w. c. England, 1100 standards, 38s 9d; steamer Russ, to w. c. England or Clyde, 40s.

The following additional charters are reported: Bark, 398 tons, St. John, N. B., to Ireland, deals, 55s; steamer Manuka, Grindstone Island, Que., to w. c. England, 40s; bark, 400 tons, Miramichi, N. B., to e. c U. K., deals, 47s 6d; bark Stadacona, Yarmouth, N. S., to Buenos Ayres, lumber $10.

John Calcott's saw mill, about three miles from St. Thomas, Ont., was destroyed by fire last week. The loss is $3,000, with no insurance.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

C. P. R. FREIGHT RATES.

Mr. Geo. A. Fowler, Lumber Agent, C.P.R., Ottawa, furnishes the following schedule of freight rates on lumber on that railway:

To Toronto and Hamilton—from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents; from Sudbury Jct., Rayside and Chelmsford, 10 cents; from Cartier and Geneva Lake, 10½ cents; from Spanish Forks, Biscotasing, Massey, Cutler, Spragge and Algoma, 12 cents; from Dean Lake, Thessalon, Desbarats, and Isbester, 14 cents per 100 lbs. on pine and soft woods, the rate on hardwoods being one cent per 100 lbs. higher; from Ottawa, Hull, Aylmer and Dechenes Mills, Arnprior, Braeside and Pembroke, to Toronto the rate is 10 cents both on pine and hardwood.

To Albany and points taking Albany rates—from Ottawa, Hull, Aylmer and Deschenes Mills, 10 cents; East Templeton, Buckingham, Calumet and Carleton Jct., 11 cents; Arnprior, Braeside and Renfrew, 12 cents; Pembroke and Eganville, 13 cents per 100 lbs. These rates are based on a minimum of 30,000 lbs. per car.

To New York, for track delivery and all points on the Hudson river, or the New York Central and West Shore railways from Ottawa, Hull, Aylmer, Deschenes Mills 15c. per 100 lbs.; from Carleton Junction, 16c.; from Arnprior, Braeside and Renfrew, 17c.; from Eganville and Pembroke, 18c. The rates to New York, including litherage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

To New York via barge line from Albany—from

LAWRENCE & WIGGIN
Wholesale Lumber Dealers - 55 Kilby Street, BOSTON, MASS.

Aylmer, Buckingham, Deschenes Mills, East Templeton, Hull and Ottawa, pine and shorts in lots of 50 M feet and upwards, $2.50 per M feet, under 50 M feet, $3.25; lath in lots of 250 M feet and upwards, 50 cents per M pieces, under 50 M pieces, 60 cents; hardwood in lots of 50 M feet and upwards, $4 per M feet, under 50 M feet, $4.25; from Carleton Jct., 25 cents per M feet lumber and 5 cents per M pcs. lath higher than Ottawa rates; from Arnprior and Braeside, 50 cents and 10 cents higher; from Renfrew, Eganville and Pembroke, 75 cents and 15 cents higher. Lumber and lath not to exceed 3,000 lbs. per thousand feet pine, 4,000 lbs. per thousand feet hardwood lumber, or 600 lbs. per thousand pieces lath. Above rates include lighterage within regular lighterage limits in New York harbor, in lots of lumber 50 M feet and over, and lath 250 M pcs. and over; under that amount subject to extra towage. Seasoned pine shorts under 5 feet in length will be charged 50 cents per M feet over rates named on seasoned pine lumber.

To Cape Vincent, Clayton, Fulton and Oswego, N. Y.—from Ottawa, Hull and Carleton Jct., softwood $1.90 per M feet, lath 38 cents per M pcs., shingles 19 cents per M, hardwood 9½ cents per 100 lbs.; from East Templeton, Aylmer and Deschenes Mills, softwood $2, lath 40 cents, shingles 20 cents, hardwood 10 cents; from Arnprior, Buckingham and Braeside, softwood $2.05, lath 41 cents, shingles 20½ cents, hardwood 10½ cents; from Renfrew, Eganville and Pembroke, softwood $2.30, lath 46 cents, shingles 23 cents, hardwood 11½ cents.

To Charlotte, Rochester, Rome and Utica, N.Y.—from Ottawa, Hull, and Carleton Jct., softwood $2.20 per M feet, lath 44 cents per M pcs., shingles 22 cents per M, hardwood 10½ cents per 100 lbs; from East Templeton, Aylmer and Deschenes Mills, softwood $2.30, lath 46 cents, shingles 23 cents, hardwood 11 cents; from Buckingham, Arnprior and Braeside, softwood $2.35, lath 47 cents, shingles 23½ cents, hardwood 11½ cents. From Renfrew, Eganville and Pembroke, softwood $2.60 per M feet, lath 52 cents per M pieces, shingles 26 cents per M, hardwood 12½ cents per 100 lbs. To Sacketts Harbour and Syracuse, N.Y., rates on softwood, lath and shingles are same as to Charlotte, and rates on hardwood same as to Cape Vincent. Hardwood lumber rates will also apply on shipments of box shooks, bolts, chair stock (rough), clapboards, hoops, hoop and hop poles, lath, last blocks, posts and rails, shingles, staves and heading, wood pulp, pulpwood, timber and wood ashes.

Minimums: Softwood lumber carloads, 10,000 feet; lath carloads, 50,000 pieces; shingle carloads, 100,000 shingles; hardwood lumber carloads, 30,000 lbs.

Summer rates effective April 1st are: To Montreal and points taking same rates—from Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, softwood $1.00 per M feet, lath 20 cents per M pieces, hardwood or dimension timber 4 cents per 100 lbs.; to Quebec and Three Rivers—from Ottawa, Hull, Aylmer and Deschenes Mills, softwood $2 00, lath 40 cents, and hardwood and dimension timber 8 cents: from Carleton Jct., softwood 15 cents, lath 5 cents, and hardwood and dimension timber 1 cent higher than Ottawa rates; from Arnprior and Braeside, softwood 50 cents, lath 10 cents, and hardwood and dimension timber 2 cents higher; from Renfrew, Eganville and Pembroke, softwood 75 cents, lath 15 cents, and hardwood and dimension timber 3 cents higher. Dimension timber rates will apply on lumber over 3 inches thick and over 16 feet in length.

To Boston and points taking Boston rates for local delivery—from Aylmer, Deschenes Mills, Ottawa, Hull and points east thereof in Ottawa Valley 15 cents, Carleton Junction 16 cents, Arnprior, Braeside and Renfrew 17 cents, Pembroke and Eganville 18 cents per 100 lbs. To Boston, Mystic Wharf, East Boston, Mass, and Portland, Me., for export—from Ottawa, Hull and Buckingham 11 cents, Aylmer and Deschenes 12 cents, Arnprior and Braeside 13 cents per 100 lbs. Rates for export will ex Nov. 30th, 1899, unless sooner cancelled.

To Buffalo, Black Rock and Suspension Bridge, N. Y.—from Ottawa, Hull and Aylmer 12 cents, Carleton Junction 13 cents, Arnprior and Braeside 14 cents, Pembroke and Eganville 15 cents per 100 lbs.

To Detroit, Mich.—from Ottawa, Hull, Aylmer and Deschenes Mills 14 cents, Buckingham 15 cents per 100 lbs.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MAY 3, 1899 No. 15.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

EXPERT BAND FILER OPEN FOR ENGAGEment May 1st; best references. Box 26, CANADA LUMBERMAN.

AUCTION SALE OF Timber Berths

In the Townships of Davis and Grant, District of Nipissing.

The License for the undermentioned TIMBER LIMITS will be offered for sale by public auction on

Wednesday, June 14th, '99, at 3 p.m.

In the Rotunda of the Board of Trade Building, Toronto subject to the terms and conditions to be set forth at the time of sale. The vendors reserve the right to one bid:—

Lot 1.—Berth No. 3, Township of Davis, being lots 1 to 7, inclusive of concessions 4, 5 and 6. This berth has never been operated on, and is a virgin forest.

Lot 2 —Berths 1, 2, 3, 4, 5, Township of Grant. The timber on berths 1 and 2 has been partially damaged by fire and partly cut over.

For further particulars apply to Scott, Lees & Hobson, barristers, etc., Hamilton, or to Peter Ryan, Toronto.

INQUIRY FOR BOX SHOOKS.

Messrs. Baker & James, 164 Corporation street, Birmingham, England, advise us that they are open to negotiate for regular supplies of Canadian box shooks and similar goods cut from spruce and pine. They will be pleased to hear from manufacturers or exportees who can ship by regular steamers to English ports, and who are prepared to undertake deliveries the year round. Canadian manufacturers desirous of extending their trade in this direction should communicate with the above firm.

CURRENT TRADE CONDITIONS.

ONTARIO.

As the spring season advances, inquiries for lumber continue to increase, and unless present indications should prove misleading, there will be a heavy movement of pine lumber from the mills this year. Retail dealers are stocking up in a very satisfactory manner, and such manufacturers as have dry stock are busy filling orders. The mills are gradually resuming operations, some of them in western Ontario having been given contracts for sawing logs for Michigan firms. Some particulars of the log production last winter are given elsewhere. While it is probable that more lumber than usual will be manufactured in Ontario this season, there is little fear of an overproduction, owing to the fact that many of the mills in Michigan, the product of which has in the past come in competition with Ontario lumber, will this year be closed down, thanks to the manufacturing clause. Prices of pine lumber are strengthening. In the Georgian Bay district mill culls are worth from two to three dollars more than they were one year ago, and dry stocks are very light. Hardwoods have not undergone any material change. The local industries are buying quite heavily, and stock for export can only be secured by contracting in advance.

QUEBEC AND NEW BRUNSWICK.

Navigation on the St. Lawrence is now open, and vessels are loading with lumber at Montreal, Quebec and other river ports. Although it is yet too early to speak definitely, from present indications it appears that shipments of pine and spruce to Great Britain will be quite as large as last season.

In New Brunswick the season has been backward, the delay in getting logs having handicapped some of the mills. The market is improving, and manufacturers look forward to an average season. Owing to an improvement both in prices and demand, more than the usual quantity of deals cut at St. John mills by Americans will be marketed in the Eastern States, and a smaller quantity will come in competition with the Canadian product in Great Britain and other foreign markets. Shipments to the British market have already begun, chiefly by tramp steamers. During the winter over twenty million feet of deals and other lumber was shipped from St. John to European ports by the regular liners.

A fair trade is doing on local account, building operations being particularly active. At St. John the I. C. R. elevator and warehouses are in course of construction.

UNITED STATES.

Not for many years have the conditions existing in the lumber trade been so favorable to manufacturers. Prices in the Eastern States are steadily improving, and it is believed that the entire output of this season will be sold at prices as high as those now ruling. The mild weather has started building operations, which give promise of being on an extensive scale. The upper and lower grades of pine are particularly short in supply, common stock being more plentiful. No weakening has yet taken place in the price of mill culls, which are selling in Michigan at $9.

The scarcity of hardwood lumber will be relieved in a few weeks when the new cut becomes available. Then it is believed that certain grades which are now abnormally high, as, for instance, thick oak and ash, will decline in price. Generally, however, prices are not likely to be materially affected by the new cut, owing to the fact that a large portion of the season's production has already been contracted for at high prices. It is estimated that one-half of the output of the hardwood mills in Wisconsin has been sold in advance.

FOREIGN.

The consumption of deals in the British market continues large, and while the demand maintains its present proportions, prices are not likely to depreciate. Buyers who have delayed making purchases in the hope of being able to effect a better bargain are now entering the market, and as a result a considerable number of sales are reported. Prices of Canadian goods have not materially changed since our last report, but consignments of spruce deals per liners from St. John and Halifax are said to have been disposed of at slightly advanced prices. At Bristol and some other ports the stock of spruce in first hands is practically exhausted, and early shipments should meet with ready sale. Hardwoods are moving steadily at recent quotations.

The steamer Leuctra will load deals at Miramichi, N. B., for w.c. England. The steamer Wilderspool will load at West Bay, N. S., for same destination, at 38s.

At a meeting of the Tariff Committee of the General Railway Freight Agents' Association, held in Toronto last week, it was decided to increase the freight rate on lumber by one-half cent. per hundred pounds.

NEW BRUNSWICK CEDAR SHINGLES.

The shingle market continues to exhibit an improved tone, and prices are generally being maintained. Quotations are same as given last week, viz., extras $3, clears $2.50, and second clears $2, delivered at Boston. The mills will not be in operation for a few weeks yet, and there is no probability that the supply will exceed the demand. Many of the largest handlers of New Brunswick shingles are not only completely out of stock, but, as we have before stated, have sold largely in advance. Manufacturers appear to be wakening up to a better understanding of market conditions, and the shingle trade is likely to be more prosperous in future.

LOG PRODUCTION IN ONTARIO.

The extent of the production of pine logs in Ontario during the past winter is a question of general interest to lumbermen. From information obtained from different reliable sources, the CANADA LUMBERMAN believes that the output was slightly less than in the winter of 1897-98. This reduction, although slight, is due to two causes, one being the enactment of the manufacturing clause, and the other the deep snow in some districts, rendering logging operations extremely difficult. Some particulars are given below.

In the Ottawa Valley the production of pine logs during the past winter is expected to fall short of the output of the previous winter by about 10 per cent.

In the Pembroke district, extending as far north as the head of Lake Temiscamingue, the cut of logs was about one million pieces, containing approximately eighty-five million feet. There was also taken out in this district about five thousand pieces of square timber, of perhaps fifty feet average, about ten thousand cords of pulp wood, and a quantity of cedar and other timber.

An approximate estimate of the cut in the Peterboro' district places the amount at from seventy-five million to eighty million feet taken from licensed lands, and from thirty million to forty million feet from private lands. Only a few pieces of square timber were taken out in this district.

The output of saw logs and dimension timber in the Renfrew district was in the neighborhood of thirty-five million feet. There was also taken out a large number of railroad ties, perhaps two hundred thousand, and about two hundred and fifty pieces of square timber. The operators in this district are McLachlin Bros, J. R. Booth, Knight & Smith, Rathbun Co., Carswell & MacKay, Gillies Bros. Co., R. A. Campbell, Isaac Allen, W. A. Playfair, J. & J. Herron, Boyd, Caldwell & Co., The Rideau Lumber Co., W. A. Allen and Moyer & Ryan.

In the Parry Sound and Muskoka district, the cut of pine logs during the past winter was in the neighborhood of one hundred and sixty million feet. This would have been somewhat greater but for the exceedingly deep snow. It is reported that the Holland & Emery Lumber Co. took out about 20,000,000 feet; Hardy Lumber Co., 14,000,000; Turner & Fisher, 14,000,000; Wm. Peter, 15,000,000; Arthur Hill & Co., 20,000,000; Georgian Bay Lumber Co., 12,000,000; Ontario Lumber Co., 9,000,000; Huntsville Lumber Co., 6,000,000; Brennan Manufacturing Co., 6,000,000; Chew Bros., 5,000,000; J. B. Smith & Son, 6,000,000; Snider Lumber Co., 3,000,000; A. Macpherson & Co., 3,000,000; Dominion Bank, 3,000,000; W. W. Carter, 2,000,000; J. D. Shier, 3,000,000; Jupp & Co., 4,000,000; Parry Sound Lumber Co., 5,000,000; Carling Lumber Co., 1,500,000; and the Delta Lumber Co., 1,000,000 feet of old logs. There was also taken out in this district in the neighborhood of seventy-five thousand cubic feet of waney birch and about 5,000,000 of birch and other saw logs to be cut by the local hardwood mills.

In the eastern division of Algoma district the production of timber was about 31,000,000 feet of saw logs, 4,500 cords of pulp wood, 36,000 railway ties, and 73,000 pieces of cedar posts. Of the above 31,000,000 feet of pine saw logs, nearly 20,000,000 feet will be driven down the Spanish river. In addition to this amount, about 20,000,000 will go into the Spanish river from the Nipissing district, making in all 40,000,000 feet of saw logs to be sorted at the mouth of the Spanish river. The remainder of the saw logs taken out of the eastern division of Algoma will be on Collin's Inlet, Bay Fin, Macgregor Bay and White Fish waters. There will also be driven down the Spanish river about 3,500 cords of pulp wood.

The quantity of pine logs taken out in the western division of Algoma district was considerably less than last year, the cuts of the operators being about as follows: Eddy, Jordon & Co., on Blind river, 12,000,000 to 14,000,000 feet pine; Blind River Lumber Co., 2,500,000 feet pine, 400,000 feet hemlock, and 100,000 feet hardwood; Central Lumber Co., 2,000,000 feet pine; N. & A. E. Dyment, about 7,000,000 feet pine and 140,000 cubic feet board timber; Hector MacDonald, 750,000 feet pine; Gordon & Dobie, 300,000 feet hardwood; W. R. Smyth, 400,000 feet pine; W. J. Miller, 100,000 feet; Desbarats Mill, 400,000 feet; Sims Lumber Co., 400,000 feet; Ed. Walls, 100,000 feet. The quantity of hardwood and hemlock timber, railroad ties and pulp wood taken out was considerably greater than in the previous year, but the quantity of board timber shows a decrease. About 100,000 cords of pulp wood will be exported from the district.

The past winter was a particularly active season in the Rat Portage district, 25,000,000 feet of Canadian logs having been cut. There will also be manufactured at Rat Portage and Keewatin this season 30,000,000 feet of American logs. There were taken out in the Rat Portage district, 500,000 railway ties, 10,000 telegraph poles, about 500,000 cedar posts, and 20,000 cords of wood. No pulp wood is taken out in the division owing to the long haul by rail, but there is a good prospect of a pulp mill being erected at Rat Portage in the near future. An abundant quantity of timber is available, there being large tracts of land along the Rainy river covered with spruce, tamarack, poplar and birch, two-thirds of which is pulp wood.

STOCKS AND PRICES.

Spruce and pine lath are scarce in New York, and prices are very firm.

At Saginaw, Mich., log run is worth $14 to $22, box lumber $12 to $13, Norway $9.50 and upwards, and mill culls $9 to $10.

The city council of Winnipeg, Man., have accepted the tender of the Rat Portage Lumber Co. for the annual supply of lumber.

The British ship Undaunted sailed from Chemainus, B.C., for Melbourne, Australia, last week, with 1,350,000 feet of lumber.

A. H. Sawyer, of Calais, Maine, who has a saw mill at Hartford, N. B., has over 4,000,000 feet of logs to cut for the United States market.

Timber limits in the township of Butt, belonging to Barnet & Mackie, will be offered for sale at the Russell House in Ottawa on Thursday, June 1st.

Dickie & McGrath, of Tusket, N.S., have purchased a saw mill at Argyle Head, where they will saw 2,500,000 feet this season. The lumber will be shipped from Tusket.

Under the direction of H. Beach, 1,500,000 feet of square timber was last week loaded on barges at Ottawa for shipment to Montreal, whence it goes to England to be used in ship-building.

The Harbor Commissioners of Montreal are asking for tenders for the supply of timber and planks. The date limit is May 8th. The city is also inviting tenders for the annual supply of lumber.

The different mills at Coaticook, Que., have in stock over 4,000,000 feet of logs, divided as follows: A. H. Cummings & Son, 1,500,000 feet; A. L'Heureux & Co., 1,200,000 feet; Geo. Gilmour, 1,400,000 feet.

Eddy Bros., of Detroit, Mich, who own limits on the Mississaga river, Muskoka district, cut 15,000,000 feet of logs last winter. They are said to be undecided as to where they will have them manufactured.

N. J. Warner, representing a Detroit firm, has been buying large quantities of timber in Wisconsin for exporting to England. The timbers are 12 x 12 inches and 50 to 60 feet long. Mr. Warner has a contract to furnish 160 car-loads.

A manufacturer gives the following prices as representing current quotations on hardwood lumber at Boyne City, Mich., mills: Log run maple, $13; elm, $18; basswood, $15; beech, $12; birch, $18. Hemlock is worth $7 for short lengths and $8 for long, cedar shingles, 18 inch., $2.50, and 6 in. clear butts, $1.50.

The American Lumberman states that about 100,000 cubic feet of waney board pine, belonging to Alexander McCall, of Simcoe, Ont., has been dumped into the bay at Ashland, Wis. This stock will make about four cargoes. It is an exceptionally fine lot of waney board, and will be shipped to Great Britain to be used by ship-builders.

A Buffalo dealer reviews the lumber market as follows: "We have plenty of lumber on hand, and 6,000,000 feet of good stuff bought at Lake Superior mills, but we are short of both ends of the qualities. We have not in the yard unsold one foot of uppers, nor have we a mill cull or foot of box lumber of any thickness, nor a No. 3 barn board. Aside from these we are well supplied."

The British Columbia Shingle Manufacturers' Association have issued a price list on red cedar shingles delivered at Ontario railway points and Montreal, to dealers only. Prices are as follows: No. 1 shingles, 6 butts to 2 inches, $2.25; No. 2 shingles, 6 butts to 2 inches, (5 in. clear) $2.25; No. 1 shingles, 6 butts to $2\frac{3}{16}$ $2.70; No. 1 shingles, 5 butts to 2 inches, $2.95; plain dimension shingles, add per M, 50 cents; fancy butts, add per M, $1. The terms are ninety days from day of shipment nett, or two per cent. discount from invoice for acceptance of draft payable thirty days from time of shipment.

The Lumbermen's Association of Chicago have adopted a new price list, basing it upon $13 for short piece stuff and making material advances in the prices of all low grade stock over the prices quoted three months ago. In common stock boards, 8 and 10 inch, prices are advanced 50 cents a thousand on 12, 14, and 16 feet. Common and cull boards are advanced 50 cents a thousand, and a great scarcity is reported in all grades below No. 2. Shingles are selling in the Chicago market at about $2.25 for extra cedar and $2.40 to $2.50 for extra pine. Lath is placed at $2.30 for white pine and $2.15 for mixed.

Following is the official price list of spruce lumber adopted by the Spruce Manufacturers Association of Boston, Mass: Frames 9 inches and under, $16; 10 and 12 inch dimension, $17; 12 inch random lengths, 10 feet and up, $16.50; 10 inch random lengths, 10 feet and up, $16; 2 x 5, 2 x 6, 2 x 7 and 3 x 4, random lengths, 10 feet and up, $14; 2 x 3, and 2 x 4 random lengths, 10 feet and up, $13.50; all other random lengths, 9 inches and under, 10 feet and up, $15.50; yard orders cut on even feet to be same price as dimension; 1⅝ inch laths, $2.25; 1½ inch laths, $2.10; 6 inch and up merchantable boards, 8 feet and up, $13; out spruce boards, p. l. s., $11; bundled furring, random lengths, p. l. s., $12.50; bundled furring clipped to same length in each bundle, $13; planing one side, 50 cents; planing two sides, $1; planing three or four sides, $1.50; planing one side and grooved, $1; planing one or two sides and matched, $1; splines not less than $1 per M extra; extra spruce clapboards, 4 feet long, 6 inches wide, $30; clear spruce

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MAY 10, 1899 No. 16.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations or everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

WANTED—WILL EVERY

Lumberman getting out Hardwood Lumber please write us describing what you have and where, with rates to Buffalo. We can handle it from any section of the country. TAYLOR & CRATE, Buffalo, N.Y.

SHIPPING MATTERS.

The brig. T. Harry Stewart is loading lumber at Digby, N. S., for the Cuban market.

The barque Bessie Markham will load lumber at St. John, N. B., for Beunos Ayres at $9.50, if Rosaria $10.50. The ship Lennie Burrell will load at same port for Beunos Ayres.

The lumber rate from Lake Superior points has opened at $2 per thousand to Lake Erie ports and $2.25 to Chicago. These are the highest rates known in years, and nearly 50 per cent. higher than those in effect one year ago.

The Timber Trades Journal reports the following charters: Steamer, 1,000 tons, Baie Verte, N. B., to Mersey, 45s; steamer, 500 tons, Pugwash, N.S., to w. c. Great Britain or e.c. Ireland, 47s 6d; steamer, St. John to w. c. Great Britain, 37s 6d; Quebec to London, 1,300 standards, 42s 6d, May-June; St. John, N. B., to Limerick, 1,370 standards, 40s, May; Bay of Fundy to w. c. England, 1,125 standards, 40s, May; Miramichi to Manchester, 1,885 standards, 45s, June.

CURRENT TRADE CONDITIONS.

ONTARIO.

Most of the saw mills in Ontario have resumed operations, prepared for a steady season's work. Mills that remained idle for the last two or three years have been fitted up and put in motion, due to the prosperous condition of the lumber trade and of commerce generally. From every section of the province comes the report that lumber is selling freely, and at prices more satisfactory than have ruled for years. Not alone for the upper grades is the demand active, but the common grades of pine and hardwoods are going into consumption rapidly, and users are compelled to keep constantly replenishing their stocks. Within the past three months there has been an all round advance in lumber values, but the prices are not yet high enough to afford a reasonable margin of profit, when it is considered that the cost of labor and supplies to produce lumber has likewise increased. It is expected that considerable lumber cut in Georgian Bay mills will find a market in Michigan. Already some sales have been made in that quarter, and others are almost certain to follow.

For shingles and lath there is a steady call and prices remain firm. The production this year will likely be heavy, the very satisfactory prices now ruling having a tendency to stimulate manufacturing. With the prospects of a good building season, however, there is little fear of the market being overstocked.

MANITOBA AND BRITISH COLUMBIA.

Disagreeable weather in Manitoba and the Territories has somewhat retarded sales of lumber, although a fair movement is reported. Retail stocks are larger than they were one year ago, and until they have become reduced orders will not be placed. A strike of carpenters in Winnipeg has taken place, causing disturbance to an otherwise promising building season. It is hoped, however, to effect a settlement at an early date. The mills in British Columbia are working to their full capacity on local, eastern and export orders.

UNITED STATES.

There are no indications of weakness in the United States lumber market. Manufacturers have sold a considerable portion of their season's cut in advance, and yet the most encouraging feature is the prices which have been obtained. In New York, Philadelphia, Baltimore, and other Atlantic coast cities, stocks are short and prices advancing. At Tonawanda box lumber has advanced during the past fortnight about one dollar per thousand, and thick lumber has undergone a still further advance. When the new cut is ready for the market, it is anticipated that some grades will weaken slightly, but no general decline in prices is likely to take place. The box grades of white pine are so thoroughly cleaned up that present prices may be sustained throughout the season, but lower quotations will certainly be made on No. 3 and No. 4 stock, which are out of proportion to the other grades.

The hardwood market has been relieved to some extent by the arrival at Eastern States points of hardwood lumber from the south. The demand, however, is more than equal to the supply, and prices are not weakening. Indeed, the requirements for manufacturing purposes are such as will prevent any accumulation of dry stock this season, and oak, ash, elm and maple bid fair to hold their present position.

There is a constantly increasing demand for lath, and manufacturers are putting forth every effort looking to a large production. There is little fear, nevertheless, of a material depreciation in prices.

FOREIGN.

The consumption of wood goods in the British market continues to be of satisfactory volume, and as no serious labor troubles are anticipated, a prosperous season is looked for. Spruce prices are steadily strengthening. At London 3 x 9 third quality deals are selling at £7 15s. per standard, and 3 x 11 at £8. Several parcels of 3 x 10 are offering, but this size does not seem to be popular. A slight improvement is also reported in pine, and at a recent auction sale broad first quality 11 feet in length brought £22, 3 x 11 £20 15s. to £22, 3 x 9 second quality £12, third quality £7 10s. to £8, and fourth quality £6 15s. These prices show a slight advance. There is a like firmness in the hardwood trade, and prices, while not advancing, are being firmly maintained.

NEW BRUNSWICK CEDAR SHINGLES.

The shingle market continues very strong, and prices are firmly maintained, with a considerable tendency toward higher figures. Quotations are: Extras, $3 to $3.10; clears, $2.50 to $2.65; clear whites and 2nd clears, $2 to $2.15, on strictly Boston freights. There is not a shingle being offered to-day at less than $3 basis, and the larger manufacturers are holding at $3.10 to $3.15. They are not securing a large amount of business at these figures, but seem to feel that prices are sure to

come to them, and as they already have a considerable number of orders on hand for the opening of the season, do not care to accept further business, unless at advanced figures. There is not too great margin in $3.25 shingles, with a heavy freight and 30 cents duty to pay, and the indications strongly point toward a realization of this basis before the market settles down for the season. There is one thing that may be said with full assurance, and that is, that no manufacturer need be afraid to ask his price for fear of not securing enough business at going prices, and being compelled to take less during July and August. The summer market will be firmly maintained this year, and lower prices are not to be feared in the least degree.

STOCKS AND PRICES.

C. T. White, of Apple River, N.S., will cut about 3,500,000 feet of lumber this summer.

The Rat Portage Lumber Co. will, it is reported, cut 60,000,000 feet of lumber this season.

At Manistee, Mich., pine shingles are selling at $2 and Extra Star cedars at $1.85, on dock there.

The s.s. Greta is loading a cargo of deals at Montreal for the U.K., shipped by McLean, Kennedy & Co.

H. Cargill & Son, of Cargill, Ont., have over 5,000,000 feet of logs cut and ready to float down the river to their mill.

The Menominee River Lumber Co., of Marinette, Wis., has sold its cut, estimated at 20,000,000 feet, to A. S. Kibbee & Son, of Albany, N. Y.

E. G. Filer, of Manistee, Mich., recently sold to Tonawanda parties 6,000,000 feet of pine, to be shipped to Ashland, Wis., as soon as possible.

Shingles in all grades are very scarce in the Tonawanda market. The call for 18 inch XXXX pine shingles is phenomenal, and many orders are turned down every day on account of the shortage of stock.

At a recent auction sale of Allison, Cousland & Co., Greenock, Scotland, 43 logs of small waney boardwood, prime quality, sold at 1s. 5d., and a small quantity of 11-inch spruce deals, 12 to 17 feet long, at 9¾d. to 10¼d.

C. J. Willis & Co. have cleared the first steamer this season from Grindstone Island, Que., for a British port. She carried about 1,500,000 feet of lumber. This firm expect to ship about 50,000,000 feet from this section of country this year.

The drives of R. A. Estey are all out in the main Tobique river, in New Brunswick, and are making excellent progress. The drives of John Kilburn are also coming along well. It is expected that all the logs on the St. John river and tributaries will be got out safely this season.

The steamer Start is loading timber at the Sillery Cove, Quebec, on account of Dobell, Becket & Co. The Innishowen Head is loading deals at Indian Cove, Quebec, for the U. K. The Rydal Holme is loading deals at the Louise Basin, Quebec, for H. R. Gooday & Son. The Charemonto is completing her cargo with deals on account of H. R. Gooday & Son.

In the Chicago market basswood is selling at $22 for first and seconds, and $17 for common. Birch is in good demand, both white and red, the call being about equal for firsts and seconds and common. Cargoes of white pine have lately arrived in the Chicago market. One lot of piece stuff sold at $11.50 and a lot of inch mill run at $15.50. Mixed green lath is selling at $2.

High prices are being obtained in Maine for logs. Geo. I. Westcott & Son, Penobscot river lumbermen, have sold to Hastings & Stickland 750,000 feet of spruce logs at $12 per thousand, and 250,000 feet pine logs at $14. It is reported that Cornelius Murphy, of Oldtown, has completed the sale of 4,000,000 feet at $13 per thousand. These prices are from $3 to $4 higher than were paid last year.

The following rafts of timber have been entered at the office of the Supervisor of Cullers, Quebec: Mr. Charles Veillieux, St. Lawrence docks, birch, etc.; Mr. Geo. Madden, Louise embankment, birch; Mr. Gharles Veillieux, Ste. Anne de Beaupre, birch; Mr. Nicholas Flood, Louite embankment, birch, etc.; Mr. W. E. Simpson, Simpson's wharf, birch, etc.; the St. Anthony Lumber Company, Cap Rouge, pine; Mr. T. Bouchard, Louise embankment, birch.

Commenting on a recent auction sale held in London, England, the Timber Trades Journal says: "The Quebec goods, especially the lots representing the balance of Sharples & Co.'s consignments, realized approximately good results, and the regulars were apparently favorably treated. The heavy lines of colonial goods put on the market does not help prices, and very likely some dullness in regular pine goods will prevail while the auction lots are being taken out of stock. The London demand, however, is a very elastic one, and the absorption of all these superfluities will not take very long. Spruce stocks are not more than moderate, and prices may harden considerably before any serious additions are made to the present supply. There is evidently a much better feeling pervading the whitewood market now than a couple of months ago."

The West Hartlepool correspondent of the Timber News, Liverpool, Eng., says: "The shipments of spruce to West Hartlepool and the Tyne show very conclusively that good quality spruce can be got, but that an inferior quality is very prevalent. One thing is certain, that if spruce of long average and good quality be shipped, and more care taken to ensure regularity of manufacture, then the fight between America and Sweden for the whitewood trade will be very close. The inferior quality and manufacture of spruce shipped last year, in some cases, has prejudiced buyers unduly, particularly where the goods are required to be planed; still these are defects that doubtless can and will be remedied in the near future. The Swedish shippers, for their part, will no doubt consider the question of price, to meet the American competition, and so keep the hold on the east coast which they have had so long."

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is a continuation of the good feeling in all branches of the lumber trade, unless it be the sash and blind industry, which is still too much overdone to make any money. Hardwood is still taking the lead, though the pine dealers are very sanguine. "Business is moving along very nicely," is the word from all sources. There is so little complaint that it may be said that a new atmosphere has pervaded the entire business.

There is possibly one feature that is not so entirely satisfactory, and that is the sharp advance in the price of certain woods and cuts that are necessary to construction work. Hemlock is so high that some of the dealers are looking for a decline or a substitution of some cheap wood, like Norway, in its place unless it comes down. The Lehigh Valley Railroad Company has plans for a freight warehouse that will take about a million feet of lumber, but rather than pay the price for hemlock there is an effort to build it of white pine entirely.

A dealer who is well acquainted with the Canadian trade expresses a fear that the extra production of shingles will bring down the price unless building springs up very fast. The demand is good for them, but the advance in price has set the mills to turning them out much more rapidly than formerly. For a long time the price was low, with a good demand, so that the production was kept down. It is different now, and there is fear of overdoing it, especially as the tariff does not shut out Canadian shingles.

Of course, there is grim smiling over the squirming that certain lumbermen are doing on account of the failure to remove the lumber tariff. Even those who saw the mistake before it was made, and fought against it, are quite willing to smile over the predicament that the Michigan lumbermen are finding themselves in. There is no hope of relief now, much as it is needed.

I learn from the Sullivans that they have about withdrawn from Canada, as they are not able to find the hardwood lumber they handle, especially elm and ash, in sufficient quantity. Even the dealers in maple are reporting sales of that wood back to Canada at better prices, sometimes, than they could obtain for it here. This may have been a mere special deal, but it shows that Canadian hardwood is not holding out any better than our own, to say the least.

The Black Rock yard of the Holland & Emery Company is now about bare of lumber, though the Byng Inlet mills of the company will be started up this month. Most of the cut will be sold in Canada, though it is the intention to use the yard here for considerable handling, and duty will be paid on quite a large amount. There is at least something in that trade now, and the outlook is for more before there is less.

Everybody is looking for a large demand for lumber soon on account of the Pan-American Exposition, though at present the hesitation over the selection of a site is holding operations back. There is no lack of enthusiasm over the project, but some very perplexing questions have arisen. The desirability of a waterside site and the difficulty of adapting the only available one to the requirements is still puzzling the managers. It will probably all be settled within a week, however.

Buffalo has gone ahead very much since the establishment of the steel plant was announced. In fact, it is quite a different city already, and if other projects of an industrial nature, now in the air, go through, there will be a new city here at once. One of these is the bridge across Grand Island and the Niagara to connect the New York Central and the Canadian Pacific, which is now regarded as a certainty.

The Buffalo Lumber Exchange took action last week, confirming the rule not to allow more than 1½ per cent. discount on cash orders or accept notes of more than 60 days. This rule was made during the winter, but the Saginaw trade asked that it be reduced to signature, so this was done. It is the intention to cover the eastern pine trade in the same way. There is really no complaint of cutting prices by this method, but it was quite common during the dull times.

The Buffalo lumbermen have arranged to hold a number of outings this summer, and at the last meeting of the Exchange, F. W. Vetter and A. P. Strong were made the committee of arrangemenrs.

The lake trade is opening up so very late that only about two cargoes of lumber arrived in April. The Loud Company was first in, but most of the first cargoes, the Wyoming and Ketcham, went to Tonawanda. There is much complaint that the goverment is neglecting the trade, much to its disadvantage, by not putting down the buoys in Niagara river. So far not a stick has been displayed, and the boats are afraid to make the trip to Black Rock and Tonawanda.

Dealers are complaining of the $2 lumber rate, but it is as little as the barges can live on, and ought to be held. The canal rate has opened at $1.75 to New York, and there is considerable business.

There is not so much pine lumber in the upper lake yards for shipment by lake as there would have been if the price had been lower, for it has been taken out all-rail to a great extent. Yards here are not in as much need of pine this spring as was feared, for the grades are quite generally all in yet. The great demand is for box lumber of all sorts, as the box trade has been brisk for some time and promises to remain so this season.

The Hoo-Hoo contatenation came late this winter, but tt is over and all is well. Both Chicago and Boston was in it this time. J. B. Wall is again the ruling Snark. The intention announced early in the winter to hold a concatenation in Toronto appears to have been given up.

BUFFALO, May 9th, 1899. J. C.

DEMAND FOR BROOM HANDLES.

The United States consul at Birmingham, England, recently stated that there was a large demand in that town for American broomsticks, which appeared to be very scarce, partly owing to the fact that the broom handle wanted must be 42 inches long, 1⅛ inches in diameter and the same size at both ends, whereas the American handle is 38 inches long and ⅞-inch in diameter at one end, tapering to ¾-inch at the other. He also says that the English insist upon having spruce handles, and expect to pay from $15 to $18 a thousand, whereas the lumber from which these are cut is worth from $23 to $24 a thousand feet in the boards. The handles used in this country are mostly basswood or birch, but so far the attempt to introduce these into England has not met with success.—American Lumberman.

The failure is announced of E. H. Barton & Son, timber merchants, London, Eng. No Canadian firms are believed to be interested.

CANADIAN TIMBER IN THE BRITISH MARKET.

The following prices were realized for Canadian goods at a sale by Churchill & Sim, London, Eng., held on April 29th :

PINE.—Ex Fernmoor, from Quebec—12-14 ft. 2 x 6 in. third quality, £7 ; 2 x 5, £7 5s. Ex Enna, from Montreal—6-8 ft. 3 x 8 first quality, £12 10s and £12 15s ; 6-8 ft. 3 x 7, £12 15s. Ex Monarch, from Quebec—11 ft. 3 x 12-25 first quality, £22 ; 10 ft. 3 x 12-24, £21 to £21 15s ; 11 ft. 3 x 11, £21 5s and £22 ; 10 ft. 3 x 11, £21. Ex Cervona, from Quebec—11 ft. 3 x 11 first quality, £20 15s ; 10 ft. 3 x 11, £20 5d. Ex Bjorgvin, from Quebec—15 ft. 3 x 10 third quality, £7 15s ; 13 ft. 3 x 9, £7 15s ; 13 ft. 3 x 8 and 3 x 7, £7 ; 10-11 ft. 3 x 10, £7 10s ; 10-11 ft. 3 x 9, £7 15s ; 10-11 ft. 3 x 8, £6 15s ; 10-11 ft. 3 x 7, £6 15s ; 13 ft. 3 x 9-10, £7 15s ; 13 ft. 3 x 8, £7 ; 13 ft. 3 x 7, £6 15s. Ex Montevidean, from Quebec—13 ft. 3 x 10 fourth quality, £6 15s ; 13 ft. 3 x 8, £6 and £6 10s ; 13 ft. 3 x 7, £6 5s ; 12-13 ft. 3 x 7-10, £6 5s ; 10-11 ft. 3 x 9-10, £6 10s ; 10-11 ft. 3 x 7-9, £6 10s. Ex Assyrian, from Quebec—12 ft. 3 x 10 second quality, £11 15s ; 12 ft. 3 x 9, £11 15s and £12 ; 12 ft. 3 x 8, £12 ; 12 ft. 3 x 7, £10 15s. Ex Progressist, from Quebec—10 ft. 3 x 12-22 second quality, £13 10s ; 16 ft. 3 x 9 third quality, £8. Ex Cameo, from Montreal—9 ft. 3 x 11 first quality, £20 ; 6-8 ft. 3 x 11, £18 5s ; 6-9 ft. 3 x 11, £10 15s. Ex Nordcap, from Quebec—12-18 ft. 4 x 11 first quality, £16 ; 4 x 9. £15 15s ; 2 x 8, £11 10s ; 12-18 ft. 4 x 9 second quality, £12 10s ; 10-18 ft. 2 x 10, £10 5s.

SPRUCE.—Ex Belgian King, from Quebec—13 ft. 3 x 9 first quality, £8 and £7 15 ; 11-13 ft. 3 x 8-9 fourth quality, £5 15s. Ex Eveline, from Batiscan, Que.—13 ft. 3 x 8 third quality, £6 15s ; 14 ft. 3 x 10, £7 5s ; 12 ft. 3 x 10, £7. Ex Monarch, from Quebec—13 ft. 3 x 9 second quality, £7 15s. Ex Nordcap, from Quebec—13-16 ft. 3 x 11 3rd quality, £7 15s ; 12-13 ft. 3 x 11, £8 ; 12-16 ft. 3 x 12-16, £6 ; 12-15 ft. 3 x 10, £7.

SPRUCE PALINGS.—Ex Annie M. Smith, from Miramichi, N.B.—4½ ft. x ¾ x 3", 6s 6d per 100 pieces ; 360 bundles 4 ft. x 3 x 3", 6s 3d.

OAK TIMBER.—Ex Partehena, from Quebec—439 cubic feet at 97s 6d per load ; 477 cubic feet, 97s 6d ; 659 cubic feet, 95s.

PINE TIMBER.—27-34 ft. 12-14 inch, 53s ; 20-24 ft. 12-13 inch, 51s.

ELM TIMBER.—Ex Vola, from Quebec—30-51 ft. x 12-16 inch, 65s ; 46-51 ft. x 11-13 inch, 75s ; 38-47 ft. x 11-14 inch, 70s.

THE BARBADOS MARKET.

From the report of S. P. Musson, Son & Co. the following particulars of the Barbados lumber market are extracted :

The Mecedese arrived from Belliveau Cove, N.S., with 162 M feet spruce. This was sold at $15 for shipping boards, $11 for second quality, and $12 for plank. There seems to be but little demand for spruce, the course of the market of late being disappointing. In white pine there have been no receipts, and the position is stronger. One or two small cargoes would bring about $20 for good shipping, with customary difference for second quality. In shingles there is a fair enquiry for the cheaper grades of cedar laying, which would sell at $2 or thereabouts. The Duart Castle brought some 300 M long Gaspe cedar, which were placed at $5.35, and a small lot of 6, 5, 4 and 3 inch sold at $6.55, $5.55. $4.55 and $3.55 respectively. While these shingles have been readily taken by some of the dealers, others are holding aloof, anticipating somewhat lower figures in the future ; at the same time, much will depend on the extent of shipments.

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MAY 17, 1899 No. 17.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

WANTED—WILL EVERY

Lumberman getting out Hardwood Lumber please write us describing what you have and where, with rates to Buffalo. We can handle it from any section of the country. TAYLOR & CRATE, Buffalo, N.Y.

WANTED.

FLOOR MANAGER FOR SASH AND DOOR Factory; also for Box Factory. Must be first class, practical men. Apply, stating age, experience and salary required. Send references. GILMOUR & Co., Trenton, Canada.

WANTED.

PRICE ON MAPLE, BEECH, BIRCH, ASH and Elm, 5/8, 1 and 2 inches. Also Basswood 5/8 and 1 inch, and pine 1 inch, all log run. Also on Spruce 1 inch, suitable for manufacturing boxes. Quote also on pine squares 9 x 2 x 7, 29 x 2¼ x 2¼, 29 x 2¾ x 2¾, 29 x 3¼ x 3¼. Quotations on cars at mill. Address, B. SOUTO & Co., 161 Front Street, New York.

CURRENT TRADE CONDITIONS.

ONTARIO.

The reports from the mills throughout Ontario state that trade is unusually brisk, every grade and almost every variety of pine and hardwood being in demand. One manufacturer writes that he has not experienced as good a demand for thirteen years, and that prices are more satisfactory than for a long time. This is the universal opinion of lumbermen generally. Many of the mills have shipped out their entire holdings of dry stock, and are crowded with orders for this season's production. Some manufacturers believe that prices of some grades of pine will still further advance in the near future, but on this point the trade are by no means unanimous. Manufacturers of hardwoods are holding firmly to prices, and many of them have disposed of the bulk of this season's cut at high figures. Shingles are in active demand and are being shipped as fast as manufactured.

QUEBEC AND NEW BRUNSWICK.

The lumbermen of the eastern provinces are hopeful of a more prosperous season than last year. Prices of square and waney timber are quite as good, and indications point to an advance in the near future, particularly in the price of first-class waney pine. Spruce deal prices are also strengthening. About $10 is the average quotation for deals delivered at St. John, N.B., and some large sales have been made at this figure. That this price is yet too low is borne out by the fact that $8 per thousand is being paid by the manufacturers for logs, leaving only $2 per thousand to cover the cost of manufacture and marketing. The drives are coming along well, and few logs are likely to be hung up.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade in Manitoba and the Territories is not opening up as briskly as was anticipated. Country business has been interfered with by wet weather and bad roads, and in Winnipeg a strike of carpenters has caused delay in building operations. Unless an early settlement of the trouble is effected, it may lead to the postponement of some contemplated building until next season. Notwithstanding these obstables, lumber dealers and manufacturers generally look for a large consumption of lumber this year. In British Columbia all the mills are working to their full capacity, and the outlook is quite encouraging. A building boom at Vancouver and New Westminster is creating an unusually heavy demand for building material, and consequently prices are stiffening.

UNITED STATES.

Much speculation is indulged in as to the course which prices will take. It might be expected, at this season of the year when the mills are resuming operations, that a weakening tendency would be observable. This has not been the case as yet with respect to white pine, although it is believed that there will be a slight decline in prices of the lower grades in the near future. In hardwoods, oak and ash are likely to remain at present quotations for some time, but basswood, elm and maple are already easier, although there is no quotable change in prices. These woods are being placed on the market more freely, but still the supply is not equal to the demand. A specially favorable feature is the fact that not for many years has the future output been so generally contracted for.

At Tonawanda thick pine uppers, selects and fine common are constantly enquired for, and prices on this class of stock are said to have advanced $2 per thousand within the past week. Shingles and lath are in good demand in all the eastern markets. The latter are selling at $2.25 for white pine.

FOREIGN.

The tone of the British lumber market is decidedly firmer. Sales of pine deals have been effected in London at prices which reveal a healthier state of demand than was expected. First quality deals, particularly of broad dimensions, have realized good prices, while the market has also absorbed large quantities of undersized third and fourth quality pine without any further weakening. For second and third quality, average size, the demand is not so active, but fourth quality are selling freely, 11 inch and up being quoted at £6 17s 6d to £7 4s 4d. Red pine deals maintain their strong position, and in the absence of an adequate supply, prices show a tendency to advance. There is a noticeable improvement in the spruce trade, and a large coast and continental business is being effected at better prices than could have been obtained in the earlier months of the year. Birch timber and planks are enquired for, but elm, ash and oak continue somewhat dull. The stock of waney pine is low and prices steady. First class square pine meets with ready sale, the present stock consisting principally of small and inferior wood. Detailed particulars of the Glasgow and Liverpool markets will be found elsewhere.

A number of vesssels have been chartered to carry lumber from St. John, N. B., and other eastern ports to France, and it would appear that this market will consume a considerable quantity of the Canadian product. The South American demand is also expanding, calling for special bills and dimensions.

NEW BRUNSWICK CEDAR SHINGLES.

The market continues very strong, prices ruling at Boston points being the same as quoted last week, viz: Extras, $3 to $3.10; clears, $2.50 to $2.65; clear whites and 2nd clears, $2 to $2.15. The higher figures are being readily obtained for reasonably prompt shipment, orders at these figures being much more plentiful than a week since, showing a hardening tendency in the market. Stocks in retail hands are very low, and consumption is large. Very few manufacturers are running their mills as yet, and are all well provided with orders, so that it is safe to assume that prices will be at least no lower, and that a still further advance may shortly take effect. It is believed that the orders now in the hands of the manufacturers would, if equally divided amongst all, keep every mill in the business hard at work till after July 1st. This being the case, there ought to be no question as to prices being firmly maintained throughout the summer.

CANADIAN LUMBER WANTED.

By reference to our advertising pages it will be observed that Messrs. C. H. Glover & Co., box and packing case manufacturers, of London, Eng., are desirous of importing Canadian spruce, pine, box shooks, etc., direct from the manufacturers. Those wishing to extend their trade in this direction should correspond with the above named firm.

STOCKS AND PRICES.

The tender of Patrick Burns has been accepted for the supply of cedar and plank to the city of Ottawa, Ont.

The drive of the Wm. Richards Co. has arrived at the mill at Boiestown, N. B. About 3,000,000 feet will be sawn.

Booth & Shannon, of Ottawa, are taking large quantities of square timber down the Ottawa river for shipment to Great Britain.

The bark Ashlow cleared last week from St. John, N.B., for Buenos Ayres, with 510,749 feet of dry lumber, shipped by A. Cushing & Co.

The steamship Bovaria sailed from St. John, N.B., for Liverpool, last week, with 2,036 standards of deals and timber, valued at $41,000.

The shingle mill of the Parry Sound Lumber Co. at Parry Sound is about to resume operations. The daily output will be about 150,000 shingles.

Lumber shipments from Ludington, Mich., for the opening three weeks of navigation have been greater than for the same period in ten years past.

At Saginaw, Mich., Canada log run is held at $14 to $17, and Michigan log run at $17 to $24. Box lumber is stiff at $12 to $13, and Norway at $9 50 to $12.

The Holland & Emery Lumber Company have started their two saw mills and a shingle mill at Byng Inlet, Ont., having a stock of 40,000,000 feet of logs to work on.

The following figures show the stock of timber, deals, etc., in the public docks at London, Eng., on 30th April for three years, and for the purpose of comparison, are interesting :

	1899.	1898.	1897.
FOREIGN Deals, in pieces	979,000	1,156,000	895,000
Battens, in pieces	2,424,000	1,650,000	1,040,000
Boards, in pieces	8,543,000	8,340,000	7,705 000
Wainscot Logs, in pieces	767	586	783
Oak Timber, in loads	1,531	1,266	1,553
Fir Timber, in loads	1,718	2,344	929
COLONIAL Pine Deals and Battens, in pieces	1,049,000	1,007,000	844,000
Spruce Deals and Battens, in pieces	726,000	1,019,000	433,000
Oak Timber, in loads	2,378	1,711	1,070
Birch Timber and Planks, in loads	1,798	5,006	4,415
Elm and Ash Timber, in loads	617	681	243
White Pine Timber, in loads	944	1,189	753
Red Pine, in loads	130	65	.....
UNITED STATES Pitch Pine Timber in loads	9,415	14,391	3,147
Pitch Pine Deals, in pieces	57,000	112,000	80,000
EAST INDIA Teak, in loads	10,016	14,832	7,308

It is said that over 75 per cent. of the 300,000,000 feet of lumber that will be manufactured this year by the twenty one mills on the Nenominee river, in Wisconsin, has already been sold.

Of the eighteen sawmills at the lower end of the Saginaw river, in Michigan, eleven are in operation. The others depend upon Canadian logs, and will probably remain idle this season.

Cooperage stock has recently undergone a considerable advance, as will be observed by reference to the pricelist elsewhere. Jointed elm staves and coiled elm hoops have advanced about 50 cents.

Pelton & Reid, of Cheboygan, Mich., cut a quantity of logs on Indian reserve lands in the Georgian Bay district last winter. These are now being driven down the bay, and will be rafted to the mill.

The Fredericton Herald states that logs are in good demand at Springhill. A number of rafts have been disposed of at prices ranging from $7.50 to $8.10 per thousand for spruce, against $6.50 one year ago. Hemlock logs are worth from $3.50 to $4 per M.

Attention is directed to the changes in the New York and Albany prices as given on page 3. Black ash in New York is now quoted at $35, soft elm at $25, hard maple at $24, basswood at $25, and birch at $24. At Albany 4/4 box boards, 6 inch and up, are quoted at $13 to $14, and spruce lath at $2.

The city of Vancouver, B.C., recently invited tenders for the annual supply of lumber. The tenderers were the Royal City Planing Mills Co., Tytler, Robertson & Hackett, and W. L. Tait, and the prices named in each tender were the same. The contract has been awarded to Robertson & Hackett.

Up to May 1st there arrived at London, Eng., from the St. Lawrence, 11,000 pieces of pine deals and 73,000 of spruce deals, against 6,000 and 10,000 pieces respectively in 1898. From New Brunswick there arrived 9,000 pieces of spruce deals and 39,000 pieces of birch plank this year, against 145,000 and 32,000 pieces respectively in 1898.

Since the 1st of January the lumber exports from St. John, N.B., to United States ports have been as follows : Lumber, 32,000,000 feet ; laths, 37,000,000 pieces ; shingles, 13,000,000 ; piling, 2,271,000 pieces. Vessels other than winter port steamers have since the first of the year taken to British ports over 18,000,000 sup. feet of deals, etc., and there have also been shipments to South America, West Indies and Canary Islands.

Douglas L. White & Co., wholesale lumber dealers, Albany, N.Y., write that stocks at that point are badly broken, and as yet very little lumber has been received from the west. In the course of two or three weeks lumber will be coming in freely, and the assortment will be much better. Common lumber has advanced from $1 to $3, and good lumber nearly the same amount over last year's prices. 4/4 and 5/4 box is about cleaned out of the market.

The American Lumberman says : "New Brunswick white cedar 16-inch shingles are in active demand in New England, and command 25 cents per thousand more than the Michigan and Wisconsin product. It is not claimed that New Brunswick cedar is of quality superior to the western growth, but the habit of long use has popularized the product to the extent that it is hard to replace it in that section. Producers of western cedar shingles of really first class manufacture can do some successful missionary work in the east at the present time.

From the last report of Clairmonte, Man & Co. the following particulars of the Barbadoes lumber market are obtained : There have been no recent arrivals of white pine, and a better demand is reported, quotations being $20 to $21. Spruce is in moderate demand. Last sale was made at $15.27 for first quality and $11.07 for second quality. There is only a limited demand for shingles, and should they arrive in any large quantity, a break in prices is looked for. Sales of long Gaspe cedar have been made at $5.35, Halifax cedar at $3.16, cedar laying at $2.07, and spruce laying at $2.27½.

Tenders were recently invited by the Harbor Commissioners of Montreal for the supply of timber and planks. The following are the lowest tenders received : The whole of the contract, the W. H. Kelly Lumber Co., $26,690 ; all the timber, without the planks, H. Dupre, $24,923.60 ; all the planks, without the timber, Robert Acker and the W. H. Kelly Lumber Co., equal, $1,685. For each kind of timber separately—round hemlock, H. Dupre, Robert Acker and the W. H. Kelly Lumber Co., equal, $11,325 ; hemlock, faced, the W. H. Kelly Lumber Co., $7,150 ; round pine, Shearer & Brown Co., $1,568 ; flat pine, H. Dupre, $452.20 ; pine, faced, H. Dupre, $3 780 ; pine planks, Robert Acker, W. H. Kelly Lumber Company and the Shearer & Brown Co., equal, $12 ; spruce planks, H. Dupre, $157.50 ; hemlock planks, Robert Acker and the W. H. Kelly Lumber Co., at $8. The contract has not yet been awarded.

LIVERPOOL MARKET REPORT.

Duncan, Ewing & Co., of Liverpool, Eng., in their last monthly circular, say :

WHITE PINE TIMBER.—The consumption during April amounted to only 18,000 feet of waney and 1,000 feet of square pine. The market for square wood is very dull and prices low, but values of waney pine are steady.

RED PINE.—3,000 feet have gone into consumption during the month, and the stock on hand is now only 5,000 feet. Prices are steady, but the demand is not brisk.

OAK LOGS.—The deliveries during the month have been on a moderate scale and the stock is excessive for this time of the year.

ELM.—Two parcels have been imported during the month and have found a ready market at satisfactory prices. The stock on hand is light and the demand good ; values have an upward tendency.

BIRCH.—The import for April amounted to 44,000 feet, and the deliveries to 56,000 ; the demand has been very satisfactory and prices are steady, St. John wood realizing from 16¼d to 17¾d for 14¼ to 15½ inches average ; Halifax wood, 15¾ to 16 inches, at about 15d to 15¾d per foot. Of birch planks the import has exceeded the delivery, and stocks are very heavy, values running low.

PINE DEALS, SIDINGS, ETC.—Stocks are still excessive, and the market continues in an unsatisfactory condition, sales being very difficult to make for forward delivery.

N.B. AND N.S. SPRUCE DEALS.—The import during April amounted to 3,024 standards and the deliveries to 3,785 standards. The stock on hand is small and there is a scarcity of the favorite sizes and long lengths. Values are steady, St. John cargoes being worth about £4 7s 6d c.i.f., and lower port cargoes about £6 5s ex quay.

QUEBEC SPRUCE DEALS.—The deliveries during the month amounted to 318 standards, the stock on hand being now only 573 standards. The demand continues good, but prices are lower in sympathy with the reduced rate of freight from the St. Lawrence to Liverpool.

Current quotations for Canadian goods are as follows :

	s. d.	s. d.
TIMBER—White pine, Quebec, per cu ft	1 3	to 2 4
Waney board Quebec, per cu. ft	2 0	to 2 10

SHIPPING MATTERS.

The bark Antigua has been chartered to load lumber at Bridgewater, N. S., for Buenos Ayres, at $10.50, or Rosaria at $11.50.

The steamers Treasury and Samantha will load deals at Miamichi, N.B., for Liverpool and Manchester, at 45s. The steamer Hillscraig is chartered at 43s 9d for same ports.

The ship Vanloo will load a cargo of deals at Bathurst, N. B., for Marseilles at 55 francs. The bark Monte Moro will load at Halifax, N. S., for Marseilles or Cette, at 55 francs.

The Grand Trunk Railway Company and the Canadian Pacific Railway Company will put into effect on June 1st a new tariff on lumber, by which the rate will be increased ½ cent. per 100 lbs.

The following vessels have been chartered to load lumber at St. John, N. B. : bark Guiseppina, for Las Palmas, Canary Islands, at 60 francs ; bark Ginila R., for Marseilles, 56 francs ; bark Vesuveio, for Marseilles, 60 francs ; ship Macdon, for Beunos Ayres, $9.75.

LUMBERMEN'S INSPECTION BOOK.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

The planing mill and sash and door factory of A. Tessier, at Penetanguishene, Ont., was partially destroyed by fire last week.

MARKET CONDITIONS AT GLASGOW.

The following particulars of the Glasgow market are found in Edmiston & Mitchell's monthy timber circular dated 30th April :

WANEY BOARDWOOD.— First Class.—We hear of a sale of prime deckwood amounting to about 200 logs, but price and size of timber have not yet transpired. Some further sales are also reported in joiner timber, and 17d was obtained for a parcel of, say, 23 ft. x 12 in., and 19d was bid for short 18 inch wood. Second Class.—There is rather more enquiry for good 2nd class wood, but for inferior timber the only bid obtainable at auction for 50 c. ft. average was 15d.

RED PINE.—We have nothing new to report; and we hear of no sales. The stock is entirely composed of small and inferior wood. Prices are 14½d to 15½d for 35 ft. average.

OAK.—Our railway companies continue to be fully supplied, and will require nothing until fresh arrivals. Some of the English buyers have been north picking up some special sizes.

ELM.—The stock of 1st class wood is now exhausted, and buyers have to fall back on small and inferior quality, of which the market has an abundant supply.

BIRCH.—Quebec.—The stock of logs in first hands is practically exhausted, and early arrivals should meet with eager buyers. Lower Port.—A small shipment of about 40 standards birch planks have arrived during the month from St. John, and were sold ex quay at about £7 per standard, it is reported. Several retail sales of Pictou birch logs have been made from stock at about 15d for 16 inch average.

ASH.—The demand is very languid except for really first-class white ash about 16 inch average, of which there is none in stock. The value of 14½ inch is about 1s 7d.

DEALS, ETC.—Business during the month has been quiet, but deliveries from the public yards have been fully up to the average. Prices are unchanged. Broad first quality pine deals, £22 to £25 10s.; 11 inch, £20 to £22. Ends and narrows, £15 to £18. Strips, £12 to £14. Second quality pine deals.—11 inch and broads, £16 to £18. Non-dimensions, £9 to £13. Scantlings, £8 5s to £9. Third quality pine deals.—11 inch and broads, £9 5s, to £11. Narrows, £7 to £8. Strips and ends, £6 2s to £7. Fourth quality pine deals.—11 inch and broads, £6 15s to £7 5s. Narrows, £6 to £6 10s.

First quality pine sidings and boards, £12 to £18 10s., according to specification.

Spruce Deals.—7 inch, £5 15s to £6 2s 6d.; 8 inch, £6 7s 6d to £6 17s 6d.; 9 inch and up, £7 2s 6d to £7 10s.

Joshua Wheeler's saw mill at Freelton, Ont., was destroyed by fire recently.

M. A. Smirl's sash and door factory at South Finch, Ont., was burned on the 12th inst. The loss is $1,500, there being no insurance.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MAY 24, 1899 No. 18.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

Washington Timber Land For Sale.

I HAVE A NUMBER OF TRACTS OF TIMBER Land in the State of Washington for sale; from 1,000 to 40,000 acres in each tract; heavily timbered with Cedar, Fir and Spruce. CHARLES RICHARDSON, Tacoma, Washington.

WANTED.

FLOOR MANAGER FOR SASH AND DOOR Factory; also for Box Factory. Must be first class, practical men. Apply, stating age, experience and salary required. Send references. GILMOUR & Co., Trenton, Canada.

WANTED.

PRICE ON MAPLE, BEECH, BIRCH, ASH and Elm, 5/8, 1 and 2 inches. Also Basswood 5/8 and 1 inch, and pine 1 inch, all log run. Also on Spruce 1 inch, suitable for manufacturing boxes. Quote also on pine squares 9 x 2 x 2, 29 x 2¼ x 2¼, 29 x 2¾ x 2¾, 29 x 3¼ x 3¼. Quotations on cars at mill. Address, B. SOUTO & Co., 161 Front Street, New York.

BASSWOOD AND PINE LUMBER WANTED

Tenders, addressed to the undersigned and marked "Tenders," will be received until 2 p.m., SATURDAY, JUNE 17TH, for:

30 M. ft. 2½ in., 30 M. ft. 2 in., 60 M. ft. 1¾ in. and 30 M. ft. 1 in. Basswood Lumber, width 3 in. and over, length 4 ft. and over, 85% or more snow white, all sound. Last winter's cut for delivery next fall, also to contract to cut same quantity next winter for delivery the following summer.

50 M. ft. 1 in. Pine, good dressing, two-thirds 10 in. wide, balance 5 in. wide, any length.

50 M. ft. 1 in. Mill Run, cut soon for delivery next fall.

Any or all of the above sizes and kinds may be tendered for and in any quantity.

No tender necessarily accepted.

GOOLD, SHAPLEY & MUIR CO., Limited,
Brantford, Ont.

NEW BRUNSWICK CEDAR SHINGLES.

The cedar shingle market is firm at last quotations, viz., extras $3.10; clears $2.60 to $2.65; 2nd clears and clear whites $2.15. Only very few of the mills are running as yet, and these are full of orders. Stocks in sight on dealers' yards are very light, and the demand for actual consumption is certainly more than normal. There are, therefore, absolutely no signs of any weakening in prices, and all manufacturers can have full confidence as to their ability to get their price, and should not allow their representatives to name lower figures than those quoted above.

The steam saw mill of David Galbraith, in Stoke township, near Sherbrooke, Que., was destroyed by fire on the 20th inst.; no insurance.

CURRENT TRADE CONDITIONS.

ONTARIO.

A review of the lumber trade of the past week must necessarily be much of a repetition of what was said in last issue. Conditions have not changed, excepting that the movement of lumber has increased. Wherever any dry stocks of pine are to be found, they are being shipped out as rapidly as possible to supply the requirements of dealers and consumers. There is, in fact, very little stock offering, but some manufacturers are known to be holding their lumber for higher prices, which they believe they will be able to realize later in the season. Whether prices will advance beyond the present basis is a question on which opinions differ greatly, but this much may be safely said, that all indications point to a continuation of the present brisk demand and to the maintenance of existing prices. There is a steadily increasing local demand, to which the lumbermen are giving more than the usual attention. In addition to this and to the customary British demand, Canadian trade in the United States is reviving. Representatives of Eastern States houses are touring the Ottawa and Georgian Bay districts in search of lumber, lath and shingles, the prices at Duluth and upper lake points having advanced to such a point as to turn their attention to Canada. Considerable lumber is being shipped by rail from Ontario points to Albany and Oswego. A good trade is doing in hardwoods, some of the mills making shipments of the new cut. Prices remain firm in every class and grade.

QUEBEC AND NEW BRUNSWICK.

The Quebec timber market is strengthening. Prices of waney pine show signs of advancing, and it is learned that merchants fear a scarcity of square white oak, as much of the western production has been contracted for. Shipments of deals from St. Lawrence ports to Great Britain are made almost daily, and the harbors present a scene of activity. There has been a marked improvement in the demand for New Brunswick and Nova Scotia deals, and particularly for South American cargoes. Many of the manufacturers have sold all their summer's cut at prices which are considered very satisfactory, and which are believed to average about $9.50 per thousand at the mill. As old stocks have practically passed out of the hands of manufacturers, and the cut for several months having been very largely contracted for, it is almost certain that fall orders will bring higher prices. The drives are reaching the mills in good time, and very few logs are likely to be hung up.

Laths and clapboards are now finding a market in the Eastern States, where prices have advanced considerably of late.

MANITOBA AND BRITISH COLUMBIA.

Lumber is moving only moderately in Manitoba and the Territories, but trade is expected to become more active in the near future. The strike of carpenters at Winnipeg has not yet been amicably adjusted, and consequently building operations are almost at a standstill. There is no material change in the British Columbia trade. Foreign business is good, and over a dozen vessels are taking on lumber at the different ports.

UNITED STATES.

The position of the lumber trade of the United States continues to be one of great strength. Instead of the new cut relieving the situation to any extent, the demand has continued to expand in such a degree that the scarcity of stock has even become intensified. From the new England and New York states come reports that retail prices are steadily advancing, and consequently wholesale dealers are more inclined to purchase lumber at the high prices asked by manufacturers. Buyers have scoured the lake shipping ports in search of lumber with which to fill out depleted stocks, but purchases have not been numerous owing to the meagre supply available. The Tonawanda market is practically cleaned out of box lumber and No. 2 barn, and orders for this stock are being turned down constantly. The demand for the better grades is on the increase, and dealers have no difficulty in turning over their holdings at a fair margin of profit.

The hardwood trade is still restricted on account of scarcity of supply. Only in basswood has the new cut provided any relief, as it will be several weeks yet before dry stock of the other woods can be marketed. In ash and hickory prices are likely to remain at the present standard throughout the year, but towards the fall prices of maple, elm, birch and basswood may weaken slightly. There is not likely, however, to be any serious break in prices, as the consuming industries throughout the country are certain to continue in active operation.

FOREIGN.

In the British market lumber continues to go actively into consumption, and spot prices are strengthening. The market for spruce deals at Liverpool, Manchester and other ports is remarkably strong, and stocks have become depleted of favorite dimensions. Pine is also being purchased freely at fair prices. As to hardwoods, it is stated that there never was a time when dry oak stocks were so scarce at London, and early arrivals should meet with a ready sale.

The French market exhibits a firm tone, and a considerable quantity of Canadian lumber is likely to be marketed there this year. These conditions also apply to the South American trade, which is in a particularly prosperous condition.

STOCKS AND PRICES.

In our weekly edition of May 3rd, the price of British Columbia red cedar No. 1 shingles, 6 butts to 2 inches, was given as $2.25 per M. This should have read $2.55

The barque Brunel is loading 1,500,000 of lumber at the Royal City Planing Mills, New Westminster, for South America. She will return to same port for another cargo.

T. Sullivan & Co., of Buffalo, have rented the Hertel ave. and dock end of the Holland & Emery yard, and are filling it up with hardwood lumber from Michigan, chiefly maple, elm, ash and basswood.

The town of Orillia, Ont., have accepted the tender of A. Macpherson & Co., of Longford Mills, for the supply of pine plank at $12 and tamarac plank at $10, and that of Drinkwater Bros. for cedar at $9.50.

Alger, Smith & Co's. log drive of about 100,000 pieces has been successfully brought down the Arrow and Pigeon rivers. These logs were cut on exempted limits, and will be towed to Michigan to be manufactured.

The Harbor Commissioners of Montreal have divided the contract for timber and planks as follows: W. H. Kelly Lumber Co., $11,860; H. Dupre, $8,214.70; Robert Acker, $3,750; Shearer & Brown Co., $2,528.

There is a great scarcity of clear butt pine shingles at Buffalo, some yards having closed out their entire stock at $2.75 for 18-inch, and $2.25 to $2.35 for 16-inch. The higher grades of shingles are in better stock, as there is plenty of red cedar to help out.

The Rathbun Company are said to have a larger number of logs in the streams this spring than ever before. Mr. Wm. Madill states that the company have 1000 men employed on the drives, the largest of which is on the Black river, and amounts to 16,500,000 feet.

It is reported that the Gibson Railway & Manufacturing Co., at the head of which is Mr. Wm. Gibson, of Marysville, have purchased all of the lands in New Brunswick owned by the New Brunswick and Nova Scotia Land Company. The lands comprise about 26,500 acres.

Prices of lumber in the Boston market are strong, the spruce men holding firmly to their agreement. The increased sawings have a tendency to ease the situation somewhat, but no surplus of stock is in sight, and prospects are good for a continuation of profitable prices on all the spruce to be marketed this season.

Of the Barbados market, Messrs. Clairmonte, Man & Co., in their report of May 13th, say: Since last advices there have been two arrivals with white pine to a comparatively bare market. The cargo per Fauna was placed at $22.30 for first and $16.30 for second quality. The spruce demand continues good, the cargo of the Herbert Rice, reported in our last, being sold as follows: 126 M. ft. boards, $15 ($15.25 for a portion landed in Speightstown); 16 M. ft. scoots, $11. The damage done to houses by the hurricane in September last has now been repaired, and should shingles now arrive in any large quantity, we look for a sharp break in prices. Last sales of long Gaspe cedar: Ex Duart Castle, at $5.35 per M.; Halifax cedar, $3.16; cedar laying, $2.07; spruce laying, $2.27½; cypress, last sale 6-inch hearts, $9.11; saps, $6.50.

It is reported that Tonawanda dealers will issue a new price list shortly making an advance of about one dollar per thousand on nearly all grades of lumber. The situation at Buffalo and Tonawanda is peculiar. Every grade of pine lumber is selling at better figures than last year, and yet it is a fact that the lumber cannot be replaced to-day at the prices at which it is being sold. Mill culls have sold for months past at better prices than box was offered at one year ago, and it is claimed that box lumber is selling now in Menominee at as high a price as it was sold for in Buffalo. A Buffalo dealer recently received an enquiry for spruce, a lumber that is worth about $2 more than hemlock, but which seldom makes its way further west than Syracuse, on account of the general use of hemlock for nearly everything that spruce would answer for.

The Albany correspondent to the New York Lumber Trades Journal says: One effect of the rise in values here has been to open up a market with us for Canadian lumber, notwithstanding the tariff of $2 per thousand on lumber imported from that country. The Canadian manufacturers, while enjoying a good export trade with England, were not slow to take advantage of the opportunity to ship lumber over the border, so soon as it could be done profitably. Already representatives of Albany concerns have been or are now looking through the Canadian markets for choice blocks of pine and spruce to supply the demand here. The run on spruce this spring has been exceptionally heavy, and the dealers say that the entire stock at the mills has been sold at least two months ahead. Some new spruce is coming in daily by the canal, but the stock is still light. Orders come in unsolicited, in fact, spruce sells itself this year without drumming.

A dealer who recently returned from a tour of the white pine markets of the upper lakes, reports that there is absolutely no dry box lumber for sale. There is very little 1¼ inch box at any point, as the price of boards is so satisfactory that the manufacturers are turning all their logs into that class of lumber. At the head of the lakes, Duluth and Ashland mills will cut this season fully 100,000,000 feet more lumber than last year, but this will be more than offset by the falling off in production at Bay City, Mich., where it is estimated that the cut will not exceed 100,000,000, against nearly 300,000,000 feet in 1898. All dry lumber at Ashland and Duluth has been sold, and more than half of the present season's cut contracted for by eastern wholesalers. Two years ago Duluth carried over an immense stock of No. 3 and 4 boards, while the present situation is that nearly all of this class of stock has been purchased.

Concerning the sale of wood goods held by Churchill & Sim, London, Eng., on the 10th inst., and the result of which is given elsewhere, the Timber Trades Journal says: "Prices for almost everything was satisfactory, not omitting the balance of the pine and spruce sold for account of Richard R. Dobell & Co. The Hawkesbury third pine regulars, a poor lot, not better than good fourths, were well competed for, and sellers were able, no doubt, to congratulate themselves on the values obtained. These balance cargoes, of course, rarely represent the best of their kind, and are credited with being well picked over before being finally committed to the hammer, but there are exceptions. The first quality spruce (selected) £10 5s, were, of course, worth the money; ordinary brought £9, but there was only one lot of it. Thirds, out of the "Ktim," at £7 10s to £8, showed a slight hardening. The common spruce from Grindstone Island found customers up to £6 10s. As stated, the pine was not in attractive specifications, and though very well competed for, realized proportionately cheap values."

SALE OF CANADIAN LUMBER.

Following is the result of an auction sale of wood goods held by Churchill & Sim, London, Eng., on May 10th, 1899:

PINE.—Ex Monarch, from Quebec (Hawkesbury stock)—13 ft. 3 x 9 third quality, £7 15s; 13 ft. 3 x 8, £7; 13 ft. 3 x 7, £7; 6-8 ft. 2 x 6 first quality, £11 5s; 6-16 ft. 1½ x 10, £15 5s; 6-11 ft. 1¼ x 5, £10 10s. Ex Monarch, from Montreal (Edwards' 1897 cut)—3 ft. 3 x 7-9 third quality, £9 5s. Ex Greta Holme, from Quebec (Hawkesbury cut)—12 ft. 3 x 8 second quality, £11; 12 ft. 3 x 7, £11; 10 ft. 3 x 7 first quality, £15 and £14 15s. Ex Springwell, from Quebec—12 ft. 2 x 7 first quality, £14; 13-15 ft. 2 x 7, £13 10s. Ex Gerona, from Quebec—12 ft. 3 x 8 first quality, £16 15s; 13 ft. 3 x 8, £16 10s and £16 5s; 12 ft. 3 x 7, £16 15s; 13 ft. 3 x 7, £16 10s. Ex Rosarian, from Quebec—12-26 ft. 1½ x 12-21 in. first quality, £18 10s; 16 ft. 1½ x 10, £17; 12 ft. 1½ x 10, £17 5s. Ex Brazilian, from Quebec—12-16 ft. 1½ x 10-24 in. first quality, £18 5s and £15 15s. Ex Devona, from Quebec (Hurdman's 1897 cut)—14-16 ft. 1¼ x 10-17 in. first quality, £15 10s; 14-16 ft. 1¼ x 9, £16 10s.

SPRUCE.—Ex Belgian King, from Quebec—13 ft. 3 x 9 1st quality, £10 5s and £9. Ex Krim, from Quebec—16 ft. 3 x 11 third quality, £7 10s; 15-16 ft. 3 x 11, £8; 14 ft. 3 x 11, £7 10s; 12 ft. 3 x 11, £7 10s; 12-16 ft. 3 x 12-17, £6 15s; 15-17 ft. 3 x 10, £8 5s; 13 ft. 3 x 10, £8; 12 ft. 3 x 10, £7 15s and £7 10s; 9-11 ft. 3 x 9-16, £7. Ex Latona, from Grindstone Island, Quebec—12-14 ft. 3 x 8 in. unassorted, £6 10s and £6 5s; 15-21 ft. 3 x 8, £6 15s; 9-11 ft. 3 x 8, £6 5s; 12-14 ft. 3 x 7, £6 5s and £6 10s; 15-19 ft. 3 x 7, £6 5s and £6 10s; 9-11 ft. 3 x 7, £6 5s. Ex Yola, from Quebec—12 ft. 2½ x 7 in. assorted, £7; 10-15 ft. 2½ x 6, £6 10s. Ex Progressist, from Quebec—10-13 ft. 2½ x 6 in. unassorted, £6 5s; 10-14 ft. 2½ x 6, £6.

THE BOSTON MARKET.

The Boston correspondent of the New York Lumber Trades Journal, referring to lumber prices, says:

Owing to the great demand for pulp wood, the cutting of lumber has been neglected the past winter, and at the best the crop of spruce lumber will be a small one. Here the demand is quick for orders, or at least there is difficulty in placing orders for lumber wanted immediately. This makes the market very firm with prices higher: Frames, nine inch and under, $15.50 to $16; ten and twelve inch, $16.50; ten inch random lengths, $15; 2 x 3, 2 x 4 and 3 x 4 random lengths, $14; 2 x 5, 2 x 6 and 2 x 7 random lengths, $14.50; all other random lengths, nine inches and under, $15; six inch and up merchantable boards, ten feet and up, $12.50 to $13; five inch and up out-boards, $10 to $10.50; bundled furring, $12.50.

Hemlock lumber is very firm, following in the wake of spruce. The supply is also limited. Dimensions, $12.50 to $13.50; boards, $11 to $12.50; No. 1, $10 to $10.50; planed one side and matched, $12 to $13; Pennsylvania, $11.50 to $13.50.

Western pine is in good shape with the market firm, by reason of a good demand in the west. Uppers, one inch, $52 to $54; one and one-quarter to two inch, $53 to $56; three to four inch, $58 to $62. Selects, one to four inch, $40 to $60; fine common, one to three inch, $40 to $52. Sheathings, $36 to $42; barn boards, $18 to $28; coffin boards, $19 to $23.

Clapboards are doing a little better. Extra spruce, $28 to $29; clear, $26 to $27; second clear, $23 to $25; pine extra, $38 to $40; clear, $34 to $36; second clear, $30 to $35.

Shingles are firmer, with a better demand. Extra cedar, best brands, $2.90 to $3.10; clear, $2.70 to $2.90; second clear, $2.25 to $2.50; Oregon shingles, strictly clear, extra, sixteen inch, $2.80 to $3; extra star A star, $2.50; standard A, $2.37½ to $2.40; choice A, $2.70.

Laths are in quiet request. Five-eighths inch, $2 to $2.15; one-half inch, $1.90 to $2. The retail lumber dealers have established the following prices on shingles: Extra, $3.50; clear, $3; second clear, $2.50. The retail dealers have also made the following prices on hemlock boards: No. 1 Pennsylvania, eight, ten and twelve inch wide, twelve, fourteen and sixteen feet long, $17; No. 2 stock widths, $15; No. 2 random widths, $14; other hemlock, planed one side, stock lengths, $16; random lengths, $15.

SHIPPING MATTERS.

The steamer Thos. Haymen has been chartered to load deals at Montreal for London, at 42s. 6d.

The new lumber tariff on the C.P. and G.T. railways, to take effect on June 1st, will be issued in a few days. The rates will be advanced on the basis of one-half cent per 100 pounds, from the Ottawa valley, St. Clair river, Lake Erie, Georgian Bay, Muskoka and Nipissing districts.

The Timber Trades Journal reports the following charters: St. John, N.B., to Manchester, 2,090 tons, 38s., June; Shediac, N. B., to the Mersey, 500 tons, 48s.; Hopewell Cape, N.B., to Liverpool, Barrow, Cardiff or Dublin, 36s. 9d.; Cape Tormentine, N.B., to Birkenhead, 500 tons, 48s.; Fraser River to Liverpool or London, 37s. 6d., September.

The following charters are reported: Schooner Comrade, Gardiner Creek, N.B., to Boston, $2.80; schooner Susie Prescott, Black River, N.B., to Boston, $2.80; ship Coringa, Portland, Maine, to Buenos Ayres, $9.12½; W. W. McLauchlan, Annapolis or Yarmouth, N.S., to Buenos Ayres, $10.50 (if Rosaria, $11.50); Mollie Rhodes, St. John, N.B., to New York, $3.25; steamer Anaxo, St. John, N.B., to w. c. England, 42s. 6d.; bark Mary Law, Yarmouth, N.S., to Buenos Ayres, $10.

THE LOG DRIVES IN NEW BRUNSWICK.

The drives on the upper St. John river, in New Brunswick, are coming along well. The Fredericton Gleaner of May 17th says :

The logs have come out of the brooks and streams in good time as far as known, and very good progress has in some instances been made on the river. The corporation drive on the Tobique, however, is getting along slowly, and is having considerable difficulty. For instance, at Red Rapids, about twelve miles from the mouth of the Tobique, there are about 7,000,000 feet of logs in wings. This drive was at George Everett's on Monday, about 15 miles above Plaster Rock. It is thought that it will reach Plaster Rock to-day.

Judson Hale reached corporation limits on the main Tobique on Saturday with 6,000,000 feet.

McCollum, who operated on the right hand branch of the Tobique, and got into corporation limits last week, has 3,000,000 feet.

Mr. Nairn, who also operates on the right hand branch of the Tobique, reached the limits a week ago to-day with his first drive, 4,000,000 feet, for Hilyard Bros. He has gone back for about 400,000 feet which he left on the ice.

R. A. Estey's Two Brook operation, which reached the corporation limits last Wednesday, consists of about 3,500,000 feet.

George Upham, also on the Tobique, reached the corporation limits with 3,500,000 feet last week.

Keswick, on Grand river, who reached the limits last week, has 2,500,000 feet for Randolph & Baker.

It was reported that Kilburn, on the head waters of the St. John, had reached the corporation limits last week also, but this is not credited here, for the reason that other operators this side of the limits have not themselves been able to get in yet.

On the upper St. John the cut will be :

Kilburn for Murray	12,000,000 feet
W. J. Noble, for Cushing	6,000,000 "
R. A. Noble, for Cushing	2,000 000 "
Morrison	3 000,000 "

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., MAY 31, 1899 No. 19.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.—SITUATION AS LUMBER INspector, Shipper, Culler or Bookkeeper. T. H. Buckerfield, Burk's Falls, Ont.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition Can be seen at Toronto. Apply PETER RYAN, Toronto.

Washington Timber Land For Sale.

I HAVE A NUMBER OF TRACTS OF TIMBER Land in the State of Washington for sale; from 1,000 to 40,000 acres in each tract; heavily timbered with Cedar, Fir and Spruce. CHARLES RICHARDSON, Tacoma, Washington.

WANTED.

FLOOR MANAGER FOR SASH AND DOOR Factory; also for Box Factory. Must be first class, practical men. Apply, stating age, experience and salary required. Send references. GILMOUR & Co., Trenton, Canada.

BOX BOARDS FOR SALE

CUT TO ANY DESIRED THICKNESS, AND lengths not exceeding 24" long, in Brown Ash, Basswood or Spruce.

J. E. MURPHY, Hepworth Station, Ont.

WANTED.

PRICE ON MAPLE, BEECH, BIRCH, ASH and Elm, 5/8, 1 and 2 inches. Also Basswood 5/8 and 1 inch, and pine 1 inch, all log run. Also on Spruce 1 inch, suitable for manufacturing boxes. Quote also on pine squares 9 x 2 x 2, 29 x 2¼ x 2¼, 9 x 2¾ x 2¾, 29 x 3¼ x 3¼. Quotations on cars at mill. Address, B. SOUTO & Co., 161 Front Street, New York.

VENEERS WANTED.

A large furniture manufacturer in Belgium writes to the CANADA LUMBERMAN that he is in the market for veneers in 2, 3 and 5 ply, of various thicknesses, for panel and table work, and that he would like to make connection with some Canadian manufacturers of these articles. Interested persons may obtain the address of our correspondent at this office.

LUMBER HANDLERS' SCALE AT BUFFALO.

On account of the differences existing between the grain shovellers and freight handlers at Buffalo, the lumber contractors took advantage of the situation and made a claim for an advance in the price for unloading forest products, also for stowing on the docks. After consultation, the stevedore committee of the Buffalo Lumber Exchange acceded to their demands. The following prices have therefore been agreed upon for unloading, effective May 22: Log run white pine, including strips and mill culls, 26 cents a thousand; shorts, 44 cents; 14 inch strips in lots in hold, 36 cents; Norway, 1 to 2 inches, not over 18 feet, 26 cents; Norway bill stuff, 3, 4 and 5 inches, 32 cents; hemlock same as for Norway. This is an advance of 4 cents per thousand all round. Lath, 7 ¼ cents a thousand, an advance of ¼ cent; shingles, 18 inch, 4⅛ cents; 16 inch, 3⅛ cents, an advance of ⅛ cent; cedar posts, 1 cent each; basswood, 30 cents a thousand; elm, 40 cents; ash, maple and oak, 45 cents. This is an advance of 5 cents on basswood, 15 cents on elm, and 10 cents on ash, maple and oak. The prices for stowing on dock remain the same.

CURRENT TRADE CONDITIONS.

ONTARIO.

If the lumber situation has undergone any change within the past week, it has been in the direction of further improvement. Mills are busy shipping out stock, and orders now placed cannot be filled for weeks to come. Each day brings its business, and the volume of trade continues to swell. As building operations for the season have only fairly commenced, the lumber requirement for this purpose, for one month at least, is likely to expand rather than decline. There may be a falling off in trade during the summer months, but no one believes that the demand will slacken to any extent, as consuming industries have light supplies on hand and must continue to add to their stock. All grades of pine find a ready market, while pine lath is scarce and advancing in price; the wholesale price in Toronto is $1.60 for No. 1 and $1.25 for No. 2. Pine shingles, 16-inch XXX, sell at $2.40 wholesale, and XX at $1.50. Dealers still report a great scarcity of hardwoods. Prices have been well maintained generally, although maple is not being purchased to any extent, and consequently there is a possibility of weakening values. Manufacturers are asking $12 for mill run maple, a price which dealers believe to be out of proportion to the other woods, in view of the available supply. Soft elm, mill run, is selling in Toronto at $16 to $18 for inch and inch and one-half, and $17 to $19 for two to three inch. There has been an advance of about five dollars per thousand in quartered oak, which nows sells at $50 to $60 in Toronto.

QUEBEC AND NEW BRUNSWICK.

The lumber trade in Montreal is somewhat unsettled owing to the recent failures. The business conducted by John A. Bulmer & Co. was quite extensive, the liabilities being over $200,000. No sooner had this assignment become generally known than the embarrassment was announced of A. P McLaurin & Co. In both of these failures a number of lumbermen, in city and elsewhere, are interested. These occurrences are but another indication that lumber is being sold on a margin of profit altogether too small. So far as export trade is concerned, business is in good shape, and quite a large number of vessels have been chartered for June and July loading. The tendency of prices is to advance.

MANITOBA AND BRITISH COLUMBIA.

The strike in the building trade at Winnipeg has been settled, and lumber is likely to move actively in the near future. Trade at present is rather quiet both on city and country account, but the season promises well and dealers are pleased with the prospects. Tee production of lumber this year by the Lake of the Woods mills will be greater than ever before. In British Columbia the mills are unable to supply the demand for lumber, and as a result building operations have been kept back. Every day new building projects loom up, and it is feared that some of the cities will be overdone in this respect. Foreign trade is in a prosperous condition, but vessels are scarce.

UNITED STATES.

The transactions of the past week show conclusively that the lumber market of the United States is steadily improving. Prices at the mills have been maintained, and wholesale prices, which have been the weak spot in the trade, are getting into line. There has been a heavy movement of stock to the eastern markets, where trade has picked up wonderfully within the past month. The improvement is not confined to pine and hardwoods, but extends to all classes of lumber, and particularly to hemlock, which has undergone another advance of 75 cents per thousand. At New York the scarcity of dry lumber is becoming more marked day by day, and with a large amount of building arranged for, a season of great activity is assured. A scarcity of lath and shingles is still reported at Buffalo, although these are being received freely by vessel. The famine in hardwoods is still the feature of that trade. In many markets green lumber is being sold to consumers at practically the prices formerly prevailing for dry stock. As the season advances the opinion is gaining ground that there will be no weakening in hardwood prices this summer, especially as much of the production of this year is already contracted for. Several furniture manufacturers in the east are said to have ceased turning out certain lines of their output, simply because they cannot obtain the lumber necessary for their production.

FOREIGN.

The impression, prevalent in the British market earlier in the season, that the supplies forthcoming would prove the heaviest for some years, has been considerably modified, and instead merchants now entertain the possibility that the production at the various mills abroad may turn out to be quite limited. This fact is having an effect upon prices of both Baltic and Canadian stock. In Baltic whitewood a firming tendency is reported, and there seems a probability that prices may go 5s. higher before long. Spruce deals are also strengthening, and some contracts have recently been made at considerably advanced prices. At Liverpool

some stocks from Shediac have sold at £6 8s 9d c.i.f., and others in proportion. A point on which merchants are not unanimous is the course which spruce prices are likely to take later in the season. There are a few who believe that values will not go beyond their present basis, but those most closely in touch with the trade believe that the highest point has not yet been reached. The demand is so good at present that all the first imports will go direct into consumption. There is no material change in the pine market, while hardwoods are inclined to strengthen.

The German market is in good condition, but buyers in France are exhibiting much caution. A number of vessels have been chartered to load at maritime province ports for Cuba and other West India Islands, where trade is steadily reviving.

STOCKS AND PRICES.

Sprague's saw mill at Winnipeg resumed operations last week, the first drive of logs having arrived.

The barque Cedar Croft cleared from St. John, N. B., last week for Rosario, with 955,914 feet of dry lumber, shipped by A. Cushing & Co.

The Assiniboine Lumber Company, of Brandon, Manitoba, are reported to have sold their mill, lumber in stock, and logs cut last winter, to John Hanbury, of that place.

The Department of Interior at Ottawa invites tenders up to June 26th for a license to cut timber in British Columbia on berths containing an area of 60 square miles.

It is reported that J. & T. Conlon, of Little Current, Ont., have disposed of all the lumber now in their yard, and that their mill will resume operations at an early date.

The logs cut on the St. Croix river, in New Brunswick, last winter, will contain about 13,000,000 feet. The owners are James Murchie & Sons. H. F. Eaton & Sons, Granville Chase and F. H. Todd & Son.

Raft towing from the Georgian Bay district to Michigan has commenced. It is now estimated that not over 75,000,000 feet of Canadian logs, cut prior to April 30, 1898, and on exempted lands, will be taken across the lake this season.

At Toledo, Ohio, a noticeable feature is the increased demand for good lumber. Shop and better, and 8/4 and 6/4 shop, are scarce, and 4/4 shop, dry, is about out of the market. No. 3 and No. 4 boards have advanced considerably, owing to short supply and large demand.

The Newfoundland Iron Ore Co., Limited, of Workington, Newfoundland, invite tenders for the delivery at Old Perlican, Trinity Bay, Nfld., of a large quantity of 10 and 12 inch square spruce timber. Particulars may be obtained from the superintendent, Mr. S. Herbert Williams.

The Newville Lumber Co. have chartered the schooners Avin, Susan, Annie, Hatty McKay and Sarah F. to load lumber at Parrsboro, N. S., for the United States. When these vessels are loaded it will make nine cargoes shipped by the above firm to the United States, besides a cargo to Port of Spain, Trinidad.

Maple lumber, log run, is being sold at about $16 on the Chicago market. There is a probability of somewhat lower prices for birch this season than existed earlier in the year. Supplies have been considerably augmented during the past season, and dry stocks have not run down to the low point observed in other kinds of hardwood.

Lath is in much demand at Buffalo, while as yet there is but a meagre supply. Pine lath sells at about $2.25. Shingles are being received more rapidly than lumber, which is an indication that trade is strong. Clear buts sell at $2.10 and upwards. Mixer & Co. recently received two cargoes, containing about 4,000,000 shingles.

In New York it is probable that another advance will be made in the price of northern pine. Mills are reported so full of orders that they cannot ship for a month. Spruce has gone up 50 cents and is still scarce. In Boston random cargo spruce ranges from $13 to $14.50, according to stock. Hemlock has reached the highest figure in its history in New York, being now on a basis of $13.25.

At the Canadian Government office, London, Eng., enquiry has been made for the names of lumber firms prepared to supply large quantities of wood blocks, suitable for paving purposes, and railway sleepers. A firm in Warsaw, Russia, desire to act as agents for the sale of Canadian produce. They point out that Warsaw is an important market for veneers, rolling boards, etc.

The Saginaw river wholesale market is firm. There is very little lumber offering except for stock to be cut for future delivery. Thus far this spring the Saginaw Lumber & Salt Company has sold 10,000,000 feet to be cut. C. K. Eddy & Sons have sold several million feet, which is now being manufactured. The Central Lumber Company has also sold ahead, and C. S. Bliss is behind with his orders.

At a recent auction sale held by, Foy, Morgan & Co., London, Eng., the following prices were realized : 16 ft. 3 x 11 in. first quality pine, £20 15s ; 6-7 ft. 3 x 11 in. spruce, £6 5s ; 6-8 ft 3 x 9 in. spruce, £5 17s 6d ; 13 ft. 3 x 9 second quality spruce, £7 15s ; 10-13 ft. 3 x 8 in. first quality spruce, £7 10s ; pine, ex Ashanti, from Quebec, sold as follows : 13-18 ft. 6 x 11 first quality, £15 ; 12-18 ft. 6 x 9, £14 ; 12-18 ft. 5 x 11, £15 ; 4 x 11 £15 5s; 12-18 ft. 5 x 9, £15.

The secretary of the Mississippi Valley Lumbermen's Association has made a canvass of stocks of dry white pine lumber in the territory covered by that association, and finds a total shortage of lumber, as compared with the stocks of one year ago, of 398,000,000 feet. This shortage is largely attributable to the large amount of business done in low grade lumber during the past winter and spring. The shortage shown on January 1 was 140,000,000 feet, which indicates the immense volume of business done since that date. A large portion of the season's cut of the mills at the head of the lakes is sold ahead. The demand for low grade lumber is phenominal.

A report from Fredericton, N. B., dated May 26th, says : Reports from up river state that unless there are some heavy rains soon to raise the water, a large number of logs will be hung up and cannot possibly be got out until next spring. W. J. Noble has between five and six million feet at Seven Islands, which can only be got out with a big rise of water. John Kilburn has about 10,000,000 feet hung up on Northwest rapids. Donald Fraser & Sons' drive of 8,000,000 feet on Green river is coming along slowly and will probably be brought out safely. Cunliff, with seven million, reached corporation limits last night. R. A. Noble, with 7,000,000, will probably reach corporation limits in a day or two.

Offerings of pine on the Chicago cargo market continue to be light, although considerable lumber is being sold. Short piece stuff sells at $11.50 to $11.75 for dry, and short green piece stuff on the basis of $11. Yard dealers are compiling a new list on the basis of $13 for short lengths of piece stuff f.o.b. Chicago, with the exception of 2×4, 10 ft., which is listed at $13.50. The advance in list prices during the past two weeks amounts to 50 cents per thousand on the lower grades and from $1 to $2 per thousand on the grades and thicknesses of shop lumber that are in most active demand. There has been no change in No. 1 and No. 2 12-inch stock boards. In shingles the yard dealers are asking from 5 to 10 cents more than ruling prices of two weeks ago, and prices on lath have been advanced to $2.50 for white pine, $2.40 for mixed, $2.30 for No. 1 Norway, and $2.15 for No. 1 hemlock. It is said that there never has been a time when lath were so scarce.

LUMBER PRICES.

Lumber prices at the present time, says the American Lumberman, are about as high as they were in 1892, and in some cases higher. There should be a gradual advance in average prices as the years go by, for in spite of natural growth the quantity of available timber is decreasing and a carrying charge is to be added. But it is probable that the carrying charge since 1892 or the spring of 1893 and the present time has been covered by the advance.

It should be remembered that 1892 and the first few months of 1893 marked the culmination of a profitable business period that was followed quickly by the panic and a heavy decline in values, which are only now being restored. At the present time the country is not at the culmination of a "boom" period, if such it may be called, but apparently hardly begun on a period of industrial and commercial prosperity of indefinite length.

The change began in 1897 and with some fluctuations there has been on the whole a steadily swelling volume of business ever since. Lumber prices have moved upward since the summer of that year and the tendency is still upward. What will be the outcome? Prices are now at a point which yield a profit if properly distributed to all engaged in the business—manufacturers, all legitimate middlemen and distributors. This is as it should be, and is for what the Lumberman has always stood.

Incidentally, however, we might throw out a warning. There is a growing feeling through the country that prices of many commodities are being pushed too high. It is doubtful if this is the case with lumber ; but it certainly would be better to rest content with what already has been secured than to risk collapse by carrying the process of price increment to the point of inflation. Still, the warning may be unnecessary ; in fact, there is a feeling quite generally noticeable through the lumber trade that the top notch of average prices has nearly or quite been reached, though a few items or classes of stock may yet go higher.

SHIPPING MATTERS.

From Montreal vessel rates on lumber rule about as follows : To Liverpool, 35s to 37s 6d ; Glasgow, 42s 6d ; London, 40s ; Bristol, 45s ; Leith, 50s ; Aberdeen, 50s ; Belfast or Dublin, 42s 6d to 45s ; Manchester, 42s 6d.

Following are current freight rates on lumber from British Columbia points : To Sydney, 37s 6d to 40s ; Melbourne or Adelaide, 47s 6d to 50s ; Port Pirie, 45s to 47s 6d ; Freemantle, 57s 6d to 60s ; Shanghai, 50s to 52s 6d ; Tientsin, 60s ; Valparaiso, f.o., 41s 3d to 42s 6d ; South Africa, 62s 6d to 65s ; U.K. or Continent, 65s.

As already announced, the Grand Trunk and Canadian Pacific Railways have issed new lumber tariffs, advancing by ½ cent per 100 lbs. the rate on pine and hardwood lumber to various points in Ontario. At time of going to press, the tariff of the C. P. R. had not been received. Elsewhere will be found reference to the G. T. R. rates.

The following additional charters are reported : Str. Wuotan, 1,200 tons, Pugwash, N.S., to w.c. England, deals, 45s ; str. Pawnee, 1,167 tons, St. John, N.B., to Liverpool, deals, 45s ; bark Altona, 491 tons, Bridgewater, N.S., to Buenos Ayres, $10.50 ; Beleverie, 573 tons, Montreal to Rosario, $11.50 ; bark Rosa, St. John, N.B., to Cork or Limerick, deals, 47s 6d, August or September loading ; bark Adelaide, Miramichi, N.B., to Oran, France, deals, 64 francs.

The Timber Trades Journal reports the following charters : St. Thomas, Que., to Garston, 800 stds., 46s 3d, June ; Three Rivers or Pierreville, Que., to London, 900 stds., 42s 6d, June ; Pierreville to London, 1,200 stds., 42s 6d ; Quebec or Three Rivers to e.c. London, deals at 43s 9d, timber at 65s; Quebec to London, 1,150 stds., 43s; Bathurst, N.B., to Bowling, 1,000 stds., 45s, June ; St. John, N.B., to w.c. England, 1,000 stds., 43s 9d ; West Bay, N.S., to w.c. England, 1,000 stds., 42s 6d ; Miramichi, N.B., to w.c. England or e.c. Ireland, 1,100 stds., 45s ; Bathurst, N.B., to Bombay, deals, 45s, June ; several small sailers from Pugwash, West Bay, and other N.S. ports at 45s to 45s 6d, according to ports of discharge.

BUSINESS NOTES.

A. P. McLaurin & Co., lumber merchants, Montreal, are announeed to have assigned, with secured and unsecured liabilities amounting to $64,871.65. The heaviest creditors are McLaurin Bros., partly secured, $41,558.

A statement of the affairs of J. A. Bulmer & Co., lumber merchants, Montreal, shows total liabilities of $229,254.69. Of this amount $167,454.69 is secured and the balance unsecured. Mr. Justice Mathieu has appointed Hon. A. W. Atwater provisional guardian, with authority to carry on the business until the appointment of a curator.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, according to the summer schedule effective April 1st, are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, $1.00 per M feet, lath 20 cents per M pieces; Quebec, $2.00 per M feet, lath 40 cents per M pieces; Arnprior to Montreal, $1.50 per M feet, lath 30 cents per M pieces; Quebec, 12 cts.; Pembroke to Montreal, $1.75 per M ft., lath 35 cents per M pieces; Quebec, $2 75 per M ft., lath 55 cents per M pieces; Ottawa to New York, $2.50 per M ft., lath 50 cents per M pieces; Arnprior to New York, $3.00 per M ft, lath 60 cents per M pieces; Pembroke to New York, $3.25 per M ft., lath 65 cents per M pieces; Parry Sound, track, $3.50 per M ft., lath 70 cents per M pieces; Ottawa to Buffalo, 12 cents per 100 lbs.; Ottawa to Port Huron and Detroit, 14 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 11c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft.; lath 50,000 rates pieces, not exceeding 600 lbs. per M pcs. Ottawa apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

The freight tariff on lumber issued by the Grand Trunk Railway Company, effe tive June 1st, 1899, contains the following general instructions: Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination.

Excepting to Toronto and Hamilton, the rates on hardwood are the same as on pine. To these two points the rate on hardwood is one-half cent higher than on pine.

From Glencairn, Creemore, Aurora, Barrie, Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in groups B and C, to Toronto or Hamilton, 7c. on pine and 7½c. on hardwood; Bracebridge to Toronto or Hamilton 7½c. pine and 8c. hardwood; Utterson, Huntsville, Navor, Emsdale, Katrine to Toronto or Hamilton, 8c. pine, 8½c. hardwood; Burk's Falls, Berriedale Sundridge and South River, to Toronto or Hamilton, 8½c. pine, 9c. hardwood; Trout Creek, Powassen and Callender to Toronto or Hamilton, 9½c. pine, 9c. hardwood; Nipissing Junction and North Bay, 10½c. pine, 11c. hardwood. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto or Hamilton, 7c. pine, 7½c. hardwood. These rates are per 100 lbs. Rates from Toronto east to Belleville are 8c. per 100 lbs. The maximum rate from any point north or west to Montreal is 16½c. per 100 lbs. For rates on railway ties, tie timber, cedar lumber or posts, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JUNE 7, 1899 No. 20.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

Washington Timber Land For Sale.

I HAVE A NUMBER OF TRACTS OF TIMBER Land in the State of Washington for sale; from 1,000 to 40,000 acres in each tract; heavily timbered with Cedar, Fir and Spruce. CHARLES RICHARDSON, Tacoma, Washington.

WANTED.

FLOOR MANAGER FOR SASH AND DOOR Factory; also for Box Factory. Must be first class, practical men. Apply, stating age, experience and salary required. Send references. GILMOUR & CO., Trenton, Canada.

BOX BOARDS FOR SALE

CUT TO ANY DESIRED THICKNESS, AND lengths not exceeding 24" long, in Brown Ash, Basswood or Spruce.

J. E. MURPHY, Hepworth Station, Ont.

SAW MILL MACHINERY FOR SALE.

THE COMPLETE MACHINERY OF A SAW Mill, consisting of a steam feed large carriage and frame, one rope feed ditto, double edger and trimmers, swing saws, automatic grinders, belts and saws in good order; all made by Waterous, Brantford. Will be sold cheap. Apply to J. K. WARD, Mona Mills, Montreal, Que.

WANTED.

PRICE ON MAPLE, BEECH, BIRCH, ASH and Elm, 5/8, 1 and 2 inches. Also Basswood 5/8 and 1 inch, and pine 1 inch, all log run. Also on Spruce 1 inch, suitable for manufacturing boxes. Quote also on pine squares: 9 x 2 x 7, 29 x 2¼ x 2¼, 29 x 2¾ x 2¾, 29 x 3¼ x 3¼. Quotations on cars at mill. Address, B. SOUTO & CO., 161 Front Street, New York.

NEW BRUNSWICK CEDAR SHINGLES.

The cedar shingle market continues firm, and the supply is still inadequate to meet the demand, all the manufacturers being loaded with orders. The following prices are readily obtainable at Boston rates of freight: Extras, $3.10; clears, $2.65; 2nd clears and clear whites, $2.15. There is absolutely no signs of any lessening in prices later, and appearances would indicate that there may be still further advances before very long.

FIRES.

The planing mill of D. McCaffery at Huntsville, Ont., was burned on June 1st. Loss about $2,000, no insurance.

The news has been received of the destruction by fire of A. McNair's saw mill at Hastings, B. C. Although full particulars are not to hand, it is understood that the loss is about $20,000.

Two sawmills owned by Geo. St. Pierre & Co., of Fraserville, Que., were destroyed by fire last week. The mill at St. Honore was a total loss of $8,000, with no insurance, while on that at Amqui the loss is $9,000 and the insurance only $1,000. Messrs. St. Pierre are rebuilding and expect to have the mills in operation again in two months.

CURRENT TRADE CONDITIONS.

ONTARIO.

The first week in June has developed no important changes in the lumber trade of the province. Reports of a steadily increasing volume of business come to hand from dealers and manufacturers, and a still greater trade would be done but for the scarcity of dry stock. From the Ottawa valley shipments of pine lumber are being made to the Eastern States, and the number of enquiries received from that quarter are taken as an indication that wholesale dealers there are looking more to Canadian mills for stock. Ottawa valley manufactnrers have booked more orders so far this season than in the corresponding period for several years, and this is believed to be true of the provincial mills generally. Prices for some grades are strengthening, notwithstanding that the lumber cut early this season will soon be ready for the market. Pine shingles are still selling in Toronto at $2.40 for 16-inch XXX, and $1.50 for XX. In hardwoods there is a steady demand, although indications point to a weakening in the prices of maple and birch.

QUEBEC AND NEW BRUNSWICK.

Local trade in the province of Quebec is showing more activity, although as yet the improved demand has not resulted in prices advancing to a reasonable basis. Lumber is selling on a margin of profit too small to permit of successful business. Export trade is in a prosperous condition, all the shippers being engaged in loading vessels. There will be shipped from Quebec this season a greater quantity of waney white pine, red pine and birch timber than last year. Up to date there has been measured at Quebec 450,000 cubic feet of waney white pine timber, against 99,000 feet for same period last year. A considerable increase is also shown in the quantity of red pine and birch timber. Oak is represented by 99,000 cubic feet, while last year there had arrived at Quebec up to this date 289,000 cubic feet. Reports from New Brunswick and Nova Scotia reflect a degree of hopefulness which was not exhibited last year. The price of deals has been gradually climbing up, until to-day from $9.50 to $10 is being realized for deliveries at point of vessel loading. The outlook has not been so good for years, but freight rates are advancing and have a tendency to lower prices in a slight degree. Shippers are said to be experiencing some difficulty in securing vessels. Recent rains have facilitated log driving, although it is feared that some logs will be hung up.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade in Manitoba is steadily improving, and since the settlement of the carpenters' strike in Winnipeg there has been a considerable expansion of demand. The number of buildings about to be commenced in that city will alone provide an outlet for no small amount of lumber and other material, while railroad construction will represent a good volume of trade. The retail price list is being adhered to generally, but in one or two instances some cutting is reported. No material change has taken place in the British Columbia trade. The mills are working to their full capacity.

UNITED STATES.

In some respects the lumber trade of the United States during the past week has not been as buoyant as earlier in the season. The country demand has not been up to the mark, as a rather unfavorable crop outlook in some districts has caused the farmers to proceed very cautiously with the erection of new buildings. In the Eastern States there continues to be a large consumption of lumber. Many eastern dealers have visited producing points, and, in the absence of dry stocks, have contracted heavily for the new cut, apparently with a firm belief that prices will not weaken. Spruce has fallen into line with pine and hardwoods, and has advanced 50 cents a thousand in the New York market during the past week. This makes spruce prices $2 per thousand higher than at a like period last year. The mills along the upper lakes have been in operation for about one month, and green piece stuff is commencing to move by lake. Some dealers fear that prices of piece stuff will drop $1 before the season closes, but this is not the general opinion. Mill culls are still very scarce, one Saginaw manufacturer asking $12 for No. 1.

There is quite a large movement of the new cut of hardwoods. No weakness has as yet developed in prices generally, although there are indications that birch will weaken, as a considerable stock was carried over and the new cut is coming onto the market freely. Ash is scarce and wanted in all the eastern markets.

FOREIGN.

Cargoes of wood goods from Canada are now arriving quite freely at British ports, the greater portion, however, being

on contract. The market is steady, with a slight upward tendency, although generally there is not as much activity in the movement of stock as might be expected at this season of the year. Importers have found difficulty in making sales at the prices which must be asked in view of the increased values on this side of the water. Notwithstanding, the conditions at the leading ports in Great Britain point to a steady trade and no weakening of prices. At Liverpool there are numerous orders in the market from contractors and other large consumers, and these orders must have a beneficial effect in the way of strengthening the position of holders of stock. In Canadian goods, spruce seems to be attracting the most attention. At Cardiff it is low in stock, and there is an absence of long lengths. At Bristol importers are offering full prices, and find difficulty in obtaining goods. In cases where lengths are not important, Quebec spruce deals of third quality are at present a little cheaper than New Brunswick deals. The stock of pine deals at many of the ports has also become reduced below the average, and the demand is fair. Red pine deals continue to advance in price, and arrivals are readily taken up. In square and waney timber the market is firm, Quebec oak particularly being scarce. It is believed that Quebec timber will realize higher prices than last season, partly due to the increased freight rates.

STOCKS AND PRICES.

There is a good demand in Chicago for common inch lumber, with prices firm at $12.50 to $13, delivered.

Robinson Bros., of Tonawanda, last week purchased 8,000,000 feet of pine from the Metropolitan Lumber Co., of Metropolitan, Mich.

It is reported from Rainy River that a special timber agent has seized timber valued at about $20,000, said to have been illegally cut on government lands.

Spruce is now selling in the New York market at $17 for 6 and 7 inch and $17.50 for 8, 9 and 10 inch, of merchantable quality. White pine is also high and scarce.

The steamship Wilderspool sailed from Parrsboro, N.S., on May 26th, for Manchester, with 1,247 stds. of deals, scantlings and boards, shipped by William Mackay.

Dry stocks of pine on the Saginaw river are exhausted, and the only trading is for stocks to be cut. Log run is held at $17 to $24, box lumber at $13, Norway bill stuff at $10.50 to $11 for 12, 14 and 16-feet lengths, and mill culls at $9 to $11.

H. R. Goodday & Co., of Quebec, have already shipped quite a large quantity of lumber this season to Great Britain. Besides part cargoes already shipped by sundry liners, they are now loading their third ocean steamer, taking about three million feet of spruce deals.

Recently in London, Eng., a few lots of specially unsaleable dimenson in spruce, viz., 3 x 10 third quality, averaged £7 15s per std., whereas only a fortnight previously similiar goods only realized £7. 3 x 9 deals are now selling at £7 15s to £8 according to length, while 3 x 11 planks command £8 5s per std.

A report from San Francisco, dated June 5th, states that the Pacific coast lumber manufacturers have formed a combine, comprising all the Pacific coast lumber manufacturers in British Columbia, Washington ond Oregon engaged in the export trade. Under the new schedule lumber is said to have advanced $1 per thousand feet.

Mr. A. F. Bury Austin, wholesale lumber and timber, Board of Trade Building, Montreal, has secured some large contrat s to supply material for the construcon of the Shawenegan Falls Water & Power Co.'s works at Shawenegan Falls, Que., and also contract to supply the material for the construction of bridges, etc., for the Great Northern railway now building from Hawkesbury to Quebec city.

On Thursday, June 1st, there were offered for sale at the Russell House, Ottawa, about 180 square miles of timber berths owned by Thos. Mackie, of Pembroke. The first lot, comprising No. 149, 150, 151 and 152 on the river Coulogne, Quebec, 156 square miles, brought an offer of $100,000, but was withdrawn. For the second lot, comprising 22½ square miles in Butt township, Parry Sound, owned by Barnett & Mackie, no offer was made.

A correspondent of the American lumberman, writing from Saginaw, says: "Lumbermen who cut logs in Canada expecting to raft them to Michigan, and who did not make arrangements later to have them cut over there, are storing them in the hope that later in the season they will be able to bring them to this side. Chas. A. Eddy said the other day that his firm has 12,000,000 feet which will be stored. He believes that later on in the season some arrangement will be effected whereby the logs will come over. The Saginaw Lumber & Salt Co. has several million feet to bring to Saginaw, but it will have to store over there about 5,000,000 feet cut on crown lands."

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is a continuation of the activity in all sorts and grades of lumber, and there is promise of a long and profitable run for the dealer as well as the producer. It is maintained generally that the margin of profit is not as great now as it was before the evil days of 1893, but that is still true of all business, and it may remain so. The amount is larger, so that the actual profit ought to be in the same neighborhood.

As an indication of the change for the better, someone has estimated that a certain lumber business, of course one of the largest here, will gross on the same cut and handling not less than $75,000 more this year than was possible last year. This means everything to the trade, and it is often needed. No one out of lumber has much idea how it has dragged along, with so many other branches of trade on a paying basis again. It is always said that lumber is last to sympathize with a change, either up or down, and it has amply proved the saying this time.

It is not pleasant to note that the sentiment here is much more against reciprocity with Canada now than it was before the Joint High Commission made a failure of the effort to come to an understanding, for somehow it seems to be agreed here that Canada wanted it all, and so long as that idea prevails with us there is not likely to be any relaxing of the tariff lines either way. Buffalo is much more favorable to low tariff, lumber with other things, than formerly, and though Tonawanda was at one time high tariff and is likely to be somewhat of that persuasion still, it is not so decided as formerly. For this reason the regret occasioned by the failure of reciprocity is all the greater.

There is considerable pine lumber coming in here from Canada this summer by water, as it is now felt that producers can pay the duty, however much they dislike to. The disappointment is in hardwood, which has become so scattering all through the Canadian districts formerly patroled from here that there is not much use in hunting any more. If there is anything in hardwood on the other side of the line, please let the fact be known, and there is more than one dealer ready to take the next train for the spot. All of which means that we are so short of hardwood that any length will be gone in order to get a supply. It is coming down the lakes at a greater rate this season than ever before, especially to the Black Rock yards. The Sullivans, who were last to retire from Canada, have already brought down a number of cargoes and will continue through the season. They get red oak, elm, basswood, ash and the like, and if southern Michigan is laid under contribution white oak can be found, though it does not grow much north of Saginaw.

Manager Graves, of the Holland & Emery Lumber Company, is in the lumber woods of the Byng Inlet, and has both of the new saw mills running. The cut will be large, not a little of it coming to the yard at Black Rock. In order to facilitate the business a partial reorganization has been effected. L. P. Graves remains manager of the Holland & Emery Company, but will not be interested in the big yard at lower Black Rock very directly. A new firm, Holland, Manbert & George, has been set up, which will operate the yard and buy and sell mostly American lumber enough to keep it fully occupied. The members of the firm are N. C. Holland, son of Nelson Holland, A. C. Manbert and Henry George, long in the employ of the Holland interest.

The lake season opened late, but Buffalo has received 22,829,000 feet already, against 24,864,000 feet last season to date, which was close to twice as long as this season has been so far. The two Tonawandas have fallen short of last season only 5,490,000 feet, and will soon be ahead of it, as is shown by the canal shipments, which are 23,219,000 feet, against 7,400,000 feet to date last season.

Vessel men say that lumber freights by lake are firmer at the opening figure, $2 from Duluth, than they were at the opening, and they expect steady business all the season at paying rates.

The lumber yards of Buffalo entirely escaped the great strike that tied up everything else on the docks for more than three weeks. The shovers asked for more pay during the strike and obtained it, the dealers feeling committed to the advance on account of a promise that if business was good they would pay it. The existence of a strike may have had something to do with the advance, which was on a basis of 5 cents from the 22 cents per thousand that has been paid several years on pine, other woods being in proportion.

There is a good demand for shingles, and lath is very scarce. Hemlock lumber has lately advanced to $11 for 16 feet boards and under, which, considering that the price has been down to $8, shows that there is some demand for lumber in general.

The box factories are very active, and it is reported that they are making a good margin of profit, which was hardly the case a year ago. There is a large box business here. With ordinary demand for boxes, there would be such an overstock made that nobody could hope to make much profit.

Southern woods, as poplar, yellow pine and cypress, sometimes a matter of indifference to this market, are in about as much quest as any other, and prices are very strong. The report, made some time ago, that no sort of lumber was at all dull, is still more true now than it has been before in several years, if ever.

BUFFALO, June 5th, 1899. J. C.

THE QUEBEC TIMBER TRADE.

The following rafts have been entered up to date at the office of Mr. Jas. Patton, Supervisor of Cullers, Quebec: The Calvin Co., Ltd., at sundry coves, oak, elm, pine, etc.; Sheppard & Co., at Cape Rouge, pine; J. Burstall & Co., at Montreal, birch; Frank Perry, at Sault. Ste. Marie, pine; M. Dyment & Son, at Thessalon river, pine; H. G. Buck, at Sharples Cove, Sillery, birch, ash, elm, &c.; Hale, Booth & Co., at Cape Rouge, pine; Hale & Booth, at Cape Rouge, pine; J. TRADE IMPROVING IN IRELAND.

Reviewing the lumber market of Ireland, the following comment is made by the correspondent of the Timber News, of London.

Notwithstanding the very severe weather that has prevailed during the last fortnight, Irish trade, generally speaking, has been very fair, and imports all round the coast are looking forward to a good steady summer's business.

At Dublin, Belfast, Londonderry, Limerick, and Cork, Norwegian flooring cargoes, lately arrived, are receiving prompt attention at the docks in order to make room for steamer cargoes of Canadian deals now about due or on passage. The Glenarm Head, from Montreal and Quebec, for Belfast and Dublin, arrived at Belfast on the 24th inst., and the Innishowen Head, with a full cargo of wood goods from the same ports, arrived at Dublin on the 24th inst. also. These are the first cargoes of Quebec goods to arrive this season.

Several steamer cargoes of Miramichi spruce deals are now loading or on passage to the larger ports, Belfast claiming three, Dublin two, Cork one, and Limerick one. We do not hear of a solitary steamer cargo coming to hand from St. John, N. B., this season, and only two small sailer cargoes to Dundalk. The scarcity of deals there and the prohibitive prices asked no doubt account for this, as Irish buyers as a rule prefer St. John, N. B., to Miramichi deals.

Several of the smaller importers who refused to buy early in the season, when Miramichi deals were offering at £6. 8s. 9d. and £6. 10s. c.i.f., would now cheerfully pay shillings more to get their requirements; but the scarcity of small tonnage, and the small quantity of deals available at Miramichi and St. John, N. B., for prompt or even June-July shipment, make business difficult even at advanced figures.

THE BARBADOS MARKET.

Of the Barbados lumber market, Messrs. S. P. Musson, Son & Co., say:

The only arrival to note since our last is the schr. Fauna, from Bridgewater, N. S., with 42 m. ft. shipping and 86 m. ft. 2nd quality white pine. The large proportion of 2nd quality greatly facilitated the sale, and as one of our dealers was very much in want of the cargo, it brought the outside rate of $22.30 shipping, and $16.30 2nd quality. Other dealers' offers were very much below these figures. Schr. Grace Rice, from Calais, Maine, arrived to our address, on 13th, with 122 m. shipping ft. white pine boards and plank, and 30 m. ft. second quality. Sold shipping white pine at $21.50, and 2nd quality at $15.50. Shingles—The Taymouth Castle did not bring any long Gaspe cedar, as we had anticipated. Prospects continue favorable for cedar laying; neighbors offered a lot of 700 m. to be shipped, but we do not think that a sale has been effected.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JUNE 14, 1899 No. 21.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED — Situation as Lumber Inspector, Shipper and Culler. D. SQUIRE, Hoath Head, Ont.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

Washington Timber Land For Sale.

I HAVE A NUMBER OF TRACTS OF TIMBER Land in the State of Washington for sale; from 1,000 to 40,000 acres in each tract; heavily timbered with Cedar, Fir and Spruce. CHARLES RICHARDSON, Tacoma, Washington.

BOX BOARDS FOR SALE

CUT TO ANY DESIRED THICKNESS, AND lengths not exceeding 24" long, in Brown Ash, Basswood or Spruce.

J. E. MURPHY, Hepworth Station, Ont.

SAW MILL MACHINERY FOR SALE.

THE COMPLETE MACHINERY OF A SAW Mill, consisting of a steam feed large carriage and frame, one rope feed ditto, double edger and trimmers, swing saws, automatic grinders, belts and saws in good order; all made by Waterous, Brantford. Will be sold cheap. Apply to J. K. WARD, Mona Mills, Montreal, Que.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

NEW LUMBER FREIGHT TARIFF.

In answer to our enquiry Mr. Geo. A. Fowler, Lumber Agent of the C. P. R. at Ottawa writes:

"Taking effect June 1st some change was made in the rates on lumber from points on this line to points in Western Ontario, in most instances a general advance of ½ cent per 100 lbs. having been made, therefore effective June 1st rates to Toronto and Hamilton are as follows: On pine and soft woods from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9½ cents; from Sudbury Jct., Rayside and Chelmsford 10½ cents; from Cartier and Geneva Lake 11 cents; from Biscotasing, White Fish, Massey, Cutler, Spragge and Algoma, 12½ cents per 100 lbs., no change having been made in the rates on hardwood.

The rate from Ottawa, Hull, Aylmer, Deschenes, Arnprior and Pembroke, 10 cents per 100 lbs. No change has been made in the rates to Montreal and points in Eastern Ontario and Quebec, neither has any change been made in the rates to New York, Boston, etc. The rates from Ottawa to points on the Michigan Central, L. E. & D. R. R. and E. & H. Ry. have been somewhat changed, in some instances a higher and in other instances lower rates have been made."

CURRENT TRADE CONDITIONS.

ONTARIO.

The Mississippi Valley Lumberman sizes up the Canadian situation in this terse fashion: "The fact that buyers from the eastern states have paid three dollars per thousand more for mill culls on Georgian Bay this year than during the days of free lumber, is a poor argument for the removal of the duty—from a Canadian standpoint." Certainly the Ontario lumber manufacturer has at present little cause for complaint, notwithstanding the fact that a duty of $2 per thousand confronts him when seeking to enter the United States market. Under present conditions, when the demand equals, if not outreaches, the supply, this duty is not a serious hindrance to trade. Reports to hand during the past week go to show that Canadian low grade lumber is finding ready sale in United States market at satisfactory prices, while in the British market there is good demand for the highest grades. Companies who two or three years ago were being sympathized with on account of having on hand large stocks of dry lumber for which they could not find a market, to-day occupy an enviable position in the trade. Stocks of such lumber are rapidly becoming exhausted. Our reports agree in stating that stocks at present are light. Medium grades, for which there has been least demand, are now beginning to be drawn upon, and an improvement in price may be looked for. The demand for shingles is particularly good. One hardwood manufacturer writes from the Georgian Bay district that stocks of hardwoods are being shipped out, in answer to local demand, almost as soon as sawn. This correspondent mentions having recently received an offer from a manufacturing firm in Cleveland for 300,000 feet per year of maple, common and better, for a period of five years, at the price of $13 per thousand. "This," says our correspondent, "looks as if the market would be all right for maple." American owners of timber in the Georgian Bay district will probably find some difficulty under present circumstances arranging with Canadian mills to manufacture their timber, as mills in the Georgian Bay district are likely to be operated to their full capacity on owners' account. An American journal states that this timber will be allowed to remain unmanufactured for the present, in the expectation that when the International Commission shall again meet, the Ontario regulation prohibiting the exportation of logs will be done away with. Meanwhile, whether there is any probability of the fulfillment of this expectation or not, Canadian manufacturers of lumber will no doubt take the fullest possible advantage of the present favorable condition of the markets at home and abroad.

QUEBEC AND NEW BRUNSWICK.

The movement of timber from Montreal and Quebec to British ports has just commenced, the first arrival at London from Quebec having been the steamship Montenegro, carrying a consignment of deals from Richard R. Dobell & Co. A raft of 11,000 pieces of square timber, selected rock elm and oak, 60 feet in length, cut in Michigan, passed down the St. Lawrence a few days ago for Quebec, where it will be loaded for Europe. The condition of the British market is such that unless shipments are made too rapidly and too large, satisfactory prices are likely to be realized throughout the season. Conditions in New Brunswick continue satisfactory. The curtailment in manufacturing throughout this province last year owing to the overplus stock and consequent low prices in the British market, left a much less quantity of stock than usual in the hands of manufacturers for export this season. The mills are reported to be in active operation and the bulk of the winter's cut of logs has been successfully floated to the mills. Coast freights remain firm, while ocean freights have advanced considerably. New Brunswick shingles are finding ready sale on the Boston market at prices ranging from $3.10 to $3.15, as compared with $2.60 to $2.65 for Michigan and Wisconsin shingles. The Boston correspondent of a new York lumber journal states that this difference in price in favor of New Brunswick shingles is attributable to the superior methods of manufacture employed in this province.

MANITOBA AND BRITISH COLUMBIA.

There has up to the present been a brisk demand throughout Manitoba and the Northwest for lumber, briefly interfered by the recent strike at Winnipeg. This difficulty, however, is now removed. Harvesting operations will commence shortly, when a temporary slackening of demand is likely to be felt. There is, however, every indication that the harvest of the present year will be an abundant one, resulting in a still greater degree of prosperity to the farmers of this western country and leading to the carrying out of improvements for which large quantities of lumber will be required In British Columbia lumber conditions

are satisfactory. There has been a rapid growth in the local demand consequent upon the stimulus given to all departments of trade by mining development. There has also been a growing demand from the European, Australian and other foreign markets. The cedar shingle industry has recently been conducted on a more profitable basis. The extensive demand for red pine shingles has resulted in a rise in prices, and the red cedar shingle has also benefitted thereby. The shingle manufacturers in Washington territory, with whom manufacturers in this province have been obliged to compete in price, have recently organized themselves into county and state associations, with the object of maintaining prices, regulating weights, and guaranteeing the quality of their product. This step should prove beneficial to the manufacturers of shingles in British Columbia, regardless of whether they connect themselves with the American organization or not.

UNITED STATES.

The reports from all the principal markets throughout the United States agree in stating that the demand for most classes of lumber is exceptionally active at the present time; in fact, there has not been seen for many years such an active condition of the market for almost all kinds of stock. In the case of hardwoods there is the greatest uncertainty regarding prices, owing to the difficulty of obtaining the required stock, and this uncertainty is said to be interfering to some extent with the developments of trade. The manufacturers in the northwestern States are advancing prices, and the statement is made that considerably higher figures are being asked by some of these manufacturers than old stock is being sold for by the Albany dealers. The unusual prosperity now prevailing in all departments of industry throughout the country has greatly increased the demand for unskilled labor. Owing to this circumstance, higher wages are being demanded by the workmen at the mills. To this, coupled with the extraordinary firmness of the demand, is probably due the demand of the manufacturers for higher prices. Hemlock has advanced 75 cents, and is now selling at the highest price ever known, viz., an average of $13.25. Quartered oak sells readily in the Boston market at $70 to $75 per thousand for the highest grades. The peculiar fact is noticed in connection with this class of stock that the price, which was formerly below that of plain sawn oak, is now considerably higher, and constantly advancing. Reports from Baltimore state that there is a good demand for white pine, and that prices are advancing. The rafting of logs cut in the Georgian Bay district by Michigan limit holders and mill owners prior to the enactment of the Ontario prohibitory law is about to commence. The quantity of such logs to be brought over this season is estimated at 75,000,000 feet. The interesting statement is published that, according to statistics compiled and presented at a recent meeting of prominent lumber manufacturers of Georgia, the timber supply of that state will become exhausted in six years if the present rate of manufacturing be continued.

FOREIGN.

The return of "Derby" week, as usual, demoralized trade conditions to a considerable extent. Reports from London state that the importations have thus far been much lighter than usual. If the average season's standard is reached, there must shortly be a rush, with consequent confusion on the docks, and delays in delivery to buyers. Freights from New Brunswick and Nova Scotia have advanced from 40s to 45 and 46s, and it is not improbable that they may go still higher. What effect this will have on the volume of imports cannot be definitely stated as yet, but in view of the activity of the demand in this market for many kinds of lumber, the increased carrying charges are not likely to severly check shipments. The Bristol Timber Importers' Association have memoralized the Town Council protesting against the increased dock rates imposed by the Dock Committee on wood goods consigned to the port of Avonmouth. At an auction of wood goods by Messrs. Churchill & Sim, London, there was but a small attendance of bidders, owing to the counter attraction of the "Derby" already referred to. Low prices were obtained for small lots of common spruce, and best bright prime short ends flooring and matching realized fair values. More than usual activity prevails at Liverpool, and spruce deals, notwithstanding heavy imports, are finding ready sale. For the month ending June 1st the stocks at this port were as follows: Quebec pine, 46,000 cu. ft., as compared with 86,000 cu. ft. for the same month last year; waney pine, 63,000 cu. ft., as against 168,000 in 1898. Quebec pine deals are slightly in excess, and spruce deals at the same as last year. At Glasgow, hardwoods are exceptionally scarce, particularly elm, ash and birch. Stocks of British Columbia and Oregon pine are small, and fresh arrivals should find a good market.

THE BRITISH MARKET.

Messrs. Farnworth & Jardine, of Liverpool, in their monthly review of the market, dated the 1st inst., say regarding Canadian woods:

For WANEY PINE there is a fair demand, stocks are light and values steady. SQUARE.—The demand is limited and stocks are sufficient. RED PINE.—There is little enquiry, but stocks are now small. ST. JOHN.—A parcel of very prime quality has just arrived. OAK.—There has been no arrivals; the deliveries have been small, and the demand continues very dull; stocks are sufficient, but there is little change in value to report. ELM.—There has been more enquiry, and Prime Fresh Wood is wanted; the stock is light and values have improved. ASH.—There is little enquiry; but stocks are getting bare. PINE DEALS.—The arrivals have been large, the deliveries unsatisfactory, and there is no improvement in values to report; stocks are much too heavy. RED PINE DEALS are in steady request, and prices rule firm. The arrivals of NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS have been very heavy, amounting to about 11,600 standards, against 1,726 standards same month last year; with a steady demand there has been a good consumption, and stocks, although increased, are not excessive. There is little change in value to report, but shippers are asking higher rates to meet the advance in freights. PINE DEALS are dull of sale. ST. JOHN BIRCH has been imported more freely, and the deliveries have been satisfactory; values are firm, and the stock is moderate. PLANKS have not met with so ready sale, and prices have declined slightly; stocks are heavy.

The circular issued by Messrs. Allison, Causland & Co., of Glasgow, says: There is no special feature of interest to report during the past month. Prices have improved in most cases, but the larger buyers had so many opportunities of purchasing at such very low prices that they will not yet give the advance asked for, preferring to hang off for the present and watch how the market may turn. Several shipments per liners have arrived, the bulk of which is on contract for local merchants. Shipbuilding and housebuilding trades continue brisk, and the wood booked is ample for a considerable time. Hardwoods are exceptionally scarce at present, the supply not being equal to the demand. Provided imports are moderate a satisfactory business should be done, but the result of such heavy consignments during the last two years have still a depressing effect on the market. Regarding stocks and prices of various Canadian woods in the Glasgow market this circular says:

YELLOW PINE.—Waney.—The stock of prime wood is now small, and prices are firm. There is very little demand for inferior wood, the stock of which is very heavy. Quotations—1st Class, 19 to 20 inches average, 2s 6d to 2s 9d. 2nd Class, 15d to 2s per c. ft. Square—The stock of prime wood is of very small average, for which there is only a very limited demand. RED PINE.—Seldom enquired for, except for large girthy wood. ELM.—Demand moderate, and prices keep very firm. 1st Class, 45 to 50 feet average is quoted at 2s 2d to 2s 4d. 2nd Class, 22d to 2s per c. ft. OAK.—Demand very limited, and little business reported. ASH.—In good request, prices firm, at 22d. to 2s. per cu. ft. for 15 to 16 inches wood. BIRCH.—Stock very limited. Several parcels sold ex quay at satisfactory prices. Quotations.—18d to 19d for 15 to 16 inch average. PINE.—Firsts.—The demand for broad deals has been good, and prices are much improved. Undersized, if of long average, are wanted. Short undersized are heavy in stock, and are little asked for. Quotations—broad, £24 1s 3d to £24 15s. Undersized, £17 3s 9d to £19 5s per St. Pet. Std. Seconds.—The enquiry is very light, and few sales are reported. Broad are quoted at £16 10s to £19 5s. Undersized, £13 1s 3d to £13 15s per St. Pet. Std. Thirds.—The demand has been moderate, and principally for regulars, which are not heavy in stock. Undersized are very slow to move, except at very low prices. Quotations.—Regulars, £9 5s 7d to £10 6s 3d. Undersized, £7 4s 4d to £8 5s 0d. per St. Pet. Std. Fourths.—Although prices have improved, business is very slow. Regulars are quoted at £6 17s 6d to £7 11s 3d. Undersized £6 3s 9d to £6 10s 7d per St. Pet. Std. RED PINE.—There is no stock in first hands. Early shipments will meet with a ready sale. SPRUCE.—Some recent shipments are reported sold ex quay at fair prices. Quotations.—£6 3s 9d to £7 11s 3d per St. Pet. Std. BIRCH.—There has been a good business done both in logs and planks at satisfactory prices. Logs are quoted at 14d to 15d for 16 inch average. Planks, 10d to 11d per cubic foot. DEALS, BATTENS, AND BOARDS.—Prices still keep very low, and the demand has been practically for narrow deals. Quotations.—£6 3s 9d to £7 11s 3d per St. Pet. Std. SPRUCE.—The demand keeps good and a satisfactory business has been done. Quotations.—£5 16s 10d to £8 5s per St. Pet. Std.

THE AUSTRALIAN MARKET.

Concerning the Australian lumber market, Messrs. Fraser & Co., of Melbourne, say:

Stocks on hand have not been dealt in to any material extent, no improvement in this direction having been shown within the past month, though as landings at the wharf and supplies to arrive are not of importance there has been a desire to secure better rates, and in several descriptions of timber slightly higher prices are now being asked, and must ultimately be obtained, not only in the smaller but also in the larger operations which may be concluded in the near future. Although the trade, as a whole, are now in possession of fairly good stocks, we are inclined to the belief that an increased enquiry will be experienced ere long for present holdings, and more especially when it is recognized that existing quotations for mostly all the leading lines are below those at which these could now be laid down at. The irregularity of values among the distributing mills has of late in a great measure prevented prices for importations being fixed upon a fair and proper basis, but we understand that more unanimity is now being shown, which should help to at least some extent in improving the position of those interested here and abroad in cargo operations which are made to this market from time to time.

SPRUCE AND BALTIC WHITE DEALS.—Imports: 892,946 feet super. Arrival: Osberga, from St. John's N.B. A little further business has been done from stocks in the yard. A small portion of the above shipment has also been placed. Prices range from 2½d to 2⅝d per foot of 9 x 3 for an average specification.

OREGON PINE.—Imports, Nil. Stocks in the yards of importers have not been in much demand, but in sales concluded prices paid show no alteration upon late rates, viz., £5 15s for sizes 11 x 6 and down, and £5 5s for 12 x 6 and up, or an average of £5 10s per 1,000 feet super. Some business "to arrive" has been done upon this basis. Holders are, however, firm, and it is probable that a slight increase will shortly be required.

The extensive saw mill of Alfred Dickie at Lower Stewiacke, N. S., was totally consumed by fire on Wednesday, May 31st. The fire originated from a spark from a passing engine and consumed the mill, several million feet of lumber ready for shipment, dwelling houses, barn and cook house. Two vessels were loading lumber at the port, and a thirp was discharging ballast preparatory to loading. The loss is heavy.

WANTED

Rock Elm, cut to order.
Soft Elm, all thicknesses.
Black Ash, all thicknesses.

State quantity you can supply, with lowest prices.

THE QUEBEC TIMBER TRADE.

Following is a comparative statement of timber, measured and culled, to the 13th inst., at the Supervisor of Cullers' office, Quebec :

	1897.	1898.	1899.
Waney white pine, cu. feet..	600,000	405,611	620,148
White pine, cu. feet.....	64,822	112,680	60,005
Red pine, cu feet.....	55,932	41,115	73,752
Oak, cu. feet.....	471,978	405,267	110,985
Elm, cu- feet.....	170,9 6	187,436	236,973
Ash, cu. feet.....	21,582	18,793	40,085
Butternut, cu· feet.....		795	60
Birch and Maple, cu. feet...	139,171	95,946	223,409

A PROTEST.

A firm of lumber manufacturers in the Georgian Bay district write : "We might mention that the Grand Trunk Railway people have treated us most unfairly in their new tariff in the matter of rates on cedar. They raised rates on all other kinds of lumber ½ and 1 cent per 100 lbs., of which we make no complaint, but on cedar lumber and posts they raised the rate 3c and 4c per 100, making it almost prohibitive. They can only have the one object, and that is, to stop the shipping of cedar altogether on their lines, so that they can get it at their own price.

We have, along with the other mill men in this section manufactured many thousands of dollars worth for them in the past, but for the last two years their manner of inspection and shipping has grown to be so unsatisfactory, that we find it impossible to do business with them and have looked for other markets, hence we presume their latest move. There is great indignation among the mill men. It is undoubtedly one of the most high-handed tricks ever perpetrated by any corporation. There is a great deal of cedar handled here and it is particularly hard on us all, as a very large proportion of what we cut they could not, and would not handle themselves."

SHIPPING MATTERS.

The ship Charles, now repairing at Halifax, will load a cargo of deals for the west coast of England at 46s. 3d.

Barquentine Sunny South has been chartered to load lumber at Annapolis, N.S., for Buenos Ayres and Rosario at $10.50 and $11.50.

Schooner Sirocco has cleared from Halifax for New York with a large cargo of lumber, viz., 171,133 feet deals and 1,071,000 laths, shipped by Miller & Woodman.

A dispatch from Tonawarda says: Never in the history of the Tonawanda canal port have rates on lumber to Albany and New York been so low as at the present time. The rate now being paid to Albany ranges from 95 cents to $1.05 a thousand, while the general rate to New York is $1.55. Only a few carriers are getting much more. Last season the lowest point reached in rates to Albany and New York was $1.25 and $1.75 respectively. Few boatmen are willing to load at the existing rates, and consequently a large number of boats are tying up to await better prices.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JUNE 21, 1899 No. 22.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the "Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED — Situation as Lumber Inspector, Shipper and Culler. D. SQUIRE, Hoath Head, Ont.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

FOR SALE.

ONE CARLOAD BASSWOOD, CUT ¼-INCH thick, 5 to 7 feet long, 4 to 5 inches wide, dressed if desired to ⅜-inch thick. PATENT CLOTHBOARD COMPANY, Parry Sound, Ont.

SAW MILL MACHINERY FOR SALE.

THE COMPLETE MACHINERY OF A SAW Mill, consisting of a steam feed large carriage and frame, one rope feed ditto, double edger and trimmers, swing saws, automatic grinders, belts and saws in good order; all made by Waterous, Brantford. Will be sold cheap. Apply to J. K. WARD, Mona Mills, Montreal, Que.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

TO LUMBER DEALERS

THE NEWFOUNDLAND IRON ORE CO., Limited, of Workington, Newfoundland, invite tenders for the delivery at Old Perlican, Trinity Bay, Newfoundland, of a large quantity of

12 AND 10 INCH SQUARE SPRUCE SAWN TIMBER

Specifications may be obtained at the office of this paper.

The Company does not bind itself to accept the lowest or any tender.

S. HERBERT WILLIAMS,
Superintendent.

TIMBER SALE.

Owing to the death of Mr. Thos. Hale, the business of Hale & Booth is to be wound up, for which purpose it is announced that an auction sale of timber limits belonging to the estate will take place at the Russell House, Ottawa, on September 6th. These berths are situated on the north shore of Lake Huron, in the township of Butt, Serpent river, Vermillion river and the township of Spragge. With these limits will be sold shanty plant.

Lumbermen requiring the services of a good shipper can obtain the address of one who is open for engagement by addressing this office.

CURRENT TRADE CONDITIONS.

ONTARIO.

The reports to hand during the past week all go to show that lumbermen are not suffering from anxiety regarding outlets for the sale of their products. On the contrary these reports indicate that stocks are being disposed of rapidly and at most satisfactory prices. Even better than this is the prospect that these conditions are likely to continue for some time to come, if indeed a further improvement in prices does not take place. As stated last week stocks of all kinds are becoming very small, especially low grades, which have found an unusually good market in the United States. The action of the Mississipi Valley Lumbermen's Association in advancing prices of white pine would go to show that the United States demand is likely to be permanent for some time to come. This advance amounts to an average of 50 cents per thousand, the lowest advance being 25 cents on laths and the highest $1.50 on 4 inch No. 2 16 feet, with $1 on several other kinds of stock. As regards the condition of stocks in Ontario, the representative of an American firm who has been visiting the mills since early in February, states that he succeeded in purchasing less than 6,000,000 feet, while in former years a similar effort would have produced ten times that amount. He is satisfied that the reports of large stocks of unsold lumber in Ontario are totally unfounded. Our own reports coincide with this statement. The shingle market is particularly active and all classes of hardwoods, even cordwood, are selling better than for many years. We are advised that production in this line will not equal the demand for some time to come. In many instances stocks are entirely sold out. The Ontario government are watching the various outlets in the Georgian Bay district to see that the law prohibiting the export of logs to the United states is not being violated. Mr. Williams, of Peterboro, who recently visited the district with this object, reports that there is not likely to arise any difficulty. Some of the American firms are storing their logs in the vicinity of Manitoulin Island in the hope that some change may be made in the Ontario regulations, while others have apparently taken it for granted that this regulation will stand, and are making arrangements to have their timber cut in Canada. A delegation of lumbermen met Senator Fairbanks, chairman United States High Commission at Minneapolis and protested against any lowering of the American lumber tariff. The Pacific coast lumbermen in a conference at Tacoma, expressed themselves in a similar manner. They urged that a reduction of 20 per cent. on rough lumber be considered as the ultimatum of the American members of the joint High Commission to their Canadian associates, and that no concession be made on dressed lumber such as laths, staves, clap boards, pickets, shingles, etc. If as a leading American lumber journal states, the supply of white pine is being concentrated in few hands and that there will never again be a marked decline in value, Canadian lumbermen need have no cause for serious alarm on the tariff question.

QUEBEC AND NEW BRUNSWICK.

Reports from mills throughout the province of Quebec indicate that the demand for spruce, shingles and lath and the lower grades of white pine is unusually active—shingles and spruce being in greatest demand. Orders for above classes of stock are in some instances booked ahead. Some spruce deals were held over from last year, but are now nearly all sold. This applies also to railway ties. The tendency of prices is reported to be strong and upwards, particularly on lower grades. Export business is becoming more active, but is being restricted by want of vessels and consequent high carrying charges. The local demand is also satisfactory. A considerable amount of timber will be required for the erection of elevators and the carrying out of the harbor improvements at Montreal. The exports from St. John during the month of May were valued at $424,267, as against $177,271 for the same month last year. The increased value this year is partly due to higher valuation. Shipments to Great Britain have thus far come considerably short of the same period last year, stocks in the hands of manufacturers being much smaller and vessel charges considerably higher, two causes tending to reduce shipments. The spruce market is very firm. The prospect at present is that most of the logs cut will be brought to the mills, but the quantity is believed to be less than last year; this applies particularly to Nova Scotia. It seems certain, therefore, that there will be no weakening of the market, but on the contrary there is the possibility of prices going higher.

MANITOBA AND BRITISH COLUMBIA.

The market for lumber throughout Manitoba and the Northwest continues active. There is a large requirement for new buildings in course of erection and to be erected in Winnipeg, where building operations are being carried on on a much larger scale than for many years past. There is also a considerable amount of building being done in the smaller towns throughout the country. The announcement which has been recently made regarding the greatly increased area of lands placed under cultivation this year should also be significant of a greater demand for lumber for elevator construction and other purposes.

Trade conditions in British Columbia continue to be in most respects satisfactory. There is a large foreign demand, which is, however, being hampered to some extent by lack of suitable vessels. Lumber freights are firm at higher rates, recent charters being as follows: British Columbia or Puget Sound to Sydney, 40s. to 41s. 3d.; Melbourne or Adelaide, 48s. 9d. to 50s.; Port Pirie, 46s. 3d. to 47s. 6d.; Freemantle, 60s. to 61s. 3d.; Shanghai, 51s. 3d. to 52s. 6d.; Tientsin, 60s. to 61s. 3d.; Valparaiso, f.o., 42s. 6d. to 45s.; South Africa, 62s. 6d. to 65s.; U.K. or Continent, 62s. 6d. to 65s. The

manufacturing capacity of the province is being rapidly increased to meet the requirements of trade. The Victoria Lumber & Manufacturing Co., of Chemainus, for example, have doubled their capacity. This company are now handling 80 cars per day and employing 300 men. The shipments of lumber from this province during the last year are given as follows: From Vancouver, valued at $102,919; from Chemainus, $160,351; Cowichan, $9,300; Salt Spring Island, $8,200; New Westminster, $5,796; Moodyville, $119,135, making a total of $405,701, shipped to Australia, China, South Africa, the United Kingdom, Mexico and South American points. Judging by the following statement presented to Senator Fairbanks at Tacoma by the lumbermen of Washington territory, as an argument in favor of the present tariff on lumber being maintained, British Columbia manufacturers are an aggressive and formidable element in the trade on this coast: "British Columbia manufacturers shipped no lumber to California previous to the passage of the Wilson tariff act, but immediately after it went into effect, they commenced to compete with us in our home market, down went our prices, and lumber business on the Pacific coast became demoralized. It was only a question of who could stand the tremendous losses longest. Mills were shut down, men were thrown out of employment, and those who did work, worked short time and at reduced wages. Old established lumber manufacturers, who had been in business for years, were forced to stop, and their plants and business were placed in charge of receivers. Many properties were sold out and changed hands at nominal prices and at a great loss to original owners and their creditors."

UNITED STATES.

The most important event affecting the market for lumber in the United States during the past week was the meeting at St. Paul, Minn., of the Mississippi Valley Lumbermen's Association, at which about thirty five of the leading white pine manufacturers of the Northwest were represented. The meeting was called to consider the report of the price list committee. The chairman of this committee stated that in order to arrive as nearly as possible at the actual condition of the market a circular had been issued by the committee to the trade requesting answers to a series of questions. The information received in answer to these questions showed that there is a shortage in stocks amounting to 400,000,000 feet as compared with last year, while all the answers went to show that the prospects of trade are better than for years past. After a full consideration of this report the association decided to advance prices all round by 50 cents per thousand. This advance to take effect on the 20th inst. Statistics have also been collected regarding building operations, and these go to show that the extent of operations is greater by 100 per cent. than in 1898. The relative value of new buildings in twenty of the principal cities of the Union is as follows: 1898, 14,048,190; 1899, 29,111,084. Notwithstanding the approach of the harvest and vacation season and the advent of the new cut of the mills, prices remain unaffected and firm. The demand for hemlock is particularly active and Pennsylvania prices were recently advanced $1.00 per thousand. The hardwood situation remains about the same as reported last week. Red cedar shingles are likely to advance in price from 10 to 15 cents per thousand as the result of the decision of the mills in Washington territory to close down during the first part of July. Prices for spruce remain firm with a slight advance in price of lath.

FOREIGN.

There appear to be several influences at work tending to maintain the present satisfactory condition of prices in the British market. One is the largely increased home demand for almost all kinds of American timber products. This is having the effect of restricting exports. A New York lumber journal states that a large number of British and Continental lumber buyers who came to the United States on a purchasing tour have returned home greatly disappointed. It is said that not only were they unable to open commission accounts, but were discouraged by the high prices asked for stock on an f.o.b. vessel basis. The increased demand from South America and the West Indies is also lessening the amount of the exports from the United States to Great Britain and the Continent. In addition to this, so far as Great Britain is concerned, there must be taken into account the active demand existing in the French and German markets. The difficulty of securing vessels to carry lumber is also having its effect in restricting exports. It is not surprising, therefore, to learn that with an active consumption for building and other purposes in the British market, timber cargoes in the majority of instances are contracted for in advance of arrival, and on leaving the vessel go into consumption immediately. British buyers find much difficulty in estimating the future conditions of supply and demand, and are conducting their operations cautiously. Caution is also being exercised by shippers on this side of the water, in view of the scarcity of vessels and high carrying charges. The import of spruce deals at Liverpool and Manchester has been considerable, yet not in excess of the demand, and prices continue very firm with a disposition to advance at Manchester. The stock of waney and square pine at Liverpool is said to be about exhausted. There is a good demand in this market for fresh birch logs; a parcel of timber of this character arrived there recently from St. John, N.B.

STOCKS AND PRICES.

Mr. Peter's mill at Parry Sound has commenced operations, a large stock of logs having arrived there a few days since.

G. D. McArthur will cut about 4,000,000 feet of logs at his mill at Selkirk, Man., which is about to begin operations.

Senator E. B. Buchanan is reported to have sold to the Rat Portage Lumber Co. 4,000,000 feet of logs and his logging outfit on Rainy river.

The Conger Lumber Company's drives have reached Georgian Bay. They will be towed to Parry Sound and there cut into lumber at the company's mills.

The first raft from Canada to Michigan reached Tawas for Saginaw, recently, consigned to the Saginaw Lumber & Salt Co. It contained nearly 3,000,000 feet, logs being cut from Indian reserve lands.

The Rathbun Company's drive of logs, which passed through the Trent Canal recently, is the largest in twenty-five years, being about 25 miles in length. The logs are said to be of good size. A raft containing about 65,000 logs reached Messrs. Chew Bros.' mill at Midland a few days ago. It is estimated that 3,000,000 feet of lumber can be produced therefrom.

THE BRITISH MARKET.

Messrs. Edmuston & Mitchell, of Glasgow, in their monthly circular of date May 31st say: Business during the past month has been, as is usually the case about this time, rather quiet, the buying being of a retail nature, in anticipation of the new season's arrivals. Several steamers are to hand from Montreal with large quantities of deals, etc., principally on contract, and it is expected that, until the grain shipments commence, the import of wood goods will be considerable.

Of old stock there has been considerable depletion, notably, in 1st, 2nd and 3rd pine deals, pine sidings, red pine and spruce deals, etc., and the statistical position of these is favourable and prices firm. Deliveries of logs and lumber have been of an average amount during the month.

We learn of no important sales of deckwood recently, but the tendency of prices is decidedly firm. Joiner wood has been sold at from 2s 3d to 2s 5d per cubic foot, in ponds. No demand for inferior woods. Shippers of first-class ash will meet with a ready market. There is a satisfactory demand for 15 and 16 inch and larger birch logs. Some demand for first-class white ash.

Messrs. Churchill & Sim, in their monthly circular of June 2nd say: From the St. Lawrence the importation is, pine deals, 98,000 pieces, against 86,000 pieces in 1898; spruce deals, 137,000 pieces, against 78,000 pieces in 1898. From New Brunswick, etc., pine deals, nil pieces, against 2,000 pieces in 1898; spruce deals, 14,000 pieces, against 210,000 pieces in 1898; birch planks, 74,000 pieces, against 42,000 pieces in 1898. There is nothing to report of moment in this market for Canadian wood. The first steamer shipments are arriving, but as usual with these early parcels they go direct overside in fulfilment of contracts. The market sales of pine and spruce deals here consists of remnants and re-sales from the 1898 importation, and for these no change of quotation is apparent during May. Oak is the only hardwood that shows even a retail improvement. Birch, elm, ash and yellow pine timber all tend to rather lower figures, the first on an incoming supply of fairly ample proportions, and the three latter from lack of demand.

From the circular of Messrs. Wright, Graham & Co., of Glasgow, it is learned that square pine is in fair request. 35 to 40 feet average quoted at 2s 3d to 2s 6d; smaller average and poorer quality at 1s 5d to 1s 9d per cubic foot. Prime large red pine is in demand. Smaller average and poorer quality is selling at from 1s 3d to 1s 6d per cubic foot. The demand for oak logs is moderate; first-class large wood quoted at 2s 6d to 3s, poorer average and quality at 1s 9d to 2s 3d per cubic foot. First-class elm logs are in demand; price 2s 2d to 2s 4d, smaller size and poorer quality 1s 9d to 2s per cubic foot. The market is in want of large average ash logs, and early arrivals of same will meet with ready buyers; price 1s 10d to 2s for 15 to 16 inch average; less average at 1s 6d to 1s 9d per cubic foot, according to quality. Large prime birch logs are keenly competed for, and early arrivals are being quickly picked up. 16-inch average is quoted at 1s. 8d. to 1s. 10d. A small parcel brought as high as 2s. 14 to 15-inch average is quoted at 1s. 5d. to 1s. 6d. per cubic foot. There has been good inquiry for rock maple logs, and several parcels sold at 1s. 10d. to 2s. 2d. per cubic foot, according to size and quality. Large logs are specially asked for. Consignment parcels of hickory logs are finding ready buyers. Prime second-growth logs are selling at 2s. 3d. per cubic foot, poorer quality at 1s. 9d. to 2s. per cubic foot. There is a fairly good demand for Quebec white pine boards.

SHIPPING MATTERS.

The steamer "Peerless" has been chartered to carry deals from St. John to the w.c. of England at 45s.

The steamer "Aldersgate" has been chartered to carry lumber from West Bay, N.S., to Manchester at 44s.

The following charters are announced: From Quebec 45s to London, for June-July loading, also 47s 6d for a June boat to Hull.

A Vancouver despatch says that they are now loading at Portland four vessels which will carry away from that port over 9,000,000 feet of lumber.

The bark "Medura" has been chartered by H. J. Crane to load lumber for South America at Annapolis. Other vessels loading at this port as follows: Brig "Moss Glen," Hire, sailed on Saturday for Grenada, loaded by T. S. Whitman, with 150,000 feet. The schooner "Pearline," Berry, is now lying in the stream with a cargo of 180,000, loaded by Pickles & Mills.

The bark Mary A Law is now loading lumber at Annapolis, N. S., for South America for Messrs. Blackadars & Co. She will ship 850,000 feet. Rates for deals are well maintained at St. John, N. B., but shippers are refusing to bid more than 45s for additional tonnage. Shipping to South America is very active. Freights range from $9 to $9.75.

An enquiry has been received at the offices of the Canadian government in London, Eng., for suitable timber cut to size for pyramid butter boxes, sufficient for from fifty to one hundred thousand boxes.

THE WEST INDIES.

Messrs. Clairmonte, Man & Co's circular dated May 27th, says :

Since our last advices there have been no arrivals with lumber. White pine, moderate supply, the cargo of the Grace Rice, reported in our last, was sold at $21.50 for first and 15.50 for second quality ; spruce, demand continues good, last sale $15 for first quality. Pitch pine in supply, last sale $21.11 for merchantable, $15.51 for refuse, and $13.51 for second quality.

The damage done to houses by the hurricane in September last has been repaired, and should shingles now arrive in any large quantity, we look for a sharp break in prices. Last sales of long Gaspe cedar : ex New Dominion, at $3.50 @ $4.66 per M, as to quality ; cedar laying $2.07 ; spruce laying $2.27½ ; cypress sales ex store $8.50 6-in. hearts, saps $6.50.

May 17th : Schr New Dominion, from Halifax, with 700 M Gaspe shingles.—250 M large sold $4.56, 50 M extra large $4 66, remainder, small, $3.50.

The circular of Messrs. S. P. Musson & Co. states : There have been no further receipts of either white pine or spruce. A small lot of the latter 36 m. ft. has been sold to arrive from a neighboring port at $15.25.. With regard to white pine, the absence of arrivals is having a healthy effect, and one or two cargoes would do well; especially with a good proportion of 2nd quality. In shingles the Taymouth Castle brought to our address some 400 m. long Gaspe cedar, for which we were forced te accept $3.50, as stocks were accumulating. For a few 6 in., 5 in., and 4 in., we obtained $6.61, $5.61 and $4.61, respectively. The demand for this class of shingles is becoming very slack,—inquiry continues for cheaper grades of cedar laying shingles. No late receipt of pitch pine. Nothing to report in either shooks or wood hoops.

THE QUEBEC TIMBER TRADE.

Following is a comparative statement of timber, measured and culled, to the 20th inst., at the Supervisor of Cullers' office, Quebec :

	1897.	1898.	1899.
Waney white pine, cu. feet..	670,037	590,423	689,238
White pine, cu. feet.....	69,449	259,585	87,373
Red pine, cu feet.....	55,980	42,642	73,752
Oak, cu. feet.....	514,903	432,436	168,370
Elm, cu. feet.....	235,577	217,084	289,598
Ash, cu. feet.....	65,010	18,971	40,872
Basswood, cu. feet	15	795	
Butternut, cu· feet.....	247		60
Birch and Maple, cu. feet...	147,922	106,042	226,683

Rafts entered at the Supervisor of Cullers' office since last report : The Calvin Co., Ltd., at sundry coves, oak ; The McArthur Bros. Co., Ltd., at New Liverpool Cove, oak, elm, etc.; Dyments (drams), at Sharples' Cove, Sillery, waney pine ; Blanchards (drams), Sharples' Cove, Bridgewater, oak, etc.; The Calvin Co., Ltd., Rings End Cove, oak and pine ; Archie McArthur & Son, New Liverpool Cove, pine, ash, maple, etc.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JUNE 28, 1899 No. 23.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.

CEDAR, 8x10, 10x10, 12x12, from 10 to 24 feet long. Apply to W. A. PLAYFAIR, Playfair, Ont.

PINE FOR SALE.

45 M FT. GOOD PINE LUMBER, 12 and 14 ft. long, 2, 1½, 1¼ and 1 in. thick—sawn in May. At Baird's Mill, five miles from Markdale. J. RITCHIE, Glascott, Ont.

SAW MILL MACHINERY FOR SALE

LARGE SAW AND SHINGLE MILL AT LONG Lake, capacity 30,000 ft., complete with first class machinery. Engine 22×26, 4 Boilers, Shafting, Belting, etc.

ALSO

VALUABLE SHINGLE AND PONY SAW MILL in the Village of Port Sydney, a Boarding House and 4 Lots adjoining. Excellent situation for buying Timber and Shipping. Must be sold at once.

THE UTTERSON CO., Limited.
Toronto, Ont.

TO LUMBER DEALERS

THE NEWFOUNDLAND IRON ORE CO., Limited, of Workington, Newfoundland, invite tenders for the delivery at Old Perlican, Trinity Bay, Newfoundland, of a large quantity of

12 AND 10 INCH SQUARE SPRUCE SAWN TIMBER

Specifications may be obtained at the office of this paper.

The Company does not bind itself to accept the lowest or any tender.

S. HERBERT WILLIAMS,
Superintendent.

WANTED—Situation as Lumber Inspector, Shipper and Culler. D. SQUIRE, Hoath Head, Ont.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

FOR SALE.

ONE CARLOAD BASSWOOD, CUT ¼-INCH thick, 5 to 7 feet long, 4 to 5 inches wide, dressed if desired to ⅜-inch thick. PATENT CLOTHBOARD COMPANY, Parry Sound, Ont.

SAW MILL MACHINERY FOR SALE.

THE COMPLETE MACHINERY OF A SAW Mill, consisting of a steam feed large carriage and frame, one rope feed ditto, double edger and trimmers, swing saws, automatic grinders, belts and saws in good order; all made by Wate ous, Brantford. Will be sold cheap. Apply to J. K. WARD, Mona Mills, Montreal, Que.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Reports from lumbermen are again but a repetition of what has already been said regarding the almost unprecedented strength of the market. Everywhere buyers are found in search of stock, and their eagerness to purchase is causing prices of all grades to stiffen. Dealers from Michigan have visited Georgian Bay mills, and are reported to have contracted for some lots of lumber at figures which will leave a fair margin of profit to the manufacturers, even in the face of the two dollar duty; in fact, the buyer invariably pays the duty. A feature favorable to the Ontario lumber industry is the number of foreign importers who have this year personally visited the mills in this province for the purpose of satisfying themselves as to what quantity of lumber they could advantageously import from Canada. Last week Mr. L. R. Babbitt, representing Babbitt Brothers, wholesale merchants, of Buenos Ayres, visited the Ottawa mills for this purpose. While the trade may not realize any immediate results from these visits, it augurs well for the future of Canadian lumber. The above remarks, although applying more particularly to pine, also indicate the condition of the hardwood market. Buyers are numerous and stocks scarce—it is a sellers' market. Generally hardwoods are firm, maple being the only lumber which shows any weakness, and that is not such as to cause alarm.

QUEBEC AND NEW BRUNSWICK.

The local demand for lumber in Quebec is improving, building material representing a consiserable volume of stock. Many of the mills have orders in excess of their output, and all are running full time. Spruce log run is selling at from $8 to $12 f. o. b. cars at mill, and birch at $12 to $15. The Quebec merchants are busy shipping lumber and timber to foreign countries, and a number of vessels have been chartered for July loading.

In Quebec and New Brunswick the industry is in a healthier state than for years past, although high freight rates have interfered with shipments to some extent. The logs have been coming along slowly, and some of the mills have been compelled to close down until their drives were received. It is stated that not over 90,000,000 superficial feet of logs will pass through the Fredericton booms this season, as compared with 131,000,000 feet last year and 165,000,000 feet in 1897. St. John deals are worth about $11 per thousand, which is from $2.50 to $3 higher than the prices one year ago. There are no Bay of Fundy deals offering, as they have all been bought up. The prospect is that lumber will be scarce and prices higher as the season advances.

UNITED STATES.

As yet there are no evidences of a midsummer lull in the lumber trade of the United States; on the other hand, dealers and manufacturers alike report an increased number of orders for nearly all kinds of stock. Buyers have been very numerous at northern producing points, and it is predicted that by the end of August practically the entire seaon's cut of the mills at Ashland, Duluth, Menominee and other lake ports will have been sold. Prices are steady and buoyant, with an upward tendency, and some predict that there will be a further advance in the near future. Competition in buying is very keen, as the brisk demand since the spring opened has prevented wholesalers from accumulating their usual quantity of stock. At Ashland, Wis., it is expected that all widths of No. 2 stock will advance, as the difference at present between No. 2 and No. 3 is but $1 per thousand. As showing the position of the market, the Ashland Lumber Co. recently made a sale of 250,000 feet of Norway edge boards at $8 a thousand, while the price paid for similar stock last year was $4.75. An effort has been made to even up Buffalo and Tonawanda prices of pine. The price of uppers is now $51 for inch and $65 for four inch, $45 for inch selects, $38 for inch fine common, $30 for No. 1 cuts, $20 for No. 1 barn, $14 for No. 1 box and $12 for mill culls. Spruce lumber is gradually becoming a a more important factor in the Buffalo market. The Loud Company is preparing to send down quite an amount of spruce to the Black Rock yards from Munising, Mich. Generally spruce is improving, although some sizes still show signs of weakness.

The demand for hardwood lumber continues unabated, although the situation has been relieved in a slight degree by the movement of the new cut. It is expected that there will be a decline in prices for oak, ash and other woods that have been particularly scarce, but the generally accepted opinion is that hardwood values will remain firm during the balance of the season.

FOREIGN.

Speaking generally, the foreign markets are in a fairly prosperous condition. Stocks on hand are not too heavy, and there is little probability that the arrivals will be greater than will be consumed by the various manufacturing industries. In Great Britain the wood trade is undergoing a period of buoyancy almost without parallel in its past history. The opinion is freely expressed that exports from Sweden this year will be less than in 1898, while it is certain that the Canadian exports will not overburden the market. This points to a higher level of f.o.b. values than at present rule, and removes almost any probability of prices depreciating. British importers, however, express some dissatisfaction with the Canadian trade, owing to the custom adopted by some shippers of sending goods forward on consignment, these goods being subsequently sold at lower prices than paid originally by the direct importers, and creating an unfair competition, with a lowering tendency on values. At London a slightly firmer tone is apparent for 2½-inch battens; 2½×7 Quebec spruce has been tried, but the trade has not responded as expected, though in the north it is learned that the experiment has met with some success. In the hardwood market the situation has not changed, the demand continuing steady.

STOCKS AND PRICES.

Goodwillie & Page, of Fonthill, Ont., recently shipped eight cars of chestnut and oak lumber.

Scatcherd & Son, of Buffalo, are said to have two men in Canada buying hardwoods, mostly soft elm.

The United Lumberman cleared last week from Playfair's dock at Midland for Tonawanda with a large cargo of lumber.

The attention of lumber manufacturers is directed to the advertisement of Messrs. Irvin & Sellers, on page 3, asking for maple squares.

The log cut on the Restigouche river in New Brunswick last winter was 29,000,000 feet. Only a small quantity of logs will be hung up.

McCormick Bros., of Saginaw, Mich., who deal extensively in hardwoods, report an active demand for elm and ash. There is plenty of maple and less call for it than for the other woods.

The A. P. Bliss Lumber Co., of Saginaw, is now towing logs from Parry Sound to Saginaw. These logs were cut by the Conger Lumber Co. in the season of 1897-98 and left in the woods.

On Wednesday, June 21, Alex. Fraser's raft of square timber from the Coulonge was towed to the head of the Calumet slides. This is the second raft to pass down the slides this season.

At Saginaw, Mich., log run is quoted at $18 to $24, and is scarce at these figures. There is a continued good demand for box lumber at $13, and for Norway at $10 to $12 for ordinary lengths.

Cedar shingles continue to be scarce in the Eastern States, and the manufacturers

are sold far ahead. Stocks of everything in the cedar line are exceedingly scarce, shipments being made about as rapidly as the stuff can be gotten out.

Geo. Rowlings, of Musquodoboit, has the contract for furnishing lumber to the Furness Withy Co. for the construction of their new wharf at Halifax. Three vessels are now engaged transporting the lumber to that city.

H. J. Crowe, of Bridgetown, N.S., has chartered a ship to load deals at Annapolis, N.S., for the United Kingdom. This will be the first shipment of the kind from that place. The bark Argentina is now loading lumber at Bridgewater, N.S., for South America.

Following is a comparative statement of timber, etc., measured and culled at Quebec to June 27th, as furnished by the Supervisor of Cullers :

	1897.	1898.	1899.
Waney white pine, cu. feet..	814,874	670,881	869,767
White pine, cu. feet.....	81,391	435,315	263,971
Red pine, cu. feet.....	56,630	77,456	87,429
Oak, cu. feet.....	593,172	479,220	288,083
Elm, cu. feet.....	262,723	260,262	313,925
Ash, cu. feet.....	68,786	22,234	42,790
Basswood, cu. feet	15		
Butternut, cu. feet	293	795	60
Birch and Maple, cu. feet...	149,917	106,480	229,867

A raft containing over 3,000,000 feet of logs, consigned to the Saginaw Lumber & Salt Co., arrived at Saginaw on the 17th inst. This company has four more rafts to take over from the Georgian Bay, the logs being cut from Indian reservation lands. It is estimated by the American Lumberman that nearly 100,000,000 feet of logs which were gotten out in the Georgian Bay district for the Michigan market are being held in storage booms, in the expectation that some arrangements will be affected whereby they can be taken to Michigan.

The Board of Trade returns show that the imports of wood goods into Great Britain for the month of May of this year were considerably more than in the corresponding months of 1898, both in sawn and hewn wood, the increase amounting to 77,202 loads of hewn and 38,444 loads of sawn. The excess in sawn goods is chiefly the result of increased spruce shipments to the west coast of England and the arrival of cargoes from Riga, Windau, and other Russian ports. For the five months of this year, the imports also show an increase as compared with last year. Of timber there were imported up to the end of May last 1,788,280 loads, against 1,571,120 loads in 1898.

THE BARBADOS MARKET.

Of the Barbados market, Messrs. Clairmonte, Man & Co. say :

LUMBER.—Since last advices, there have been no arrivals with lumber. White pine is in moderate supply ; last sale was the cargo ex Grace Rice, arrived on May 12th, at $21.50 for first and $15.50 for second quality. The spruce demand continues good, last saie $15 for first quality.

SHINGLES.—The market for long Gaspe cedar has sharply declined ; last sales ex Duart Castle, at $3.50 per M ; no recent import of laying shingles ; cypress, sales ex store $8.50 6-in. heart, saps $6.50. June 3rd: s.s. Duart Castle, from St. John, N.B., 388 M long Gaspe cedar shingles, $3.50 ; 23 M do. 6-in, $6.61 ; 5 M do. 5-in., $5.61 ; 3 M do. 4-in., $4.61 ; 1½ M do. 3-in., $3.61.

SHIPPING MATTERS.

From St. John, N. B., it is learned that the following charters have been arranged: Str. Berax, Pugwash, N. S., to United Kingdom, deals, 44s; str. Dora, Cape Tormentine, N. B., to Manchester, deals 43s 9d ; Lettura, St. John, N. B., to w.c. England, deals, 43s 6d.

The Timber Trades Journal reports that there has been a large amount of tonnage chartered from Canada at increased rates, showing an advance of about 2s 6d for July. The fixtures include the following: Three Rivers to Hull, 1200 stds., 46s 3d ; Saguenay, St. Thomas or Batiscan to London, 1200 stds., 45s. June, 1400 stds., 44s, July ; Montreal to Hull, 1000 stds., deals, option half boards, 47s 6d, August ; Quebec or Montreal to w.c. England, 1100 stds, 46s 3d, June ; St. John, N. B., to Liverpool, Manchester or Barrow, 1600 stds, 45s, July and August ; West Bay to Manchester, 1200 stds, 46s 3d, July ; Miramiechi to Manchester, 1200 stds, 46s 6d, 1450 stds, 47s 6d, 1350 stds, 46s 6d, all July ; Miramiechi to e.c. Great Britian, 50s.

BRITISH VIEW OF THE CANADIAN TRADE.

The Timber Trades Journal, of London, Eng., comments as follows regarding the Canadian pine and spruce trade :

THE PINE MARKET.—The London market for pine deals is, we regret to say, not any better than it was a year ago. We are told that large parcels have been sold overside ex ship, but we are also informed that these sales have been at such nominal profits that the business might just as well have been let alone. It is evident, if our information is correct, that pine business is by no means satisfactory. Old hands in the pine trade are gradually dropping out because there is nothing to be made in it, but there are always new men with less experience coming forward willing to step into the breach in the hope of finding the way to a more remunerative system, but they will be reckoning on a very insecure foundation in building their hopes of profit on an all round substantial improvement, without which it is impossible to make the pine business pay. Until there is a better system of cutting and selling in Canada, and less oddments consigned to this market, it will be impossible to make a remunerative one to the importer here. All the experienced firms in this trade are unanimous in the opinion that a reformation must be made if the pine business is to remain on its hitherto extensive scale, otherwise it will descend into a hand-to-mouth business, and the large importers of former times will seek other and more fertile fields for the outlay of their capital.

THE SPRUCE TRADE.—Regarding spruce, we hear that there is a strong demand round the coast, but we are sorry to say we cannot hear the same accounts of London. Prices, notwithstanding the talk about improvements, are not a whit better than last year, although shippers state they are getting more. On the Continent we have reason to believe the demand is still good, and that the sales reported last month have been supplemented by others at some small advance, but this in no way affects the demand on this side where the supply always exceeds the wants of the trade. We wish we could confirm the reports of improvements so long expected, but it is a well-known fact that the bulk of the spruce shipped to this market is used in the manufacture of boxes or packing cases, which, after service, are of comparatively little value. Therefore, there never can be a proportionate rise in spruce prices that appertains to other wood goods that become entirely absorbed in consumption.

SALE OF CANADIAN WOOD GOODS.

Following is the result of a sale of wood goods held by Churchill & Sim, London, Eng., on Wednesday, June 14th :

PINE.—Ex Merriac, from Montreal—11 ft. 3 x 11 in. first quality (Gilmour's 1897 cut), £19; 19 ft. 3 x 11, £18 15s. Ex Emma, from Montreal—6-8 ft. 3 x 11 in. first quality (Hawkesbury cut), £18. Ex Cervona, from Quebec—9 ft. 3 x 11 first quality, £18. Ex Milwaukee, from Quebec—3 ft. 3 x 11 in. first quality, £11 ; 3 ft. 3 x 7-9, £9 5s.

SPRUCE.—Ex Turania, from Quebec—13 ft. 3 x 9 in. second quality, £8 and £7 15s. Ex Fremona, from Montreal—13 ft. 3 x 9 in. second quality, £7 15s. Ex Cameo, from Quebec—12 ft. 2½ in. unassorted, £7 ; 11-12 ft. 2½ x 7, £7 5s ; 12-13 ft. 3 x 10 fourth quality, £6 15s. Ex Eviline, from Quebec—9-16 ft. 2 x 10-11 unassorted, £7.

LARGE PURCHASE OF TIMBER LIMITS.

It is reported that a large transaction in timber limits has just been negotiated, an American syndicate having purchased timber limits in the province of Quebec to the value of $1,850,000. It is stated that the purchasers represent the pulp trust formed in the United States. Mr. Chas. Lionais, mining engineer, of Montreal, negotiated the deal. The limits are situated on the north shore of the St. Lawrence and in the peninsula of Gaspe. The American company has a capital of $10,000,000, and will erect at once two pulp mills, to cost $1,000,000 each, and to have a capacity of 600 tons per day. A party of engineers is said to be now engaged in making the necessary surveys.

The shingle mill of the Cambridge Lumber Co., at McDonnell's Siding, three miles west of South Indian, Ont., was burned recently, at a loss of $3,000. It is the intention to rebuild, as the company owns a considerable limit of pine in the immediate vicinity suitable for the manufacture of shingles.

LUMBERMEN'S INSPECTION BOOK.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

The shingle mill of Duff Bros., in Beckwith township, was destroyed by fire last week, together with machinery and some timber and shingles.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, according to the summer schedule effective April 1st, are as follows : Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs. ; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents ; Ottawa to Oswego, $1.90 per M ft. ; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.) ; Ottawa to Montreal, $1.00 per M feet, lath 20 cents per M pieces ; Quebec, $2.00 per M feet, lath 40 cents per M pieces ; Arnprior to Montreal, $1.50 per M feet, lath 30 cents per M pieces ; Quebec, 12 cts. ; Pembroke to Montreal, $1.75 per M ft., lath 35 cents per M pieces ; Quebec, $2 75 per M ft., lath 55 cents per M pieces ; Ottawa to New York, $2.50 per M ft., lath 50 cents per M pieces ; Arnprior to New York, $3.00 per M ft , lath 60 cents per M pieces ; Pembroke to New York, $3.25 per M ft., lath 65 cents per M pieces ; Parry Sound, track, $3.50 per M ft., lath 70 cents per M pieces ; Ottawa to Buffalo, 12 cents per 100 lbs. ; Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. ; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c. ; exports 11c. per 100 lbs. ; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs. ; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs. ; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts. ; Arnprior to Portland, 17 cts. ; Ottawa to Burlington, 6c. per 100 lbs. ; Ottawa to Albany, 10 cts. per 100 lbs. ; Arnprior to Albany, 12 cts. per 100 lbs. ; Parry Sound to Albany 17 cts. per 100 lbs. ; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs. ; Ottawa to St. John, N.B. and common points, 20 cents per 100 lbs. ; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft. ; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft. ; lath 50,000 rates pieces, not exceeding 600 lbs. per M pcs. Ottawa apply on shipments from Rockland and Hawkesbury.

GRAND TRUNK RAILWAY.

The freight tariff on lumber issued by the Grand Trunk Railway Company, effective June 1st, 1899, contains the following general instructions : Minimum weight 30,000 lbs. per car, unless the marked capacity of the car be less, in which case the marked capacity (but not less than 24,000 lbs.) will be the minimum weight. Exceptions—Cedar posts in box cars, dry basswood and light pine or cedar lumber, dry cedar shingles, charcoal and sawdust, which cannot be loaded up to 30,000 lbs. or up to the marked capacity of car, will be carried at actual weight, minimum 24,000 lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond to the same destination.

Excepting to Toronto and Hamilton, the rates on hardwood are the same as on pine. To these two points the rate on hardwood is one-half cent higher than on pine.

From Glencairn, Creemore, Aurora, Barrie, Collingwood, Penetang, Coldwater, Waubaushene, Sturgeon Bay, Victoria Harbor, Midland, Fenelon Falls, Longford, Gravenhurst and other points in groups B and C, to Toronto or Hamilton, 7c. on pine and 7½c. on hardwood ; Bracebridge to Toronto or Hamilton 7½c. pine and 8c. hardwood ; Utterson, Huntsville, Navor, Emsdale, Katrine to Toronto or Hamilton, 8c. pine, 8½c. hardwood ; Burk's Falls, Berriedale Sundridge and South River, to Toronto or Hamilton, 8½c. pine, 9c. hardwood ; Trout Creek, Powassen and Callender to Toronto or Hamilton, 9½c. pine, 10c. hardwood ; Nipissing Junction and North Bay, 10½c. pine, 11c. hardwood. Rate from Goderich, Kincardine, Owen Sound and Wiarton to Toronto or Hamilton, 7c. pine, 7½c. hardwood. These rates are per 100 lbs. Rates from Toronto east to Belleville are 8c. per 100 lbs. The maximum rate from any point north or west to Montreal is 16½c. per 100 lbs. For rates on railway ties, tie timber, cedar lumber or posts, mahogany, rosewood, walnut, cherry, and other valuable woods, application must be made to the district freight agent.

CANADIAN PACIFIC RAILWAY.

To Toronto and Hamilton—from Klock, Mattawa, Bonfield, North Bay, Sturgeon Falls, Cache Bay and Warren, 9 cents ; from Sudbury Jct., Rayside and Chelmsford, 10 cents ; from Cartier and Geneva Lake, 10½ cents ; from Spanish Forks, Biscotasing, Massey, Cutler, Spragge and Algoma, 12 cents ; from Dean Lake, Thessalon, Desbarats, and Isbester, 14 cents per 100 lbs. on pine and soft woods, the rate on hardwoods being one cent per 100 lbs. higher ; from Ottawa, Hull, Aylmer and Dechenes Mills, Arnprior, Braeside and Pembroke, to Toronto, the rate is 10 cents both on pine and hardwood.

To Albany and points taking Albany rates—from Ottawa, Hull, Aylmer and Deschenes Mills, 10 cents ; East Templeton, Buckingham, Calumet and Carleton Jct., 11 cents ; Arnprior, Braeside and Renfrew, 12 cents ; Pembroke and Eganville, 13 cents per 100 lbs. These rates are based on a minimum of 30,000 lbs. per car.

To New York, for track delivery and all points on the Hudson river, or the New York Central and West Shore railways from Ottawa, Hull, Aylmer, Deschenes Mills, 15c. per 100 lbs. ; from Carleton Junction, 16c. ; from Arnprior, Braeside and Renfrew, 17c. ; from Eganville and Pembroke, 18c. The rates to New York, including litherage within the free litherage limits of New York harbor, are 2 cents per 100 lbs. additional.

To New York via barge line from Albany—from

Importers and Manufacturers BOSTON, MASS.

Aylmer, Buckingham, Deschenes Mills, East Templeton, Hull and Ottawa, pine and shorts in lots of 50 M feet and upwards, $2.50 per M feet, under 50 M feet. $3.25; lath in lots of 250 M feet and upwards, 50 cents per M pieces, under 50 M pieces, 60 cents; hardwood in lots of 50 M feet and upwards, $4 per M feet, under 50 M feet, $4.25; from Carleton Jct., 25 cents per M feet lumber and 5 cents per M pcs. lath higher than Ottawa rates; from Arnprior and Braeside, 50 cents and 10 cents higher; from Renfrew, Eganville and Pembroke, 75 cents and 15 cents higher. Lumber and lath not to exceed 3,000 lbs. per thousand feet pine, 4,000 lbs per thousand feet hardwood lumber, or 600 lbs. per thousand pieces lath. Above rates include lighterage within regular lighterage limits in New York harbor, in lots of lumber 50 M feet and over, and lath 250 M pcs. and over; under that amount subject to extra towage. Seasoned pine shorts under 5 feet in length will be charged 50 cents per M feet over rates named on seasoned pine lumber.

To Cape Vincent, Clayton, Fulton and Oswego, N. Y.—from Ottawa, Hull and Carleton Jct., softwood $1.90 per M feet, lath 38 cents per M pcs., shingles 19 cents per M, hardwood 9½ cents per 100 lbs.; from East Templeton, Aylmer and Deschenes Mills, softwood $2, lath 40 cents, shingles 20 cents, hardwood 10 cents; from Arnprior, Buckingham and Braeside, softwood $2.05, lath 41 cents, shingles 20½ cents, hardwood 10½ cents; from Renfrew, Eganville and Pembroke, softwood $2.30, lath 46 cents, shingles 23 cents, hardwood 11½ cents

To Charlotte, Rochester, Rome and Utica, N.Y.—from Ottawa, Hull, and Carleton Jct., softwood $2.20 per M feet, lath 44 cents per M pcs., shingles 22 cents per M, hardwood 10½ cents per 100 lbs; from East Templeton, Aylmer and Deschenes Mills, softwood $2.30, lath 46 cents, shingles 23 cents, hardwood 11 cents; from Buckingham, Arnprior and Braeside, softwood $2.35, lath 47 cents, shingles 23½ cents, hardwood 11½ cents. From Renfrew, Eganville and Pembroke, softwood $2.60 per M feet, lath 52 cents per M pieces, shingles 26 cents per M, hardwood 12½ cents per 100 lbs. To Sackets Harbour and Syracuse, N.Y., rates on softwood, lath and shingles are same as to Charlotte, and rates on hardwood same as to Cape Vincent. Hardwood lumber rates will also apply on shipments of box shooks, bolts, chair stock (rough), clapboards, hoops, hoop and hop poles, lath, last blocks, posts and rails, shingles, staves and heading, wood pulp, pulpwood, timber and wood ashes.

MINIMUMS: Softwood lumber carloads, 10,000 feet; lath carloads, 50,000 pieces; shingle carloads, 100,000 shingles; hardwood lumber carloads, 30,000 lbs.

Summer rates effective April 1st are: To Montreal and points taking same rates—from Ottawa, Hull, Aylmer, Deschenes Mills, East Templeton and Buckingham, softwood $1.00 per M feet, lath 20 cents per M pieces, hardwood or dimension timber 4 cents per 100 lbs.; to Quebec and Three Rivers—from Ottawa, Hull, Aylmer and Deschenes Mills, softwood $2 00, lath 40 cents, and hardwood and dimension timber 8 cents: from Carleton Jct., softwood 15 cents, lath 5 cents, and hardwood and dimension timber 1 cent higher than Ottawa rates; from Arnprior and Braeside, softwood 50 cents, lath 10 cents, and hardwood and dimension timber 2 cents higher; from Renfrew, Eganville and Pembroke, softwood 75 cents, lath 15 cents, and hardwood and dimension timber 3 cents higher. Dimension timber rates will apply on lumber over 3 inches thick and over 16 feet in length.

To Boston and points taking Boston rates for local delivery—from Aylmer, Deschenes Mills, Ottawa Hull and points east thereof in Ottawa Valley 15 cents, Carleton Junction 16 cents, Arnprior, Braeside and Renfrew 17 cents, Pembroke and Eganville 18 cents per 100 lbs. To Boston, Mystic Wharf, East Boston, Mass, and Portland, Me., for export—from Ottawa, Hull and Buckingham 11 cents, Aylmer and Deschenes 12 cents, Arnprior and Braeside 13 cents per 100 lbs. Rates for export will ex Nov. 30th, 1899, unless sooner cancelled.

To Buffalo, Black Rock and Suspension Bridge, N. Y.—from Ottawa, Hull and Aylmer 12 cents, Carleton Junction 13 cents, Arnprior and Braeside 14 cents, Pembroke and Eganville 15 cents per 100 lbs

To Detroit, Mich.—from Ottawa, Hull, Aylmer and Deschenes Mills 14 cents, Buckingham 15 cents per 100 lbs

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JULY 5, 1899 No. 24.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—Situation as Lumber Inspector, Shipper and Culler. D. SQUIRE, Hoath Head, Ont.

FOR SALE.

CEDAR, 8x10, 10x10, 12x12, from 10 to 24 feet long. Apply to W. A. PLAYFAIR, Playfair, Ont.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

SAW MILL MACHINERY FOR SALE

LARGE SAW AND SHINGLE MILL AT LONG Lake, capacity 30,000 ft., complete with first class machinery. Engine 22×26, 4 Boilers, Shafting, Belting, etc.

ALSO

VALUABLE SHINGLE AND PONY SAW MILL in the Village of Port Sydney, a Boarding House and 4 Lots adjoining. Excellent situation for buying Timber and Shipping. Must be sold at once.

THE UTTERSON CO., Limited.
Toronto, Ont.

FIRST CLASS BAND FILER OPEN FOR engagement. Best references. Box 100, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

WE ARE IN THE MARKET AND WILL PAY cash for Rock Elm for Hubs, sizes from 4 inches and up. Maple, White Ash and Cherry. Basswood for crating. Fifty thousand feet of each. Address, "J. W. S," care of the CANADA LUMBERMAN.

WANTED.

LARGE QUANTITIES OF SOFT ELM, 1 INCH, 1¼ inch, 1½ inch, 2 inch, ½ inch and 3 inch thick, 6 inches and up wide, 10 to 11 inches average, 10 to 16 feet long. Address, with full particulars, "B.B.," CANADA LUMBERMAN.

WANTED—DRY BASSWOOD.

DRESSED TWO SIDES TO ⅜ THICK, CUT to dimension sizes, for export. This will prove an excellent outlet for common and cull basswood. Elm Strips, Rock Elm or Soft Elm (latter preferred) Strips, 1½×2, 1½×1, and ½×1; all lengths 6 ft. and up—Car-loads for export. For full particulars, address "EXPORTERS," P.O. Box 1040, New York City.

Auction Sale

OF

TIMBER LIMITS

Owing to the death of Mr. Thomas Hale, and to wind up the business of Hale & Booth, the following valuable TIMBER LIMITS will be offered for sale at public auction at the Russell House, in the City of Ottawa, on

Wednesday, the 6th Day of September Next,

at the hour of 2 o'clock, viz.:

PARCEL 1.—Berth No. 82, North Shore of Lake Huron, area 36 miles. This berth is considered second to none on the Georgian Bay.
PARCEL 2.—Berths 2, 3 and 4, Township of Butt (situated contiguous to the line of O., A. & P. S. R'y.), 13¾, 12 and 11¾ miles respectively.
PARCEL 3.—Berths Nos. 136 and 136, Serpent River, area 36 miles each.
PARCEL 4.—Berth No. 1, Township of Hanmer, Vermillion River, area 7¾ miles. (If not previously sold.)
PARCEL 5.—Township of Spragge, area 28 miles.

The stocks of Shanty Plant, rigging and supplies which have been used in connection with the operations on each parcel or lot, and whether or not actually stored upon the limit, to be taken by the purchaser at a fair valuation.

Terms and conditions of sale will be made known at the time of sale. Further particulars as to the properties may be had on application to

JAMES H. BURRITT, Barrister,
Pembroke, Ont.

Or to J. R. BOOTH, Ottawa.

FIRES.

A sawmill at Osnabruck Centre, Ont., owned by H. P. Alguire, was destroyed by fire on Saturday last, together with a quantity of lumber. The loss is upwards to $3,000 and the insurance small.

The digester building, sulphite tower and sulphur burning department of the Laurentide Pulp Co.'s works at Grand Mere, Que., are reported to have been destroyed by fire. The loss is estimated at $30,000.

Attention is directed to the advertisement in the "Wanted and For Sale Department" of this issue requesting communications from manufacturers having for sale rock elm, maple, white ash, cherry and basswood.

CURRENT TRADE CONDITIONS.

ONTARIO.

The remark is heard on all sides that the lumber trade of Ontario is in a most prosperous condition. Usually at this season of the year the demand shows a falling off, but this year the mills are sold so far in advance that there will be no interruption to business by the summer holidays. Although the price lists generally cannot be marked higher, there is no disputing the fact that certain grades have undergone a still further advance within the past two weeks. At Ottawa the sawmills have commenced night work in order to keep up with the demand. Shipments of deals to the British market were heavier last month than in May, with prices slightly on the advance.

Hardwoods are maintaining their strong position. Dealers are buying stocks wherever they can be found, and usually the price does not enter into the transaction to any extent, buyers being willing to pay good prices for good stock. Manufaturers report numerous enquiries for shingles, and notwithstanding the increased production this year, the supply is not likely to more than equal the demand.

MANITOBA AND BRITISH COLUMBIA.

Country trade has now fallen in line with that of the towns, and retail dealers generally report an active demand for lumber. The country yard trade is particularly good, showing that farmers are engaged in the erection of necessary buildings. Prices are firm, and the list is being adhered to excepting in one or two instances. In British Columbia the building trade is active, and the saw mills are unable to pile up any quantity of lumber in advance of the requirements. The Chemainus mills are sending large quantities of lumber to North China, and the export trade of the year promises to be unusually heavy.

UNITED STATES.

There is no better indication of the trend of the lumber trade of the United States than is found in the fact that the price lists at different markets continue to be advanced. Following the advance made by the Mississippi Valley Association, comes the report of a slight advance on lower grades of pine at Duluth, of a further advance on hemlock at New York, and of a like step being contemplated at other markets. The eastern trade is in good condition, including almost everything in the lumber line. A statement of sales made at the head of the lakes shows that Buffalo and Tonawanda dealers have purchased considerable stock, although it is said that they have been unable to increase their holdings to any extent, due to the fact that lumber is being shipped east as fast as it can be loaded. At Duluth No. 4 boards are selling at $8 per thousand. Just what this price represents may be understood when it is stated that a few years ago the highest price obtainable for this grade of lumber was $5.25. Mill culls are selling at $10, box lumber at $13, and Norway dimension at $10 and $11. Some of the leading markets report a slight curtailment in the demand for hardwood lumber, but the requirement is still in excess of the supply of dry stock. The Central Lumber Co., of Saginaw, Mich., recently sold a quantity of ash at $19. Ash is particularly scarce throughout the Eastern States, it being almost impossible to obtain 3 and 4 inch in dry stock. There is also an increasing demand at Boston, Tonawanda and Buffalo for basswood, elm and poplar.

FOREIGN.

There has been a further hardening tendency in the British timber market, and some recent f.o.b. sales have been effected at a substantial advance on opening prices. Large cargoes of Canadian goods are being received at the leading ports, but the bulk of the imports are going direct into the hands of consumers. As the season advances the opinion is gaining ground that present prices will be maintained. The spruce market at Liverpool is remarkably firm on the basis of £6 12s. 6d. c.i.f. for St. John and similar shipments, with Nova Scotia deals at the customary reduction. The consumption continues good, the only drawback being the lack of boats to take the goods up the canals. Much of the square timber landing is being sent direct into consumers' hands. There are numerous inquiries in the market for square timber and deals, and the few transactions that have taken place have been at advanced rates. The South American market is in good condition, and since the first of the year prices have advanced about $2 per thousand feet. Spruce is now selling at Rio de Janeiro at $25.50 to $26.50.

LUMBERMEN'S INSPECTION BOOK.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

STOCKS AND PRICES.

It is said that W. B. Mershon & Co., of Saginaw, Mich., have purchased a large quantity of lumber at mills on the Georgian Bay.

Alexander Fraser, of Ottawa, Ont., has just taken down the Coulogne river one of the largest square timber rafts that has ever been taken out of the Ottawa valley.

The sale is reported of a tract of timber land in the vicinity of Chester Basin, N. S., of which D. C. Butterfield is part owner. New York capitalists are believed to be the purchasers.

The tender of the Keewatin Lumbering & Manufacturing Company, for 300 cedar telegraph poles, 300 feet long and 7 to 8 inch top, at $2.50 each, was accepted by the Winnipeg city council.

E. T. Carrington, of the Spanish River Lumber Co., says that only about 60,000,000 feet of logs will come down the Spanish river this season. The mill of his company is running steadily.

The shingle trade at Tonawanda promises to open up briskly in the near future, and prices are consequently increasing on this stock as on lumber. The H. M. Loud & Sons Co. and the H. M. Tyler Co. have a considerable supply.

Messrs. Hughes & Long's planing mill at Brandon, Man., destroyed by fire on May 30th, is again in operation, only fifteen days elapsing from the time of the fire until it was again running. Their loss was small and will be more than recovered in their new location. We understand they are adding more machinery.

Three cargoes of waney board pine were shipped from Ashland, Wis., on June 27th, for Quebec, en route to England. The timber belonged to S. A. McCall, of Simcoe, Ont., and contained 47,000 cubic feet. It was the second fleet to clear from Ashland this season, and cleared up all the dry timber of this variety there.

Pelton & Reid, Cheboygan, Mich., are reported to have purchased 3,000 acres of Canadian pine timber land of an Indian reserve. They will commence logging operations about August 1st, and will put in enough logs to supply their mill at Cheboygan next season. The firm has now about 12,000,000 feet of logs in the French river, ready to be towed to Cheboygan.

The timber establishments of Hon. A. Dickey and associates at Sheet Harbor and Mosher river, N.S., have been very successful in getting in large drives of logs, and will doubtless manufacture a large amount of timber this season. It is said that all these valuable holdings are under bond to capitalists, at a good figure, who have an eye on the pulp making facilities they present.

At a recent sale of wood goods held by Foy, Morgan & Co., London, Eng., oak timber ex Yola, from Quebec, sold as follows: 10 logs 13¾ × 22″ × 18-39′, £5 2s 6d per load; 9 logs 12¼ × 18¼″ × 20-39′, £4 17s 6d; 10 logs 13 × 20¼″ × 20-38′, £5 2s 6d; 10 logs 13¼ × 22¼″ × 20-45′, £5 2s 6d; 9 logs 13¼ × 19″ × 24-39′, £5 5s; 9 logs 11½ × 20″ × 28-45′, £5 5s; 9 logs 12½ × 20″ × 28-49′, £5 7s 6d.

Following is a comparative statement of timber, &c., measured and culled at Quebec to 4th July, 1899:

	1897.	1898.	1899.
Waney white pine, cu. feet..	817,991	672,021	872,132
White pine, cu. feet.....	82,148	435,432	263,971
Red pine, cu. feet.....	56,630	77,456	87,429
Oak, cu. feet.....	676,739	492,492	334,661
Elm, cu. feet.....	277,338	294,558	312,680
Ash, cu. feet.....	74,551	22,315	43,533
Basswood, cu. feet	25		
Butternut, cu. feet	293	795	60
Birch and Maple, cu. feet...	149,917	106,480	229,867

Wm. Creswell, foreman for M. M. Boyd & Co., of Bobcaygeon, Ont., stated last week that his large drive of 70,000 pieces had been at the head of Cameron lake for almost a week. About 30,000 pieces belong to the Boyd Co., and the balance to Messrs. Parkin, Carew and Rathbun Co., of Lindsay. The Parkin logs came from Wilberforce, in Cardiff township; the Boyd logs were stored in Bark lake, Glamorgan; Carew's are from various points in Glamorgan and Monmouth; and the Rathbun Co.'s logs were driven from Devil's, White and Black lakes, tributaries of the Burnt river. Mr. Creswell says the Parkin timber is the best he has seen come from the north country for some years. A second drive belonging to the Rathbun Co. is being floated from Haliburton district.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is a rush in the lumber business that, though a long way behind iron, is still surprisingly strong and promising of a long period of activity. The worst of it is there is a limit to the supply, much more apparent than in the case of iron. Lumber is slowly giving out. What is to be done about it? Of course, there is to be lumber always, for it will be raised when the trade comes to a sense of the necessity of such a step, but there are to be many expedients tried before that slow process is put to trial in earnest.

Buffalo is receiving much larger amounts of lumber by lake than for a long time. To the end of June the lake receipts at Buffalo were 57,380,000 feet, as against 43,910,000 feet to date one year ago. Shingles are only 26,831,000, to 38,370,000 to date last last year, the falling off being apparently on account of the dock strike here, which tied up the package freight liners so long. There is a much larger handling of shingles all rail than formerly, to all appearance, though there are no figures to be had.

The report of Tonawanda receipts is not in yet, but the activity at that port is also very great, as is shown by the advertising for men late last week by the Eastern Lumber Company, the heaviest concern south of Tonawanda Creek in the south village. This company alone received over 6,000,000 feet of lumber last week by lake. It promises steady work all the season for good men.

The lumber trade is very curious to learn the outcome of the late fiasco on the part of George H. Damon & Co., of Tonawanda, which mortgaged its lumber to a local bank and then sold it to other firms in that market. When the firms found that the lumber was mortgaged they fell on it and carried it all out in a night, more than 1,000,000 feet in all. Someone capped the climax by taking the office also. Now the question is, whether the bank can recover. it is generally thought that it will not be able to.

An effort has been made to bring the prices of pine in the markets of Buffalo and Tonawanda into line and make them uniform, in some cases advancing them. The range is from $65 for 16/4 uppers to $12 for 4/4 mill culls. It has all along been held that the prices of pine in these markets has been too low this year, not even trying to keep pace with the prices at producing points. In some cases we are selling pine at very close to the price that would have to be paid for it. This is all right if there is nothing in view but the holding of eastern trade, but it is entirely wrong when we remember the losses that were sustained when the prices went down. There was no holding them up then in order to get out of them what had been put in. If it is to be got at all, now is the time.

There is a better range of prices in hardwood. The prices at producing points went up more sharply than was the case with pine, and the great difficulty in getting stock has convinced everyone that the thing to do is to get a good price for it or hold it. The demand for oak and ash leads, but maple, elm and basswood are excellent sellers, with birch, chestnut, cherry and walnut in less demand. As they are all hard to find the lack of demand is welcome.

The big jump has really been made in hemlock, it having advanced twice during June, selling at wholesale for $11.50 for 16 feet and under and $10.25 for cull boards. A year ago the price was less than $9. An effort has been made to bring down hemlock by lake, but not with much success, as Michigan mills are asking more, freight and all, than the above price of the Pennsylvania cut. Something was done in Michigan hemlock early, but freights are stiffer now and prices quite inflexible.

The Goodyears have lately lost quite a large lot of hemlock logs in their Pennsylvania district by fire. They had bought a quantity and the fire got into them at skidways, where they were to be loaded on cars.

The Sullivans are still doing something in Canadian elm and birch, but are turning their attention more to the lakes, which are furnishing them some elegant elm and other hardwoods. The amount obtained from that direction is really surprising. Mr. T. Sullivan is away on a long vacation, which is expected to be permanent to a certain extent. He has been active far beyond most men of his years, and not now being in the best of health, will try to take life easier hereafter.

Donald Y. Leslie is getting considerable pine lumber and shingles from Canada this season, and is doing a good business. He is also in the jobbing door, sash and roofing trade quite extensively.

The Laidlaw yard shares the appearance of not a few pine yards in running down somewhat in stock since the opening of spring, on account of heavy sales. When I was there last week it was reported, though, that several boats were on the way down for the firm, which would replennish the stock very materially. It is a common thing now for pine as well as hardwood to go out as soon as it arrives and never be put into pile here. The thousands of feet of continuous lumber dockage is kept pretty full of lumber from the boats, but the canal or the cars get most of it direct.

Nelson Holland has sold his barges, tbe Curtis and three consorts, to the Tonawanda Iron & Steel Company, so they will no longer make trips to Byng Inlet for lumber. The Parry Sound Company is sending the Seguin down with cargoes, taking soft coal back to Depot Harbor.

The first summer outing of the Buffalo Lumber Exchange occurs July 11th by special car to Chatanqua, with a lake ride in the arrangement. Business is business this summer, but the attendance is expected to be general for all that.

Following is the new price list for the Buffalo and Tonawanda market:

Uppers, 3″ and up, 4/4, $51; 5/4, $51; 6/4, $51; 8/4, $52; 10/4, $60; 12/4, $60; 16/4, $65. Selects, 8″ and up, 4/4, $45; 5/4, $45; 6/4, $45; 8/4, $46; 10/4, $55; 12/4, $55; 16/4, $60. Fine common, 8″ and up, 4/4, not to exceed 20% 12″ and over wide, $38; 1 x 10, $38; 1 x 13, $41; 1 x 13 and up, $45; 5/4, $39; 5/4 x 10 or 12, $40; 6/4, $38; 6/4 x 10, $38; 6/4 x 12, $40; 8/4, $40; 8/4 x 12, $42; 10/4, $50; 12/4, $50; 16/4, $55. No. 1 cuts, 4/4, $30; 5/4, $35; 6/4, $36; 8/4, $37; 10/4, $45; 12/4, $45; 16/4, $50. No. 2 cuts, 4/4, $18; 5/4, $26; 6/4, $26; 8/4, $28. No. 3 cuts, 5/4, $22; 6/4, $22; 8/4, $22. No. 1 moulding strips, 4/4, $34; 5/4, $35, 6/4, $33, 8/4, $34. No. 2 moulding strips, 4/4, $27; 5/4, $28; 6/4, $27; 8/4, $27. Stained saps, 4/4, $23; 5/4, $23; 6/4, $23, 8-4, $23. No 1 shelving, 1 x 12, $34; 1 x 13 and up, $35. No. 2 shelving, 1 x 13 and up, $27. No. 1 dressing, and No. 1 shelving, 1 x 7 to 11, $24; 1 x 4, $24; 1 x 6, $25; 1 x 8, $25; 1 x 10, $27; 1 x 12, $29; 1 x 13 and up, $30; 5-4, $30; 5-4 x 10 and 12, $32; 6-4, $29; 6-4 x 10 and 12, $30; 8-4, $30; 8-4 x 10 and 12, $32. No. 2 dressing, 1 x 4 to 11, $18; 1 x 6, $20; 1 x 8, $19; 1 x 10, $20; 1 x 12, $25; 1 x 13 and up, $25; 5-4, $23; 5-4 x 10 and 12, $25; 6-4, $21; 8-4, $25; 12-4, $28. Shaky clear, 1 x 4 to 11, $26; 1 x 6, $28; 1 x 10, $29; 1 x 12, $31; 1 x 13 and up, $31; 5-4, $30; 6-4, $28; 8-4, $31; 10-4, $35; 12-4, $35; 16-4, $40. No. 1 barn, 1 x 4, $20; 1 x 6, $22; 1 x 8, $21; 1 x 10, $22; 1 x 12, $25; 5-4 x 10 and 12, $26; 6-4 x 10 and 12, $26; 8-4 x 10, $26; 8-4 x 12, $27. No. 2 barn, 1 x 4, $15; 1 x 6, $17.50; 1 x 8, $17; 1 x 10, $18; 1 x 12, $19; 5-4 x 10 and 12, $20; 6-4 x 10 and 12, $20; 2 x 10 and 12, $20. No. 3 barn, 1 x 4, $14; 1 x 6, $16; 1 x 8, $15; 1 x 10, $15; 1 x 12, $15.50; 5-4 x 10 and 12, $16.50; 8-4 x 10 and 12, $16.50; 5-4, $16. Shippers, 1 x 12, $15.50; 1 x 13 and up, $16. Coffin boards, 1 x 13 and up, $19. Box, 1 x 6 and up, $14; 1 x 6, $14; 1 x 7, $14; 1 x 8, $14; 1 x 9, $14; 1 x 10, $14.50; 1 x 12, $14.50; 1 x 13 and up, $15; 5-4, $16; 5-4 x 10 and 12, $16; 6-4, $16; 8-4, $15. Mill culls, 4-4, $12; 5-4, $13; 6-4, $13; 8-4, $13. Standard lengths 10 ft x 16 ft., about 5% 16 ft. For special lengths advance to be consistent with expense involved.

BUFFALO, July 1st, 1899. J. C.

THE COOPERAGE MARKET.

The conditions existing in the cooperage trade are thus reviewed in the National Coopers' Journal by Messrs. Sutherland, Innes & Co., of Chatham, Ont.:

Fair weather, warm winds and sunshine, which promised to gladden the hearts of the cooperage stock manufacturers through Ohio, Indiana, Ontario and parts of Michigan and Wisconsin, have been scarce lately. If it were not for these unfavorable conditions, mill men would now be beginning to catch up with their orders. Prices of staves still continue at the top notch, and we cannot see how there can be any reduction for some time to come, the de-

mand being greater and likely to continue greater than the supply.

In the northwest, No. 1 staves are quoted at $7.50 to $8.50 per net M. on board cars Minneapolis, while round lots have been sold a high as $9.00; in fact, for good dry staves on the spot it is not a question of price with the coopers, but to get the staves at any price. Medium quality staves that the coopers would reject under ordinary circumstances have been picked up eagerly at $7.50, and the coopers were surprised to find that staves with the appearance of having been sandpapered were not necessary to make a good sound flour barrel. While jointing of staves in the open is going on in a limited way, mills with kilns are still running their kilns to full capacity, kiln dried staves bringing a much higher price than air dried staves in comparison to the cost of kiln drying.

Despite the fact that the Sugar Trust is using wire hoops instead of patent hoops for 50 per cent. of its requirements, patent hoops are higher at the present time than they have been for months, as, while the consumption has decreased, the production has decreased still further, and at present it looks as if there would not be 50 per cent. of last year's production made this year.

The stocks of heading bolts and logs put in at the different mills have been small, and contracts for this year have been made at an advance of ⅛c. to ¼c. per set over last year's prices.

We have made a careful estimate of the logs and bolts put into different mills owned by our company, or in which we are interested; we have also received reports from most of the other mills throughout the country, and we learn that on an average 20 per cent. of their requirements is an outside estimate of the stocks put in. Trucking cannot commence until July to any extent, so that some mills are already out of logs, and over 50 per cent. of the mills will have cut out their raw material by the end of this month. Some mills will be able, as soonas the woods are passable, to keep their mills running steadily, others, intermittently, while others are closing down for the year.

At the present time everything looks favorable for a good apple crop. Apple packers are beginning to realize that in the event of there being a good apple crop, there will not be enough cooperage stock obtainable to make the barrels, and are turning their attention to boxes to a very large extent, so this year we look to a very large percentage of the apples being packed in boxes instead of barrels.

Carbray, Routh & Co., of Quebec, report few transactions in marine chartering. Nominal rates are 45s for deals and 67s 6d to 70s for timber. An advance is asked for August shipments.

From St. John the following charters are reported: Bark Silenzio, to Cardiff or Newport, 46s 3d; bark Lauretta, for Buenos Ayres, $10; bark R. Morrow, for Buenos Ayres, lumber, $9.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JULY 12, 1899 No. 25.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FIRST CLASS BAND FILER OPEN FOR engagement. Best references. Box 100, CANADA LUMBERMAN.

FOR SALE.

CEDAR, 8x10, 10x10, 12x12, from 10 to 24 feet long. Apply to W. A. PLAYFAIR, Playfair, Ont.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

WANTED.

LARGE QUANTITIES OF SOFT ELM, 1 INCH, 1¼ inch, 1½ inch, 2 inch, ½ inch and 3 inch thick, 6 inches and up wide, 0 to 11 inches average, 10 to 16 feet long. Address, with full particulars, "B.B.," CANADA LUMBERMAN.

WANTED—DRY BASSWOOD.

DRESSED TWO SIDES TO ⅜ THICK, CUT to dimension sizes, for export. This will prove an excellent outlet for common and cull basswood. Elm Strips, Rock Elm or Soft Elm (latter preferred) Strips, 1½×2, 1½×1, and ½×1; all lengths 6 ft. and up—Car-loads for export. For full particulars, address "EXPORTERS," P.O. Box 1040, New York City.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

TO LUMBER DEALERS

THE NEWFOUNDLAND IRON ORE CO., Limited, of Workington, Newfoundland, invite tenders for the delivery at Old Perlican, Trinity Bay, Newfoundland, of a large quantity of

12 AND 10 INCH SQUARE SPRUCE SAWN TIMBER

Specifications may be obtained at the office of this paper.

The Company does not bind itself to accept the lowest or any tender.

S. HERBERT WILLIAMS,
Superintendent.

H. F. Eaton & Sons' saw mill at Milltown, N.B., is announced to have been destroyed by fire on July 5th.

CURRENT TRADE CONDITIONS.

ONTARIO.

What was said in our last report regarding a mid-summer lull in the lumber trade is fully borne out by the reports to hand this week. As yet there are no signs visible that the demand will slacken during July, while on the other hand retail dealers are said to be taking steps to stock up for fall trade earlier than is usual. It is the generally expressed opinion that present prices of pine and hardwood will be maintained throughout the summer at least. At the present time all kinds of lumber are being bought up, and where in less prosperous years the lower grades would be dull of sale, they now find a market almost as readily as lumber of better quality. In the pine trade, if one class of lumber sells quicker than another, it is red pine deals, for which the demand is exceptionally strong. Contracts have been placed for next season's cut of some of the mills, this in itself showing the strength of the market. The shingle production does not seem to be of sufficient volume to supply the demand. This may be due in part to the fact that few shingles are being manufactured in Michigan, and consequently dealers in the Eastern States are looking more to Ontario for their supply. Prices are firm, with a tendency to advance.

MANITOBA AND BRITISH COLUMBIA.

The great demand for building material in Winnipeg and throughout the North-West is creating a scarcity of sand and brick. Some buildings have been delayed on this account, but notwithstanding there is a brisk movement of lumber to all parts of the west. Dealers state that trade has seldom been better at this season of the year, which, considering the backward season, is very satisfactory. The mills on the Lake of the Woods are operating day and night, but still stocks are moved almost as rapidly as they are taken from the saw. There is no abatement of demand in British Columbia, and it would appear as though the trade in that province had entered upon a new era of prosperity. There is a general tendency to advance prices.

UNITED STATES.

The shipments of lumber from Minneapolis during the month of June were the largest in the history of that market, being nearly 50,000,000 feet, while for the previous month they were 44,000,000 feet. These figures reflect the urgency of demand, particularly when it is remembered that prices advanced during the last two months. Trade in the Eastern States is equally buoyant. There is a good demand from retailers, a large consumption of lumber in building operations, and an all-round firmness in prices. Stocks are still badly broken, dealers finding it impossible to add very much to their supplies. It is impossible to purchase much stock in Michigan, as the extraordinary local demand is consuming nearly all the lumber manufactured. Log run is held at Saginaw at $15 to $24, and from $12 to $13 is asked for box. Norway, for which there is a good demand, is selling at $10.50 and upwards. At Buffalo the demand for white pine is in excess of the supply. This is especially noticeable in the box trade, for which Norway is largely being substituted.

Favorable reports are received of the spruce market, sales being made at the following prices: Frames, 9 inch and under, $16; 12 inch and up, $17; 2x3 and 2x4, $13.50; merchantable boards, $13; mill random, $14 to $15. Although spruce was last to improve, it now appears as though it had fallen strictly in line with the other classes of lumber.

Hardwood prices have as yet shown no weakness, nor is there any slackening off in demand. There is an exceedingly heavy demand for dimension, car material, etc., and wholesalers who have lumber in shipping condition experience no trouble in finding buyers willing to pay top prices, especially for oak and ash. At Boston brown ash is quoted at $38 to $40 for one inch firsts and seconds, and $40 to $42 for thicker.

FOREIGN.

The tone of the British wood market continues firm, and a steady consumption is reported. Up to June 1st the import of wood goods into Great Britain exceeded that of 1898 by some 92,000 loads, the increase being chiefly from Norway and Sweden and the Maritime Provinces of the Dominion. Notwithstanding this increased import, stocks are becoming reduced, and recent arrivals have met with ready sale. The slight improvement in spruce prices has been maintained, and we would not be surprised if still higher prices would be realized before the close of the season. Some dealers are buying at present prices and storing the stock away, in the hope of making large profits later in the year. Red pine deals are in good demand, and Quebec shippers are asking higher prices. Square timber in elm and oak meets with ready sale.

Late reports to hand state that a much

needed rain has fallen throughout the South Australian colonies, and agricultural prospects are brighter than they have been for many years past. This will give an impetus to the commerce of the country, in which lumber will no doubt share.

STOCKS AND PRICES.

A raft of square timber comprising ninety cribs, and owned by Wm. Mackey, passed through the slides at Ottawa last week.

The Dominion government is calling for tenders for the construction of a telegraph line from River Romaine eastward to Baie Chateau, Strait of Belle Isle.

The str. Veva sailed from Parrsboro, N. S., on July 5th, for a British port, with 2,099,474 feet of deals and 226,458 feet of ends and scantling, shipped by M. L. Tucker.

The str. Cheronea sailed last week from St. John, N. B., for Cardiff, with 1,672 standards of deals. The Anna Moore sailed for Dublin with 1,067 standards of deals.

By the breaking away of the boom at the mills of F. X. Gosselin, at Biae St. Paul, Que., a large quantity of logs passed out to sea. The loss is estimated at $25,000, but it is hoped that some of the logs may yet be recovered.

Last week L. C. Slade purchased 2,000,000 feet of lumber from Pitts & Co., of Bay City, Mich., cut from Canadian logs. Mershon & Co. also bought 1,500,000 feet from the same firm, these being the only sales of any consequence reported.

There are few shingles being manufactured in Michigan this season. Not much shingle timber was put in during the winter, and only one or two firms on the Saginaw river are making shingles. The price is $2 and $3 for pine, and 25 cents less for cedar.

The North-Western Hemlock Manufacturers' Association have issued a new list on hemlock, based on $9.50 for short piece stuff, on Wausaw, Wis., rate of freight, with one dollar higher for the longer lengths; 12 inch boards are quoted at $11.50, and 6, 8, and 10 inch at $10.50. The eastern hemlock list, which is based on a Philadelphia rate of freight, is $13.50 on short piece stuff, and one dollar additional for 18 and 20 feet.

Ottawa capitalists, including Messrs. Geo. Perley, Fred Avery and Charles E. Reid, have purchased the saw mills of Alex. Baptiste at Calumet, Que., together with 640 square miles of timber lands. The limits have been cut for white pine for a number of years, but there is a large quantity of spruce yet standing. It is understood to be the intention of the new proprietors to erect a pulp mill.

The following charters are reported: Bark Silenzio, 701 tons, St. John, N. B., to Cardiff or Newport, deals, 43s 9d; str. Cheronea, St. John, N. B., to Cardiff, deals, 41s 3d, August loading; barque Mark Twain, 765 tons, Tusket Wedge, N. S., to Beunos Ayres, lumber, $9.50; str. Mendota, 1,656 tons, Miramichi to Manchester, pulp wood, 15s; Rockcliff, 1,497 tons, Bay of Fundy to w. c. England, deals, 44s 6d; Sayer, 1,618 tons, Quebec to London, deals, 45s.

Following is a comparative statement of timber, &c., measured and culled at Quebec to July 11th, 1899:

	1897.	1898.	1899.
Waney white pine, cu. feet.	1,033,230	808,256	950,798
White pine, cu. feet.....	190,229	520,462	266,664
Red pine, cu. feet.....	64,991	98,580	87,429
Oak, cu. feet.....	777,855	543,900	352,058
Elm, cu. feet.....	366,738	344,712	396,879
Ash, cu. feet.....	78,629	25,773	52,740
Basswood, cu. feet	55		
Butternut, cu. feet	639	795	60
Birch and Maple, cu. feet..	173,828	106,480	231,575
Tamarac			415

The following rafts of timber have been entered at the office of the Supervisor of Culler's, Quebec, since last report: Alex. McCall, at Upper Sillery, oak, etc; D. McMillan, at Indian Cove, oak; G. Blanchard, at Bridgewater Cove, oak; N. McIntyre, at Dobell's Cove, elm, etc; A. McCall, at Upper Sillery, waney pine; Gillies & Son, at Lower Sillery, elm.

It is interesting, too, to watch the arrival of spruce cargoes to the East Coast. Those who have thought that the Canadian article has not come to stay should keep an eye on Newcastle, West Hartlepool, and the Humber ports, and they should also note who the receivers are. We think they will find that many an importer of Baltic wood is now going strong for the spruce. When we think of the cheap price, the advantages of special lengths—so easily arrangeable with Canadians and so impossible with the Baltic shippers—we cannot wonder that spruce seems to be gaining ground.—Timber News, Liverpool, Eng.

Of the lumber trade at St. John, N.B., the Maritime Merchant says: "The prospect is that lumber will be scarce and prices higher," said a leading St. John shipper last week. He pointed out that less than 100,000,000 sup. feet of logs will come through the Fredericton booms this year, compared with 131,000,000 feet last year and 165,000,000 feet the year before. The export from West Bay he figured at 28,000,000 feet, compared with over 40,000,000 feet last year; while the shipments from other ports up the bay, and along the straits from Shediac to Northport, would not exceed fifty per cent. of last year's. There are no deals offered here from outside points, because all available supplies have been bought up. Deals cut in the city mills are worth $11 to-day, which is $2.50 to $3 above last year's prices. Reports from the United States show that market to be very firm at a sharp advance over last year.

THE AUSTRALIAN MARKET.

The last monthly timber report of Fraser & Co., Melbourne, Aus., thus reviews the lumber market:

But little animation has been shown in timber dealings during the last few weeks, though a few fairly large transactions have been carried through, and in these sales somewhat better rates have been secured than were ruling at the date we issued our last report. In some classes of timber which are not so largely consumed (notably American shelving, and clear pine) lower prices have been accepted, and for these lines the market is, and will be for some time, in an unsettled state, owing to the heavy stocks on hand, and to the desire of some shippers to arrange further business at a reduced c.i.f. basis of cost. Outside, however, of the kinds we refer to, values of most other timber are more likely to advance than otherwise; but as the demand is somewhat inactive at this time of year, we hardly look for any marked improvement to be manifested until about the commencement of the spring season, when trade operations should also be much increased, and business be experienced of a more regular character than has been the case for some time past.

SPRUCE AND BALTIC WHITE DEALS.—Imports: 114,840 feet super. Arrival: Silas, from Grimstadt. The above lot of Baltic White was sold "ex wharf." Canadian stocks have been in poor demand, 2½d per foot for 9 x 3 is market value for an average specification.

OREGON PINE.—Sales have been made out of stocks in the yard at slightly better than £5 12s 6d for an average assortment. Business "to arrive" has been concluded at about the same basis.

LAKE OF THE WOODS LOG SUPPLY.

Some figures are to hand of the log supply this season for the mills at Rat Portage and Keewatin. There was cut on the Canadian side, for the Rat Portage Lumber Company, 24,000,000 feet. Of these 35 to 40 per cent. was white pine, and the remainder principally Norway, a small portion being spruce. There was 23,640,740 feet cut on the American side for the Rat Portage Lumber Company, and 11,310,000 for the Keewatin Lumber & Manufacturing Company. The cut of the large firms was as follows: Stitt & Howe, 7,600,080 ft.; Buckman, about 4,000,000; Samuel Noden, 880,740; H. C. Mead, 2,960,000; Graham & Horne, 7,400,000; Kehl & Deary, 11,082,000; Frank Pelland, 365,000; W. L. Keiver, 174,000; Louis Stellar, 158,000; R. Dearing, 103,000; and Wm. Kennedy, 228,000; making a grand total of 58,850,740 feet, not to speak of piles, ties, cedar poles and posts and piling, as accurate figures are not yet available for these items. They form a considerable item in the operations of Rat Portage concerns. The logs cut on the American side for the Rat Portage market are on the Little and Big Forks and the Rainy River, principally the operations of the lumbermen extending into Bettrami, Itasca and even St. Louis counties.

THE BARBADOS LUMBER MARKET.

Concerning the Barbados lumber market, Messrs. S. P. Musson, Son & Co. in their last report, say: There have been no receipts of white pine for about six weeks, and we can only repeat our advices that one or two cargoes would do well, especially with a good proportion of second quality. We value first receipts at about $22 for first and $16 for second quality. In spruce the only arrival has been the Etta E. Tanner, from Meteghan, N. S., which cargo was placed at $16.30 for shipping. Stocks are almost nil, but demand at this time is small; a couple of cars would supply requirements for some little time. In shingles the Neva, from Paspebiac, Que., brought 1,095 M long Gaspe cedars, the bulk of which lot was sold at $3.50. A small parcel of very superior quality, ex Nellie Morrow, was placed at $5.40, and the diamond brought 120 M from Gaspe, which are now for sale.

SOME HARDWOOD CONSIDERATIONS.

A man who poses as a lumber trade prophet, and who abounds in philosophical observations, delivered a private lecture the other day on the future of the hardwood market. His argument was about as follows: Dry stock is exhausted, and consumers are buying from hand to mouth, and by the use of dry kilns fitting green stock for consumption. In the meantime there is the northern cut of hardwoods, which was last winter the largest on record, and throughout the country a big lot of lumber is going on to sticks. A few months hence this lumber which is being piled at the mills will be in condition for shipment, and there suddenly will be a large amount of hardwood on the market, and then the market will break, and the fancy prices obtaining at this time will be a thing of the past.

This argument, however, does not find favor with the majority of the trade, and seems fully counterbalanced by other considerations. Lumber is being bought green simply because consumers have exhausted the supplies of dry. To a certain extent their purchases at the present time are of stock, but no small amount of the green lumber that is going into hands of consumers is for immediate consumption. While the output is large, the consumptive requirement is so nearly on par with it that it is impossible in some woods to increase the stocks, and thay can be increased but slightly in any variety.

It is not only possible but probable that there will be a readjustment of the hardwoods price list, but that there will be any substantial decline or that anything that can be called a break in the values of hardwoods can take place is altogether beyond the probabilities.

It should not be forgotten that there will be for a long time to come a stocking-up requirement which, as yet, has hardly begun to be satisfied. During the period of business depression following the 1893 panic, manufacturers generally allowed their stocks to reach a very low point. This they could do with some safety under conditions then prevailing, because the stocks that they themselves lacked could always be found in any desired quantity and for immediate delivery. This kind of policy, however, cannot be depended upon in the long run, and with more prosperous conditions lumber consumers are desirous of carrying normal stocks. They will not cease buying, therefore, until their supplies shall be replenished to a point which will enable them to be temporarily independent of outside stocks. But the point of replenishment will not soon be reached, for the demand for manufactured commodities continues large and shows no sign of abating. Lumber is moving out in the shape of goods about as fast as it can be secured, dry or green; so the stability of the market seems assured for practically a year to come.—American Lumberman.

Edwin Athya & Co., timber importers, 9 Gracechurch street, London, E.C., have admitted Mr. Phillip Thompson as a partner, the style of the firm remaining unchanged.

Deal freight rates from Montreal rule about as follows: To Liverpool, 35s to 37s 6d; Glasgow, 42s 6d to 45s; London, 42s 6d; Bristol, 45s; Leith, 50s; Aberdeen, 50s; Belfast or Dublin, 42s 6d to 45s; Manchester, 45s.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JULY 19, 1899 No. 26.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.

CEDAR, 8 x 10, 10 x 10, 12 x 12, from 10 to 24 feet long. Apply to W. A. PLAYFAIR, Playfair, Ont.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

WANTED—DRY BASSWOOD.

DRESSED TWO SIDES TO ⅜ THICK, CUT to dimension sizes for export. This will prove an excellent outlet for common and cull basswood. Elm Strips, Rock Elm or Soft Elm (latter preferred) Strips, 1½×2, 1½×1, and ½×1; all lengths 6 ft. and up—Car-loads for export. For full particulars, address "EXPORTERS," P.O. Box 1040, New York City.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

WANTED.

WILL PAY CASH FOR 80,000 FEET FACE, when matched, 5/4" Hard Maple Flooring, to finish from two inches to three and a half in width; quality to be suitable for factory flooring. Will take stock either in the rough or tongued and grooved. Also want 150 Tamarac Piles, forty feet long, 7" and up at small end; 150 pieces fifty feet long. Must be sound, straight timber. Apply to GEO. WILSON & Co., St. Catharines, Ont.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

AUCTION SALE, SEPTEMBER 7TH, 1899

Will be sold at Auction, by order of the Supreme Court, under the direction of Austin B. Fletcher, Esq., Receiver, on Depot Square, at White Plains, N.Y., on THURSDAY, SEPTEMBER 7TH, 1899, at 11:30 a.m., the Lumber and Coal Yard formerly owned by the John W. Young & Sons Company, at White Plains, N.Y., the County Seat of Westchester County. Population 8,000 to 10,000, on the line of the New York & Harlem Railroad, 22 miles from Grand Central Depot, New York City.

Two-Storey Frame Office Building, Iron Clad Elevator (capacity 35,000 bushels), Large Brick and Frame Planing Mill and Wood-Worker, ample Coal and Lumber Sheds, abundant Trackage, Wagon and Track Scales, located on two sides of the Square at the Station. Will be offered in parcels and as a whole.

Also, at the same time and place and under the same order, the Lumber and Coal yard lately owned by the same Company, situate at the Station at Tuckahoe, also on the New York & Harlem Railroad, 16 miles from Grand Central Depot. A smaller yard than the former, but very complete in its appointments; Office Building, Coal and Lumber Sheds, comparatively new, in good order; side track, scales, etc.

Two grand opportunities for a live man. For maps giving full particulars, terms of sale, etc., apply to

AUSTIN B. FLETCHER, Receiver, 32 Liberty St., New York City. OR W. B. TIBBITS, Auctioneer, White Plains, N.Y.

Sale of Timber Licenses

PROVINCE OF NEW BRUNSWICK

The present regulations provide for licenses to be renewed each year for a period of 18 years from 1st August, 1900, at a rate of $4.00 per square mile, in addition to stumpage.

Further information of Sale can be obtained from Crown Land Office, Fredericton, N. B.

A. T. DUNN,
Surveyor General.

TO LUMBER DEALERS

THE NEWFOUNDLAND IRON ORE CO., Limited, of Workington, Newfoundland, invite tenders for the delivery at Old Perlican, Trinity Bay, Newfoundland, of a large quantity of

12 AND 10 INCH SQUARE SPRUCE SAWN TIMBER

Specifications may be obtained at the office of this paper.

The Company does not bind itself to accept the lowest or any tender.

S. HERBERT WILLIAMS,
Superintendent.

Auction Sale
OF
TIMBER LIMITS

Owing to the death of Mr. Thomas Hale, and to wind up the business of Hale & Booth, the following valuable TIMBER LIMITS will be offered for sale at public auction at the Russell House, in the City of Ottawa, on

Wednesday, the 6th Day of September Next,

at the hour of 2 o'clock, viz.:

PARCEL 1.—Berth No. 82, North Shore of Lake Huron, area 36 miles. This berth is considered second to none on the Georgian Bay.
PARCEL 2.—Berths 2, 3 and 4, Township of Butt (situated contiguous to the line of O., A. & P. S. R'y.), 13¾, 12 and 11¾ miles respectively.
PARCEL 3.—Berths Nos. 136 and 136, Serpent River, area 36 miles each.
PARCEL 4.—Berth No. 1, Township of Hanmer, Vermillion River, area 7¾ miles. (If not previously sold.)
PARCEL 5.—Township of Spragge, area 28 miles.

The stocks of Shanty Plant, rigging and supplies which have been used in connection with the operations on each parcel or lot, and whether or not actually stored upon the limit, to be taken by the purchaser at a fair valuation.

Terms and conditions of sale will be made known at the time of sale. Further particulars as to the properties may be had on application to

JAMES H. BURRITT, Barrister,
Pembroke, Ont.

Or to J. R. BOOTH, Ottawa.

LUMBER AND COAL YARDS FOR SALE.

In the "Wanted and For Sale" department of this issue will be found an advertisement offering for sale two valuable lumber and coal yards recently owned by John W. Young & Sons Co., but now in the hands of a receiver. One of these yards is situated at White Plains, N.Y., the county seat of Westchester county. It comprises a two-storey frame office building, iron clad elevator, large brick and frame planing mill and wood-working factory, coal and lumber sheds, wagon and track scales, etc. The other is situated at Tuckahoe, on the New York and Harlem Railroad, and is a smaller yard than that at White Plains, but very complete in its appointments. Persons contemplating an investment in this direction should attend the sale on September 7th.

A meeting of the shareholders of the Ottawa Lumber Co. will be held at Calumet, Que., on July 27th, to consider an agreement entered into by the President of the company for the sale of the mills and timber limits.

CURRENT TRADE CONDITIONS.

ONTARIO.

Any manufacturer or dealer who has dry lumber to sell can, virtually, fix his own price; such is the position of the market. Nearly all the mills report contracts in advance, and the stock is being shipped almost as fast as it comes from the saw. This refers alike to pine, hardwoods and shingles. Dealers in the Eastern States have entered the Ontario market in a way which proves that there is a great scarcity of lumber across the line, also that prices have reached a point which has caused buyers to turn their attention to Canadian stock. There is no exception to be made in respect to grades, as all kinds of lumber meets with ready sale. Manufacturers who held stock for years for higher prices have in almost every instance disposed of their holdings this season, and at prices which netted a satisfactory profit. There are many inquiries in the market for red pine, and it is quite probable that a greater quantity of this lumber will be cut next year, as it is gradually coming into greater favor in the British market. Hardwood prices show no material depreciation, and it would appear as though the placing of the new cut upon the market is not likely to affect prices to any extent.

UNITED STATES.

Retailers seem to have suddenly realized that prices, instead of declining, are likely to further advance, and consequently they are eager to purchase their fall stock. The feature of the past week has been an advance in some of the markets. On July 10th the Lumbermen's Association of Chicago adopted a new list, making an advance of one dollar on good lumber, fifty cents on common boards, and one dollar on piece stuff. At Minneapolis there is a probability of a like advance. Trade in the Eastern States continues to expand. While the receipts at Buffalo and Tonawanda have been heavy, the demand has been such that dealers have found it impossible to increase their stocks. The demand is most active in the better and coarser grades, although common lumber is by no means dull of sale. At Buffalo the supply of 5-4 box is completely exhausted, and dealers will pay almost any price for this class of lumber. At Cleveland there was never known to be such a demand for boxing and crating lumber, the price of which is from $3 to $4 higher than two months ago. These remarks show the strong position of the market in respect to pine.

Hardwood prices do not show any signs of declining; on the contrary, there has been an advance in some markets on quartered oak and thick ash, which are more enquired for than the other woods. Elm follows the lead of ash, and is being purchased to some extent in its stead. Maple and birch are steady at recent quotations.

The recent advance made on spruce in the Boston market has been maintained, and manufacturers expect that the present level of prices will rule through July and August. Frames, 9 inches and under, are quoted at $15.50, and 12 inches and up at $17.

The shingle trade is steadily improving. One concern in Chicago claims to have cornered the supply of white cedars at Lake Michigan points, paying from $1.90 to $2.10 for extra *A*s. As a result of this, prices are likely to advance to $2.25 at the mills.

QUEBEC AND NEW BRUNSWICK.

The statement of the Supervisor of Cullers, Quebec, shows that in square white pine and oak the quantity received up to date is less than during the same period last year, while waney pine, ash, birch and maple shows an increase. The demand is reasonably active, and prices are steady. Merchants have been unusually busy during the past week loading vessels, several large cargoes having left Quebec and Montreal for Great Britain with deals and timber. Manufacturers report an unusually active demand for British deals, while the United States trade has revived to such an extent that the supply is unequal to the demand. One manufacturer reports that prices for spruce and hemlock boards, ⅞ dry, are the highest he has ever known, and that American consumers are now paying the duty. Prices are better generally in Quebec than they have been for some years. The cedar shingle market maintains its buoyancy, sales being made at $3.00, $2.60, $2 and $1.50. In New Brunswick and Nova Scotia there are few deals to be had, as the output of most of the mills has already been contracted for. Large shipments are being made to the West Indies, South America and Great Britain.

FOREIGN.

Circulars to hand review the past six months operations in the British wood market, and contain interesting statistics regarding the imports, consumption and stock. The imports have been heavier, but increased consumption has counterbalanced this, and the market may be said to be strong. At London the pine stocks on public docks are some 104,759 pieces less than on June 30th, 1898, while spruce shows a decrease of 241,376 pieces. At Liverpool the stock of waney board and square pine is 234,000 feet, as compared with 330,000 feet at same time last year. Quebec pine deals are 4,000 standards heavier, and New Brunswick deals about 2,000 standards heavier. Coming to the Clyde, we find that second and fourth quality pine deals and ends are about 50 per cent. less, third pine about the same, and New Brunswick spruce about 50 per cent. more than last year. Waney and red pine, oak, elm and ash logs are also in excess of stocks last year, while square pine is less. While from these figures it might be concluded that the market is overstocked, it should be borne in mind that the consumption this year has steadily increased, and bids fair to continue active throughout the season. The tendency of prices generally at the present time is to advance, and in view of this, importers are storing as much stock as possible in the hope of realizing higher prices later in the season. Dublin prices for spruce rule about as follows: Miramachi and St. John, N. B., £12 15s.; Quebec seconds, 3d to 3½d per superficial foot. More detailed particulars of the leading markets will be found elsewhere.

SHIPPING MATTERS.

The following charters are reported: Bgt. Curlew, Quebec to Havre, France, deals 46s 3d; str. Glasgow, Sagueney, Que., to Glasgow, 55s; str. Holywell, Three Rivers to London, deals, 45s; bark, 1119 tons, Boston to Buenos Ayres, lumber, $8.50.

The Timber Trades Journal reports the following charters: Str., 1650 stds., Quebec to London, 43s 9d, option loading two places, 45s., July; Quebec to London, 1,000 stds., 45s, July; Quebec or Three Rivers to London, 1,400 stds., 45s., end July; Shediac to Liverpool, 600 tons, 52s 6d; Cape Tormentine, N.B., to Cardiff, Newport or Swansea, 600 tons, 48s 9d.

STOCKS AND PRICES.

The Cataraqui Bridge Co., of Kingston, Ont., want tenders by July 24th, for a supply of maple, hemlock and pine timber.

A western Ontario firm reports the sale of 3,500,000 feet of white pine stock boards at $14, mill run, also 1,500,000 feet of Norway pine.

The works of the Metropolitan Electric Company at Britannia, near Ottawa, will require about 3,000,000 feet of square timber for their construction.

Pelton & Reid, of Cheboygan, Mich., have sold to the H. M. Tyler Lumber Co., of North Tonawanda, $100,000 worth of lumber to be shipped this season.

Donald Fraser & Sons, of Fredericton, N. B., are shipping large quantities of box shooks to Scotland. In one week recently thirteen cars were loaded with shooks for Glasgow.

Lumber shipments from the Ottawa valley are very brisk. So far this season 264 barges have been loaded at the Booth docks, each barge containing an average of 320,000 feet of lumber.

Wright, Graham & Co., Glasgow, Scotland, report that the white oak stave market keeps firm for most sizes. Canadian butts are quoted as follows: 5½ ft. × 3 in., £110 to £120 per mille; 5½ ft. × 2½ in., £85 to £95.; 5½ ft. × 2 in., £65 to £70.

Mr. James Rankin completed last week his drive down the Blackstone river to Parry Sound. He brought down three quarters of a million feet of pine logs for the Conger Lumber Co. and nearly two hundred thousand feet of basswood and elm logs for the Parry Sound Patent Cloth Board Co.

Four rafts of square timber were taken from the Upper Ottawa limits this season, one owned by each of the following persons: W. Mackey, Fraser & Co. and Thomas Mackie, of Ottawa, and Gillies Bros. & Co., of Braeside, Ont. Each raft contained an average of 100,000 cubic feet of timber.

Following is a comparative statement of timber, &c., measured and culled at Quebec to July 18th, 1899:

	1897.	1898.	1899.
Waney white pine, cu feet.	1,219,938	902,354	951,674
Square white pine, cu. feet.	320,774	652,802	267,004
Red pine, cu. feet	82,675	114,960	87,429
Oak, cu. feet	952,258	568,404	377,586
Elm, cu. feet	415,590	345,487	396,879
Ash, cu. feet	82,206	25,826	52,740
Basswood, cu. feet	25		
Butternut, cu. feet	673	795	60
Birch and Maple, cu. feet.	183,093	106,480	231,575

Following are ruling prices at Boston for hardwoods: Oak—1 inch, $68 to $72; 1¼, 1½ and 2 in., $70 to $75. Ash.—1 in. $42 to $44; 2 in., $48 to $50. Brown ash—1 in., $39 to $41; 1½ to 2 in., $41 to $43. Elm—1 in., $30; 1¼, 1½ and 2 in., $32; 3 in., $34. Maple.—1 in., $26 to $28; 1¼, 1½ to 2 in., $28 to $30; 3 and 4 in., $34 to $36. In Michigan good thick hard maple is selling at $14 mill run, ash and elm at $16 to $22, and birch at $17. Canada log run pine is worth $15 to $17, and box lumber $12 to $12.50.

SALE OF NEW BRUNSWICK TIMBER LANDS.

As will be obseeved by an announcement elsewhere, the Department of Crown Lands of the Province of New Brunswick will offer for sale by public auction, on Wednesday, August 30th, the vacant unlicensed crown lands in that province. These consist of 593 berths, ranging from two to ten square miles each, and the upset price is $8 per square mile. The provincial regulations provide for licenses to be renewed each year for a period of eighteen years from 1st August, 1900, at the rate of $4 per square mile, in addition to stumpage. This will be an important sale, and every lumberman desirous of increasing his holdings of timber limits should be in attendance.

WANTED

THE GLASGOW MARKET.

Messrs. Wright, Graham & Co., in their Monthly Timber Market Report dated 30th June, review the Glasgow market as follows:

Nearly all classes of wood goods are in excellent demand, and prices keep firm. The sawmillers and merchants report housebuilding and cabinetmaking trades well employed.

WANEY BOARDWOOD.—There is a steady demand for prime wood. Price—2s 6d to 2s 9d; second-class wood, 1s 6d to 2s per cubic foot.

SQUARE PINE.—There is a fair demand for 35 to 40 average. Price quoted 2s 3d to 2s 6d; logs of smaller average and poorer quality, 1s 5d to 1s 10d per cubic foot.

RED PINE.—The demand for large wood continues. Price—1s 10d to 2s; smaller and poorer quality, 1s 3d to 1s 6d per cubic foot.

OAK LOGS are in fair request. Large prime wood quoted at 2s 6d to 3s; parcels of ordinary quality and average at 1 10d to 2s 3d per cubic foot.

ELM LOGS.—There is a specially good demand for large prime wood. Price—2s 2d to 2s 4d; logs of smaller average and poorer quality at 1s 9d to 2s per cubic foot.

ASH LOGS.—Prime wood of 15 to 16 inch average is selling at 1s 10d to 2s per cubic foot.

BIRCH LOGS.—Parcels arriving are finding ready sale. 16 in. selling at 1s 8d to 1s 10d; 14 to 15 in. average at 1s 5d to 1s 7d per cubic foot.

ROCK MAPLE LOGS.—Prime fresh logs are enquired for. Price—1s 10d to 2s 2d per cubic foot, according to size and quality.

HICKORY LOGS.—Logs of prime quality are wanted. Price—1s 10d to 2s 2d per cubic foot, according to size.

QUEBEC WHITE PINE DEALS.—The price of broad firsts has improved with the increased demand. Other sizes and qualities are selling steadily with the exception of narrow thirds and fourths, which are difficult to move unless at low prices. 1st quality—broad, £24 1 3 to £25 8 9; 11 in., £21 6 3 to £23 7 6; 7" to 10" and ends, £16 10 0 to £19 5 0 2nd quality—broad, £18 4 4 to £19 5 0; 11 in., £15 16 3 to £17 3 9; 7 in. to 10 in., £12 7 6 to £13 15 0. 3rd quality—broad, £10 6 3 to £11 0 0; 11 in., £9 12 6 to £9 19 4; narrows, £7 4 4 to £8 5 0. 4th quality—broad, £7 11 3 to £8 5 0; 11 in., £6 17 6 to £7 4 4; narrows, £6 3 9 to £6 10 7.

RED PINE DEALS.—A good demand continues. Prices are about as follows: 9 and 11 in., £8 18 9 to £10 13 1; Narrows, £8 0 0 to £8 11 10 per St. Pet. std.

QUEBEC WHITE PINE BOARDS.—The demand is moderate. Prices as follows: First quality—2 in. thick, averaging 12 in. to 15 in. wide, at £17 3 9 to £19 5 0; 1½ in. thick, averaging 12 in. to 15 in. wide, at £16 10 0 to £18 18 1; 1¼ in. thick, averaging 11 in. to 13 in. wide, at £16 10 0 to £18 11 3; 1 in. thick, averaging 10 in. to 12 in. wide, at £15 0 0 to £16 10 0; 1½ and 2 in. strips, 4 to 7 in. wide, at £14 8 9 to £16 10 0. Second quality—2 in. thick, averaging 12 to 14 in. wide, at £13 1 3 to £15 9 4; 1¼ and 1½ in. thick, averaging 12 to 14 in. wide, at £12 7 6 to £14 8 9; 1 in. thick, averaging 10 to 12 in. wide, £11 6 10 to £12 7 6. Third quality—2 in. thick, averaging 11 to 15 in. wide, at £8 18 9 to £11 0 0; 1, 1¼, and 1½ in. thick, averaging 10 to 14 in. wide, at £7 4 4 to £9 12 6 per std.

QUEBEC SPRUCE DEALS.—A large business has been done and shipments have sold largely ex quay. Prices quoted—£6 3 9 to £7 11 3 for third quality, and £5 16 10 to £6 14 for fourth quality.

ST. JOHN, N.B., PINE DEALS. — Prices quoted—£6 3 9 to £7 18 1 per St. Pet. std.

ST. JOHN, N.B., SPRUCE DEALS—(2nd quality average), £6 3 9 to £7 11 3 per St. Pet. std.

ST. JOHN, N.B., BIRCH LOGS.—There is a brisk demand, and shipments are selling at from 18d to 20d for 16 in. average.

ST. JOHN, N.B., BIRCH PLANKS.—Owing to the heavy import prices are slightly easier. Prices—£6 17 6 to £7 18 1 per St. Pet. std.

TIMBER STOCKS AT LONDON.

According to Churchill & Sim's wood circular, the stocks of timber, deals, etc., at the public docks, London, Eng., on June 30th, 1898 and 1899, were as follows:

	1899.	1898.
Foreign deals, in pieces	801,0 0	1,038,000
Battens, in pieces	2,504,000	1,657,000
Boards, in pieces	8,354,000	7,883,000
Wainscot logs, in pieces	516	738
Oak timber, in loads	1,700	1,645
Fir timber, in loads	1,808	2,412
Colonial pine deals and battens, in pcs.	839,000	857,000
Spruce ditto	470,000	697,000
Oak timber, in loads	1,833	1,757
Birch timber and planks, in loads	2,065	4,687
Elm and ash timber, in loads	435	437
White pine timber, in loads	643	859
Red pine timber, in loads	33	47
United States pitch pine timber, in lds.	6,080	11,429
Pitch pine deals, in pieces	68,000	120,000
East India teak, in loads	8,996	13,543

Spruce has slightly improved in sympathy with the prices obtained for white wood from the north of Europe. Elm, ash and white pine have been going into consumption slowly, while there is a little improvement again in oak. Birch timber is short in stock. Wholesale prices rule about as follows:

	£ s.	£ s.
St. Lawrence pine deals, etc, per P.S.H.		
1st, bright and dry, regular sizes	19	to 25 10
" " " " oddments	12	to 18 15
2nd, " " " regular sizes	14	to 17 5
" " " " oddments	9 10	to 13 0
3rd, " " " regular sizes	9 5	to 10 5
" " " " oddments	7	to 8 10
4th, " " " regular sizes	6 5	to 7 5
" " " " oddments	5 15	to 6 15
St. Lawrence spruce deals, etc.		
1st, regular sizes	8 5	to 10 5
2nd, " "	7 5	to 8 5
3rd, " "	7	to 7 15
4th, " "	5 15	to 6 15
Oddments and battens at 20s., 10s., 7s. 6d. and 5s. less respectively.		
New Brunswick spruce deal., etc	7	to 7 15
Oddments, battens and fourths	6 5	to 7 5

The Booth & Lewis Lumber Co. has been incorporated in New York city, with capital stock of $15,000.

Send four 3-cent Canadian postage stamps for a copy of the LUMBERMAN'S VEST-POCKET INSPECTION BOOK, containing rules for the inspection of Pine and Hardwood Lumber in the leading markets of Canada and the United States.

The tug Champion, having in tow a raft of 2 500,000 feet of logs for the Delta Lumber Company, of Detroit, lost the raft in a gale north of Alpena, Mich., the logs going ashore. The work of picking them up is in progress and the greater number will be recovered.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., JULY 26, 1899 No. 27.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

PINE FOR SALE.

45 M FT. GOOD PINE LUMBER, 12 and 14 ft. long, 2, 1½, 1¼ and 1 in. thick—sawn in May. At Baird's Mill, five miles from Markdale. J. RITCHIE, Glascott, Ont.

LUMBER FOR SALE.

60 M FEET IN. BASSWOOD; 10 M FEET 1 in. Ash; 60 M feet 1, 2 and 3 in Birch; 5 M feet Maple. Mill run on cars at Huntsville. S. H. JACOBS, Huntsville, Ont.

RAILWAY TIES FOR SALE

25,000 CYPRESS TIES, DELIVERED AT Murray Bay or Quebec. For particulars apply to LECLERC & LETELLIER, 104 and 106 St. Paul Street, Quebec.

WANTED—DRY BASSWOOD.

DRESSED TWO SIDES TO ⅜ THICK, CUT to dimension sizes for export. This will prove an excellent outlet for common and cull basswood. Elm Strips, Rock Elm or Soft Elm (latter preferred) Strips, 1½×2, ½×1, and ½×1; all lengths 6 ft. and up—Car-loads for export. For full particulars, address "EXPORTERS," P.O. Box 1040, New York City.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

AUCTION SALE, SEPTEMBER 7TH, 1899

Will be sold at Auction, by order of the Supreme Court, under the direction of Austin B. Fletcher, Esq., Receiver, on Depot Square, at White Plains, N.Y., on THURSDAY, SEPTEMBER 7TH, 1899, at 11:30 a.m., the Lumber and Coal Yard formerly owned by the John W. Young & Sons Company, at White Plains, N.Y., the County Seat of Westchester County. Population 8,000 to 10,000, on the line of the New York & Harlem Railroad, 22 miles from Grand Central Depot, New York City.

Two-Storey Frame Office Building, Iron Clad Elevator (capacity 35,000 bushels), Large Brick and Frame Planing Mill and Wood-Worker, ample Coal and Lumber Sheds, abundant Trackage, Wagon and Track Scales, located on two sides of the Square at the Station. Will be offered in parcels and as a whole.

Also, at the same time and place and under the same order, the Lumber and Coal yard lately owned by the same Company, situate at the Station at Tuckahoe, also on the New York & Harlem Railroad, 16 miles from Grand Central Depot. A smaller yard than the former, but very complete in its appointments; Office Building, Coal and Lumber Sheds, comparatively new, in good order; side track, scales, etc.

Two grand opportunities for a live man. For maps giving full particulars, terms of sale, etc., apply to

AUSTIN B. FLETCHER, Receiver, 32 Liberty St., New York City. OR **W. B. TIBBITS, Auctioneer, White Plains, N.Y.**

Sale of Timber Licenses

PROVINCE OF NEW BRUNSWICK

There will be sold at Public Auction, at the Crown Land Office, Fredericton, on

WEDNESDAY, 30TH AUGUST, A.D., 1899,

and following days, the vacant unlicensed Crown Lands in the Province of New Brunswick.

573 berths will be offered, ranging from 2 to 10 square miles each. Upset price $8.00 per square mile.

The present regulations provide for licenses to be renewed each year for a period of 18 years from 1st August, 1900, at a rate of $4.00 per square mile, in addition to stumpage.

Further information of Sale can be obtained from Crown Land Office, Fredericton, N B.

A. T. DUNN,
Surveyor General.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumbermen in Ontario are much encouraged by the inquiries for stock that have been received from all quarters. It is believed that when the mills shall close down for the season there will be very little unsold stock in the yards, and dealers who do not secure their winter supply during the next couple of months will in all probability be obliged to pay higher prices, and they may find it impossible to obtain stock at any price. A correspondent in the Georgian Bay district writes that the present activity in trade has not been equalled for many years. Mill culls which two years ago sold at $5 per thousand now meet with a ready sale at an advance of $2.50 upon that figure, and none of the manufacturers have any large stock for sale. The lumbermen are already giving some attention to preparing for operations in the woods next winter. It is hoped that manufacturers will exercise precaution and restrict the log production. Although the market is strong, it would be a mistake to increase the production to any extent. The policy of each manufacturer should be to cut an average stock and obtain for it a remunerative price.

QUEBEC AND NEW BRUNSWICK.

In another column will be found a statement of timber measured at Quebec up to 25th July for three years, by which it will be observed that the receipts of waney white pine this year are about the same as last season, while square pine shows a large decrease. There has also been a slight decrease in the receipts of red pine and an increase in birch and maple. Nothing has transpired within the past week to cause the market to fluctuate, and prices generally are steady, with a moderate demand. The proposed harbor works at Montreal will require a large quantity of timber. Although the government has only granted $750,000 for these works, it is expected that over $2,000,000 will be expended before they are completed. The local demand for lumber is being restricted on account of the scarcity of structural iron, as work on large buildings has been suspended until next season.

Foreign trade is active and many vessels are loading.

Favorable reports continue to be received from New Brunswick and Nova Scotia, where much of this season's cut of deals has been contracted for. New Brunswick cedar shingles are stiffening in price. Some of the mills are said to be asking $3.20 and $3.25 for extras, $2.75 and $2.80 for clears, and $2.40 to $2.50 for second clears. Even at these prices many of the yards are still in want of shingles, as the mills have contracts in advance and are unable to fill new orders.

UNITED STATES.

Reports from every section of the United States are peculiarly unanimous as to the strength of the lumber market. Some of the northern operators are declining to consider orders for a time, having more business than they can properly look after. Although prices usually weaken during the months of July and August, this year the reverse has been experienced. Minneapolis manufacturers have just made an advance of 50 cents per thousand on lumber and 25 cents on lath, and a further advance is said to be very probable. In Chicago, short piece stuff is selling from the yards at $14, while a few years ago from $9 to $10 was about the average price. Eastern wholesale dealers report numerous orders which they are unable to fill on account of scarcity of stock. At Buffalo practically all stocks are low, and particularly low grade cutting-up pine. Box makers are using Norway to make up for the scarcity of white pine.

No material change has taken place in the spruce market. A meeting of manufacturers was held at Boston last week, at which an advance in prices was discussed, but beyond adopting more stringent terms of payment, no action was taken.

The hardwood situation has not been relieved to any extent. Stock is moving, from the mills as fast as manufactured, and dealers are unable to stock up in preparation for the fall trade. There is a brisk demand for all sorts of shingles and lath, the latter especially being very scarce. The prices adopted at Buffalo will be found elsewhere.

FOREIGN.

The general tone of the British trade is good. Building work is proceeding with unusual briskness, and there is a heavy retail demand for sawn and planed lumber. Merchants have so little stock to offer f.o.b. that few of them can quote prices. A writer in the Timber Trades Journal remarks that he never recollects a similar state of the market, and the general opinion is that next year prices will be even stronger than at present. The difficulty of getting good 3×9 and 11 inch Baltic deals is assisting the pine and spruce market.

The official returns published by the Board of Trade present some interesting figures. During the six months ending June 30th this year, the quantity of sawn and hewn wood goods imported into Great Britain was in excess of that of last year by 1,460,213 loads, valued at $1,825,889. From Canada there was imported during this period 368,611 loads of sawn timber and 25,744 loads of hewn timber, against 222,850 and 14,490 loads respectively in the first six months of last year. The total from all countries this year was 3,987,693 loads. Notwithstanding this heavy import, the stocks on hand at the present time are little in excess of those held at the same time last year, which shows the great volume of consumption.

In France trade is also active, goods having been sold during the past month at prices which have not been equalled in the memory of those engaged in the trade.

STOCKS AND PRICES.

John Dewar & Sons, of St. George, N. B., have loaded eleven vessels with lumber this season.

W. T. Quickfall, of Glen Allan, Ont., has just shipped a car-load of basswood lumber to Havre, France.

It is the intention of Alger, Smith & Company to continue operations next winter on their Pigeon river limits.

The Huntsville Lumber Co. have purchased from J. J. Long, of Collingwood, berth No. 8, Finlayson, paying $74,500 for the limits.

On July 14th the spruce manufacturers met at Boston and advanced the price of lath ten cents, making prices $2.35 for 1½ in., and $2.50 for 1⅝ in.

The Mikado Gold Mining Co., of Rat Portage, Ont., wants tenders for the delivery before the close of navigation of 2,500 cords of tamarac and jack pine cord wood.

A report from Quebec states that owing to the carrying away of bridges and the breaking of booms at St. Joseph and St. Francois, 900 cords of pulpwood are adrift.

G. O. Buchanan, of Kaslo, B. C., purposes establishing a saw mill at Duncan City. He has been given a contract to cut 2,000,000 of bridge timber for bridges along the Kaslo and Slocan railway.

Howard & Craig, of Sherbrooke, Que., have recently purchased 6,000 acres of choice timber lands in the counties of Beauce and Dorchester. The timber will be floated down the Chaudiere river to their mill at Beauce Junction.

The steamship Laburn cleared from Parrsboro, N. S., on July 17th for Manchester, with 3,447,496 feet of deals, ends and scantlings, shipped by M. L. Tucker for W. M. Mackay. This is the largest cargo of lumber ever shipped from Nova Scotia.

At Boston brown ash of the better grade is in good demand, and the supply is practically nil. Firsts and seconds bring $38 to $40. Very little thick elm is offered, and 3-inch is particularly scarce. 1-inch is quoted at $28 to $30, and thicker at $32 to $33.

There is an extraordinary demand in Michigan for cedar. It is almost impossible to get hold of the stock, in spite of the largest output last winter ever known, and prices have nearly doubled. The telegraph and telephone companies are using it in large quantities.

The steamer Morven sailed from Montreal on Saturday last for Glasgow, having on board 1,617 standards of deals and timber, consigned by McLean, Kennedy & Co. The steamship Hildawell is loading a cargo of timber and deals for U. K. on account of same firm.

Since last report the following rafts have been entered at the office of the Supervisor of Cullers, Quebec: By McArthur Bros., oak, pine, ash, etc., at New Liverpool Cove; Gillies Bros Co., square and waney pine, at Bridgewater Cove; McLeod & McNeil, waney pine, at Sharples Cove; James McBurney & Co., waney pine, at Upper Sillery.

In other seasons, considerable business has been done in Northern Wisconsin in the sawing of deals for export to Great Britain, but there has nothing whatever been done in white pine deals this season. The only transaction on foreign account has been 600,000 feet of Norway, which was cut to specified dimensions for a Canadian concern on Liverpool account. This is due to the prosperous domestic trade.

Shipments of lumber from St. John, N.B., to the United Kingdom and continent during the first six months of 1898 aggregated about 46,000,000 feet of spruce and 451,000 feet of birch. During the same months of this year, the spruce shipped to the United Kingdom alone amounted to 67,762,544 feet, and the birch to 2,603,674 feet.

Following is a comparative statement of timber, &c., measured and culled at Quebec to July 25th, 1899:

	1897.	1898.	1899.
Waney white pine, cu. feet.	1,710,512	1,100,134	1,168,534
Square white pine, cu. feet.	447,653	750,720	276,935
Red pine, cu feet	107,188	133,329	88,351
Oak, cu. feet	1,038,466	589,401	429,559
Elm, cu. feet	479,841	345,487	4 5,824
Ash, cu. feet	86,085	45,826	54,146
Basswood, cu. feet	55		
Butternut, cu. feet	673	795	60
Birch and Maple, cu. feet	183,093	106,480	231,575
Tamarac			415

At a recent sale held by Churchill & Sim, London, Eng., Canadian goods sold as follows: 12-13 ft., 3 x 9 fourth quality pine, £6 15s; 9 11 ft., 3 x 9, £6 5s; 12-16 ft., 1½ x 10, first quality pine, $18; 12-16 ft., 1½ x 10-20, £17 10s; 12-16 ft., 1½ x 9, £17 15s; 16 ft., 1½ x 8, £17 5s. 12-13 ft., 3 x 11 third quality spruce, £7 15s; 8-13 ft., 2 x 4 assorted spruce, £7; 13 ft., 3 x 9, third quality, £8; 9 17 ft., 3 x 11, second quality, £9 15s.

The Saginaw Lumber & Salt Company, of Saginaw, Mich., last week sold 800,000 feet of box lumber at $13.50, which is the highest price at which box has yet been sold. Two years ago $9 would have been regarded as a high price for the same grade of lumber. Generally, box is quoted at $12 and $12.50. Log run is worth $15 to $17 for Canadian stock, and $16 to $22 for Michigan stock, according to quality. Norway is held at $9.50 and higher, and mill culls at $8 to $10.

A sale of dry stock was recently made at Duluth, Minn., which shows the extreme prices paid for lumber at the head of the lakes. The prices were as follows: 4 to 10 in. No. 2 common, $12.50; 12 in. and up, $13; 4 to 10 in. No. 1 common, $15; 12 in. and wider, $18; 4 in. and up No. 4 boards, $8.75—in all about 4,000,000 feet, besides which there was a lot of No. 4 boards in another sale at $9. In January last several firms sold their No. 4 boards at $6.50, and a bill of stuff sold in March this year showed as follows: 12 in. and wider No. 1, $16.50; 10 in., $14.25; 8 in., $13.50; 6 in., $14.25; 4 in., $12.50; No. 2, 12 in. and wider, $12; 10 in., $12.50; 8 in., $9.75; 6 in., $10.50; 4 in., $4.50.

The Liverpool correspondent of the Timber Trades Journal, referring to the pine and spruce market, says: Perhaps the weakest item in Quebec goods is still pine deals, boards, sidings, strips, and similar forms of partly-manufactured pine goods. The demand of last winter was not sufficiently large to make any notable impression upon the stock left over from the 1898 season. These now figure in the Liverpool stock at 15,649 standards, against 11,020 standards in 1898, and 5,834 in 1897. With such a load as this to carry, the market is feeling the effects of the overweight. Spruce deals continue on their upward move, and now shippers are not only asking 2s 6d to 5s per standard more, but are even indifferent sellers at this advance. It is the smaller ports round the coast where the pinch is felt more severely, for the great difficulty is now to secure small sailing vessels of 250 to 300 standards' capacity. The large centres of the trade, which can accommodate steamers of 1,500 to 1,750 standards, do not suffer in the same manner.

The saw mill of Richard Kirton at Grenville, near Newmarket, Ont., was burned recently, together with 20,000 feet of lumber. The damage is $1,500, with no insurance.

WANTED

Rock Elm, cut to order.
Soft Elm, all thicknesses.
Black Ash, all thicknesses.

State quantity you can supply, with lowest prices.

BUFFALO PRICES.

The trade at Buffalo and Tonawanda have adopted the following price list on shingles and lath :

Michigan white pine shingles—18 in. XXXX, $3.70 ; 18 in. C.B., $2.85 ; 18 in. sound butt, $1.50 ; 16 in. XXXX, $3.25 ; 16 in. extra A, $2.65 ; 16 in. A, $2.40 ; 16 in. C.B., $2.35 ; 16 in. 6 in. sappy C.B., $2 ; 16 in. sound butts, $1.50 ; 16 in. culls, $1.25.

Michigan white cedar shingles—18 in. XXXX, $3.40 ; 18 in. C.B., $2.55 ; 16 in. XXXX, $2.80 ; 16 in. extra A, $2.40 ; 16 in. A, $2.12½ ; 16 in. C.B., $1.90, 16 in. cull, $1.25.

White pine lath—1 x 1½ in. No. 1, $2.50 ; No. 2, $2.15 ; 1 in. No. 1, $2.50.

Norway lath—1 x ½ in. No. 1, $2.25 ; 1 x ½ in. mixed, $2.35.

Red cedar shingles are quoted by Haines & Company at $3.50 for 18 in. perfection, $3 for 16 in. extra clears, and $2.60 for extra A's.

THE BARBADOS MARKET.

From circulars just to hand we obtain the following particulars of the Barbados lumber market :

On June 30th the schooner Mignonette arrived from St. John, N.B., with 49 M feet shipping white pine boards and planks. The boards were sold at $23.60 and the planks at $22.60. She also had on board 38 M feet second quality boards, sold at $17.60, and 5 M feet narrow spruce, which sold at $14.10. The steamship Taymouth Castle, from St. John, N. B., brought 242 M long cedar shingles, which sold at $3.26, and a smaller lot, which sold at $3. The cargo of the Herbert Rice, from Meteghan, N.S., which arrived on same date, had 146 M feet spruce lumber, sold at $17.15, and 48 M spruce laying shingles, sold at $2.11. The Alliance arrived from Gaspe, Que., with 127 M shingles, principally spruce laying, which had not been sold at last report. The demand for both lumber and shingles is good.

SHIPPING MATTERS.

The recent advanced ideas of steamship owners is having more or less of a tendency to retard business, temporarily at least. Tonnages, however, continue limited, and with quite a number of vessels wanted for late July and August loading. The situation naturally favors vessels. Grain rates are fully sustained on a moderate volume of business. There has been little done in timber and deals, but tonnage is wanted and shippers show a willingness to pay an advance over recent fixtures.

From St. John, N.B., we learn of the following fixtures : Bark Bristol, West Bay, N. S., to w. c. England, deals, 51s ; ship Savona, Grindstone Island, Que., to w. c. England, deals, 47s, birch, 50s ; str. Vinermia, 1,745 tons, West Bay, N. S., to w. c. England, 48s 9d ; str. Towhatan, 1,640 tons, St. John, N. B., to Liverpool or Birkenhead, 48s 6d ; bark Alert, Hillsboro, N. B., to U. K., deals, 50s ; str. Aldersgate, St. John to w. c. England, 48s 9d.

The Timber Trades Journal reports the following fixtures : Matane, Saguenay or St. Thomas, sailers to U. K.. 40s ; Grindstone Island, Que., to w. c. Great Britain, 600 tons, 52s 6d, August ; Miramichi to w. c. England, 1,250 stds., 48s 9d, August, 1,200 stds., with 100 stds. birch, 48s 9d ; Miramichi to London, deals and birch timber, 800 stds., 52s 6d, August ; St. John to Liverpool, 1,850 stds., deals, 41s 6d, and some birch logs at 17s 6d per load.

The sash and door factory of J & P. Nadeau at Grand Cascapedia, Que., was destroyed by fire last week.

CANADA'S GREATEST FAIR.

This year will mark the coming of age of Canada's Great Fair and Industrial Exposition, which will be held in Toronto from August 28th to September 9th. It is just twenty-one years since Toronto Exhibition was established as an annual institution under the present management. During that time it has increased five-fold in every direction, and to-day can fairly lay claim to have assumed a national character. Last year upwards of 300,000 people attended, and this year such arrangements are being made as will warrant the expectation of a still larger attendance. Many entirely new features will be presented, while the exhibits, with an increased amount given in prizes (totalling $35,000), will undoubtedly crowd the six hundred thousand dollars' worth of buildings to their utmost. The usual brilliant military spectacles will be given, illustrating recent famous feats of arms on land and sea by both England and America, and arrangements have been made for an illustration of wireless telegraphy, wireless telephoning and the improved X rays. In short, the Exhibition will be more than ever up to date.

The Lavin saw mill, located at Salmo, B.C., on the Nelson & Fort Shepard Railway, was last week sold at sheriff's sale to G. O. Buchanan, of Kaslo. Mr. Buchanan will remove the plant to Duncan City.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, according to the summer schedule effective April 1st, are as follows : Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs. ; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents ; Ottawa to Oswego, $1.90 per M ft. ; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.) ; Ottawa to Montreal, $1.00 per M feet, lath 20 cents per M pieces ; Quebec, $2.00 per M feet, lath 40 cents per M pieces ; Arnprior to Montreal, $1.50 per M feet, lath 30 cents per M pieces ; Quebec, 12 cts. ; Pembroke to Montreal, $1.75 per M ft., lath 35 cents per M pieces ; Quebec, $2 75 per M ft., lath 55 cents per M pieces ; Ottawa to New York, $2.50 per M ft., lath 50 cents per M pieces ; Arnprior to New York, $3.00 per M ft, lath 60 cents per M pieces ; Pembroke to New York, $3.25 per M ft., lath 65 cents per M pieces ; Parry Sound, track, $3.50 per M ft., lath 70 cents per M pieces ; Ottawa to Buffalo, 12 cents per 100 lbs. ; Ottawa to Port Huron and Detroit, 14 cents per 100 lbs. ; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c. ; exports 11c. per 100 lbs. ; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs. ; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs. ; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts. ; Arnprior to Portland, 17 cts. ; Ottawa to Burlington, 6c. per 100 lbs. ; Ottawa to Albany, 10 cts. per 100 lbs. ; Arnprior to Albany, 12 cts. per 100 lbs. ; Parry Sound to Albany, 17 cts. per 100 lbs. ; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs. ; Ottawa to St. John, N.B. and common points, 20 cents per 100 lbs. ; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft. ; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft. ; lath 50,000 rates pieces, not exceeding 600 lbs. per M pcs. Ottawa apply on shipments from Rockland and Hawkesbury.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., AUGUST 2, 1899 No. 28.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

PARCEL 3.—Berths Nos. 136 and 136, Serpent River, area 36 miles each.
PARCEL 4 —Berth No. 1, Township of Hanmer, Vermillion River, area 7¾ miles. (If not previously sold.)
PARCEL 5.—Township of Spragge, area 28 miles.

The stocks of Shanty Plant, rigging and supplies which have been used in connection with the operations on each parcel or lot, and whether or not actually stored upon the limit, to be taken by the purchaser at a fair valuation.

Terms and conditions of sale will be made known at the time of sale. Further particulars as to the properties may be had on application to

JAMES H. BURRITT, Barrister, Pembroke, Ont.

Or to J. R. BOOTH, Ottawa.

SHIPPING MATTERS.

The following charters are reported: Bark John Gill, West Bay, N. S., to w.c. England, 50s; bark Cordillera, St. John, N. B., to w. c. England, deals, 48s 9d; str. Anna Moore, St. John, N. B., to w. c. England, deals, 45s; bark Florence B. Edgett, 491 tons, Weymouth, N. S., to Buenos Ayres, lumber, $10.-50, if Rosario, $11.50; str. Royalist, 2,024 tons, Batiscan, Que., to London, deals, 46s 9d, August loading; steamship 1,119 tons, same ports, 50s; str. Mandota, St. John, N. B., to Glasgow, deals, 47s 6d; two sailing vessels, from Grindstone Island, Que., and Sheet Harbor, N. S., for U. K., deals, 45s.

The following additional charters are reported by the Timber Trades Journal: Str. 1,100 standards, deals, 20 per cent. boards, Quebec or Montreal to Hull, 47s 6d; 1,000 standards, deals, 30 per cent. boards, Saguenay, Que., to Garston, 55s; 1,300 standards, 10 per cent. boards, St. John to Liverpool, 48s 6d; 600 tons register, Cape Tormentine to w. c. England, deals, 55s; Miramichi to Greenock and Glasgow, 50s, all August loading.

PULP WOOD WANTED.

A British firm writes that they are desirous of importing large quantities of spruce pulp wood, to be in 6 ft. lengths, 4 in. and up in diameter, clean of bark, and sound fresh wood in every respect. They state that they would take complete cargoes. Parties in a position to supply the above will oblige by sending their address to this office.

CURRENT TRADE CONDITIONS.

ONTARIO.

It is a question with buyers of lumber where the stock can be obtained rather than the price which is to be paid for it. At present dealers are visiting every likely point in search of the same class of stock which two years ago was a drug upon the market. There has been a wonderful revival of trade in the United States, and an almost unprecedented demand for box lumber. This box requirement has affected other lines, which have been purchased to some extent as substitutes for box-making. The duty of two dollars has but little effect on prices on this side of the line, the consumer almost invariably paying the tax. It is a singular fact that in the Georgian Bay district prices seem to be firmer and conditions generally better than in the Ottawa district.

The improved conditions in the hardwood trade have caused a greater development of that industry this year, but notwithstanding an increased production, it has been found impossible up to the present to locate any quantity of dry stock. The demand has been quite equal to the supply, and dealers have been obliged to buy the lumber in the log in order to secure it. From present indications there will be no weakening of the market this season.

MANITOBA AND BRITISH COLUMBIA.

During the past week there has been some improvement in the demand for lumber throughout Manitoba and the Northwest, and dealers are showing a disposition to stock up for fall trade. There is a possibility that prices will advance later in the season, although this advance is likely to be confined to the classes of lumber which are used most largely for finishing purposes. In British Columbia the mills are taxed to their utmost capacity, and in some sections building operations have been delayed on account of the scarcity of lumber. On July 15th the saw mill owners of East and West Kootenay formed a combine for mutual benefit, and eventually with the object of obtaining more remunerative prices for their products. It will be several months, however, before the combine is in working order.

UNITED STATES.

There does not appear to be a weak spot in the United States lumber market. The urgency of demand is well defined by our Buffalo correspondent, who points out that in that market there is no stock of any account excepting of barn boards. The Buffalo dealers have adopted a new price list, which will be found in another column. Altough eastern dealers are said to have contracted for considerable stock to be delivered this fall, it is learned that several of them are now in the upper lakes district, in the hope of contracting for further supplies. They are also turning their attention to Ontario, prices having now reached a point which will permit of buying Canadian stock and paying the duty. One dealer reports that Canadian pine will go into Buffalo freely, and that he is prepared to handle it in quantity. It is yet too early to properly gauge the fall trade, although all indications point to a continuation of good business. Some manufacturers even go so so far as to predict a famine in lumber late next fall and during the winter. Their views are based on the fact that the lumber demand so far this season has been from railroads, for construction work, and for manufacturing purposes. The country trade has been of little account, but now that crop prospects promise favorably, a considerabe demand from that quarter is likely to be experienced. It is also pointed out that retail dealers hold no stocks of any account, their purchases having passed almost immediately into the hands of consumers.

The hardwood market is quite as stong as it was one month ago. Excepting in maple and basswood, prices have stiffened. These show a slight weakening. Ash and oak are being shipped green rom the saws, and it is difficult even to buy green stock

FOREIGN.

The tendency of lumber prices in the British market is to harden, in consequence of higher freights. Both pine and spruce are improving in value, and the bulk of the c.i.f. business is arranged up to August. Importers are busy receiving their cargoes, and there is very little buying, partly due to the fact that shippers are unwilling to make further sales except at considerably higher prices. In the Lonkon market 11 inch spruce deals are very scarce. Importers and consumers are awakening to the fact that the available supply of Canadian spruce this season will not be large, and it is anticipated that there will be exhibited a strong desire to contract for fall cargoes. It would be no surprise if an advance of 10s per standard would be paid for spruce deals before the season is over, and some merchants even anticipate that this price will be exceeded. At Liverpool consumption continues good. Prices are much firmer, and the stock has become reduced. At Sunderland prices have been so high that importers have refused to buy, but now they are realizing that they have to pay somewhat higher for their goods in order to secure them. The market for square timber is rather weak, and evidences are seen each day that this class of timber is gradually being superseded by deals and boards.

STOCKS AND PRICES.

The South River Lumber Company is shipping 85 car loads of board pine to Montreal, en route to Great Britain.

W. H. McCual has purchased from the Bank of Ottawa the balance of the stock of lumber of William Mason & Sons, Ottawa.

There is a great scarcity of lath at Michigan points, and the price has nearly doubled within a year. No. 1 white pine sells at $2 to $2.25, and No. 2 at $1.75.

A. E. Alexander, of Campbellton, N. B., desires to purchase 10,000 railroad ties, 8 ft. long, 6 in. thick, and 7 in. face, loaded on cars on any station on the Intercolonial railway.

At Boston white, ash 1 inch, is selling at $42 to $44, and 2 in. at $48 to $50. Brown ash holds its own at $39 to $41 for 1 in., and $43 to $45 for thicker. Elm is selling freely at $30 to $32 for 1 in., $32 to $34 for 1¼, 1½ and 2 in., and $35 for 3 in. In maple some shading of prices is reported, 1 in. sells at $26 to $28, 1¼ and 15 in. at $28 to $30, 2 in. at $29 to $30, and 3 and 4 in. at $34 to $36.

The wholesale lumbermen of Chicago last week advanced prices on white pine from 50 cts to $1 per thousand. Finishing lumber, 12 in. stock boards, box boards and flooring strips were advanced $1 per thousand ; No. 1 common boards, 8, 10 and 12 in., 50 cts per thousand ; No. 2 12 ft. boards, 8, 10 and 12 in., 50 cts per thousand ; No. 2 boards, 10 and 14 ft., 7, 10 and 12 in., $1 per thousand. Extra cedar shingles were advanced to $2.50, white pine lath to $2.90, and mixed lath to $2.75.

Following is a comparative statement of timber, &c., measured and culled at Quebec to August 1st, 1899 :

	1897.	1898.	1899.
Waney white pine, cu feet.	1,986,532	1,112,043	1,237,183
Square white pine, cu. feet.	448,091	751,023	438,437
Red pine, cu feet	107,227	132,329	170,649
Oak, cu. feet	1,038,466	599,881	442,240
Elm, cu. feet	530,289	395,324	405,851
Ash, cu. feet	86,236	27,923	54,146
Basswood, cu. feet	25		
Butternut, cu. feet	673	887	60
Tamarac			415
Birch and Maple, cu. feet	183,093	106,538	231,946

Messrs. John Mitchell & Company, of Leith, Scotland, held an auction sale of wood goods on July 18th, at which a large quantity of waney board pine, pine deals, etc., were disposed of. The waney board pine sold at 2s 9d to 3s 2d per cubic foot for large sized logs, and 2s 6d to 2s 8d for the smaller logs. A parcel of birch logs was disposed of at 1s 8d to 1s 11d per cubic foot. First quality white pine deals, broad and long, sold at 3s 3½d, whilst 10 and 11 feet broad deals and 14 to 16 feet 11 x 3, of similar quality, sold at 2s 10d, and deal ends of broad dimensions at 2s 7d, with 11 x 1 at 2s 4½d. First quality white pine boards, 1¼, 1½, 1¾, and 2 in. sold at 2s 5d to 2s 6d, and 4 to 6 x 3 strips brought 2s 5d for 12 to 16 feet lengths.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

"The price of pine lumber has now advanced so far that we are bringing it in from Canada right along, and pay the duty," said a Buffalo lumberman this week. This is the first note of the change of base, though there has all along been more or less receipt of lumber, especially hardwood, from the other side of the line ever since the two dollar tariff was enacted. It is not denied that the heavy tax on imported lumber is to be paid with reluctance, but it is becoming something of a necessity, for it is a very hard task—and growing harder every day—to get a sufficient supply of any sort of lumber here. It used to be thought, and probably was the idea still when the Dingley tariff was put on, that we were not in any particular need of Canadian forest products, and could take them or leave them as we liked. The consumption of lumber has suddenly increased and is still increasing at a rapid rate. Prices have bounded up all along the line, and it is now found that, even in midsummer, it is impossible to increase the stocks very materially.

What is to be done? Every dealer who comes back from the lake pine district reports that he is not able to buy any dry lumber, and that he must take it not even sawed if he gets any. So he buys in the log, with the saw mill man as indifferent to the deal as though he were asked for an opinion on the weather. He can sell all he can produce for a long time and he well knows it. So it is in line to go across the line for help. Let Canada send us her poorest cuts if she likes, as used to be the complaint. Box lumber is the scarcest, and it is selling as high as $16 for thick cuts. We want all sorts. There ia said to be nothing in pine that can be called really plenty but barn boards.

As to hardwood, the demand for oak is still at its highest, with no material increase in the supply. So many hardwood dealers have of late made oak a specialty that the whole country has been practically laid under contribution, and yet there is not enough. The Scatcherd mills at Memphis are running strong, the Buffalo Hardwood company, Taylor & Crate and H. S. Janes are getting supplies from the Yazoo delta country in Mississippi, the Empire Company has lately bought a tract in Arkansas and will have a mill running there in a week or two, with another to follow the Sullivans are getting large lots from Michigan by lake, and G. Elias & Bro. are looking for a tract to buy, finding that they cannot pick up lots already sawed fast enough to keep them supplied. The McLeans have a sort of monopoly in Indiana and are stocking up some. Scatcherd is still in Canada for elm and ash, but the search for oak there appears to have been about given up.

The demand for strictly southern woods, yellow pine and cypress, is not very strong, especially as mill men there are also indifferent to northern customers, the ocean trade being so strong. There is a good demand for poplar, with small supply, though it is not so scarce as it was in the spring.

Has Canada any surplus shingles and lath? Both are very scarce and growing scarcer, according to the general report. Even red cedar shingles, which were at one time rushed in here from the Pacific coast at a rate that no market could stand up under, are as scarce as anything. As it stands now there is nobody disposed to stop off and cut out much of a stock of either shingles or lath. There is larger business in hand.

The Buffalo and Tonawanda dealers have this season held several meetings and discussed grades and prices, with the result that new price lists have been issued, but the latest meeting was with representatives from Saginaw and Cleveland added, and a general list has been issued, which I send you. The report of credits is most satisfactory. The doubtful creditor is no longer plenty. It has been a long time since payment was so prompt.

Receipts of lumber by lake are large, especially at Tonawanda, which is able to boast as high as 30,000,000 feet in a single week. Buffalo received over 11,000,000 feet in a week in July, at present doing a great part of its lumber business all rail. Notwithstanding the heavy re-

ceipts there is no accumulation of stock yet.

The Buffalo Lumber Exchange is taking some enjoyment in a body this summer. On the 11th of July it made a trip to Chatauqua Lake, going fifty strong and filling the special car engaged for the purpose, and giving up a whole day to the occasion. The second trip is set down for August 8th, which will be spent at the Bedell House on Grand Island, which is the old stamping ground of the exchange. Manager A. P. Strong, of the Superior Lumber Company, who is at the head of the entertainment committee, is an excellent travelling host and sees that nothing is wanting.

James T. Hurd and Knowlton Mixer are on western trips, looking into the pine situation up the lakes.

The planing mill and sash and blind firm of Dohn & Fischer at Black Rock, which does considerable business in Canada when tariff permits, has taken a new partner, G. W. Beyer, who will represent the Fischer estate in the firm without changing the capital invested.

Pan-American will not require much lumber this year, unless the fence is built this fall, which will be of hemlock.

Following is the new price list f.o.b. cars Buffalo in the rough :

Uppers 8 in. and up—4 4, 5-4, 6-4, 8-4, $51.50 ; 10-4, $60 ; 12-4, $60 ; 16-4, $65.

Selects 8 in. and up—4-4, 5-4, 6-4, 8-4, $45.50 ; 10-4, $55 ; 12-4, $55 ; 16-4, $60.

Fine common—4-4, not over 20 per cent. 12 in. and up, $38.50 ; 1 x 10, $38 50 ; 1 x 12, $41.50 ; 1 x 13 and up, $45.50 ; 5-4, 7 in. and wider, $39.50 ; 5-4 x 10 or 12, $40.50 ; 6-4, 7 in. and wider, $38.50 ; 6-4 x 10, $39.50 ; 6-4 x 12, 8-4, 7 in. and wider, $40.50 ; 8-4 x 12, $41.50 ; 10-4, $50 ; 12-4, $50 ; 16-4, $55.

No. 1 cuts—4-4, $30 ; 5-4, $35.50 ; 6-4, $36.50 ; 8-4, $37.50 ; 10-4, $45 ; 12-4, $45 ; 16-4, $50.

No. 2 cuts—4-4, $18.50 ; 5-4, $26.50 ; 6-4, $26.50 ; 8-4, $28.

No. 3 cuts—1¼ in., 1½ in, and 2 in., $22.

No. 1 moulding strips, 4 in. to 9 in. inclusive—4-4, $35.50 ; 5-4, 6-4, 8-4, $37.50 ; 5-4, piazza flooring, $40.50.

No. 2 moulding strips, 4 in. to 9 in. inclusive—4-4, $30.50 ; 5-4, 6-4, 8-4, $31.50.

Stained saps—4-4, $24.50 ; 5-4, 6-4, 8-4, $25.50.

No. 1 shelving—1 x 10, $30 ; 1 x 12, $34.50 ; 1 x 13 and up, $35.50.

No. 1 dressing and shelving—1 x 7 to 11, $25.50 ; 1 x 4, $25.50 ; 1 x 6, 1 x 8, 1 x 10, $26.50.

No. 1 dressing—1 x 12, $29.50 ; 1 x 13 and up, $30.50 ; 5-4, $30.50 ; 5-4 x 10 and 12, $32.50 ; 6-4, $30.50 ; 6-4 x 10 and 12, $32.50 ; 8-4, $31.50 ; 8-4 x 10 and 12, $33.50.

No. 2 dressing—1 x 4 to 11, $18 ; 1 x 6, $21 ; 1 x 8, $20 ; 1 x 10, $21 ; 1 x 12, $24 ; 1 x 13 and up, $25 ; 5-4, $23 ; 5-4 x 10 and 12, $25 ; 6-4, $22 ; 8-4, $25 ; 12-4, $28.

Shaky clear—1 x 4 to 11, $26.50 ; 1 x 6, $28 ; 1 x 10, $29 ; 1 x 12, $31 ; 1 x 13 and up, $31 ; 5-4, $30 ; 6-4, $28 ; 8-4, $31 ; 10-4, $35 ; 12-4, $35 ; 16-4, $40.

No. 1 barn—1 x 4, $21.50 ; 1 x 6, $22 ; 1 x 8, $21.50 ; 1 x 10, $22 ; 1 x 12, $25 ; 1 x 13 and wider, 5-4 x 10 and 12, 6-4 x 10 and 12, 8-4 x 10, 8-4 x 12, $26.50.

No. 2 barn—1 x 4, $17.50 ; 1 x 6, $18 ; 1 x 8, $17.50 ; 1 x 10, $18 ; 1 x 12, $19.50 ; 1 x 13 and wider, $20 ; 5-4, 6-4, 8-4, $19.50 ; 5-4 x 10 and 12, 6-4 x 10 and 12, 8-4 x 10, $20 ; 8-4 x 12, $21.

No. 3 barn—1 x 4, $15 ; 1 x 6, $16 ; 1 x 8, $15.50 ; 1 x 10, $16 ; 1 x 12, $16.50 ; 1 x 13 and wider, $16.50 ; 5-4 x 10 and 12, $17.50 ; 8-4 x 10 and 12, $17.50 ; 5-4, 6-4 and 8-4, $16.50.

Shippers—1 x 12, 1 x 13 and up, $16.50.

Coffin boards—1 x 13 and up, $20.

Box—1 x 4, $13 ; 1 x 6 and up, 1 x 6, 1 x 7, 1 x 8, 1 x 9, $14.50 ; 1 x 10, $15 ; 1 x 12, $15 ; 1 x 13 and up, $15.50 ; 5-4, $16 ; 6-4, $16 ; 8-4, $15.

Mill culls—4-4, $12 ; 5-4, 6-4, 8-4, $13.

BUFFALO, July 31st, 1899. J. C.

ENQUIRY FOR BOX SHOOKS.

An importing firm in Great Britain desires to be placed in communication with some reliable manufacturers who can handle large orders for spruce or white pine box shooks. They state that they are also in the market for a considerale quantity of oak and soft elm boards. Canadian manufacturers desirous of negotiating for this trade may obtain the address of our correspondents at our office.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

COMPLETE SAW MILL MACHINERY, PLANing, Sash and Door Machinery; modern and in good condition. Can be seen at Toronto. Apply PETER RYAN, Toronto.

DO YOU WANT A BOOKKEEPER?

COMPETENT AND RELIABLE, WITH EXperience and References. Address

"CASHIER,"
c/o CANADA LUMBERMAN.

WANTED.

CAR LOAD LOTS OF DRY SOUND OAK AND Soft Elm Boards, 1, 1¼ and 1½ inch thick, 7 and 14 feet lengths, 14 to 26 inches wide or wider; quote lowest prices c.i.f. London. Also Spruce Pulpwood, full steamer cargoes; quote free on board, or c.i.f. Manchester. Apply "X.Y.Z.," care CANADA LUMBERMAN.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

BOX SHOOKS WANTED.

Canadian manufacturers who are in a position to supply spruce or pine box shooks for the British market are asked to send their address to this office. We have an enquiry for a considerable quantity of such stock.

AUCTION SALE, SEPTEMBER 7TH, 1899

Will be sold at Auction, by order of the Supreme Court, under the direction of Austin B. Fletcher, Esq., Receiver, on Depot Square, at White Plains, N.Y., on THURSDAY, SEPTEMBER 7TH, 1899, at 11:30 a.m., the Lumber and Coal Yard formerly owned by the John W. Young & Sons Company, at White Plains, N.Y., the County Seat of Westchester County. Population 8,000 to 10,000, on the line of the New York & Harlem Railroad, 22 miles from Grand Central Depot, New York City.

Two-Storey Frame Office Building, Iron Clad Elevator (capacity 35,000 bushels), Large Brick and Frame Planing Mill and Wood-Worker, ample Coal and Lumber Sheds, abundant Trackage, Wagon and Track Scales, located on two sides of the Square at the Station. Will be offered in parcels and as a whole.

Also, at the same time and place and under the same order, the Lumber and Coal yard lately owned by the same Company, situate at the Station at Tuckahoe, also on the New York & Harlem Railroad, 16 miles from Grand Central Depot. A smaller yard than the former, but very complete in its appointments; Office Building, Coal and Lumber Sheds, comparatively new, in good order; side track, scales, etc.

Two grand opportunities for a live man. For maps giving full particulars, terms of sale, etc., apply to

AUSTIN B. FLETCHER, Receiver, 32 Liberty St., New York City. or **W. B. TIBBITS, Auctioneer, White Plains, N.Y.**

Sale of Timber Licenses

PROVINCE OF NEW BRUNSWICK

There will be sold at Public Auction, at the Crown Land Office, Fredericton, on

WEDNESDAY, 30TH AUGUST, A.D., 1899,

and following days, the vacant unlicensed Crown Lands in the Province of New Brunswick.

573 berths will be offered, ranging from 2 to 10 square miles each. Upset price $8.00 per square mile.

The present regulations provide for licenses to be renewed each year for a period of 18 years from 1st August, 1900, at a rate of $4.00 per square mile, in addition to stumpage.

Further information of Sale can be obtained from Crown Land Office, Fredericton, N B.

A. T. DUNN,
Surveyor General.

CURRENT TRADE CONDITIONS.

ONTARIO.

Dealers who have visited the saw mills of Ontario report that there is very little dry lumber to be purchased—some small stocks of pine and less of hardwood. For the season of the year the available supply of pine is much below the average, most of the manufacturers having sold their cut at very satisfactory figures. Some shipments are being made to the United States, and British orders are also receiving some attention, but the present situation is due in no small degree to increased local consumption. During the past week, while all grades of pine have been in good demand, there has been a noticeable increase in the movement of finishing lumber, as many large buildings commenced early in the spring are now nearing completion. Buyers from the Eastern States are visiting hardwood points in Ontario in search of stock, but with little success, as the bulk of the cut has already been contracted for. There is a great scarcity of lath and shingles, and higher prices are predicted before the close of the season.

QUEBEC AND NEW BRUNSWICK.

In the province of Quebec the condition of the lumber trade has improved of late, due to an expansion of building operations and to a larger export business. Manufacturers who have stock for sale show no anxiety to dispose of it except at high prices, being satisfied that there will be a scarcity of stock in the fall, and a consequent advance in values. In hemlock and spruce boards and cedar shingles a considerable trade is doing with the Eastern States. Freight rates from Quebec, as well as from the Maritime Provinces, have stiffened within the past week, and shippers have acceded to the demands of vessel owners only when urgency compelled. Present indications, however, point to continued firmness in freights. The spruce stocks in New Brunswick are very low, and inasmuch as the cut of some of the mills for the balance of the season is contracted for, there is not likely to be much stock available for purchase this fall. Advanced prices are almost certain to rule.

UNITED STATES.

The lumber market of the United States is bordering on the sensational, and but for the knowledge that the improved conditions are based on a solid foundation, there would be reason to believe that a speculative boom had struck

the lumber business. On July 20th the wholesale dealers at Minneapolis made an all-round advance of 50 cents per thousand on pine. This, in the midst of the summer season, was a surprise, but ten days later a further advance of $1 on lumber and 25 cents on lath, effective August 1st, was announced. This advance places lumber on an actual selling basis of $13.50 for short piece stuff, a gain of $3 since the first of the year. The decision of the wholesalers was arrived at in order to have some lumber for the winter and spring trade, or, in other words, to keep off buyers. Eastern dealers are still in search of stock of all kinds, but particularly box lumber and mill culls. At Ashland, Wis., $8.75 per thousand is being offered for pine mill culls, but even this price fails to secure any quantity of stock. In Michigan nearly all the lumber manufactured is being consumed by local industries. In New York work on buildings is being abandoned on account of the great cost of building material, including lumber. Considerable stock is being received at Buffalo, but dealers report their inability to get anything ahead, so great is the demand. The box makers there expect a good season's trade; they are now turning down orders, sometimes owing to scarcity of box material. There is still a pronounced shortage in hardwoods, and prices are as firm as ever. Prices of maple, which last week showed signs of weakening, are now firmer and expected to remain at about the present basis. The great scarcity pertains to oak and ash.

FOREIGN.

Reports from the British market state that the imports of wood goods during July were unusally light, and the wholesale market is at a standstill on account of lack of supplies. The stock arriving is largely contracted for, a feature of the trade which is responsible in no small degree for the present strength of the market. The greatest activity pertains to spruce, which is steadily gaining ground and advancing in price. At London 3 x 9 third quality spruce has lately become much firmer, while pine of first quality commands high figures. At Tyne ports prices remain firm for all classes of timber and deals, 11 in. being in great demand and by no means plentiful.

The South American trade has so far this season been unusually active, large shipments having been made from the eastern provinces. West India orders also represent a considerable volume of business.

STOCKS AND PRICES.

A recent sale of No. 4 boards was made f.o.b. mill in northern Wisconsin at $10.50.

The Amherst Lumber Co. will saw 2,000,000 feet of lumber this season at their mill at Tangier, N. S.

An exchange says that J. & T. Charlton shipped their first raft of logs to the United States last week. They have still a lot of logs which must be cut in Canada.

J. T. Horne has purchased from the Bank of Montreal the mills situated on the Kaministiquia river, at Fort William, and formerly owned by Graham, Horne & Co.

The firm of Clarke Bros., of Bear River, N. S., will this season ship between 8,000,000 and 9,000,000 feet of lumber, which is nearly double that shipped in any previous year. They have already loaded a number of vessels for South America.

Mr. A. D. Cameron, of Ridgetown, Ont., has purchased a timber limit of 2,200 acres in Algoma, together with saw mill. It is estimated that there is on the limit 15,000,000 feet of timber.

The Fredericton Boom Company have rafted 21,066 joints at Douglas boom during the season, containing 6 637,200 feet cedar, 1,858,740 feet pine, and 48,669,646 feet spruce, a total of 57,165,586 feet.

The Saginaw Lumber & Salt Company are having some logs manufactured at the mill of the Spanish River Lumber Co. at Spanish River, Ont. The lumber has been sold at good figures, the buyer paying the duty.

The spruce manufacturers throughout the Eastern States are holding firmly to prices. It is expected that, owing to the decreased production, another advance will be made next month. Many of the small mills are closed down on account of the low water.

The Trout Creek Lumber Co., under the name of Buckel, Bechtler & Burk, have completed their season's cut at Trout Creek, only reserving a few extra long logs for special orders. Trussier Bros., at same place, have about finished sawing for the season.

Nearly 12,000,000 feet of lumber was exported from St. John, N.B., in the two weeks ending July 22nd. Of this, 8,560,000 feet was for British ports, 2,845,000 for the United States ports, and 450,000 feet for Santa Cruz. To United States ports went also 8,500,000 lath, 2,869 pieces of piling and 530 cords of wood.

The bark Douglas sailed from Yarmouth, N.S., last week for Buenos Ayres, with 555,000 sup. feet of lumber; the Esperia, from Tusket Wedge for Oran, with 380 standards of deals; and the Mississippi, from Yarmouth, with deals, to west coast of England.

The following rafts have been entered at the Superviser of Culler's office, Quebec, since last report: Hon. J. K. Ward, at Cape Rouge, pine; Wm. Mackey, at Cape Rouge, pine; Fraser & Co., at Bridgewater Cove, pine; Thos. Mackie, at Cape Rouge, pine; Perley & Klock, at New Liverpool Cove, pine; A. Sharples, at Sillery Cove, pine, oak, elm, etc.

Following is a comparative statement of timber, &c., measured and culled at Quebec to August 8th, 1899:

	1897.	1898.	1899.
Waney white pine, cu feet.	2,672,441	1,291,193	1,381,753
Square white pine, cu. feet.	574,536	951,064	520,232
Red pine, cu. feet	127,153	155,571	141,810
Oak, cu. feet	1,038,4'6	638,8 0	465,770
Elm, cu. feet	557,177	410,785	415,497
Ash, cu. feet	87,403	78,838	55,304
Basswood, cu. feet	5		
Butternut, cu. feet	673	887	60
Tamarac, cu. feet			415
Birch and Maple, cu. feet	184,348	106,592	231,946

A gentleman who visited the Rainy River district reports that he found the log cut on the Rainy river last winter amounted to 64,000,000 feet, of which 40,000,000 was cut on the American side of the river and 24,000,000 on the Canadian side; that in addition 250,000 ties were cut. Of these, 150,000 were cut on the American side and 100,000 on the Canadian. The logs were all shipped to Rat Portage, excepting about 5,000,000 feet, which are being sawn at local mills on the Canadian side of the Rainy river. Of the ties, 116,000 were cut for the Ontario and Rainy River Railway.

There is a steady demand for all classes of cooperage stock at Buffalo, dealers still finding slack barrel hoops so scarce that no quotation is proper, as the price paid is largely a matter of dicker. The call for apple barrel stock is strong, as at least a fair crop is looked for. The supply of basswood is larger than formerly, though it cannot be called plentiful by any means. It now looks as though there would be material enough to carry the trade through the season, which is better than was predicted early. Hoops are coming into market more freely, and ought to be in usual stock soon. There is less than the average movement of flour, but other commodities demanding barrels, especially cement and sugar, are strong. Jobbers quote No. 1 flour barrel staves at $6.75 per thousand; log run, $5.25 to $5.50, and No. 1, $4.50 to $4.75. Basswood heading, 4¼ cents per set.

THE AUSTRALIAN MARKET.

Of the Australian lumber market Messrs. Fraser & Co., Melbourne, say:

Business during the past month has been chiefly confined to stocks in the yards, in which period fairly good sales have been carried through, principally to meet the requirements of contracts arranged for building operations fixed within the town and suburban districts, where distinct improvement has been shown of late. Enquiries from the country outlets are still of no great importance, and not until the demand increases from that quarter can we accurately gauge the probable position of the market for the near future. The continuous rains which have fallen within the past two months have, doubtless, militated against large supplies being sought for from the internal parts of the colony, but we are hopeful that in the coming spring season a better consumption will be experienced in the country districts owing to the great benefit that must ensue from the late and present rainfall.

At the moment stocks on hand, in conjunction with shipments shortly "to arrive," appear equal to meet all demands likely to be made upon them for the next few months, while as a fair number of fixtures have been concluded from the customary sources of export, we therefore judge that supplies in the future will not be below the wants of the market, even though an increased business be manifested in the colony generally.

With the exception of Oregon, which has meantime slightly advanced in value, prices otherwise are practically unaltered, and are not likely to advance to any serious extent for the present, as business does not usually brighten in the winter months, and for the reason that most of the distributing mill firms hold fair supplies of such timber which is in most consumption here, purchased at rates under existing laid down cost of the same. Until these stocks are about exhausted, we can scarcely look for any material improvement to be shown, so far as market values are concerned.

SPRUCE AND BALTIC WHITE DEALS.—Imports, nil. Several thousand pieces of Canadian deals have been placed for local wants. Values are from 2½d. to 2⅝d. per foot of 9 x 3.

OREGON PINE.—Imports, 1,856,000 feet super. Arrival: Hawaiian Isles, from Chemainus. About 1,200,000 feet have been placed during the past two months "to arrive," from the above cargo.

AN OSWEGO BRANCH.

The H. Herrman Lumber Co., of New York City, advise us that they have recently established a plant at Oswego, N. Y., with excellent facilities for receiving lake shipments, and that they are handling large quantities of black ash, soft elm and birch, either on grades or log run. They are willing to pay spot cash for all lumber, and will send an inspector to look over the stock, taking the entire run of the log except mill culls. Their announcement will be found on another page of this issue.

LUMBER AND COAL YARDS FOR SALE.

In the "Wanted and For Sale" department of this issue will be found an advertisement offering for sale two valuable lumber and coal yards recently owned by John W. Young & Sons Co., but now in the hands of a receiver. One of these yards is situated at White Plains, N.Y., the county seat of Westchester county. It comprises a two-storey frame office building, iron clad elevator, large brick and frame planing mill and wood-working factory, coal and lumber sheds, wagon and track scales, etc. The other is situated at Tuckahoe, on the New York and Harlem Railroad, and is a smaller yard than that at White Plains, but very complete in its appointments. Persons contemplating an investment in this direction should attend the sale on September 7th.

A SHORTAGE IN SPRUCE.

With a view to advising British timber merchants, the Timber News publishes the following regarding the spruce supply:

It seems as if at last merchants were beginning to realize that a shortage of spruce deals is an assured fact, and the few cargoes which are being offered find ready purchasers at improving prices. The Liverpool market does not for the moment respond so eagerly to this condition of things as the markets around the coast, because, several large cargoes having recently arrived, there is some desire to meet the demand. Fleetwood is short in stock, and cargoes are greatly wanted for Garston and the Canal. Large lower port cargoes can now be sold at £6 15s. c.i.f., with an advance for St. John deals; but even at such figures for later loading sellers are gaining very little advantage over earlier sales. Freights are higher, 48s. 9d. having been paid for steamers from St. John and 50s. to 52s. 6d. for fair-sized sailers from some of the Nova Scotia and New Brunswick ports. The tendency of steam freights seems toward a further rise, and the small supply of sailing vessels should prevent any serious fall in freights for such tonnage. Insurance rates will shortly begin to mount up, and as the terms for sailer cargoes for October sailing touch 10 guineas per cent., or, say, 10s. to 12s. 6d. per std., there is very little inducement for business except at a considerable advance upon present prices.

The stock abroad available for shipment is admitted to be extremely light. At St. John several of the mills have shut down, and it is reported that the further cut there will not much exceed 10,000 stds. In Nova Scotia there is very little obtainable, and elsewhere the quantity of lower port deals offering is only small. From the St. Lawrence there is a greater supply on the market, but such specifications are only suitable for certain districts. Altogether the season promises to close with considerable scarcity and higher prices. It is probable that should such prove the case, the production during the coming winter will be greatly stimulated, and the merchants should watch carefully all indications in this direction, as experience teaches that the tendency is to go from one extreme to the other, and for a small production to be followed by an excessive output. The South American and West Indian markets continue important buyers, and this demand is likely to increase rather than otherwise.

SHIPPING MATTERS.

The following charters are reported: Steamship Thornhill, St. John, N.B., to w.c. England, 50s; Nyassa, 1,786 tons, Hopewell Cape, N.B., to w.c. England, 50s, if Bristol, 52s 6d; bark Trinidad, Annapolis, N.S., to Buenos Ayres, lumber, $10.50, option Rosario, $11.50; bark Treacle, St. John to Glasgow, box shooks, £800 lump sum; str. Anaxo, St. John to w.c. England, deals, 50s; str. Basuto, 1,839 tons, Miramichi to Greenock or Glasgow, deals, 50s, August; str. Mendota, 1,656 tons, St. John, N. B., to Glasgow, 47s 6d.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, according to the summer schedule effective April 1st, are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, $1.00 per M feet, lath 20 cents per M pieces; Quebec, $2.00 per M feet, lath 40 cents per M pieces; Arnprior to Montreal, $1.50 per M feet, lath 30 cents per M pieces; Quebec, 12 cts.; Pembroke to Montreal, $1.75 per M ft., lath 35 cents per M pieces; Quebec, $2 75 per M ft., lath 55 cents per M pieces; Ottawa to New York, $3.00 per M ft., lath 55 cents per M pieces; Arnprior to New York, $3.50 per M ft, lath 65 cents per M pieces; Pembroke to New York, $3.75 per M ft., lath 70 cents per M pieces; Parry Sound to New York, $4.00 per M ft., lath 80 cts per M pieces; Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 11c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft.; lath 50,000 pieces, not exceeding 600 lbs. per M pcs. Ottawa rates apply on shipments from Rockland and Hawkesbury.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., AUGUST 16, 1899 No. 30.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

WANTED.

A GOOD SAWYER TO RUN A CIRCULAR saw in a dimension mill. Apply to A. & P. WHITE, Pembroke.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 60 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

Auction Sale

OF

TIMBER LIMITS

Owing to the death of Mr. Thomas Hale, and to wind up the business of Hale & Booth, the following valuable TIMBER LIMITS will be offered for sale at public auction at the Russell House, in the City of Ottawa, on

Wednesday, the 6th Day of September Next,

at the hour of 2 o'clock, viz.:

PARCEL 1.—Berth No. 82, North Shore of Lake Huron, area 36 miles. This berth is considered second to none on the Georgian Bay.
PARCEL 2.—Berths 2, 3 and 4, Township of Butt (situated contiguous to the line of O., A. & P. S. R'y.), 13¾, 12 and 11¾ miles respectively.
PARCEL 3.—Berths Nos. 136 and 136, Serpent River, area 36 miles each.
PARCEL 4.—Berth No. 1, Township of Hanmer, Vermillion River, area 7¾ miles. (If not previously sold.)
PARCEL 5.—Township of Spragge, area 28 miles.

The stocks of Shanty Plant, rigging and supplies which have been used in connection with the operations on each parcel or lot, and whether or not actually stored upon the limit, to be taken by the purchaser at a fair valuation.

Terms and conditions of sale will be made known at the time of sale. Further particulars as to the properties may be had on application to

JAMES H. BURRITT, Barrister,
Pembroke, Ont.

Or to J. R. BOOTH, Ottawa.

AUCTION SALE, SEPTEMBER 7TH, 1899

Will be sold at Auction, by order of the Supreme Court, under the direction of Austin B. Fletcher, Esq., Receiver, on Depot Square, at White Plains, N.Y., on THURSDAY, SEPTEMBER 7TH, 1899, at 11:30 a.m., the Lumber and Coal Yard formerly owned by the John W. Young & Sons Company, at White Plains, N.Y., the County Seat of Westchester County. Population 8,000 to 10,000, on the line of the New York & Harlem Railroad, 22 miles from Grand Central Depot, New York City.

Two-Storey Frame Office Building, Iron Clad Elevator (capacity 35,000 bushels), Large Brick and Frame Planing Mill and Wood-Worker, ample Coal and Lumber Sheds, abundant Trackage, Wagon and Track Scales, located on two sides of the Square at the Station. Will be offered in parcels and as a whole.

Also, at the same time and place and under the same order, the Lumber and Coal yard lately owned by the same Company, situate at the Station at Tuckahoe, also on the New York & Harlem Railroad, 16 miles from Grand Central Depot. A smaller yard than the former, but very complete in its appointments; Office Building, Coal and Lumber Sheds, comparatively new, in good order; side track, scales, etc.

Two grand opportunities for a live man. For maps giving full particulars, terms of sale, etc., apply to

AUSTIN B. FLETCHER, Receiver, 32 Liberty St., New York City. or **W. B. TIBBITS, Auctioneer, White Plains, N.Y.**

WESTERN CANADA AND EXPORT EDITION.

The publishers of the CANADA LUMBERMAN are completing arrangements for the publication, about the 1st of October next, of a special number, to be known as the Western Canada and Export Edition, and to be devoted particularly to the lumber interests of Manitoba, the Northwest Territories and British Columbia, and to the export lumber trade of this part of Canada. It is the purpose to place a copy of this number in the hands of every saw mill owner, retail dealers and wood-workers in Western Canada, and also to distribute a large number of copies amongst the timber importers and others interested in Great Britain, South America, China, Japan, South Africa and Australia, to which countries British Columbia timber products are exported. By this means it is sought to better acquaint foreign consumers with the timber resources of our western provinces, and with the possibilities of obtaining supplies in Canada. There are many manufacturers in the Dominion who are interested in supplying the lumber requirement of the countries named. To these the opportunity is given of being represented in this number. Information regarding prices for advertisements will be gladly furnished upon application.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber trade conditions in Ontario viewed from any standpoint, are of a decidedly hopeful character. The volume of trade is satisfactory, prices firm, and the prospective demand the most promising. The trade of the past week has served to substantiate what was predicted earlier in the season, namely, that there would be no perceptible midsummer lull in business this year. All the mills, pine and hardwood, are working to their full capacity, and many of them are behind with orders. In the Ottawa valley British trade is said to be quiet, but for other lines there is a remarkably brisk demand. Stocks of box lumber are practically exhausted. The movement of the lower grades generally is such that higher prices have been paid in some instances. Sales of mill culls are reported at $9 while one year ago it would be difficult to obtain $6 for similar stock. There are no heavy pine stocks held either in the Ottawa valley or the Georgian Bay districts, and the universal opinion is that the fall will witness a shortage in many grades. Although it is yet too early to predict, the present indications are that next year lumber prices will be even higher than they are at the present time.

The completion of buildings is creating a larger demand for shingles, which have been moving moderately all season. Dealers are unable to secure any stocks in advance of orders. Both pine and cedar meet with ready sale.

MANITOBA AND BRITISH COLUMBIA.

The lumber requirement in Manitoba is now confined largely to building operations, which continue very brisk. A heavy movement of material in Winnipeg is reported, and the outlook for fall trade is good. Crop prospects throughout Manitoba and the North-west are favorable, and when these have been harvested the farmers will turn their attention to erecting new buildings and carrying out needed improvements. The saw mills in British Columbia are busy on orders both for the home market and for export. Railway construction is providing an outlet for much timber, a number of contracts having recently been let. Arrangements are being perfected to form an organization to control the lumber business of the Kootenay and Slocan Lake district.

UNITED STATES.

Minneapolis is looked upon as the barometer that shows the condition of all the markets in the north-western pine district. For this reason the figures showing the shipments have additional interest. For the first seven months of this year the shipments from that market were 274,900,000 feet as against 194,400,000 feet for the corresponding month of 1898. The demand has been such that very little unsold stock is now on the market and wholesalers are advancing prices in the hope of being able to retain what stock they have to supply the late fall and winter trade, when it is believed that even higher prices will be realized. The position in the east corresponds to some extent with that in the Lake Superior district. The call for lumber is steadily expanding, and notwithstanding quite heavy purchases made by wholesalers, there is no great supply of any kind of lumber in the yards. It is singular that in the midst of the receiving season there are many grades of which the supply is decidedly short. At Buffalo and Tonawanda No. 2 and No. 3 cuts are very scarce. Mill cull stocks have practically passed into the hands of box-makers, who have been unable to secure an ample supply of pine and are looking around for substitutes. At Tonawanda there are many enquiries in the market for box material of promiscuous widths, but dealers refuse to quote prices, not knowing where

to obtain the stock. No. 3 barn 1 x 12 is selling at $17 to $17.50.

Reports from the eastern markets tell of the continued firmness of hardwood prices, and there seems reason to believe that there will be no appreciable weakening of prices before the winter at least. An expansion is reported in the demand for maple, especially cuts suitable for flooring, which sell at Buffalo at $20 for firsts and seconds and $15 for common. Elm, ash and basswood are also much enquired for.

FOREIGN.

The lumber which has reached British ports of late has to large extent been sold before its arrival, and consequently market quotations have not been influenced thereby. The tendency of prices on nearly all lines of wood goods is towards an advance. The stocks at London and Liverpool show a favorable comparison with those of one year ago. At London the stock of pine and spruce deals is some two thousand pieces less, while at Liverpool it is about equal to that of last year. At both London and Liverpool however, there is much smaller quantity of square timber in public docks, that at Liverpool, for instance, being less than one-third of what it was at same time last year. With a steady consumption, this is likely to be somewhat reduced even before the close of the import season. Waney pine is firm at at 2s 6d and 2s 9d for 19 and 20 inch average. There is a specialy good demand for large sized logs of red pine, birch, ash and elm, but the smaller sizes are little enquired for. Importers are now showing a strong disposition to contract for fall goods, but are realizing that there is very little Canadian stock to be obtained, and that for this they must pay a high price. Taken altogether the position of Canadian timber is very satisfactory.

Considerable shipments continue to be made to South America and the West Indies, where the demand seems to be steadily expanding; prices are also showing increased strength.

STOCKS AND PRICES.

Tenders are wanted by the city of Toronto for the supply of oak and elm lumber. The date limit is August 24th.

Box lumber is selling at $12 and $13 at Saginaw, Norway at $9.50 to $12, mill culls at $8 to $10, and the log run at $15.

Donald Fraser and Sons, of Fredericton, N. B., are filling an order for 1,600,000 box shooks for the British market.

Johnson & Beveridge, of Parry Sound, Ont., have been given a contract for 5,000,000 feet of logs, to be taken out during the coming winter.

The Ontario & Rainy River Railway Company are asking for tenders for the construction of 100 miles of road. Plans are on view at the company's office in Toronto.

The Nova Scotia Carriage Co., of Kentville, N. S., want tenders for the supply of 20,000 feet of 1 and 1¼ inch basswood, 8 inches and up wide, to be delivered by October 10th.

White ash is quoted at Buffalo at $50 to $60 for firsts and seconds, and $28 to $35 for common. Thick basswood sells at about $26, and $26 to $30 is about the average quotation for elm.

Messrs. Graham, Horne & Co., of Fort William, who became financially embarrassed about one year ago, have again secured control of the mill from the Bank of Montreal. It is the intention to operate it next year, and with that end in view logging operations will shortly be commenced in the woods.

It is stated that Messrs. McCormack & McLeod, who are extensive loggers in the Georgian Bay district, have secured the contract for building five miles of spur line from the Ottawa, Arnprior and Parry Sound Railway to the town of Parry Sound, and also the contract for building twenty miles of the James Bay Railway north of that town.

Referring to the shingle market at North Tonawanda, a correspondence of the American Lumberman states that in the past conditions have not warranted the dealers there in laying in a stock of them. Now, however, the demand has increased to such an extent that everyone is looking around for a supply. Buyers from the east report that they cannot find a sufficient quantity to supply their wants.

There has been a great improvement in the demand for hemlock lumber within the past three months, and frequent advances have been the result. The base price at Buffalo is $11.50 for thick and $12 for boards, which is $3 more than ruling quotations six months ago. At Philadelphia prices are $13.50 and 16 feet and under, $14 for 18 and 20 feet, with 20 cents additional for every two feet additional for every two feet additional in length.

Following is the result of a recent sale of Canadian deals, etc., held by Calder, Henderson & Livingstone, at Glasgow, Scotland, on August 2nd: Quebec first pine deal ends, 8 ft. 11 x 3 in, 2s 5d per cu. ft; 7 ft. 7-10 x 3 in., 2s 2d; Quebec pine deals, 8 16 ft, 9-16 x 3 in., 1s 2½d; second pine deals, 12-16 ft., 12-18 x 3 in., 2s 2d; Quebec pine scantlings, 12-16 ft. 3-6 x 3 in., 10½ and 11d; Quebec red pine deals, 9 x 2½ in., 1s 3d; Bathurst pine deals, 9-19 ft. 14-20 x 3 ft., 1s ½d; 16-19 ft. 9 x 3, 10¼d; Quebec spruce deals, 11 16 ft. 12-15 x 3 in., 11½d; 10-16 ft. 10 x 3, 11¼d; 12-16 ft. 11 x 3, 11d; 14-16 ft. 9 x 3, 11d; 12-26 ft. 7-11 x 3, 10d; 13 ft. 6 x 3, 9½d; Quebec spruce battens, 13 ft. 7 x 2½ in, 10½d; 13 ft. 5-16 x 2, 10½d; 10 ft. 5-12 x 2, 10½d: 11 ft. 5-6 x 2, 10¼d; 7 9 ft. 5-12 x 2, 9½d; Bathurst fourth quality spruce deals, 15-23 ft. 7 x 3, 8½d; 9-14 ft. 7 x 3, 8¼d.

The annual sale of unmarked and mixed logs rafted during the season by the Fredericton Boom Co. took place at Fredericton, N. B., on August 7th. Among the prominent lumbermen present at the sale were J. A. Morrison, R. A. Estey, Donald Fraser, jr., of Fredericton; B. H. Babbitt, of Gibson; C. F. Woodman, Henry Hilyard, W. H. Murray, Fred Mills, and E. L. Jewett, of St. John, and Parker Glasier, M.P.P., of Lincoln. The prices realized were as follows: 125,259 feet spruce deals, 96,883 feet spruce battens and 32,326 feet condemned spruce, E. L. Jewett, at $9.25 per thousand; 10,120 feet of pine, T. E. Babbitt & Sons, $6.90 per thousand: 48,200 feet cedar, William Minue, $8 per thousand; 6,150 feet hemlock, R. A. Estey, $3 per thousand. At last year's sale spruce brought $6.70 per thousand, pine $5, cedar $3.45 and hemlock $2.25.

LONDON AND LIVERPOOL STOCKS.

According to Churchill & Sims wood circular, the stock of timber, deals, etc., in public docks at London on July 31st last was 15,127,000 pieces, against 13,961,000 pieces in 1898 and 14,248,000 pieces in 1897. Following is a comparative statement for two years:

	1899.	1898.
Foreign deals, in pieces	1,210,0 0	1,185,0c0
Battens, in pieces	2,828,000	2,092,000
Boards, in pieces	9,536,c00	8,5 0,b00
Wainscot logs, in pieces	651	720
Oak timber, in loa s	2,082	1,483
Fir timber, in loads	1,247	1,840
Colonial pine deals and battens, in pcs.	850,000	1,174,000
Spruce ditto	546,000	874,000
Oak timber, in loads	1,907	1,708
Birch timber and planks, in loads.	1,687	4,155
Elm and ash timber, in loads	368	576
White pine timber, in loads.	594	619
Red pine timber, in loads	57	147
United States pitch pine timber, in lds.	4.234	15,867
Pitch pine deals, in pieces	107,000	126,000
East India teak, in loads	8,234	13,060

The deliveries for the seven months of this year were 21,639,000 pieces, an increase over the two previous years.

The following table shows the import, consumption and stock of Canadian wood goods at Liverpool up to July 31st for two years:

	1898. Import.	1899. Import.	1898. Consumption	1899. Consumption	1898. Stock on 31 st July.	1899. Stock on 31 st July.
Quebec square pine, cubic feet	5,000	26,000			79,000	35,000
Quebec waney pine, cubic feet	357,0c0	353,0c0	362,000	485,000	283,' 00	84,000
St. John's pine, cubic feet	1,000	5,000	Nil.	7,000	1,0c0	Nil.
Other ports, cubic feet	Nil.	3,000	2,000	3,000	3,000	2,000
Red pine, cubic feet	8,c00	10,000	9,0 0	20 00	7,0c0	5,000
Oak, Canadian and American, cubic feet	233,000	158,000	155,000	197,c00	238,c00	161,000

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Co., in their last report, review the Barbados lumber market as follows:

The "Moss Rose" has arrived from Liverpool, N. S., with 10 m. ft: Shipping, and 165 m. 2nd. quality white pine. This cargo coming to a virtually bare market, brought good prices, $23.60 for shipping and $17.30 for 2nd quality. The shipping was such a small quantity that it cannot be considered as a criterion for the sale of cargo lots, but we would consider fair valuation for a couple of cargoes, say, about $22 for shipping, and $16 or thereabouts for second quality. In spruce there have been no further receipts; one or two cargoes would likely bring from $16 to $17. In long Gaspe cedar shingles the market has been variable, and sales have been at various prices as to quality. A speculator has come in during the past few days and taken some of the later shipments, as we have been pointing out that we did not believe that the receipts would be heavy during the remainder of the season. Arrivals have been ex "Ceylon," from Gaspe, Que., with 165 m. of superior quality, sold at $5.21; ex "Advance," from Campbellton, N. B., 131 m., sold at $3.03. The speculator referred to previously has taken bulk of "Golden Hind's" cargo, some 760 m., at $3.83. A small parcel of dimension shingles, 5, 6 and 7 inch, have been placed at $5.40, $6.40, and $7.40; 225 m., also ex "Golden Hind," of fine quality C. R. C., sold at $5.27. The "Advance," from Campbellton, also brought 524 m. Extra No. 1 sawn cedar laying, which sold at $2.60 The spruce laying, 100 m. ex "Alliance," referred to in our last, brought $2.40.

Since writing the above the schooner "Roseneath" has arrived from Jordan Bay, N. S., with 100 m. feet white pine, which sold at $24.12 for shipping, as the market is quite bare.

VALUABLE INFORMATION.

Each week the advertising pages of our Weekly Edition contain information of value to lumber manufacturers and buyers. They tell where stock can be obtained, and at same time contain inquiries for lumber perhaps just the class of stock of which a manufacturer has a large supply. Subscribers will find it profitable to watch the advertising pages carefully.

LAWRENCE & WIGGIN
Wholesale Lumber Dealers - 55 Kilby Street, BOSTON, MASS.

THE GLASGOW MARKET.

Messrs. Wright, Graham & Co., in their monthly timber report, dated 31st July, review the Glasgow market for Canadian timber as follows :

Business during the month has been considerably interfered with by the annual holidays; but notwithstanding this, a fair amount of stock has changed hands at firm prices. Clyde shipbuilding returns show 21,022 tons of new tonnage launched this month, as compared with 12,720 tons in July last year.

WANEY BOARDWOOD.—Prime parcels are in request. Price 2s 6d to 2s 9d. Second class wood is selling at 1s 5d to 2s per cubic foot.

SQUARE PINE.—Parcels of prime wood, 35 to 40 average, are asked for. Price 2s 4d to 2s 6d ; parcels of less average and poorer quality at 1s 5d to 1s 11d per cubic foot.

RED PINE.—The demand has been specially good for large average. Price 1s 10d to 2s ; smaller average at 1s 3d to 1s 6d per cubic foot, according to quality.

OAK LOGS.—Selected parcels of large average are in demand. Price 2s 7d to 3s per cubic foot; ordinary quality is selling at 2s to 2s 3d per cubic foot.

ELM LOGS.—First class wood of large average is specially sought after. Price 2s 2d to 2s 4d ; smaller average and second quality at from 1s 9d to 2s per cubic foot.

ASH LOGS.—There is a steady demand for prime wood ; 14 to 16 inch average is selling at 1s 9d to 2s per cubic foot.

BIRCH LOGS.—Prime wood is selling readily. Price, 16 inch, 1s 8d to 1s 10d ; 14 to 15 inch average at 1s 5d to 1s 7d per cubic foot.

ROCK MAPLE LOGS.—Several consignment parcels sold at 1s 10d to 2s per cubic foot. Only first-class logs are wanted.

HICKORY LOGS.—The demand is fair. Sales have been made at 1s 10d to 2s per cubic foot.

QUEBEC WHITE PINE DEALS.—Quotations are as follows : 1st quality, broad, £24 1s 3d to £25 8s 9d per std.; 11 in., £21 6s 3d to £23 7s 6d ; 7 in. to 10 in. and ends, £16 10s to £19 5s. 2nd quality, broad, £18 4s 4d to £19 5s; 11 in., £15 16s 3d to £17 3s 9d ; 7 in. to 10 in., £12 7s 6d to £13 15s. 3rd quality, broad, £10 6s 3d to £11 ; 11 in., £9 12s 6d to £9 19s 4d; narrows, £7 4s 4d to £8 5s. 4th quality, broad, £7 11s 3d to £8 5s ; 11 in., £6 17s 6d to £7 4s 4d ; narrows, £6 3s 9d to £6 10s 7d.

RED PINE DEALS.—These are in request, and shipments meet with ready sale. Prices are about as follows : 9 and 11 in., £8 18s 9d to £10 13s 1d per St. Pet. std.; narrows, £8 to £8 11s 10d.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., AUGUST 23, 1899 No. 31.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

LOT OF THIRTY OR THIRTY-TWO INCH Pine Lath; quote lowest cash prices. J. F. STENGEL, Ellicott Square, Buffalo, N.Y.

WANTED.

A GOOD SAWYER TO RUN A CIRCULAR saw in a dimension mill. Apply to A. & P. WHITE, Pembroke.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

I WANT TO CORRESPOND WITH MANUfacturing companies building Wood-Working Machinery regarding the building of machines which cost about Three Hundred Dollars. "J. F.," care of CANADA LUMBERMAN.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

BASSWOOD WANTED

THE UNDERSIGNED INVITE TENDERS for supplying Twenty Thousand Feet of 1-in. and 1¼-in. First Quality BASSWOOD (from 8 inches and upwards in width), for cash.

Price to be quoted delivered at Kentville, N.S., and delivery to be not later than 10th October next.

THE NOVA SCOTIA CARRIAGE CO., Limited.
Kentville, N. S.

BUSINESS NOTES.

Haley Bros. & Company, planing mill, St. John, N.B., have dissolved, Robert G. Haley continuing.

F. Gagnon & Fils, lumber and general store, Baie St. Paul, Que., are offering to compromise at 25 cents on the dollar.

H. H. Rovicheau, who has a saw mill at Meteghan, N.S., has effected a settlement with his creditors at 27 cents on the dollar.

A meeting of the creditors of J. & P. Nadeau, lumber and general store, Grand Cascapedia, Que., who assigned recently, was held on August 21st.

The Shipe Mfg. Company, of Toronto, has been incorporated, with a capital of $20,000, to manufacture a patented machine for the manufacture of skewers.

WESTERN CANADA AND EXPORT EDITION.

The publishers of the CANADA LUMBERMAN are completing arrangements for the publication, about the 1st of October next, of a special number, to be known as the Western Canada and Export Edition, and to be devoted particularly to the lumber interests of Manitoba, the Northwest Territories and British Columbia, and to the export lumber trade of this part of Canada. It is the purpose to place a copy of this number in the hands of every saw mill owner, retail dealer and wood-worker in Western Canada, and also to distribute a large number of copies amongst the timber importers and others interested in Great Britain, South America, China, Japan, South Africa and Australia, to which countries British Columbia timber products are exported. By this means it is sought to better acquaint foreign consumers with the timber resources of our western provinces, and with the possibilities of obtaining supplies in Canada. There are many manufacturers in the Dominion who are interested in supplying the lumber requirement of the countries named. To these the opportunity is given of being represented in this number. Information regarding prices for advertisements will be gladly furnished upon application.

CURRENT TRADE CONDITIONS.

ONTARIO.

A number of buyers from the Eastern States have visited Ontario manufacturing points during the past week. Some of them were prepared to purchase either pine or hardwoods, but they have been unsuccessful in securing any quantity of stock. In some instances, however, orders have been placed for lumber to be manufactured this fall. The general report from the mills is that the demand is greater than the supply, and that lumber is being shipped green from the saw. There is a particularly brisk demand for dressed lumber and mill culls.

Preparations are being made in the Ottawa valley district for the winter's operations in the woods. It is probable that the production of logs will be greater than last winter, although the quantity may be restricted by the scarcity of labor and consequent high wages.

A branch of the lumber business that is particularly prosperous is the cooperage trade. Few mills have any slack barrel stock on hand in shipping condition, while stocks in the process of seasoning are very small, and are held at a high figure. This refers to staves, hoops and heading, but more especially to hoops. The average prices are, we believe, slightly higher than those quoted on the fourth page.

MANITOBA AND BRITISH COLUMBIA.

Retail dealers in Manitoba and the Northwest are stocking up for fall trade, and consequently there is a large movement of lumber from wholesale yards. Prices generally are being adhered to. The mills in British Columbia are enjoying a brisk trade, export, local and eastern business being in good shape. The local consumption this season has been greater than ever before, while there has also been a slight improvement in prices. The new mill of the British Columbia Mills, Timber & Trading Co., at Hastings, is about to commence operations. This will increase the output considerably.

UNITED STATES.

The United States lumber market is quite as firm as when last report was written. At some points trade is quiet only on account of the limited quantity of stock for sale. Prices at western producing points have been firmly maintained, while in the east dealers have felt compelled to make further advances in order to equalize the additional cost of the stock in the west and the advancing lake freights. On August 14th Tonawanda dealers issued a new price list, advancing all kinds of stock by from one to two dollars per thousand. This market reports a brisk export trade and a strong demand for 14-inch boards, orders for which are being turned down on account of the scarcity of stock and high prices asked. Buffalo is short of low grade cutting-up pine. At Boston pine has advanced about one dollar per thousand in the last two weeks, and there is a slight increase in the demand from many sources.

The hardwood market remains unchanged, excepting that as the season advances the opinion is gaining ground that prices of several kinds of hardwood will go still higher. There is a shortage of basswood in the Buffalo and Tonawanda markets, and prices are advancing almost daily. Thick white ash is exceedingly scarce at Boston, three and four-inch bringing $60 to $65; 1¼, 1½ and 2-inch is quoted at $49 to $51, and 1-inch at $42 to $44. Elm is in good demand at $30 to $33, and maple is steady at $27 to $30 for 1-inch, $29 to $31 for 1¼ and 1½-inch, and $32 for 2-inch.

FOREIGN.

The conditions in the British market have been improved by exceptionally favorable weather for building work. There continues to be an active consump-

tion of wood goods and a gradual strengthening of the market. Lately some sensational values have been obtained for choice specifications. A parcel of Archangel planks sold at $20 per standard, while Quebec white pine of first quality is selling at $26 in London. This is a much better price than has ruled for some time. The market is cleared of 11 inch spruce, and common whitewood of this width is not easily picked up. Reports from nearly all the importing centres tell of an improvement in spruce. Importers expect to realize still better prices, and are therefore not forcing the market. The heavy receipts of pine and spruce at Hull last year has resulted in an expansion of the market for Canadian goods. A boat has been fixed from Montreal to Hull at 47s 6d for August loading, against 46s 3d for July. At Glasgow a fair demand exists for pine deals, with the exception of third quality, which are rather dull of sale.

The Barbados market remains steady and the stock is none too heavy. In South America there is a fair demand, but prices are low. A cargo of spruce was sold recently at $25 c.i.f. Rio de Janerio. Pitch pine sells at $25.50 to $25.75 c.i.f.

STOCKS AND PRICES.

The bark Veronica sailed last week from Portland, Me., for Buenos Ayres, with a cargo of 1,022,862 feet of spruce lumber.

The Hawkesbury Lumber Co., of Hawkesbury, Ont., last week sent a gang of 80 men to their limits in the Temiscamingue district.

The total shipments of lumber out of Lake Superior this year to August 15 were 511,000,000 feet. This is 160,000,000 feet more than to the same date last year.

Alger, Smith & Co., of Detroit, Mich., are filling a government contract for square timber to be used at Buffalo. Between four and five million feet will be required.

The Department of Interior at Ottawa is inviting tenders up to September 18th for a permit to cut timber on a 40-acre limit in British Columbia, being berth No. 212.

According to the Board of Trade returns, the import of wood goods into the United Kingdom for the seven months ending July 31st last totalled 4,176,846 loads, valued at £9,508,036. In 1898 the import was 3,547,279 loads, valued at £8,267,031.

The Mersey Docks and Harbor Board at Liverpool, Eng., through their agents, Messrs. Duncan, Ewing & Co., invite tenders for the supply of 4,000 feet waney board pine, 4,000 feet rock elm and 2,000 feet red pine timber, 30 standards of spruce deals, flooring boards, etc.

Canadian lumber imported into Boston, Mass., amounts annually to about 60,000,000 feet of spruce, 50,000,000 feet of white pine, 160,000,000 cedar shingles, and 10,000,000 feet of hemlock. The bulk of the pine is imported by the Skillings, Whitneys & Barnes Lumber Co., and much of the spruce by Stetson, Cutler & Co.

There is a strong inquiry for lumber in Michigan. C. C. Barker, of Saginaw, is cutting 3,000,000 feet for a Canadian firm, which is about the only lot of unsold stock in the market. The sale is reported of 1,000,000 feet of thick plank, to go to Batavia, Ill., at an advance of $4 per M. feet over last year's prices. Box lumber is much inquired for at $12 and $13.

Following are the average quotations for timber at Irish ports: Miramichi deals, £12 10s per Irish standard of 3,240 feet; St. John (N. B.) deals, £12 10s; ditto; Quebec 2nds, £13 10s, ditto; Quebec red pine deals, £11 per std. Waney pine logs, 1s 10d to 2s per foot; Norwegian and Swedish floorings, 10s 6d per square; pitch pine, 1s 3d per cubic foot; birch, 2s, ditto; prime quality American onk logs, 2s 9d to 3s per foot; ditto, ash logs, 2s to 2s 2d; ditto, elm logs, 2s 3d; ditto, whitewood logs, 2s 4d.

Following is a comparative statement of timber, &c., measured and culled at Quebec to August 22nd, 1899:

	1897.	1898.	1899.
Waney white pine, cu. feet.	3,138,001	1,478,264	1,561,489
Square white pine, cu. feet.	629,768	1,018,957	523,582
Red pine, cu. feet	137,971	174,501	159,341
Oak, cu. feet	1,221,717	753,964	466,452
Elm, cu. feet	649,989	449,303	446,408
Ash, cu. feet	122,498	31,801	56,514
Basswood, cu. feet	5		
Butternut, cu. feet	673	955	60
Tamarac, cu. feet	317		415
Birch and Maple, cu. feet	225,948	106,592	231,946

WHITE PINE VALUES.

For the first time in the history of the white pine trade for many years, if perhaps ever, the white pine manufacturers and jobbers of a large portion of the state of Michigan, notably of Saginaw and Bay City, of Toledo, Cleveland and Buffalo and Tonawanda, have agreed on a current price list for white pine lumber. These prices have been gradually formulating all during the season, and were practically agreed upon by nearly the entire element of the markets mentioned during the latter part of July, to take effect on August 1. As far as the Lumberman can learn, by a reasonably close canvass of central aud eastern markets, these prices are being very closely adhered to. Values have been made to absorb some slight inequalities of freight from the various distributing points, and are based on a price delivered at Pittsburg, Pa. The prices are made $2.50 higher to cover New York, Philadelphia, Baltimore and Washington and points taking these rates. Pittsburgh price current for uppers 1 to 2 inches in thickness is $53.50; 10 and 12-4 uppers $9 higher, and 16-4 $14 higher. 1 to 2 inch selects are quoted at $48.50, with a corresponding increase for 10, 12 and 16-4. 8 inch and up, fine common, 1 to 1½ inches in thickness, is quoted $41.50, 8-4 at $42.50, 10 and 12-4 at $52.50, and 16-4 at $57.50. 1 inch shop is rated at $30.50, 5 and 6-4 at $37.50, 8-4 at $38.50, 10 and 12-4 at $44.50 and 16-4 at $46.50. No. 2 shop in inch is quoted at $20.50, 5 and 6-4 at $28.50, and 8-4 at $29.50. Thick No. 3 shop is listed at $23.50. No. 1 inch molding boards are quoted at $37.50 and thick at $40; No. 2 inch at $32.50 and thick at $33.50; inch stained saps at $26.50 and thick at $28.50. No. 1 base and casing boards are listed at $38.50 for 4-inch and $39.50 for 5 to 9-inch; No. 2, 4-inch, at $31.50, and 5 to 9-inch at $32.50. Shaky clear is quoted, according to width and thickness, at from $27.50 to $32.50. No. 1 shelving, according to width, from $32.50 to $37.50; No. 1 dressing from $27.50 to $35.50, according to width and thickness, and No. 2 dressing from $23 to $27. Six-inch beveled siding is quoted as follows: Clear, $24.50; No. 1, $22.50; No. 2, $19.50; No. 3, $16.50; stained sap siding, $13.50. Prices of No. 1 barn range from $23.50 for 4-inch to $27.50 for 12-inch and thick; No. 2 barn from $19.50 for 4-inch to $22.50 for 12-inch; No. 3 barn at from $17.50 for 4-inch to $18.50 for 12-inch; No. 4 common from $15.50 for 4-inch to $17.50 for 12-inch. The price of 13-inch and up and of thick in the foregoing grades ranges about $1 higher than 12-inch.—American Lumberman.

THE BARBADOS MARKET.

Reports to hand dated August 5th give the following particulars of the Barbados lumber market:

The demand for white pine and spruce continues good. The Roseneath, from Jordan River, N.S., arrived on July 26th with 100 M feet shipping white pine, which was sold at $24.12. The Rhoda, from Liverpool, N.S., arrived on July 28th with 80 M feet shipping and 127 M feet second quality white pine, sold at $23.53 and $17.30 respectively. The last arrival was the Trader, from Shelburne, N.S., with 124 M white pine boards, sold at $23 for shipping and $17.60 for second quality. Unless receipts are heavy in the near future, fair prices should be maintained. The stock of spruce is small, but the demand at this season of the year is not heavy. If the price of second quality white pine keeps up it will assist the sale of spruce.

SHINGLES.—In shingles the only receipts have been 530 M long Gaspe cedar, per Duart Castle. Of this stock only 33 M dimension, 4, 5 and 6 inch, have been disposed of, the prices realized being $4.50, $5.50 and $6 respectively. The balance of the stock has been stored in the hope of being able to obtai better prices later on.

BRITISH COLUMBIA SHIPMENTS.

The following cargo shipments of lumber, etc., were made from British Columbia up to July 31st last, all of which went to foreign ports:

Month.	Lumber, Ft.	Lath.
January	1,097,676	188,000
February	2,324,055	.....
March	3,112,753	.....
April	5,811,014	.....
May	5,273,346	.....
June	3,650,522	56,970
July	3,590,262	172,620

The following were the cargo shipments of the Victoria Lumber & Manufacturing Co. for the month of July, 1899:

	Lumber, Ft.
S.S. Dalny Vostok, to Port Arthur	1,452,876
Bark Guy C. Goss, Taku	1,134,648
Total	2,587,524

The shipments of the Moodyville Land & Saw Mill Company for the month of July consisted of the bark Adderley, to Sydney, N.S. W., with 1,002,738 feet of lumber and 172,620 lath.

SHIPPING MATTERS.

From Montreal deal rates rule about as follows: To Liverpool, 40s. to 45s.; Glasgow, 45s.; Bristol, 40s. to 45s.; Cardiff, 47s. 6d.; Manchester, 45s.; London, 47s. 6d.; Newcastle, 50s.; Leith, 47s. 6d.; Aberdeen, 50s.; Belfast or Dublin, 45s.

Recent charters include the following: Str. Salopia, Grindstone Island, Que., to w.c. England, deals, 52s. 6d.; str. Charles, St. John, N.B., to w.c. England, 51s. 3d.; str. TIMBER MARKET REPORT.

The following particulars of the Glasgow market are given in the last report of Messrs. Edmiston & Mitchell :

The work on hand in all directions continues large, and a heavy demand for all classes of wood goods is assured for some considerable time. Buyers are now beginning to realize that they will have to pay advanced prices ere long, and already the market has further stiffened in several directions. This season's import of Quebec timber to date has been 20 per cent. less than last year, while pine and spruce deals, from Quebec and Montreal, are 11 per cent. less. Lower port deals are, however, in excess of last year's import by about 22 per cent. Shipments by the liners from America have been on a large scale.

House building continues with unabated energy, and there is a large amount of first-class work on hand. Large quantities of spruce deals are being consumed in the new 1901 Exhibition buildings, which are already well under way.

WANEY BOARDWOOD.—First class.—There have been no arrivals during the month, but two steamer cargoes are at hand. Deliveries from the ponds have been exceedingly quiet. Prices for long timber remain very firm, and are likely to advance in sympathy with the rise of value in Canada. Short joinerwood is hardly asked for, and the stock is ample for all requirements. Second class.—There has been one or two inquiries, but we hear of no business resulting yet.

RED PINE.—Most of this year's import has already been disposed of, and further consignments would meet with ready sale, as the stock of first class timber is small.

OAK.—One of our railway companies was in the market. So far as we can learn, they have only bought one parcel. The stock is heavy and the inquiry, unfortunately, very limited.

ELM.—All the fresh imports have been disposed of at remunerative prices. There are several good inquiries in the market, and early consignments on contract are eagerly awaited for.

BIRCH.—The import from Montreal and Quebec for July is about 300 loads, consisting principally of small wood 13-14 inch average, for which the demand has rather slackened of late. Value of this average is about 15d to 16d, but several lots have gone into store recently, indicating a weaker tone. There is a fair demand for large timber 17 inches and up, which has been sold at from 1s 8d up to 2s 3d per cubic foot for 20 inch average.

ASH.—The import for July from Montreal and Quebec consists of about 75 loads, all of which was small average sized wood, and some of it of indifferent quality and of bad color. 1s 7d to 1s 8d have been about the ruling prices for 13-14 inch average, while 16 inch has brought 1s 10d.

PINE DEALS, ETC.—Business during the month on account of the holidays has been quiet. Prices, however, are firm, with an upward tendency. Broad first quality pine deals are selling at £22 to £25; 11 inch, £21 to £22; ends and narrows, £14 10s to £19; Second quality pine deals—11 inch and up, £16 to £18; non-dimensions, £11 to £13. Third quality pine deals—11 inch and up, £9 10s to £11; narrows, £7 to £7 15s; ends, £7 to £7 10s. Fourth quality pine deals—11 inch and up, £7 5s to £7 10s; narrows, £6 10s to £6 15s. Red pine deals—9 and 11 inch by 3 and 4 inch, £10 to £11; narrows, £8 5s to £8 15s. First quality pine sidings—£17 to £20 10s, according to specification.

SPRUCE.—12 inch and up, £8 to £8 10s; 10/11 inch, £7 5s to £7 10s; 9 inch, £7 to £7 5s; 7/8 inch, £6 to £6 10s.

A saw mill at Wilbur, near Kingston, Ont., owned by W. C. Caldwell, of Toronto, was burned recently.

FIRES.

The lumber yard and planing mill of John Hillock & Co., Queen street east, Toronto, were damaged by fire recently to the extent of $3,000.

About 125,000 feet of lumber in the yard of the C. Beck Manufacturing Company, at Penetanguishene, Ont., was destroyed by fire on August 12th. The loss is about $1,600.

The large factory of the Ontario Box Co., at Hamilton, Ont., together with about 1,000,000 feet of lumber and 23,000 boxes, was destroyed by fire on the 20th inst. The loss is placed at $30,000, and is said to be covered by insurance. Mr. J. J. C. Thompson is president of the company.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., AUGUST 30, 1899 No. 32.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

LOT OF THIRTY OR THIRTY-TWO INCH Pine Lath; quote lowest cash prices. J. F. STENGEL, Ellicott Square, Buffalo, N.Y.

WANTED FOR CASH—All kinds of Hardwood Lumber. JAMES MORRISON, 552 Yonge Street, Toronto.

WANTED.

NUMBER ONE AND NUMBER TWO PINE Lath. MIXER & Co., Buffalo, N.Y.

FOR SALE IN PARRY SOUND, ON SOUTH River, near Trout Creek, 800 Acres Good Soil, timbered with Pulp Wood and Birch. Box 30, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

I WANT TO CORRESPOND WITH MANUfacturing companies building Wood-Working Machinery regarding the building of machines which cost about Three Hundred Dollars. "J. F.," care of CANADA LUMBERMAN.

WANTED.

TOW BARGE WANTED FOR STEAM BARGE Chamberlain; must carry 400,000 or 500,000 feet of lumber. Apply with full particulars to C. BECK MFG. CO., LIMITED, Penetanguishene, Ont.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

THE BARBADOS MARKET.

The Barbados lumber market is thus reviewed by Messrs. Clairmonte, Mann & Co. in their report dated August 18th:

The only arrival of lumber within the past fortnight was the cargo per Andrew Burnham, from Newfoundland, which sold as follows: 35 M. feet white pine boards at $18.60, 4 M. feet spruce boards at $13.60, 23 M. feet white pine at $18.83, 17 M. feet spruce at $14.13, 5 M. feet birch at $14.14, and a small quantity of scantling at $12.60. The demand for both white pine and spruce is good. Last sales of Nova Scotia lumber have been made as follows: White pine boards, $23; planks, $17.60 for first quality and $17.30 for second quality; spruce at $17.50 for first quality. Pitch pine sells at $21.11 for merchantable, $15.51 for refuse, and $13.51 for second quality.

Last sale of Gaspe cedar shingles was at $3.83 to $5.27 per M., according to quality. Cedar laying sells at $2.60 and spruce laying at $2.30.

CURRENT TRADE CONDITIONS.

ONTARIO.

The trade of the month now drawing to a close has been larger in volume than any August for several years past. While orders have not been as plentiful as in the spring season, yet the volume of lumber moved augurs well for a heavy fall trade. Competition in buying is very keen, and it is a singular fact that retail prices have not advanced in proportion to the higher prices asked by manufacturers. The result of this is that dealers are doing business on a small margin of profit. While most of the dealers are prepared to hold their stock at a price which would give a reasonable profit, others indulge in cutting prices and accepting a margin of profit of about 50 cents per thousand. Take, for instance, 2×10 and 2×12 pine plank, for which manufacturers are asking $11 and $12. For this stock it is impossible to obtain more than an advance of 50 cents or one dollar on this price from retail dealers in Toronto. The retailer and consumer are benefitting at the expense of the wholesale dealer. This fact serves to illustrate the necessity of some organization among the lumber trade by which a basis of prices would be fixed. Report is still heard of the scarcity of hardwood lumber, and in some instances substitutes are being sought for.

The completion of buildings is creating an increased demand for shingles, of which there is but a limited stock at the mills. It is probable that an advance in prices will take place at an early date. Lath is scarce and in good demand.

QUEBEC AND NEW BRUNSWICK.

As the season advances the position of manufacturers in Quebec and the maritime provinces continues to strengthen. There are many enquiries in the market for lumber for fall shipment, but few of the mill owners are in a position to enter into contracts, having disposed of their season's production. A considerable quantity of lumber and shingles is being shipped to the United States, where prices are steadily advancing. The advance in lumber in New Brunswick is well illustrated by a recent transaction. Last spring a dealer purchased 1,500,000 feet of deals at Hopewell Cape, paying $7 per thousand. He is now reported to have sold this stock at $10 per thousand, making a profit of over $4,000 on the transaction.

Foreign orders represent no small volume of trade. Vessels are constantly sailing for British ports, while a bark has just loaded at St. John for Australia, and another for South America. Indications point to a further advance in spruce deals.

MANITOBA AND BRITISH COLUMBIA.

Harvesting operations in Manitoba and the Northwest are now engaging the attention of farmers. The government crop bulletin shows a most satisfactory yield, and the first shipments of new wheat have already been made. In anticipation of a large demand for lumber by farmers this fall, retail dealers are stocking up quite liberally, as is shown by the large quantity of stock that is being shipped from Winnipeg. Prices on lumber remain unchanged, although lath has been advanced 50 cents per thousand. In British Columbia the mills are unable to fill all the orders, the requirement for mining purposes being very heavy. Over 1,000,000 feet of lumber is being used in the construction of a flume in connection with the Grand Forks smelter.

UNITED STATES.

The only change in the United States market is a further hardening of wholesale prices at eastern points. Dealers in the Lake Erie markets have been unable to accumulate stocks as rapidly as desired, and consequently have decided to mark up prices. This has also been necessary in order to keep pace with the upward tendency at producing points. The advance in the eastern markets has been most pronounced on white pine. At Buffalo thick fine common has advanced $5 within a short time, while inch mill culls now sells at $14.50. The advance in box averages $1.50, 1×4 now being quoted at $14 and thick as high as $17.50. Inquiries for lumber have been so numerous from the east that many dealers are of the opinion that it would be better to hold the stock until the fall, when still higher prices are expected to rule. Hemlock and spruce have also improved, the former selling in the New York market on a basis of $15 per thousand.

The course of the hardwood trade is being watched with much interest. There are some dealers who anticipate a reaction, but the general opinion is that prices will not weaken before next spring at any rate, as the bulk of the consumption is for manufacturing purposes, and this branch of commerce is in a most healthy condition. Ash is very scarce throughout the eastern market, and implement manufacturers are substituting maple therefor. The scarcity of elm and basswood continues.

It is somewhat difficult to give a fair

review of the shingle market. Some of the dealers report a large stock on hand, while others have a very small supply and are in the market to buy all they can find. An advance of 15 cents over the July price list is announced, which places 18-inch at $3.85 and 16-inch at $3.40. Red cedar shingles are selling about 20 cents per thousand less than pine.

FOREIGN.

The imports into Great Britain from Canada have been heavy of late, but from the north of Europe ports the reverse is the case, due to the extraordinary position of the freight market. A state of things similar to that now existing has not been known for years. Every class of vessel has been called into requisition to supply the demand, and the natural result is high rates of freight. This has caused a further strengthening of the lumber market. At a recent sale held by Churchill & Sim, London, Eng., waney pine timber sold at high values, but square pine and birch planks scarcely realized average quotations. Spruce deals are experiencing a steady consumption. At Manchester £7 2s 6d to £7 5s is being asked for large lines ex ship, and there is every prospect of a further increase in price. Concerning the Liverpool market a correspondent writes as follows: "The spruce market is very stiff, and no signs of relaxation are apparent up to the present time; nor do we see why any such hopes should be entertained. The season for shipping from the St. Lawrence ports is drawing to a close, and with it the rates of freights and insurance will increase. This serves to strengthen the position of shippers.

STOCKS AND PRICES.

G. Elias & Bro., of Buffalo, are said to be negotiating for the purchase of a hardwood limit in Canada.

The city of Toronto recently invited tenders for the supply of a quantity of oak and elm timber. Only one tender was submitted, and the council have not yet let the contract.

Prices at Philadelphia have advanced within the past fortnight. Hemlock sells at $14 to $14.50, 8 and 9 inch spruce at $17 and $19, and 8 inch and under boards, up to 20 feet, at $17.

The Bonny River Lumber Co., who recently acquired the Todd property at Bonny river, Charlotte county, N.B., expect to get out this winter about 5,000,000 feet of logs. The mill, which has been idle for some years, is now being repaired.

Very little lumber is on the wholesale market at Duluth. A price of $9.25 is said to have been refused for some No. 4 boards, but the greatest advance pertains to lath. One year ago lath was selling in the Duluth market at 75 cents and $1. To-day quotations are $1.60 and $2.

A report from Ottawa, dated Aug. 21st, stated that there were at the Cascades, on the Gatineau river, about 15 miles from Ottawa, the largest number of logs that has ever been got together in one mass. Owing to the lateness of the spring and consequent high water, the lumbermen of the Gatineau could not start their run until very recently. When they did start they placed 240,000 logs in the river within ten days, with the result that there gathered at the foot of Little Cascade rapids 130,000 saw logs, 70,000 railway ties, 7,500 pieces of cedar, and 5,000 pieces of timber. The logs were 25 tiers deep, and beneath these runs the river at the rate of 25 miles an hour. It is proposed to use dynamite to break this jam.

It was recently recorded that the Saginaw Lumber & Salt Co. had purchased 3,000,000 feet of Canadian logs cut on exempted limits. It is now learned that the company has purchased 2,000,000 feet more, making a total of 5,000,000 feet to be rafted to the Saginaw river this season. The price paid for these logs was the highest ever given for Canadian logs.

Following is a comparative statement of timber, &c., measured and culled at Quebec to August 29th, 1899:

	1897.	1898.	1899.
Waney white pine, cu. feet.	3,345,989	1,606,287	1,598,665
Square white pine, cu. feet.	736,022	1,208,761	543,889
Red pine, cu. feet	145,638	216,538	159,741

There promises to be great activity in logging operations in the districts north of Bobcaygeon and Lindsay. M. M. Boyd & Co., of Bobcaygeon, will operate on about the same scale as last year, and will have one large camp on their Glamorgan township limits. McCormack & McLeod will have two gangs on Trout creek, Muskoka, and are already cutting cedar in Haliburton county. The Dickson Co., of Lakefield, will make a large cut on the old Scott limits in Cavendish and Anstruther. The Gilmour Company have sent a gang of men into Harvey township, about eight miles from Bobcaygeon. It is the intention to clean up this limit, taking off all the pine, cedar, hemlock, birch and elm. Turner & Fisher, of Saginaw, will have four camps in Muskoka and Georgian Bay limits, and the Rathbun Company will operate extensively in Muskoka and Haliburton.

BRITISH COLUMBIA LUMBER SHIPMENTS.

The shipments of lumber from British Columbia to foreign countries up to July 31st of this year were as follows:

THE AUSTRALIAN LUMBER MARKET.

Messrs. Fraser & Co., of Melbourne, in their last monthly report, review the Australian market as below:

Sales of timber during the past four weeks have been of a moderate character, few important operations having been made from stocks in the yard and "ex wharf." In no line, however, has there been a decline upon last rates; while in some instances slightly better prices have been asked and secured, and for several descriptions of lumber there are indications of better value being shown at no distant date. There are signs of an improvement in the demand from the country districts when the spring season opens, also at which time there will most probably be an increase in the town and suburban orders, as many contracts for building requirements have lately been arranged to commence operations very shortly; and as further local contracts are now in view to be concluded within the next few months, we are, therefore, hopeful of seeing in the near future a much improved demand for all classes of timber, and for an actual consumption of the same.

SPRUCE AND BALTIC WHITE DEALS.—Imports: Nil. Some further business, but of a limited extent, has been done in stocks at 2⅝d per foot of 9 x 3 for an assorted specification.

OREGON PINE.—Imports: Nil. The trade having been well supplied out of the last cargo per Hawaiian Isles, consequently there has been but little business done in the past four weeks. Some small sales have been concluded at from £6 to £6 5s per 1000 feet super., upon which basis the market is firm for the remainder of supplies at the wharf.

SHELVING AND CLEAR PINE.—Imports: Nil. £8 10s is now required for shelving, at which figure some sales have been concluded. Michigan clear pine is in poor demand at £14 10s per 1000 feet super.

LUMBER FREIGHT RATES.

CANADA ATLANTIC RAILWAY.

Lumber freight rates on the Canada Atlantic Railway, according to the summer schedule effective April 1st, are as follows: Ottawa, Rockland, Hawkesbury and intermediate points to Toronto, 10 cents per 100 lbs.; Parry Sound to Toronto, pine 10 cents, hardwood, 11 cents; Ottawa to Oswego, $1.90 per M ft.; Ottawa to Syracuse, $2.20 per M ft, (3,000 lbs. and under per M ft.); Ottawa to Montreal, $1.00 per M feet, lath 20 cents per M pieces; Quebec, $2.00 per M feet, lath 40 cents per M pieces; Arnprior to Montreal, $1.50 per M feet, lath 30 cents per M pieces; Quebec, 12 cts.; Pembroke to Montreal, $1.75 per M ft., lath 35 cents per M pieces; Quebec, $2 75 per M ft., lath 55 cents per M pieces; Ottawa to New York, $3.00 per M ft., lath 55 cents per M pieces; Arnprior to New York, $3.50 per M ft, lath 65 cents per M pieces; Pembroke to New York, $3.75 per M ft., lath 70 cents per M pieces; Parry Sound to New York, $4.00 per M ft., lath 80 cts per M pieces; Ottawa to Buffalo, 12 cts. per 100 lbs.; Ottawa to Port Huron and Detroit, 14 cents per 100 lbs.; Ottawa, Rockland and Hawkesbury to Boston and common points, local 15c.; exports 11c. per 100 lbs.; Arnprior to Boston and common points, local 17 cents, export 15 cts. per 100 lbs.; Parry Sound to Boston and Portland and common points, local 21½ cents, export 20 cts. per 100 lbs.; Ottawa, Rockland and Hawkesbury to Portland, &c., 15 cts.; Arnprior to Portland, 17 cts.; Ottawa to Burlington, 6c. per 100 lbs.; Ottawa to Albany, 10 cts. per 100 lbs.; Arnprior to Albany, 12 cts. per 100 lbs.; Parry Sound to Albany, 17 cts. per 100 lbs.; Ottawa to Scranton and Wilkesbarre, Pa., also Binghampton, N.Y., 13 cents per 100 lbs, from Arnprior 15 cents, from Parry Sound 20 cents per 100 lbs.; Ottawa to St. John, N.B. and common points, 20 cents per 100 lbs.; Ottawa to Halifax, N.S., and common points, 21 cents per 100 lbs. Minimum carload weight for shipment of lumber, lath, shingles, etc., is 30,000 lbs., and rates quoted above are in cents per 100 lbs., except when quoted per M ft.; minimum carloads 10 M ft., lumber not exceeding 3,000 lbs. per M ft.; lath 50,000 pieces, not exceeding 600 lbs. per M pcs. Ottawa rates apply on shipments from Rockland and Hawkesbury.

COOPERAGE PRICES.

The Sutherland Innes Company, manufacturers of cooperage stock, Chatham, Ont., in a letter to the CANADA LUMBERMAN, give the following information regarding the cooperage market :

There has been a considerable advance in cooperage stock, and the markets of the United States during the past 60 days have advanced rapidly. The following is our new price list f.o.b. cars : No. 1, 28½" jointed elm staves, $5.75 per net 1,000 ; No. 1, 30", $5.75 ; No. 2, 28½", $4 ; No. 2, 30", $4. Millrun, 5 to 2", $5.25 ; 6 to 2", $4.75. No. 1, 24" jointed elm staves, $4 ; No. 2, 24", $2. No. 1, 14" to 14¾" kiln dried basswood heading, 3¼c per set ; No. 1, 15" to 16", 3¼c ; No. 1, 17⅛", 4¼c. Millrun, 17⅛", $3.75 per 100 sets ; No. 2, 17⅛", $3.50 ; No. 1, 18" to 18¼", 4¼c per set ; No. 1, 19⅛ in., 4¼c ; No. 1, 19½ in., 5c. A No. 1, 4½ ft. patent elm hoops, $4.60 per net 1,000 ; No. 1, 5½ ft., $6.50 ; No. 1, 6 ft., $6.75 ; No. 1, 6½ ft., $7 ; No. 1, 6' 9 in., $7.25. 12 in. liners, 40c per 1,000. 13 to 18 in. liners, 50c per 1,000. 34 to 35 in. syrup barrel staves, $18. 30 in. half syrup barrel staves sell at $16 for straight, and bent stock $2 per 1,000 more.

These are the prices that we are selling at, but it is quite possible that with the large advances that have taken place in the United States we may be compelled to advance our figures, particularly for Canadian business, to cover the advance that has taken place in lumber, timber and wages.

SALE OF CANADIAN TIMBER.

Messrs. Churchill & Sim, London, Eng., held an auction sale of wood goods on August 16th, at which Canadian timber sold as follows:

SPRUCE.—Ex St. John city, from Quebec—12 ft., 3 x 9, third quality, £7 10s. and £7 15s. Ex Yola, from Montreal—12-13 ft., 3 x 9-11, second quality, £8 10s.; 12-13 ft., 3 x 7-9, third quality, £7 15s. Ex Euxinia, from Quebec—13 ft., 3 x 9, third quality, £7 15s. Ex Ormiston, from Quebec—6-13 ft., 2 x 7-10, unassorted, £7 5s.

OAK TIMBER.—Ex Kirriemoor, from Quebec—651 cubic ft. at 5s. 5d. per load, 552 cu. ft. at 5s. 10d., 397 cu. ft. at 5s. 10d., and 458 cu. ft. at 5s.

BIRCH PLANKS.—Ex St. John City, from Halifax—7-17 ft., 5 x 6 in., 1s. per cubic foot ; 7-16 ft., 3 x 10-12 in., 1s.; 4-18 ft., 3 x 9 in., 1s.; 6-20 ft., 3 x 8 in., 11d.; 10-17 ft., 3 x 7-8 in., 10½d.; 8-13 ft., 3 x 6-10 in., 9s. ½d.; 8-18 ft., 2½ x 11-15 in., 1s.; 9-17 ft., 2½ x 3-12 in., 1s.; 4-17 ft., 2 x 9-16 in., 1s. 1d.; 3-19 ft., 1½ x 1¾ in., 1s. 1d.

PINE TIMBER.—Ex Krim, from Quebec—24-26 ft., 16-30 in., first class waney, 97s. 6d. per load ; 18-20 ft., 16-26 in., 92s. 6d.; 23-25 ft., 16-21 in., 92s. 6d. Ex Fernmoor, from Quebec—36-39 ft., 13-17 in., first class square pine, 92s. 6d. per load ; 39-34 ft., 14-16 in., 54s.; 42-47 ft., 14-17 in., 58s.; 20-29 ft., 14-23 in., 59s.; 20-27 ft., 14-22 in., 55s.; 32-40 ft., 12-20 in., 60s.; 29-32 ft., 12-16 in., 57s.

THE SHINGLE SITUATION.

During the current season of constantly advancing prices, shingles of no kind have responded to increased values at any such rate as have all kinds and qualities of lumber. The explanation of this is that the immense consumption of lumber throughout the country for the year has been required more for manufacturing enterprises than for building operations.

It is not to be inferred from this that there has not been a large demand for shingles throughout the season The sales, says the American Lumberman, have far outstripped any former year. The Washington mills, without one exception, are way behind their orders, and it would doubtless be impossible for an eastern dealer, on a present order, to receive shingles in time for his fall trade. The stocks of pine shingles in the northwest are extremely low, and those of white cedar probably not more than one-half those of a year ago. New Brunswick cedars coming into the eastern field are in short supply. The same can be said of Pennsylvania hemlock shingles and the cypress shingles of the south.

In the face of the foregoing facts, it can safely be prophesied that shingles are a purchase at current values, as it is almost certain that a sharp advance in prices will be instituted within a very short time.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., SEPTEMBER 6, 1899 No. 33.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the 'Canada Lumberman."

Toronto, Canada
C. H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

LOT OF THIRTY OR THIRTY-TWO INCH Pine Lath; quote lowest cash prices. J. F. STENGEL, Ellicott Square, Buffalo, N.Y.

WANTED FOR CASH—All kinds of Hardwood Lumber. JAMES MORRISON, 552 Yonge Street, Toronto.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

I WANT TO CORRESPOND WITH MANUfacturing companies building Wood-Working Machinery regarding the building of machines which cost about Three Hundred Dollars. "J. F.," care of CANADA LUMBERMAN.

FOR SALE.

BIRCH FLOORING, KILN DRIED, HOLLOW backed, butted and bundled—suitable for factories, workshops, etc. The KNIGHT BROS. CO., Burks Falls, Ont.

FOR SALE.

THE RIGHT TO CUT ABOUT THIRTY MILlion Feet Hardwood—Birch, Oak, Ash, Maple and Elm—convrniently situated. For particulars address, "HARDWOOD," CANADA LUMBERMAN, Toronto.

WANTED TO BUY.

A SAW MILL PLANT THAT IS IN GOOD running order and will be sold at a Bargain, with plenty of Timber near Mill—something under $8,000.00 (Eight Thousand Dollars)—in or east of Peterborough County, Ontario. Address, "BUYER," care CANADA LUMBERMAN, Toronto.

FOR SALE

A FIRST-CLASS LUMBER AND SHINGLE Mill, average capacity per day 35 M. feet lumber, 70 M. shingles, and 15 M. lath; situated in Huntsville, close to the G. T. R. station, with sidings to mill; plenty of virgin pine. Also a first-class site for a tannery, plenty of tan bark. Will be sold at a bargain. Apply to T. WHALEY, Huntsville, Ont.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

FOR SALE.

A FIRST-CLASS HARDWOOD SAW MILL. Can easily cut an average of 20,000 feet Hard Maple per day, and more of Elm, Birch, Ash, etc. The Mill is located south-east of Cadillac, Mich., in a good hardwood country. Machinery is in first-class condition. Long tramways, laid with iron T-rail tracks, convenient to handle lumber from edger to piles and from piles to cars. Side track from main line railway runs past the tramways and Mill. A bargain for some one having capital to buy timber and operate the plant. Particulars and reason for selling will be given by C. C. BRADFORD, 71 Buhl Block, Detroit, Mich.

Prouty & Miller have formed partnership as lumber dealers at Roxton Falls, Que.

Saw Mill for Sale

Well situated in the rapidly growing CITY OF VANCOUVER, B.C.; consisting of valuable freehold property, with modern well equipped Mill, having a capacity of about 75,000 feet per day of ten hours.

Also about 10,000 Acres of good

Timber Limits

INCLUDING

DOUGLAS FIR, SPRUCE and RED CEDAR

Easy of access and can be cheaply logged.

For price and terms apply to

The BRITISH COLUMBIA LAND & INVESTMENT AGENCY, Limited,
VANCOUVER or VICTORIA, B.C.

CURRENT TRADE CONDITIONS.

ONTARIO.

Shipping of lumber from Ontario points is quite brisk, giving evidence that the fall trade has commenced to move. For the next two months the demand on local account is expected to be quite heavy, as retail dealers and consumers hold light stocks. While the British trade is a little quiet at present, this has been offset by unexpected orders from the United States. Buyers are quite numerous, and the tone of the market is decidedly firm. Even at this early date some consideration is being given to the requirements of next year, and contracts will no doubt be made for the cut of some of the mills within the next few weeks. The log production during the coming winter will probably be heavy, although it may be restricted on account of the scarcity of labor and high wages. In the Ottawa valley shantymen are being offered as high as $28 per month, and some operators report great difficulty in securing men.

QUEBEC AND NEW BRUNSWICK.

There have been no important changes in the Quebec trade during the past week. A satisfactory business is doing, and mill owners are by no means discouraged at the outlook. A slight weakening in freight rates from the St. Lawrence and from maritime province ports has taken place. Deal rates from St. John to west coast of England are now quoted at 50s, while a charter is reported from Boston to Buenos Ayres at $8.50 for lumber. Most of the large New Brunswick lumbermen attended the sale of timber limits held at Fredericton last week, but from what can be learned it would seem that an understanding had been arrived at not to compete against each other. The lumber shipments from St. John are quite heavy. During July and August 54,875,000 superficial feet of deals, etc., cleared for British ports. This is an average of over 1,000,000 feet for each working day. In the last two weeks the exports to the United States were 2,387,000 feet of long lumber, 10,135,000 shingles, 6,190,000 lath, and 1,100 pieces of piling. To Buenos Ayres went 1,704,000 feet of boards, etc.

MANITOBA AND BRITISH COLUMBIA.

Farmers are now busy with harvesting operations and are buying very little lumber. Retail dealers have put in quite a heavy stock on the belief of a good fall trade. Quotations for British Columbia shingles have been advanced to $2.35 per M for No. 1 stock. The mills in British Columbia are still unable to handle all the orders that are being placed. The result is a slight hardening of prices, although not to the extent that might be expected.

UNITED STATES.

Lumber prices in the United States continue to show an upward tendency. Some of the eastern wholesalers seem to fear that they may be advanced to such a point as to check building operations, in which case a break in the market might take place. For this reason they are watching developments with much interest. This view of the situation is by no means the most general, as the majority of persons in the trade believe that present prices will be maintained at least for some time to come. Their opinions are in part based upon the fact that in the Upper Mississippi valley district, covering about seventy-five mills, the shortage of lumber in pile on August 15th, as compared with that of one year ago, was nearly 400,000,000 feet. The spruce market, while not as firm as that of pine, is in a very satisfactory condition, the recent advance in the New England territory having been maintained.

Substitutes for the high-priced hardwoods are being sought for, but with little success. Throughout the Eastern States one kind of hardwood lumber is about as scarce as another. Maple is being substituted as far as possible for

ash, which has been in great demand of late.

FOREIGN.

Buyers in Great Britain have now become convinced that, owing to increased freight rates, the price of wood goods to arrive this fall will be higher than the shipments which came to hand earlier in the season. There is, consequently, a strong demand for lumber. Some large transactions have lately taken place in pine and spruce deals, and the prices realized indicate quite clearly that the market is a rising one. The prices ruling now are fully 15s per standard higher than those current last spring. Pine deals are very firm. The sale is reported of a quantity of the Hawkesbury cut, first quality 3 x 11, 12 to 13 feet in length, at £25 15s per standard. Notwithstanding heavy receipts, spruce is also improving. 3 x 11 in all qualities is scarce and commands good prices, while a line of second quality, 12 to 13 feet, recently sold at £9 per standard for 11 inch and £8 5s for 9 inch. There is said to be a scarcity of sawn spruce suitable for box making. An active demand is reported at Glasgow and other ports for red pine deals, which are by no means plentiful.

STOCKS AND PRICES.

Wm. Swan & Son, of Wentworth, N. S., are furnishing 90,000 feet of lumber for a smelter to be built at Pictou.

The barque Harry Stewart sailed last week from Digby, N. S., for Cienfuegos, Cuba, with a cargo of lumber.

Donald Fraser & Sons, who have just started their new mill at Temiscouata, have 8,000,000 feet of logs to be sawn this fall.

The bark Terso Olivari sailed from St. John, N. B., last week for Buenos Ayres with a cargo of lumber, shipped by A. Cushing & Co.

The steamer Nyassa last week finished loading at Hopewell Cape, N. B., for the United Kingdom. She had on board 1,470 standards of deals.

Munroe & Ebert, of Little Current, Ont., are preparing to start a logging camp at McGregor Bay. They purpose taking out a large quantity of logs this winter.

The St. Anthony Lumber Co., of Whitby, Ont., are reported to have sold a tract of timber in the Ottawa district to Canadian parties, the consideration being about $100,000.

J. & T. Conlon, of Little Current, have sold a cargo of lumber to Fred Wilson, to be used in the construction of the Toronto Rubber Company's factory at Port Dalhousie.

Ritchie Bros., of Aylmer, Que., returned last week from the Arnprior district, where they purchased 10,000 logs in addition to the 40,000 purchased some weeks ago.

The city of Toronto has given a contract to Bryce & Co. to supply the following lumber : 8,000 feet of soft elm at $35 per M ; 9,000 feet rock elm at $45 ; 1,700 feet white oak at $54.

It is said that the Parry Sound Lumber Company purpose operating their mill at Parry Sound next season, and that about 20,000,000 feet of logs will be taken out during the coming winter.

At last account the jam of logs at the Cascades, on the Gatineau river, was still unbroken. Gilmour & Hughson, McLaren & Co., the E. B. Eddy Co., and the Hawkesbury Lumber Co. have logs in this jam.

Dickie & McGrath, of Tucket, N. S., have just loaded the bark Montea for Marseilles. They are now loading the barque Topdal with deals for w. c. England and the barque Mark Twain for Buenos Ayres.

Chas. Reynolds, who has charge of the lumbering operations of Glover & Cashien, of Bay City, Mich., is putting in four camps of 100 men each on limits in the vicinity of Webbwood, Ont. Wages are about $26 per month.

A. B. Copp, of Sackville, N. B., will offer for sale by public auction on Saturday, October 7th, 7,500 acres of timber lands in the parishes of Shediac and Sackville, N. B., the limits being watered by the the Aboushagan river.

A rumor has been current in Ottawa that the W. C. Edwards Lumber Co. were negotiating for the purchase of the extensive limits of the Hull Lumber Co. The limits are situated on the Kippewa river and are said to be very valuable.

A. F. Bury Austin, wholesale lumber and timber, Montreal, has obtained a contract to supply the lumber and timber required for the construction of the works of the Dominion Iron & Steel Company at Sydney, C. B. A large quantity of material will be required.

The steamer Anatolia sailed from St. John, N. B., last week for Liverpool, with a cargo of deals, shipped by W. M. Mackay. The steamer Rosa cleared for Limerick, Ireland, with a cargo of 580,038 feet of deals. The barque Toecle cleared for Bristol with a cargo of deals, shipped by Donald Fraser & Sons, of Fredericton.

On August 23rd a sale of wood goods was held by Foy, Morgan & Co., London, Eng., at which pine deals, ex Memnon, from Montreal, sold as follows : First quality—12 ft., 3 x 12-21 in., £7 15s ; 13 ft., 3 x 12-24 in., £16 15s ; 14-15 ft., 3 x 12-22 in., £16 5s ; 16 ft., 3 x 12-24 in., £16 ; 9-11 ft., 3 x 12-23 in., £12 15s ; 12 ft. 3 x 11 in., £15 5s ; 13 ft.. 3 x 11 in., £15 5s ; 14-16 ft., 3 x 11 in., £14 ; 9-11 ft., 3 x 11 in., £14 ; 12-13 ft., 3 x 10 in., £13 ; 12-13 ft., 3 x 9 in., £13 5s ; 14-17 ft., 3 x 9-10 in., £13 10s ; 12-16 ft., 3 x 8 in., £11 ; 12-16 ft., 3 x 7 in., £10 15s ; 12-16 ft., 3 x 6 in., £9 10s ; 12-16 ft., 3 x 4-5 in., £9 ; 9-11 ft., 3 x 8-10 in., £11 15s. Second quality—12-13 ft., 3 x 12 in., £11 ; 14-11 ft., 3 x 12-21 in., £10 15s ; 9-11 ft., 3 x 12-25 in., £10 ; 12-13 ft., 3 x 11 in., £12 5s ; 14-17 ft., 3 x 11 in., £12 ; 9-11 ft., 3 x 11 in., £12 : 12-17 ft., 3 x 10 in., £11 10s ; 12-17 ft., 3 x 9 in., £12 ; 12-16 ft., 3 x 8 in., £8 15s ; 12-16 ft., 3 x 7 in., £8 15s ; 12-16 ft., 3 x 4-6 in., £7 15s ; 9-11 ft., 3 x 6-10 in., £9 5s ; 6-8 ft., 3 x 11-23 in., £9 5s ; 6-8 ft., 3 x 5-10 in., £8. Third quality— 12-16 ft., 3 x 12-23 in., £7 10s ; 12-13 ft., 3 x 11 in., £8 ; 9-11 ft., 3 x 11-20 in., £7 5s ; 12-16 ft., 3 x 9 in., £7 ; 12-17 ft., 3 x 7 in., £6 15s ; 12-16 ft., 3 x 4-6 in., £6 10s ; 9-11 ft., 3 x 6-10 in., £6 15s ; 6-8 ft., 3 x 7-21 in., £6 12s 6d.

MILL PROPERTY AND LIMITS FOR SALE.

The British Columbia Land & Investment Agency, of Vancouver and Victoria, are offering for sale a large sawmill situated in the city of Vancouver. The mill is thoroughly equipped and has a capacity of 75,000 feet per day of 10 hours. Some 10,000 acres of timber limits, of Douglas fir, spruce and red cedar, are also in the market and may be secured by the purchaser of the mill, which makes the property particularly desirable. Parties contemplating an investment in this direction should obtain particulars from the above firm.

SALE OF NEW BRUNSWICK TIMBER LIMITS.

According to announcement, a sale of the unlicensed timber lands in the province of New Brunswick took place at Fredericton on Wednesday, August 30th. The sale was advertised to take place at 11 o'clock, but owing to some dissatisfaction among the lumbermen as to the manner in which the limits were offered, an adjournment was made until 2.30 p.m. In the meantime the lumbermen held a meeting, the result of which was that the government was asked to cancel the sale, but to this they would not agree. The lumbermen pointed out that much of the land put up was of little value at the present time, and would only be purchased under pressure for the purpose of protecting other lands under lease. The government, on the other hand, argued that the lumbermen should have presented their views at an earlier date.

Mr. E. H. Allen officiated as auctioneer. There was very little competition for the limits, and few of them reached more than the upset price of $8 per mile. Of the total 3,877½ square miles, less than one-third, or 1,268½ miles, were sold, the aggregate proceeds being $24,290, an average of $20 per mile. The highest price paid was $123 per mile for a 7½-mile limit on the west branch of Portage river. This was purchased by J. J. F. Winslow. The heaviest purchasers were : Wm. Richards & Co., $8,000 ; Adams, Burns & Co., $2,900 ; A. Cushing & Co., $2,700 ; George Moffatt, $2,000 ; A. F. Randolph, $1,600.

A list of the berths which brought over $50 per square mile is as follows : Tracy brook, 9 miles, to George Moffat, at $53 ; Pabineau river, 10 miles, to Adams, Burns & Co., at $52 ; Pabineau river, 10 miles, to Adams, Burns & Co., at $52 ; Pabineau river, 9 square miles, to Andre Cushing & Co., at $75 ; head of Little river, 6½ miles, to Adams, Burns & Co., at $71 ; head of Pabineau river, 3 miles, to Adams, Burns & Co., at $76 ; Nine Mile brook, branch of Nepisiquit river, 9 miles, to Adams, Burns & Co., at $56 ; Nine Mile brook, branch of Nepisiquit river, 7½ miles, to Andre Cushing & Co., at $55 ; Nine Mile brook, nine miles, to Andre Cushing & Co., at $65 ; Forty Mile brook, nine miles, to A. Cushing & Co., at $66 ; head of Forty-four Mile brook, six miles, to Adams, Burns & Co., at $56 ; west branch of Portage river, 7½ miles, to J. J. F. Winslow, for P. Hennessey, at $123 ; east of Lower North Branch Little Southwest Miramichi river, nine miles, to T. B. Winslow at $51 ; North Pole and Indian Brook, 9 miles, to Wm. Richards Co., at $54 ; head of Gordons' brook, branch of Cain's river, 6 miles, to W. T. Whitehead, at $101; south of Cain's river, 6 miles, to Wm. Richards Co. at $85 ; head of Little Forks, Green river, 5½ miles, to Hon. A. F. Randolph, at $54.

Other purchases included the following : Head of Pimouet branch and Green river, 8½ sq. miles, to A. F. Randolph, at $34.50 per mile ; west of north branch Gounamitz river, 2 miles, to Wm. Richards Co., at upset price ; Gounamitx river, 9 sq. miles, to W. Richards Co., at upset price ; north-east of Gounamitz, 3 miles, to Wm. Richards Co., at upset price ; south of Falls brook, 2 miles, to E. B. Winslow, at upset price ; Restigouche river, 8 miles, to M. Mowatt, at upset price ; Kedgewick river, near mouth, 2½ miles, to Wm. Richards Co., at $50 per mile ; Kedgewick river, east of Macdougall brook, to Geo. Moffatt, at upset price ; Patapedia river, at mouth of Pallard's brook, 10 miles, to Geo. Moffatt, at $47 per mile ; Patapedia river, 10 miles, not sold ; Patapedia river, 8 miles, to Geo. Moffatt, at upset price ; Tracey's Mills, 9 miles, to Geo. Moffatt, at upset price ; Tracey's brook and main Restigouche river, 9 miles, to George Moffatt, at upset price ; White's brook, 9 miles, to Wm. Curry, at upset price ; White's brook, Restigouche river, 2 miles, withdrawn ; head White's brook, 2 miles, to Geo. Moffat, at $25 ; main Five Finger brook, 3 miles, to William Richards Co., at upset price.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

It will not be necessary for me to announce a boom in the lumber trade at this date, for our dealers who cross the border bring back the report that the prices are just as stiff there as they are with us, which is quite enough to say. The market is more or less crazy and some of the members of the trade are more than a little uneasy over the situation. The fact is that they consider prices to high. The actual value of the material will not warrant $75 for quartered white oak or $60 for thick white ash. Yet these prices are not only obtained, but it is expected by everyone that still more will be paid before the top is reached. It is there that the trouble comes in. What is to be done when the price cannot be urged any further ? This market is not to blame for the condition of things, and the eastern consumer is, of course, not to blame. It is the saw mill man. He saw the beginning of the boom last year in the west and at once began to put up his prices.

WANTED

Rock Elm, cut to order.
Soft Elm, all thicknesses.
Black Ash, all thicknesses.

State quantity you can supply, with lowest prices.

JAS. G. CANE & CO.,
35 Adelaide St. E., Toronto, Ont.

Do You Use Mahogany?

If so don't buy until you have seen or inquired about our now famous . .

TABASCO MAHOGANY

Finest figured wood on the market ; is hard and takes elegant finish. Brings highest prices in Europe, but we sell here about same prices as ordinary mahogany. Specially adapted for fine cabinet and interior finish . . . . . .

LAWRENCE & WIGGIN

Importers and Manufacturers BOSTON, MASS.

The demand from that direction, stimulated by big crops, was so great that the producer was so independent of the slower eastern demand that he turned up his nose at us and asked prices that were away out of proportion of anything that could be obtained in the east. The east tried to hang back, but the result was that it got no lumber, and when the boom in general business set in there, it was necessary to have lumber at some price, and so the demand of the mills was met. Buffalo and Tonawanda did not know what to do at the outset. To join the western and southern mills was to see a good deal of the eastern trade go by us to the producer direct, and to cater to the low price demanded east was to lose money when there was so much money in the business; so a sort of middle course has been taken.

Still lumber is high here all the same. A dealer mentions selling a lot within a few days at prices $6 more than it would bring last fall, and yet he is not so sure that he made as much over the western asking prices as he would have done then. It is common to get that much advance.

The worst of it is that Canada is not going to help us out to any extent in anything. Pine dealers made a rush in that direction when the prices went up awhile ago, but they have not obtained much comfort. The Canada price is as high as ours. A dealer lately figured on a large lot, but found that the price was about $2 more than the home price, counting duty, and he threw it up. He has since learned that it was sold at the asking price.

The hardware dealers are still looking for elm and black ash in Canada, but we are shipping oak in that direction right along, though probably not in large quantities.

There has never been such a feeling of exhiliration in trade generally as there is to-day. It does not go through all branches, for a long period of over-production is holding a few industries, like flour milling, back as yet, but lumber is as wildly panicky as iron or steel. There are those who are beginning to be scared already. They do not look for a standstill for a considerable time yet, never, in fact, till a halt is called in sending steel and its manufactures abroad, but this pace is enough to make the levelest head dizzy. It is predicted that three years of this, with the enormous produciton of silver and gold, will enable the United States to finance the world. Nobody thinks of boasting. This is the prospect, pure and simple.

The local lumbermen are spending a good deal of their time getting together and putting up prices. Now it is white pine, now Norway, and now shingles and lath. The price of lath is up the stiffest, for it is fairly out of market in spite of all effort to obtain it. The price is now $3.25 for No. 1 white pine and $3 for No. 1 Norway. The prices of shingles has also been put up and is at present $4 for 18-in xxxx and $3.55 for 16-inch same.

There is no such thing as getting ahead with hardwood supply. A dealer said this week that there was not a yard in Buffalo that was increasing its stock, and this is the time when the supply is supposed to run up if ever. Pine is not very much more in evidence, and dealers are wondering where their winter stock is coming from. It is a strange condition of things.

Buffalo received 40,575,000 feet of lumber and 34,829,000 shingles, and Tonawanda, both ports, 57,030,000 feet of lumber and 100,000 shingles during August. This is an increase for Buffalo, but a falling off for Tonawanda.

So much is crowding into the line of direct business that there is hardly space for general or personal mention. Dealers are watching the situation with the keenest interest. They know there is no danger, but it will not always be so.

The death, on August 15th, of William H. Gratwick, closed a most successful career in the lumber business. When the Gratwick, Smith & Fryer Company went out of business some years ago, it was in the lead as producer and seller in the east, and Mr. Gratwick has always stood as high personally as did the firm in business. He was 60 years old and lived in Buffalo, though the company was established in Tonawanda.

BUFFALO, September 4th, 1899.

On September 4th fire broke out in the lumber yard of Price Bros. & Co., at Amqui, Rimouski county, Que. Several million feet of lumber is reported to have been destroyed, together with seven buildings. The loss will reach $75,000.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., SEPTEMBER 13, 1899 No. 34.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

LUMBERMAN'S

VEST-POCKET

INSPECTION BOOK

Containing Rules for the Inspection and Measuring of Pine and Hardwood Lumber in the leading markets of Canada and the United States. Embracing also many useful tables and calculations of everyday service to lumbermen.

Prepared by the Editor of the Canada Lumberman."

Toronto, Canada
C H. MORTIMER, Publisher
1895

THE above is a fac simile of the title page of the latest and most complete Lumber and Inspection Book published.

We shall be pleased to send you a copy on receipt of four 3 cent Canadian postage stamps

THE CANADA LUMBERMAN,
Toronto, Canada

The BRITISH COLUMBIA LAND & INVESTMENT AGENCY, Limited,
VANCOUVER or VICTORIA, B.C.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber of all kinds is moving very actively, without regard to grades. If one grade is more inquired for than another, it is mill culls in pine, for which there has been an almost unprecedented demand this year. To such an extent has this been the case that the yards are actually cleared of dry stock. Where the supply for the late fall and winter trade is to come from is a question which is giving dealers and consumers some concern, particularly as buying for the United States market is now being done very freely. Even Michigan dealers have visited Georgian Bay points in search of stock. The hardwood trade occupies a position quite as strong as that of pine. There has been no slackening in the demand during the past week and no material change in prices.

That commodity to which dealers are giving most attention at the present time is lath. Almost instantly it has been discovered that there is a great shortage in the pine lath supply of the United States, and buyers have endeavored to augment their stock from Canadian mills. In this they have in some measure been successful. Within the past two weeks several car loads of lath have been purchased in Ontario and shipped to Missouri and Kansas, costing laid down there about $5 per thousand. This instance alone illustrates the strength of the lath market.

QUEBEC AND NEW BRUNSWICK.

Prices for Quebec timber remain unchanged, excepting birch of 18-inch average, which is now quoted at 27 to 30 cents per cubic foot. There has arrived at Quebec so far this year, in comparison with last year, about the same quantity of waney pine, but only about one-half the quantity of square pine. The deal market is strengthening, and manufacturers who have stock for sale are asking advanced prices, but the high freight rates are retarding business both in Quebec and New Brunswick. Lumber orders to the River Platte are quite freely offered, but tonnage is scarce at the figures submitted by shippers. The latter offer $10.50 from outports in the provinces to Buenos Ayres, $9.50 from Portland, and $9 from Boston.

UNITED STATES.

About the only change in the United States lumber market is a disposition on the part of dealers to postpone buying more than for immediate requirements. There is a feeling that prices have reached the top notch, and that nothing can be lost by waiting, while there is a chance that some grades of lumber will weaken during the winter months, to advance to the present basis again in the spring. The only danger in adopting this course is that dealers may be unable to locate the stock when they are ready to buy. From present indications there will be a lumber famine on a small scale before the spring of 1900 is reached. Dealers in the Eastern States are much interested in the freight rate situation. Vessels are very scarce, and rates have advanced so that the lowest figure from Lake Superior points to Lake Erie ports is $3.25, with quotations being made as high as $4. This condition is likely to reduce the quantity of white pine which will find its way to the eastern trade,

and as a result dealers are turning their attention to Canada in the hope of augmenting their stock from this quarter. Low grade stock continues to show the greatest degree of strength, and it is almost impossible to name a market price for box stuff. A correspondent in Michigan explains the situation in these words: "High prices for logs, high freights, and good old Republican times make our business the best we have had for the past seven years." Prices at Michigan producing points have now reached almost the highest mark ever known, as will be observed by reference to our quotations on page 4. Even $15 is being paid for box lumber, which is an advance of $5 per thousand since last spring.

The hardwood market has not changed, there being no visible falling off in the demand. White and brown ash is quoted at Boston at $42 to $45, quartered white oak at $70 to $72, and thick oak at $72.50 to $76. Elm and maple meet with ready sale at advanced quotations.

FOREIGN.

The difficulty in securing tonnage is strengthening the British timber market. Prices of lumber generally are improving, although Canadian pine does not seem to participate in the improvement to the extent it should. The Timber Trades Journal believes that this is due to inferior shipments, coupled with the inordinate quantities of oddments in pine specifications, which has disorganized values.

From what can be learned, however, pine deals are likely to advance considerably in the near future. At London Quebec pine deals of first quality are selling at £20 to £24 per standard, second quality at £15 10s to £16 10s, and third quality at £9 to £9 10s. There continues to be a steady improvement in spruce deals and planks. The railway contractors have now entered the market and are purchasing large quantities of first, second and third quality. Sales are reported at £10 for 9 inch first quality deals, £8 10s for second quality, and £7 15s for third quality. These prices are for the Quebec production, New Brunswick deals being quoted at slightly lower figures.

There is a good demand for square and waney pine timber of first-class quality, but the stock of second quality is sufficient to meet immediate requirements. Elm and birch timber are strong, the former selling at 2s 4d to 2s 6d for first class of 40 to 45 feet average. Ash timber is firm and the stock light. Red pine deals are low in stock and wanted.

THE SHINGLE AND LATH MARKET.

There is a scarcity of shingles and lath throughout the Eastern States. Buffalo dealers have recently issued a new price list, making a 30 cent advance upon the former price, quotations now being as follows:

WHITE PINE.—18 inch XXXX, $4; 18 inch clear butts, $3.75; 18 inch sound butts, $1.80; 16 inch, XXXX, $3.55; 16 inch extra *A*s, $2.75; 16 inch *A*s, $2.70; 16 inch XX, $2.65; 16 inch 6 inch sapy clear butts, $2.30; 16 inch sound butts, $1.80; 16 inch culls, $1.55.

CEDAR.—18 inch XXXX, $3.70; 18 inch clear butts, $2.85; 16 inch XXX, $3.10; 16 inch extra *A*s, $2.70; 16 inch *A*s, $2.45; 16 inch clear butts, $2.20; 16 inch culls, $1.55.

At Saginaw there has been a remarkable advance in lath, No. 1 white pine being now held at $3.50 and No. 2 at $3, against $2 and $1.50 as the prevailing price six months ago. At Buffalo lath is now quoted at $3.25 for No. 1 white pine, both 1 and 1½ inch. Cedar shingles are not as much inquired for as one month ago, the price at Boston being $3.10 for extra quality.

STOCKS AND PRICES.

The vessel Johnson sailed last week from Little Current, Ont., for Chicago, with 600,000 feet of lumber.

The barque Reform sailed last week from Yarmouth, N.S., for Buenos Ayres, with about 700,000 feet of lumber.

The barque Walter G. sailed last week from St. John, N.B., for Buenos Ayres, with a cargo of lumber, shipped by A. Cushing & Co.

The Turner Lumber Co. are engaging a large number of men to go to the lumber woods. Their limits are in the Parry Sound district.

David Sword, of Christie, has been given a contract by the Parry Sound Lumber Co. to get out 3,000,000 feet of logs during the coming winter.

R. Connolly, of Eau Claire, Nipissing district, has put in a logging camp on the Little Sturgeon river. He expects to make a larger cut than last year.

The schooner C. J. Woods is now loading props at Ganges Harbor, B.C., for Santa Rosalia, on account of a Mexican firm. The schooner is capable of carrying 900,000 superficial feet of lumber.

The Gilmour Co., of Trenton, Ont., are taking a considerable quantity of timber from their limits in Harvey and Galwey townships. It is reported that the company will cut the logs at Pigeon lake, but the report is not confirmed.

In the Saginaw valley common log run pine is held at $16 to $18, and good log run at $20 to $24. Norway piece stuff is scarce and sells at $12 to $14 for short lengths and up to $18 for long stuff. Mill culls are quoted at $12.

J. Dewar & Son, of St. George, N.B., are reported to have purchased 25,000 acres of timber lands, with a wharf privilege, from Daniel Gilmore. The limits have not been cut over for many years, and are said to contain some excellent timber. Messrs. Dewar expect to cut about 5,000,000 feet of logs on the property this winter.

Hardwood, of Chicago, reports that the Lutcher & Moore Lumber Co., of Orange, Texas, is about to close a contract with the British government for 500,000,000 feet of yellow pine lumber. The contract calls for the delivery of the lumber at gulf ports, and the impression is that part of it is intended for South Africa and part for the British West Indies. Should the report prove correct, it will take all the mills of Texas a year to cut the lumber for this contract.

Following is a comparative statement of timber, &c., measured and culled at Quebec to September 12th, 1899:

	1897.	1898.	1899.
Waney white pine, cu. feet.	3,662,359	1,789,026	1,747,098
Square white pine, cu. feet.	781, 51	1,056,356	581,246
Red pine, cu feet	143,295	217,310	159,708
Oak, cu. feet	1,289,400	948,007	522,178
Elm, cu. feet	661,734	471,939	45[illegible],841
Ash, cu. feet	129,021	34,094	56,546
Basswood, cu. feet	5		
Butternut, cu. feet	673	955	60
Tamarac, cu. feet	348		4[illegible]5
Birch and Maple, cu. feet	271,174	106,592	244,530

WESTERN CANADA EDITION.

The publishers of the CANADA LUMBERMAN are completing arrangements for the publication, about the 1st of October next, of a special number, to be known as the Western Canada Edition, and to be devoted particularly to the lumber interests of Manitoba, the Northwest Territories and British Columbia, and to the export lumber trade of this part of Canada. It is the purpose to place a copy of this number in the hands of every saw mill owner, retail dealer and wood-worker in Western Canada, and also to distribute a large number of copies amongst the timber importers and others interested in Great Britain, South America, China, Japan, South Africa and Australia, to which countries British Columbia timber products are exported. By this means it is sought to better acquaint foreign consumers with the timber resources of our western provinces, and with the possibilities of obtaining supplies in Canada. There are many manufacturers in the Dominion who are interested in supplying the lumber requirement of the countries named. To these the opportunity is given of being represented in this number. Information regarding prices for advertisements will be gladly furnished upon application.

SALE OF TIMBER LIMITS.

OVER $430,000 REALIZED FOR FOUR PARCELS.

As announced in the CANADA LUMBERMAN, the sale of timber limits belonging to the late firm of Hale & Booth took place at the Russell House, Ottawa, on Wednesday, September 6th. Mr. Peter Ryan, of Toronto, officiated as auctioneer. There was a large attendance of lumbermen, including Thos. Pitts, Bay City, Mich.; John Charlton, M. P., Lyndoch; A. E. Dyment, M. P., Thessalon; J. B. Klock, M. P., Klock's Mills; James Playfair and D. L. White, Midland; E. Sparrow, Houghton, Mich.; C. McCool, Thos. Mackie and Alex. Barnett, Renfrew; C. McLachlin, Arnprior; M. Quinn and Hon. Peter White, Pembroke, and many other Ottawa Valley lumbermen.

The bidding for the limits was quite keen, the result being that for 137½ square miles there were realized over $430,000.

Parcel No. 1 proved the greatest attraction. It comprised berth No. 82 on the north shore of Lake Huron, an area of 36 square miles. The buyer was Mr. Thos. Pitts, of Bay City, Mich., at the price of $315,000.

Parcel No. 2, being berths 2, 3 and 4 in the township of Butt, contiguous to the line of the Ottawa, Arnprior and Parry Sound railway, containing 13¾, 12 and 11¾ miles respectively, was sold to Mr. John R. Booth for $75,000.

Parcel No. 3, berths 136 and 137 on the Serpent river, area 36 miles each, was sold to Mr. John Charlton, M. P., for $30,000. Considerable timber has been cut on these limits, but there is still a considerable quantity standing.

Parcel 4, berth No. 1, township of Hanmer, Vermillion river, area 7¾ miles, was sold by private sale previously to Booth & Shannon, of Pembroke.

Parcel 5 was a 28 mile limit in the township of Sprague, which was sold to R. Brewder, of Ottawa, for $10,300.

SHIPPING MATTERS.

Following charters are reported: Str. Bentala, 1,793 tons, Richibucto, N.B., to Liverpool, deals, 55s, September loading; bark Antilla, Bridgewater, N.S., to Buenos Ayres, lumber, $10.50, if Rosario, $11.50; str. Roseneath, Miramichi, N.B., to w.c. England, deals, 60s; bark W. W. McLaughan, Annapolis, N.S., to South American port, private terms.

Mr. Arthur White, divisional freight agent of the C.P.R., has sent out the following official circular announcing an advance in lumber freight rates: "I beg to advise you that, commencing on November 15th, an advance will be made in lumber, forest products and cordwood local tariffs of one-half cent per 100 lbs. I thought it better to give you this early information, although, after the consultation I had with the lumbermen generally last spring, it will, no doubt, be borne in mind that after we compromised on the advance of one-half cent. per 100 lbs., I very clearly led everyone to feel that an increase of one cent per 100 lbs. should have been made in May, but acting under the advice of the gentlemen who composed the lumbermen's committee, we only advanced the rates one-half cent in order not to hamper the then expanding trade, until it had become clearly established that the improvement in the lumber business was likely to be of a permanent nature for some time to come, and this is certainly now the case. We shall drop the hardwood column from our tariff G.N. 14 altogether."

THE GLASGOW MARKET.

The following particulars of the Glasgow timber trade are given in the monthly market report of Allison, Cousland & Co., dated September 2nd :

There has been a marked improvement in business during the past month. Imports have been very moderate. Buyers are now practically convinced that the market is steadily rising ; good sales have been made ex quay, and yarded stocks are now being rapidly reduced. Prices are very firm, and there is no inclination on the part of sellers to force any class of goods Provided trade continues in the satisfactory condition it is at present, the prospects of higher prices are very bright, as there will be a decided scarcity in some items.

WANEY WHITE PINE.—There has been a better inquiry, and prices for 1st class wood are firm. 2nd class wood is gradually being worked off, although prices are still low. Quotations—1st class, 19 to 20 inches average, 2s 6d to 2s 9d. 2nd class, 15d to 2s per cu. ft.

SQUARE PINE.—Very little business is reported, the demand being limited, and the stock consisting mostly of wood of small average.

RED PINE.—There is little enquiry except for wood of large average girth.

ELM.—The demand has been exceptionally brisk, and prices are very firm. 1st class wood, 45 to 50 ft. average, is quoted at 2s 4d to 2s 6d ; 2nd class at 2s per c. ft.

OAK.—The import has been considerable, and very little business has been done outside of railway requirements.

ASH.—Stocks are light, and prices for fair sized wood are very firm at 23d to 2s per. c.ft.

BIRCH.—The stock is normal, and for the most part in consumers' hands.

QUEBEC DEALS, BATTENS AND BOARDS.—Imports, with the exception of spruce, are considerably lighter than last year, and prices are advancing all round.

PINE.—Firsts.—There has been a good demand for 1st deals of all sizes, and prices are firmer. Broad are quoted at £24 15s to £25 8s 9d. Undersized, £17 3s 9d to £19 5s per St. Pet. std. Seconds are seldom enquired for. Broad deals are quoted at £17 17s 6d to £19 5s. Undersized, £13 15s to £14 8s 9d per St. Pet. std. Thirds.—Regulars continue in good demand, but undersized are seemingly not wanted. Quotations—Regulars, £9 12s 6d to £10 6s 3d. Undersized, £7 11s 3d to £8 5s per St. Pet. std. Fourths.—Prices have improved, and are now firmly held at £7 7s 9d to £7 11s 3d for regulars. Undersized, £6 10s 7d to £6 17s 6d per St. Pet. std.

RED PINE.—Stocks are very low, and shipments are readily disposed of at good prices.

QUEBEC SPRUCE.—Business continues in a satisfactory condition, and prices have an upward tendency. Quotations.—£6 10s 7d to £7 11s 3d per St. Pet. std.

N. B. BIRCH.—Prices are firm. 15 to 16 inch wood is quoted at 17d to 18d. Planks, 10d to 1s per c.ft.

N. B. DEALS, BATTENS AND BOARDS.—There is a fair demand, and prices have improved considerably. Quotations.—£6 10s 9d to £8 11s 10d per St. Pet. std.

N. B. SPRUCE.—Business is active, and prices firm. Long lengths of 9 and 11 inch are scarce, and would fetch good prices. Quotations.—£6 10s 7d to £8 18s 9d per St. Pet. std. for 2nd quality average.

The following figures show the imports to the Clyde from America from 1st January to 31st August, for four years :

Year.	White Pine Logs.	Red Pine Logs.	Quebec Oak Logs.	Elm Logs.	Birch Logs.	Ash	Deals, Battens & Boards Pieces.
1896	13,009	1,796	1,290	2,514	6,354	3,300	2,221,490
1897	6,662	554	1,343	1,520	7,698	1,165	2,965,137
1898	4,265	653	1,251	1,565	2,479	1,759	3,027,789
1899	8,743	1,342	2,302	1,55[illegible]	7,282	1,463	3,536,842

FIRES.

A shingle mill at Merrickville, Ont., owned by Mills Bros., was burned recently.

The planing mill of John Monkhouse at Markham, Ont., together with a quantity of lumber, was destroyed by fire on the 6th inst. Loss is about $3,000 and insurance $1,000.

Two pulp mills at Riviere au Pierre, on the line of the Quebec and Lake St. John Railway, controlled by the International Paper Co., of New York, are reported to have been destroyed by fire a few days ago.

The assignment is announced of Wm. Allen, saw mill owner, Farewell, Ont.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., SEPTEMBER 20, 1899 No. 35.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING,
MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber producrs at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE IN PARRY SOUND, ON SOUTH River, near Trout Creek, 800 Acres Good Soil, timbered with Pulp Wood and Birch. Box 30, CANADA LUMBERMAN.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

WANTED.

TO BUY A GOOD SECOND HAND SAW MILL of capacity about 20,000 feet per day. Apply to GODERICH LUMBER CO., Goderich, Ont.

WANTED.

LOT OF BASSWOOD OR SPRUCE BOLTS, six inches and up in diameter, forty inches long. Quote lowest cash prices. J. F. STENGEL, Ellicott Square, Buffalo, N.Y.

FOR SALE.

BIRCH FLOORING, KILN DRIED, HOLLOW backed, butted and bundled—suitable for factories, workshops, etc. The KNIGHT BROS. CO., Burks Falls, Ont.

FOR SALE.

Side track from main line railway runs past the tramways and Mill. A bargain for some one having capital to buy timber and operate the plant. Particulars and reason for selling will be given by C. C. BRADFORD, 71 Buhl Block, Detroit, Mich.

AUCTION SALE OF VALUABLE

Timber Berths

AT THE ROTUNDA OF THE BOARD OF TRADE, TORONTO, ON

Tuesday, October 24th Next,

AT 2 P. M.

Timber Berths Nos. 94, 98, 99, and 102

(North Shore of Lake Huron District), and known as the Townships of

Trill, Ermatinger, Foster, and Nairn

on the Spanish River and tributaries.

TRILL and ERMATINGER will be sold in single Berths of 36 square miles each, and FOSTER and NAIRN in 9 square mile parcels of N.W. ¼, N.E ¼, S.W. ¼, and S.E. ¼, respectively.

These Berths have never been operated on, and are heavily timbered with superior

PINE AND OTHER WOODS.

For terms of sale, maps and other particulars apply to E. R. C. CLARKSON, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

THE LATH MARKET.

Although a considerable quantity of lath has been purchased during the past week, the demand does not seem to have moderated. It is said that $4 is not an extradordinary price for No. 1 white pine lath at Chicago, while No. 2 white pine and No. 1 hemlock and Norway has been sold at Duluth as high as $3.75. This is an advance of over 200 per cent. in prices in a little more than one year. At Buffalo white pine lath sells about $3.25, although one firm is said to be asking $4.

TIMBER LIMIT SALE.

The attention of our readers is directed to the advertisement announcing a very important auction sale of virgin timber berths on the Spanish river. They are known as the Comstock limits, and are said to be amongst the most valuable in the province. Mr. Peter Ryan, acting under instructions from Mr. E. R. C. Clarkson, the well known trustee, will conduct the sale at the Board of Trade Room, Toronto, on October 24th.

Saw Mill for Sale

Well situated in the rapidly growing CITY OF VANCOUVER, B.C.; consisting of valuable freehold property, with modern well equipped Mill, having a capacity of about 75,000 feet per day of ten hours.

Also about 10,000 Acres of good

Timber Limits

INCLUDING

DOUGLAS FIR, SPRUCE and RED CEDAR

Easy of access and can be cheaply logged.

For price and terms apply to

The BRITISH COLUMBIA LAND & INVESTMENT AGENCY, Limited,
VANCOUVER or VICTORIA, B.C.

CURRENT TRADE CONDITIONS.

ONTARIO.

What has been said in previous issues regarding the prosperous condition of the lumber trade of Ontario is equally applicable at the present time. The mills are busy with orders, have little stock in pile, and many of them sold largely in advance. On local account an increased volume of business has been done during the past week, indicating that the fall trade has commenced to move. The number of inquiries from the United States indicates that trade in that direction is also expanding, and altogether a further hardening of prices is looked for. Two Michigan dealers last week visited a Georgian Bay mill for the purpose of purchasing 8,000,000 feet of boards, but when they arrived they found that 5,000,000 feet of the stock had in the meanttme been sold for the Buffalo and Tonawanda markets. The balance of 3,000,000 feet was purchased at a price said to be in the vicinity of $16 per thousand. This is an indication of the urgency of the demand. There is a very strong enquiry for common and cull lumber, which has steadily risen in price, but in the higher grades, which are always saleable, the advance has not been so marked. In the Ottawa Valley prices have advanced about $2 per thousand within the past few weeks. Good sidings are now quoted at $32 to $40, good strips at $25 to $30, No. 1 dressed sidings at $17 to $24, and strips at $16 to $18. Lath has made an advance of from 15 to 25 cents, quotations being $1.35 to $1.50 for No. 1, and $1 to $1.10 for No. 2. Shingles are good stock and find ready sale.

A large local consumption of hardwoods has prevented any weakening in prices. In the Wiarton district rock elm is being sold at $20, soft elm, common and better, at $14, and maple of same grade at $15, and at these prices there is very little stock to be had. It is improbable that prices will show any material depreciation during the fall or early winter, although a large output of logs next winter might have the effect of lowering prices.

QUEBEC AND NEW BRUNSWICK.

The high freight rates are likely to result in reducing late fall shipments of lumber from the St. Lawrence and maritime province ports. Ship owners are now asking 52s. 6d. from St. John to east coast Ireland and west coast England, but shippers are reluctant to advance their ideas above 50s. It is not believed, however, that there is any great quantity of stock yet to go forward to the British market, and shippers are not likely to be seriously handicapped by the higher rates. Considerable lumber is finding a market in the United States and in South America, several cargoes having gone forward to the latter country within the past month.

The lumber operators are making preparations for their winter's work in the woods. In view of the position of the wood markets of the world generally, it is probable that the cut this winter will be slightly larger than for several seasons past. Wages this year are from $18 to $20 per month, while last season the average was about $16.

MANITOBA AND BRITISH COLUMBIA.

The mills supplying lumber to Manitoba and the Northwest Territories are said to be now behind with orders. The

farmers are just finishing harvesting operations, and the fall demand for lumber has only commenced. With a scarcity at the present time, it is to be expected that prices will advance in the near future. It is understood, however, that retail dealers are carrying quite liberal stocks, in the expectation of a brisk fall trade. The Rat Portage Lumber Co. are reported to have sold 6,000,000 feet of lumber within the past two months. Building and mining operations in British Columbia are moving very freely, calling for a large quantity of material. A few days ago a meeting of the saw mill men in the interior of southern British Columbia was held to discuss the amalgamation of the mills. This was not effected, however, although there is some prospect of it being accomplished in the near future.

UNITED STATES.

A firm market and somewhat weaker demand explains the condition of the white pine trade of the United States. Prices have now reached a point where retail dealers and consumers refuse to buy except for immediate requirements. They believe that prices will go no higher. On the other hand, there are some who predict that before the opening of navigation next spring there will be a famine in white pine lumber. Another condition which has checked the demand is the most unprecedented high freight rates. From Duluth to Lake Erie points the rate is now $4, the result being that no sales can be made to the eastern trade for this year's delivery. From the above remarks it must not be premised that prices show any tendency to weaken. Dealers in the Buffalo and Tonawanda markets report prices as very firm, with a prospect of a further advance. From the Saginaw valley comes the same report. In that district mill culls are selling at from $12 to $14, and log run at from $16 to $24. Spruce lumber is selling readily at recent quotations, $17 being paid for frames.

The hardwood market displays many elements of strength. Every variety is in short supply, while there does not seem to be any abatement in the demand. At Buffalo sales of cull elm and basswood have been made at $17, and thick elm is quoted at $32. A sale of low grade logs for boxes is reported, which is another indication of the scarcity of ordinary box lumber.

FOREIGN.

The position of foreign markets generally is satisfactory. From Great Britain comes the report of a steadily increasing demand and a tendency towards higher prices. Spruce deals particularly are improving, and sales of large cargoes have been made at £6 15s c.i.f. London and Liverpool. At the latter port there was received during the month of August 21,211 standards, the deliveries being 22,252 standards, or upwards of one thousand standards in excess of receipts. The packing case makers are very busy, and building operations in the cheaper class of houses, in the construction of which spruce deals and battens enter so largely, have not been so active for some time.

The advance in pine referred to in former reports has been maintained, the high rates of freight contributing in some measure to this end. The stock of wood goods in London docks this year shows a shortage of about 18,000 standards, the exact figures being 17,339,119 pieces, against 18,014,260 pieces in 1898. All classes of goods, with the single exception of flooring, is in lighter stock than last year.

In timber, birch, either in the log or plank, is very scarce, the stock at Liverpool at end of August being only 150,000 feet, as compared with 314,000 feet in August, 1898. In view of this condition an increase in price is looked for.

The trouble in South Africa does not appear to have any influence on the wood trade of Great Britain. Merchants there are buying all they can of stock on which the South African demand might have some effect, and it is only in respect to next year's business that the question is brought under consideration at all.

STOCKS AND PRICES.

Mill culls are selling at $10 a thousand at Ashland, Wis., No. 3 boards at $11.50, and No. 2 boards, 6, 8, 10 and 12 feet, at $13 to $13 50.

The ship Guilia R sailed from St. John, N.B., last week for Marseilles, France, with 1,168,157 feet of deals, shipped by W. M. Mackay.

Wm. Allen, of Perth, Ont., has purchased the Muirhead property in Beckwith township, and will take out about 1,000,000 feet of logs this winter.

At Midland, Ont., the schooner Geo. Westley loaded lumber last week for Bay City, the United Lumberman for Tonawanda, and the Ellen Murton for Buffalo.

J. L. Reaume & Co., of Essex, Ont., have bought the timber on lots 14 and 15, of the 14th concession of Colchester North, also that on a 50 acre berth and a 30 acre berth in Maidstone.

The Hull Lumber Co., of Hull, Que., again started their mill last week, which had been shut down for a fortnight owing to scarcity of logs. The company have now 150,000 logs floating down the river.

The R. Laidlaw Lumber Co. are handling a considerable quantity of Canadian pine through their Buffalo yard. The businsss card of this firm, whose head office is in Toronto, appears in this issue.

The Dominion government is about to construct a telegraph line from Big Roumaine, Que., to a point in Labrador, a distance of 315 miles. The contract for supplying the necessary poles has been given to C. J. Bickerdike, of Montreal.

Lumbering operations in the vicinity of Owen Sound are very brisk. Maitland, Rixon & Co. estimate their cut this year at between 4 and 5 million feet. Pickard & Rowan will cut over 2,000,000 feet, Henry Pedwell 1,500,000 feet, and J. S. Findlay 3,000,000 feet.

Pelton & Reid, of Cheboygan, Mich., have just received a raft of Canadian logs coniaining about 4,000,000 feet. They have still two other rafts on the Georgian Bay, but having all the logs they can cut this season, will not take them over to Michigan until next spring.

In this issue Messrs. Geo. Perry & Co., packing case manufacturers, Dublin, Ireland, ask for quotations for the supply of poplar, cottonwood, beech or white pine timber. If suitable for their requirements, as regards price and quality, they are prepared to purchase very large quantities.

The C. Beck Manufacturing Co., of Penetanguishene, have three camps in the woods, and will make a large cut during the coming winter. The Holland & Emery Co., Byng Inlet, have two camps in, and will put in others. Pelton & Reid, of Cheboygan, Mich., have one camp on the Indian Reserve.

At a recent sale held by Foy, Morgan & Co., London, Eng., Canadian spruce, ex Highfield, from Quebec, sold as follows: 9-15 ft. 3 x 10 in. first quality, £10 10s; 12-18 ft. 2 x 7 in., £8 5s; 6-11 ft. 2 x 7 in., £8; 12-17 ft. 2 x 7 in. unassorted, £7 10s; 18 20 ft. 2 x 6, £7 5s; 10-16 ft. 2 x 4, £6 15s; 10-18 ft. 2½ x 6½, £6 15s; 9 ft. 3 x 9, £6 7s 6d.

Following is a comparative statement of timber, &c., measured and culled at Quebec to September 19th, 1899:

	1897.	1898.	1899.
Waney white pine, cu. feet.	3,894,933	1,815,975	1,774,268
Square white pine, cu. feet.	798,665	1,060,634	587,070
Red pine, cu feet	151,865	217,708	159,937
Oak, cu. feet	1,320,163	948,044	522,178
Elm, cu. feet	662,547	474,194	456,841
Ash, cu. feet	131,964	34,735	56,546
Basswood, cu. feet	55	955	
Butternut, cu. feet	673		60
Tamarac, cu. feet	348		415
Birch and Maple, cu. feet	271,174	112,500	244,530

Homan & Puddington, in their circular of September 9th, review the New York lumber market as follows: "During the last week several cargoes of spruce randoms were sold on our market at good prices. Demand is good and likely to be better. We quote 10 and 12 inch at $18 to $19; 9, 10 and 12 inch, $17 to $18; 6, 7 and 8 inch, $15 to $16.50; and scantling, 2 x 4 and 2½ x 4, 10 to 20 feet long, $14.50 to $15. Laths have had quite a flurry—about 15,000,000 came in, and about all sold at all kinds of prices, ranging from $2.25 to $2.75, but $2.50 is the cargo price at which bulk of receipts were sold for. We think present prices can be held for balance of season, unless shipments are greatly increased."

The result of the action of the provincial legislature in prohibiting the exportation of saw logs has been to revive the lumber industry in the Parry Sound district. Camps are already in operation in many sections. It is said that the Parry Sound Lumber Co. will take out 25,000,000 feet, of which 10,000,000 feet has already been contracted for. The company will put in two camps at Deep Bay and Blind Bay, both in the township of Carling. In addition to these two camps, the company will let contracts to a number of jobbers. Wm. Peters has four camps in operation, two in Christie township and two in Spence. He will take out about 20,000,000 feet of logs. The Conger Lumber Co. have two camps in operation in Conger township, employing about 130 men. Their cut has been placed at 11,000.000 feet of logs.

It is a little early yet, says the Fredericton Gleaner, to make a definite estimate as to the cut this coming season upon the St. John river in New Brunswick, but the following may be considered a pretty accurate forecast of the amount to be cut upon the upper St. John river: W. J. Nobles and Robt. Nobles, for Cushing, 10 to 12 million feet; Guy McCallum, for C. F. Woodman, 5 to 6 million; John Kilburn, for W. H. Murray, 8 to 10 million; Silas Dickie, for Stetson, 5 to 6 million; John Stevens, for E. L. Jewett, 2½ to 3 million; J. A. Morrison, 3½ to 4 million; Cunliff & Sons, 7 to 8 million; Neil McLean, 3 to 4 million; John R. McConnell, for Ashland Lumber Co., 10 to 12 million; F. H. Hale, 8 to 10 million; R. A. Estey, 4 to 5 million; Adam Beveridge, 2 to 2½ million; Geo. Baird, 2 to 3 million; D. McKeswick, 2 million; various other small operators, 10 million.

MANY REPLIES.

Mr. Silas H. Jacobs, saw miller, of Huntsville, Ont., gives his opinion of the WEEKLY LUMBERMAN as an advertising medium in these words: "I was flooded with letters in answer to the advertisement I placed in THE LUMBERMAN." No better proof is wanted that the advertising pages are carefully read.

BUSINESS NOTES.

W. Barrill, sash and door manufacturer, Montreal, is reported to have filed consent of assignment.

On September 7th the lumber and coal yards of the John W. Young & Sons Co., at White Plains, N. Y., was sold by auction, the purchaser being N. M. Smith, of New York, and and the purchase price $32,700. The lumber and yard of the same company at Tuckahoe, N. Y., was sold to Chas. Dusenberry, jr., for $12,250.

The saw mill of Robert Prestly, at Ashton, Ont., together with the lumber yard, was completely destroyed by fire on September 11th. The loss is estimated at $18,000, with no insurance.

GLASGOW PRICES.

Messrs. Wright, Graham & Co., Glasgow, quote the following prices for Canadian deals and boards :

QUEBEC WHITE PINE DEALS.—1st quality, broad— £24 15s to £26 2s 6d, per St. Pet. std.; 11 in., £21 13s to £23 14s ; 7" to 10" and ends, £16 10s to £19 5s. 2nd quality, broad—£18 4s 4d to £19 5s ; 11 in., £15 16s 3d to £17 3s 9d ; 7 in. to 10 in., £12 7s 6d to £13 15s. 3rd quality, broad—£10 6s 3d to £11 ; 11 in., £9 12s 6d to £9 19s 4d ; narrows, £7 4s 4d to £8 5s. 4th quality, broad—£7 11s 3d to £8 5s ; 11 in., £6 10s 7d to £7 4s 4d ; narrows, £6 3s 9d to £6 10s 7d.

RED PINE DEALS.—9 and 11 in., £9 to £11 per St. Pet. std.; narrows, £8 to £8 10s.

QUEBEC WHITE PINE BOARDS. — First quality—2 in thick, averaging 12 in. to 15 in. wide, £17 10s to £19 11s per St. Pet. std.; 1½ in., 12 to 15 in., £16 16s to £19 ; 1¼ in., 11 to 13 in., £16 10s to £18 11s ; 1 in., 10 to 12 in., £15 2s 6d to £16 10s ; 1½ and 2 in. strips, 4 to 7 in., £14 8s 9d to 16 10s. Second quality—2 in. thick, 12 to 14 in. wide, £13 1s 3d to £15 9s 4d ; 1¼ and 1½ in., 12 to 14 in., £12 7s 6d to £14 8s 9d ; 1 in., 10 to 12 in., £11 13s 9d to £12 14s. Third quality—2 in., 11 to 15 in., £8 18s 9d to £11 ; 1, 1¼ and 1½ in., 10 to 14 in., £7 4s 4d to £9 12 6d.

SPRUCE DEALS.—The import is large, but the demand continues good, and prices keep firm. Prices quoted—£6 3s 9d to £7 11s 3d for third quality; and £5 16s 10d to £6 14s for fourth quality.

ST. JOHN, N. B., PINE DEALS.—£6 3s 9d to £8 18s 9d per St. Pet. std.

SPRUCE DEALS.— (2nd quality average), £6 3s 9d to £7 18s 1d per St. Pet. std.

BIRCH LOGS.—1s 4d to 1s 9d per cu. foot for 14 in. and up average.

BIRCH PLANKS.—£6 17s 6d to £8 5s per St. Pet. std., according to specification.

Cameron's saw mill at Petitcodiac, Westmorland county, N. B., was burned recently.

The cooperage shop of W. Lyons, of Lucknow, Ont., was destroyed by fire last week.

SHIPPING MATTERS.

From St. John, N. B., we learn of the following charters : Str. Bogstad, 1,981 tons, Liscombe, N. S., to Cardiff, 50s ; bark Nordstrand, 1,085 tons, Campbellton, N. B., to w.c. England, deals, 42s 6d, October loading ; bark Queen of the East, 1,135 tons, St. John, N. B., to Rotterdam, deals, 45s, November loading ; bark Glenafton, Annapolis, N. S., to Buenos Ayres, $10 ; bark Golden Horn, Musquash, N. B., to w.c. England, deals, 45s.

Concerning the freight market Messrs. R. P. Rithet & Co., of Victoria, B. C., say : We make no change in our lumber quotations, but the figures given may be taken as nominal, owing to the scarcity of vessels. The usual lumber carriers are nearly all under charter for months to come. From British Columbia or Puget Sound points rates are as follows : To Sydney, 45s to 46s 3d ; Melbourne or Adelaide, 52s 6d to 53s 9d ; Port Pirie, 50s to 51s 3d ; Freemantle, 63s 9d to 65s ; Shanghi, 53s 9d to 55s ; Kiao-Chau, 55s to 56s 3d ; Tientsin, nominal ; Valparaiso, f. o., 50s to 51s 3d ; South Africa, 63s 9d to 65s : U. K. or Continent, 70s to 72s 6d.

Sydney Wood's saw mill at Digby, N. S., was destroyed by fire on the 17th inst. The loss is $7,000, and the insurance $2,500.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., SEPTEMBER 27, 1899 No. 36.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department. Address, CANADA LUMBERMAN, Toronto.

WANTED.

TO BUY A GOOD SECOND HAND SAW MILL of capacity about 20,000 feet per day. Apply to GODERICH LUMBER CO., Goderich, Ont.

WANTED.

LOT OF BASSWOOD OR SPRUCE BOLTS, six inches and up in diameter, forty inches long. Quote lowest cash prices. J. F. STENGEL, Ellicott Square, Buffalo, N.Y.

FOR SALE.

JAMES D. LACEY & Co., 1200 Old Colony Building, Chicago, Illinois, U.S.A.

CURRENT TRADE CONDITIONS.

ONTARIO.

Beyond an increase in the number of inquiries for shingles and lath, the lumber market has not changed since last issue. Pine stocks of all grades are being contracted for, and before the sawing season of 1900 shall open, there will be very little stock in the hands of manufacturers. This opinion, now common, is causing operators to direct their efforts towards securing a large production of logs this winter. The Georgian Bay mills will be operated to their full capacity next season, and it is possible that new mills will be erected by Michigan lumbermen owning limits on the Georgian Bay. A report from Saginaw states that many of the Michigan lumbermen are making arrangements to put in camps on their limits in Ontario, and if not allowed to export the logs, will manufacture them on this side. The Central Lumber Co. have already sent men to the Blind river, notwithstanding that they now have about 10,000,000 feet of logs stored on the river.

Some of the hardwood mills are closing down for the season, having cut their supply of logs and disposed of their production. Dealers report that there is actually no hardwood lumber of any account to be purchased.

QUEBEC AND NEW BRUNSWICK.

The high freight rates from Canadian ports have had an effect upon lumber chartering, and it is probable that some goods intended to be shipped this fall will be held over for spring shipment. The insurance rate is now equal to about 10s per standard, and at present prices for lumber it is almost impossible to pay this, together with other charges, and make a reasonable profit. There is a considerable quantity of lumber which must go forward from the St. Lawrence during October, and this will engage the attention of shippers almost exclusively for the balance of the season. Local trade in Quebec is rather quiet, but some shipments are being made to the Eastern States. In New Brunswick and Nova Scotia the trade is in a prosperous condition. More than the usual number of vessels have loaded at Nova Scotia ports for South America, and last week a cargo of lumber was shipped from St. John to Australia. In another column will be found the figures showing shipments of lumber from the port of Miramichi up to August 31st. It will be seen that all classes of lumber compare favorably in quantity with the shipments of last year. The total shipments from the province, however, have been considerably heavier this season, as last year more vessels lumber laden sailed from Miramichi than for several years previous, while the shipments from St. John and from the provincial ports generally showed a substantial falling off as compared with previous years. There is some lumber yet to forward to Great Britain, but the quantity is not large.

MANITOBA AND BRITISH COLUMBIA.

Reports from Manitoba, the Territories and British Columbia tell of a steadily increasing trade in lumber and of difficulty in keeping pace with orders. In addition to large building operations, there are under construction in the province of Manitoba over three hundred miles of railway, which is consuming a large

quantity of material. The only change in prices is an advance of 10 cents per thousand on all thicknesses of British Columbia shingles. The demand this season has been heavy, and the manufacturers felt that with the increased cost of shingle bolts, the conditions warranted the advance made.

UNITED STATES.

For the first week for several months no advance in the price of lumber has been made in any market. While some grades of lumber may advance during the winter months, the general opinion is opposed to a further advance at the present time. The movement of lumber from the upper lakes to the Eastern States has been restricted on account of high freights, $4 being the ruling quotation from Duluth to Buffalo and Tonawanda. At Buffalo there is a continued scarcity of all grades of cutting up pine, while mill culls sell at the exceptional figure of $15.50. The lath trade is improving, and dealers are selling plenty of stock at $3.90 for 1½-inch No. 1 white pine, $3.75 for mixed No. 1 and No. 2, and $3.50 for straight No. 2. Inch sells at $3.75. The stock of hardwoods has practically passed out of first hands, and, judging from present indications, there will be a shortage for manufacturing purposes.

FOREIGN.

As the autumn approaches the lumber market in Great Britain shows an upward tendency. Prices are strengthening, and holders of stock report a heavy demand. All advices are to the effect that spruce prices are likely to go considerably higher, and that there is a scarcity of that lumber. St. John deals are selling in the Liverpool market at about £6 15s c.i.f., but as high as £7 has been paid at the out-ports. At London several sales of third quality spruce have been made at 5s to 10s advance upon earlier contracts. Pine deals are slightly stronger, but for some reason the improvement in these bears little relation to that which has taken place in spruce. It may be expected, however, that owing to high freight rates prices will harden considerably in the near future. In Scotland Canadian goods are becoming more in favor. A cargo of Quebec red pine deals, 9×4, is reported to have been sold at Glasgow at 18d per cubic foot, while some 7,000 spruce deals, 9×11×3, have been contracted for at Greenock at £8 8s per standard.

An improved demand is reported from Australia. This country was a few years ago a large consumer of Pacific coast lumber, and from present indications a large volume of trade may be expected from that quarter in the near future. From South America comes the report of renewed activity in building and an increased consumption of lumber.

STOCKS AND PRICES.

No. 1 lath is quoted at Michigan points at $3.75 and No. 2 at $3.50.

Rhodes, Curry & Co., of Amherst, N. S., have just received a cargo of hard pine from Richmond, Va.

The barks Trinidad and W. W. McLauchlan loaded lumber at Annapolis, N, S., last week for South American ports.

J. I. & Freeman Goodman, of Hopewell Hill, N. B., have just finished sawing a brow of logs containing 1,300,000 feet.

The steamer Mimac sailed recently from Parrsboro, N. S., for Liverpool, Eng., with 2,391,765 feet of deals, shipped by W. M. Mackay.

This season Senator Wood has loaded with lumber twelve vessels, six at Cape Tormentine, three at Shediac, N. B., and three at Gaspe, Que.

The first steamer to load lumber at Richibucto, N. B., is now taking on a cargo of deals there. She will carry about 1,300 standards.

The Conger Lumber Co., of Parry Sound, Ont., last week loaded the vessel Ed. Kelly with 1,200,000 feet of lumber, for shipment to Philadelphia.

The ship Akershus cleared from St. John, N. B., for Melbourne, Australia, with a cargo of over 1,000,000 feet of lumber, shipped by A. Cushing & Co.

Gunter Bros., of Fredericton, N. B., expect to cut about 3,000,000 feet of logs this winter upon the New Brunswick Railway Co.'s lands on the Restigouche river.

Walker & Dockwook are about to engage in the manufacture of hub blocks at Tweed, Ont., and are prepared to purchase 10,000 oak blocks 10 inches in diameter and upwards.

D. S. Collins, manager of the Fossil Flour Co., Bass River, N. S., is reported to have purchased a lumber property in West Virginia, and purposes sending some Nova Scotia parties to superintend operations.

The Golden Lumber Co., of Golden, B. C., have decided to operate their Cedar creek timber limit, on which there is some of the finest timber in the province. The company will also have a camp this winter on their limit at Spilimachene.

It is reported that Clarke Bros., of Bear River, N. S., have purchased a valuable timber property in the Annapolis valley. This firm have just chartered two vessels to load lumber, one for Buenos Ayres and the other for Cienfuegas, Cuba. They will shortly ship a cargo to Trinidad.

Following is a comparative statement of timber, &c., measured and culled at Quebec to September 26th, 1899 :

	1897.	1898.	1899.
Waney white pine, cu. feet.	4,009,856	3,815,975	1,774,268
Square white pine, cu. feet.	821,006	1,060,034	587,070
Red pine, cu feet	153,228	217,708	159,937
Oak, cu. feet	1,369,206	948,044	522,178
Elm, cu. feet	662,547	474,194	456,841
Ash, cu. feet	132,009	34,735	56,546
Basswood, cu. feet	55	955	
Butternut, cu. feet	673		60
Tamarac, cu. feet	396		415
Birch and Maple, cu. feet	271,174	112,500	244,530

At Fredericton, N. B., last week six timber berths were sold by the Crown Lands Department, as follows : Kedgewick river, above Clearwater brook, 2 miles, sold to A. E. Alexander, at upset price ; Black brook, branch of Rockwell stream, 2 miles, to John Barry, at $23 per mile ; head of Thorn's and Rider's brooks, 2 miles, to John E. Moore, at $8.25 per mile ; north branch of Cain's river, 3 miles, to W. R. McCluskey, at upset price ; south-east of Gaspereaux river, 3 miles, to Daniel Duffy, at upset price ; Big Forks, Salmon River, 2 miles, to Daniel Duffy, at $8.50 per mile

At a recent auction sale held by Churchill & Sim, London, Eng., birch planks, ex London City, from Halifax, N. S., sold as follows : 9-15 ft., 4 x 10-12 in., 1s 1d : 4-15 ft., 4 x 7, 10½d ; 8-19 ft., 3½ x 7-16, 10½d ; 5 15 ft., 3 x 10-13, 1s ; 4-17 ft., 3 x 8, 10½d ; 6-16 ft., 2½ x 12-14, 1s ; 7-17 ft., 2½ x 10, 7d ; 4-15 ft., 2½ x 8, 9½d ; 4-17 ft., 2 x 10-12, 1s 2d ; 4-15 ft., 2 x 8, 1s 1d ; 8-16 ft., 2 x 6-7, 1s. A small quantity of pine, ex Yola from Montreal, sold as follows : 11-16 ft., 3 x 5-10 in. first and second quality, £8 5s ; 10-16 ft., 3 x 10 third quality, £8 5s ; 9 16 ft., 3 x 8, £7 10s ; 10-16 ft., 3 x 7, £7 10s.

Writing under date of September 9th, Messrs. Douglas L. White & Co., of Albany, N. Y., say : We enclose quotations as adopted at a meeting of dealers held this week. A further advance may be looked for before close of season on account of the scarcity of boats and cars and advanced freight. To cover cost of replacing stocks at prevent high prices and high freights at Western and Canadian mills, advanced prices are necessary. The increased consumption and urgent demand for lower grades of pine and spruce for immediate delivery present any accumulation of stocks, and advanced prices of the better grades are required to replace old stocks. The difficulty of moving lumber from Michigan and Canada is increasing all the time, owing to the rush in shipments of pulp, ores, iron and all products.

The lumber market at Boston has not changed since last issue. Spruce and hemlock are firm, and spruce shingles are in particularly good request. Prices are as follows : Spruce frames, nine inches and under, $17 ; 12 inches and up, $18 ; 10 and 12 inch randoms, 10 feet and up, $17.50 ; 2 x 3 and 2 x 4, 2 x 5, 2 x 6, 2 x 7, and 3 x 4, 10 feet and up, $15 ; other randoms, $16.50 ; merchantable boards, $14 ; out boards, $12 ; extra spruce clapboards, $29 to $31 ; clear, $27 to $28 ; second clear, $24 to $26 ; laths, 1⅝ in., $2.65 ; laths, 1½ in., $2.50 ; eastern hemlock, $13.50 to $14.50, with ususal advance for over 16 feet ; eastern boards, $13 to 15 ; No. 1, $12 to $13 ; planed one side and matched, $15 to $16 ; extra cedar shingles, best brands, $3.10 to $3.25 ; clear, $2.75 to $2.85 ; second clear, $2.25 to $2.40 ; clear white, $2 ; extra No. 1, $1.50 ; extra pine clapboards, $34 to $36 ; clear, $30 to $33 ; second clear, $28 ; less than carloads, $1 to $1.50 more.

SALE OF CANADIAN LUMBER.

Messrs. W. & L. Crowe, Dublin, Ireland, held their annual sale of wood goods on Wednesday, September 13th. The bidding for Miramichi spruce deals ex Platea was very brisk, and all the lots were sold at satisfactory prices. Quebec spruce was also in good demand, but there were very few bids for floorings and matchings. The prices given below are per Dublin standard of 120 pieces, 12 ft. 9 x 3, or 3,240 superficial feet.

SECOND QUEBEC SPRUCE.—12 ft., 9 x 3, £13 and £13 2s. 6d. ; 13 ft., 9 x 3, £13 ; 14 ft., 9 x 3, £13 10s. ; 12 ft., 11 x 3, £13 10s. ; 10 ft., 8 x 3, £12 7s. 6d. ; 10 ft., 7 x 3, £12 7s. 6d. ; 12 ft., 7 x 3, £12 10s. ; 13 ft., 7 x 3, £12 10s. ; 14 ft., 7 x 3, £12 12s. 6d.

THIRD QUEBEC SPRUCE.—12 ft., 9 x 3, £12 7s. 6d. ; 11 ft., 9 x 3, £12 7s. 6d. ; 13 ft., 9 x 3, £12 5s. ; 14 ft., 9 x 3, £12 12s. 6d. ; 12 ft., 11 x 3, £12 10s.

FIRST QUEBEC SPRUCE.—12 ft., 9 x 3, £17 5s.

FIRST QUEBEC PINE.—12 in. x 3 in., £40 ; 13 in. x 3 in., £40 7s. 6d. ; 18 in. to 27 in. x 3 in., £46 5s.

MIRAMICHI SPRUCE.—10 ft. and 11 ft., 9 x 3, £12 7s. 6d. ; 12 ft., 9 x 3, £12 7s. 6d. ; 13 ft., 9 x 3, £12 7s. 6d. ; 14 ft. to 19 ft., 9 x 3, £12 12s. 6d. ; 20 ft., 9 x 3, £13 12s. 6d. ; 21 ft., 9 x 3, £15 ; 22 ft. to 24 ft., 9 x 3, £15 10s. ; 25 ft., 9 x 3, £15 15s. ; 26 ft. to 28 ft., 9 x 3, £17 7s. 6d. ; 10 ft. and 11 ft., 11 x 3, £12 10s. ; 12 ft. to 15 ft., 11 x 3, £12 15s. ; 16 ft. to 18 ft., 11 x 3, £12 12s. 6d. ; 19 ft., 11 x 3, £12 15s. ; 20 ft., 11 x 3, £13 5s. ; 11 ft. to 14 ft., 7 x 3, £12 5s. ; 18 ft., 7 x 3, £12 12s. 6d. ; 21 ft. to 25 ft., 7 x 3, £13 2s. 6d. ; 12 ft. to 20 ft., 6 x 3, £12 ; 10 ft. to 15 ft., 7 x 2, £12 2s. 6d. ; 16 ft., 7 x 2, £12 10s. ; 18 ft. to 24 ft., 7 x 2, £12 15s. ; 10 ft. to 12 ft., 9 x 4, £13 ; 13 ft. and 14 ft., 9 x 4, £13 7s. 6d. ; 16 ft., 9 x 4, £13 10s. ; 15 ft. and 16 ft., 7 x 4, £13 ; 21 ft. to 24 ft., 7 x 4, £14 5s.

NEW BRUNSWICK SHIPMENTS.

The following figures show the shipments of wood goods from the port of Miramichi, N. B., up to the end of August, and a comparison with last year :

BRITISH COLUMBIA SHINGLES.

The British Columbia Shingle Manufacturers' Association have issued a new price list on red cedar shingles, making an advance of 10 cents per thousand on No. 1 quality. The quotations delivered to dealers in Ontario are as follows: No. 1 shingles, six butts to two inches, $2.65; No. 2, five inch clear, $2.25; No. 1, six butts to 2 5/8 inches, $2.80; No. 1, five butts to two inches, $3.05. For plain dimension shingles add to above prices 50 cents, and for fancy butts $1.

SCARCITY OF COOPERAGE STOCK.

As the season advances the scarcity of cooperage stock becomes more apparent. Writing of the prevailing conditions in the United States and Canada, the Sutherland-Innes Company, of Chatham, say:

"The millmen have not been able to get in a supply of logs during the summer months for to keep their mills running. The consequence is that the majority of the mills are closed down for lack of raw material, and their stocks of manufactured material have almost entirely vanished.

"In the Northwest the prices on staves and hoops have advanced considerably during this month. While the price on No. 1 elm staves is nominally $7 per net M f.o.b. cars Minneapolis, we know of $7.15 per net M having been refused for No. 1 28½ inch staves during this week. The buyers were willing to pay $7.15, but the sellers were not willing to sell at less than $7.25. We should say that $7.25 is the market price in Minneapolis at the present time, but it is a question if there will be many sellers at this figure. While the coopers claim they can obtain elm hoops at $6.75 to $7, we believe that $7.50 is about the market price for hoops at Minneapolis. These figures also apply to the head of the lakes.

"The eastern trade has brightened up very much of late, the demand for apple barrel material being very heavy. Apple barrel staves are quoted at Buffalo from $5.75 to $6, $6 being about the market price for small lots, and $5.75 for carload lots.

"Patent coiled elm hoops have gone almost out of sight on the eastern market, $8.50 to $9 being the price of 6 foot hoops at Buffalo, with other sizes in proportion.

"Heading has also taken an advance on the eastern market ¼c. per set, and the only trouble is to supply the coopers with all the stock they want. It is difficult to say to what price hoops will go this season. We should not be surprised to see 6 foot hoops at $10, on the basis of Buffalo prices. Apple barrel staves are getting scarce, as the quantity manufactured was only very small, and they are likely to go very much higher in price.

"The market at the present time is a rising one on all classes of cooperage material in the slack barrel line, and it is a question where the prices will go before the end of the season, as manufacturers are very cautious about selling anything ahead at present, as they are doubtful about being able to get the stock to fill orders for future delivery."

FIRES.

The shingle mill of Alexander Johnson, near Cloverdale, B.C., is reported to have been destroyed by fire.

The saw and planing mill of the Digby Manufacturing Co., at Digby, N.S., was burned a few days ago. The mill contained a rotary saw and a complete equipment of planing and moulding machinery. It was owned by Mr. Sydney Wood, who will probably rebuild.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., OCTOBER 4, 1899 No. 37.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.—A few thousand set of Basswood Heading, No 1, mill run, and No. 2, 17½. For particulars apply to GEO. M. EVERST, Arkona Basket Factory.

FOR SALE.—Saw and Planing Mill, 40 h.p., doing a good local and shipping trade. The above will be sold at a reasonable figure. KECHTEL & YOUNG, Turtle Lake, Parry Sound District.

WANTED.

TO BUY A GOOD SECOND HAND SAW MILL of capacity about 20,000 feet per day. Apply to GODERICH LUMBER CO., Goderich, Ont.

FOR SALE.

BIRCH FLOORING, KILN DRIED, HOLLOW backed, butted and bundled—suitable for factories, workshops, etc. The KNIGHT BROS. CO., Burks Falls, Ont.

FOR SALE.

TWO CARS OF ROCK ELM HAME WOOD, 1¼ in x 2 in. and 2 in. x 2½ in., 29 in. long, about equal quantity of each size. Address, BONNELL BROS., Hoath Head P.O., Ont.

FOR SALE.

60 M FT. 1 INCH BEECH; 40 M FT. 1½ INCH Beech; 8 M ft. 2 inch Beech, common and better, cut last winter. Delivery on cars at Shallow Lake and Wiarton. Write J. E. MURPHY, Hepworth Station, Ont.

WANTED TO BUY.

A SAW MILL PLANT THAT IS IN GOOD running order and will be sold at a Bargain with plenty of Timber near Mill—something under $8,000.00 (Eight Thousand Dollars)—in or east of Peterborough County, Ontario. Address, "BUYER," care CANADA LUMBERMAN, Toronto.

FOR SALE—CEDAR, WHITE PINE AND FIR

$200,000 WILL BUY 250,000,000 FEET of magnificent Cedar, White Pine and Fir in British Columbia, averaging 75 per cent. Cedar, 15 per cent. White Pine and 10 per cent. Fir. Above stumpage is located in solid body on navigable water tributary to Canadian Pacific Railway, and can be sold in FEE SIMPLE, being exempt from usual Crown dues. Write us for full particulars. JAMES D. LACEY & Co., 1202 Old Colony Building, Chicago, Illinois, U.S.A.

EXTENSIVE

LUMBER LANDS FOR SALE

32,000 ACRES Spruce Lumber Lands at Liscombe, N.S.

TENDERS WILL BE RECEIVED BY THE undersigned up to and including the 24TH DAY OF OCTOBER for the lumber lands and interest in lumber lands on Liscomble River, in the County of Guysborough, in the Province of Nova Scotia, owned by the heirs of the late James Miller, consisting of about 7,00- acres owned outright, and an undivided interest from half to three quarters in about 25,000 acres, all conveniently situated, heavily timbered, and together constituting one of the most extensive and valuable lumber properties now on the market.

Tenders are to be addressed "Miller Tender," care A. P. Barnhill, Solicitor, 39 Princess Street, St. John, N.B.

The highest or any tender not necessarily accepted, and the property may at any time be withdrawn and all tenders declined.

Further particulars may be had on application to the undersigned.

Dated this 21st day of September, 1899.

A. P. BARNHILL.

AUCTION SALE OF VALUABLE

Timber Berths

AT THE ROTUNDA OF THE BOARD OF TRADE, TORONTO, ON

Tuesday, October 24th Next,

AT 2 P. M.

Timber Berths Nos. 94, 98, 99, and 102

(North Shore of Lake Huron District), and known as the Townships of

Trill, Ermatinger, Foster, and Nairn

on the Spanish River and tributaries.

TRILL and ERMATINGER will be sold in single Berths of 36 square miles each, and FOSTER and NAIRN in 9 square mile parcels of N.W. ¼, N.E ¼, S.W. ¼, and S.E. ¼, respectively.

These Berths have never been operated on, and are heavily timbered with superior

PINE AND OTHER WOODS.

For terms of sale, maps and other particulars apply to E. R. C. CLARKSON, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

BY INSTRUCTIONS FROM BARNET & MACKIE

At the termination of the sale of the Comstock Timber Berths I will offer for sale

Timber Berths Nos. 5 and 6,

Township of Butt, being 11¼ and 11 Square Miles respectively, in single berths.

The logs from these Berths can be driven to the Georgian Bay by the Magnetawan.

For further particulars apply to A. BARNET, Renfrew.

PETER RYAN.

Saw Mill for Sale

Well situated in the rapidly growing CITY OF VANCOUVER, B.C.; consisting of valuable freehold property, with modern well equipped Mill, having a capacity of about 75,000 feet per day of ten hours.

Also about 10,000 Acres of good

Timber Limits

INCLUDING

DOUGLAS FIR, SPRUCE and RED CEDAR

Easy of access and can be cheaply logged.

For price and terms apply to

The BRITISH COLUMBIA LAND & INVESTMENT AGENCY, Limited,
VANCOUVER or VICTORIA, B.C.

WANTED.

LOT OF BASSWOOD OR SPRUCE BOLTS, six inches and up in diameter, forty-eight inches long. Quote lowest cash prices. J. F. STENGEL, Ellicott Square, Buffalo, N.Y.

FOR SALE—STEAM SAW MILL,

WITH PLANER AND SHINGLER, IN operation, near C.P.R. line to Labelle, P.Q. Capacity 12,000. Plenty of Spruce and Birch available at lowest prices. Good local trade. Everything first class. Apply c/o E. DESBARATS ADVERTISING AGENCY, Montreal.

SAW MILL FOR SALE.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

FOR SALE

TORONTO LUMBER BUSINESS AND PLANing Mill, Dry Kiln, etc. Splendid complete outfit, large business now done.

Substantial part of purchase money may remain invested if desired by purchaser. Apply,

DENTON, DUNN & BOULTBEE, Solicitors,
Temple Building, Toronto.

NEW RRUNSWICK CEDAR SHINLGES.

Cedar shingles are growing scarce at producing points, many of the manufacturers being out of logs and closed down until next spring. The close of the sawing season has left only small stocks at the mills, as the demand has practically taken care of the production throughout the summer. It can only be a short time before there must be a marked shortage in the supply, and then manufacturers who are lucky enough to have a few cars left over from their season's sawing can readily realize their own figures. The demand is good, better than it has been for two months. Competitive shingles, such as Michigan and Ontario cedar and pine are in very scant supply, and the New Brunswick and Maine operators who can supply the demand have prices in their own hands. Ruling quotations are, delivered on Boston rates: Extras, $3.15 to $3.25; clears, $2.70 to $2.80; 2nd clears and clear whites, $2.20 to $2.35.

CURRENT TRADE CONDITIONS.

ONTARIO.

In every part of the province lumber of all kinds is moving actively. The fall demand from retail dealers has presented itself within the past week, and at the same time numerous representatives of United States houses have visited the mills on this side in search of stock. Not for many years have the yards been so thoroughly cleaned up at the close of the sawing season. Prices have stiffened slightly, and in the lower grades some advances have been made. At Toronto the wholesale price of 1×10 and 12 mill culls is $10.50 to $11, 1-inch siding mill culls $9.50 to $10, and inch siding ship culls $11.50 to $12. These grades have advanced 50 cents within the past week. Inch fine dressing and better is also higher, being quoted at $22 to $23 The exceedingly high price of mill culls is the subject of much comment by the trade. United States dealers have paid $8 per thousand for mill culls f.o.b. cars at Georgian Bay points. To this must be added $2 for duty and about $4 for freight, making the cost of the lumber delivered in the Eastern States about $14 per thousand. Much of this lumber, no doubt, is being used for the manufacture of boxes. Hardwood prices have remained almost stationary for some time. A slight advance has been made on maple of first and second quality.

Shingles and lath continue to be much inquired for. XXX pine shingles, 16-inch, sell at $2.60 wholesale, and XX at $1.70. No. 1 lath is quoted at $2.60 at Toronto and No. 2 at $1.75, with an upward tendency.

QUEBEC AND NEW BRUNSWICK.

There are indications that the shipping season is drawing to a close. The excessive freight rates and insurance charges may terminate the season earlier than usual. European trade is quiet, although regular shipments are being made to the United States, the market there for clapboards, shingles and other eastern pro-

ducts having greatly improved of late. Upon Boston rate of freight extra cedar shingles are now quoted at about $3.15 to $3.25. From New Brunswick and Nova Scotia heavy shipments of lumber are being made to South America, from which quarter a heavy demand has lately arisen. In Quebec there have been heavy rains, but in New Brunswick the lumbermen are meeting with difficulty owing to their logs being hung up on account of low water.

UNITED STATES.

Peculiarly favorable conditions characterize the lumber trade of the United States. Notwithstanding the many advances in price lists which have been made, there is a tendency to mark prices still higher. Freight rates from Lake Superior to the Eastern market have now reached $4.50, which dealers are paying very reluctantly. In the face of this and of the acknowledged shortage in lumber, there is little fear of any break in prices before the spring of 1900 at least. Some of the best authorities state that the stocks of lumber on hand at the opening of the new year will be the lightest known in years. In the Tonawanda market there is a tendency on the part of dealers to advance prices on box lumber and No. 3 barn, of which there is a decided shortage, while mill culls are nowhere to be found in any quantity. In the Saginaw valley log run ranges from $16 to $25, box from $15 to $16, Norway from $12 to $18, and mill culls from $12 to $14. Hemlock has undergone an advance of one dollar per thousand at Buffalo and New York, being quoted at the base price of $13.50 and $16 at the respective points. Hardwoods have not changed. Canadian hardwood lumber, such as ash, elm, basswood and maple, is eagerly sought for, and at prices if anything higher than quotations of one week ago. White ash is quoted at Boston at $45 for 1-inch, $50 for 1¼ and 1½, and $55 for 2-inch. One-inch maple sells at $27, 1¼-inch at $29, 1½-inch at $30, 2-inch at $31, and 3 and 4 inch at $37.

Lath is still strong, white pine selling at Chicago at $4 and dry mixed at $3.75. In the Saginaw valley quotations are $3.50 and $3.75. Shingles are selling at Buffalo on a basis of $4 for best 18-inch white pine, $3.75 for red cedar, and $3.70 for white cedar.

FOREIGN.

The reports from the British market are of an encouraging character. Prices are advancing, and importers who purchased at high prices now feel confident that they will be able to make a fair margin of profit, thanks to the high freight rates and insurance charges. Spruce in particular is strengthening. A cargo of 800 standards, from Grindstone Island, Que., was sold about the middle of September at £6 15s per standard to a west coast buyer, and probably £7 is about the average selling quotation at the present time. Less than one month ago sales were made as low as £6 12s, which gives a fair idea of the rapidity of the advance. Some merchants are storing stocks of spruce, upon the belief that by the new year a shortage will develop in this class of lumber and that high prices will rule. At present the high values have a tendency to check business, but as the consumers satisfy themselves that the advance is to be maintained, business will resume its normal condition. While the pine demand is not as strong as spruce, there are evidences of firmness in that market.

France and Germany are reported to be buying considerable lumber, but prices are not altogether satisfactory. The South American demand appears to be steadily expanding, while in Australia the trade has shown a slight improvement, although no advance in price has been made.

The barque Baldwin sailed from Bear River, N.S., for Buenos Ayres last week, with a cargo of lumber, shipped by Clarke Bros.

The steamer Darwent Holme is loading A cargo of deals at Quebec for Honfleur, France, consigned by McLean, Kennedy & Co.

STOCKS AND PRICES.

Taylor, Scott & Co., Toronto, want five cars of inch soft maple lumber.

The Imperial Lumber Co., of Toronto, are reported to have purchased the Booth & Gordon stock of lumber at Sudbury, Ont.

The Hanbury Manufacturing Co., of Brandon, Man., will get out about 12,000,000 feet of logs this winter, chiefly of spruce and tamarac.

The Harbor Commissioners of Montreal are inviting tenders for the annual supply of timber and planks for the year 1900. The date limit is October 9th.

On September 25th the booms at the mouth of the Gatineau river gave way, and about 150,000 logs belonging to Ottawa lumbermen went adrift in the Ottawa river.

Peter Wallace, of Midland, Ont., has gone to Eighteen Mile Island, French River, where he will cut about 2,000,000 feet of logs for Chew Bros., of Midland. He has a contract to cut all the timber on the island in three years.

M. P. Kinsella, representing the Gilmour Company, of Trenton, Ont., has placed an order with J. D. Carew, of Lindsay, for 100,000 feet of dimension lumber and about 400,000 feet of hemlock and pine. The stock will be shipped to Trenton.

The Department of Indian Affairs at Ottawa invites tenders up to October 12th for 500,000 feet of standing spruce timber on the Crane river Indian Reserve, on the north-west side of Lake Manitoba. The timber is subject to Crown dues of 80 cents per thousand feet.

Following is a comparative statement of timber, &c., measured and culled at Quebec to October 3rd, 1899 :

	1897.	1898.	1899.
Waney white pine, cu feet.	4,122,403	3,815,975	1,778,504
Square white pine, cu. feet.	822,286	1,060,634	591,324
Red pine, cu feet	210 491	239,3 9	159,937
Oak, cu. feet.....	1,408,471	948,044	522,178
Elm, cu. feet.....	662,547	474,194	45 ,841
Ash, cu. feet.....	132,325	34,735	56,546
Basswood, cu. feet	5		
Butternut, cu. feet	673	955	.60
Tamarac, cu. feet	396		4 5
Birch and Maple, cu. feet..	271,174	12,500	244,530

Owing to the recent heavy rains, the boom at the St. Maurice Lumber Co.'s mill at Three Rivers, Que., broke on September 27th, carrying away between 15,000 and 20,000 logs. Later the government booms, containing about 50,000 logs, and the immense booms of the Laurentide Pulp Co., at Grand Mere, Que., gave way, allowing about 200.000 logs to be swept out into the St. Lawrence. The loss to the owners will be quite heavy.

The Keewatin Lumber Co., of Keewatin, Ont , have experienced a very busy season, operating their mill night and day. In the winter of 1898 99 the company cut on their limits on Lake of the Woods 10,000,000 feet of logs. This, together with the timber procured from Minnesota, made a total for the year's operations of 21,000,000 feet. Some of these logs, however, will be carried over for sawing next spring before the drives arrive.

At an auction sale of wood goods held by Foy, Morgan & Co., London, Eng., on September 20th, spruce deals sold as follows : Ex Greta Holme, from Quebec—12 ft. 2 x 7 in. first quality, £9 ; 6 11 ft., 2 x 7, £8 10s ; 7-15 ft., 2 x 5, £8 10s ; 6-8 ft., 3 x 6 in., second quality, £7 5s ; 6-8 ft., 3 x 6, third quality, £6 12s 6d ; 6-14 ft., 2 x 5, £6. Ex Halifax City, from St. John—3-22 ft., 3 x 10 17 in., unassorted, £7 15s ; 3-21 in., 3 x 9, £7 10s. Some 5,000 pieces of spruce palings, 4 ft. x 3-4 x 3 in., from Miramichi, N. B., sold at 6s 3d per 120 pieces.

BUFFALO AND TONAWANDA.

[Correspondence of the CANADA LUMBERMAN.]

There is just now a rush of dealers from this side into Canada after pine lumber. The prices have gone up so high that there is a general uneasiness over the future, so it was felt that if there was anything that looked like relief across the line it was high time to go after it. This move has greatly increased the amount of lumber to come in from Canada this fall. The purchase of 20,000,000 feet by the Montgomery's at Midland and other Georgian Bay points will swell the importation, but as a rule the dealer who is after Canadian lumber is going into by-districts for it, in the hope of getting it at a more moderate price. In some cases he will succeed, for nobody is any too well posted on the condition of the market, but he will have to sit on the pile till it is on the way to his own yard in some cases. There is any amount of complaint that the saw mill man has struck a customer who will pay more for the stock and has sold it again.

One or two Buffalo dealers are looking into the law of the case and will bring suit if there seems to be any chance of recovery, but as a rule there is no remedy, for the law obliges the purchaser to prove actual damages which in many cases he is not able to do, so he takes what comfort he can in grumbling.

This matter of keeping posted on the condition of the market is no small source of wonder to those who are always well abreast of it. They are always able to find dealers right at home who are continually selling their lumber at less than market prices, and doing this with no particular end in view, all because they are not posted. Others who are aware of this are sometimes afraid that too much of the situation will be given away by the trade papers. From their own standpoint this is a correct idea, but if the business as a whole is to be made the most of, the clearest and most complete view of the state of trade must be had on all sides, without reference to individual demands.

All sorts of lumber is still going up, most of it quite rapidly. The hemlock producers have been beset so terribly for stock that they could not turn out that they kept putting up the price 50 cents at a time all summer in the hope of shutting off the demand, but this had so little apparent effeet on it that they at last ordered it up one dollar, making the base price $13.50 at wholesale and $16.50 at retail. This has frightened the builders, and will have the effect of shutting out speculative building to a great extent, especially as the price of everything else in the building line is also very high.

The advance in price, next to hemlock, is in pine, which is now at fever height and is still going up. There have been meetings of dealers in both Buffalo and Tonawanda within a week to advance pine still further, though nothing has as yet been done more than to appoint committees for a general conference. It is expected that there will be representatives here or at some convenient point from all the Lake Erie markets and Saginaw in a short time for another general order of advance.

There was a general complaint all through the summer that Albany was not in line with this market on prices, and a committee was appointed to go there and confer with the trade, but before it was ready to go word was received that the prices had already been put up. Whether Albany had been taking advantage of cheaper prices from Canada, which have now been withdrawn, is mere conjecture.

The report from Canada now is that the prices on pine are for the most part fully up to ours, minus the duty, so that there is no chance of special profit there except on odd lots that may still be found here and there. Still there is going to be considerable bought there from this time on, unless the prices get too steep, for the scarcity at home is such that it is hard to find a supply of lumber that is desirable. There is no longer any chance of buying this or that just as it may happen to be wanted. The seller sells as he likes. He is in command of the situation and will not sell the cream and leave the rest on his hands. In spite of our high prices, they have all been enforced by the attitude of the producer, as a matter of self-defence. As a rule the prices are still lower than should be the case if the asking prices at the mills are made the basis, and if it were not that our sales are mostly made of lumber bought some months ago, and therefore at a price considerably lower than we can buy for now, there would be actual loss.

What is to happen when the prices come to a standstill and then begin to drop, as must be the case sooner or later? Nobody looks for such a change right away, but everybody is expecting it sometime, and there is much uneasiness in the pine trade over the prospect.

Importers and Manufacturers BOSTON, MASS.

business the confidence is greater, for the actual scarcity of practically everything is so great that no material decline is thought possible. Still, with quartered oak held for $70 and white ash about as high, there must come a time when sales will be slow.

It is expected that the Laidlaw yard will be moved to the Ohio basin in the spring and the one now occupied will be taken by the Montgomerys.

W. W. Reilley and J. B. Wall went to the Hoo-hoo conclave at Denver, but are both home again. Alfred Haines, M. M. Wall and Angus McLean went to Duluth on the Merchant's Exchange excursion. The steamer North-west took about 250 people, nearly all well known business men and their wives. Everyone was very much pleased with the trip.

F. W. Vetter and H. S. Janes are south looking after oak and ash shipments, and T. H. Wall is off to Memphis again for the winter.

BUFFALO, October 2nd, 1899. J. C.

THE BARBADOS MARKET.

Of the Barbados lumber market Messrs. Clairmonte, Mann & Co., in their last report, say:

There have been two arrivals of lumber for the fortnight, as detailed below. The demand for both white pine and spruce continues good. Last sales were: White pine, $23 50 for boards, $20 for planks of first quality, and $17.50 for second quality; spruce at $17 for first quality.

SHINGLES.—Gaspe cedar, in supply; last sales ex Golden Hind, $5.27 to $3.83 per M., as to quality; cedar laying, $2.68; spruce laying, $2.40 per M.; cypress, no late sales, worth $8.50 to $9 for 6-inch hearts, $6.50 for 6-inch saps.

Arrivals: Sch. Opal, from Yarmouth, N.S., with 24 M. feet white pine, $23.50; 24 M. second quality, $17.50; 18 M. spruce, $17; 31 M. spruce laying shingles, $2.40. Steamship Taymouth Castle, from St. John, N.B., 173 M. laying cedar shingles, sold at $2.68. Brigt. Kesultado, from Shelburne, N.S., with 82 M. feet white pine boards, sold at $23.50; 5 M. planks, at $20; 54 M. second quality boards, at $17.50; 10 M. spruce, at $17; 2 M. hemlock, at $13; 43 M. spruce laying shingles, at $2.40.

S. P. Musson, Son & Co. say: In foot-note of our last we advised the arrival of the "Stella", from Bridgewater, N.S., with 90 m. shipping, 95 m. 2nd quality white pine, which was sold at $23.50 and $17.50 respectively. There has been no further arrivals, but a couple of cargoes are on the way. In spruce we value next receipt at $17 or thereabouts. Shingles, there is nothing new to advise in long Gaspe; we learn that some 600 m. laying cedar have been bought to arrive.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., OCTOBER 11, 1899 No. 38.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.—A few thousand set of Basswood Heading, No 1, mill run. and No. 2, 17½. For particulars apply to GEO. M. EVEREST, Arkona Basket Factory.

FOR SALE.—Saw and Planing Mill, 40 h.p, doing a good local and shipping trade. The above will be sold at a reasonable figure. KNECHTEL & YOUNG, Turtle Lake, Parry Sound District.

FOR SALE.

BIRCH FLOORING, KILN DRIED, HOLLOW backed, butted and bundled—suitable for factories, workshops, etc. The KNIGHT BROS. Co., Burks Falls, Ont.

FOR SALE.

TWO CARS OF ROCK ELM HAME WOOD, 1¼ in x 2 in. and 2 in. x 2½ in., 29 in. long, about equal quantity of each size. Address, BONNELL BROS., Hoath Head P.O., Ont.

FOR SALE.

60 M FT. 1 INCH BEECH; 40 M FT. 1½ INCH Beech; 8 M ft. 2 inch Beech, common and better, cut last winter. Delivery on cars at Shallow Lake and Wiarton. Write J. E. MURPHY, Hepworth Station, Ont.

WANTED.

LOT OF BASSWOOD OR SPRUCE BOLTS, six inches and up in diameter, forty-eight inches long. Quote lowest cash prices. J. F. STENGEL, Ellicott Square, Buffalo, N.Y.

FOR SALE—STEAM SAW MILL,

WITH PLANER AND SHINGLER, IN operation, near C.P.R. line to Labelle, P.Q. Capacity 12,0 0. Plenty of Spruce and Birch available at lowest prices. Good local trade. Everything first class. Apply c/o E. DESBARATS ADVERTISING AGENCY, Montreal.

FOR SALE

TORONTO LUMBER BUSINESS AND PLANing Mill, Dry Kiln, etc. Splendid complete outfit, large busines now done.

Substantial part of purchase money may remain invested if desired by purchaser. Apply,

DENTON, DUNN & BOULTBEE, Solicitors,
Temple Building, Toronto.

EXTENSIVE

LUMBER LANDS FOR SALE

32,000 ACRES Spruce Lumber Lands at Liscombe, N.S.

TENDERS WILL BE RECEIVED BY THE undersigned up to and including the 24TH DAY OF OCTOBER for the lumber lands and interest in lumber lands on Liscomble River, in the County of Guysborough in the Province of Nova Scotia, owned by the heirs of the late James Miller, consisting of about 7,00c acres owned outright, and an undivided interest from half to three quarters in about 25,000 acres, all conveniently situated, heavily timbered, and together constituting one of the most extensive and valuable lumber properties now on the market.

Tenders are to be addressed "Miller Tender," care A. P. Barnhill, Solicitor, 39 Princess Street, St. John, N.B.

The highest or any tender not necessarily accepted, and the property may at any time be withdrawn and all tenders declined.

Further particulars may be had on application to the undersigned.

Dated this 21st day of September, 1899.

A. P. BARNHILL.

AUCTION SALE OF VALUABLE

Timber Berths

AT THE ROTUNDA OF THE BOARD OF TRADE, TORONTO, ON

Tuesday, October 24th Next,

AT 2 P. M.

Timber Berths Nos. 94, 98, 99, and 102

(North Shore of Lake Huron District), and known as the Townships of

Trill, Ermatinger, Foster, and Nairn

on the Spanish River and tributaries.

TRILL and ERMATINGER will be sold in single Berths of 36 square miles each, and FOSTER and NAIRN in 9 square mile parcels of N.W. ¼, N.E ¼, S.W. ¼, and S.E. ¼, respectively.

These Berths have never been operated on, and are heavily timbered with superior

PINE AND OTHER WOODS.

For terms of sale, maps and other particulars app'y to E. R. C. CLARKSON, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

BY INSTRUCTIONS FROM BARNET & MACKIE

At the termination of the sale of the Comstock Timber Berths I will offer for sale

Timber Berths Nos. 5 and 6,

Township of Butt, being 11¼ and 11 Square Miles respectively, in single berths.

The logs from these Berths can be driven to the Georgian Bay by the Magnetawan.

For further particulars apply to A.. BARNET, Renfrew.

PETER RYAN.

THIRTY-FIVE HUNDRED DOLLARS BUYS Saw mill worth double this amount, if taken at once; 2 Boilers 120 h.p., Engine 100 h.p., Iron Saw Frame, Three Block Carriage, 2 good Saws, Double Edger and Trimmer good as new, Slash Chain, all in good running order, run this season; size of Mill, 30×100 ft.; good Boiler House, Blacksmith Shop, House, Barn, etc.; 400 acres of good Birch and Hemlock, also thousands of acres of timber near by. For particulars, address ALLEN CRESSMAN, Berlin, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

There has been a rush of lumber shipments during the past week, owing to the desire of shippers to take advantage of water rates. Some dissatisfaction is expressed at the action of the Grand Trunk Railway in preventing the shipment of lumber from Georgian Bay points to New York via Albany and the Hudson river.

Although no actual changes in lumber prices can be reported since last issue, there are indications that slight advances will be made in certain grades before the winter basis is reached. From every direction comes the report of enquiries for lath and shingles, and at the close of the sawing season the stock of these at the mills is well nigh exhausted. Competition in buying has been extremely keen, resulting in the advanced prices now quoted. Generally trade is brisk.

QUEBEC AND NEW BRUNSWICK.

Owing to the large number of vessels chartered by the British government to transport troops and supplies to South Africa, a sharp advance in ocean freight rates has resulted, and few, if any, vessels are likely to be chartered for carrying lumber from the St. Lawrence to Great Britain this fall. Rates from Montreal rule at 47s 6d to Liverpool, 50s to London, Bristol, Manchester, Glasgow and Leith, and 55s to Dublin and Belfast. No lumber of any account excepting that contracted for will go forward. This will permit of the stocks of pine in Great Britain becoming reduced to a normal basis, as they are now said to be excessive. In New Brunswick and Nova Scotia there is very little lumber not already contracted for. The stocks of British deals have been largely bought up, and manufacturers look forward to higher prices and a brisk demand next season. There is a good enquiry for shingles and lath, the latter selling at the mill at $1.20 per thousand.

MANITOBA AND BRITISH COLUMBIA.

Manufacturers and retail dealers are busy filling orders for lumber. The farmers in Manitoba and the Territories having finished harvesting operations, they are now turning their attention to needed improvements and additions to their buildings. Besides the large country demand, no small quantity of lumber is being consumed in building work, finishing material being much enquired for. Prices, as far as can be learned, are being adhered to, with a tendency towards an advance. In British Columbia, and in fact in the entire Pacific Northwest, the lumber business is in a prosperous condition. The increased demand has caused prices to stiffen slightly, but they are not as yet high enough to leave more than a limited margin of profit for the manufacturers. The manufacturers in British Columbia feel that, placed on an equal footing with their competitors south of the border, they can control the local market, but the present condition permits of the low grades of lumber being shipped from the United States and sold at a very low price, while Canadian lumber marketed in that country must pay a duty of two dollars per thousand feet. Of export trade no complaint is heard. Several large shipments have been made to Australia, and some to China and Japan.

UNITED STATES.

The high prices for lumber have at last checked consumption in the United States to some extent. Lumber for manufacturing purposes is as much asked for as ever, but such is not the case with building material. This is about the only change in the situation since last report.

The white pine manufacturers in the Upper Mississippi Valley have issued a new price list making an advance of 50 cents per thousand on several items. In that district medium grade lumber is in fair supply, but there is a shortage of factory plank and No. 3 and No. 4 boards and strips. Some markets also report a scarcity of piece stock. At eastern wholesale points receipts of late have been quite heavy, owing to the fact that a rise in freight rates from the upper lakes is probable. Prices are firmly maintained. All grades of box lumber and No. 3 barn were advanced $1.50 per thousand at Tonawanda last week, and a further advance of 50 cents is looked for. Buffalo dealers report a great scarcity of low grade pine. Cutting up stock is being sold on the basis of $31.50 for inch No. 1 cuts. Spruce prices at Boston are higher, and manufacturers are confident of being able to maintain the advance.

Hardwood lumber is being bought up as fast as it can be located, the price being largely a secondary consideration. Cull elm and basswood is quoted at Tonawanda at $17 to $18, the price at which firsts and seconds were selling less than one year ago. The sale is reported of a quantity of thick elm at $32. The demand for maple and ash in the eastern states is increasing.

FOREIGN.

The consumption of lumber in Great Britain is of very satisfactory volume, and prices generally show a tendency to advance. Particularly is this the case with spruce deals, which are advancing very rapidly. At a recent sale at London, 9 and 11 inch sold at £8 5s to £8 10s, while about two months ago the quotations were fully 10s below this figure. Spruce prices are, however, governed to some extent by the prices of Swedish whitewood, which is now quoted as high as £9. In view of this there is no difficulty in realizing high prices for spruce deals. Prices of pine deals at some of the ports show an advance, but at Liverpool and London receipts have been so heavy that the market is depressed. There is a feeling that imports must be decreased before there can be any substantial improvement. At Glasgow 3 and 4 inch pine deals, which have been dull of sale for some time, are showing more activity. Red pine deals are in active demand and receipts are eagerly picked up. For square and waney timber the market is rather quiet.

STOCKS AND PRICES.

Hemlock now sells at Buffalo at the base price of $13.50, as against $8.50 one year ago.

Munro & Ebert, of Little Current, Ont., are taking out some fine board timber at Bay Finn.

The steamer Bogstad has completed loading deals at Liscombe, N.S., for the United Kingdom.

The steamer Alderney sailed from St. John, N. B., last week for a British port, with 1,695 standards of deals.

The steamer Bentala sailed from Richibucto, N. B., on September 28th, for Liverpool, Eng., with 1160 standards of deals.

White ash is still quoted at Boston at $45 for 1 inch, $50 for 1¼ and 1½ inch and $55 for 2 inch. Elm is being received in that market in increased quantity.

Washington cedar shingles have advanced in the Boston market 5 cents, and although eastern cedar shingles cannot be quoted higher, there is a visible stiffening of prices.

Montgomery Bros. & Co., of Buffalo, N.Y., are reported to have closed a contract with Joseph Turner, of Midland, Ont., for the immediate delivery in Buffalo of 10,000,000 feet of pine lumber.

At a meeting of the eastern spruce manufacturers held at Boston, Mass., on October 4th, a general advance in prices was made averaging about one dollar per thousand. The average price on 10 and 12 inch spruce is $19, and on 10 to 12 inch randoms $18.50. For covering boards 5 inches wide and up the price is $15. Many of the spruce mills have been restricted in their operations lately by low water in the rivers, and for several weeks it has been almost impossible to place orders at the mills with any certainty of securing shipment.

It is said that F. W. Gilchrist is desirous of increasing his holdings of Ontario timber limits, for which purpose Mr. F. S. Dunham, of Alpena, Mich., is obtaining particulars of timber properties in the market.

Up to October 1st of this year Buffalo received 156,294,000 feet of lumber and 99,127,000 shingles, against 125,962,000 feet of lumber and 69,530,000 shingles up to same date last year, but so great has been the demand that stocks now held are unusually low.

The yard dealers in Chicago are selling white pine lath at $4 and mixed lath at $3.75. Recent sales on the cargo market have been on the basis of $3.50 for white pine and from $3.25 to $3.40 for hemlock and mixed lath. At Minneapolis No. 1 white pine lath sells at $3.75 and mixed at $3.50.

The Canadian-American lumber firm of Alger, Smith & Co. purpose cutting at their Duluth mill next year about 60,000,000 feet of lumber, as against 40,000,000 feet this year. They have three camps on Pigeon river on the Canadian side, and will make a larger cut than usual there.

The Elder-Dempster Co., steamship owners, are also engaged in the cultivation of fruit on the Canary islands, and recently placed an order with an Ottawa firm for a cargo of box shooks for the manufacture of crates. The stock will be shipped to the Canary island on the steamship Turrett.

D. L. Mather, of Keewatin, Ont., has secured a contract from the Canadian Pacific Railway for from forty to fifty thousand jack pine ties. These ties are being taken out at Eagle Lake, and will be loaded at Vermillion Bay. The use of jack pine was decided upon as a result of the scarcity of tamarac and the difficulty of handling it in the summer season.

Robert Ward & Co., Limited, of Victoria, B. C., recently loaded the American schooner Fred J. Wood with mining props for Santa Rosalio, Mexico. She carried a cargo of 9,300 pieces, containing 180,000 lineal feet. The export of props has in the past constituted a profitable side industry of British Columbia lumbering, and the re-opening of the mines of Mexico is greatly stimulating the trade.

Following is a comparative statement of timber, &c., measured and culled at Quebec to October 10th, 1899:

	1897.	1898.	1899.
Waney white pine, cu. feet.	4,185,830	1,879,395	1,778,594
Square white pine, cu. feet.	823,772	1,060,634	591,324
Red pine, cu. feet	210,592	239,349	159,937
Oak, cu. feet	1,425,165	1,012,598	522,178
Elm, cu. feet	662,547	474,194	456,841
Ash, cu. feet	132,435	34,775	56,546
Basswood, cu. feet	25		
Butternut, cu. feet	673	955	60
Tamarac, cu. feet	396		415
Birch and Maple, cu. feet	271,176	112,500	244,530

Following is the result of a sale of wood goods held by Bennetts, Limited, at Manchester, Eng., on September 27th: First Quebec spruce, 13 ft. 3 x 9, £7 15s per standard; second quality, 12 ft. 3 x 9, £7 10s; third quality, 12 ft., 3 x 9, £6 15s. St. John spruce, 13 ft., 4 x 8, £7 5s; 9-15 ft., 4 x 7, £7 5s; 14 ft. 4 x 5, £6 5s; 14 ft. 4 x 6, £6 12s; 13 ft., 3 x 10, £7 2s 6d; 16½ ft. 3 x 10, £7 12s 6d. First Quebec pine, 12-16 ft., 3 x 12-19 in., £24 5s; 11-16 ft., 3 x 13-19, £24 5s; second quality, 10-16 ft., 3 x 7-11, £12; third quality, 10-16 ft., 3 x 11, £9 10s.

LONDON WOOD SALES.

Messrs. Churchill & Sim, London, Eng., held an extensive auction sale of wood goods on September 27th, at which Canadian goods realized the following prices:

Pine—Ex Mount Royal, from Quebec, 6-11 ft. 1x9-12 in. red pine, £8 5s; 6-11 ft. 1x8, £7; 1x7, £7 5s and £7; 1x6, £7; 1x5, £6 5s; 1x4, £5 10s and £5 15s. Ex Springfield from Quebec, 7 ft. 3x11 in. unassorted white pine, £7 5s; 2-3 ft. 3x11 in., £6 10s; 2-7 ft. 3x5-8, £6; 2-8 ft. 3x11 fourth quality, £6 15s; 2-8 ft 3x11, £6 15s. Ex Unique, from Quebec, 12 ft. 3x11 in. third quality, dry, £10 15s and £10 5s. Ex Memnon, from Quebec, 12-16 ft 3x11 in. first quality, £20 5s; 10-11 ft. 3x11, £16 15s; 10-16 ft. 3x12-20, £17 15s; 12-16 ft. 3x10, £17 10s; 12-16 ft. 3x8, £15 5s; 12-16 ft. 3x7, £14 15s; 12-16 ft. 3x4-6, first quality, £13 5s; 10-11 ft. 3x9-10, £14 15s; 10-11 ft. 3x7-8, £12 10s; 9-11 ft. 3x5-6, £11 5s; 6-8 ft. 3x4-13, £10 10s.

Spruce—Ex Monmouth, from Quebec, 12 ft. 3x9 first quality, £8 15s; 13 ft. 3x9, £8 15s; 13 ft. 3x9, £8 15s and £9. Ex Springfield, from Quebec, 12-14 ft. 3x9-14 third quality, £8 10s; 12ft. 3x9-15 fourth quality, £8 5s. Ex Souverain, from Dalhousie, N.B., 12-18 ft. 2x6 unassorted, £6 15s.

Birch planks—Ex Halifax City, from Halifax, N.S., 168 pieces 10-16 ft. 3x8 in. 8 1-2d per cubic foot; 279 pieces 9-15 ft. 3x7, 8 1-2d; 211 pieces, 7-12 ft. 4x7, 9d; 320 pieces, 8-17 ft. 3x7, 8 1-2d.

A sale of birch and maple timber, ex Anatolia, from St. Johns, N.B., was held by Mr. A. F. &D. Mackay at Liverpool, Eng., on September 22nd, with the following result, the lots comprising from 17 to 95 logs in each: Prime fresh birch timber 20 inches deep and up, 2s 6 1-2d per cubic foot; 19 and 19 1-2 in., 21 1-2d; 18 1-2 in. 21d; 18 in. 20 1-2d; 17 1-2 in. 19 1-4d; 17 in. 19d; 16 1-2 in. 18 3-4d; 16 in. 19 d; 15 1-2 in. 18 and 18 1-4d; 15 in. 17 1-2d; 14 1-2 in. 17 1-4d; 14 in., 17d; 13 1-2 in. and under, 16 1-2d. Maple timber 15 in. and up, 16 1-4d; 14 1-2 in. and under, 15 3-4d. Ash, 17 and 18 1-2 in., 15 3-4d. Elm, 15 in. 15 3-4d.

THE CUTTING OF TIMBER.

The Ontario government was interviewed recently by a deputation of lumbermen, including Cornelius Whitney, of the St. Anthony Lumber Co.; Alex. Fraser, Ottawa; H. Robinson, Ottawa; A. McKenzie, Ottawa; C. McLachlin, Arnprior, and J. Gillies, Braeside. They asked the government to grant licenses for cutting hardwood timber on land in Algonquin Park. Other matters in connection with lumbering were discussed at some length. The government promised nothing to the deputation, saying they had no accurate information regarding the timber in the park.

The Montreal members of the Quebec government were last week waited upon by a deputation of lumber merchants, including Hon. Geo. Bryson, Hon. J. K. Ward, David Gillies, M.P.P. for Pontiac, Rodolph Tourirlee, and E. B. Eddy. They asked for modifications in the regulations respecting the cutting of timber. Mr. Parent has undertaken to thoroughly revise the code of regulations, amending such clauses as do not now work satisfactorily, and introducing new articles where desirable. Following the plan which he adopted with such fortunate results in his revision of the fish and game laws, he is taking the views of all parties interested in the timber trade, merchants, settlers, etc.

CONDITIONS IN AUSTRALIA.

The monthly timber report of Fraser & Co., Melbourne, thus reviews the Australian market:

The state of the market has on the whole shown some little improvement within the past few weeks, many buyers having purchased supplies from stocks at the wharf and out of the yards, in the hope of not only a better demand being shown in the near future for both local and country requirements, but also with the belief that an increased range of values may shortly rule for many of the varied descriptions of timber which come upon this market. Up to the present, however, no advance in prices has been shown in flooring, lining, and weatherboards, but for Oregon better rates are now ruling, and would appear likely to continue, as supplies on hand of this lumber are no more than sufficient to meet early actual wants. Several other kinds of timber have also slightly increased in value since the issue of our last report.

Both f.o.b. and freight rates at the chief centres of supply have a decided hardening tendency, and this fact will, no doubt, to some extent help to improve, at no distant period, the condition of our local market; and ere the bulk of shipments arrive, which are now on the way and arranged for, it is probable that a

LAWRENCE & WIGGIN
Wholesale Lumber Dealers - 55 Kilby Street, BOSTON, MASS.

higher basis of valuations will be found existing for many classes of timber imports.

OREGON PINE.—Imports: 1,120,632 feet super. Arrival: Star of France, from Chemainus. About 600,000 feet from the above shipment has been disposed of at up to £6 10s, the balance of the cargo going into importers' yard. An increase of 5s per 1000 feet super. upon this figure is now sought. The cargo per 'Carrolton,' to arrive (but not yet loaded), has been sold in a few hands, at a price not transpired.

LATHS AND PICKETS.— Imports: Laths, 105,570 pieces; pickets, 44,080 pieces. Arrival: Star of France, from Chemainus; and steamer, from Sydney. Business has been active in both these lines, but supplies are below requirements. Laths have been sold at from 33s 6d to 35s, and pickets are worth £7 10s per 1000 pieces.

HINT TO CANADIAN MANUFACTURERS.

The Liverpool correspondent of the Timber Trades Journal, London, Eng., in referring to the lumber market, says:

"No one branch of our trade seems to show diminution of activity, if, as we have said before, we except the Canadian pine trade in deals and boards. This market, like other recipients of large direct importations, is depressed from the large supplies which still come forward upon the old stock. If this part of the market is to have a rebound from its present dull condition, it can only be found in a diminution of production. But this is hardly likely to occur. The millmen must have had a rare good time for a couple of years, and they are not likely to stay their hands until they are forced by a lower price upon the spot.

"At any rate, this market and several others round the coast are over-burdened with stocks, and until these are cleared, or lessened to a material degree, we cannot hope for a better state of things here.

"What the Ottawa people may think is quite another story.

"Spruce deals keep slowly working upwards in price. Here we have some large cargoes landing which were bought at prices nominally 5s. per standard below the current rates. The steamer "Asphodel" is landing about 700 standards of spruce deals for Jas. Halsall & Son, from which they should do well, as the demand keeps strong. One large importing firm tells us they have only about 1,000 standards in stock, which they will keep for the satisfaction of small orders. All who have stocks of spruce deals are holding on to them, as every indication points to still further advances as the closing season goes onwards to its termination. For a large steamer cargo now on the way £7 is wanted, and will probably be obtained before arrival."

SHIPPING MATTERS.

The bark Africa has been chartered to load lumber at Boston for Buenos Ayres at $9, if Rosario $10. The bark F. V. Lovitt will load lumber at Yarmouth, N.S., for Buenos Ayres, at $10.50.

The Lumber Section of the Toronto Board of Trade has been notified by the G.T.R. that after November 1st lumber rates to Eastern States points will be advanced to the basis of 21½ cents per 100 lbs. from Georgian Bay points to New York, other points pro rata; but the recent tariff advancing the rates to Buffalo, Suspension Bridge and Tonawanda will not be disturbed.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., OCTOBER 18, 1899 No. 39.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

The BRITISH COLUMBIA LAND & INVESTMENT AGENCY, Limited,
VANCOUVER or VICTORIA, B.C.

FOR SALE.—Saw and Planing Mill, 40 h.p, doing a good local and shipping trade. The above will be sold at a reasonable figure. KNECHTEL & YOUNG, Turtle Lake, Parry Sound District.

CURRENT TRADE CONDITIONS.

ONTARIO.

So far October has been an active month in the lumber business, but there are signs that the trade is settling down to a winter basis. Some of the mills are closing down, while others will operate for some weeks yet. Reports are but a repetition of low stocks, so that no weakening of the market is likely to result from a falling off in demand. The winter requirement for local manufacturing purposes is certain to be quite up to the average, if indeed it is not considerably greater. The position of stocks in the Eastern States is such that a demand from that quarter is assured, particularly for low grade lumber, of which there is a great scarcity. Under these conditions, it is the general opinion that the sawing season of 1900 will open with stocks of pine lumber lower than they have been for years. The hardwood situation has not changed; stock is scarce and difficult of purchase. Complaint is made, not without foundation, we believe, that the margin between the manufacturer's price and that which can be obtained from the consumer is too limited; in other words, the manufacturer has taken every advantage of the improved demand, while the dealer has had great difficulty in educating the retailer and consumer as to the full extent of the advance in prices. It is a question if prices of hardwood lumber have not in some instances been advanced too rapidly.

QUEBEC AND NEW BRUNSWICK.

An event of more than usual interest to the lumber trade of Montreal was the awarding last week of the contract for the timber required for proposed harbor improvements to be carried out next year. The contract is one of the most important which has been given out for some time time, representing a figure well up to one hundred thousand dollars. The competition was quite keen, the successful tenderers being the Shearer & Brown Company, who submitted a bulk tender. Apart from this contract, trade is generally quiet. A few vessels are loading and under charter for the British market, although the quantity which will go forward between now and the close of navigation will be small. The month of September showed a falling off in shipments of lumber from Montreal of $407,143, as compared with same month in 1898, the value for the two months being $1,321,436 and $914,293 respectively. Reports from New Brunswick state that there is very little stock in the hands of manufacturers. Such stocks of British deals as are still held on this side are in the hands of shippers, who may possibly hold them over for spring shipment on account of the scarcity of vessels and high freights. The rate from St. John to the west coast of England is 52s 6d to 55s. Two steamers have been chartered at the latter figure, which is the highest rate paid so far this season. There is good enquiry for lumber tonnage from Nova Scotia and New Brunswick to the West Indies and South America.

MANITOBA AND BRITISH COLUMBIA.

A brisk movement of lumber is reported from Manitoba and the Territories. A number of new buildings and improvements have just been commenced, and most of the finishing work will be done during the winter months, thus keeping up the demand for lumber. The mills in British Columbia are so busy with local and eastern trade that, with one or two exceptions, export business is receiving little attention. Several of the mills are shipping lumber to Cascade City and other northern points to be used for building purposes. Shingle manufacturers are likewise experiencing a heavy demand for their product.

UNITED STATES.

The movement of lumber in the United States has shown a slight falling off dur-

ing the past week. This has been due to two causes, first, the indisposition of retail dealers to stock up at the present prices, and second, the high freight rates ruling. There appears to be an opinion among retail dealers that prices will weaken during the winter months, but in contravention of this it is pointed out that so far as white pine is concerned, the mills are receiving enquiries for stock to be delivered next season at the prices prevailing at the present time. Freights from Duluth to Buffalo have advanced from $4 to $4.50, and as a consequence the dealers are only bringing down such lumber as must be moved. The feature of the pine market is the active demand for the coarser grades. That most enquired for at Buffalo, Tonawanda and other eastern markets is 1×10 and 1×12 inch box and No. 3 barn. The scarcity in the east of cheap cutting-up stock is such that sash, door and blind manufacturers may be forced to use higher priced lumber. There is also a reported scarcity of spruce, and manufacturers are realizing high prices. It is impossible to point out any material change in the hardwood trade. The demand has not abated, while stock is getting scarcer. Prices are stationary, and if any advances are made, they are likely to be of a moderate character. The shingle market is firm, with some possibility of an advance in the near future. New Brunswick cedar shingles of No. 1 quality are selling in Boston at $3.25.

FOREIGN.

The wood trade of Great Britain is now giving some attention to next year's shipments, although as yet little business, if any, has been concluded. Shippers are said to be asking higher prices, and there are indications that deals will be higher, while battens will remain about the same. It is expected that a large amount of business will be transacted before the close of the year.

Within the past fortnight there have been several advances in pine and spruce deals. At London 3×11 first pine is selling at £26 to £26 10s per standard and 3×11 first spruce at £14, while 3×11 third spruce makes £9, and 3×9 £8 10s. These are the prices paid by retail dealers and large consumers. There is a scarcity of broad first pine deals in brokers' hands. One parcel of four inch, principally 15 inches wide, is reported to have been sold at £28 17s 6d per standard. Long lengths of spruce deals, 18 feet and up, 9×3, are also scarce. Waney and square pine timber is rather quiet, although prices remain firm. The demand for Quebec oak and elm is good.

STOCKS AND PRICES.

No. 1 pine lath is now quoted at Minneapolis at $3.75.

The Pembroke Lumber Co. will get out about 40,000 logs on their Dumoine limit this winter.

A cargo of spruce deals has just been purchased at £7 per standard delivered at a Lancashire port.

It is reported that the cut of logs in the state of Maine during the coming winter will be unusually large.

The steamer Manitinea sailed from St. John, N. B., last week for a British port, with 2,621,000 feet of deals, shipped by W. M. Mackay.

The Dickson Co., of Peterboro, purpose operating this winter on the old Scott limits north of Bail lake, employing nearly 500 men.

S. A. Marks, of Thessalon, Ont., wants offers for taking off and delivering on bank of Thessalon river 160,000 feet pine timber, 8,000 ties, and 250 cords of wood.

It was recently reported that Montgomery Bros. & Co., of Buffalo, had purchased 20,000,000 feet of lumber at Midland and other Georgian Bay points. A later report states that the quantity was only 9,000,000 feet.

Joseph Turner, of Bay City, Mich., is having 25,000,000 feet of lumber manufactured in Ontario this season, and expects to cut 50,000,000 feet of logs this winter. He recently sold 1,000,000 feet of mill culls to the Michigan Manufacturing Co. at $8, which, with the freight and $2 duty added, made the cost $12 f.o.b. Bay City.

The Bell Telephone Co., through Mr. F. G. Walsh, superintendent at Winnipeg, are asking for tenders for the supply of 4,000 cedar poles, 25 feet in length, with 7-inch tops, delivered between Portage la Prairie and Winnipeg.

Lath are quoted at Saginaw, Mich., at $3.75 and $4 in wholesale lots and $4.50 in car lots. Lumber prices have an upward tendency. An offer is noted of $13.50 for mill culls, but the lot must have been above the average in quality.

The schooner Ella Sayer sailed from Quebec on October 13th for London, with a cargo of deals, shipped by H. R. Goodday & Co. The bark Rebekah Crowell sailed on the same day for Yarmouth, England, with a lumber cargo, shipped by Dobell, Beckett & Co. The steamship Abbey Holme is loading a wood cargo at Quebec for the United Kingdom.

An important lumber contract was awarded in Montreal last week, it being for the annual supply of timber for the harbor works to be constructed during the year 1900. The successful tenderers were the Shearer & Brown Co, at $92,726.32. The W. H. Kelly Lumber Co. tendered at $79,185.19, or $13,541.13 lower than the Shearer & Brown Co., but an accepted cheque did not accompany the tender, and on this ground it was ruled out.

Several timber berths were sold at the crown lands office, Fredericton, N. B., last week, to the following parties: J. E. Moore, St. John, six births on Maguadavic river, Shin creek, Rickelegan river and Kedin lake, at upset price; Hugh McLean & Tate, two mile berth on South Salmon river, $21 per mile; A. C. Estabrooks, two mile block in Farnham, Sunbury county, at $20 per mile; Timothy Lynch, two mile berth at head of Northwest Branch Little S. W. Miramichi, at upset price; Frank Todd, two mile block on West Magaguadavic river, at $8.10 per mile.

A meeting of hardwood lumber manufacturers was held at Traverse City, Mich., recently, to complete the reorganization of the Michigan Hardwood Lumber Association. It was generally agreed that the following prices for hardwood lumber should rule: Log run — 1-inch, $14; grades, mill culls, $6; shipping cull, $7.50; common, $12.50; firsts and seconds, $17.50; 1¼-inch, $18; 1½-inch, $19; 2-inch, $20; 2½-inch, $21; 3-inch, $22.50; 3½-inch, $23; 4-inch, $24. Common—1¼-inch, $12; 1½ inch, $12.50; 2-inch, $13.50; 2¼-inch, $14; 3-inch, $15; 3½-inch, $15.50; 4-inch, $16.

Of the Barbados lumber market Messrs. S. P. Musson, Son & Co. say: There have been two arrivals of white pine, the Harold Borden, from Annapolis, N.S., with 142 M. ft., and the sch. Josie, from Calais, Me., with 90 M. ft. merchantable and 10 M. ft. 2nd quality white pine boards. This cargo was sold there, and re-sold here at $22 for shipping and $17 for 2nd quality. In spruce we continue our valuation of $17 or thereabouts. The Blenheim has arrived from Paspebiac with 1,200,000 long Gaspe cedar shingles, a small portion of which have been placed at $3.75; balance of cargo is being stored. The Josie also brought 724 M. cedar laying shingles, which were re-sold at $2.70. A lot of 200 M. have since been placed at $2.60.

WOOD STOCKS AT BRITISH PORTS.

The figures of the stocks of wood goods at some of the leading British ports on September 30th, in comparison with same date one year ago, shows that in nearly every line the supply is lighter. At the public docks at London the figures for the two years, respectively, are as follows:

	1898.	1899.
Pine deals and battens, pieces	1,697,000	1,469,000
Spruce ditto	1,647,000	1,187,000
Oak timber, loads	2,492	2,379
Birch timber and planks, loads	4,223	3,116
Elm and ash timber, loads	1,749	943
Yellow pine, loads	1,473	872
Red pine, loads	183	19

It will thus be seen that at London the stock of Canadian deals and timber of every class is less than one year ago.

The figures for the ports of Liverpool, Birkenhead, Garston, Saltport and Runcorn are as follows:

	1898.	1899.
Quebec square pine, cubic feet	82,000	61,000
Quebec waney pine, cubic feet	238,000	143,000
Red pine, cubic feet	17,000	5,000
Oak, Canadian and U. S., cubic feet	249,000	203,000
Oak planks, cubic feet	103,000	99,000
Elm, cubic feet	25 000	24,000
Birch logs, cubic feet	395,000	215,000
Ash, cubic feet	27,000	28,000
N.B. etc., spruce deals, per std / " pine " " " per std	25,075	20,896
Quebec deals, per std	19,859	17,667

These show that this year the stocks of square and waney pine, red pine, oak, elm and birch timber and New Brunswick and Quebec pine and spruce deals are less, and only in ash timber is there an increase.

The following figures show the stock of timber and deals in the Clyde on September 30th, 1898 and 1899:

	1898.	1899.
1st pine deals, standards	2,436	1,178
2nd pine deals, stds	916	521
3rd pine deals, stds	4,760	2,460
4th pine deals, stds	3,719	2,899
1st pine ends, stds	821	360
2nd pine ends, stds	116	16
3rd pine ends, stds	74	60
4th pine ends, stds	439	9
Unassorted pine deals, planks and boards, stds	1,866	1,476
Red pine, etc, stds	261	214
Quebec spruce deals and boards, stds	3,893	5,708
Lower port spruce, stds	7,050	6,871
Lower port pine, stds	1,868	1,146
Oak planks and boards cubic feet	30,258	64,454
Birch planks and boards, cubic feet	87,556	58,505
Quebec waney and square pine, cu. ft.	883,307	850,706
Quebec elm, cubic feet	143,883	106,289
Quebec red pine, cubic feet	44,139	94,245
Quebec oak, cubic feet	194,725	233,960
Ash, cubic feet	67,123	71,944
Birch—logs, cubic feet	46,518	69,493

In nearly every class of Canadian deals the stocks are considerably less than last year, although Quebec spruce deals and boards show an increase. Square and waney timber and elm, red pine, oak and ash timber are less in quantity, but birch logs show an increase of about 50 per cent.

THE GLASGOW MARKET.

Messrs. Wright, Graham & Co., in their last monthly report, review the timber market at Glasgow as follows:

A good consumption of most kinds of wood is going on. Stocks are moderate and prices on the whole are very firm. Shipbuilding returns show that the amount of new tonnage launched on the Clyde during this month is a record one, viz., 54,904 tons. New orders are reported placed for about 26,000 tons.

WANEY BOARDWOOD.—The demand is improving and prime wood is being held for advanced prices. Sales reported at 2s 6d to 2s 10d for large average; smaller average second class sold at 1s. 5d. to 2s. 3d. per cubic foot.

SQUARE PINE.—Only large prime wood is enquired for. Price 2s 4d to 2s 7d; smaller average and poorer quality 1s 5d to 2s per cubic foot.

RED PINE.—The demand keeps good for large average wood. Price 1s 10d to 2s; smaller wood at 1s 3d to 1s 6d per cubic foot.

OAK LOGS.—Large selected logs have been in demand. Price 2s 9d to 3s per cubic foot; smaller and poorer quality 2s to 2s 3d per cubic foot.

ELM LOGS.—There has been a specially good demand for large prime wood. Price 2s 3d to 2s 5d; smaller averages and second class at 1s 10d to 2s per cubic foot.

ASH LOGS.—The demand keeps active for prime parcels. 15 to 16 inch average 1s 10d to 2s; smaller average at 1s 8d to 1s 9d per cubic foot.

BIRCH LOGS.—They are in fair request. Price, 16 inch average and up, 1s 9d to 2s; 14 to 15 inch average at 1s 5d to 1s 7d per cubic foot.

ROCK MAPLE LOGS.—There is no demand. Price 1s 9d to 2s per cubic foot.

HICKORY LOGS.—There is good stock of ordinary quality on hand. Only selected second growth logs are wanted. Price 2s to 2s 3d per cubic foot. Ordinary quality is selling at 1s 8d to 1s 10d per cubic foot.

QUEBEC WHITE PINE DEALS.—The import has been moderate and sellers are holding for

advanced prices. Broad firsts are scarce and shipments meet with ready sale. Prices rule as follows :

1st quality broad, £24 15s to £26 2s 6d; 11 in. broad, £22 to £23 14s 4d ; 7 in. to 10 in. and ends, £17 3s 9d to £19 5s ; 2nd quality broad, £18 4s 4d to £19 5s ; 11 in. broad, £15 16s 3d to £17 3s 9d. ; 7 in. to 10 in., £13 15s to £14 15s 7d ; 3rd quality broad, £10 6s 3d to £11 ; 11 in. broad, £9 12s 6d to £9 19s 4d ; narrows, £7 4s 4d to £8 5s ; 4th quality broad, £7 11s 3d to £8 5s ; 11 in., £7 4s 4d to £7 11s 3d ; narrows, £6 10s 7d to £6 17s 6d.

Red Pine.—There is an exceptionally good demand, and consignments meet with ready sale at advanced prices. Prices are: 9 and 11 in. by 3 in., £10 6s 3d to £12 7s 6d ; narrows, £8 18s 9d to £9 12 6d.

Quebec White Pine Boards.—The demand is improving and prices are firmer. Quotations are as below :

First quality, 2 in. thick, 12 in. to 15 in. wide, £17 17s 6d to £19 11s ; 1½ in. thick, 12 in. to 15 in. wide, £17 3s 9d to £19 5s ; 1¼ in. thick, 11 in. to 13 in. wide, £16 16s to £18 11s 3d ; 1 in. thick, 10 to 12 in. wide, £15 16s 3d to £16 16s ; 1½ and 2 in strips, 4 in. to 7 in. wide, £14 15s 7d to £16 10s. Second quality—2 in. thick, 12 in. to 14 in. wide, £13 8s 1d to £15 9s 4d ; 1¼ and 1½ in. thick, 12 in. to 14 in. wide, £13 1s 3d to £14 8s 9d ; 1 in. thick, 10 in. to 12 in. wide, £12 to £12 14s. Third quality—2-in., 11 in. to 15 in. wide, £9 5s 7d to £11 ; 1, 1¼ and 1½ in., 10 in. to 14 in. wide, £7 11s 3d to £9 12 6d.

Quebec Spruce Deals.—The demand has been good, and prices are firmer. Prices quoted—£6 10s 7d to £7 11s 3d for third quality ; £5 16s 10d to £6 14s per std. for fourth quality.

St. John, N. B., Pine Deals—Are in better request, and prices have advanced. Prices quoted—£6 14s 2d to £9 5s.

St. John Spruce Deals (2nd quality average).—There is a good consumption. Prices are advancing, and are quoted at £6 10s 7d to £8 18s 9d per std.

St. John Birch Logs.—The market keeps firm. Prices quoted—1s 5d to 1s 9d per cubic foot for 15 in. average and up.

St. John Birch Planks.—There is a good demand. Prices—£6 17s 6d to £8 5s per St. Petersburg standard, according to specification.

White Oak Staves.—The market keeps firm, and prices are well maintained. There is a specially good demand for 34 by ⅞ in. an 34 by 1 in., also 42 to 44 by 1 in. Current prices are: Canada butts—5½ ft. by 3 in. thick, £115 to £125 per mille ; 5½ ft. by 2½ in. thick, £90 to £95 per mille ; 5½ ft. by 2 in. thick, £67 to £72 per mille.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. V. TORONTO, ONT., OCTOBER 25, 1899 No. 40.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and endencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

FOR SALE.

BAND RE-SAW, DOUBLE SURFACER AND Matcher, Four Side Moulder, Sash Sticker, 50 h.p. Boiler and Engine, all in good repair. TORONTO MACHINERY SUPPLY CO., Toronto.

SUCCESSFUL SALE OF TIMBER LIMITS.

The announcement that a sale of timber limits would be held in the Board of Trade building on Tuesday of this week was responsible for one of the largest and most representative gatherings of lumbermen that has assembled in Toronto for some time. Those present included a number of well known Michigan lumbermen. The limits offered for sale were known as the Comstock limits, and were originally purchased from the Ontario government some years ago by Comstock & Company, of Michigan. About two months ago they were purchased by Peter Ryan and E. R. C. Clarkson, of Toronto, by whom the sale was conducted.

The limits comprise berths No. 94, 98, 99 and 102, and known as the townships of Trill, Ermatinger, Foster and Nairn, on the Spanish river and tributaries, comprising a total of 144 square miles. The townships of Trill and Ermatinger were offered in single berths of 36 square miles each, and the two other townships in 9 square mile parcels. The township of Ermatinger was withdrawn by the auctioneer, Mr. Peter Ryan, at a bid of $125,000. For the balance, 108 square miles, there were realized a total of $679,500, or an average of nearly $6,300 per square mile. The highest price paid was $132,500 for a 9-mile berth in the township of Foster. Mr. W. L. Churchill, of Alpena, Mich., was a purchaser to the extent of $282,500.

The result of the sale is regarded as most satisfactory, and indicative of a growing appreciation of the value of timber limits.

Following are the figures in detail:

Parcel No. 1—Township of Ermatinger, 36 square miles, withdrawn at $125,000.

Parcel No. 2—Township of Trail, 36 sq. miles, sold to C. Beck Manufacturing Co., Penetanguishene, Ont., for $160,000.

Parcel No. 3—South-west quarter of Foster township, 9 square miles, sold to W. L. Churchill, of Alpena, Mich., for $82,500.

Parcel No. 4—South-east quarter of Foster township, 9 square miles, sold to J. W. Munro, of Pembroke, for $21,000.

Parcel No. 5—North-west quarter of Foster township, 9 square miles, sold to W. L. Churchill, for $132,500.

Parcel No. 6—North-east quarter of Foster township, 9 square miles, sold to W. L. Churchill, for $67,500.

Parcel No. 7—South-west quarter of Nairn township, 9 square miles, sold to Victoria Harbor Lumber Co., Toronto, for $80,000.

Parcel No. 8—South-east quarter of Nairn township, 9 square miles, sold to Victoria Harbor Lumber Co., Toronto, for $51,000.

Parcel No. 9—North-west quarter of Nairn township, 9 square miles, sold to Ferguson & McFadden, of Ottawa, for $33,000.

Parcel No. 10—North-east quarter of Nairn township, 9 square miles, sold to J. W. Munro, of Pembroke, for $52,000.

There were also offered for sale berths Nos. 5 and 6 in the township of Butt, being 11¼ and 11 square miles, the property of Barnet & Mackie. No satisfactory bid being received, these limits were withdrawn.

CURRENT TRADE CONDITIONS.

ONTARIO.

The week has been an eventful one in Ontario lumber circles. Timber limits to the value of over one million dollars have changed hands, and at figures which augur well for the future of the lumber industry of this province. These high prices also reflect the condition of the lumber market, which is decidedly stronger than it has been for years. From conversation with various lumbermen attending the sale in Toronto, it was learned that stocks at the mill are well nigh exhausted, and that it is now common to refuse orders on account of inability to supply the stock. At the present time the inquiries are not so numerous as during the summer and early fall, but still there is a steady movement of pine lumber and a light trade in hardwoods. In the latter business is restricted on account of almost the entire production of this season having passed into the hands of the consumer.

Reports from the Georgian Bay and Ottawa valley districts tell of arrangements being perfected by the various operators for a heavy production of logs this winter. On the Georgian Bay many of the Michigan as well as Canadian lumbermen will operate extensively, and if not allowed to export the logs, will manufacture them in the province.

QUEBEC AND NEW BRUNSWICK.

Notwithstanding the high freight rates, we note the charter of two vessels to sail from Quebec this fall with timber for the United Kingdom. The cargo of these vessels is probably wanted to fill contracts entered into earlier in the season. Shippers have experienced difficulty this season in fulfilling their contracts, owing to the scarcity of tonnage and high freight rates.

The exports from St. John to the United States for the three months ended September 30th show the value to be $320,256.69, as against $281,696.68 for same period last year. There was, however, a falling off of $14,000 in the value of exports of provincial lumber, stock cut from Maine logs being responsible for the increase. To Great Britain and South America the shipments have been considerably heavier than last year. Prices at the present time are very firm and stocks low.

Saw Mill for Sale

Well situated in the rapidly growing CITY OF VANCOUVER, B.C.; consisting of valuable freehold property, with modern well equipped Mill, having a capacity of about 75,000 feet per day of ten hours.

Also about 10,000 Acres of good

Timber Limits

INCLUDING

DOUGLAS FIR, SPRUCE and RED CEDAR

Easy of access and can be cheaply logged.

For price and terms apply to

The BRITISH COLUMBIA LAND & INVESTMENT AGENCY, Limited,

VANCOUVER or VICTORIA, B.C.

UNITED STATES.

There has been no tendency towards lower prices of lumber within the past week. At the large pine producing centres the season's cut of the mills has been practically disposed of, and the stock to be carried over the winter will be mainly that which is held at the mills because of high freights. The east is still buying lumber liberally, and the wholesale dealers at Albany, Buffalo, Tonawanda and other points anticipate a shortage in the supply of some grades before the opening of lake navigation next spring. In view of the increased cost of bringing lumber to these wholesale centres, a conference of lumbermen was held in Detroit a day or two ago, at which it was expected that the prices on all grades would be advanced by from $1 to $3 per thousand. At Tonawanda the stock of cutting up lumber is much lower than it was a few weeks ago, but there is a large stock of inch and inch and one-half fine common. Buffalo dealers report a very satisfactory trade. There has been a wonderful improvement in spruce within the past fortnight. In New York, for instance, it is almost out of the market, which is something phenomenal. Hardwoods generally are firm. There is an opinion that the supply of basswood lumber will very soon be exhausted, and consumers will then have to look around for substitutes, as the cut of 1900 will not be ready for market before May or June. At Boston white ash is selling at $45 to $47 for 1-inch, $51 to $53 for 1½-inch and 2-inch, and $55 for fine thick common. Owing to a scarcity of 1-inch common ash, a greater quantity of elm is being used.

There has been no weakening in the shingle and lath market. Best 18-inch pine shingles sell at Buffalo at $4, and lath at $3.25. At Saginaw lath is firm at $3.25 to $4.50.

FOREIGN.

From what can be learned spruce seems to be acquiring a firm footing in many of the markets in Great Britain. There is a growing demand, and as stocks have become somewhat reduced, dealers are holding firmly to prices. At a recent sale in London 700 pieces 3 x 9 inch, 12 to 13 feet in length, reached the price of £11 10s, the third quality selling at £8 15s. These prices are much better than could be obtained earlier in the season. There has also been some improvement in pine, and notwithstanding the large summer importation, the stocks on hand are not large. All classes of red deals are in strong request. As yet no contracts have been placed with Canadian shippers for next season's goods, although it is learned that a buyer in Holland has closed a contract with a Sodderhamn firm for 4,000 standards of whitewood for f. o. w. shipment on the basis of £7 10s per 9 inch deals and £6 12s 6d for battens. A sale of Sundswall whitewood has also been made to France, on the basis of 190 francs, or about £7 5s, for 3 x 9 unassorted. There are indications that prices for early spring cargoes will be quite as high as those ruling this year.

STOCKS AND PRICES.

Lath is selling at Duluth, Minn., at $3.50.

Sanderson's saw mill at Prince Albert, N. W. T., has closed down for the season, having cut over 2,000,000 feet of lumber.

G. L. Black & Son, of Sackville, N.B., have purchased 7,000 acres of timber land near that place for the sum of $11,010.

The Delta Lumber Co., of Detroit, have decided to operate quite extensively this winter on the Georgian Bay, taking out cedar ties, posts, etc.

M. M. Boyd & Co., of Bobcaygeon, Ont., have, for several past weeks, been shipping out three-quarters of a million feet of lumber per week.

The Saginaw Lumber & Salt Co., of Sagainaw, Mich., have started four camps in the Georgian Bay district, on limits exempt from the Ontario legislation.

Capt. R. L. Graham, of Wiarton, has purchased a saw and shingle mill on Manitoulin island. He intends putting in a large stock of logs during the coming winter.

Following are the prevailing prices for lumber at Ashland, Wis: Short 2 x 12, $11.50; 18 foot of same length, $12.50; 2 x 4 to 2 x 10, 1 inch, 10 to 16 ft., $10.50; mill culls, $10.50; No. 4 boards, $11.60; No. 1 12 inch white pine boards, $19.

Mr. D. C. Cameron, manager of the Rat Portage Lumber Co., states that the cut of logs in the woods south of the Lake of the Woods this winter will be about 100,000,000 feet. This will be the largest cut yet made, and about 40,000,000 feet greater than last year.

The McMaster property at Kingston, N. S., including a saw and grist mill, sash and door factory, and extensive timber lands, has been acquired by Clarke Bros., of Bear River. It is their intention to erect a portable mill on the property to cut about 1,500,000 feet annually.

The largest sale of lumber ever made on Chequamegon Bay was closed last week. The Keystone Lumber Co., of Ashland, Wis., sold the entire cut of the mill for the season of 1900 to the Edward Hines Lumber Co., of Chicago. The sale will approximate 50,000,000 feet, and in value will represent over $600,000.

Logging on the Tobique river, in New Brunswick, is being pushed vigorously. James McNair has four camps, J. Hale five camps on the Little Tobique, and R. A. Estey, a large crew on the Gunquac. Geo. Upham is preparing for extensive operations on the Wapskyhagan, and J. E. McCollum has two camps on the Manakezel stream.

J. H. McNally has purchased the interest of his partner in the business of Flett & NcNally, lumber manufacturers, Desbarats, Ont. It is Mr. McNally's intention to cut next season 100,000 feet of oak and birch, and between 300,000 and 400,000 feet of pine. He purposes cutting the hardwood during the winter, besides doing his custom sawing.

Following is a comparative statement of timber, &c., measured and culled at Quebec to October 24th, 1899:

	1897.	1898.	1899.
Waney white pine, cu. ft.	4,310,682	1,903,148	1,780,485
White pine, cu. feet	832,557	1,062,157	592,088
Red pine, cu. feet	210,704	239,512	159,937
Oak, cu. feet	1,448,960	1,072,588	600,882
Elm, cu. feet	662,577	474,194	456,841
Ash, cu. feet	132,435	35,164	56,546
Basswood, cu. feet	5		
Butternut, cu. feet	673	955	60
Tamarac, cu. feet	396		415
Birch and Maple, cu. feet	271,176	112,500	244,530

SHIPPING MATTERS.

The steamer Benedict has been chartered to load lumber at St. John, N. B., for w. c. England at 55s. The steamer Lecurne has been fixed at same rate.

The schooner Ravola is chartered to load lumber at Halifax for New York at $3.25. The schooner Bessie Parker has been chartered to load lumber at King's Ferry for Bermuda at $7.50.

Following are current rates on lumber from British Columbia ports: To Syndney, 45s to 46s 3d; Melbourne or Adelaide, 52s 6d to 53s 9d; Port Pirie, 50s to 51s 3d; Fremantle, 63s 9d to 65s; Shanghai, 53s 9d to 55s; Kiao-Chau, 55s to 56s 3d; Tientsin, nominal; Valparaiso, f.o., 51s 3d to 52s 6d; South Africa, 65s to 67s 6d; U. K. or Continent, 75s to 77s 6d.

FIRES.

Smith's sawmill at Gardner's Creek, St. John county, N.B., was destroyed by fire last week, at a loss of $1,000.

The large planing mill and sash factory of Geo. W. Murray, at Winnipeg, Man., was totally destroyed by fire on Oct. 19th. The loss is about $15,000 and insurance $6,000.

The steam saw mill of Joseph Bedard, situated about one mile from the town of Richmond, Que., was burned last week, together with about 60,000 feet of lumber. It is said that there was no insurance.

Lumber manufacturers in Canada desirous of having a representative in Great Britain may obtain the address of a party willing to act in that capacity by communicating with this office. First class references are offered by our correspondent.

ADVERTISING THAT PAYS.

Mr. James Murphy, Hepworth, Ont., writes THE LUMBERMAN as follows: "Please remove small 'ad.' for sale of beech lumber. I am flooded with inquiries for it, and it is sold —thanks to your 'ad.'"

SPRUCE LATHS WANTED.

In the "Wanted and For Sale" department of this issue appears the announcement of a party desirous of purchasing 60,000,000 feet of spruce laths, from 2 to 5 feet long. This enquiry is worthy the attention of manufacturers of this stock.

TIMBER LIMIT PURCHASE.

At the Ontario government sale of 1892, Mr. G. W. Pack, of Alpena, Mich., purchased a 36-mile timber berth in the township of Morgan for the sum of $373,650, the highest price ever paid for a berth of that size. Within the past few days Mr. Peter Ryan, of Toronto, has sold this limit to the Michigan Land & Lumber Co. for a sum said to be considerably larger than that originally paid by Mr. Pack. The exact amount has not been made public.

SUSPENSION OF COASTING LAWS.

In view of the prevailing sentiment regarding the action of the Dominion government in suspending the coasting laws for the balance of this season, we publish below a letter on the subject from a well known firm of vessel owners and lumber manufacturers:

THOROLD, ONT., Oct. 23rd, 1899.

To the Editor of the CANADA LUMBERMAN:

DEAR SIR,—In reply to your request for our opinion on the suspension of the coasting laws by our government and permitting American vessels to engage in the Canadian trade, we would say that if a sudden disaster overtook and demolished half of our Canadian fleet the surprise would be no greater, and probably the results from the disaster would be less damaging to Canadian vessel owners. In that case the lost vessels would be replaced, but if American vessels, retaining the whole of their trade, are allowed equal terms with us in our Canadian trade, there will be few people in this country so foolish as to invest money in Canadian vessels.

The government should at least have given us reasonable warning. We should have been allowed, say, one year of the Globe's "growing time," so that Canadian vessel owners might get back some of the money which they lost while American vessels were carrying 90 per cent. of our Manitoba grain to Buffalo.

When a delegation representing the Lumbermen's Association asked the Dominion government to place a duty on United States lumber coming into Canada, they advised us that before reaching a decision in the matter they wished to hear the other side of the question. Why, we ask, did they not do the same thing in this case and give the Canadian vessel owners an opportunity of presenting their views? Had the government authorities done this, we cannot think that the action regarding the suspension of the coasting laws would have been taken.

Unfortunately, Canadian vessel owners are few in number, and under the new law they will be fewer. They are not a very important body when compared with the railway magnates, even though the latter charg far more for carrying grain than we do.

During this season, up to the 10th of October, Canadian vessels were frequently obliged to leave Fort William and go to Duluth and elsewhere for cargoes, and at the present time we are told there are less than two million bushels of grain at Fort William, while there is elevator capacity for somewhere between six and eight million bushels. Notwithstanding the statement (certainly not in accordance with facts) that there are four

million bushels of grain at Fort William, we are certain that there are plenty of Canadian vessels to carry the grain, and the rates are from one half to one cent less to the Georgian Bay than to Buffalo.

It is well known that a lot of Canadian grain vessels are at present engaged in carrying lumber at better rates than can get for Fort William grain. Why should we be expected to carry grain cheaper than other cargoes? The lumber rates from Georgian Bay to Buffalo during the past month have been $3 to $3.50 per thousand feet, while grain rates from Fort William to Georgian Bay ports were from four to four and one-half cents per bushel. Therefore, the lumber rates are the better, and the trouble is not a scarcity of Canadian vessels, but a lower rate on grain than on other cargoes, and we think the government should not allow themselves to be imposed upon by interested railways and grain dealers and induced to give away to the Americans the grain trade of Manitoba and the North-west that rightly belongs to Canadians, and especially in this, the first year in many that the Canadians could clear enough to pay insurance.

Canadian vessel owners have always been favorable to reciprocity in the coasting trade, but the Americans have not been, and even shut us out from carrying grain from an American to a Canadian point unless it was for export. Twenty years ago we had a good Canadian fleet of vessels, but owing to a refusal of the Americans to allow us reciprocity in coasting, the number of our vessels has been steadily decreasing, and now, when our Manitoba grain trade is opening up and there is an inducement to enlarge our fleet again, the Americans who refuse us the coasting privilege are allowed to come in and take the work that Canadian vessel owners have all along considered exclusively Canadian. This looks like a transportation question with a vengeance, and we trust your influential journal will not allow it to pass unnoticed.

We have heard a great deal as to the necessity of unity in building up the country, but it looks as if the vessel men and the lumbermen are not included. Apparently the lumbermen must struggle along under the handicap of a two dollar duty on lumber, and the vessel men take a second or third place in the transportation question.

Sincerely yours,
J. & T. CONLON.

TIMBER FOR MONTREAL HARBOR IMPROVEMENTS.

In last issue it was stated that the contract for the supply of timber for harbor improvements at Montreal had been awarded to the Shearer & Brown Company, at $92,726.32. It has since been learned that the following firms tendered: Shearer & Brown Company, Montreal; J. & B. Grier, Montreal; Owens Lumber Company, Montreal; W. H. Kelly Lumber Company, Buckingham, Que.; Forester, Brunelle & Benoit, St. Johns, Que. The specifications call for the following quantities: Round hemlock timber, 455,000 feet; hemlock faced timber, 12 x 12 inches, 16 to 20 feet in length, 130,000 lineal feet; round pine timber, 71,636 lineal feet; flat pine timber, 14 feet long, not less than 8 inches in thickness, 14,000 lineal feet; pine face timber, 10 x 12 inches, 16 to 20 feet in length, 50,000 cubic feet; red pine or tamarac piles, 44 to 50 feet long, 200 pieces, 9,200 lineal feet; red pine coping, sawn, 10 x 12 inches, and not less than 18 feet in length, 20,000 feet B.M.; hemlock planks, 12 feet long by 3 and 4 inches thick and 10 inches wide, 600,000 feet B.M; spruce planks, 13 feet long by 2 x 10 inches, 40,000 feet B.M.
